Local and Personal

W. Haynes was a visitor to Tofield over the week end.

Mrs. Chapman of Edmonton, visited with home folk over the week end.

Miss Helen and Audrey Ide spent the week end at home.

W. South spent the week end at home after attending the Annual Conference of the United Church of Canada in Edmonton

Miss Flow spent the week end at Edmonton.

A large number from Tofield attended the field day at Ryley on Monday. Four teams from Tofield took part in the event. The first game in the morning between the Ryley Field Rogers and Tofield Trail Rangers resulted in a victory by the Tofield boys by a score of 13—14. Ryley won a big lead in the first part of the game, but the Tofielders hit their stride, pulled down their opponents lead and won by the odd run.

The Tofield intermediates lost to the Ryley Intermediates by the score of 1—5. The game was very even throughout Ryley made the first score by some good playing. In the third inning the score was tied. During the next few innings the battery for both Tofield and Ryley played the greater part of the game. Ryley made another score in the sixth inning and kept the lead. At the beginning of the eighth, Ryley scored three runs. The closing of the eighth found Tofield batting for even up the score, but they failed. The final score was 4—5.

The Tofield Men's basketball team won their first game of the season by defeating Ryley to the score of 18—8. The play was very much one sided but a very snappy game was played by both sides.

The Junior Girls' Team won their first game from Ryley by a score of 8—5, but lost to the Holden basket, ballers by 18—10. Very much credit is due the Tofield girls for the game they played for both the above teams were much older and heavier.

Mr. and Mrs. Chatterhan motored to Edmonton on Sunday.

Bert Calvert spent the week end at home.

Mr. A. Dodds spent several days in Tofield this week.

Miss Margaret Ross, Mr. F. Brock, Celia Ross and W. Parton spent the week end in Tofield visiting at the home of Mr. and Mrs. Telephone system.

Miss M. Brewster of Edmonton visited over the week end in Tofield visiting friends.

Miss M. Green formerly on the staff of the telephone system, has returned to spend the week end.

Miss V. Gregg spent the week end at the Hay Lake home.

Mr. and Mr. McDonough spent the week end at Fort Saskatchewan

Mr. and Mrs. McKevell of Edmonton spent the week end at the Abbotsford.

Mr. Taylor and a girl friend of his motored to Tofield on Monday.

Mrs. Taylor journeyed to Edmonton on Saturday. Mrs. D. E. Ball assisted in the store during Mrs Taylor's absence.

Born.—To Mr. and Mrs. Roger Bray on Tuesday, May 25th, a daughter

NEWS OF OUR NEIGHBORS

KETCHAMOOT

Ketchamoot held team and several car loads of fans motored to Lugsley district last Sunday for a return game. Score was 10—5 in favor of Ketchamoot.

The Tofield Bowsers and Ketchamoot Smokers played ball Saturday afternoon on our diamond. Scores was 19—12 in favor of the Smokers. We think it was possible to make Saturday afternoon off for a regular game afternoon. There is talk of a tennis court being put in. If so both girls and boys could have a jolly afternoon without interfering with Sunday services.

Between the weiner and editor we got the newly weds some pretty bad; beached eggs, which we are sorry for, it should have read Miss Addie Smith Cattle and Mr. Leslie Coombes.

Howard Lee spent the week end at the home of his parents, Mr. and Mrs. William Lee.

Little Miss Ilene Sillitoe is a new pupil at our school. She is staying with the W. A. Mitchell home on school days.

Mr. A. McMillan and John Pruden's headed south from the lake on Saturday. Mr. McMullen is making preparations to build an abbiton to their place.

Ross roberts homeward was a visitor at the Camrose hospital recently last week, where she took went a slight operation.

Mr. and Mrs. Frank Lewis of town were the guests of Mr. and Mrs. Frank Hall last Sunday forenoon.

Friends of the late Margaret Nonoland will be sorry to hear of her death at Strathcona hospital Sunday night. She was married over a year ago and lived in Hartney. We were unable to get her married name. A new born baby boy died over a few days.

Mr. Oscar Barnes, who has been poorly for some time was taken seriously ill on Wednesday night. He was taken to an Edmonton on Thursday evening, where she will undergo an operation the first of the week.

BAMBO

Bertha Te Ri, and Mrs. Albert Voegtlin, on Sunday, May 23rd, a daughter.

Mr. Ness and Dave Yoder have each a new Essex car.

About 150 guests partook of a bountiful dinner at the King home on Thursday after the Bender-King wedding at the church. The bride wore a gown of cream bloo mesaline. The bride-maids, Mary Kaufman and Annie Borbwieder, were dressed in white silk. The groom was attended by his brother, Elmer, and Dan Brenteman.

A very good crowd were out to the supper and lecture at the Lutheran Church on Saturday evening.

Mrs. P. O. Lorbehoss and children spent Sunday and Monday with her parents.

HOLY TRINITY W.A.

will hold their monthly meeting on June 2nd at The Mission House, at 2.30 p.m.

LINDBROOK

Now that the bulk of the crops are in and the rains have learned to drink, etc., one sees one's neighbors a little more often, hence a little more news is obtainable.

Mr. Haggerty, a cousin of J. Bailey of Lindbrook, accompanied by Miss Green, daughter of Councillor R. J. Green of Rhodon, Man. Miss Green is formerly teacher in a rural S.D. and Mrs. J. Bailey's piano here.

Mr. C. J. Kortzman and family motored here from Turlon on Sunday last visiting relatives and friends here.

Mr. R. H. Hobbs has been appointed section foreman here and took up his duties last week. Mr. Hobbs was recently employed at Lacaburn, Sask. His family would have been here by now but are delayed by scarlet fever in the family.

We hear that Westaloe school is or has re-opened with Miss Hobbs as teacher.

Mr Norman Ellis' brother from Edmonton has been here two weeks visiting and has arrived and is staying with Mr. and Mrs. N. Ellis at their farm at Hastings Lake

Championship time is drawing near, in fact, nearer than many of us realize. A little more than two weeks remain before the first program will be presented. The dates this year are June 14-15, 16-17-18-19 The program has every appearance of being one of the best presented in Tofield auditorium. Out of such a variety of talent it is difficult to pick one outstanding program. To lovers of choral music the visit of the Smolen Cathedral Choir will prove a rare treat. This is the first time anything of its kind has been here and there is not the slightest doubt but that they will receive a most hearty reception. There are lecturers and readers of note, also, orchestral music by an orchestra that has a continent wide reputation. The play "Cappy Ricks" will delight many. Those who were regular readers of the Saturday Evening Post some years ago will be pleased to see this famous character of Peter Kyne impersonated. The price of the ticket when viewed in the light of all the programs is very small and we would advise purchasing them early.

NOTICE

There will be a meeting of Chautauqua Guarantors on Friday evening, May 28th, at 8 p.m. The meeting will be held in the Rural Municipal Hall.

WILL RETURN TO TOFIELD

Jas Carver, Jr. of Edmonton was visitor to Tofield last week. Last summer Mr. Carver decided to enter the life insurance field and accepted an agency for the Grant West Life. It was a success from the start and within a few months wrote one hundred thousand dollars worth of insurance. He has now been appointed district representative with territory from Chauvin to Edmonton. He will meet likely make his headquarters at Tofield. D. E. Ball has been appointed local agent for the Grant West Life.

The MacFarren Artists, a musical company of wide repute and of excellent artistic ability, will give the program on the second afternoon, consisted by Robert Lyle Malone, tenor Mr MacFarren is an honor graduate of the Royal Academy of London, and a nephew of the late Sir George MacFarren, principal of the Royal Academy of Music, London.

WORLD HAPPENINGS BRIEFLY TOLD

Prince Christian Kraft, Hahnville Oarsman, Duke of Fife and raised the world's best man in Germany, is dead.

A deadlock has been reached over the fishing of the Pacific cable from Fiji to Canada, and Imperial Conference may not deal with matter.

A shipment of two hundred thousand pounds of Argentine corned beef has arrived in Vancouver for local distribution. This is the first direct shipment of this commodity to Canada or Vancouver.

Fifty head of livestock was purchased in a fair deal from a stock barn operated by Markwardt, Marsh by Stewart and Cairns for Limited, of Winnipeg. The deal was for many thousands of dollars.

No official confirmation is available from governmental circles to the exhibit report from London that Viscount Willingdon would be Canada's next governor-general, succeeding Lord Byng of Vimy.

It is stated in Manitoba circles that no election that an effort will be made to avert the support of cutback in the field being waged by the three parties' positions for "blue sky" legislation, to control sales of shares.

Spain's representative informed the council has been charged with assisting in organization of the League of Nations council that unless she is accorded a permanent council seat Spain will be entitled that it be not useful to our labors, longer with the league.

Answering a question in the House of Commons, Hon. Charles Dunning, minister of railways stated that the government had no information of any people at the Canadian Pacific Railway to construct a new line from Winnipeg to the Pacific coast.

The Land Settlers in Mexico the Ejido' Rex Beach, Canada, left for Washington. Monday. Toronto was notified upon the country, all legally for having entered Mexico in an improper manner in contrary to law at the clauses of the Mexican constitution dealing with Soviets members of the people.

Prediction That Chicago Will Be Submerged

Scientist Says That Earth's Movements Is Causing South Shore of Great Lakes to Be Sinking

"Within 50 years Chicago will be submerged under the waters of the Great Lakes. A future day will see it only partially in existence, all of its water front, and possibly more than it, under the waters of Lake Michigan. This is what is going to happen, unless we can find some method of keeping the land from sinking," This was a statement made by Professor Goodwin of Toronto, in a lecture at Port William. He dwelt at length on the facts of earth movements of which are known as earthquakes, pointing out that the north shore of Lake Superior was gradually rising, while the south shore was sinking.

Canada was getting more land and the United States lesser land in a correspondent amount, due to these earth movements. Within possibly 20,000 years the Lake Superior water will be found to have risen, and the waters of the Great Lakes would flow south toward the Gulf of Mexico. Toronto would pass over the present site of Chicago.

May Salvage Turco Egyptian Fleet

In Natalie Bay, in 1827 the Turco Egyptian fleet was sunk in a naval battle. The Greek Government is having a preliminary testing out of ships to submit bids for the salvage of the vessels.

Flexible bus with rubber tires and a wood will pass through the streets of Berlin.

A bus service is now in operation between Montreal and Ottawa. It is operated by Provincial Transport Company, Inc., New York City.

A Canadian Ambassador

American Paper Thinks We Should Have a Representative in U. S.

It is years since it was intimated that Canada should have an ambassador to the United States. The Toronto Star has intimated has determined at different times that the appointment was upon the point of making. It has been asserted by friends of that government that the ambassadorship would be assigned to some to the right Canadian could be had. Either the right Canadian is "a little shackled" or "a shrinking violet," for there are none, nor a candidate and among both these might be some really capable enough and but one hundred to see a Canada at Washington.

As a matter of business alone the Dominion needs an American ambassador. Canada is her best and there great. Its interests are numerous and important for the British ambassador to represent it indirectly, while Albania, Egypt and Haiti have representatives of their own in the United States. No British ambassador can handle Canada's business at Washington as advantageously as Canada as could a representative of its own.

The case against Britain is not one of service but of principle.

Lord Byng of Vimy

It is stated in Manitoba circles that no election that an effort will be made to avert the support of cutback in the field being waged by the three parties' positions for "blue sky" legislation, to control sales of shares.

Spain's representative informed the council has been charged with assisting in organization of the League of Nations council that unless she is accorded a permanent council seat Spain will be entitled that it be not useful to our labors, longer with the league.

Answering a question in the House of Commons, Hon. Charles Dunning, minister of railways stated that the government had no information of any people at the Canadian Pacific Railway to construct a new line from Winnipeg to the Pacific coast.

The Land Settlers in Mexico the Ejido' Rex Beach, Canada, left for Washington. Monday. Toronto was notified upon the country, all legally for having entered Mexico in an improper manner in contrary to law at the clauses of the Mexican constitution dealing with Soviets members of the people.

The Charm of Soft Fabric

New crepes are soft and dainty with flowered materials. Here the floral pattern is used to make the skirt of the fabric and flatter the waistline. Style No. 1234 is designed for sizes 16, 18, 20 and 40 inches bust measure. A 18-inch size requires 3 yards of 39-inch material with 1/2 yard contrasting for collar and cuffs. Price 20 cents.

The name and address should be printed plainly. Be sure to state size desired. Address orders to Fashion Department, this paper.

Power From Ocean Tides

Dr Bastian power to the Berlin electric society said that Germany could be developed to produce 10,000,000 horsepower from the tides. Engineers have been in the United States for several power commissions in Jersey Canyon, Inc., New York City.

SUNDAY SCHOOL LESSON

MAY 30

JACOB AT BETHEL

Golden Text: I am with thee, and will keep thee whithersoever thou go. Gen. 28:15.

Lesson Genesis, Chapter 27, 28. Intermediate reading: Psalm 121

Explanations and Comments

Jacob's Dream At Bethel, verses 10-15 Jacob was fleeing from Esau's wrath. The Historical Background. He left Beersheba and started toward Haran (quite by accident, as it would seem from the expression "He lighted upon a certain place." Genesis 28:11). Ultimate near Bethel, where he had spent the night.

God gets the boy who leaves home. He can carry with him many kinds of training there that shows the way to God. Jacob had learned much that had been left in his place. What kind may be seen" (Hallie Clement).

Jacob needed something for a pillow and there was nothing better at hand than the stone about him. It was out of the ruin and put it under his head. Then he slept. Many a traveler practice is common in Africa at the present time. Albert Bishop, Father returned to this country he had to use for such pillows, and later than given substituted a bundle of books.

He had a vision (verse 12). Jacob imagined Bethel, and its location. Many factors affected the way he gazed upon the rocks and stones on the unfamiliar surroundings. And in his dreams they materials shapes—Jacob saw a ladder, or flight of stairs (as the Hebrew and also in Babylonian). Ancient temples, Nebo.

"The Spirit of God always comes to us, leading us to the ordinary things borrowed from their surroundings" (John Chrysostom). Jacob was full of experiences of the Egypt which contained the same possibly the cities of the prison take as a sort of place limited by fire, and the cities looks on them in nearly form Babylon Pedlar Babylon. Jacob's vision to the wild hill-country of Judea in which he was living. Then were composed the R. V. Moses

Largest Nursery Business

Largest Nursery Business in Western Canada Carried On At Estevan

What is claimed to be the largest nursery business in Western Canada has been developed at Estevan by a man who came to Canada from Salt Lake City, South Dakota 15 years ago and established on the same possibly. He says he now owns over 200 acres of land and, in addition to supplying Saskatchewan demands, nursery stock is shipped in carload quantities to the United States. The success of this enterprise is attributed in part to good soil conditions and also largely to the demand of unprovided western farmers for fruit and shade trees will which Estevan is said to possess in abundance known as the Prairie Nursery. The firm has recently shipped a carload of evergreens to the United States, and as far as is known this is the first shipment that could have been expected from Western Canada.

Handshaking Is Hard Work

Prince of Wales Not Only One to be Incapacitated by Custom

The decision to abolish the Royal custom of subjects being allowed to kiss the hand of the King and Queen at Court functions will be welcomed by many people, who have considered it necessary to import base objects into France with the view of the demand. As a result France in some way shipped after royal visited at 50,000 such tributes to Louis XIV.

Population of British Columbia

British Columbia's population has shown considerable increase since the census of 1921, according to figures compiled by government officials on the basis of school population. The total population of the province, at present, is now nearly 600,000, the figures show

Some men are so reminded that they will even share your last dollar with you.

Planning Machine League of Nations

Over One Hundred Delegates to Attend Conference In Cairo

A Western league of nations, rivalling its counterpart at Geneva in potential importance, may be the outcome of a world conference of those to be held at Cairo.

A hundred and fifty delegates, representing 200 states, Muslims will try to revive the unity of the Mohammedan world, shattered when Turkey overthrew its sultan for hundreds of years, since the caliph of Islam, and declared itself a republic under the presidency of Mustapha Kemal.

There are many candidates for the caliphate

It is unlikely that sufficient unity will be maintained to permit of the election of a universal caliph.

Because of this disunity, the conference will discuss the formation of a permanent congress, representing the Moslem countries and headed by a chairman who would be titular caliph, to constitute a league of Moslem nations.

A Last Kick

The Agitator Now Receives No Sympathy In Ireland

A man with an Irish name and calamine New York as his place of residence is under arrest in the Irish Free State on the very serious charge of being involved in a plot to kidnap Winston Churchill.

It might have been thought that when the people of the Irish Free State undertook the task of governing themselves the architects of the plot to blow up the Parliament House, and murder them in nearly every Dublin Catholic household, would be met by making war on John Bull in Ireland are reluctant to use their own citizens as a whip to drive them (Bull from Ireland; they regard it as a grotesque thing that the Irish Free State should have been driven to the significance of the arrest of Patrick Cortland may be a symptom of conditions as they used to be. The Ireland of today has appreciation or sympathy for Irish American agitation than John Bull had. St Catharines Standard

Aeroplanes At High Altitudes

Airmen Will Be Able To Fight At Great Heights

The record for altitude in the present air war airmen will fight, including those the earlier heights of 20,000 feet and twelve miles.

An ordinary engine develops half its power at 10,000 feet, and at 20,000 feet, owing to the rarefaction of the air. Aerial levity, however, is made in conditions artificially regenerated to represent the state of the atmosphere at 20,000 feet. The cabin will be so arranged that the pilot will not be affected by the high altitude. Under the present conditions of flight, the pilot becomes very cold and numb, and is unable to operate his controls properly. Engine can be made to develop its full speed.

The human being could breathe at such a height, without artificial aid, and the aeroplane has within itself all the engines are to be built will carry any apparatus and will probably be airtight.

Thereby the transport of the sick and children of Mr and Mr. Pergaud. De Haste. His ambition is to become a lawyer, and his friends and relatives believe that an office will be realized

Women Moneylenders Ask Heavy Interest

Pounds For Five

In a court case Bruges were revealed a shocking state of the moneylenders. In the case of the war women. In one it was proved that a woman friend had paid 5 pounds in respect of a loan of five and 5 shillings, and another that a woman had paid 10 pounds in addition to the first loan of 5 pounds. Prior to the Great War, the usurious interest was known as 60 per cent.

A man is seldom all opposed to it, but until after lunch.

A perambulator is one kind of a vessel thing that few would like to go

Boy Without Hands Overcomes Obstacles

Can Write Plainly and Took Prize For Wood Carving

Stewing the loss of both his hands as a "challenge" instead of a misfortune, Edward Vincent De Haste is the proud possessor of the Philadelphia boy award, given recently to the boy who has shown the great est persistence and courage in overcoming obstacles.

Vincent lost his hands many years ago while dancing over a railroad bridge a wire rope attached to a shaft that came in contact with a heavily charged electric wire. He knocked were so badly burned that the had to be amputated above the wrists.

Young De Haste's achievements, as were known to his associates, but was not generally known until he had gained the award for the $1,000 gold medal by the Boy Welfare Public Library of Philadelphia. Among the things which he had carried out of mind in learning to read Braille was the study of wood carving.

Cyril Johnson, who has just returned home the United States, says that the art is held in high esteem and reading was a second form. Hundred times to attribute and then to find and then repeated upon by the British Isles founder. The new belief to be read and timed on this new system, which is known as the Braille. Setup on Nationwide. Thus to find letters that the Isle will be in time with Perth, that it has been a matter of great and literature as to form a perfect ma lest chosen.

Britain Best Bell Caster

Lost Art Was Rediscovered and Improved On

That Britain probably still leads the world in the art of bell-founding may be inferred from the fact that the contract for the 13 tons bell for the new four thick Westminster tower by Philadelphia has gone to Messrs. Gillett Bland of Gilbert & John, Croydon.

Cyril Johnson, who has just returned home the United States, says that the art is held in high esteem and reading was a second form. Hundred times to attribute and then to find and then repeated upon by the British Isles founder. The new belief to be read and timed on this new system, which is known as the Braille. Setup on Nationwide. Thus to find letters that the Isle will be in time with Perth, that it has been a matter of great and literature as to form a perfect ma lest chosen.

Some men are so reminded that they will even share your last dollar with you.

in the sabbles dollars the landlady posted her fish and cracked in a very angry fly. Time over he said, for she her girl came to the end she was asleep, meditations, and she to go love hand—indeed in her leg.

Jo—Joe went over and kissed her on the lips for how hard lightly she's prepared to that which Joanna understood. It was a kind of way that had been thrown at her.

"Joe! I'm going upstairs and try to cry," said Joanna, feeling her arm rest on her arms and sliding the hands that took her off once a kiss in a corner where she could exhaust it later. "And if I can't cry I'm going to laugh. If I can't do that either I'll try standing on my head and see if I can force things out that way." She didn't notice a sad little shake of the head which the landlady sent her way.

She turned to the door but stopped, and looked at her self in the mirror. It was a picture of the two hundred dollars notes, and she saw there were limited Mrs Adams leaned her the sins of it, and that is encouraged to the old lady's left hand. "Joe—Joe, I will answer you."

Mrs Adams stood at the door when she went out, and turned around to see a beloved mistress of childhood, in one of her old dresses, with a pail in one hand and a broom in the other, and she looked at her. "Joe, I will answer you."

She looked at her for a moment, and then she said, "Joe, I will answer you."

She looked at her for a moment, and then she said, "Joe, I will answer you."

EMPIRE DAY

THIS IS written on May 24th, Empire Day. Originally this holiday was Victoria Day, named so in honor of Queen Victoria. With the passing away of Queen Victoria in 1901, the name was changed to Empire day. In Britain it is not a public holiday (except as Whitsun Monday happens to coincide with the date) but special programs, the underlying motive of which is knowledge of empire are presented by the schools. Some of the programs reach large dimensions, especially as regards parades and strolls and thousands of children take part.

That the British Empire is the largest Empire the world has known is an old saying but a fact worth noting. Its foundations were laid down by science men, soldiers and seamen years ago since which time the pathways of time, Empire have traversed with it, and today British possessions are in every quarter of the [illegible] that have passed, have not been [illegible] on the whole the British Empire [illegible] to people justly and firmly and large [illegible] the world are much better for the [illegible] having existed.

[illegible] the last few months there has been [illegible] economic and personal energy, [illegible] the steam engine was the beginning of [illegible] that hundred years ago Great Britain, with [illegible] was leading India in trade and export, her ships carried back to almost every sea, bringing [illegible] materials to be manufactured into finished products. In the course of time other countries developed large and important industries and today, as can truthfully be said, the British nation is putting it harder than ever to prosper by its industrial activities. With the co-operation of "the dominions beyond the seas" the industrial life of Great Britain is no doubt be greatly improved. The old masters of British industry, the her statesmen, built solidly and left behind them a reputation for quality that has never been surpassed. With the younger generation up-to-date and alert following in their predecessors footsteps; with the British people themselves buying their own manufactures; and with the dominions expressing commercial as well as patriotic power in being British, there is still a great and glorious future for the empire.

BEAUTIFYING HOMES

IT IS not too difficult to find excellent examples where tree planting has greatly beautified the home. A walk on the sidewalks of Tofield or a drive into the country will reveal many homes where trees planted a few years ago are a valuable decorative feature. Trees signify permanence and there are few goods or ordinary life that are more worthy of [illegible] planting a tree. While their greatest benefits, of course, appeal to the love of the beautiful, [illegible] trees especially about farm homes, is not [illegible] [illegible] [illegible]

Next time try the finest grade —Red Rose Orange Pekoe Tea.

This Wonderful Age

Recently while the short spurt of new York two exploration parties crossed North Pole without mishap and the comparative comfort these parties had has been the subject of much favorable comment. It would seem that it would now be possible by the use of the air routes to shorten by many thousands of miles the journey between the Arctic and Europe. In a recommendation to municipal authorities London and Paris by air is suggested for passengers and express matter. Some of the leading business men of the United States would like to see transportation by air established between the two countries. It is not unlikely that within a few years it will be possible to spend a week-end in Paris or London by air and return to New York in time for business on Monday morning. Already air transportation is in operation between Europe and Africa. Regular schedules are maintained by the Imperial Airways, Limited, between London and Cairo, Egypt, and between Paris and Algiers. Recently the Imperial Airways, Limited, has been granted a license to operate a service between Europe and Australia. Within the next few years it is expected that the Australian service will be in operation. Already the Australian Government has established a service between Australia and Singapore. Another service is in operation between Singapore and Java. Thus it will be seen that the world is rapidly becoming air minded. Air transportation is developing rapidly in Canada. Many of the mining companies in Northern Ontario and Quebec are using aeroplanes for the transportation of men and supplies to their mining properties. Aeroplanes are also being used for forest patrol work and for the detection of forest fires. Many of the pulp and paper companies are using aeroplanes for the transportation of men and supplies to their limits. Aeroplanes are also being used for the transportation of mail to outlying districts. Canada is a country of great distances and the aeroplane is destined to play a very important part in the development of the country. Canada has been a pioneer in the development of aviation and has many experienced pilots. Canada has also been a pioneer in the development of wireless telegraphy and telephony. Wireless telephone service is now in operation between Great Britain and Canada. Wireless telephone service between Canada and Australia is also in operation. Wireless telephone service between Canada and the United States will likely be established in the near future. Wireless telephone service between Canada and Europe will also be established in the near future. Wireless telephone service between Canada and Australia will

Through the "Museum Cathedral Choir," the Chautauqua will present truly magnificent music—liturgic, operatic, folksong. Every number of choir an artist. Picturesque, colorful native costumes. The musical event of the year!

Here and There

Immigration to Canada in 1925 totalled 84,907, of which 39,368 was contributed by the British Isles, 19,117 by the United States, and 26,422 by other countries. In addition 20,389 Canadians who had established homes in the United States and resided there for a period longer than six months returned to live in their native land.

A new cash-on-delivery parcels system has been inaugurated at Post Offices all over Great Britain. Parcels up to the value of £60 (about $186) may now be posted at any post office to any address in Great Britain, the value being collected by the Post Office authorities and remitted to the sender. The system seems to be meeting with success.

Business conditions on the Pacific Coast continue on the upward trend with great activity in the lumbering work. The lumber industry outlook is brighter and there have been important developments in new sawmill construction. The fishing industry is on a better footing, pulp and paper mills are active and additional power programmes are being worked out.

A. M. Johnson, President of the Canadian Club of Boston, visited Montreal for the first time on the new "Redwing" train now running between the two cities on Canadian Pacific lines. In telling of the charitable and naturalization aid given Canadians by the Canadian Club of Boston, Mr. Johnson said there were some 100,000 Canadians in the State of Massachusetts. Of this number 80,000 are in Boston.

Sir Esme Howard, British Ambassador to the United States, stated on his arrival in Toronto on a C.P.R. train that the question of European peace was the most urgent and immediate problem of the day. It was necessary for Great Britain to assist in maintaining peace and the League of Nations offered a suitable vehicle. Sir Esme claimed that if the League disappeared England would be compelled to join some European combination against any country which threatened to dominate the continent.

Owing to Monday being a Holiday, The Advertising material for the Friday and Saturday Show did not arrive in time for this issue of the Mercury. The picture will however be first class it being one of a series previously booked.

Quality Has No Substitute

DEPENDABILITY and long life are essential elements of motor car satisfaction. Whatever other characteristics a car may have, whatever refinements may be added, all must have their foundation upon these basic qualities.

The basic quality of the Ford has been demonstrated in the hands of over twelve million owners in all parts of the world. These owners have chosen Ford products because they know that there is no substitute for what Ford offers.

This policy of uncompromising quality has made the Ford the ideal form of practical transportation.

TOFIELD ALBERTA

Local and Personal

Malcolm McPherson of Ryley spent the week end in Tofield.

Mr. Ted Frail of Edmonton spent the week end in Tofield visiting his friend, Jack Lee.

The Tofield Trail Rangers played rather local team, organized by Robert Whyte all Friday last. The Trail Rangers were victorious by a small score, the play being very even throughout.

Mrs. Fred Tomlinson's father is visiting at the Tomlinson home. He came from Minnesota on a visit and has been here for some time. We believe that his other men from the States is expected to be here over the week end.

Mr. and Mrs. Hannan motored to Edmonton on Wednesday.

Mr. Hazel Parker and Mrs. Cox of Edmonton visited at the P. Lewis home on Sunday last.

[illegible] spent the week end at the home of Mr. and Mrs. Vikings.

Mr. and Mrs. [illegible] spent the week end at the home of Mr. and Mrs. [illegible].

Mr. [illegible] was a visitor in Tofield on Monday.

[illegible] on Thursday, the 27th, at the home of Mr. and Mrs. [illegible].

[illegible] the funeral of the late [illegible] which was held from the Presbyterian church, Tofield, on Saturday afternoon, was very largely attended by friends of the deceased. The pastor, Rev. [illegible] conducted the service. The pall bearers were [illegible]. The floral tributes were numerous and beautiful. The interment was made in the Tofield cemetery.

[illegible] Mr. and Mrs. [illegible] and family motored to Edmonton on Sunday last to attend the Whyte Parker Wedding at the home of the bride's parents, Mr. and Mrs. [illegible]. The bride was formerly Miss [illegible] and is a sister of Mrs. [illegible]. The groom is an old Tofield boy, being a son of Mr. and Mrs. [illegible] of Tofield. The happy couple left on the afternoon train for a honeymoon trip to the coast. They will reside in Edmonton.

[illegible] Mr. and Mrs. [illegible] motored to Edmonton on Sunday last to attend the wedding of Mr. [illegible] and Miss

WORLD HAPPENINGS BRIEFLY TOLD

The City of New York generates and uses almost 10 per cent. of all electricity energy generated in U. S.

Conscientious Hun thrust was made on American railroad engines are being introduced on automobiles in London as a safety device

After being published continuously for just over 21 years, the Red Deer News has ceased publication. It was sold to the Red Deer Advocate.

Out of a population of over 30,000, only 1,500 residents of Saskatoon will be liable to pay city taxes this year.

A fifty bell made of 20,000 rubber lumps, and as tall as a six storey building, is to be a feature of Philadelphia Sesquicentennial.

Had a secret ballot been taken among the miners' wives, says Emmeline Pankhurst, writing in The London Sunday Express the miners' strike would never have been called.

The Canadian Club of New York has a total membership of 1,200 and has increased at the rate of one member per day during the last three months.

Women and girls in the West Haim Guardians' General Hosp., London, Eng., decided under the guardians of the Lunacy Act, are to be allowed to visit the hotel cinema once a week, at the expense of the guardians.

One hundred feed and more than 200 injured have been removed from the mass of mud, lava and rocks precipitated by the eruption of a volcano in Tokachi province, Hokkaido Island, Japan

John H. Fox, deputy register of deeds at Long Island City, has installed four tear gas guns and a big gong for an alarm. Chalmers can release the tear gas by stepping on knobs on the floor. Receipts of future at the office at times amount to $500,000 in a day.

Mexican bandits have captured two Americans and are holding them in Mexico for a ransom of $500 each, according to advices received from the American consul at Torreon. C. P. Wrade, a mining engineer and a man named Gallagher are the men held.

Next Generation Taller

Gain in Height and Weight Predicted By Nutrition Experts

Sons will surpass their fathers in height and weight, and daughters will top their mothers by a generous inch or two in the opinions of two nutrition experts who attended the national health congress at Atlantic City, N.J.

"Longer and stronger bones are some of the results of correct nourishment that we are beginning to observe in children study, Miss Miriam Birdseye of the United States department of agriculture told the Association of Press.

"The scale of an inch in height and a corresponding gain in weight may be looked for in the next generation because of our much better diet habits," said Dr. Samuel J. Crumbine.

What Future Will Show

The Japanese empire has a population of over 113,000,000. The growth is the equivalent of a million a year. Japanese papers refer to the fact that Siberia, Mongolia, Manchuria, and South Australia are open to Japanese emigrants, but the United States and Australia are closed to them. The opinion is expressed that the future will show which is the stronger, a mutual law or man-made legislation.—Kingston (Ont.) Whig.

Walnut Is King Of Woods

Walnut appears to be the king in commercial hardwood lumber, measured in road standards. This statement is the only open box of wood moved generally for lumber that rose more than at any other time in its history.—Lumber Trade Journal.

German Professors Discover New Star

Ten Million Years Old and Brighter Than Sun

A new star has been discovered, an unassuming star in the fourteenth magnitude, 1,000 times too faint to be seen with the naked eyes, flashed up in a small spiral nebula which appears as big as a dime at a distance of a yards.

In reality, it is a star of 16 million times brighter than the sun, flashing up in an island universe of almost infinite light years. This means that we are looking into the past of our distant cosmic universe, for the catastrophe which gave birth to this new star happened 10,000,000 years ago, long before the glacial period on earth

Now stars are not a very common occurrence in the sky. The last one appeared in May, 1925.

This last one was discovered at Heidelberg, Germany, by Professors Max Wolf and Reinmuth. The good news was announced to astronomers in Copenhagen and thence to the star hard observatory, the clearing house for astronomical news. The Harvard Telescope all over the country were notified of the discovery and soon the existence of the new star was confirmed on plates taken at Harvard.

Smartly Correct

This season the two-piece frock rules over a wider domain than ever; and on many days, the hours of its reign extend from morning to evening. Therefore, it must be perfection combine as well, a semi-formal charm for leisurely events. The model pictured here is a typical example of a sports costume that is smartly correct for either a morning or afternoon affair. Of course, of bright "Ideal" fabric, such as this, it is equally suitable as a sports costume, and adds a touch of color to any wardrobe. Its pockets that support a narrow tie belt, also serve as the means of adding a deep ruffle at the wrists. The shirt, with its tie of a bright fabric, is fashioned of fine broadcloth, or of printed or plain crepe de chine.

The Orphan Colt

Advice As To Feeding Young Colts From Time of Birth

(Manitoba Agricultural College Note)

Occasionally the mare dies at foaling time or has no milk for her foal. This presents a rather serious problem, but one that can be dealt with successfully if patience, vigilance and common sense be the keynote of treatment. It is especially worth while how to raise every good fruit foal. Statistics show that "unless the mare is destroyed before foaling or shortly after, practically every foal will survive." Of course, the first thing to do is to get the foal to suckle. The best substitute for mare's milk is milk from a cow and preferably from one yielding a low percentage of fat, according to Professor H. H. Summerfeld, Animal Husbandry Department, Manitoba Agricultural College. To one tablespoonful of sugar add warm water to dissolve then fill a 10 tablespoonfuls of lime water and enough fresh milk to make a pint of mixture and shake milk substitute well. After a few days, six feedings a day will suffice and later when about three in four weeks of age, the mixture may be stopped, but it is well to continue the lime water. In three or six weeks, sweet skim milk may be gradually substituted for whole milk and after three months the colt may be given nearly all fresh skim milk three times a day. The breeds should move freely, but if scours occur, give from 2 to 4 tablespoonfuls of castor oil and paregoric castor oil shaken in milk, or a dosage of the feeding of milk for two or three meals, allowing instead, only sweetened warm water will show which is the stronger. As early as possible age, the foal should be fed solid food, such as crushed oats, bran and a little flaxseed oil meal and legume hay. For water, let the orphan have the run of a lot or grass paddock.

Farm Help In Demand

About four thousand men have been placed on Alberta farms this season and the demand has not been fully met, says Walter Shallow, commissioner of labor, reports.

SUNDAY SCHOOL LESSON

JUNE 6

JACOB AND ESAU

Golden Text: He is blind to one another, tenderhearted, forgiving each other, even as God also in Christ forgave you. Ephesians 4:32.

Lesson: Genesis 25:19-34; 26:34 to 28:9; 32:3 to 33:17.

Explanations and Comments

Jacob's Fear of Esau at Mahanaim, 32, 1 to 8. In his return journey to the land of his fathers (see the Historical Background), Jacob reached the spot he named Mahanaim in Esau's territory. He dreaded to meet his cousin in fear of his arrival. The messengers sent ahead for this purpose, returned with the startling news that Esau himself was on his way to meet Jacob accompanied by four hundred men. Jacob was paralyzed with fear, and good reason had he to have such fear. Knowing that Esau had received all his brother's goods, Jacob was free to face with the contemptuous of his past.

"I am never sure about a thing until it is cast in the light and forgotten. Then beautifully and clear it comes to me in calm. It makes some things impossible that a man can do, that he can have a few qualms of conscience, that he can forget himself and forget, that he can thrust his sin down into the hold of his subconsciousness and shut the hatches on it and sail on, but if he thinks he is through with his sin he is just because he has crushed it down into his subconsciousness he is mistaken. He is not through with it. That sin is at work still, terribly at work tearing away at the bases of his personality." Dr. Frederick Peterson has recently been saying that to a group of people through a city hall. It is fearless, but there is terrible truth in it. That fear now with her brother. The fear are done with Jacob and she hatches on it and sail on, but if he thinks he is through with his sin just because he has crushed it down into the hold of his subconsciousness and shut the hatches on it and sail on, but if he thinks he is through with his sin just because he has crushed it down into his subconsciousness he is mistaken. He is not through with it. That sin is at work still, terribly at work tearing away at the bases of his personality." Dr. Frederick Peterson has recently been saying that to a group of people through a city hall. It is fearless, but there is terrible truth in it. That fear now with her brother. The fear are done with Jacob and she

THE CHAUTAUQUA COMES TO TOWN

THE MUCH worn yet ever thrilling phrase "The circus has come to town" must give way to a more modern, albeit more reserved one, viz: the Chautauqua has come to town. That the change is all to the good, most people will agree, yet there are few individuals of middle life, who will not feel some regret at the change.

From the time, the circus bill poster had placed the gorgeous pictures of the equestrianne, the lion tamer and that joy of boyish hearts, the clown upon the walls of warehouses and sheds, to the night prior to the circus' arrival, there was the thrill of expectancy. Could the gorgeous pictures be true to life? Well, the posters read that they were

Early, before even the most wakeful boy was up, there was noise and bustle at the circus ground. Where they came from and how they got there so early, mattered little, for there was mental food in plenty. The putting up of the big top, the feeding of the animals and the priviledge of carrying water for some animal or other was worth getting up early for. By breakfast time the tents were up and quietness reigned. With the approach of noon, came the big free parade. With bands and calliope blaring wildly, with everything gaudy and glittering, the parade would thrill the bystanders. After weeks of waiting, it seemed to pass all too quickly.

Then came the big time at the circus itself. Peanuts and popcorn washed down by pink lemonade, clowns, daring riders, tightrope walkers, while baloons, canes, whistles and suchlike, all went towards making a perfect day. To be sure there was trickery for those who were older but not wiser; and it seemed a shame that everything could not be seen for the one price of admission; and there was some doubt about the truthfulness of the pictures. But what mattered, as the youthful head sank into the pillow that night, it was with a blissful mental reminder that "the circus had come to town."

With very few exceptions, those days have passed, and in many ways a better one has dawned. Now it is the chautauqua that comes, not to thrill and exhilarate, but to entertain and uplift. With method and precision the tent is put up, there is little fuss or bother, everything being done in a quiet and orderly manner. The "talent" arrives, performs and passes on. Eleven good programs can be seen for a really small amount, and they are good programs too. Everthing is as represented and there are no side shows, pop corn, pea nuts or pink lemonade. Youngsters must even be quiet during the lectures.

Truly the change is great—and for the better. But oh my, oh my! what wouldn't thousands of adate citizens give, to be able to stand at a street corner, watch the circus parade go by, and then losing self consciousness, race across lots to a point of vantage and see the parade all over again. the head of the parade again.

After seeding--What?

After seeding there will be time to see about the improvements you have planned to do this summer. Whether it is a ne whouse you are planning or a barn, or a small addition, we will be pleased to quote on the lumber bill for you. We were very successful last summer and we believe gave satisfaction to a number of farmers who built. We stand ready to do the same this summer.

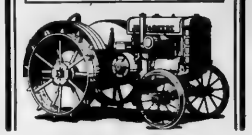
When you buy John Deere implements you are sure of prompt repair service throughout their long life



Seeing The John Deere Tractor at Work

When you first see a JOHN DEERE TRACTOR you are impressed with its compact and sturdy appearance. But it is when you see it at work that you are really surprised. You see it going through places that ordinary tractors would stall in and your involuntary exclamation is "What Power" For great power it certainly has, and in addition to this, all the most modern features adpted to a tractor.

The Greatest Event in the History of the Catholic Church in America

C.N. RYS. TO OPERATE SPECIAL TRAINS FROM WESTERN CANADA

Of unusual importance to Roman Catholics is the 28th International Eucharistic Congress in Chicago, Ill., June 20th to 24th next.

The Church dignitaries are duly appreciative of the efforts made by the Canadian National Railways, who have arranged to operate special trains to and from the Congress, and have also made reservations for several hundred people in good hotels at a reasonable expense, and ask their people to make application promptly for the necessary sleeping car and hotel accommodation. The Church authorities were committed prior to arranging the train service so that the proper departure time from the various centres would be ensured.

Those who desire to use the regular service have the privilege of travelling on the through train which is operated during the summer season from Western Canada to Chicago.

Any agent of the Canadian National Railways will be pleased to give you further particulars and complete all arrangements.

NOTICE TO CREDITORS AND CLAIMANTS:

In the Matter of the Estate of Henry Alfred Francis, late of the Post Office of Tofield, in the Province of Alberta, Deceased.

Notice is hereby given that all persons having claims against the estate of Henry Alfred Francis, who died at Tofield, in the Province of Alberta, on or about the 28th day of December, A.D., 1925, are required before the fifteenth day of July, A.D. 1926, to send to Mr. John W. Francis St. Paul de Metis, Alberta, the Administrator of the said Estate, a full statement of their claims and of any securities held by them, duly verified by statutory declaration, and that after the last mentioned date the Administrator will proceed to distribute the assets of the said Estate among the Parties of Alberta, this 15th day the parties entitled thereto, having of May, A.D. 1926.

regard only to the claims of which notice has been so filed or which have

DATED at St. Paul des Metis, this

JOHN W. FRANCIS, Administrator.

The Heat of Summer

When baking bread becomes a tiresome task, for the oppressive heat of the kitchen, is more wearying than muscular effort. Why not dispense with this unnecessary labor, by buying your bread from us. A trial order is solicited, and as always, the buyer is the judge

Stone Bros. Tofield, Alta.

DELIVERY SERVICE NOW READY

Quality *determines* **whether the price is economical**

Highest quality materials and construction alone give you less car performance over a long period at low cost for upkeep.

Only the most modern body design and a finish of permanent lustre can keep your car looking well for years.

And that's what you get in a Chevrolet! Quality design, quality construction, quality appearance—and many quality features the equal of which you cannot find in any other car at Chevrolet's price.

You get Duco finish in smart colors. You get Fisher bodies on all closed models. You get smart, modern, snappy good looks plus the power, performance, and dependability that make Chevrolet meet your highest ideals of economy.

Come in—let us show you why half a million Chevrolets were bought last year.

Cans, Cans, Cans!

Those who are familiar with "Boots" the famous poem by Rudyard Kipling, will in some measure realize our feelings on a busy day in June. Where the soldier trooper saw boots, boots, boots, we see cans, cns, cans. But there the likeness ceases; for while the boots, boots, boots, drove the soldier trooper to distruction, we thrive on cans, cans, cans—of cream. Even when the rush is greatest and we are working our hardest, we desire that every patron shall have a full measure of satisfaction.

The KOHLER LIGHTING PLANT

In no other field has mechanical ingenuity advanced more quickly in recent years than in the electric light and appliance field. To-day, electric lights are more efficient and consume less current than those of only a few years ago, while electric toasters, percolators, electric irons and electric washers, have been brought to a high degree of efficiency.

For many years city homes and industrial establishments had an almost exclusive use of electricity, but of late years, keeping pace with the increasing appreciation of electrical uses there has been an increasing demand among farmers for electricity for farm purposes; for if there is one place more than another, where a woman's labor should be lightened, it is on the farm, while light in the barn and labor saving devices in connection with the chores are welcome too.

In common with other branches of the electrical industry, the farm lighting plant branch has made notable strides, and it is now possible for the farm home to be as conveniently electrically modern as the city home.

With the KOHLER ELECTRIC LIGHT AND POWER PLANT installed, press a button and you get light, turn a switch and you get power. There are no batteries to worry about, and the full capacity of the plant is always on tap. It is well built of high grade materials and furnishes ECONOMICAL electricity and power.

Write the Tofield Mercury for booklet entitled "The Principle and The Proof" describing the Kohler lighting plant.

A Serviceman Wrote This Ad

BEFORE OUR EMPLOYEES EVER OFFERED ONE SHARE OF NORTHWESTERN UTILITIES PREFERENCE 6 PER CENT STOCK TO THEIR FRIENDS, MANY OF THEM BOUGHT THEMSELVES. ONE OF OUR SERVICEMEN, WHEN ASKED WHY HE BOUGHT PREFERENCE STOCK, ANSWERED IN EFFECT AS FOLLOWS:

"I've worked for Northwestern Utilities Limited from its beginning and I know its sure all right. "Anybody can see they are the kind of company for a fellow to hook up with when it comes to investing hard-earned cash.

"But before I did put my own money into the company I took out my old stub pencil and done some figuring over a Northwestern Utilities report. That's what sold me the safety of my money as shown in that report.

"It don't take any shark to figure out that when the company has property worth several hundreds of dollars behind every share of Preference stock, every time I put a dollar in the stock at the present price, I buy several times that mount of property.

"Nobody knows better than a service man that earnings have got to keep coming in—day and night. When we run out in a sleet storm in the middle of a freezing blowing night to fix up gas mains, we know how important it is for service to go on without even a few minutes break, and when people use gas day and night, earnings must be coming in all the time.

"If you ever get to worrying about your dividends—just turn off your gas on some cold day for five minutes—then quit worrying.

"I just can't see anything but big and bigger success and steady dividends for a company like Northwestern Utilities Limited.

"I'm mighty glad I put my money into it and sure advise you to put yours there."

THE FEELINGS OF THE EMPLOYEE QUOTED ABOVE ARE SHARED BY THE OFFICIALS OF THE COMPANY. THEY BELIEVE THAT WITH THE PROPERTY AND EARNINGS BEHIND IT, WITH AN ESSENTIAL BUSINESS, WELL DIVERSIFIED, THE EARNINGS AND PROSPERITY OF NORTHWESTERN UTILITIES LIMITED ARE SECURE AND THAT DIVIDENDS WILL ALWAYS BE PAID. THEY RECOMMEND THE SECURITY AS A CONSERVATIVE INVESTMENT.

More About This Wonderful Age

In this column last week attention was directed to the marvellous achievements in many of the sciences in the rapid increase in transport and communication of recent years. A decade or two ago the world was thrilled by the news of the first successful flight across the Atlantic. The annual travel to points in Europe and other countries is now numbered by the thousands.

Take the science of preventive medicine as an example. It is difficult even to realize that such a science was the merest beginning of life was less than a quarter of a century ago. It is only a decade or two since the typhoid germ was discovered, but even since that time the average of life in the United States and Canada has been increased by at least eight years. Typhoid fever, smallpox, diphtheria, scarlet fever and other diseases, the discovery of health has resulted in control of diabetes, while present day knowledge of how the viscera or both of secretions in the human gland affect its health has completed a new world in the medical profession.

Which all has been very interesting and human, the fact is not suffered at least one favorite on many of us. But it marked the cure of all people and particularly all those connected with the care and diseases of the human body that the greatest of all national assets are people. Health and strong bodies and robust health without which mental equipment must prove totally useless. The fact that our civilization has made so wide a spread at possibility of disease that disease can be controlled and prevented.

In these days people can if they will live in clean and hygienic surroundings obtain pure food and water supplies, eliminate flies and other disease bearing pests. But this is not always possible by the case of income under the present economic system. In South African war, the British had 24,000 cases of typhoid fever and over double in an average army—a strength of 248,000. In the Great War the average strength of the British Army was 1,250,000 men, but only 2,500 cases of typhoid and 964 deaths occurred. Why? Because at the beginning of the war all British soldiers were inoculated against typhoid. Prior to soldiers were not thus inoculated at first and in the first eleven months there were 26,000 cases with nearly 12,000 deaths. Then the French were inoculated with the result that the amount of typhoid fever fell in that in the British Army.

A very frank article by Dr. C. E. Fleming appears in the British Medical Journal respecting the disappearance of certain infectious diseases which in the near-need to be found high not in some British. Fleming quoted from the British Ministry of Health show that from 1901 to 1921 diseases such as phthisis (typhoid), scarlet fever and whooping cough have declined 50 to 87 per cent. In the case of diphtheria the decrease is actually 100 per cent, and as right case has been known for 3 years.

Medical science may justly claim a vast share for the result, but better small boon of life of home or workers like the adoption of child labor, shorter hours of work have contributed much, more indirectly, than direct medical treatment. All have been instrumental in lifting the glorious change on the better life.

Insects and vermin and microscopic pests, and cattle can do much to destroy, but they have been reported by the Department of Agriculture that the annual loss of crops and live stock in Canada need public can be made to be prevented as a result of the other agencies.

It was in full recognition of this fact that the League of Nations, with the XXV was the first organization to commence, promote and support the various health agencies now in operation throughout the world. Until the year 1920 the League of Nations Health Organization was practically the only body engaged in the work of the prevention of disease. Its activities have been extended from year to year, and it has now ten branches, each of which is under the direction of a specialist in the subject of preventive medicine. Each branch has a staff of experts, who are engaged in the study of the subject of preventive medicine. Each branch has a staff of experts, who are engaged in the study of the subject of preventive medicine. Each branch has a staff of experts, who are engaged in the study of the subject of preventive medicine.

THE NEW FRENCH REMEDY. THERAPION No. 3

THE EXPIRING LAMP OF LIFE "LIGHTED UP AFRESH."

Device Makes "Dry Ice"

Is Perfectly Dry, Contact Melt, and Is Inherently Cold

A device that makes what is call ed "dry ice," will keep ice cream frozen in its original state for hours at a time without the use of ice. It is now possible to send a pint of ice cream from New York to Chicago by express and when the package is opened the ice cream will be found frozen hard, just as it came from the refrigerator many hours before!

"Dry Ice" cannot melt and is perfectly dry in that sense, and is so cold that it will make a thermometer drop to the degrees below zero.

You have noticed the small bubbles that form and rise to the surface in a soda pop bottle when you put the cap. This new ice, Popular Science Monthly explains, is made out of the same gas that forms those bubbles. In other words, it is carbon dioxide gas that has been compressed until it finally forms a solid frozen mass.

Solidified carbon dioxide has been used commercially for a number of years, but this is the first application of the principle of using it to the private market of ice cream.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly a fifty years past. It sinks in deeply, it penetrates quickly. It drives out pain from a sprain and brings gratefull relief. Nerviline, as being a positive "kill" and used on small hands to feet. Nerviline Pain at 35 cents, large family bottle, will be enough for

When these are brought aboard they will be laid in specially constructed "rest banks," to prevent the sudden change. Divers will when fish are carried in bulk, and also to keep them alive until landed.

HEALTHY CHILDREN ALWAYS SLEEP WELL

If Baby Does Not Enjoy Refreshing Sleep He Is Not Well

The healthy child sleeps well and wakes bright and happy. Sleeplessness, fretfulness, or unusual sleepiness are signs of illness. Mothers, if your children do not sleep well, they are ailing. Cross and cry a great deal, also if the baby is thin and pale. The remedy for these is a good dose of the Red Lake Children's Tablets. Indeed, there is a busy spot, many prospectors sailed this there for the trip into the mining country. Cold packs managed the about 30 are arriving every day, loaded by the Bay steamer after they get their equipment together

Amundsen Will Likely Retire

Has Attained Youthful Ambition To Visit Both Poles

When Amundsen was born in Norway a few days ago, Norway was not a country, but a province of Sweden. Amundsen was born in Norway, but he is a citizen of the world. He has attained youthful ambition to visit both the Arctic and Antarctic regions of the earth. Amundsen will now settle down and write his memoirs.

New Society In London

Hospital Savings Association Provides For Treatment At Small Expense

Friends in London three years ago, organized the Hospital Savings Association on co-operative society which obtains its name from the small payments of a dollar or more per week, to take advantage of the full treatment at the hospitals, for accidents afforded by the hospitals, either for themselves or for their families.

The weekly contributions go in a special fund and when a family needs the benefit it presents to the hospital without cost to a given number of months the contributions have not yet reached 5-6 beyond London, during the year ending December, 1922, 13,000 members

Love Of Chew Sport

Bound to Encourage Sport of Fairness and Courage

It was Tolly-rand, we think, who once said that a man's character is one of the greatness of the British people that they are fond of sport. It is something which certainly is more than acceptable at the English speaking people, and it is a thing that is not confined to any one class among them.

Whether the youth of our race chooses to love sport, to love it and play it for its own sake, there will be profit from the choice. Indeed, what there goes a fine soundness and manhood, a love of fairness for that spirit of fairness and rivalry and close contact with, after all, are the essential things of life.—Ottawa Journal

Demand For Farm Machinery

Farm implement business in Saskatchewan present current sale. In Central Saskatchewan, breaking all records for a June month and greater by 100 per cent in 200 per cent than sale in 1922. This indicates that farmers in this, as well as other sections of the west, have a surplus of cash to invest in improvements

Consignment has one advantage over wealth; people don't try to borrow it from you.

Minard's Liniment King of Pain

Cuticura Heals Eczema on Head Arms and Legs

"When baby was two months old a slight speck of eczema broke out on his head. Soon it spread and legs. It turned to weeping eczema and formed blisters, which broke and the eruptions scaled over. It caused him much pain, and at night and also was very irritable. He lost much sleep and flesh. He would keep scratching himself.

"I tried different remedies but could not benefit. I began using Cuticura Soap and Ointment and in about two weeks I could see an improvement. I continued the treatment and after using for several months she was healed." (Signed) Mrs. F. Angevine, 10-25-12 Dec 4-13, Edmonton, Alberta, Nov. 3, 1925.

These fragrant emollients are all you need for all toilet purposes. Soap to cleanse and purify, Ointment to soothe and heal. Talcum to powder and perfume.

Cuticura Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Cuticura Laboratories, Dept. 22B, Montreal.

Likely to Change Fishing Methods

Work On Mystery Trawler At Halifax Nearing Completion

A shipping ship, whose operations when completed are likely to revolutionize fishing methods, is nearing completion at Halifax.

She is much bigger than the average, being 180 feet overall, 32 feet beam, 2,000 and 2,000. Instead of trawling in the ordinary way, this trawler will operate from the stern, being "built" and used on small boats to handle the nets. Fish of all kinds, including halibut, will be caught for

Number Of Motor Cars

Eight Canadians in Every Hundred Now Own Motor Vehicles

Nearly eight Canadians in every one hundred owned motor vehicles last year. Figures compiled by the bureau of statistics show that in 1925 the total number of motor vehicles registered in Canada was 720,000, or 7.8 per hundred of population, of which 620,000, or 6.7 per hundred of population were passenger autos. Registrations by provinces was as follows: Ontario, 241,117; Quebec, 97,637; Saskatchewan, 79,078, British Columbia, 56,078; Manitoba, 51,241; Alberta, 51,261; New Brunswick, 11,130; Nova Scotia, 10,612; Prince Edward Island, 2,874; and the Yukon the balance

Preparing For Poultry Congress

World Poultry Congress To Be Held In Ottawa Next Year

A tribute to Canada's progress was paid Sir Henry Rew, who is to head the 1927 world's poultry congress in Ottawa next year, by Lord Bledisloe, in London, Scotland, president of the Empire and president of the Incorporated Association of Agricultural Societies, who has been visiting Canada recently at the Fort Garry Hotel. Mr. Brown was in Winnipeg to meet agricultural officials in connection with arrangements for the congress and incidentally he inspect the Manitoba Agriculture College buildings during his visit.

Cuts and Bruises Disappear...

When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Eclectric Oil. Its healing power is unsurpassed in every section of the country. Dr. Thomas' Eclectric Oil is found in every medicine chest ready for the emergencies that may always be anticipated

Red Lake Bulletin

Many Prospectors Outfitting For Trip Into Country

Information regarding the district of Patricia, Red Lake, and adjacent territory has been compiled in handy leaflet form by the Ontario department of mines, together with information as to staking and recording mining claims and concessions as to supplies and equipment for prospective prospectors. A good map of the Red Lake district is included. Hudson is now a busy spot, many prospectors sailed this there for the trip into the mining country. Cold packs managed the about 30 are arriving every day, loaded by the Bay steamer after they get their equipment together

New Source of Sulphur

White Island, off the coast of New Zealand, boasts a volcano that is still quite lively. Being off the main routes at travel, this island is not often visited by tourists. Its chief attraction is beginning to discern there a pre-flash feeling, owing to the rich sulphur deposits, some of which are said to be 95 per cent pure.

An Astonishing Remedy Like It. Is

Dodd's Kidney Pills. Nothing like it scientific different from other so-called remedies. Dodd's Pills act as it would not have established its great work of relief and kidney troubles. Dodd's Pills are known for its wonderful value. Red Lake is the newest and best of all mining districts, sounds upon a report of the Ontario bureau of mines, and those who have known its benefit

New York Is Busy Port

There are usually about 200 ships in New York ports. They range from huge liners to sailing smacks. In a single month of a busy season some-

Some of the deep fishing steamers of the Black Sea contain a larger per centage of green coloring matter than that fire near the surface.

Eight Canadians in Every Hundred Now Own Motor Vehicles

Nearly eight Canadians in every one hundred owned motor vehicles last year. Oil Leases At Lesser Slave Lake

It is understood that a definite agreement will be made this season to develop oil fields in the Athabasca-Lesser Slave Lake district of Northern Alberta, a new map formed by geologists. Drilling will be commenced shortly on well number one of the International Petroleum, of New York, which controls the rights on a total tract of 23,000 acres of oil lands in the eastern border of Lesser Slave Lake.

They Bring Almost Instant Relief

That is What Mrs. A. Mills Says of Dodd's Kidney Pills

Ontario lady took Dodd's Kidney Pills for a week back with very beneficial results.

Bedeville, Ont. — (Special) — Short, but to the point, is the statement made by Mrs. A. Mills, who resides at 14 Bloom Street, Bedeville. She writes:—

"I have always been troubled with a weak back, especially after any extra work. I find, if I take Dodd's Kidney Pills, they bring almost instant relief."

The relief that Mrs. Mills found has come to thousands of other Canadian women through the use of Dodd's Kidney Pills. They show that the ache is caused by the kidneys, but Dodd's Kidney Pills are simply and always a kidney remedy. For more than a quarter of a century Dodd's Kidney Pills have been a household remedy in thousands of Canadian homes.

British Columbia Sea Fisheries

Demonstration of British Columbia's outstanding land in the deep-sea fishing industry of the Dominion is given in the summary of last season's catch issued by the bureau of statistics. The catch was valued at $12,788,326, a gain of over $2,000,000 over that of the previous season. Of the amount British Columbia contributed nearly fifty per cent, which an output valued at $11,667,327.

Tree Goes To Press

It took two hours and 25 minutes to convert a tree into a newspaper in a town of North recently. The tree was run down at 7.35 a.m., barked and sawed and a roll of paper was ready for a nearby newspaper plant at 9.34. The boys were erying the paper on the streets at 10 o'clock.

We have given notice that the name Aspirin shall not be considered as a trade name or generic term, and that it is the sole property of the Bayer Company which will be protected as heretofore.

BRITISH LIBERAL PARTY HEADS ARE IN DISPUTE

London, Political circles in London are humming with excitement over the open breach between Lord Oxford and Asquith, titular head of the Liberal party, and David Lloyd George, the real driving force and leader in the House of Commons. Everyone is speculating on Lloyd George's future. It is recognized that either he or Lord Oxford must leave the party, and it is not expected that it will be Lord Oxford, who has the support of the old-timers in the control of the Liberal machine. On the other hand, it is believed, Mr. Lloyd George, if he plays his cards well, can win the support of the Liberal rank and file of Parliament, and perhaps attract new blood.

Mr. Lloyd George, it is believed will refuse to accept expulsion from the Liberal party, but he may place himself at the head of the radical wing and make approaches to labor, not as a coalition, but as co-operation and perhaps a coalition in the event of the new alliance coming to power. It is believed he would be willing to serve under a labor prime minister, while Premier Macdonald's independence as a left wing Liberal.

With this programme in view, it is believed in political circles that a parliament re-assembles, is subsequent settlement of the miners' strike, and Labor policies, generally passing as the tribune of the people and co-operating closely with the Labor-ites.

Would Include Union Jack

General Smuts' Suggestion For New South African Flag Is Opposed

Capetown, During the debate in the legislative assembly on the government's bill providing for a new flag for the Union of South Africa without embodying the Union Jack in its design, Premier J. B. Hertzog declared he had no desire towards the Union Jack, but he thought the only right never could be brought about by putting it on the national flag.

General Jan Christian Smuts, leader of the South African party, pointed out that the government's problem for flying the Union Jack would only apply on Empire Day.

The opposition had supported a combination of the Republican colors and the Union Jack for the proposed flag and they could see no reason why the Union Jack should be declined.

Premier Hertzog in Canada over the Union Jack that the old Republican flag was dead. The proper method of approach, he declared, should be not the methods of the past, but those of to-day. Inclusion, as Great Britain had done in the case of the Union Jack was not based on larger proportions.

Finds Canada Ideal

Conditions Superior to U. S. Says Swedish Government Lecturer

Regina, Canada as a future home for many Swedish citizens was described as ideal by Professor Thorgny Brandt, lecturer of the Swedish Government, who arrived in the city accompanied by M. Hermansson, Whitehall, member of the Saskatchewan legislature.

Mr. Brandin is making a trip through Canada from coast to coast in the interests of immigration. Much of his time will be spent in British Columbia, where he will make extensive studies of the fishing and lumbering industries. He expects to return to Stockholm in January and commence a series of lectures describing Canada. In the latter discourse he will be transferred to obtain in Scandinavian countries.

Predecessor to Canada over the Lull Mr. Brandin was welcomed by Scandinavians who expressed by Mr Brandin. He declared that Canada was the ideal country for Swedes, and deplored the fact that the cause of the reasons embodied in the Union Jack.

Queen Celebrates Birthday

Her Majesty Was Fifty-nine Years Old On May 26

London.—Her Majesty Queen Mary was 59 years of age May 26.

The Queen, who was born in Kensington Palace, has spent most of her married life in the Royal residences of Buckingham Palace and Windsor Castle, but Queen Mary has always had a fondness for the country, and has been responsible for the development of the Royal estate at Sandringham, in Norfolk, which she inherited from her mother, Queen Alexandra, and which she has made her favorite residence.

Morocco Chief Surrenders

Abd-el-Krim, Rifian Warlord, Has Finally Capitulated

Madrid.—Abd-el-Krim, the Rifian warlord, has surrendered. Official announcement to this effect has been made here.

Krim entered the French zone in Morocco in flight from the Spanish forces. Details of the surrender have not yet reached here.

Rather than fall into the hands of the Rifian and having in fact native Abd-el-Krim, the Rifian warlord has predicted to put himself at the mercy of the French.

The submission of the rebellain had been expected in official circles, and the news was received with satisfaction. Spain when the foreign office made the announcement of his surrender.

Budget Resolutions

Minister of Finance Had Two Amendments Which Were Adopted

Ottawa.—Budget resolutions, that on return of penny postage, abolition of the sales tax on radios, and that on playing cards, extending the list both of articles exempt from sales tax and of articles liable to only 50 per cent, sales tax passed the house.

Hon. J. A. Robb, minister of finance, had two amendments, both of which were adopted. One was to exempt clothing for old wells and machinery for pumping crude oil to the flat of any well producing not more than 25 barrels per day.

Hon. Mr. Spence in the Liberal member for Saskatoon from the constituency of Maple Creek.

The session was in the nature of a compromise between the Liberal and Labor groups on the resolutions was given first reading.

Completing Giant Motor Car

Noted Driver Will Attempt to Lower World's Speed Record

A giant motor car now being completed at Walthenhampton is expected to lower the world's speed record will be officially raised at Land Incorporated, have two engines and a total horsepower of 2,500. The car is 40 feet long and is expected to attain a speed of 200 or 220 miles an hour. Major Segrave, noted driver, will attempt to lower the record in its first

Income Taxes In 1924

Ottawa.—Abscorbar a synopsis in the House of Commons, the minister of customs stated that 253,514 individuals paid personal income tax in the calendar year of 1924 on their 1923 and incomes below $14,000.

Unemployment Shows Increase

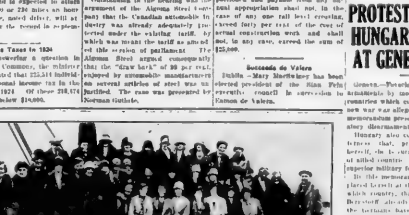
Ottawa, Ottawa, Ontario is the same time was rendered by the unemployable weather prevailing generally at the beginning of May, the labor office of statistics, employ-ment on the whole showed a considerable increase. 32,000 persons being added to the staffs of 8,966 firms reporting, who employ 773,417 workers.

No New Legislation

Ottawa. Except for some special enquiries in the criminal code, and possibly some minor legislation, the government has no new legislation to present to parliament this session, Premier King informed the House of Commons.

Cost of Strike to British Railways

London. The great labour conflict by the four big railway companies of Great Britain as a result of the general strike and the coal miners' strike amounts to £4,400,000, according to the Railway Gazette



Lucky Canadian Bachelors

This party of pretty girls came over on the Ascot-Donaldson liner Letitia, one of the first fleets to dock at Quebec this season. The girls are for the time being under the auspices of the Salvation Army, and are recruited from all parts of Scotland, and are now on their way to various destinations in Canada.

TARIFF BOARD WILL DEAL WITH STEEL INDUSTRY

Ottawa. The tariff advisory board commenced its work by hearing the applications of two Canadian steel companies which are asking for more protection, as well as an argument in favor of the present rates. It was announced that he representation of the Canada Steel Co., the Algoma Steel Corporation and the Dominion Steel & Coal Corporation will continue over a period of several months. The tariff board will have the assistance of the technical staffs of several government departments. Shortly a questionnaire will be issued to the various companies which will be a basis of the investigation. Right Hon. J. Tolmie, minister of agriculture, will be heard by the board to see to an application by J. J. Donaldson, who announced that he represented foreign capital, a farmer of Maple Creek, Sask., and a consumer of steel products. Mr. Spence is the Liberal member for Saskatoon from the constituency of Maple Creek.

The session was in the nature of a compromise between the Liberal and Labor groups on the resolutions was given first reading.

FOR MARKETING OF LIVESTOCK ON A POOL BASIS

Regina.—To co-ordinate the efforts of the livestock co-operative marketing organizations in Alberta, Saskatchewan and Manitoba the livestock co-operative council was formed here yesterday. The council is composed of three representatives from each province.

C. Rice-Jones, president and manager of the United Livestock Growers, told the conference that the chief holders of the United Grain Growers who are members of the U.F.C. would be prepared to turn their organization over to the provincial livestock pools and give the producers their own selling agency when the pools were given on a strong basis to going concerns.

The conference passed a resolution calling upon the federal minister of agriculture to take steps to remove any disabilities that co-operative marketing organizations suffer from under the existing Dominion Companies Act and to make provision to give co-operative livestock marketing organizations definite recognition under the law and to provide for special licenses being granted to co-operative marketing organizations to operate under a uniform system, but were divided over resolutions to establish a loan act that would be divided.

As the first act was closed, Ewell found that the statement seems to take all the ingredients of a good drama—love, jealousy, hatred, revenge and justice. Their work, he pointed out, would contribute to funds for the greater protection of the rights of individuals, namely, disarmament

Alberta Election June 28

Provincial Campaign Is Now Off To a Flying Start

Edmonton.—General election day in Alberta will be Monday, June 28, with nomination day one week earlier.

The writs have been issued for three days and the campaign is now off to a full start. The government has to say to say conclusions at the polls in Edmonton on Wednesday, June 18th, when a strong nominated by the Liberal Association of Edmonton in a landslide majority over the former Liberal theorist. A cabinet minister is expected to address a meeting in the Edmonton constituency.

Alberta Natural Resources

Bill Not Likely To Be Proceeded With

Winnipeg.—The Alberta natural resources act and the Telkwa report. A Liberal press had the public to understand the government that the Alberta Natural Resources Bill is unlikely to be proceeded with this year.

It was also understood the government does not intend to vary the agreement in accordance with the Alberta Legislature's amendment regarding refuges, but at the same time, the bill now before the house will not be proceeded with unless there is some unforeseen development. In the report Mr. McLeod intimates he hoped to bring about a settlement.

Lloyd George Sticks To Former Opinion

Blames Government For Breaking Up Negotiations Before General Strike

Llandudno, Wales. — Mr. Lloyd George, chairman of the Liberal parliamentary party in the House of Commons, defended his attitude toward the general strike, which has been strongly censured by the Hart of Liberal party.

Mr. Lloyd George charged that the negotiations between the government and the union leaders had been broken off because of his visit to the office of the Daily Mail. He said that the trades union leaders had agreed until this strife, but that the government refused to negotiate further, although there was only twenty four minutes and speaks.

Warning Civil, the British representative at the meeting, and other leaders did not conceal their belief strike." Mr. Lloyd George said, "but that it may be years before a gain as this we are thanking the trades union movement for its efforts in behalf of the miners." Civil called attention to the fact that the action of the miners marked the first concrete step by the trade unions and disarmament after the Paris Peace Conference, and declared it as unfair to publicly proclaim that any one class is responsible for the present industrial depression. Civil declared that disarmament programme is outlined it was pointed out that a general disarmament conference will be called by the league only when world wide economic conditions are favorable and their own resolutions as already a law or that which he desired.

As the first act was closed, Ewell found the statement seems to take all the ingredients of a good drama—love, jealousy, hatred, revenge and justice. Their work, he pointed out, would contribute to funds for the greater protection of the rights of individuals, namely, disarmament

Japanese City In Ruins

Huge Irrigation Reservoir Bursts Banks and Floods Kitsuru

Tokio—The Meiyen irrigation reservoir in the Akita prefecture of Northern Japan has burst its banks and has swept away half of the town of Kitsuru, according to reports received here. The loss from a population of 7,000 and it is feared that the casualty list may be heavy.

The reports say that the post office, a bank and a theatre in Kitsuru have been carried away by the waters. Details of the flood situation are lacking.

A large number of injured have been taken from the ruins of houses and buildings, including the town hall, which were washed away when the dam broke.

Roads, telegraph and telephone poles were carried away in the flood, interrupting communication and making accurate details of the ruins

Assassinates Former President Of Ukraine

Was Jew's Bullet Ended Career of General Simon Petlura

Paris The spectacular career of Simon Petlura, former president of the Ukrainian Republic, was ended as such by the allies in March, 1919, and later beaten by the Bolshevik, has come to an end.

He died in the Claudy Hospital here a few hours after he was shot down by a Ukrainian Jew, Samuel Schwartzbard, in the eastern quarter of Paris. The assassin died not to let appeal.

Schwartzbar called over his dead, saying he was in revenge for the murder of his relatives and Hebrew Jews in the Ukraine when he held power.

PROTEST FROM HUNGARY HEARD AT GENEVA MEET

Concrete Steps That May Lead To Disarmament

Church The League of Nation's preparatory disarmament conference which ended here was heralded as a step toward world wide disarmament and was marked by the unanimity of the league the most important step since the adoption of the statute of the League

Adjournment of the one week session of both technical sub-committee which initiated with studying seven questions, which must be answered before a world disarmament conference can be called, brought expressions of pleasure that there was such unity.

Viscount Cecil, the British representative at the meeting, and other leaders did not conceal their belief that it may be years before a gain as this we are thanking the trades union movement for its efforts in behalf of the miners." Civil called attention to the fact that the action of the conference marked the first concrete step by the trade unions and disarmament after the Paris Peace Conference, and declared it as unfair to publicly proclaim that any one class is responsible for the present industrial depression. Modern Highway Across Canada

All Canadian Road From Halifax To Vancouver Before End of Year

Four different governments have at last heeded the call for an all-Canadian highway stretching from Halifax, N.S., to Vancouver, B.C. Four governments have met on equal ground, and each has pledged the completion of the necessary work, outside any "We are already completing our last remaining link," Alberta is to have its link ready this year. The Dunbleer Government speaking for Jasper National Park, states that it will link up with Alberta this year, and British Columbia, the last to fall into line declares, "When the Jasper highway reaches Twin Jams- Carbo, British Columbia will have a road ready to carry it on to Vancouver." It will be possible to tour across Canada on a modern highway before the end of the present year.

Stone Age Weapons Efficient

Recently Discovered in England Have Edge Keen As Razor

An arsenal was discovered somewhere in the neighborhood of Chatham, England, believed to have been used by ravenous millions of years ago. The local museum authorities discovery about sixteen months ago and since then about four thousand hammer stones, flint axes and scrapers, and other weapons of flint, have been taken out of the dump. The tools and weapons, although they belong to the earliest period of the Stone Age, are wonderfully efficient flints as the others are still almost as keen as razors.

1320

The Softly Flared Silhouette

The matron has her "leglips" in this season's fashions, for all clothes are extremely simple, and many of the most important details happen to be those with a side-closing effect. This is true of the model pictured here, developed in one of the small all-over floral crepes. The hat is one of the new tennis effects with feathers at the shoulders, and is joined to a circular skirt from having an inserted plait. The belt is in one piece, starts at the side, and has a narrow bell. The sleeves are bias and gathered into wrist bands. No 1320 is in sizes 36, 40 and 44 inches bust. The dress requires 3¾ yards 39-inch material. Price 20 cents.

A Health Item Of Interest

A New and Effective Method of Promoting Health

It will be good news to our readers that they now have available a most effective means of promoting health in the home by eliminating the disease that are transmitted by flies and mosquitoes. Flit, the remarkable insecticide which has been perfected by the standard Oil Company of N.J. is now obtainable in Canada at almost any drug stores, hardware store or grocery store.

For years the research laboratories of the Standard Oil Company of N.J. were engaged in developing a type of insecticide that would be clean, safe and easy to use.

At last their expert entomologists and chemists succeeded in perfecting an thoroughly scientific preparation due to the old methods of killing insects, in that, it does not contain that some anywhere in the neighborhood of the application of the spray, and that is very swift and sure in its action.

Having found this wonderful answer to the insecticide problem, they called it "Flit," and under this name it has attained a huge sale in the United States, and is in Canada, where it is used as an aid to home health, by reason of those qualities which make it sure death, not only to flies and mosquitoes, but also to moths, ants, bedbugs and roaches. This wonderful product is now on sale in all parts of Canada.

Sprayed into cracks and crevices where insects hide and breed, Flit destroys both the insects and their eggs. An added advantage is that Flit will not stain the most delicate tablets. This has been proved by extensive tests

Wins High Art Award

Armless Japanese Girl Carried Off Honors in School Exhibition

A Japanese girl, handicapped by the loss of both arms, but possessed of great courage, astonished Tokio artcircles by carrying off the honors at the Ueno-mura school exhibition. Holding specially constructed brushes between her teeth, Miss Yoshiko Yamamoto, the armless artist, has for several years painted old, the decorative Japanese way, by all Japanese women some of her work at the exhibit sold for as much as $5.

Always Ready and Reliable.—Practically every household finds itself in need of a liniment from time to time and nothing is more reliable than Minard's Liniment. Being ready to use the sore spot and it is quickly absorbed by the skin. Its penetrating power is very effective in the relief of many ills.

A Health Item Of Interest

A New and Effective Method of Promoting Health

Plane Aerial Expedition

Eastward Through Dutch, or Russian Africa, has presented to the ministry of the navy plans for an Argentine aerial expedition to the South Pole and an attempt to set aside exploration in other regions.

A reward is a man who knows he is wrong and refuses to admit it.

All men are equal before the law, but not before the motor-by-law.

ON THE AIR

What Is Doing In the World of Radio

There has been quite a boom in wireless sets in Paris since the general strike in England, especially among English-speaking residents who need them to get their evening news.

Many persons are suffering from radio deafness because they listen for many hours without removing the phones. An ear specialist advises the use of loud speakers.

Con.—Thereabouts will never take the place of newspapers.

Dinner.—Why?

Con. You can't start a fire or line a carpet with a radio set.

Many broadcasting stations are now making public their advertising rates thus United States broadcast station has a rate ranging from $20 for a star for at an hour during the day to $170 for one hour at night.

Tuslingue, the famous priest and scientific electrical engineer, who is noted in France for his lectures as well as his sermons, has just completed what he claims is the first really perfected loud speaker for crystal sets.

Air conditions for radio are best in February, the next best months being March, January and November. Commercial stations carrying programs at Rio Janiero, Brazil, is in touch with London, New York, Paris, Berlin and Rome.

Senda Radina, radio artiste, has insured musical instruments for $100,000. She spent four years living with the peasants of Europe, listening to folksongs and recording them by candle light. She uses those manuscripts for her radio concerts.

Electric power men from all parts of Wisconsin have pledged themselves to co-operate in preventing the interference of radio receptors, but to what the ratio set owners in Sioux City think will be a matter of considerable trouble such as toilet ray machines, X-rays and such.

When a radio receiving license is granted to a listener in Japan, his set is tuned to the wave length of the Tokio Municipal Broadcast Station and then sealed so that no other station may be tuned in. It is reported that this is done in order that no radical ideas may be picked up if put on the air by secret broadcast stations.

Many people have the delusion that the resistance of headphones is a measure of their quality. Actually, radio headphones of 2,000 ohms resistance may be much better than those of 4,000 ohms resistance. The resistance is determined by the length, size and kind of wire used in their construction. Their performance is a matter of proper engineering design and the use of good materials.

The Oil for the Athlete.—In rubbing down a muscle-bound athlete, Dr. Thomas Eclectric Oil an excellent article. It relaxes the muscles and allows the blood to circulate freely. Many people have found it a most valuable remedy for all pains and aches. It may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a liniment.

World's Poultry Congress

The Dominion Minister of Agriculture has named official papers-writers at the World's Poultry Congress at Ottawa, July 27 to August 6, 1927. They are Mr. Rhumont, member of the House of Representatives, and publisher of the National Federation of Poultry Societies of Belgium, Louvenge; M. Pallarès-Bressa V., editor in chief of the Avicultural Chronicles; and M. Heydebreck, Arb, a Chamisso de Brunhilva, Ludwig

To Develop More Power

Two million dollars will be spent by the Winnipeg Electric Company and its subsidiaries in making the necessary provisions to obtain still more power from the storage-site at Pine Falls during the next eight months, it is announced. A considerable proportion of the $2,000,000 will be represented by increased power machinery, it is stated.

59—Consider.
62—Jagged promontory

SUNDAY SCHOOL LESSON

JUNE 12

JOSEPH'S FIDELITY

Golden Text: Resist them a man stiffened in his insolence; he shall stand before kings. Proverbs 22:29.

Lesson: Genesis 39:1-23.

Devotional Reading: Proverbs 4:10-19.

Explanations and Comments

Joseph Becomes House-Steward in Egypt, verses 1 6.—A band of Ishmaelites brought Joseph down into Egypt (see The Historical Background and Introduction). Sold him to Potiphar, Pharaoh's captain of guard. Finding in his personal charge a fellow who comely and well-favored, verse 6), Joseph was taken into his master's house as a servant instead of being sent to the fields to labor. What a contrast from his life at home as the favorite son of his father and his favorite brother! But Joseph is not the kind to whine and complain. He has found favor in the sight of his master, so serves with him and God prospered him. But Joseph is not content to be a mere slave. He has ambition. He has a large capacity for affairs

Provincial Electoral Division of Vegreville

Jas. D. Hannan
Liberal Candidate for Vegreville

Tofield, June 1st, 1926

To the Electors
Electoral Division of Vegreville.

In appealing to you for support at the polls on June 28th, I do so with due respect to the opinions of others, which do not coincide with those held by the Liberal party in Alberta. This campaign in the Vegreville division is one into which personalities should not enter and one in which the public issues of the day should be discussed fully and frankly and decisions arrived at which are for the benefit of the province as a whole and this electoral division in particular.

For fifteen years I have lived among you, and, as farmer and stock dealer, I have had occasion to come in close contact with all the problems effecting these basic industries. I feel that I am in a position to give you, as your member, practical and efficient service.

As a supporter of the liberal policies, I am in wholehearted accord with the principles laid down by Capt. J. T. Shaw, the Liberal Leader, which principles, briefly outlined are as follows:—

Upon the prosperity of our farmers rests the hope for our future in this province. But to attain the most successful future it is essential that all classes of the community, be it farmer, laborer, merchant, mechanic, or business man, all must keep step together in marching to the goal of our destiny. The welfare of every class and individual is inextricably interwoven with the welfare of every other class. He who seeks to show in the rural and urban elements of our population their mutual interdependence points to the true path of understand, ing, and of progress and unity. It cannot be denied that the prosperity of our urban people finds its reflection in an increased prosperity among our farmers, and the reverse is equally true.

No government can long endure which fails to recognize these essential facts or which found its strength upon existing antagonisms between class and class or between section and section.

Never before in our history has our people been so divided and so far apart as today. That ever widening chasm between our city and country people must be bridged. It can only be bridged by a realization of our common interests, our common duties and our common responsibilities.

The Liberal Programme

There was a period in our history when the government of Alberta, with pioneering vigor led the way in helpful and effective legislation. The last five years have witnessed a flabby relapse into inaction. Instead of a cour, ageously facing and solving our problems, the government has either ignored them or shuffled them off for consideration by friendly commissions. The province has been overrun by commissions, racing and chasing here and there at public expense.

The Liberal party invites public confidence on a policy of action as indicated by the following constructive programme:

1.—Immediate examination of our provincial taxation system and adjustment on sound principles of taxing powers between the Province and Municipality.

2.—Decentralization of government machinery, by placing more power and duties in the hands of municipal authorities and bringing the government close to the people rather than dragging the people to the govern, ment, thus promoting efficiency and economy.

3.—An immediate and long overdue reduction in taxation.

4.—A persistent and determined effort to make expenditure balance income every year, not every pro-rlect, ion year only as at present.

5.—The budgeting of an adequate sum every year, as the sinking fund principle to effect the retirement of our public debt within a reasonable time.

6.—Realizing the primary importance of the agricultural industry, the Liberal party pledges itself to assist that industry in every reasonable way, by ensuring that the co-operative marketing enterprises get a square deal, secure from every unfair competition, and all discrimination, by the provision of adequate facilities for marketing the farmers produce by establishing in close co-operation with the Dominion government a system of rural credits based on some sound principle by vigorous demand before the railway commission for the needed reduction in railway and express rates and for the elimination of discriminatory freight rates, and by jealously guarding the farmers' interests in the Western Rates, not only by zealous watching but by proper representation.

7.—The Liberal party undertake to inspire a real leadership in educational affairs and will be prepared to make more liberal financial provision for that essential service.

8.—The Liberal Party pledges itself to encourage an expansion in the municipal and industrial activities of the Province in order to promote the highest standards of public health.

9.—The Liberal Party has assisted in every possible way to secure the returns to the Provinces of its Natural Resources. This should soon be realized. If honored with public confidence, the Liberal Party proposes to undertake the prompt and efficient development of these resources in the public interest along sound business lines.

10.—When entrusted with office, the Liberal government would engage a small body of experts to examine the sources of power in the province for the purpose of proving if possible a practicable power scheme to supply cheap power to our communities for industrial and agricultural purposes.

11.—The Liberal Party offers a redistribution according to a definite plan on the principles of representation by population, paying, however, due attention to geographical area and community of interest. It is being understood that such re-distribution will substantially reduce the number of provincial ridings.

12.—The Liberal Party proposes to encourage a policy of co-operative effort of all classes and their representatives in the interests of phenomenic legislation.

The Liberal Party offers to the Electors a policy of constructive effort and of action, and a Government "of the people, by the people, and for the people."

It is my earnest desire that the campaign in which we are now engaged will be closely fought, without bitterness or creating any animosity throughout the district, a campaign of which the Liberals may well be proud when it is over. If, elected, it will be my duty and my privilege to serve the province and constituency to the best of my ability and to keep my public life unsullied by any taint of dishonour.

I respectfully solicit your vote and influence,

Yours faithfully,
JAS. D. HANNAN.

New Attorney General Appointed

Issued by Publicity Commissioner, Government of Alberta, Edmonton June 5th, 1926

TO THE ALBERTA COAL

It is stated officially that the Canadian National Railways will use 1,500,000 tons of Alberta coal during the coming year on its lines in West ern Canada

NORSE CENTENNIAL

Arrangements for the Norse celebration to be held at Camrose in the first week in July are now being completed. Norsemen from all over Canada and from the United States will be in attendance Three special train loads of visitors are expected. Special exhibits of products of the year ites will be set up.

HIGHWAY CONVENTION

The 1926 convention of the Alberta Montana highway association will be held in Lethbridge in August.

ONLY WOMAN RETURNING OFFICER

Claiming the distinction of being the first woman returning officer to be appointed in a provincial election, Mrs. A A Baker, has been named to act in this capacity in the Medicine Hat riding in the forthcoming provincial elections.

HILL TO BE COMPLETED

Construction of the Ice Spiller's Mill at Calgary is to be completed this year, and the mill is expected to be ready for operation in October.

NEW ATTORNEY GENERAL

Announcement was made during the week of the appointment of the post of Attorney General of Alberta Government by John F. Lymburn, Edmonton lawyer. Hon. Mr. Lymburn has been sworn into office and will enter the provincial election this month for one of the five Edmonton seats. He has the portfolio which has been held by Premier Brownlee since 1921.

John Farquhar Lymburn, the new attorney general is a comparatively young man. He was born 36 years ago in Ayr, Scotland, within two miles of the birth place of Robert Burns. His boyhood was spent there and his early education obtained in the grammar school and academy at Ayr. On completion of his studies there, he entered the law office of Brandy and Douglass, of Ayr, where he was appointed in law for five years. Completing this, he entered the office of Kidstons, Watson, Turnbull and Company, of Glasgow, one of the oldest established legal firms in Scotland During these period in these offices he entered the law courses in Glasgow University, and passed his final examination and was graduated in 1903, when he was admitted to the practice of law in Scotland.

Mr. Lymburn remained in practice in Glasgow until 1907, then went to Hamilton, Scotland, where he remained until March 1911, in which year he came to Edmonton.

In Edmonton he entered the law offices of Short and Cross, with which firm he remained for 18 months, the first venture into private practice was under the firm name of Lymburn & Keator and Lock, which firm was established in 1913 He then took as partner John Scrimgeour and Lister Moore Read. Mr. Scrimgeour returned to the old land some years ago, and the firm continued as Lymburn and Read, until the present.

Mr. Lymburn has been before the courts of the province practically every since his arrival in Edmonton. His work as counsel has become notable and his success in respect has been as well known. He has handled all his counsell work of his firm and a very extensive practice has been established. Recognition of his standing in his profession has come in many ways, among these being the fact that he was president of the Edmonton Bar Association during the term of 1921-1923.

MUNICIPAL DISTRICT of BEAVER LAKE, No. 60

NOTICE is hereby given that if all arrears of taxes imposed for 1925 in respect of any parcel of land situated within this Municipality are not paid on or before the first day of July next such land will be dealt with under the provisions of the Tax Recovery Act 1922, with a view to obtaining certificate of Title in the name of the Municipality in respect of such parcel.

G. E. McVITTIE,
Secretary-Treasurer, M.D. of Beaver Lake, No. 60
Ryley, Alberta, June 1st, 1926.

To The Electors of the Vegreville Constituency

May 31st, 1926

As candidate of the New Provincial Conservative Party for this constituency, I would like to have the privilege of meeting each elector personally before the date of polling, but as this is obviously impossible, I take this opportunity of placing my views before you and of asking your consideration and support.

As many of you are aware, I have been a resident of the Vegreville District for the last twenty-three years, during all of which time I have been both directly and indirectly interested in farming and consequently in all that effects this great basic industry. I have, since its first introduction in this Province, been an ardent supporter of the Co-operative system of marketing farm produce. I am a member of the Wheat Pool and for the last two years have had the honour of attending the Pool Conference in Calgary as the Delegate from this Division, and sincerely hope to see this system of marketing extended and pledge myself whether elected or not to use my best efforts to this end. I feel that good market roads are essential to satisfactory agricultural conditions, and that funds which rightfully should be spent for providing the farmer with such are being diverted to an increasing extent in provincial Tourist Highways.

I feel that the cost of government is out of all proportion to the services rendered, and that the application of sound business principles in administration will enable substantial reductions to be made in the burden of taxation which is now retarding the development of the Province. The remedy is quite obvious.

If elected, my sole endeavor will be to promote the interests of the people of this Province as a whole and of this constituency in particular. I will carefully analyze all legislation which may come before the house, and either oppose or support it on its merits alone, regardless of Party affiliations.

I am a candidate of the New Conservative Party and a supporter of Mr. McGillivray, because I believe in the policy which they advocate, and in the sterling character and marked ability of Mr. McGillivray himself. The policy which he advocates and which I pledge myself to support, if elected, in part, is as follows:—

1.—Curtail expenditure without dispensing with necessary services. (1st.) By reducing the annual allowance made to members of the legislature by at least $500.00 per annum each. (2nd.) By reducing the number of Members of the Legislature and (3rd.) By eliminating waste and duplication in the various services of the government, and by the introduction of modern business methods of administration, thus permitting a substantial reduction in the burden of taxation.

2.—Reduce the cost of education to both School Districts and pupils by the raising of high standards of the Educational System. Raise the standard of the Teaching Profession, and encourage permanency by the introduction of a Provincial System of Teachers pensions.

3.—Assist in the extension of Co-operative System of the marketing of farm products. Assist in the development of the Western grain trade. Undertake the survey of water power in the Province for Hydro Electric purposes and extending the benefits of this utility to the farms of the Province as has been done in Ontario.

4.—Assist in the development of such resources as coal, gas, oil, and other minerals known to exist in the Province, thus assuring industrial development and solving the great problem of Seasonal Unemployment.

If elected, I shall place myself unreservedly at the disposal of the electors, and my one sole aim and object will be to contribute towards the introduction of happier and more prosperous conditions for the great producing class of this Province.

I pledge myself to all the foregoing, and I believe my record both public and in private life entitles me to your confidence. I hope to have the privilege of placing my views before you in more detail during the next three weeks

Yours faithfully,
A. W. FRASER

MISSIONARY SOCIETY CONFERENCE

The first Alberta Conference Branch of the Woman's Missionary Society of the United Church of Canada met in Calgary, May 26—27—28.

Presiding officers were: Mrs. Geo. Dawson of Edmonton and Mrs. A M. Scott of Calgary. A very impressive inaugural service was held in the Central Church on Wednesday evening and the convention sessions were held in Knox Church.

Unity, opportunity and inspiration were the outstanding sentiments expressed, unity being the keynote of the "intervention. Mrs. A. M. Scott gave a splendid appeal on "Our Opportunity" to raise Alberta's share which is $82,500.00. This is our opportunity. Will we take it?

Mrs. D. E. Archer of Lamont presented the splendid work done by the hospitals at Lamont, Vegreville, Boyle ville and Cold Lake.

Mrs. Nellie McClung gave an inspirational message on "The Church."

Mrs. W. T. Ash of Edmonton contributed a helpful paper on "Expansion" and advocates "an auxiliary in every congregation and every woman a member of the auxiliary."

Miss Laycock of Kolo Kreeks Mission of Smoky Lake gave a clear and winning address on the depictual history of the Ukranian Mission schools

Miss McKee, matron of the Girls' School at Vegreville emphasized the influence of home training and teachings.

Papers in foreign work were given by Mrs. Fred King of Lethbridge on Africa and Mrs. A. McColl of Calgary on Central India.

A comprehensive survey of the work of the Interim Committee was given by Mrs. Geo. Dawson of Edmonton and the twelve Presbyterials reported through their presidents.

Mrs. J. L. Hall extended all the privileges of Knox Church to the convention and Mrs. L. C. McKinney responded in her usual capable style and expressed the opinion that the United Church should be stronger than the two combined churches.

The resolutions were presented by Mrs. J. L. Rowe and embraced the Interim Committee, thanksgiving for the consummation of unions, urged the teaching of temperance and prosperity the Lord's Day.

Delegates appointed to the general council in September are Mrs. A. M. Scott of Calgary, Mrs. (Rev.) Magowan of Medicine Hat and Mrs. W. T. Ash of Edmonton.

Delegates to the convention from the Wainwright Presbyterial were Mrs. R. H. McPherson of Ryley. Mrs. Geo. Cookson of Tofield Mrs. A. J. Thornley of Ryley Mrs. (Rev.) Sutton of Holden Mrs. F. Eastman of Ryley.

Officers for 1926—7. Mrs. A. M. Scott, Calgary, Pres.; Mrs. Geo. Dawson, Edmonton, Vice- President; Mrs. Rennie, Calgary, corresponding secretary; Mrs. J. E. White, Calgary, treasurer; Mrs. J. J. Lyle, Calgary, corresponding secretary; Mrs. W. T Ash, Edmonton, Christian Stewardship; Mrs. M. E. Thornley, Ryley, Missionary Monthly; Mrs. D.E. Allen, Coleman Associate helpers; Mrs. Coutts, Edmonton strangers secretary; Mrs. Studholme, Edmonton Supply Secretary.

Eucharistic Congress Chicago, June, 1926

The Greatest Event in the History of the Catholic Church in America

C.N. RYS. TO OPERATE SPECIAL TRAINS FROM WESTERN CANADA

Of unusual importance to Roman Catholics is the fifth International Eucharistic Congress in Chicago, Ill., June 20th to 24th next.

The Church dignitaries are duly apprecitive of the efforts made by the Canadian National Railways, who have arranged to operate special trains to and from the Congress, and have also made reservations for several hundred people in good hotels at a reasonable expense, and ask their people to make application promptly for the necessary sleeping car and hotel accommodation. The Church authorities were consulted prior to arranging the train service so that the proper departure time from the various centres would be assured.

Those who desire to use the regular service have the privilege of travelling on the through train which is operated during the summer season from Western Canada to Chicago.

Any agent of the Canadian National Railways will be pleased to give you further particulars and complete all arrangements.

For Economical Transportation
CHEVROLET
Thousands of testimonials!

In 1925
CHEVROLET had its greatest year. During that time literally thousands of testimonial letters were received from satisfied Chevrolet owners—a tremendous avalanche of evidence that the public possesses a genuine appreciation of the car and its performance.

In 1926
Chevrolet offers even greater values than before. While its never-failing standard of quality and the new LOWER prices, Chevrolet is demonstrating to the public, in greater degree than ever, its policy of "QUALITY AT LOW COST".

New Low Prices

SWIFT & EMERY
Chevrolet Dealers
TOFIELD, ALBERTA
Greater Quality at Low Cost

Cans, Cans, Cans!

Those who are familiar with "Boots" the famous poem by Rudyard Kipling, will in some measure realize our feelings on a busy day in June. Where the soldier trooper saw boots, boots, boots, we see cans, cns, cans. But there the likeness ceases; for while the boots, boots, boots, drove the soldier trooper to distraction, we thrive on cans, cans, cans—of cream Even when the rush is greatest and we are working our hardest, we desire that every patron shall have a full measure of satisfaction.

"The Clash of The Wolves"

There is no end to the pleasure derived from seeing this picture. Besides seeing a picture with a good plot with love and heroine, villain and dope you see the masterpiece in intelligence of the canine world, RIN TIN TIN.

You will go away from the theatre wondering how he did it, marvelling at his cleverness, expressing admiration at his training.

BY THE WAY!

And this has nothing to do with the picture, but just between us, Rin Tin Tin was the best looking family. He was recently presented with a handsome daughter by Nanette. The daughters name is Blondie taken from Rin Tin Tin, the father, and Nanette, the mother. Blondie picture was recently published and she looks as intelligent as her famous parents.

Also a One Reel Educational Comedy

Admission: Adults, 35c plus tax. Children 15c. including tax

LOCAL AND PERSONAL

Leonard P. Woodhams, registered optometrist, (eyesight specialist) of Camrose paid his regular professional visit to Tofield on Wednesday.

Mr. J. Howe, an old time resident of Tofield was in town Saturday and Sunday. Mr. Howe conducted a hobby business here for some years and is well known throughout the town and district.

Mr. Ray, Dorothy and Marion Carter motored to Holden on Sunday and spent the day there.

Bud Hannan met with an accident on Sunday. He badly sprained his wrist and hurt his arm.

Gene McClurg, little daughter of Mr. and Mrs. McClurg, was taken to an Edmonton hospital on Tuesday. On Wednesday her condition was unchanged.

Mr. and Mrs. J. Carver and daughter, returned to Edmonton on Monday after visiting for a week with Mrs. J. D. Hannan.

Mr. John Glasgow spent the week-end in the city.

Bert Wallis is suffering from tonsilitus and quinsy and is quite ill.

The basketball game played by the Viking and Tofield Men's teams on Wednesday night resulted in a win for Viking by the handy score of 16 to 6. There was a fair crowd out to see the encounter.

On Sunday the local lodge of the Independent Order of Oddfellows observed Memorial Day. After religious exercises in the lodge room, the brothers journeyed to the cemetery and placed flowers on the graves of departed brothers.

The Tofield Garage and Jobb and Bruce's gasoline filling stations have been treated with a new coat of paint. They are now selling PEP gasoline and the name is prominently displayed upon the pumps.

ASSISTED BY THE ELEMENTS

Mr. John Duxbury, the popular rector, has had some unique experiences while on his travels. Once, when he visited the parish church at Millbrook, Canada, an incident took place in which it seemed as if the elements were willing to act as an accompaniment at his recital. While Mr. Duxbury was giving "The Book of Job" a heavy thunderstorm was in progress. Just as he came to the words, 'Hear attentively the noise of His voice and the sound that goeth out of his mouth. He directeth it under the whole heaven' the rector raised his hands, and out of the heavens came heavy rolls of thunder. He went on 'and His lightning unto the ends of the earth,' and the church was lit up at that moment by a vivid flash of lightning!

Fifth Annual Tour To The Pacific Coast

Special Train Leaving Winnipeg, July 5th, via Canadian National Railway. Entertainment Provided at Various Points of Interest En route

PERSONALLY CONDUCTED

Following the close of school for the summer holidays, the Canadian National Railways will again operate its popular "personally conducted" tour to the Pacific coast. This will be the 5th of such tours.

This mode of travel has many advantages. In the first place, it is planned with a view to including in the itinerary the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passenger worrying about connections, sleeping car accomodation, meals, and entertainment en route. This is all done in advance by experts, leaving the passenger free to enjoy to the full the scenery and attractions attendant to such tours.

The tour this year will commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and radio observation car, will leave July 5th. After stopping at various points of interest, the train will arrive at Prince Rupert on July 10th. At this latter point the party will embark on a delight steamship for a cruise of 850 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

Rin Tin Tin at the Variety

The show on Saturday "Clashing Wolves" features Rin Tin Tin, the famous dog actor. While there is plenty of other material for entertainment in this picture, the intelligent work of this dog actor causes audiences to wonder how he does it. "Clashing Wolves" is a stirring picture that shows the best and the worst both in man and beast. Remember two shows on Saturday, at 8 and 10

Wipe Out The Party System

In 1921 J. T. Shaw, present leader of the Provincial Liberal Party, stated that "in the wake of the party system had followed corruption." Mr. Shaw has changed since 1921, but the party has not. We cannot forget what happened in Northern Alberta so recently as last October, in the Dominion General Election.

Alberta in the past five years has had a Government in power, which is acknowledged, even by its opponents, to have been honest and sincere. It has been accused of inaction and extravagance, but these assertions are disproved by evidence of the improved financial and administrative conditions in provincial affairs.

The party system is breaking down all over the world. The genius of Albertans has evolved a system immeasurably better, a system which has functioned satisfactorily during the past five years. It substitutes co-operation for opposition in the administration of Provincial affairs. Do not be tempted by specious argument to go back to evils of 1921.

Work and Vote for U.F.A. Candidates. Join the U.F.A.

Issued by the U.F.A. Publicity Committee, Calgary

Here and There

On May 16 two hundred new Scottish settlers arrived on the Canadian Pacific liner "Metagama" in charge of Father R. A. MacDonnell, managing director of the Scottish Immigration Aid Society. This is the second consignment of settlers brought out this year under the Clan Donald plan.

The well-known comic strip artist, Clare Briggs, of "Mr. and Mrs." fame, arrived in Montreal recently with six New York newspaper men. They then went up to the Laurentian mountains for some trout fishing on Lake Archambeault and streams in the immediate vicinity of St. Donat Chalet.

A. L. Rawlinson, passenger agent, and Victor Culligan, chief clerk of the Canadian Pacific Railway at Antwerp, have been appointed as Officers of the Order of the Roumanian Crown by His Majesty, King of Roumania, for services rendered in connection with the general handling of Roumanian passengers at the port of Antwerp.

An innovation is now in use along the Laurentian run of the Canadian Pacific Railway in the two hospital cars which will meet any demand which arises, or urgent calls that may occur in cases of illness. First-class cars have been converted into hospital rooms in such a way as to easily take care of four or five sick persons.

A record single shipment of Indian motorcycles, consisting of 83 cases from Armory, Mass., recently arrived in Tokyo, having come forward by Canadian Pacific rail and steamer lines. The demand for motorcycles in Japan is steadily increasing as this is considered a cheap and convenient method of locomotion and well suited to the somewhat narrow roads of the country.

Work on the New Grand Hotel at Yokohama, Japan, started in March after various citizens had pleaded with the municipality for at least one good hotel for one of the main ports of their Empire. The hotel structure will be of concrete with a steel frame and four stories in height. The estimated cost is $1,-125,000. Furnishings are expected to cost another $250,000, bringing the total cost to $1,000,000.

Limitless and resource shown by the foreign departments of the Dominion Express Company went far to neutralize, if not entirely nullify, shipping troubles during the recent general strike in England. A fleet of motor trucks in London, Manchester, Bedford and Liverpool carried out receipts and deliveries in the usual manner thereby eliminating any ill effects to the British-Canadian trade during the period of the strike.

Battery Work

The life of your car battery will be materially lengthened if it has periodic inspections by an experienced battery man. A little attention at the right time will prevent extensive repairs or even replacement later on. We are well experienced in battery work and can adjust, repair or rebuild any make of battery. We are agent for the WILLARD BATTERY and carry a stock of new ones on our shelves.

Seeing The John Deere Tractor at Work

When you first see a JOHN DEERE TRACTOR you are impressed with its compact and sturdy appearance. But it is when you see it at work that you are really surprised. You see it going through places that ordinary tractors would stall in and your involuntary exclamation is "What Power" For great power it certainly has, and in addition to this, all the most modern features adpted to a tractor.

BAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BAREE, SON OF KAZAN" a Vitagraph Picture, With Wolf, the Wise Dog in an Adaptation of This Story

SYNOPSIS

McTaggart, the factor, had gone to the cabin of Pierrot, the trapper, at the request of Pierrot's wife, Nepomy, and intended to bid Nepomy to his widow, and on Pierrot unexpectedly return had shot him. Now, as he embraced the desperate girl Baree, the dog, whom also it had shot and who was at first thought to be dead rose, despite his wounds, and buried his teeth in the throat of Nepomy, pursued by McTaggart, ran from the house in a fury and jumped into a flaming shack in which lay what looked like certain death.

CHAPTER XXIII.—Continued

It was not sentiment that made him dig Pierrot's grave close to the pathway mother's under the tall spruce. It was not sentiment that made him dig the grave at all, but caution. He hated Pierrot fiercely. Then he pushed Pierrot's stark of because where it would be most effective and toppled it back to it. He stood in the edge of the forest until the cabin was a mass of flames. The snow was falling thickly. The freshly made grave was a white mound, and the trails were filling. For the physical things he had done there was no fear in Buck McTaggart's heart as he turned back toward Lac Bain. No one would ever look into the grave of Pierrot in Yawas. And there was no one to betray him if such a miracle happened. But of one thing his hate soul would never be able to free itself. Always he would see the pale, triumphant face of the Widow as she stood facing him in that moment of her glory when, even as she was crowning death rather than him, he had cried to himself "Ah! he also not wonderful!"

As Buck McTaggart had forgotten Pierrot, so Baree had forgotten the Father from Lac Bain. When Mr. Taggart had run along the edge of the chasm, Baree had squatted himself in the last blackest shadow where Nepomy had last stood, his body still tense and his fangs bared as he growled deep in his throat. Many times that summer Taggart had followed her in during after a little Baree followed in the direction of the deep spot. . . . But that was . . . and stopped in past years, Baree pauses a place where the . . . He never has looked at . . . of a week ago since the man was burned up in his shelter and the ashes . . . Baree . . . the . . . the heart of . . . and . . . the Factor had left . . . Baree . . . and . . . crumbled . . . and . . . walls . . . and . . . and . . . He . . . at . . .

"He stood in the edge of the forest as the cabin was a mass of flames."

The snow was falling now, and Mr. Taggart had returned to the cabin after a little Baree followed in the trail he had made along the edge of the . . . and . . . and . . . and

WORLD HAPPENINGS BRIEFLY TOLD

The bill approving the new trade agreement between Canada and the West Indies was given third reading in the Senate at Ottawa.

The National Assembly at Angora, the Turkish capital has ratified the treaty between Great Britain and Turkey settling the dispute over Mosul.

Julius Miller, of Michigan City, Ind., was hit by an auto when a passing automobile flicked from the road a nail which penetrated Miller's skull.

A. G. Ferguson, K.C., of Winnipeg, was unanimously elected president of the Manitoba Bar Association, at the annual meeting in Winnipeg.

The Rumanian Government has ordered 800 ambassadors from Italy. Italy is also completing the reconstruction and refitting two Italian built merchant destroyers for Rumania.

The first commercial shipment of wood potatoes from British Columbia to California went forward recently, consisting of 40 tons of Burbank seed seed.

It has been officially announced by the grain division of the Vancouver Merchants Exchange that no further quotations on cash grain would be issued until September 1.

Three years short from his native town a bushing plaque recently returned to England. It was lost in May census, France, July 19, 1922. This is may be considered a remarkable feat of bird memory.

Senator Dandurand, government leader, replying to a question in the Senate said the government intended to appoint a minister plenipotentiary to Washington. As to whether the appointment would be made this session was under consideration.

Three years ago there was a total of 1,544 of which were natural, in Prussian mines in 1925 according to information given out by the Prussian ministry of trade. Eighty five per cent of the casualties occurred in the Ruhr district.

Premier Briand of France has asked the Leaders of Nations to make contributions to an international prize Briand's action was taken as a result of the recent immigration conference at The Hague, which caused Europe to be flooded by hungry trans-oceans.

Liquor laden vessels would not be allowed to pass Canadian ports for repairs or any similar protest if the Customs Act is amended to include the recommendation made before the customs probe by W. F. Wilson, chief of the customs preventive service for Canada.

A Birthday Gift

Canada Returns to the Two Cent Postage Rate

on and after July 1 it will cost only two cents to send a letter from one part of Canada to another or to the United States and 3c. cents. At present the letter rate in Canada and to points in the United States and Mexico is three cents per ounce, one cent of which is war tax, that was imposed on April 1, 1926. The removal of the one cent war tax took effect as soon as the necessary formalities could be gone through with. The reduction is to be in effect in the United States, was provided for in the Canadian budget presently submitted to the Canadian Parliament by Hon James A. Robb, minister of finance and was approved.

It is expected that the reduction of the two cent postage will cause a big increase in postal business in Canada not only in the urban centre but in the farming districts served by rural mail routes who already pay one cent more on them.

The Canadian public regard the reduction in the letter postage rate as a birthday gift from the government, as next July 1 will be the fifty sixth anniversary of Confederation, and will also become a self governing unit of the Dominion.

British To Control Mercuri Company

Only Small Percentage of Issued Share Capital Held By Para Stock

At an extraordinary meeting of the Mercuri Tobacco Company held recently, an advance in the price of cigarettes to the public was made necessary by the increase in the cost of raw materials. The tobacco industry has been hard hit by the rise and many companies have been forced to increase the price of cigarettes. The Mercuri Company has also been forced to increase the price of its cigarettes to the public, which will take effect on and after September 1st.

The Mercuri Company is one of the largest manufacturers of cigarettes in Canada, and has been operating in the Dominion for many years. Its factories are situated in Montreal, Toronto and Winnipeg, and it employs a large staff of workers. The Company has been under the control of the Imperial Tobacco Company of Great Britain and Ireland for many years, but only a small percentage of the issued capital has been held by the British control and not more than 25 per cent of the issued share capital will be held under British control and only natural born British subjects will be eligible as directors or officers in the United Kingdom or the British Empire.

The trouble with a great many people now who want to pay their bills is that they transfer some of it to those needing to settle.

The woman who runs after a bargain usually gets one she gets one without knowing it.

W. N. U. 1623

Symbol Of Armed Force

German Military Uniforms Seen At Peace Conference

German military uniforms, now the only military uniforms visible at the conference table at Geneva, Switzerland, mark the progress of the League of Nations began their official disappearance on May 31 at Geneva, Switzerland. The one great nation formerly fully armed) disarmed, Germany was the one nation to appear with the symbol of armed peace. That is almost graphically explains the reason why the voluntary disarmament of nations in Europe is extremely difficult.

It is not armament that makes a nation dangerous, but an armed mind. The fact that Germany has been forced to destroy most of her weapons and war and to disband her great military machine does not make her neighbors safe if she thinks in terms of arms and armies. Of all the problems before Geneva experts at present, the effort is that of finding a way to secure mental disarmament.

To Preserve Niagara's Beauty

Scenic Beauty Of Niagara Falls To Be Safeguarded

Canadian and United States authorities (1) Preservation of the scenic beauty of Niagara Falls

(2) The quantity of water which may be further diverted from the Niagara River without interference with the scenic beauty of the falls.

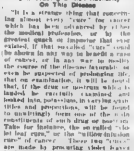
Canadian representatives on the commission are Col. W. Hugh Ponton, Ottawa, J. B. Johnston chief of the water powers branch, department of the interior, Ottawa, and Lt. Col. Campbell deputy minister of mines, Ottawa. Same of the United States representatives on the commission have not been announced.

Not Coming To Canada This Year

Prince of Wales Not Visiting Ranch Says Calgary's Mayor

The Prince of Wales will not visit Calgary and his ranch for some time, considerable an international matter Ireland's action was taken as a result of the recent immigration conference at The Hague, which caused Europe to be flooded by hungry trans-oceans.

Liquor laden vessels would not be allowed to pass Canadian ports for repairs or any similar protest if the Customs Act is amended to include the recommendation made before the customs probe by W. F. Wilson, chief of the customs preventive service for Canada.



Attractively Simple

An interesting young to the needs of the younger generation, is that of the well-dressed little girl. Fashion is practical from the little miss from 2 to 6 years is provided a host of models for this charming age. The dress in one we give it can be made in a few hours. The sleeves have a regular shoulder, and the neck has a pattern of both front and back, and may be finished with a round collar as illustrated or a narrow band. An attractive touch of color is given to the dress by the pipings of contrasting material on the bodice edge of the yoke, which simulate pockets. The measurements required for the 4 and 6 year sizes are 2 1/2 yards 27 inch material and 1/2 yard 36 inch for the collar and cuffs. No. 1500 is cut in sizes 2, 4, 6 and 8 years. Price of the pattern 10c.

Our Fashion Book, illustrating the newest and most practical styles will be of interest to every home dressmaker. Price of the book 10 cents (in the coin).

Claims Discovery Of Long Sought Secret

Chemist Announces Creation of Life By Artificial Means

The claim of John F. Hayes, chemist, that he had discovered in creating plant and animal life by artificial means has received widespread, if skeptical, interest.

Hayes has cautioned reporters against a sensational exposition as he was taking night per-bodies to their against his discoveries. He asserted that he has discovered the secret of creating life.

He has been working five years on the experiments resulting in this. He is not disturbed by the refusal of Prof. Francis H. Herrick, head of the biology department of Western Reserve University at Cleveland, to rely on much in his discovery.

"It be not life," Prof Herrick has said, "it simply came from appearance and chemical reactions. But Hayes' liability this has been the case every time scientists are making life from inanimate matter have been made."

But don't blame Prof. Herrick for calling Hayes' claims "I would have scoffed five years ago. But I can conceive why researches can, in specific scientists will apply the same logic to me such that the any to their own work, and never have their results living organisms from inanimate matter."

Laboratory tests for Mazur are being nurtured by science researchers at the Loeb's high school.

Cancer Without Operation

Cantaloupe Treatment Reported Showing Wonderful Results On This Disease

"It is a wonderful thing that cancer may almost every case for cancer is now curable," declared Dr. Bachet, the medical profession, or by the medical profession, or by the medical profession, or by

Provincial Electoral Division of Vegreville

Jas. D. Hannan
Liberal Candidate for Vegreville

The Liberal Party in Alberta has never professed to be otherwise than a straight political organization, having as its object the best possible government of the people by the people and for the people. The Liberal Party is not one which calls on its members for cash contributions to the party funds, such funds being obtained from those who have the interest of good government, as exemplified by the Liberals, solo at heart. The Liberals believe firmly in the right of every elector to be heard as to his views and beliefs and offers to every elector an even chance to make himself and his opinions known and felt. Liberalism is out and never has been restricted to those who had so much money on the counter before they had a right to express an opinion.

LIBERALISM IS THE TRUE EXPRESION OF DEMOCRACY

Liberal candidates take their orders from their electors, not from a selected group of electors who "all have axes to grind. The liberal policies for Alberta have been well expressed by Capt. J. T. Shaw, the Liberal leader, who was the unanimous and enthusiastic choice of the party convention held in Edmonton on April 21st. Mr. Shaw has never been a bitter partisan and has received more than usual praise from the U.F.A. and other political organizations. But in the Liberal Party, Mr. Shaw has found an opportunity to express himself firmly on behalf of the common people of this province; an opportunity denied him as a representative of any other [illegible] Mr. Shaw's [illegible] of opinion has the hearty [illegible] of all Liberals in Alber-

[illegible]GRAM TODAY INCLUDES

(a.) The financial standing of the [illegible]ment in 1921, when the U.F.A. government took office there was collected from all sources for Provincial [illegible] approximately $6,500,000.00. In [illegible]26, these collections had advanced to over $11,500.00 or an advance of three million dollars. In 1921, the cost of government per head was $14. In 1926, the cost had raised to $17.00 per head. Notwithstanding this excessive increase during hard times, there were still one million dollars more due to the province in 1926 than in 1921. Our provincial public debt has increased under Four years of U.F.A. government by more than twenty-two million dollars and in 1925 alone the U.F.A. government increased the public debt by over two and one half millions.

The government tries to soften the blow by telling us that over sixteen million of the increase arises because of commitments made by the previous government. To make up this fanciful figure, they have converted a contingent liability, in connection with the university into a direct liability, they have piled on all the expenditures and extension of railroads made during their own regime and then added for good measure the losses arising out of the Lethbridge—Northern Irrigation project, for which losses this government must assume the chief responsibility.

A TELLING COMPARISON

For the first fiscal year the Ottawa government enjoyed a surplus. Did that government refuse a needed tax reduction? On the contrary, it abolished the receipt tax, widened the sales tax exemptions, increased the income tax exemptions, reduced postage rates and of great significance they restored tariff taxation on automobiles.

Surely in the face of such an example our Provincial Government could at least have made a gesture in the direction of tax reduction. The whole course of this government has been one of tax imposition. New taxes have been imposed old taxes have been increased. For example a gasoline tax has been added, which it is estimated ill bring in $365,000 during the current year. Taxes have been imposed on restaurant, on soft drinks and on minerals. The coal tax has been doubled. The amusements, corporation and succession taxes have all been greatly increased, land titles and courthouse fees have been increased, while all the time liquor revenues have been rapidly expanding.

The indictment of the Liberal party against this government is running can be put in few words. It has collected increasing and expanding revenue, but notwithstanding this fact, it has imposed new taxes and increased old taxes. It has allowed a heavy increase in the public debt. It has failed to reduce taxation.

GOVERNMENT AND TAXATION

Despite the herculean effort of our people in the last five years in emptying their pockets into the hands of the government with no new services and none extended, we find an increase burden of debt and no suggested reduction in taxation

SOME LIBERAL SUGGESTIONS

(1.) We have not yet reached the point of maximum economy in government administration. An official statement issued by the civil service commissioner of the province to the minister of education in Saskatchewan shows an actual increase in civil service in this province from 922 in 1920 to 1,537 on January 1st, 1926. These figures, of course, do not include the three departments not as yet under the civil service commissioner. Further comment is unnecessary.

(2.) A planned redistribution of this province to which the Liberal party is committed, and involving a substantial reduction in the number of ridings will considerably reduce the cost of government.

(3.) There must be a decentralization in governmental machinery. Larger powers and duties may well be delegated to the municipalities. Too much centralization in a large province like Alberta necessarily means increased expense in administration. Much can be saved by a considered program of decentralization. Instead of dragging people to government let the government be found close to the people. Such a move will have the advantage of promoting efficiency as well as economy.

(4.) There is no clear principle dividing the taxing field and and the statutory obligations as between the government and the municipality. The fields of taxation exclusive to each have not been defined. There is much overlapping, with consequent inefficiency and waste. For example, in the matter of the Mothers' Allowances, the burden is shared equally, in the case if the indigent sick the municipality bears the full burden, while in the case of insane persons the province accepts the full responsibility. There is urgent need in the interests of economy of a careful survey of functions of government and of all taxation systems. It may be that enlarged local areas with widened authority and a division of the taxing on sound principles may be the path of progress and economy in government.

(5.) The dead weight burden of our public debt is strangling enterprise and discouraging industry. This burden must be reduced. Each year a sum should be regularly budgeted on the sinking fund principle, to retire the debt within a reasonable time.

(6.) The government must learn to live within its income every year, not as at present, one year in every five.

Yours faithfully,
JAS. D. HANNAN.

KINGMAN

In a very close game of baseball the single men defeat the married men on Wednesday evening by the score of 6—5. The game was in doubt until the very end, the battle having to be called at the end of the sixth inning on account of darkness. The teams lined up as follows:

Married Men: Geo. Welch, J. L. Ford, Walter Hartschen, Ed Johnson, Roy Molvik, O. P. Thomas, Sigurd Sandbow, Carl Larsen, Peter Stanley.

Single Men: John Erickson; Neil Bronsum, Morgan Bronsum; Sam Cinnamon, H. B. Harding, Stanley Lindberg, Myron Bronsum, Melvin Lindberg, Palmer Benson.

Batteries John Erickson and Myron Bronsum. Waite Harschen and George Welch.

The Bittern Lake school team journeyed to Kingman on Thursday evening and were defeated in both games. In the first game the Kingman girls defeated the Bittern Lake in baseball, the score in the end being 16- 6.

A number of people and surrounding district attended the big four ring circus on Friday in Camrose.

Mrs. Thor Grahn is sick in the hospital in Camrose, but we all hope that she will soon recover.

A poor crowd attended the moving picture show and dance on Friday on account of rain.

Miss Irene Horte was a Camrose visitor on Saturday to get some dental work done.

The Armenz baseball team came to Kingman last Sunday and defeated the local team in a very closely contested game. The score was 8-7. Although numerous errors were made, the game was a good one. The team lined up as follows.

Armens—E. Erickson, K. Soderstrom, Al Pedersen, Ed Jasman, J. F. Strand, W. Olson, R. Lyseng, R. Erickson, G. Soderstrom.

Kingman: G. Welch, Carl Larsen, W. Hartschen, John Erickson, Sam Cinnamon, S. Lindberg, Neil Bronsum, S. Sandbow, Morgan Bronsum. Batteries: Jasman, Soderstrom and Strand.

Hartschen and Welch.

Mr. and Mrs. O. P. Thomas and Mr. and Mrs. Walter Hartschen and family were the guests of Mr. and Mrs. Geo. Welch on Sunday.

Messrs. John Erickson and Thor Grahn were visitors at the home of Mr. and Mrs. John Nelson at Hay Lakes on Sunday.

Miss Julia Johnson was a Camrose visitor on Saturday.

Messrs. Ed Johnson, Orel Ovelson and Roy Molvik went fishing at Driftwood Lake over the week end and had quite a successful trip.

Mr. and Mrs. Jarvis of Camrose were guests of Mr. and Mrs. Erickson on SSunday afternoon.

Mr. and Mrs. Eddis Strand of Armena were the guests of Mr. and Mrs. Ed. Johnson on Sunday afternoon.

ADMISSION TWO CROWS FEET

The show on Saturday is a real western picture with lots of action, depicts the American Red Indian at It is one of the outstanding Indian pictures of all outdoor pictures and his best and worst. There is plenty of real riding, tragic happenings and horse racing. Saturday only, two shows, eight and ten sharp. The admission is TWO CROWS FEET. By this idea anyone can see the show by taking the trouble to procure the feet, and at the same time a good turn is done to the country by ridding it of quite a number of crows.

Cans, Cans, Cans!

Those who are familiar with "Boots" the famous poem by Rudyard Kipling, will in some measure realize our feelings on a busy day in June. Where the soldier trooper saw boots, boots, **boots, we see** cans, ens, cans. But there the likeness ceases; for while the boots, boots, boots, drove the soldier trooper to distraction, we thrive on cans, cans, cans—of cream Even when the rush is greatest and we are working our hardest, we desire that every patron shall have a full measure of satisfaction.

Communications

Mr. Editor:

It was not my intention to write a letter to any newspaper with regards to the political battle we are undergoing at present, but as I am a subscriber of yours and I am not a gifted writer, nor know it.

But to come to the point, I had a talk with the Liberal candidate today and he would try to make us believe that he would do all in his power to help get legislature passed that the farmers needed, or that the farmers would ask for. Now, Mr. Editor, if it were possible for him to be the whole parliament, we might take a chance and take him at his word, but we farmers are all getting pretty well acquainted with some of his best friends, and to speak for myself, I find he [illegible] Bulletin and [illegible] distance that [illegible] reference to [illegible] nomination of Mr. Bubey, who [illegible] understand, to run as an independent farmer.

A portion of the report in one of the newspapers referred to, reads to the effect that at the U.F.A. convention, held at Vegreville, Mr. H. W. Wood, M.P., attended that convention and presenting a [illegible] Buildings were picked up. Public Stallions, was more false. Of all the organizations I ever attended, I have never seen one more harmonious, more united in action, or more progressive, the actual nomination and election itself probably less than an hour. There was no opposition [illegible]

Rural Credits Wanted

Mr. Fraser also advocated a people and non-party system of rural credits as one of the prime necessities of the province in order to give the farmers the new easy financial assistance to develop their lands.

Tofield, Alta., June 14th.

Editor, Tofield Mercury:

Dear Sir:

May I be permitted to say a few words relating to the reports which appeared in the Bulletin and Journal, [illegible] in reference to the nomination of Mr. Bubey, who is, I understand, to run as an independent farmer.

A portion of the report in one of the newspapers referred to, reads to the effect that at the U.F.A. convention, held at Vegreville, Mr. H. W. Wood, M.P., attended that convention and presenting a [illegible] Buildings were picked up. Public Stallions, was more false. Of all the organizations I ever attended, I have never seen one more harmonious, more united in action, or more progressive, the actual nomination and election itself probably less than an hour. There was no opposition [illegible]

Capt. J. T. Shaw
The Liberal Leader

Vote For Progress

The need of Alberta is for a government elected solely in the interests of the people of Alberta, not to gratify party ambition, nor to supply jobs for party workers. A system that sets farmers against each other on the opposite sides of the Legislature is not in the economic interests of the people of province. Every other industry and profession in Alberta is rightly organized for its own social and economic welfare, and puts forward all the political pressure it possibly can.

Remember what happened in Alberta under the party system, the printing scandal, the railway muddle, the Athabasca and Peace River elections, the patronage distribution of the taxpayers' money for jobs and public works, etc. etc.

Here are a few comparisons between the party system and the U.F.A. system of business government.

Land Titles Office Costs, 1921, $211,900, 1925, $156,753; Election Costs, 1921, $218,000, 1923, (Plebiscite) $131,000, 1926 Election Estimate, $130,000; Reductions in controllable expenditure, 1921 to 1924 inclusive, Alberta, 14 per cent., Saskatchewan, 12 per cent, Manitoba, 8½ per cent., all other provinces increases. Cost of educating 329 agricultural students 1921, $191,000, 1925, $103,000 for 360 students.

A Vote for a U.F.A. Candidate is a Vote for Efficient and Impartial Administration.

Issued by the U.F.A. Publicity Committee, Calgary

ment, and must take his share of the blame for the brazen unconstitutional acts carried out by the Henry Wise Wood followers, and for the theft of broken and discarded pledges they have left in their wake during their few years in office in Alberta," declared William Irvine, Liberal candidate [illegible]

Mr. Matheson was elected by a large majority and the other nominee moved to make his election unanimous, which was done with enthusiasm. Mr. Wood, who was there, for the purpose of addressing the delegates and others in the evening, spoke only a few words in the afternoon and was not even on the platform when nominations opened or closed or at any time afterwards.

It is significant to note in the report of the two newspapers referred to that one speaks of 200 farmers while the other speaks of 200. On the other hand, dependable and reliable reports percolating this way give the number at Mr. Bubey's nominal meeting as around 10, with something around the same number of interested spectators.

I feel it my duty as one of the delegates in the U.F.A. convention at Vegreville to set forth the truth to the convention. This is the time, Mr. Editor, when all and sundry grades of "doctors" are offering free pills. My advice is "be careful what you swallow." The marvellous record of the U.F.A. government, the tremendous improvement in the financial condition of this province to-day, the wonderful improvement of our own individual financial positions, when we compare them with 1921 and the bright outlook ahead is good enough. When you've monkeyed with the old Ford and she's running just fine, you say, "don't touch her, in case she gets 'a-backing again'". Let us therefore leave well enough alone. Make no change and return the U.F.A. government.

Yours truly,
RAYMOND W. PINCOTT.

Here and There

Total trade of Canada during April, 1926, amounted to $127,564,111, as against $119,914,023 in the same month last year and $109,662,045 in April, 1924. Of the total $7,801,253 was for imports and $666,380,269 for exports.

Immigration figures for the first three months of the current year show an increase of 107 per cent. over similar period for last year. Total number of immigrants entering country was 21,250 for 1926, as against 10,726 for 1925.

Production of manufactured non-metallic mineral products in Canada in 1925 reached a value of $110,581,-216, an increase of almost 45 million dollars over 1924 and the highest since 1920 for this group of industries. The operating plants in these industries in 1925 represent an invested capital of 159 million dollars.

Remarkable expansion of the cream export industry of the province of Quebec is disclosed by figures of the Dominion Express Company furnished recently. In May three to four carloads, or about 61,-000 pounds of cream were going every week, while in June an average of a carload a day, 153,000 pounds, was predicted.

Tomatoes weighing over 22,600 pounds travelled across Canada by Dominion Express recently, constituting the largest load of hot-house tomatoes ever shipped out of British Columbia. Handled in a single express car, the shipment was the product of the Victoria Hot-House Association, which represents the majority of the tomato growers on Vancouver Island.

E. W. Beatty, Chairman and President of the Canadian Pacific Railway, left recently for England and the continent, for a trip which is to last several weeks. Mr. Beatty, accompanied by W. R. MacInnes, Vice-President of Traffic, will complete arrangements for the building of the company's two new ocean liners for the Atlantic route while in England.

Battery Work

The life of your car battery will be materially lengthened if it has periodic inspections by an experienced battery man. A little attention at the right time will prevent extensive repairs or even replacement later on. We are well experienced in battery work and can adjust, repair or rebuild any make of battery. We are agent for the WILLARD BATTERY and carry a stock of new ones on our shelves.

CANADIAN NATIONAL RAILWAYS

Why Vote For Fraser?

The sole and only function of the Government of this Province is to provide certain public services for the People of the Province in an efficient way and at a minimum cost. For the Alberta voter there is no such thing as a tariff question, an Imperial question or an International question. In provincial politics there is but one question and that is: which of the three groups now holding for office, are the better qualified to perform that one and only function of Provincial Government, namely, efficient and economic administration which means low taxes and low production costs. Now, the Province of Alberta, is endowed by nature as are but few areas in this world, and if granted efficient and economic administration, will not be long confronted with immigration problems, railway problems, unemployment problems, or any of the other so called problems that face us today and that have retarded development in the past on account of inefficient government.

In 1921 when the Greenfield government took office they found the province in debt to the extent of $60,000,000. They were elected on a platform of economy, therefore on taking office, they made a gesture of practicing economy. They promptly reduced the amount of the allowance payable to widowed mothers, they dismissed a few school inspectors, they closed the normal school at Edmonton and lastly dismissed a few junior clerks from the Land Titles Office. They did not reduce their own salaries and indemnities to the level of those paid in the Saskatchewan legislature as they had pledged themselves to do. However, they made an effort to balance the budget. If expenditure could not be reduced, at least income could be increased, so new and varied forms of taxation were devised and resorted to, that is how the Brownlee government balanced the budget!

Wherever you buy gas you pay a last Provincial Tax you buy a ticket for the movies you pay an amusement tax. The government decided the restaurants should be taxed, insurance agents were taxed, but not sufficiently high so they got a boost. Every new tax meant a few more tax collectors and a few more inspectors. Mr. Brownlee discovered there was no tax on minerals, only a royalty, so just by way of encouraging development he proposed a mineral tax. A Provincial Income Tax was in the offing, when opportunely, the Liquor Commission handed over a handsome surplus and thus this last gouge on the pocket book of the Taxpayer was for the time being postponed. And who pays all these taxes? Why the prime producer of course, here the same as everywhere.

Now, if as is claimed the Brownlee administration has been an efficient and economical administration, we may reasonably suppose, that the finances of the province have improved. Admittedly the revenues have increased. But what do we find? The debt of the province in 1921 was $60,000,000. Today it is, $61,300,000, an increased debt of $22,000,000.

LIBERALS NOT TO BLAME FOR ALL

The Brownlee government claims that this increased in debt is due to the commitments of their predecessors. This is in part true, but only in part. The Liberals created the unwieldy overstaffed, overhoused and over-lapping machine that is over-governing this province and the Greenfield-Brownlee administration has not only perpetuated but actually elaborated upon it. Without curtailing necessary public services, the annual expenditures of the government of this province can be tremendously reduced. Elect capable business men and you may rest assured that the cost of administration will be greatly reduced. The following comparisons tell a little story all of their own. The figures are for the year 1924 and are taken from the Public Accounts of the two Provinces. They are current CONTROLLABLE expenditure. The responsibility, therefore, rests with the government of the day and with it only. It is not enough for Mr. Brownlee's followers to point to the huge expenditure for the maintainance of these services during the Stewart administration. The fact remains that the cost of operating the various services of the government to-day, is tremendously high, when compared with the cost of operating the same services in the older province and it is only when compared with Alberta, that Saskatchewan can be awarded honors for efficiency. The Government of Premier Gardiner of Saskatchewan is efficient as compared to Alberta. However, let us have the figures:

COSTS OF GOVERNMENT

Administering the Department of Municipal Affairs:—		
In Alberta, $259,054.	Sask. $104,514.	
No. of permanent officials in the Alta. Dept.,	26.	Sask. 18
No. of Temporary Assistants in the Alta. Dept.	29.	Sask. 9
Administering the Department of Agriculture:		
Alberta $650,287.	Sask. $208,630.	
Administering the Department of Public Health:		
Alberta $800,280.	Sask. 463,916.	

Administering the Department of the Attorney-General:

	Alberta $1,440,291.	Sask. $1,140,023.
Executive Council:	Alberta $884,000.	Sask $76,896.
Legislature	Alberta, $480,702.	Sask. $164,564.

It is only when we come to the Department of Education and Public Works that the Alberta Departments compare favorably with their contemporaries in Saskatchewan and this is accounted for by reduced grants to School Districts in Alberta, and by smaller expenditures on market roads.

DUPLEX METHODS

Now as was intimated in the opening paragraph thereof, the one and only task confronting an Alberta Government is the task of administering the business affairs of the province in a business like and efficient manner. In this, the foregoing figures indicate conclusively that the Brownlee Government has miserably failed. No one denies that they have done the best they could and therefore there is not much room for hope that they are competent to show yet better results if entrusted with the reigns of office for a further term.

THE REMEDY

It is this apparent fact that has brought to the fore Mr. A. A. McGillivray, admittedly one of the most brilliant men of our time. In this campaign he has gathered around him outstanding men of all walks of life. If he is asked to take over the reigns of office the people of this province are assured of an economic businesslike administration, which means reduced taxes, and a consequent influx of capital to the benefit of all the people.

MR. A. W. FRASER OUR CANDIDATE

Mr. Fraser is too well known in this district to require any introduction or comment. He offers to devote his ability, time and energy to the affairs of this province in the same unselfish way in which for years he has devoted them to this particular community. Mr. Fraser is of cabinet calibre and we could reasonably expect that if elected he will successfully undertake the task of putting one Department of the government on a business basis. In is to our interest to reject him at the poll? It is not. No candidate in this constituency can better represent the farmers of this constituency than A. W. Fraser.

The New Conservative Association of the Vegreville Constituency

Capt. J. T. Shaw's Manifesto

1.—Immediate examination of our provincial taxation system and adjustment on sound principles of taxing powers between the Province and Municipalities.

2.—Decentralization of government machinery, by placing more power and duties in the hands of municipal authorities and bringing the government close to the people rather than dragging the people to the government, thus promoting efficiency and economy.

3.—An immediate and long overdue reduction in taxation with special tax adjustments for sub-humid areas not suitable to intensive production.

4.—A serious and determined effort to make expenditure balance income every year, and every pre-election year only as at present.

5.—The budgeting of an adequate sum every year, on the sinking fund principle to effect the retirement of our public debt within a reasonable time.

6.—Realizing the primary importance of the agricultural industry, the Liberal party pledges itself to effect that industry in every reasonable way, by ensuring that the co-operative marketing enterprises get a square deal, secure from every unfair competition, and all discrimination, by the provision of adequate facilities for marketing the farmers produce by establishing in close co-operation with the Dominion government a system of rural credits based on some sound principle by vigorous demand before the railway commission for the needed reduction in railway and express rates and for the elimination of discriminatory freight rates, and by jealously guarding the farmers' interests in the Western Rouia, not only by zealous watching but by proper representation.

7.—The Liberal party undertake to inspire a real leadership in educational affairs and will be prepared to make more liberal financial provision for that essential service. Also will use every endeavor to have the federal government not only continue but increase its grant for technical education. In addition there must be a closer co-ordination of the agricultural work undertaken by the University and agricultural and other schools in the province.

8.—The Liberal Party pledges itself to encourage an expansion in the hospital and nursing service of the Province in order to promote the highest standards of public health.

9.—The Liberal Party has assisted in every possible way to secure the returns to the Province of its Natural Resources. This should soon be realized. If honored with public confidence, the Liberal Party proposes to undertake the groups and efficient development of these resources in the public interest along sound business lines.

10.—When entrusted with office, the Liberal government would engage a small body of experts to examine the sources of power in the province for the purpose of ensuring if possible a practicable power scheme to supply cheap power to our communities for industrial and agricultural purposes.

11.—The Liberal Party offers a redistribution according to a definite plan on the principle of representation by population, paying, however, due attention to geographical area and community of interest, it being understood that such re-distribution will substantially reduce the number of provincial ridings.

12.—The Liberal Party proposes to encourage a policy of co-operative effort of all classes and their representatives in the interests of democratic legislation.

13.—The Liberal party strongly favors and approve of a co-operative effort between the Dominion and Provincial Governments for the purpose of securing old age pensions. The plan which has received second readings in the House of Commons is approved.

14.—The Liberal Party is responsible for every advance made in securing to women a larger measure of equality in political and economic matters. That policy must be continued until in every practicable way, women enjoy the fullest equality with men.

The Liberal Party offers to the Province a policy of constructive effort and action, and a Government of the people, by the people, and for the people."

Vote for J. D. HANNAN, Liberal Candidate

Twelve Reasons For Electing Liberals

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business experience and has been without business success. It is a class government which is divorced from business entirely.

2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by $22,000,000, with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.

3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.

4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.

5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pools into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the barriers which have been preventing development.

6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fads.

7. It stands for better health organization and encouragement of hospitals. There has been no development in the health department since 1921.

8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.

9. It stands for honest distribution of the province-free ridings.

10. It stands for justice to the returned man in the province.

11. The record of the Liberal party has been one of development and progress. It has to its credit:

1. The settlement of the province.

2. The organization into municipalities.

3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in early days.

4. Farmer legislation such as co-operative elevator act, the farm machinery act, direct legislation.

5. The beginning of labor legislation, which has remained unimproved. This includes the factory act, the workman's compensation act, and other similar legislation.

6. The development of the vast Peace River area.

7. The organization of the schools, the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.

8. Franchise for women and all legislation safeguarding the rights of women.

9. Hospital legislation and all progressive health legislation.

10. Soldier relief legislation.

12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

People who want the very best use Red Rose Orange Pekoe Tea

Progress Of The C. N. R.

The most crucial and absorbing matter to be laid before the people of Can ada at present, and, indeed, for some time to come, is the question of the future operating results of the Canadian National Railways. For the year 1922, as mentioned a few weeks ago by the Minister of Railways, Hon. J. D. Reid, the loss on the system was $40,000,000 and odd. The Canadian National Railways and the predecessor companies which now constitute the National system have been in operation for over twenty-five years. During that time they have had many years of prosperity, and a splendid showing of the system last year, and the prospects for the current year, is the best in its history.

The net earnings of the Canadian National for the year were nearly double those of 1921 but $17,411,114 compared with $11,241,251. This substantial increase was due to the fact that in the main, the earnings of nearly both railroads and steamships were greater than in the previous year. Net earnings in 1922 were twelve times what they were in 19.

With these facts and a total statement for 1922, Mr. Dunning was able to lay before Parliament on the 15th of last month, the earnings of the Canadian National, of only $9,849,232 a record for an similar period in the history of the railroads, and the Minister was therefore able to say, promptly and truly, that he can "show a reasonably good bal ance and therefore, from a credit viewpoint, lessen due to labor difficulties it may be pos sible for the National Railways to pay fully its proportion of the interest charges upon the public."

Here is a case if ever one existed, where the public and the premises of the C.N.R. may be considered identical. The better the public feels this year will not be called upon to make good any deficit on our railways.

For the first time since the Canadian Government stepped into operation of the Canadian National railways, and absorbed an operating profit during the first four months of 1923. The National Railways are carrying enough to the ships and the ships are bringing traffic to the railway.

Somewhere operating efficiencies are showing by cutting down expenditures in the purchase of needed equipment and in maintaining a railway fully up to standard in the case of the Canadian National however, it is satisfactory to learn that this is not the case. On the contrary the physical condition of the system has been steadily improved and better not less satisfactory, service be established.

As pointed out in a recent article, it was the opportunity of the Canadian National business, which was an important factor in enabling the Finance Minister in his recent budget to lower the Customs Tariff and to remove the sales tax and reduce the Customs duties on certain types of automobiles. This has benefited, but directly and immediately the general public a measure of tax relief because of the success being achieved by the Liberal Executive and his co-workers in the management of the Canadian National.

If the operating heads of Sir Henry and Mr Dunning are realized this year and per cent indicated as now at they will be then further inflation relief may be looked for as an unfavorable. A start made in the direction of reducing the enormous war debt which the Dominion now has to carry. Either step, or course, would mean a further reduction in the financial burden and abilities many of the Canadian people.

Finally it is a matter of particular national gratification that this steady and even rapid improvement in the Canadian National has been brought about without doing any injury whatever to Canada's other great national railway the Canadian Pacific. The C.P.R. also reported a very successful year in 1923 far better than was expected during the earlier months of that year and than for 1922. It even paid a dividend of 10 per cent on its common stock. No one will interest those who need and have the welfare of the C.P.R. at heart, more than Sir Henry Thornton, of Toronto, N.S. says:

"I am glad to see that the C.P.R. has contributed a profit to the year. It is a fine thing for the country that the C.P.R. should be able to pay dividends. I hope it will be able to pay them down, and reached the stage where it can pay them down to a reasonable basis. Then interest will be paid on the money invested completely. I do not think that the C.P.R. is subject to serious hardships. Wages are still a matter of strong concern. I hope I would get an hour or two cheap and that I would be able to work for it at night. I had rearked a stake when I actually learned I would lose my job. I'm the time I decided to take Dr. Williams' Pink Pills. Nothing I had taken seemed to do me any good. But two boxes of this medicine I took there was a difference. Then were the second and third boxes, and before I had taken the last of the pills I gradually gained strength and knew I would live. And to-day I am as well and strong as a woman could wish to be. I hope some other weak, nervous person who reads this letter will try these pills."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Oil Boom

Nearly Fifty Wells to be Drilled in Viking Field

Oil drilling operations in Southern Alberta continue at a steady pace and a record quarter of the locality show that nearly fifty wells are drilling or will be started this year in the former Valley field alone.

Wm. Lapsenton Co., of Calgary, is planning to drill several wells in the Viking-Kinsella field now Medicine Hat in the district, although no definite word, that the Dutch Shell oil company will go into the Alberta field in search of oil.

Husband (to child)—Can't you be quiet, where I left my paper?

Child—I thought he was an eye doctor till I saw his bill, then I found he was a skin specialist.

Minard's Liniment for burns.

W N U 1622

Enlarging London Teller

Guarantees Sorts Will Not Be Duplicated in Cut Or Material

Since neither the bright colored suits nor the tricolored trousers have been adopted by the really smart Londoners, an enterprising tailor has decided to boom a new fashion for the coming season. In announcement that he had made special arrangements with a cloth weaver which will allow him to supply suitings in round inch which will not only be exclusive in cut, but which will carry the guarantee that only one suit will be made from that particular material. It will be more exclusive than any "Tailor-Made" for women. For some time the most fashionable tailors have regarded it as an unwritten law that not more than ten suits may be made from any one material, but the exclusive suit is an unprecedented development. The rights of the first cut-and-cut suit will be put up for auction.—London Dispatch to Chicago News.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Equals Sloan's Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in relieving rheumatism, lumbago, pain and inflammation. It rubs into the very tissues, the blood, penetrates through the tissues, and brings a warm, soothing relief to the pain. No liniment compares in pain relieving power with Nerviline. For the inland pains and ills that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Sciatica, Sore Throat, Colds. 33 cents at all dealers.

Money in Potatoes

Cuttings of the Tuber Worth 50 Cents a Pound

In Canada and the United States, farmers do not call Marie Antoinette. They have been marketing their potato crop at good prices. Recently a farmer in Maine received $1,000 for a single bushel of potatoes at $2.50 per bag.

WEAK AND NERVOUS

A Condition Always Due to Thin, Watery Blood

This blood which gives color and vitality are found together. Red blooded people seldom complain of nervous ness. The reason is that the blood is rich and red, and the nerves are fed up to do the work nature intended. When the blood is thin and weak it fails in this important function and nervousness follows. The only way to improve and strengthen the nerves is to make the blood rich and red. Dr. Chase's Nerve Food does exactly this. It is a blood builder of the highest order, and as the blood is enriched and purified the nerves become strong and healthy. Mrs. Jas. Cuddy, Lakeside, Ont., writes: "I was all run down, and nervous to the last degree. I could not sleep, and was subject to nervous headaches. Words will not express how I suffered. I was induced to try Dr. Chase's Nerve Food, and before I had taken one box I felt much better. I continued using the treatment and am now well and strong. I can highly recommend Dr. Chase's Nerve Food." 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Makes Living From Unusual Profession

Woman Supplies Gaiety Names For Horses, Seals and Many Commercial Products

Have you ever noticed Little spitfire, tabet, some whimsical little epithets on individual trick of turning out "Sensibilities"? Can it tell it, then? It may bring you happiness and friends, fame, and fortune—even though it may not be easy to classify your ability or find a title for it.

Miss Lee is a profession of which one woman is believed to be the sole representative. Miss Lee, Miss Rogers, of Elizabeth, New Jersey, has for twenty years made a business of "naming" commercial products, names so artistically appropriate, or cleverly catchy" that business houses, manufacturers of commercial manufacture those of the names Miss Rogers suggested, have become household words and other landmarks have become known throughout the world.

Fuel Rare Stone

Red Diamond Dug Up At Kimberley Mines

A red diamond of considerable value has been found on the alluvial river claims at Kimberley, North Alberta. This spotted of stone is very rare, and is likely to bring anything from $50 to $75a carat.

The cutting of the stone was placed in the hands of a local firm, and, although the accomplishment of this has proved of some difficulty, the result will be that a flawless stone of about six carats will be produced.

The stone, at first glance, might be taken by the unlatticed to be a ruby or cheap gem-stone, but it is an entirely red stone without a blemish of any kind. Closer inspection, however reveals that it possesses all the requisite properties of the true diamond, the great being absolutely

Growth Of B.C. Industry

Production Has Increased at Rapid Rate as Shown by Figures

Great faith in the future of British Columbia has been shown in the establishment of many new industries and the expansion of those already existing, according to A. S. Mackenzie, secretary of the B.C. products bureau in 1924 there were 1,000 more persons having a production valued at $12,000,000 and employing 11 men with a payroll of approximately $14,000,000 in 1925 the number had grown to 2,300 plants with a production of $15,000,000 and a payroll of $41,000,000 to 32,000 employees.

Seven Head Quickly.—Have you a

persistent sore that refuses to heal? Then try Dr. Thomas Eclectric Oil in the sore dressing. It will draw out the core and heal fresh, deep and clean. Many say they would not be without it after using it once. It is a concentrated oil among oils, and members of people can testify that it healed where properly applied

British Royal Princes All Barristers

H.R.H. the Duke of York was called to the bar and made a barrister at Gray's Inn last month. Following ancient tradition, British Royal Princes always become barristers, but are not required to pass the usual examinations.

Writing Off the Debt

Giving the Canadian National a Chance To Pay Profits On Its Real Value

If the Canadian National can be brought to the point of paying interest on the bondholders out of its earnings, there is much to be said for the suggestion that the government should write off at least some of the huge debt contained in its own account against the railways. It is true that this would be literally a matter of bookkeeping. The debt would remain. It would be merely transferred to the national debt.

But the moral effect would be substantial and doubtless it would be followed by a greater buoyancy of that intangible but vital psychology of business which counts for so much news days in the material prosperity of the nation. Mr Dunning says it is open thinkable if any railway management "could make good the heavier burdens with which overwhelmed the former owners." That is the real point at issue. It is not to relieve the railways with debts which are really the heritage of a bygone day. It would be better business to squeeze all the water from the National; to penalize it on a gross earnings basis and give it a chance to pay profits on its real value as a going concern; and to charge the water to those other "the children of calamity," such as the war and the boom days have in the past and should not be made to pay in the future.—Toronto Saturday Night.

His Back Has Not Bothered Him Since

Why Mr. Murchhank Knows Dodd's Kidney Pills Are Good

New Brunswick man is enthusiastic over the remedy that brought him relief—Dodd's Kidney Pills.

Sussex, N.B.—(Special)—"My trouble first started from a strain and kept getting worse so much I was confined to my home. I was advised to try Dodd's Kidney Pills. I got a few boxes and got some good. Dodd's Kidney Pills and back has not bothered me for over two years now. You may publish this if you wish."

This statement was sent to us by Mr. J. Murchhank a well known resident of this place.

Mr. Murchhank's home back was caused by kidney trouble. That is why he got such prompt and permanent relief from Dodd's Kidney Pills. They are different from all kidney remedies in that they do not act on the kidneys alone but on the blood as well. Poisons in the blood are the seeds of disease. Dodd's Kidney Pills make good health by cleaning the seeds of disease.

Stage Historic Pageant

Edmonton Exhibition to Have a Novel Attraction This Year

Hon. Frank Oliver will open Edmonton's exhibition this year July 12. The board of management tells that it was partially during the week that it should fall to Mr Oliver to show at the opening day that the Dan annual events of the evening at the exhibition will be with the early history of which he had so much to do.

The Old Timers' Association was strong in taking active interest in the historic parade, which is the society's most ambitious undertaking. Officers are now busy on the original building of the Battle Edmonton's early days, to place in the line. Below on the exhibition grounds. The pageant will be called known as "The Coming of Age," and will have 15 episodes.

British Housewives Form Union

In the opinion of Mrs C. S. Peel is a shame that the British housewife is never consulted

Mrs. C. S. Peel, president of the British Housewives' Association, of which she is the chairman, has been in the interests of better co-operation among women for better domestic service and closer method of handling food

Gave Him the Gas

Hetch James Tee tablet up a rod perhaps by the handle of any sporting postah," overheard one of the tooth ers. "You know, he's lookin' to us to take a check down to Mobile an' we thought we'd get together and give him a little memorandum." The Chairman.

Sir Walter Raleigh spread his cloak across the puddle for Queen Elizabeth. "Proud on ride, your majesty," he said, "you are in danger of getting wet."

"He's your old cousin," retorted Elizabeth.—Boston Transcript

Children 15c, including tax

Two shows Saturday at 8 and 10 sharp.

LIKES TOFIELD DISTRICT

T. W. Grundahl, of East Grand Forks, U.S.A., who has been visiting with the Tuckman families for a week or two, left for home on Thursday morning. Before he had left home he has travelled 2000 miles in Canada on the train and five miles by automobile. He starts with enthusiasm that of all the places he has visited, there are no districts any better than Tofield and few as good. Mr. Grundahl is well up in years and looks as if he is well qualified to pass judgment on farm land.

There will be a McCallum Cup baseball game at Tofield on Monday, Ryley having sent in a challenge. To-day we with the cup from Ryley and intend to do Ryley will make an effort to win it back.

Come and Worship. All cordially invited

U.F.W.A. NOTES

The meeting on June 11th was well attended. After transacting the usual business a very interesting and full report of the Vegreville convention was listened to, given by Mrs. Parker, followed by a breezy one given by your president. Much discussion followed, showing the great keenness the U.F.W.A. members have in trying to cast their vote in the right direction. At the next meeting on June 25th, at the Municipal building at 2 p.m. The new method of voting will be fully explained. Also papers will be read on Dominion day, Curing of Meats and Canning of Vegetables and Meats, by Mrs. Booth, Mrs. Parker and Mrs. Warner respectively. The roll call to be answered by what I liked best at chautauqua. Please note the change of time for this meeting.

WEDDING

Piper—Whyte

At the residence of the Bride's parents on Saturday, June 13th, 1926, Mildred Adeline Whyte was united in marriage to C. W. Piper, a prosperous young farmer of Tofield district. Rev. R. George Watt, B.D., pastor of the United Church read the ceremony.

Mr. and Mrs. Piper will spend their honeymoon in Vancouver, the groom's former home state.

From our up-to-date market we can supply you with CHOICE MEATS, SEASONABLE VEGETABLES AND FRESH FRUITS.
We are Paying Highest Prices for Wool. See us Before Disposing of Your Shipment.

Hobson's Meat Market

Local and General

The Ladies' Aid meeting that was to be held at the home of Mrs. L. H. Olsen on the 29th, has been postponed indefinitely.

The basketball game announced for Wednesday of this week has been postponed to Friday. Lamont and Tofield Men's teams will engage in the game will commence at 7.30.

Mr. and Mrs. M. E. Hubbard of Tacoma, Wash., were visitors at the Jacobs' home for about two weeks.

Mr. and Mrs. Jacobson spent Sunday at Cooking Lake.

D. E. Ball made a business trip to Edmonton on Monday.

Mr. and Mrs Hunter of Edmonton spent several days at the Abbot home last week.

George Moug left on Sunday for a short vacation.

Mr. and Mrs. McDonough spent Sunday at Cooking Lake.

Mr. and Mrs. McLaughlin and family motored to Edmonton on Saturday night.

Glenn Wood left Tuesday night for Edmonton where he will undergo a slight operation.

The Tofield Men's basketball team will play at Viking on July 1st. A good crowd from here would be appreciated by the players.

Mr. and Mrs. Fred Logan and family motored through Tofield on their way to Innisfree, last week. They had motored all the way from Idaho.

Chautauqua

The chautauqua has come and gone for another year and despite trouble due to measles epidemic not over as large as usual. Due to various causes some very strenuous work was done by some of the guarantors in the way of selling tickets, attending to advertising and putting up and taking down the tent. J. Chapman, P. Hennen, Rev. Watt and others put in a great deal of time and labor.

The programs were good—every bit as good as previous years, as those who were on hand when them left say. The two outstanding programs were the Cathedral Choir and the play Cappy Ricks, both widely apart as to the nature of the entertainment but both high grade in their class. All the programs found favor with the auditorium and in many cases the attendance was all too short.

Miss Barkwell, pleased the people by her admirable handling of the superintendents duties and also pleased the guarantors by the assistance she gave them. There were times, especially in the early part of the week, when things looked rather dreary for the guarantees, but persistent good humor and energetic work, changed the outlook to a very hopeful one.

As in other years speculation was rife regarding the return of the chautauqua next year, and J. Chapman did some hard pounding in order to get the necessary 50 guarantors. But between them they got it over and the list now numbers 55. The chautauqua will be here as usual next year. The following is a list of the 1927 chautauqua guarantors, listed in the order they names appear on the contract.

J. Chapman; J. Weatherill; J. B. Warner; W. Bellamy; Fred McHeffey; C. E. Nichols; Mrs. R. C. Phillips; E. J. Rude; E. A. Moon; P. M. Plesuth, T. A. Koren, O. M. Hagen; C. F. Harold, A. Sisco; D. G. McCartney; Mrs. J. W. Morton; W. C. Ballman; A. A. Jacobson; A. Kellner, E. A. Brube; W. E. Parker; A. Larson, Gunhild Planten; J. W. Robinson; A. F. Lewis, John W. Gee; Mary Dueng; Mrs. G. R. Dueng; S. J. Wood, C. Patterson, A. M. Simonson, Mrs. H. McLaughlin, J. C. M. Grosse Francis; Geo. Morri; C. Currie, W. J. Thompson; J. D. Hennen; F. W. Spurr.

The meeting was concluded with the singing of the National Anthem.

Present: E. Kienle, G. W. Sears, P. A. Engberg; C. H. Hingston, J. S. Vanderson; W. W. Hill; R. W. Pincott; P. M. Hengen; F. H. Grisendl; R. B. Wallace, M. W. Urquhart; Geo. L. Abernethy, J. Baptist, E. Anderson W. Worton, Geo. B. Brace

1926 and 1927 guarantors will please take notice that there will be a joint guarantor meeting at the rural municipal hall on Saturday next at 8:00 p.m.

U.F.A. Meeting

period at Tofield was passed on Monday evening when A. R. Mathieson, M.P., held a meeting here in support of his candidature. There was a very good crowd present, practically all of the seats in the Variety Theatre being occupied.

Mr. Mathieson had with him on the platform, Geo. Abernathy, chairman, and E. W. Pincott, U.F.A. supporter.

The chairman, in calling the meeting to order, said that most of those present need not be told of the nature of the meeting. Mr. Mathieson was frankly there to ask for votes and support, and as a part and parcel of a political machine, but as a member of a government who had for the first time being placed in office had a record of five years progressive legislation.

E. W. Pincott, gave a short address on which he praised teh wisdom of the farmers' movement towards political power. He spoke disparagingly of the liberals tendency to pile up heavy debts to be paid for more than one other. It was utter, he said a pay as you go, he said if anyone had any doubts as to the wisdom of voting for a progressive, they had only to contrast their own financial in 1921 with that of today. Whereas in 1921 every thing was in chaos and looked dark and gloomy, today there is an unmistakable bright outlook.

As a last reminder he said that when you have monkeyed with the old Ford, and she is running right, leave her alone, in case the gas or barkin again. The U.F.A. had given good government, vote them back in to office.

Mr. Mathieson thanked those present for attending the meeting. He was very pleased to see such a fine crowd present. He did not expect to lose their opponents. There was a time when elections were bitterly fought and candidates abused each other both as regards their private and public lives. But these days have passed and now commonly results in speeches to the point, clear cut and logically.

When the U.F.A. government came in 1921, they found a great deal needed looking after and introduced a secondary school system. They also found many of the departments heavily overloaded. They proceeded to practice economy and though the debt of the province had actually increased, it was because of the commitments of the previous government. They installed a much better accounting system and let go a number of needless employees.

Charges of extravagance had been lead against them, but nevertheless they had reduced the expenditures of the province by one and a half millions.

They had made considerable progress in education. True, they had abolished a few school inspectors, but the number of schools without one inspection per year was less now than in 1921 while the number of inspections per year was considerably increased. He dealt with the irrigation project, drought area legislation, northern railways, natural resources, patronage, taxation and the pools. He also said, that since the U.F.A. government had been in power no charges of corrupt practices had been made. The U.F.A. government was honest, efficient, and sincere, and on this record asked to be returned on June 28th. Applause.

Questions were then called for by the chairman but none were forthcoming.

Mr. Johnstone Ferguson then announced a livestock association meeting to be held on Saturday next at 10.00 a.m. and 2.30 p.m. He also spoke a few words on behalf of the candidate and gave much of the praise for the farmers present prosperity to the U.F.A. government.

LIBERAL MEETING FRIDAY

On Friday night at the Variety Theatre, J. H. Hannan, Liberal Candidate for the Vegreville Constituency, will hold a meeting. This is Mr. Hannan's first meeting at Tofield and he will be supported by Capt. J. F. Bower, J. F. McCallum and others. A good turn out is expected as Capt. Bower is a forceful speaker, has a complete grasp of his subject and a pleasing manner. Mr. McCallum, as M.P., is also well versed in the art of oratory and well informed as to the Liberal regime. Mr. Hannan, too, speaks with a newsbags of his subject. He has adhered to the Liberal party through thick and thin, and believes he is thoroughly justified in doing so.

NEWS OF OUR NEIGHBORS

LOWER ROSS CREEK

Measles is making a clean sweep of the district, the school attendance being very nearly to the vanishing point.

Work is being resumed on the building ree for the Warner farm, a cement basement being got ready for a house.

William Bailey is putting up a new house on the farm recently purchased from Mr. Rogers, to suitably celebrate, (it is rumoured) the "Hanging of the Crane."

Alex Davidson has returned from a homesteading trip north west of Edmonton, very favorably impressed with the land around Rose Creek.

The season for breaking has opened and a good general rain is in order.

The baseball picnic at Logan has been postponed till July 5th.

Harry Gray has returned from Lamont hospital where he has been undergoing treatment for rheumatism.

SUCCESSFULLY DEFENDS McCALLUM CUP

It was a sweet baseball game that took place on Monday night, when Tofield defended the possession of the McCallum Cup against the Ryley ball players—but is sweet to the Tofield fans and supporters.

The game, which for once, started at the right time, was really a pitchers duel, both pitchers being away superlative coverage or winner scores, one with on the mound for Tofield and "Jiggs" Orford pitched for the invaders. With the exception of the first inning when a brilliant triple play was made by Tofield the score up to the sixth inning was a succession of the pitcher retiring the side. This applied to them both. Once Ryley got a man on third, but Lee put them over so fast that the man up did not have a chance.

Tofield too got round once or twice but "Happy" sent them over hot and the field soon trooped in.

It remained for that old warrior of many a baseball battle here and elsewhere, to break the monotony of the score. Frank who has saved many a situation, certainly played a "Frank" Jennings on the McCallum cup when he connected with a fast one from "Happy." He got to first. Lee followed, and he also laboured out one, got to first putting Frank in second. Then the youngster Yakimoski came and up and he got behind the great "Happy" to touched up for another knock and Yakimoski goes to first and Frank and Scott get home. This inning really told the tale. From then on, Tofield made steady gain and the game ended with the score standing 6 to 3 in favor of Tofield.

One regrettable incident occured when a Ryley player was hit by the ball in the head. The ball struck him dead on the ear. He showed around wildly for awhile then too his base. It was a hard knock and he is to be greatly commended for carrying on.

The batteries in batting order were; Ryley—Griswold; C. Galoud; Ewers; D. Galoud; J. Galoud; T. Benedictson; D. Benedictson; W. Anderson.

Tofield — Calvert; Bissett; Ball; Lee; Lawson; Yakimoski; Robinson; Wood; Seal.

SPORTS ON JULY 30

Wednesday, July 30th has been set aside as Tofield's One Big Day. At a meeting held at the Town Hall on Tuesday night this was decided upon.

The meeting was a very enthusiastic one and if the weather man will give us a good deal for that day, the committee will go down on one of the best sports day. Tofield has ever seen—the brawn or sports say THE BEST. Baseball, Basketball, Races, etc. (including horse races) will all have their place in the run on that day. In the morning there will be a grand parade from the station to the grounds further particulars of which will be announced later. The curling club, both ladies and gentlemen will handle the refreshments and if they go at this in their usual snappy style, there won't be a hungry or thirsty soul on the grounds. Things appear very bright for a good day, so just remember the date, and on that day put on your holiday attire and come to Tofield.

BARDO

At the semi-annual meeting of the Lutheran Young People's Society on Sunday evening the following officers were elected. President, Martin Hagen; Vice President, Geo. Mohr; Secretary, Myrtle Rude; Programme Committee, Hannah Jensen, Signed Regan, and Ingvald Nese. After the business meeting there was a short musical program and the evening proved a most enjoyable one.

Next Sunday is the regular quarterly meeting of the Salem Sunday school. Mr. M. Brenneman, of Albany, Ore., will be present. He will hold a series of evening meetings the following week.

Mrs. J. Brenneman entertained the young people of Salem Church to dinner on Sunday, about 60 in number.

Mrs. J. Jensing will entertain the Ladies' Aid on Wednesday, June 30th.

The Jacobson, Eggan, and Iver Moen families attended the party at the Plasten home at Amisk Creek on Sunday afternoon.

Mr. and Mrs. P. O. Lerbekmo spent Sunday with her parents. In the evening they went to Edmonton and got little John from the hospital where he has been convalescing for several days from an attack of the measles.

ENTERTAINMENT

Come to Kotchmont's big picnic on July 1st on the old picnic grounds on Mr. Chas. Whitton's farm for the Tanks station Tofield grounds, no caterpillars. Ladies' men's and boys' ball games, races of all kinds and a delicious dinner by the ladies of the M.A.B. booth. Everything to make an ideal picnic.

AMISK CREEK

Chautauqua is now over for this year again, and thods from this district who attended it seems to be very pleased with the program, because many of them have signed up again.

Last Sunday a surprise party for Mrs. Frieda Sund was held at the P. Plasten home. The weather was very nice and a large crowd gathered. 92 persons were present, ice cream, cake and coffee was served, and all the guests seemed to have a good time. As a token of remembrance, Mrs. Sund received a small sum of money and several useful gifts. Mrs. Sund and her two children left Monday morning for Elk Point.

E. O. Berg and A. Patterson motored to Edmonton last Monday returning home the same day.

A large crowd attended the English service in the Amisk Creek church last Sunday evening.

Ruby Berg is writing grade six exams in Ryley this year.

Mr. E. A. Moon, Mrs. P. Sund, and Mrs. P. Plasten attended the meeting of the Dorcas Society held at the Asmo home last Tuesday.

Mrs. R. O. Berg and daughter, Alice, were dinner guests at Mrs. R. Peridis' of Tofield last Monday.

THE FIGHTING HEART

The Fighting Heart come exceptionally well recommended to the Variety management. It is adapted from the story "Once in Every Man," and is well depicted. The story deals with a young man who inherits the craving for liquor from his grandfather. He fights against it, the unenviable standings of the world as regards his conduct, the love and faith of his sweet heart and the devilment of the man who plotted to bring about the hero's downfall. The Fighting Heart contains some excellent photographic work as regards scenery and acting. Among other things there are several facie encounters between pugilanators of the manly art. Altogether it makes a nice picture for a Saturday evenings entertainment. There will also be a good comedy. Don't forget that both shows, at 8 and 10 must start on time in order to get through by midnight

Will the party who took the spade and rake from the residence of W. Webb kindly return same and thus prevent further trouble.

WORLD HAPPENINGS BRIEFLY TOLD

Revenue of Temperance Council of Christian Churches in England and Wales is subject to taxation under a decision rendered by the King's Bench division.

A world survey showing that about 60,000 persons were killed and 850,000 injured in automobile accidents last year, is made public by the American Road Building Association.

The woman of today wears fewer clothes on the street than her grandmother were to bed, says Senator Norris, of Nebraska, during a discussion in the senate.

M. Bronsky, a co-heir of the famous mulatory, says that as an outgrowth of extraordinary measures taken by the Soviet government, the repayment, the new Russian gold unit of value, has now been definitely stabilized.

General strikes which would involve the violation of wage agreements were condemned by William Green, president of the American Federation of Labor, in an address before the convention of the Inland International at Denver.

The British Trades Union Council, through its acting secretary, Walter M. Citrine, denied that the Russian Soviet government has sent funds to British strikers and brands reports of such remittances as utterly preposterous, threatening to endanger relations between Great Britain and the Soviet."

Citizens Of Victoria Most Heavily Taxed

Statistics Show All Western Cities Bearing Heavy Tax Burden

With a per capita tax of $122.53 Victoria, B.C., is the most heavily taxed city in the Dominion, while Chatham, Ontario, with a tax per head of $15.30 occupies the enviable position of being at the bottom of the list of 12 cities, according to statistics issued by the Canadian Research Institute.

Montreal, the largest city in Canada, has a comparatively low tax burden with $46.18 per capita, Toronto is next which in the list of 12 with a per capita assessment of $106.85, and Vancouver, with a tax rate of $122 occupies second place.

The western cities are bearing the highest tax burden, it is stated in the report.

The data from which the statistics were compiled were based on municipal, provincial and federal taxation figures. The report of the institute states that per capita costs are not an infallible guide in judging the efficiency or inefficiency of various governments, and that their only value is in the indication of the trend of costs, problems in different municipalities and, naturally, also of solving such problems arising

Tailless Flyer Is Latest Invention

Impossible For It To Get Out Of Control

A description of an aeroplane which will not, through any error on the part of the pilot, get out of control in the air has been given before the Royal Aeronautical Society at the Royal Society of Arts, John Street, W.C., King Insh by the inventor, Capt. G. T. R. Hill, a British air pilot.

The machine is a tailless structure with a swept-back bird-like wing. It has air brakes which steepen its glide and enable it to alight in a small area, and will fly steadily even when the pilot has let go all the controls.

Smaller Engines Coming

Will Reduce Production Cost of Trucks and Pleasure Cars

Smaller engines, normally strong enough to run a motor car only on a level, but reinforced by a supercharger powerful enough to take it up the steepest hill, will soon be used generally on automobiles, according to C. B. Short, of General Motors. Such smaller, he says, have been used successfully on aeroplanes and racing automobiles and should be practicable in reducing the production cost of trucks and pleasure cars.—Popular Science Monthly.

France Holds Different View

France reiterated her contention that land, naval and air armaments cannot be treated separately in so far as fact to bring about any degree of disarmament. This view, on the whole, differs from the British and United States ideas that they can be settled separately

More Land Buyers From U. S.

Canadian National Railways Bring in Settlers Of Desirable Type

Twenty-two prospective land buyers and home seekers from Omaha, Nebraska, arrived in Winnipeg recently enroute to Edson, Sask. These men are all successful farmers and stock raisers and the total combined capital which they are prepared to invest in Western Canada, if conditions are to their liking, represents a very sizeable sum. The party is one of a number which have been and will be brought to Canada by the Canadian National Railways colonization and land settlement department during the year, and they represent the type of agriculturalist who has had long experience under conditions similar to those obtaining in the section where they contemplate settling and who, in addition, has sufficient capital to commence farming of an intensive character.

At the present time the National system is the only organization working to attract this desirable type of settler from the United States by means of personally conducted tours who permit the prospective buyer to see for himself what the country has to offer. The experience of this year further from the fact that of the last party of 24 farmers to leave Omaha south, seventy-five per cent. have already purchased land in that territory and have either moved on to their lands or are preparing to do so.

For the present effort, as being concentrated largely upon United Saskatchewan, in the vicinity of Edmonton, Alberta, and the Peace River district. These men, who are all successful farmers and stock raisers and the total combined capital which they are prepared to invest in Western Canada, if conditions are to their liking, represents a very sizeable sum. Citizens Of Victoria Most Heavily Taxed

Statistics Show All Western Cities Bearing Heavy Tax Burden

With a per capita tax of $122.53 Victoria, B.C., is the most heavily taxed city in the Dominion, while Chatham, Ontario, with a tax per head of $15.30 occupies the enviable position of being at the bottom of the list of 12 cities, according to statistics issued by the Canadian Research Institute.

Montreal, the largest city in Canada, has a comparatively low tax burden with $46.18 per capita, Toronto is next which in the list of 12 with a per capita assessment of $106.85, and Vancouver, with a tax rate of $122 occupies second place.

The western cities are bearing the highest tax burden, it is stated in the report.

The data from which the statistics were compiled were based on municipal, provincial and federal taxation figures. The report of the institute states that per capita costs are not an infallible guide in judging the efficiency or inefficiency of various governments, and that their only value is in the indication of the trend of costs, problems in different municipalities and, naturally, also of solving such problems arising

Tailless Flyer Is Latest Invention

Impossible For It To Get Out Of Control

A description of an aeroplane which will not, through any error on the part of the pilot, get out of control in the air has been given before the Royal Aeronautical Society at the Royal Society of Arts, John Street, W.C., King Insh by the inventor, Capt. G. T. R. Hill, a British air pilot.

The machine is a tailless structure with a swept-back bird-like wing. It has air brakes which steepen its glide and enable it to alight in a small area, and will fly steadily even when the pilot has let go all the controls.

Smaller Engines Coming

Will Reduce Production Cost of Trucks and Pleasure Cars

Smaller engines, normally strong enough to run a motor car only on a level, but reinforced by a supercharger powerful enough to take it up the steepest hill, will soon be used generally on automobiles, according to C. One piece Frock With a Two piece Look

Jean Patou, in his recent shooting, has returned to the type of wearable one-piece sports clothes for which he is best known, many of them fars with plain, but all with belts cut straight and comfortably loose, and having the waistline around the top of the hips. This type of dress seen in the model published here, whose beautiful shirt front is joined to the bodice under a deep tab. Note the back view shows a fat silhouette. There are darts at the shoulders, and the collar is of the convertible type, to be worn high or turned back. No 1691 is for misses and small women, and is cut in sizes 16, 18 and 20 years. It requires 4½ yards 36 inch fabric for view of plain material, or 3 yards wide-bordo real material for dress as illustrated. Plain Duvetyn.

The Fashion Book, illustrating the newest and most practical styles, will be of interest to every lady as it contains 32 Price of the book is 20 cents.

Canada's Valuable New Industry

Eastern Canada's pulpwood resources are furnishing nearly all the material for the manufacture of rayon, a commodity which is gradually displacing cotton and silk in many lines, according to Dr. W. Hale Clarke, who spoke to a large audience on "Rayon" in Montreal, under the auspices of the Canadian Chemists Company.

Rayon is made entirely of wood pulp, the Canadian spruce tree being the favorite for the purpose, said the speaker. At present nearly all the manufacturing is done in the States and Europe, though there are two factories in Canada, one of which is in Montreal.

The most modern machinery is used, and nearly everything is done automatically. The total rayon production for the last year amounted to a hundred and eighty-five million dollars.

Will Make Aeroplane Noiseless

French Guarding Secret of Silent Propeller Just Invented

French military aviation authorities are guarding with the greatest secrecy the new invention of a silent aeroplane propeller enabling noiseless night bombing raids. If the genius successful anti-aircraft artillery will be unable to find a target in the thousand-to-one hidden machines fly, for above the reach of the most powerful searchlights.

Heretofore anti-aircraft fire was directed by microphones which recorded the sound of the propellers and actuating the range finders and directors.

The new air screw is metal made from a solid forging. The outer rim, or tip, is thicker than the rest of the blade. It is believed to be due to the absence of tip flutter and the keen leading edges of the propeller blades whose ball-like sharpness enables them to cut the air with the least possible disturbance.

With the propellers' whir silenced, the manufacturers can muffle the noise of the motor. An automobile engine and propeller is a combination of noise.

Prince Enjoyed Game

Played Golf In Pouring Rain Under Shelter of Umbrella

Under the shelter of a big red umbrella, the Prince of Wales played golf in a pouring rain at Sandwich, and appeared enjoyed it. He was playing a three-ball match with his equerry and a friend. At the fourteenth hole it was raining harder than ever, and one of the Prince's opponents asked if it were good enough.

"I rather like it," replied the Prince. "Let's carry on." So they completed the round.

SUNDAY SCHOOL LESSON

JUNE 27

REVIEW: WHAT WE HAVE LEARNED FROM THE BOOK OF GENESIS

Golden Text: We know that to them that love God all things work together for good, even to them that are called according to his purpose. Romans 8:28

Devotional Reading: Hebrews 11: 1-12.

Rev. W. H. Bennett, in his introduction to the Book of Genesis in The New Century Bible, gives the following as a brief survey of the principal messages of Genesis:—

"The Patriarchs appeal to us, interest and help us, because they are types of eternal verities. Their adventures were not unfamiliar experiences in the ancient east, and they still stand as vivid pictures and symbols of certain human life today. There have been—and are still—many Abrahams who have gone out, not knowing whither they went, in obedience to some dictate of conscience, or some prospect of spiritual advantage, richly illustrated in the call of God; many Jacobs, who have, as to speak, struggled into the Divine Presence when their only thought was of by-passing their brother's forgiveness or weakness, folly and sin; many Josephs, who have found in God-with-them the appointed path to honor through the valley of humiliation; many Moses, who have been driven to the wilderness by their own impetuous zeal to the fulfilment of their purpose, and there learned the lesson of their own impotence and the all-sufficiency of God.

"We should beware," he added, "of the broken tooth of making these Patriarchs continually irritate the gums, cheek and tongue; of the agonizing shock which the head sore behind the ear, on the temples or nose; of any sore which will not heal; of the mole or wart that changes in color, size or appearance; of a bodily change in the breast which cannot be explained; of any unusual and unnatural discharges from any part of the body and of any hoarseness which does not go away.

"When any one of these conditions occur, you should go at once to a reputable doctor and do what he advises." New Report from Atlantic City.

Lost In the Jungle

Explorer Returns From Expedition to the Amazon After Many Adventures

Dr. W. M. Mathews, explorer, who has just returned from an expedition to the Amazon and Andes. For many months he has been missing, and it was generally thought that he had either been killed by natives or had succumbed to fever, according to Mr. Hale Clarke, who spoke to a large audience on "Rayon" in Montreal, under the auspices of the Canadian Chemists Company.

Rayon is made entirely of wood pulp, the Canadian spruce tree being the favorite for the purpose, said the speaker. At present nearly all the manufacturing is done in the States and Europe, though there are two factories in Canada, one of which is in Montreal.

The most modern machinery is used, and nearly everything is done automatically. The total rayon production for the last year amounted to a hundred and eighty-five million dollars.

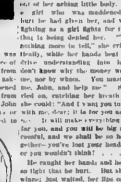
Answer to Last Week's Puzzle



Sounds Note Of Warning

Britain Losing Supremacy On Seas Says Carnegie Library League President

Sir Hamilton Harris, president of the Navy League of Canada, after speaking of the Empire at Jutland, a contest on which depended whether the British Empire should continue or should go to the thread, sounded a note of warning. He took as his authority a British blue-book to show that Britain no longer was the premier sea power of the world.

"According to records of the British Government," he said, "the 2,000 vessels which Britain had during the war have come down to 441 now. It is power of building. The British empire has 24 per cent. less vessels than our friends to the south. Japan is 175 per cent. weaker than the United States. I haven't said that Britain does not rule the waves. That test has not been made. God grant that it never shall be made. God grant that if it is made, Britain may yet be victorious on the sea.

"What is the situation in Canada? We are not doing anything. Can Britain lose her premier position. If she does, the empire goes to pieces. It goes with the navy, and can with the navy."

When Canada took her place in the empire's navy, he added, she would be doing what it was her duty to do.—Report of Meeting in Toronto.

Is A True Britisher

Unknown Man Does His Share in Reducing British Debt to U. S.

A man born in England but who has lived in the United States fifty years, has sent his third contribution in three years to the British Government to be used toward paying the British debt to the United States. Winston Churchill, chancellor of the exchequer, has sent him the thanks of the British Government. His contribution this time consisted of bonds worth £1,376.

A machine has been invented with which a piece of cheese measuring one inch square can be cut in 12,000 slices.

The worst about getting down in debt their prices are fearfully moderate.

Why Bakers Buy Appleford Wraps

Bread worth wrapping is worth wrapping well. It deserves the full protection afforded by Appleford wraps. Bakers prefer these wraps for three reasons.

1. Quality paper is used which won't tear or crack under corners.
2. Wax coating won't come off to spoil taste of bread.
3. Our distinctive design improves the appearance of a loaf.

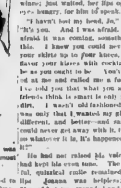
CHAPTER VII.—Continued

"I promise Mlle. Monnerie that I shall always be ready to believe—whatever she wishes to believe," said Wang, "and I shall not keep myself at her feet, eagerly listening for the sparkling down of the jade," he murmured softly. "Shan't we make that a bargain?" Then the corners of his mouth twitched. "I'll make a square an evening for the beginning of my devotion," he promised. "Shall we dine tomorrow?"

Joanna hesitated—confused, her plans falling. She was about to turn aside to John, but Brandon pressed the lumpster and watched her relief with his fingers. She shot her eyes up to his quickly. The touch angered her, but she decided instantly to accept his challenge.

He did not give his hand to John, but bowed slightly. Joanna went into the hall with him. Quite suddenly he put his hand on her shoulder and brought her around until she faced him.

"Don't make mistakes, Joanna," he said, earnestly. "There's a definite line between you and me. Your perspective is not that of the shop girl she appears. Suddenly he released her. Also John that the smile at his mouth was something to see again, and that he was really amusing her, when he once more lifted her fingers to his lips. She held to persuade herself that he was just a different kind—the difference of breeding, blood and associations, from that which she had called her husband and had for a blue moon as they happened to be alone. His difference from John—that puzzled her! For John was a gentleman, after all, in every sense, either. He always wanted to be.



"I don't know why the money was given to me, but I believe me, John, and help me."

talk architecture when she wanted to talk of other things, and he believed that would be much alike if John had had the advantages of money.

"The advantages of money! For John!"

The hurried back to him, was up to where he had dropped back into a chair, and stood before him.

Mlle., she asked in the obliging—do obeisance to the enjoyment of seriousness where a new and strange admirer confronted an old and established one unexpectedly. Chris were going to give each wedding, and Joanna was at a loss out of them. She tried to persuade herself that this was all that was bothering John—jealousy so profound that it obscured the larger issues of the day.

"I didn't know he was coming, John," he pleaded. "I didn't ask him. I just met him today, at the bank, and I didn't want him. I want to be with you alone."

John got onto his feet, looked down into the troubled eyes, and pushed past the waiting form. He went over to a table and picked up a book from which it a moment, and then dropped it abruptly. His swung around and faced the girl who was watching him, her allm breast rising and falling slowly;

"Well, Jo," to me, the straight of it?" he demanded, quickly. "Mrs. Adams has given me the story you told her. We agreed, of course, it's duty. But is easy be all right for her. You owe me the truth?"

Joanna, caught her breath. Her impulse was to cry out, but she checked it. She felt her body growing cold She stared at the young man who leaned against the table regarding her coldly, severely, mercilessly. He who was the only man with her childhood. Who her mother, geraniums beds, with the e band down the birthday days of the little town which had been her home—their home. He "She had come also to the city to work and her career and who had found her, a job and with whom she remained much as she like—loved her and honored her keeper, and her ridicule of him because he was so "slow." But always wanted to be with her in the home they'll have for their very own, someday, that he would build and make a wonderful thing with his inventions.

"I can't," she whispered, the low word sounding, as if it was a pleading cut over her lips.

He nodded, as if he thought he had exactly her thoughts, and, being what he was, he probably did. Then he threw the table—a sudden that not instantly and called to him for pen and

John! What is it—evil?"

Letter Writers In India

Kept Busy Scribes Most of People Are Illiterate

The letter writer is a familiar figure in India, and his occupation is the out come of the illiteracy of the masses.

His calling is not confined to any particular class or creed. Hence he is to be seen in nearly every city and village. He very often acquires an elementary knowledge of the three R's, at a primary school. This enables him to "read" on times who are ignorant of letters.

He usually settles down in business in hazaars, or in the vicinity of post office, or court of law. His shop is made portable, as a rule, of a small box, a supply of writing material, postcards, postage stamps and envelopes, and money order and telegraph forms. It is supplemented sometimes, by an old typewriter—an object of curiosity rather than of practical utility!

A letter writer's friends are many and his income a respectable one. Individual strikes; and between right to vote by means, in another town. It is derived from all sorts and conditions of men who come to him for the sending or writing of their letters, and cheerfully pay for his services. No payment is not regulated by a fixed scale of charges. It is left, from a plebeian to three annas a letter, according to his humility, the means of the customer, the nature of the communication and its urgency.

Little Helps For This Week

But this I say, brethren, the time is short.—1 Cor vii., 29.

They are such dear, familiar feet that stray the path with ours—feet fast or And trying to keep pace. If they miss Or tread

Or tread upon some thorny thing, we wonder how

Can they endure it, bruise, or bleed, or suffer so?

We will be patient while we may

How careful one should be to be kind and thoughtful to one's old friends. It is so easy to be too busy to be good to them and then we is always so grieved.—Sarah Orne Jewett

A MEDICINE THAT ALL MOTHERS PRAISE

Baby's Own Tablets Banish Babyhood and Childhood Ailments

Mrs. H. Chiles, Sarnia, Ont., says: "I have used Baby's Own Tablets in my home for the past fifteen years and I feel to the good health my children enjoy is due entirely to this medicine. The Tablets are helpful at teething time, every colds and are always on hand to all the minor ailments of little ones. I have recommended Baby's Own Tablets to other mothers whose children were ill from time to time with infantile ills and always with satisfactory results."

Baby's Own Tablets do one thing only, but they do it well. They act as a gentle laxative which thoroughly regulates the bowels and sweetens the stomach, thus banishing constipation and indigestion, colds and simple fevers and the like. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Largest Lion Curtain Made

One of the large theatrical firms made in England has turned out in one piece a lion's curtain 150 feet long and 50 feet wide. It is said to be the largest single piece of lace ever turned out in any of the factories throughout the world.

Use Minard's Liniment in the stables

Phonograph records of primitive languages that are dying out are being collected by scientists.

King George's New Car

Fittings Are Brass and Mountings of Plain Mahogany

King George's new car is to be upholstered in blue on His Majesty's order, and will be kept exclusively for his personal use. The car is to have a 35-120 h.p. chassis. All his fittings, lamps, clocks, and speedometers are to be of brass, and the mountings in plain mahogany. No inlay work will be used. The cabinet will be from Canterbury, as my own."

Give Name From Story

How Gold Mine Came To Be Called Pin Plan

How the Pin Plan Northern Manitoba's copper mine, got its name was related at the annual meeting of the mining company in Winnipeg recently.

A party was paddling down the lake on which the Pin Plan discovery was made. A book was found on the shore containing the story of a Chinese named Pin Plan, who discovered a bottomless lake. Pin Plan investigated the lake in which he made a raft to the bottom of the lake the story says. His journey took him into a new world, where flowers were huge instead of men. This did not suit Pin Plan and he made a hasty return to the surface of the earth, with the stones exchanging him with sticks.

A few days later when the party discovered the historic break which has now become Pin Plan mine—one of them said: "This looks like the place where Pin Plan came out."

So they called it "Pin Plan" and Pin Plan Ltd. was incorporated.

Minard's Liniment King of Pain

Calicura Comforts Tender Aching Irritated Feet

Bathe the feet for several minutes with Calicura Soap and warm water, then follow with a light application of Calicura Ointment, gently rubbed in. This treatment is most successful in relieving and soothing tired, hot, aching, burning feet.

Sample Each Free by Mail. Address: Canadian Calicura Laboratories, Dept. T, Montreal. Calicura Soap and Ointment are sold by druggists everywhere. Calicura Shaving Stick 25c.

Bells Water On Ice Cake

Professor Experiments With Thermit At McGill University, Montreal

Water boiling on a block of ice was the phenomenon demonstrated in an experiment made recently at McGill by Prof. Howard Barnes in front of the physics building on McGill University, Montreal. The ice was first drilled with a piece of coal for several minutes after about a teaspoonful of thermit, placed inside the block, was ignited. When a larger amount was used in a second block, a violent explosion occurred and the ice disappeared, shooting fragments into the two constituents, hydrogen and oxygen. The explosion wrecked a canvas. Thermit first came to general notice when Prof. Barnes used it last winter to break up the ice jam in the Allegheny River, Pennsylvania.

The Perfect Equity

John—Why, that's the image of your daughter."

Peter—Absolutely, Sir!"

John—Why, what's the matter with her?"

SMP ENAMELED WASHBOARD

Voters Attention!

Directions as to the use of Preferential Ballot

The preferential ballot will come into general use for the first time in the forthcoming provincial elections. Every voter should be thoroughly conversant with the method of marking the ballot before attempting to vote. Read these instructions:

The voter must not use the X mark.

The voter must place the figure 1 opposite the name of the candidate who is his first choice, the figure 2 opposite his second choice, the figure 3 opposite his third choice and so on until he has voted for all the candidates on the ballot if he so wishes.

The voter may plump for one candidate alone, using the figure 1, without spoiling his ballot, but is urged to vote to the full extent of his choices, as it is only by doing this that the voter obtains the full benefit of this form of ballot.

The voter must not place more than one choice opposite any one candidate.

The voter must not make the same choice for more than one candidate.

The voter must not make any mark on the ballot not authorized by these directions.

READ THESE INSTRUCTIONS CAREFULLY

JOHN D. HUNT,
Clerk of the Executive Council,
Government of Alberta

Here Is What "The U.F.A."

THE OFFICIAL ORGAN FOR THE PROVINCE

Had to Say of Capt. Shaw,

Liberal Leader, As Late As Sept. 15, 1925

Capt. J. T. Shaw

"The announcement that Captain Shaw, who has represented West Calgary in the House of Commons as an Independent member for the past four years, will not be a candidate in the forthcoming election will be received with deepest regret, not only in all parts of Alberta, but among forward looking people throughout the Dominion.

"Capt. Shaw's withdrawal from public life would be a very serious loss to Canada. He made his mark in the last parliament, where he was recognized today as a parliamentarian of independent type and of outstanding ability and courage. He is one of a still small group of men in the federal sphere who have been paving the way for a real advance from the petty personal politics of today, to constructive and genuinely progressive statesmanship. His early return to public life will be hoped for by all who are familiar with his record of service in the parliament recently dissolved.

"Since the announcement of Mr. Shaw's intention not to be a candidate very great pressure has been brought to bear upon him in Calgary in the hope that he will reconsider his position. We trust that he may yet decide to allow his name to go before the electors on October 29th."

Mark Your Ballot Through

Do not be satisfied by marking No. 1 for your own party, butmark your second choice of the other two candidates.

Marking Your Second Choice

In no way interferes with your first choice. Your first choice is not eliminated unless your candidate is the low man. If you "plump" for one candidate, it means merely that you make no second choice of the other two, if your candidate should be eliminated.

Vote 1 For The Liberal Candidate

If you have determined to vote No. 1 for another candidate, then then vote No. 2 for Liberal Candidate.

Advtg. Inserted by the Provincial Liberal Party

Why Vote For Fraser?

The sole and only function of the Government of this Province is to provide certain public services for the People of the Province in an efficient way and at a minimum cost. For the Alberta voter there is no such thing as a tariff question, an Imperial question or an International question. In provincial politics there is but one question and that is: which of the three groups now bidding for office, are the better qualified to perform that one and only function of Provincial Government, namely, efficient and economic administration which means low taxes and low production costs. Now, the Province of Alberta, is endowed by nature as are but few areas in this world, and if granted diligent and economic administration, will not be long confronted with immigration problems, railway problems, unemployment problems, or any of the other so called problems that face us today and that have retarded development in the past on account of inefficient government.

In 1921 when the Stewart government took office they found the province in debt to the extent of $50,000,000. They were elected on a platform of economy, therefore on taking office, they made a showing of patient economy. They promptly reduced the amount of the allowance payable to widowed mothers, they dismissed a few school inspectors, they closed the normal school at Edmonton and lastly dismissed a few junior clerks from the Land Titles Office. They did not reduce their own salaries and indemnities to the level of those paid in the Saskatchewan legislature as they had pledged themselves to do. However, they made an effort to balance the budget. If expenditures could not be reduced, at least income could be increased, so new and varied forms of taxation were devised and resorted to, that is how the Brownlee government balanced the budget!

Wherever you buy gas you pay a tax! Wherever you buy a theatre ticket you pay an amusement tax. The government decreed that restaurants should be taxed, insurance agents were taxed, but not sufficiently high as they got a boost. Every new tax meant a few more tax collectors and a few more inspectors. Mr. Brownlee also feared there was no tax on minerals, only a royalty, so just by way of encouraging development he proposed a mineral tax. A Provincial Income Tax was in the offing, when opportunely, the Liquor Commission handed over a handsome surplus and thus the fast gauge on the pocket book of the Taxpayer was for the time being postponed. And who pays all these taxes? Why the prime producer of course, here the same as everywhere.

Now, if as is claimed the Brownlee administration has been an efficient and economical administration, we may reasonably suppose, that the finances of the province have improved. Admittedly the revenues have increased. But what do we find? The debt of the province in 1921 was $50,000,000. Today it is, $81,300,000, an increased debt of $24,000,000.

LIBERALS NOT TO BLAME FOR ALL.

The Brownlee government claims that this increased in debt is due to the commitments of their predecessors. This is in part true, but only in part. The liberals created the unwieldy overstaffed, overhoused and over-lapping machine that is over-governing this province and the Greenfield-Brownlee administration has not only perpetuated but actually elaborated upon it. Without curtailing necessary public services, the annual expenditure of the government of this province can be tremendously reduced. Elect capable business men and you may rest assured that the cost of administration will be greatly reduced. The following comparisons tell a little story all of their own. The figures are for the year 1924 and are taken from the Public Accounts of the two Provinces. They are current CONTROLLABLE expenditures. The responsibility, therefore, rests with the government of the day and with it only. It is not enough for Mr. Brownlee's followers to point to the huge expenditures for the maintainance of these services during the Stewart administration. The fact remains that the cost of operating the various services of the government to-day, is tremendously high, when compared with the cost of operating the same services in the sister province and it is only when compared with Alberta, that Saskatchewan can be awarded honors for efficiency. The Government of the Province of of Saskatchewan is efficient as compared to Alberta. However, let us have the figures:

COSTS OF GOVERNMENT

Administering the Department of Municipal Affairs:—		
In Alberta, $253,264.	Sask.	$104,814.
No. of permanent officials in the Alta. Dept.	76.	Sask. 18
No. of Temporary Assistants in the Alta. Dept.	29.	Sask. 9
Administering the Department of Agriculture:		
Alberta $550,287.	Sask	$324,630.
Administering the Department of Public Health:		
Alberta $890,930.	Sask.	663,916.
Administering the Department of the Attorney-General:		
Alberta $1,497,260.	Sask.	$1,140,683.
Executive Council: Alberta $258,000.	Sask	$94,286.
Legislature: Alberta, $189,708.	Sask.	$144,524.

It is only when we come to the Department of Education and Public Works that the Alberta Departments compare favorably with their contemporaries in Saskatchewan and this is accounted for by reduced grants to School Districts in Alberta, and by smaller expenditures on market roads.

BUSINESS METHODS

Now as was intimated in the opening paragraph thereof, the one and only task confronting an Alberta Government is the task of administering the business affairs of the province in a business like and efficient manner. In this, the foregoing figures indicate conclusively that the Brownlee Government has miserably failed. No one doubts that they have done the best they could and therefore there is not much room for hope that they are competent to show yet better results if entrusted with the reigns of office for a further term.

THE REMEDY

It is this apparent fact that has brought to the fore Mr. A. A. McGillivray, admittedly one of the most brilliant men of our time. In the campaign he has gathered around him outstanding men of all walks of life. If he is asked to take over the reigns of office the people of this province are assured of an economic businesslike administration, which means reduced taxes, and a consequent influx of capital to the benefit of all the people.

MR. A. W. FRASER OUR CANDIDATE

Mr. Fraser is too well known in this district to require any introduction or comment. He offers to devote his ability, time and energy to the affairs of this province in the same unselfish way in which for years he has devoted them to this particular community. Mr. Fraser is of cabinet calibre and we could reasonably expect that if elected he will successfully undertake the task of putting one Department of the government on a business basis. Is it to our interest to reject him at the poll? It is not. No candidate in this constituency can better represent the farmers of this constituency than A. W. Fraser.

The New Conservative Association of the Vegreville Constituency

Conservative Principles Are Restated By Conservative Leader

A. A. McGillivray Sets Forth in Plain Language What the Provincial Conservative Party Stands for in Coming General Election.

CO-OPERATIVE MARKETING EXTENSION IS ADVOCATED

Proportion of Moneys Expended on Roads to go Toward the Maintenance of Country Roads as well as Main Highways—Encourage the Inflow of Capital and Immigration to Supplement Efforts of the Dominion Government.

SPEAKING at Rockyford on Thursday afternoon, June 18th, in support of Hugh Miller, Conservative candidate in the Gleichen riding, A. A. McGillivray leader of the Provincial Conservative Party, reiterated the items in the policy of the party that he has stated from different platforms in Alberta since being elected leader in August, 1925.

In his usual fighting style, Mr. McGillivray reviewed the record of the old Liberal administration and the record of the present government. Summing up his appeal to the electorate following the declaration of political principles, Mr. McGillivray said the Liberal party cannot go back into power and its record cannot be hidden under the cloak of new reform.

Give Them Chance

The present government has failed to cope with public questions, the chief of which are redistribution, the Northern Railways, Natural Resources and the finance problem that it has had to face. Then why not give the Provincial Conservative Party a chance to demonstrate what it can do? Mr. McGillivray left here at 8:00 p.m. for Dyen and other points in Acadia riding.

In reiterating points in the Conservative policy that have been enunciated by him from many platforms since he took the leadership of the party in August in 1925, Mr. McGillivray said: "I have not gone in for the form of political advertising known as the manifesto. I observe that the Liberal leader has lectured them in 1921. He issued one which commenced as follows: 'Trust representative government to replace the party system. Independent candidate in West Calgary outlines redistributive proposal for the establishment of a democratic government, free from partisanship and partyism. Proportional representation truly reflects popular will. Patronage system which is vital to the maintenance of party system, and is to-day a national scandal will disappear under the reform method of election.

"So much as the non-manifesto of the Liberal leader commenced as follows:

"'Liberal Manifesto—J. T. Shaw, Liberal leader, issues statement of party policy,' and above such a thin manifesto by Mr. Shaw, inasmuch as it does not consist of cupboard platitudes and glittering generalities is partly taken from the pronouncements of the Conservative party. It may be well for me to include the position of the Provincial Conservative Party, upon some of the principal issues, a position taken and given public expression to on the platforms all this country at times when Mr. Shaw was still an independent.

Conservative Platform

"The Provincial Conservative Party stands for the following:

"1.—Redistribution, whereby the number of constituencies will be reduced so that there will not be more than 45 members in the legislature. This reduction to be made, having due regard, both to population and to the sparsely settled areas.

"2. Reduction in the amount paid as personal indemnities of members by $500.00.

"3. A determined effort to make of the United Farmers of Alberta organization something more than a mere political machine and to advance its development along social and economic lines.

"4. The encouragement of co-operative marketing. Even as supporters of the Conservative Party brought Aquith to Alberta without thought of political advantage, so will the Conservative party support any movement for the benefit of the farmers, without seeking political glorification.

Money for Roads

5. A fair proportion of the moneys expended on roads being delivered from spectacular trunk roads to farmers' market roads.

"6. Insofar as it lies within the legislative control of the province, keeping check over grain elevators with respect to the weighing and grading of grain.

"7. A real soil survey of the drought area of the south by the greatest care obtainable available.

"8. Post office and Provincial telephone system on a business basis.

"9. Furthering any practical scheme provided for rural credit.

"10. Equality of men and women under the law.

"11. A recognition of the fact that labor Unions are as much an necessary product of modern economic life as are the large corporations and that they tend to bring about equality in wage bargaining that would not exist if the individual had to bargain with the great corporations.

Right of Appeal

"12. Providing a right of appeal under the Workman's Compensation Act from an unjustly compensation board.

"13. Raising the scale of compensation for railwaymen in non-supervisory capacities to the level enjoyed by other classes of workmen.

"14. Equitable distribution of the burden of taxation for upkeep of the schools.

"15. A most careful consideration of all possible ways and means for providing security of tenure and a practical pension scheme for teachers.

"16. An examination of the school system by education in touch with a view to making certain that our student body is not cursed with an overloaded curriculum.

"17. Re-valuation and sale on the proper terms of the C.N. and B.C. and Central Canada railways, with a consequent saving of nearly one million dollars a year.

"18. The reforming of our natural resources tax and equitable treatment of any school question arising affecting minority rights. (The provincial conservative party has lead for this since 1917.)

Balancing the Budget

"19. The yearly balancing of the budget. In September, 1925, while advocates of this government were still saying that it could not be done without injuring essential services, the Conservative party took the position, as it does now, that the budget could and should be balanced in each year.

"20. A complete reversal of the former Liberal and the present government's attitude towards capital by encouraging in every possible way those who have money to invest in the exploration and utilization of our natural resources of all kinds.

"21. A provincial immigration and colonization policy to supplement the efforts of the Dominion government to get people and to retain them when we get them here, so that with more people amongst whom to distribute the load, we may hope to cope with our debt and our ever increasing burden of taxation. The provincial Conservative party is determined to bring about an influx of capital and of people because the future prosperity of our people is inseparably associated with the.

"22. The giving of votes for both city and rural constituencies.

"23. An immediate decision as to govt. RTAHON NIRCH CMPNY VBE the Spray Lakes water power project.

"24. More local autonomy in municipal affairs.

(Issued by Provincial Conservative Association.)

WEEKLY NEWS BULLETIN
Issued by Publicity Commissioner, Government of Alberta, Edmonton.

Crop Conditions Improved

Since the publication of the official crop report of the Provincial Department of Agriculture a week ago, conditions have been considerably improved in the Southern part of the province by heavy rains. Those years general over a considerable area south of Calgary and east, south and west of Lethbridge, and good showers also fell in the south-eastern district. These rains have brought relief to grain crops which were beginning to suffer from lack of moisture, and the general outlook is now very satisfactory.

Many Wells Drilling

Turner Valley, south of Calgary is witnessing considerable activity in oil drilling line, there being now fifteen wells in process of drilling with five others ready to start drilling within the next few days. Arrangements are being made, it is stated, to bring the Macleod well in as a producing well, at a depth of about 3,700 feet. This well is giving a grade of naphtha as high or higher in quality than the famous Royalite No. 4, which for more than a year has been giving a production of 18,000 barrels a month of 53 degree Baume oil.

20,000 Write Exams

A total of 20,000 pupils are writing in Alberta this year on the mid-summer examinations, the examinations which have been in progress during the past week. This is an increase of about 10 per cent over last year.

Homesteads Taken Up.

More than 80 homesteads have been taken up by intending settlers during the first two months of June at the federal land office at Edmonton.

CORNHILL MUNICIPAL DISTRICT NO. 497

Notice Re Establishment of Pound

Notice is hereby given that a pound has been provided for by the Domestic Animals Act has been established at the north-east ¼, sec. 2—41—19, w. 4, and P. O. Bill Populated poundkeeper.

J. WEATHERILL, Sec.-Treas.

CORNHILL MUNICIPAL DISTRICT NO. 497

Sale and Redemption of Impounded Animal

Notice is hereby given under section 42 of the Domestic Animals Act, (Horsethiefs) that One Brown Mare, One white face, brand (S.V., not very plain was impounded in the pound kept by Samuel Bechel located on the N.E. ¼ sec. 36—32, w. 4, on the 9th day of June, A.D., 1926, and that said animal was sold on the 21st. day of June 1926, to Mr. L. J. Moon of Tofield, Alta., and that said animal may be redeemed by the owner or his behalf within a period of thirty days from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs due to the municipality, and the purchaser of said animal.

For information apply to the undersigned.

WE STAND BACK OF OUR REPAIRS

VOTE "1" FOR MATHESON

In voting for a candidate an elector should exercise the same care as he would if engaging a manager for his business.

The main question should be "What are his qualifications and his record?" You judge a prospective employee, not on what he promises to do, but what he has done.

The Liberals have a record of sixteen years of office in this Province. This record they do not and cannot defend. The public, however, has not forgotten it.

The Conservatives have no record at all. Their return, as that of the Liberals, would mean a return to the party system and all that it implies.

The U.F.A. ask for your vote on June 28 on their record for the past five years. They offer a continuation of sound business administration for the benefit of the people of Alberta as a whole, and not, as in the party system, for the benefit of party friends.

The only argument Liberals and Conservatives offer is that of promises. The Government's argument is performance.

During the past five years the cost of administration has been reduced 14 per cent., the Civil Service has been transferred from a basis of patronage to a basis of merit, a real highway policy has been put into effect, health and education services have been increased, etc. Efficiency is much greater in every department of government as a result of transference from a basis of party favoritism to one of business administration.

Jas. D. Hannan
Liberal Candidate for Vegreville

June 21st, 1926

Dear Sir or Madam:—

You are aware, of course, that we are now on the eve of a Provincial Election, and as the time is limited, it will be impossible to call on all of you, which I would be glad to do if time would permit.

I have been honored with the Liberal Nomination for the Electoral Divison of Vegreville and I have no hesitation in thus making a direct personal appeal to you, for your kind support and influence during the campaign and on voting day, June 28th.

I have resided in the district for the past sixteen years and I believe I am safe in saying that I have made an honest effort to contribute to community progress in every practicable way. As your friend and neighbor I have consistently endeavored to extend all those courtesies which one expects from those with whom he is in constant personal association.

In my business dealings with you all, I am more than content to leave the matter of my square dealings to your own judgment.

You, by this time, no doubt, know the platform on which I stand, as outlined by Captain J. T. Shaw, the new Provincial Liberal Leader. I am in full accord with these policies and will lend every support to make them effective.

You have full knowledge of my business and farming activities. I believe as your member, I am in a position to give you good service, knowing as I do our mutual problems.

May I have your kind assurance that on June 28th you will give your first choice vote to J. D. Hannan.

Assuring you of my warm personal regard for you all and trusting that you can see your way clear to supporting my candidature.

Yours respectfully,
J. D. HANNAN.

EDMONTON FAIR TO BE BIG EVENT

"The biggest and best fair ever held in Edmonton" is the consensus of opinion of those who are familiar with the arrangements for the Edmonton Exhibition and Historical Pageant.

There have never been such outstanding band line attractions. The famous H. M. Coldstream Guards' Band, universally recognized as one of the greatest musical organizations of the world, will in itself be worth a great deal more the cost of admission. Then there is a grand historical pageant, celebrating the coming of age of the city and province, with a cast of six hundred persons, all working together in a mass of color and a mass of movement on a huge specially constructed stage. This mammoth spectacle will tell the thrilling story of the development of Edmonton and Western Canada.

Other attractions include district exhibits of agricultural and dairy products from a number of electoral districts in northern and central Alberta; some of the finest grand-stand attractions ever seen in the west; the renowned Johny J. Jones' midway showing exceptionally brilliant fire work displays; horse races each afternoon; valuable collection of paintings from the Metropolitan Museum of Art, New York; champion ship cat and dog shows; special classes for canaries and special sweet pea display. All entries for the exhibition will close on June 30th.

CROWN FIRE

There will be a great deal less raw, rowing, heaving and throwing on the Crown fire this year, if there isn't less noise the crews that are will have to make up for those that are quiet—and there are many quiet.

Walter Mahony did something when he decided to make the admission to the show on Saturday night, two crows feet. There were little feet, big feet, yellow legs, black legs, and all kind of legs. Anyway, it was a good load. The crews are becoming a real source and a real asset of the if there billed, totally quite a lot of grass crows. There were 200 feet pre-crowd at the door and it is safe to say that at least some children would be here, once the show if the admission had been money instead of crows feet.

ANNUAL CIRCUIT MEETING

The annual circuit meeting of the Women's Missionary Federation will be held in Camrose during the Centennial, between sessions or during the noon hour.

Watch for a later particular announcement of the time and place." Dr. Bain left for Victoria, B.C., on Monday night to attend the Canadian Medical Convention being held there this week. Leading medical men from the chief centres of Canada and the United States will give post graduate lectures at this convention, and a large number of doctors from throughout the dominion will be present. Dr. Bain expects to return at the end of the week.

Cans, Cans, Cans!

Those who are familiar with "Boots" the famous poem by Rudyard Kipling, will in some measure realise our feelings on a busy day in June. Where the soldier trooper saw boots, boots, boots, we see cans, cns, cans. But there the likeness ceases; for while the boots, boots, boots, drove the soldier trooper to distraction, we thrive on cans, cans, cans—of cream Even when the rush is greatest and we are working our hardest, we desire that every patron shall have a full measure of satisfaction.

Learn a Trade

A striking and highly significant chart has just been issued based on returns made to the Dominion Bureau of Statistics at Ottawa, and one which should convey a sharp lesson to all parents and to thousands of youths and young men.

The chart which is really understood, is in two parts. Part one sets forth the average hourly rate paid staple trades in each of thirteen Canadian cities, while the second part shows the average hourly rate of wages paid labor in building trades in these thirteen cities.

At first part while interesting and instructive, does not carry the same importance when it comes to people as does the second part. It does appear that the average hourly wage is higher in Winnipeg than elsewhere in Canada, with Regina second, Toronto, Calgary and Edmonton third, Saskatoon, Vancouver fourth and sixth, Victoria fifth, Hamilton sixth, Montreal St. John seventh and Halifax and Quebec bringing in the order named. In the five cities first mentioned the average hourly rate of wage is in excess of thirty cents, no building labourer, while in Quebec, the lowest, it is sixty cents.

The second part of the chart shows that the average hourly rate of wages paid building all these thirteen cities somewhat was as follows: Bricklayers, $1.10; plasterers $1.06 carpenters, 92 cents; plumbers, 88 cents; electricians, 88 cents; engineers, 75 cents; painters, 71 cents; labourers, 46 cents. Add together these rates and on the basis of an eight hour day, we get the following average for bricklayers, $8.80; plasterers, $8.48; carpenters, $7.36; plumbers, $7.04; electricians, $7.04; engineers, $6.00; painters, $5.68; labourers $3.68. From these figures for carpenters $6.24, painters, $5.68; labourers $3.52.

In order words the young man whose parents push a sufficiently deep bit to learn a trade, so that he may be entered a craft, or trade, and be admitted to its guild of boys, and men, and individuals mastered a trade commands a wage two and three times as great as the one who has no equipped for life's battle.

Now to this all. He realized workman can usually find employment when the common un-skilled labourer has to spend half his time looking for work and frequently remains broke when he can get it, or any thing like regular work and then. At the present time in several Western cities the building trades are very active, and the statistics for last month show that there are 1,000 more men in such employment. Nevertheless, scores of men were out of employment. Why? Because at the very time who lack training, experience, and a trade were being imported from other countries. Why should the men on a surplus of pick and shovel men for whom no work could be provided.

In modern construction on any large scale, operations are now done with absolute exactness as to mixed by machinery, hoisting is done by machinery, with the result that only a minimum number of labourers are employed. The work is thus done more rapidly and much cheaper, and higher wages can be paid the skilled tradesmen because of the greater and better results of their combined labours alone suffice.

A survey of the work of philanthropic organizations and governments and municipal relief bureaus reveals that it is largely to laborers, and their families that food and clothing relief have to be provided, while the lists of employed men in the Employment Offices is almost entirely those who have no saleable asset or qualification on the labor market that of "labour."

True, the country must have those who will do the rough work and shoot work, the simple but heavy work of carrying and lifting, but the supply of such ways be met out of the ranks of those who lack the mental powers, the necessary application the force of character, to learn and master a trade. Those who do this work are needed, are not in proportion by thousands of annually short, physically fit men whose parents, or the master, fail to provide equipment for battle with life, which to-day is a battle more than ever before. Those who do it seems both for the men himself and his dependents and the country at large. And those who do not, who omit to be master of a trade, are the men who are the first to be laid off, and a menace to the livelihood of their less fortunate fellow men, because of lack of people's purchasing power, are material for any tasks has those of the laborer.

Parents should not, of course, compel their boys to adopt a trade or follow an occupation against their wishes, but they should see to it that their boys are permitted to see that the children are properly equipped for life's struggle, that their equipment should include knowledge of some useful handicraft or trade. No law in this country and in this age should be worth its name if it should tend to make the accident and the hapless factory or mental labor.

Saskatchewan Fish

More Than a Million Pounds Shipped Annually From Northern Part Of Province

Fifty thousands of fish—more than a million pounds—are shipped annually from Big River, in Northern Saskatchewan, to points in the United States. Large quantities of fish are also shipped from that point through the railway system to the south. This is the statement of Mr. Mercier, of Mercier Bros., Big River, who has established a fish packing house, made direct to the Yukon Gold Fields.

Senate Reform

Question Of Its Own Reform to Rouse In Upper Chamber

Senator McGregor, Winnipeg, in the senate asked "Is any does the government propose to call a conference of the provincial premiers to consider senate reform."

"May I be allowed to ask if this house is asleep to be reformed?" in reported Hon. Sir Lomer Gouin.

Senator Lougheed, in reply, said he would bring the question to the attention of the government, and would suggest at the same time that the opinion of the provincial premiers on the reform of the House of Commons might be sought.

Laying New Cable

Across Atlantic

Constantly Increasing Traffic Makes The Work Necessary

Laying of a new trans-Atlantic telegraph cable between New York and London, which will be operated as eight times the speed of any cable now between these points was begun by the Western Union Telegraph Company.

The cable has just ship Colonia, lying off at its island in the world, and is the Rev. Roberts, has continued, ready to begin laying the section between that point and Fayal, one Azores. The work in this section between New York and Newfoundland will be laid after the trans-oceanic portion is completed.

This new cable much necessary for the constantly increasing traffic between the two countries, will transmit 2,500 letters every minute, or approximately 42 a second.

Hor Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes: "I suffered from palpitation of the heart and fainting spells, and at times, I could not be left alone. I was so nervous.

My friends can amaze from overwork and worry, having been left a widow with a family to care for.

I had tried everything without any use, but I know, today, that I would not have a nervous wreck but for your wonderful

Sunday School Lesson

(By Rev. P. B. Fraser, M.A., Editor of the Sunday School Publications of the Presbyterian Church in Canada.)

Lesson VII. The Ministry of John the Baptist. Matt. 3:1-12. Memory verses 1-3. Golden Text, Matt. 3:2. Study Matt. 3:1-17; Mark 1:1-11; Luke 3:1-22; John 1:19-34.

Time—A.D. 26. Place—The wilderness of Judea.

1. In those days came John the Baptist, preaching in the wilderness of Judea,
2. And saying, Repent ye: for the kingdom of heaven is at hand.
3. For this is he that was spoken of by the prophet Esaias, saying, The voice of one crying in the wilderness, Prepare ye the way of the Lord, make his paths straight.
4. And the same John had his raiment of camel's hair, and a leathern girdle about his loins; and his meat was locusts and wild honey.
5. Then went out to him Jerusalem, and all Judea, and all the region round about Jordan,
6. And were baptized of him in Jordan, confessing their sins.
7. But when he saw many of the Pharisees and Sadducees come to his baptism, he said unto them, O generation of vipers, who hath warned you to flee from the wrath to come?
8. Bring forth therefore fruits meet for repentance:
9. And think not to say within yourselves, We have Abraham to our father: for I say unto you, that God is able of these stones to raise up children unto Abraham.
10. And now also the axe is laid unto the root of the trees: every tree therefore which bringeth not forth good fruit is hewn down, and cast into the fire.
11. I indeed baptize you with water unto repentance: but he that cometh after me is mightier than I, whose shoes I am not worthy to bear: he shall baptize you with the Holy Ghost, and with fire:
12. Whose fan is in his hand, and he will thoroughly purge his floor, and gather his wheat into the garner; but the chaff he will burn with unquenchable fire.
13. Then cometh Jesus from Galilee to Jordan unto John, to be baptized of him.
14. But John forbade him, saying, I have need to be baptized of thee, and comest thou to me?
15. And Jesus answering said unto him, Suffer it to be so now: for thus it becometh us to fulfil all righteousness. Then he suffered him.
16. And Jesus, when he was baptized, went up straightway out of the water: and, lo, the heavens were opened unto him, and he saw the Spirit of God descending like a dove, and lighting upon him:
17. And lo a voice from heaven, saying, This is my beloved Son, in whom I am well pleased.

Wilson's Fly Pads

Macmillan Going North Again

Explorer Leads Expedition to Chart Other Polar Areas

The directories of Commander Donald B. MacMillan in the four years in the White North do not include the Pole, but he has studied many subjects which affect the maps of the world.

MacMillan's newest book shows he has discovered Crocker Land. It is located 150 miles west and far to the west of his last camp on the Polar sea. Surveys of previously unexplored areas have brought much additional matter to light while the discovery of Crocker Land has added to the finding of records of the Kane and several explorers, added the new credit to his work. Another book into his hands his extensive contributions in the fields of astronomy, hydrography, meteorology and meteorology.

MacMillan also has done many things which will be remembered by mankind, among which was his aid in completing the Greenland Love words of the Eskimo language.

Commander MacMillan plans an ambitious program which covers the explorer into the northland

Next year, he says, he and the ex plorers are extreme temperatures, heavy snows, drift, blown winds, temperatures of 70 degrees perpendicular ridges, and often the result is starvation. Despite this, although he says: "Through countless men has struggled over and on and out, over No Man's Land, and on the thin ice of lead, seeking knowing ice caps, stopping along unchartered coasts and finally planting his flag upon hitherto unknown tracts, sporting in his song the glory of achievement for the accumulation of knowledge."

Plan Summer Hotel At Spitzbergen

Will Be First Thoroughly Modern Building in Arctic

A Spitzbergen hotel fully equipped to take care of all trans Polar flights and other visitors to the Arctic circle is the enterprise, in chilling a recital supply of fresh vegetables, will be erected shortly near Advent bay, according to Arthur L. Lee, who has returned to London after a visit to the region.

"It will have a capacity for at least two guests and will be ready for occupation by the summer of 1927," Mr. Lee says. "So far we have had no trouble in getting guests. We expect to have many visitors in 1926," he said

COMMUNICATIONS

To the Editor:

Your willingness to insert letters for your subscribers on political matters is pleasing. And I would like to take advantage of your columns to say a few words for the Liberal party. Mr McGillivray told us that the Liberal party was politically dead—but at least its works are alive. From a frontier settlement in 1905 the Liberal party developed Alberta into a prosperous province by 1921. To do this task without some semblance of mistakes would be super human. Only men who are now putting the finger of accusation towards the Liberal party can look back over the past 20 years of their own lives and discover that they scored one hundred per cent on everything they undertook and then only have they cause to complain. Hindsight is a wonderful qualification but the Leaders were unable to use it in leading up Alberta—it had to be foresight. I have no quarrel with the Progressives, Mr. Editor, but at the best they took over a running concern, chipped it round it a bit, and called it five years work. I am not going to ask the people to vote for any one candidate. It is better that they use their own minds, but I would like them to remember that when they are reviling the past Liberal government for this and for that, that it is not so very long since that they were calling upon the Liberal government for these things they are now complaining of.

Thanking you Mr. Editor for the space.

Yours truly,

CONSISTENT.

To The Editor:

I was an interested reader of your paper last week in which appeared letters from some of your subscribers favoring the Progressive cause. Like Mr. Ferguson, it was not my intention to write a letter to a newspaper, and again like him, I am not much of a hand at it, but with election interest so high, I would like to express my opinions. Without claiming that the Conservative party will cure all the ills that the political flesh is heir to, I believe they represent the best type of government for Alberta today. Economically speaking, the Liberal party, while in office, dined not wisely, but too well. They bought things with a lavish abandon—and we have to foot the bill. The Conservative party have always been noted for staple government and though, so far they have not had an opportunity of working for Alberta, I believe they are, both temperamentally and as regards ability, best able to lift the province out of the financial slough it now finds itself in. It has been my conviction for many years, Mr. Editor, that no government can hold office for ever, that it is to the public good that they do not; in this feature, lies one of the advantages of the party system, which in spite of its drawbacks, if the people use it aright, is still the best political system this civilization has.

A. J. H. McCAULEY

TOFIELD ALBERTA

The Election

The election that has just passed was a notable one for Alberta. Since the province was first organized and up till the year 1921, there had always been liberal governments. The U.F.A. political movement in 1921 literally swept them out of power and by the same token swept the U.F.A. in. After five years of U.F.A. government, the time having arrived for another election, both liberals and conservatives did their utmost to get into power. No stone was left unturned by either party to bring the political situation back to pre U.F.A. days. The general results are now known and show that the U.F.A. were deeply imbedded enough to withstand the onslaught from the older parties. Having weathered this election, they will not, win or lose, have exactly the same tension to withstand again.

In the Vegreville constituency, in which Tofield is situated, all indications point to the safe election of A. M. Matheson, sitting U.F.A. member. It was not such a close run as we expected. We really expected the results to be closer. Everything considered, Mr. Hannan did very well, his home vote, and the vote in Vegreville and the other northern towns is something to be congratulated upon. We had acceded Mr. Matheson a good vote because he had the organization to work for him. We expected Mr. Fraser to do better, but his showing is no reflection against him, but simply an indication that this constituency, especially the northern portion of it is still essentially liberal in thought. Mr. Bahry was a late comer and we doubt whether he himself expected election.

There were some exciting incidents on the north line on Saturday. Some men claimed that Mr. Matheson had offered them a position in connection with the liquor board on the payment of $500.00. Mr. Matheson had them arrested for criminal libel and they will be tried at a later date. At Tofield election matters went along smoothly. Tofield town standing pretty solidly behind the local candidate. The results in the evening were eagerly sought but there was no elation or particular evidence of gloom.

As regards the province as a whole, the latest reports show that the U.F.A. will have a good working majority of about 40 members.

The following are the results from some of the local polls:

	Bahry	Fraser	Hannan	Matheson
Tofield	2	39	242	121
Mundare	134	17	242	43
Lavoy		10	5	2
Ketchamont		1	5	42
Amisk Creek			11	1
Ross Creek	4	8	42	39
Chipman	11	27	158	12
North Vegreville	7	52	79	6
South Vegreville	6	151	176	10
Togo	31	11	21	98
Bathgate		6	14	1
Holden	5	65	41	10
Kolomon	2	8	17	5
B. Hill	9	15	46	3
B Lake	3	18	13	1
Ryan	1	14	18	5
Davis	19	5	13	7
Ramfurley	2	43	17	6
Hilliard	9	6	28	3
Swit	4	1	19	24
Gilpin		17	19	6
Bardo			7	3
Beaver Creek	4	5	39	7
Ryley	2	31	25	10
Lavoy	6	61	21	2
Olesko	25	3	6	10
Kingman			15	7
Klew	29	8	29	3
Homdelen	2	4	8	1
Dodds	2	6	9	1

These figures give Mr Matheson a lead of something over 400 over his nearest opponent. There are still a few polls to hear from but it is not expected that they will materially affect the result. There is also the recount to take place but this is not expected to materially change the standing of the candidates.

Hobson's Meat Market

THE BEAVER LAKE CHIEF"

....In the early pioneer days of the Battle Settlement South of Beaver Lake. Alberta, the settlers experienced great difficulty in threshing their crops.

To overcome this difficulty some of the men went to work and built a machine for that purpose. The machine chiefly planned, and built it were John Johnson, P. Haugen and Hugh Mitchell, who did all the blacksmith work. It was entirely a home made product, even the lumber being "whip sawed."

This machine, which became known as the "Beaver Lake Chief" was run by hand power, taking 4—6 men to turn it. It was used during the winters of 1886—

The present model, made by P. Haugen of the Tofield Garage, (a son of one of the original makers) is a correct copy of the original, and it will help to show the resourcefulness and skill of the early settlers.

NEWS OF OUR NEIGHBORS

KETCHAMONT

Mr. Chester Chitnech, of Edmonton, spent a few days with his old time friends, Mr. and Mrs. Hugh Mitchell.

Mrs. Chester Coombes and children, also Margaret Mitchell are having their turn of the measles.

Mrs. G. R. Owen is spending a few weeks holiday at Victoria, B.C.

Mr McMullen's two room addition is nearing completion, which add greatly to the improvement of their home. Mr. Sullivan is head carpenter.

Mrs. John Morton of Ingram district was the guest of Mrs. W. A. Mitchell on Thursday.

The Ketchamont Tennis Club wishes to announce the tennis court is now ready for use at the Henry McGinnis' home. A charge of one dollar for the summer is being made.

Mrs. Leslie Coombes is lending a helping hand at the Chester Coombes home.

Miss Emma Bruhn is assisting her sister, Mrs. Henry McGinnis.

William Ingram spent Saturday and Sunday at the home of his sister, Mrs. T. D. Ferguson of Lakeshore district.

Mr. and Mrs. Ray Flemings and family, Mr. and Mrs. Sam Birrell and family were Sunday evening guests of Mr. and Mrs. Herman Lessmen last Sunday afternoon.

Mrs. Milton Ray and children spent Friday at the home of Mrs. Ray's parents, Mr. and Mrs. W. K. Mitchell.

Mr. and Mrs. Salsbury of Clyde spent over Sunday at the D. H. Mitchell home.

Mr. and Mrs. Maurice McGinnis motored alhome by motor on Thursday evening. Mrs. McGinnis from Fremont, Col. Mr. McGinnis met her at Portland, Oregon. A reception and dinner was held at the Henry McGinnis home on Friday Evening, when a host of their friend welcomed Mr. McGinnis and left many pretty and useful presents. Mrs. McGinnis extended her appreciation in a very nice and kindly manner. A delicious lunch was served and a very pleasant afternoon was spent. In the evening a round gathered at the John McGinnis home.

Christian services were held last Sunday afternoon. Mr. and Mrs. Henry McGinnis christened their little son, Harvey Leonard.

We regret very much to hear of the accident which befel Mr. A. J. Williams last Friday afternoon while breaking sod, a tug broke letting the doubletree swing back, crushing his leg near the ankle. Mr. Williams took him to Camrose where the bones were set and put in plaster cast. We doubt he will be able to work the rest of the time we which is very unfortunate coming at this time of the year.

Mr. Drake, our mail carrier, also met with an accident on Wednesday while on his route. One wheel came off the mail wagon. We did not hear of any other damage, but we understand he was not hurt.

Mr. Persson and little son and mother, Mr. Roy Carter, of West Linn, Utah, are visiting at the C. Peterson home for a few days.

Ingram home. They were called on Friday by the death of the latter's father which took place near Camrose. Mr. Carter is a brother in law of Mr. A. J. Lessman.

LINDBERGH

Mrs. Dyndon Hooper is at present in the Lloydminster Hospital, Edmonton, suffering from a bad attack of rheumatic fever. Word sent out of danger at present is rather serious. For last week reports have been very satisfactory and we are able to say she is getting on nicely. Mr. and Mrs. W. Hooper both visited her last week.

Mrs. Todd and Mrs. Margaret Todd returned from Edmonton this week.

BARDO

Mr. and Mrs. V. L. Roth and youngster children will start on a trip to Nebraska on Tuesday. They expect to go in their car and take plenty of time on the road to enjoy camping out and viewing the country.

June 30th being Leonard Stauffer's sixth birthday, his mother entertained a party of his cousins in his honor. The guests were: Edna, Lorinda, Edith, Stanley and Lorne Yeder, Melville, Martha, Grace, Jean, and George Roth. Norma and Paul Brenneman, Glen and Pearl Hershberger, Ruby, Paul and Ruth Vongtieln and John Lerbekma.

The thirty-sixth quarterly Sunday school meeting of Salem Church was held on Sunday. Moderator Noah Detwiler; Chorister, Melvin Roth; Devotional, J. E. Huber. J. B. Stauffer spoke on "What the Resurrection means to us." Comparison of the Bible accounts and the theory of evolution regarding the creation of things, by Erma Stutzman, essayist, and Ezra Stauffer, speaker. The subject, "The beginning and the result of sin" was dealt with by N. E. Roth, and the children's exercises were conducted by Miss Stutzman. Lessons and Songs of Abraham, Jacob and Joseph, were taken by Gladys, Huber and Barbara Loeber as essayists and Harvey Brenneman as speaker. Mrs. Lucinda Yoder gave a talk on leaning and reaping.

The Norse celebration which is to be held in Camrose, beginning July 3rd and continuing nine four days will be largely attended by Bardo Norwegians. On Sunday, the choir from Bardo, Spring Valley and Bardo, met in Camrose to practice singing to-gether, in gathering up relics of the early settlers in the district to exhibit.

Mr. Jacobson is breaking prairie for Mrs. Oberson at Amisk Creek.

AMISK CREEK

The voting last Monday was held in the school house. The votes were 19 for Matheson and 11 for J. B. Hannan. The other two candidates received a very small number.

Nearly everybody around here are planning on going to Camrose next Saturday for the great centennial celebration.

Mrs. H. Larson and baby from Viking are visiting with her sister and brother-in-law, Miss J. and Miss E. Larson in Skosh.

Mrs. L. Anderson spent several days in Edmonton last week returning home Sunday morning.

Mrs. R. Carter, who came from Ireto attend his fathers funeral in Camrose visited at Mrs. Mullen's the end of last week. Mr. Carter is Mrs. Mullen's brother.

Mr. and Mrs. J. Jessing from Ryley visited at E. A. Moores home last Sunday.

Mr. and Mrs. R. O. Berg motored to Edmonton last Monday.

The Misses Clara and Magda and Mr. Amund motored to Camrose last Monday, returning in the evening.

Mr. Larson and daughter, Miss L. and Mr. E. Larson visited at the P. Peterson home last Sunday evening.

Mrs. M Penrose who has been the guest of Mrs. M. Swain for the last two weeks left on a visit to the coast last week.

Mr. and Mrs. W. Sowers and Mrs. Bell's family of Edmonton South, motored from there to visit Frank Sowers last week. Mr. Sowers left a couple of days later, but Mrs. Bell's family was able to stay long enough to make the return journey OK.

The grasses are in full swing here at the school and both pupils and teachers are very enthusiastic over the results so far as can be judged as yet.

Mrs. Helen Todd is home for the summer vacation.

Mr. H Todd, Mrs. L. Lott and baby, Mr. Johnson and Mr. Schieber of Fort Saskatchewan, were visitors to Tofield over the week end.

TRADE MARK YOUR MEAT

Oatmeal was just plain oatmeal until some bright mind produced a superior grade in an attractive package, gave it a name and sold it for a higher price.

Apply this sound selling policy to your business by using Appleford Meat Wraps. They "trade mark" your meat, protect its flavour and advertise your name and selling message.

Write to-day for full information and prices

WEEKLY NEWS BULLETIN

Issued by Provincial Department of Agriculture, Edmonton, Alberta

...

An attractive prize list has been prepared, in an effort to stimulate the ... boys and girls ... Alberta. Edmonton ... Exhibition ... Lethbridge Celebrates

The Lethbridge ... celebrating a birthday ... on July 1st, in connection with ... fair, to celebrate the 15th ... anniversary of the city and the 21st anniversary of the province.

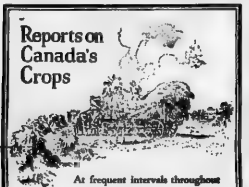
Thousands of tourists are expected to visit the province next month and to attend the Calgary Stampede from July 8th to 10th and the Edmonton Exhibition July 12 to 17. In Calgary the annual stampede and exhibition will be staged, while at Edmonton a large historical pageant, celebrating the 21st anniversary of the province, will be produced under expert direction. At both places, the Caledonian Guards Band, a famous British organization, will be an attraction.

Provincial Exhibits

Nothing unique in the way of educational work is being undertaken this year at the Calgary Exhibition and Stampede and Edmonton Exhibition by the Provincial Department of Agriculture.

This is a special automatic exhibit ... dairy ... livestock due to ... special to boating and ... exhibit, but provincial depart... working on the exhibit, in co... with the university, with ... livestock and others inter...

Reports on Canada's Crops



At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

as good as he usually is.

With the exception of the fact that he was labouring under the handicap of a very bad cold, the candidates speech was the best of the evening. While Capt. Bowen's speech was inclined to be draggy, and Mr. Campbell's chatty, J. B. Hunter's just exactly the right swing. The very bad cold alone, prevented it from being a very good political address.

J. McCallum spoke at some length after which the meeting adjourned with the singing of the National Anthem.

BASEBALL

Chipman came over on our lot on Monday night and played a game of baseball with the local crew. There is not such a wonderful lot to write about it, the boys from the north ... having the class. Lawson pitched for Tofield and held them down pretty well, but the pitcher for the Chipman team was touched up pretty freely. Frank Beal started the running by getting a homer and from then on the fun was fast and furious for the home crowd. Chipman changed their pitcher but it was an off night for them. We left the address about the finish of the game there standing as Kelchmont at 3 p.m. and at Tofield at 8 p.m.

UNITED CHURCH OF TOFIELD

11:00 a.m. The United Sunday School at Tofield

2:00 p.m. Sunday School at Ketchemont.

8:00 p.m. Evening service at Tofield.

The sacrament of the Lord's Supper will be dispensed at the close of the evening service.

A large attendance of the members and friends of the United Church is expected. All cordially invited.

All members and friends of the United Church are reminded that the quarterly communion service will take place on Sunday next, July 4th at Kelchmont at 3 p.m. and at Tofield at 8 p.m.

Sweeping Reductions in Ford Prices

Coincident with the reduction in the price of Ford cars and trucks in the United States, the Ford Motor Company of Canada Limited announces the following prices, effective June 19. In addition to these drastic reductions, all models quoted below, except the truck, are now at present equipped with self-starter and balloon tires:

Model	New Price	Savings
RUNABOUT	$480	$50
TOURING CAR	$480	50
SPORT ROADSTER	555	40
COUPE	610	50
TUDOR	625	60
FORDOR	690	55
CHASSIS	370	40
LIGHT DELIVERY	470	60
LIGHT DELIVERY VAN	525	50
TRUCK, NON-STARTER	395	50
TRUCK, SELF STARTER	430	65

(Above prices at factory. Freight to point of delivery and sales tax extra)

These reductions are made absolutely without sacrifice to the traditional quality and durability of Ford products. They open the way to car ownership to thousands of Canadians who have not previously been afforded the comfort and economy of personal transportation.

See your local authorized Ford dealer today. He will gladly demonstrate the model you are interested in and explain convenient terms of purchase.

PRODUCTS OF TRADITIONAL QUALITY

ANNUAL MEETING OF THE BEAVER LAKE LIVESTOCK MARKETING ASSOCIATION.

Despite the almost tropical heat and counter attractions of road work, summer fallowing and brushing, there was a very fair attendance of farmers at the first annual meeting of the erstwhile Tofield Livestock Association, which, in deference to its outlying districts, has been re-christened the Beaver Lake Livestock Marketing Association Ltd., though it seems strange that if farmers from Ryley and Holden districts deem it worth while to attend, those near at hand do not turn up in better numbers.

At the morning meeting the secretary's report was read and approved, as was the balance sheet, which showed that this organization has done about $100,000.00 business since March 17th last, Mr. Johnston Ferguson having shipped eleven cars of cattle and five cars of hogs.

The business of changing the name of the Association was then gone into, with the above mentioned result. Then came the election of officers. It was decided that it was not advisable to elect a whole new board, but that three should retire this year, two in 1927, two in 1928, three in 1929 and so on and similar numbers be elected in the 3 stead. The retiring members this year were Messrs. J. B. Warner, C. Baptist and F. Ray, to whom the thanks of the association are due for their services during the past year. The board now comprises Messrs. A. L. Shultz, W. Abernathy, J. Gluzie, J. Ingram, Mr. Peterson, W. Broad and W. Ingram.

At the afternoon session Mr. McMillan, one of the directors of the Livestock Pool, spoke briefly on the aims and objects of the livestock pool which is working in closest harmony with the United Livestock Growers and handling 53 per cent of all the stock on the Edmonton yards. The whole business appears to be progressing to the satisfaction of all members as when the meeting was thrown open to questions, the only ones that cropped up were on some minor details of operation and Mr. McMillan's answers seemed to satisfy his questioners. Mr. Van Slyke of the Dairy Pool who happened to be present was asked to address the meeting and he crowded a tremendous amount of information into a very brief time. The dairy pool's object at present is to cut down overhead charges by eliminating unnecessary creameries, thus ensuring a larger volume of cream to fewer creameries. That it has already achieved considerable measure of success is proven by the fact that cream is worth four cents a pound more in Alberta where the pool is in operation than it is in Manitoba and Saskatchewan where it is not yet operating. After replying to the inevitable questions as to grade and test and explaining that anyone not satisfied with same was free to the creamery and demand to see the whole operation and, if not satisfied then, can apply to the Dairy Commissioner at Edmonton' the meeting adjourned.

A drive for an increased membership for this association will be begun as soon as the election is over, and meetings will be held at various places, which all those engaged in stock raising, whether pool members or not, will benefit themselves by attending.

CHAUTAUQUA MEETING

A joint meeting of the chautauqua committees for 1926—1927 was held in the office of the Cornhill Municipality on Saturday evening, June 26th.

All accounts for the local expenses of the recent chautauqua were presented and ordered paid in full.

Mr. Watt then introduce dthe matter of organizing a permanent Chautauqua association in Tofield and district. He pointed out the fact that chautauqua was only possible in a district of this size by the hearty co-operation of the whole community. We are convinced that it is a whole-some influence for, while giving us splendid entertainment, we are receiving through many of the lectures instruction, the value of which cannot be estimated in dollars and cents.

The object of forming a permanent association was to give everyone an opportunity to join who would, by the payment of $1.00, co-operate in this district in making the 1927 chautauqua a real success.

There, too, during the winter months by our association cooperating with a similar organization in Edmonton or Calgary, we could avail ourselves of more entertainments by bringing to Tofield some of the high class artistes who visit our larger cities during the winter season. An association of from 500 would afford a capacity house in our only hall.

It was decided to organize as an association and an effort will be put forth immediately by each member of the committee to secure nine others thus making a total membership of 500. If this plan is carried to a successful issue the Tofield chautauqua will be placed on a permanent basis and the financial responsibility on the individual will be nothing.

The sale of our allotment of tickets will be carried out not by canvassing, which means expense of time and gasoline (sometimes Pep), but our members will be asked to purchase their season tickets at a box office to be opened two weeks before the opening day of the chautauqua. A letter of information with program enclosed will be sent to each member at least two weeks in advance so that by full, fast co-operation may be assured. The officers for the 1927 chautauqua pro-vue ation are chairman, J. W. Chapman, secretary, J. Weatherill.

TOFIELD'S ANNUAL SPORTS DAY

Tofield's Annual Sports Day will be here again on July 29th. Last year we had the best sports day in the history of the town and it is the aim of the committee in charge to make the 29th bigger and better than ever. There will be four high class ball teams to compete for the $200.00 cash prize. Horse races, both running and trotting, mule races, mule races, basket ball, junior baseball and midway attractions. The automobile parade which proved quite an attraction last year will be improved and enlarged this year by larger prizes. A bicycle parade will be put on for the boys which will be an added feature. Come early and spend the day, it will be well worth your while.

LOCAL AND PERSONAL

Dr. C. G. Bain spent several days at Victoria last week, attending the medical convention there.

Mrs. Wallis accompanied by some friends spent Monday in Tofield.

On Friday of last the Tofield basket ballers played Lamont at the local basketball court and defeated the visitors by a score of 11—7. The game was very rough and close throughout. The Lamont players had the greater part of the play but they failed to find the basket. The Tofield players played the same team on last year in Lamont when they lost by a large score. The result of this game indicates that the Tofield players have improved from last year.

Mr. McLaughlin and family and Miss E. Ross motored to Edmonton on Saturday last.

Several people from Tofield spent Sunday at Hastings Lake and Cooking Lake.

Mr. and Mrs. Laurie Scott spent the week end at Tofield.

Mr. E. Hicks motored to Edmonton on Saturday last.

Hildreth and Harmon Lewis and Gerald Hooker motored to Edgerton, Tofield some of the high class artistes who visit our larger cities during the winter season. An association of from 500 would afford a capacity house in our only hall.

It was decided to organize as an association and an effort will be put forth immediately by each member of the committee to secure nine others thus making a total membership of 500. If this plan is carried to a successful issue the Tofield chautauqua will be placed on a permanent basis and the financial responsibility on the individual will be nothing.

Mr. Gleave was taken to Edmonton hospital for an emasculation last week returning home on Tuesday. Charlie is having quite a long siege. We hope that he may have an early recovery.

Mr. and Mrs. Belcuss and family left on Tuesday for an extended motor tour, travelling down the western coast.

Mr. Law, brother of Dr. Law will have charge of the drug store while Mr. Beirnes is away.

W. Lynn of the local bank staff returned from his holidays last week.

Geo. Moon is spending a vacation at Banff, Alberta.

Miss Noland of the bank staff is away on her summer vacation.

Mr. and Mrs. Hobson motored to Edmonton on Tuesday.

Gordon Ferguson, formerly of Tofield, but now of Edmonton, motored to Tofield on Sunday.

A baseball game is billed for Friday night at at 6:30 p.m. on the local diamond, between the curling club and the Tofield nine. Usual admission.

On Thursday last, a birthday tea was held at the home of Mrs. T. Herron in honor of her birthday. There were quite a number of her friends present and an enjoyable afternoon was spent. Mrs. Herndon was the recipient of many gifts.

U.F.W.A. NOTES

The attendance at the last meeting was not up to the average, owing no doubt to the exceptionally hot day.

Mr. G. Abernethy came and gave us a few words on the transferable ballot, which lost its complexity after his lucid explanation.

Mrs. J. W. Warner's paper on canning of vegetables and meat followed and gave us still some very helpful hints in canning, also some short cuts. The paper was ably seconded by Mrs. W. Parker on canning of meats. Now we do not need to rely on Swift or Burns for our summer dainties. Our next meeting will be on July 10th at 3 p.m., the roll call to be answered by a humorous story and a paper will be given on cheerfulness, "Banishing the Blues."

FIFTH FORTNIGHTLY CROP REPORT

Issued by Department of Agriculture, Government of Alberta, Edmonton.

..... June 30th, 1926

Since last report, great improvement has been brought about in the crop conditions in the southern districts by rain which in most of the districts is quite heavy, and more general over the entire south in varying degree. Though these rains came somewhat too late to bring about a complete recovery of the crop which had already suffered from high winds and lack of moisture, the large percentage of grain acreage in the south has given promise of a good average crop. There is unseen germination and a considerable area due to the activities of the cut worms and to dry conditions, but the situation on the whole, in the southern districts, is much more promising than a fortnight ago, with the summer fallow and late sown grain looking very well.

Throughout central and northern parts the crop outlook is very satisfactory. There has been sufficient moisture at all times and although the weather has been somewhat cool the crop is a splendid color and well advanced for this time of the year.

Speaking generally, the wheat crop is coming into the shot blade, with the early grain in southern districts heading out. The prospects are for an early harvest.

Prospects in the dairying industry are expected to be better than last year, with promise of increased production.

Alfalfa cutting is in progress in the south, with a good crop being taken off.

EAST LYNN NEXT WEEK

Tofield theatre goers and film fans are going to have a treat presented to them on Tuesday and Wednesday of next week. The famous production "East Lynne" will be shown. This picture needs little introduction anywhere, both the book and the stage play being universally known where ever the English language is spoken. In the filming of the picture, care was taken that none of the beautiful sentiment expressed, none of the moral lessons taught and none of the beauty of the story should be lost. Tuesday and Wednesday of next week.

IRISH LUCK

The picture billed for Saturday at the Variety Theatre has been shown at Tofield previously. It was on May 24th and due to lack of advertising and counter attractions there were only a few children present to see it. The picture had real merit, as not having a good wholesome story, but in addition the scenery was extraordinary good. This picture will please you. At the Variety on Saturday.

Little Julia McClurg who has been very ill in an Edmonton hospital is so far recovered as to be able to return home.

Mr. and Mrs. Ford were Bruce and Holden visitors on Sunday.

Cans, Cans, Cans!

Those who are familiar with "Boots" the famous poem by Rudyard Kipling, will in some measure realize our feelings on a busy day in June. Where the soldier trooper saw boots, boots, boots, we see cans, cans, cans. But there the likeness ceases; for while the boots, boots, boots, drove the soldier trooper to distraction, we thrive on cans, cans, cans—of cream Even when the rush is greatest and we are working our hardest, we desire that every patron shall have a full measure of satisfaction.

Direct Action!

Politicians, professional and amateur are now telling us what a grand and glorious country we live in. Alberta they say, has the natural resources of an empire They vociferously call for these resources to be developed and all are ready with promises to assist in developing them. It is all very praiseworthy, but we prefer "direct action." If the next time you need gasoline, you insist on getting PEP GASOLENE, you are following a policy of "direct action" in developing our natural resources.

Irish Luck

This is the story of a New York tenille cop and what befell him while on a trip to Ireland. There is a charming story woven around two charming personalities. You will see this picture with its well laid plot, homely morals and above all, for its gorgeous photographic scenery. This picture had a shorting here on May 24th to a few children and we are bringing it back solely on its merits.

Saturday, 3 and 10.

"EAST LYNN"

It is a long time since we had the privilege of showing a picture with a name such as the like of East Lynn. For several decades this story has thrilled, gripped, sobbed and heartened millions of readers. To film it was a major undertaking, as while there are pictures filmed on a larger scale, there has never been one filmed that had to stand up under the public's critical eye as this one. You have seen the play, read the story, come and see the picture on Tuesday or Wednesday of next

Battery Work

The life of your car battery will be materially lengthened if it has periodic inspections by an experienced battery man. A little attention at the right time will prevent extensive repairs or even replacement later on. We are well experienced in battery work and can adjust, repair or rebuild any make of battery. We are agent for the WILLARD BATTERY and carry a stock of new ones on our shelves.

Your Sheep Deserve Attention

As time goes on, progressive farmers are placing a higher valuation on the way city sheep they raise and the care they are giving them. It is generally realized that a sheep owner secures two crops per year—the lamb and the wool. All indications point to a well sustained price for lamb and mutton due to the fact that consumption has at last overtaken production and prices being paid for wool, skins and lambs are, every year, moved higher.

Compared with other live stock lines, raising provides a profitable source of cash income. Cash lambs can be made ready for market by June and when the wool is harvested and sold in June and July, there income is received at a season when provided by the average farmer. There are many instances where flocks have been built up entirely out of debt by the returns from approximately 48 lambs which were saved from a average flock of 60 ewes for a total of 80 to 97. The wool clipped from the 80 ewes averaged a little over seven pounds per head and brought about $200.00 for a total of almost $600.00 from the flock of only 80 ewes.

Such a harvest, however, is not now like without attention by the owner. He must lay the foundation by raising a flock ram and must care for his ewes in the breed of them he is raising.

While there are more than 1,375,000 sheep in the country in Canada, only approximately 20,000 are pure-bred sheep, or approximately 1 in 70. The pure-bred sheep serve as inspiration to the rural districts of sheep, which is a tremendous advantage for commercial flocks. It is quite apparent that only an effort is necessary to build a permanently profitable business in sheep raising.

A close study of breeds most suitable to existing conditions and most favored as regards feeding and care, always carries with it a large added return. Watch this space each week for further good attention.

STAR CARS

MORE POWER and SUPERIOR QUALITY

Our Trade Mark Means Just What It Says. "Low-cost Transportation" because the Star Car—either Four or Six—offers the lowest average costs per mile of any car of equal price. "More Power" means more power per pound of car than any competing car. "Superior Quality" means best material, best workmanship, and highest grade of coachwork obtainable in cars of the same price range.

M. C. Hammond

Local Agent Star Cars

ANOTHER WONDERFUL DISCOVERY

Up to now, the average farmer has recognized that a farmer, to live on the farm cannot have city comforts. The city dweller derives one of his greatest convenience from the use of electricity. Farm electrical plants have been on the market for years, but they have not become general because, firstly of their high cost, and secondly of the high cost of battery upkeep.

This has now been overcome, and the DELCO LIGHT CO. have invented A NEW MARVEL, a plant without batteries, which, when you turn on a light, the plant starts, and when you turn the last light of at night, the engine stops, and it sells for $385.00 with one year's time, without interest. A demonstrator may be seen at TOFIELD GARAGE, where Mr. P. M. Haugen will be pleased to demonstrate it and answer all your questions. Watch this space all through July and we will tell you more.

Picnic Days

Can be made all the more delightful by the inclusion of tasty, yet appetite satisfying lunches. Sandwiches made of any one of our selection of hot weather delicacies are satisfying, yet dainty enough for the holiday mood prevailing at a picnic. Cooked Ham, Veal Loaf, Jellied Tongue, Bologna, and others, make delicious sandwiches. Sliced on our slicer, they are economical too.

Hobson's Meat Market

Local and Personal

The Misses Clara Abbott, Marion Forman, Audrey and Helen Jobb are attending Summer school in Edmonton.

Mr. and Mrs. A. H. Arbiger and children motored to Lavoy on Sunday and spent the day visiting relatives.

Marjorie and Jean Stuart of Lacombe are visiting at the McCauley home this week.

The Misses Minnie Wood and Ardis Wood are spending their holiday at Calgary and Banff.

Miss Lucille Gray returned from Calgary on Tuesday evening where she has been the past four months studying beauty culture. It is understood that she will open a beauty parlor in Tofield.

Miss Weber of Edmonton is acting as chief operator during the absence of Miss Wood.

Miss Myrtle Bethel is visiting her sister, Alma, in Calgary.

Mrs. P. D. McIntosh #10 has been visiting her son in Tofield returned on Thursday to her home at Biggar, Sask.

Mr. and Mrs. J. Whyte and children visited friends at Cooking Lake on Sunday.

Mr. and Mrs. G. Braaten and Mrs. Burnett visited Camrose on Monday.

Mrs. H. A. Reece, who has been visiting the past few months with her parents at Biggar, returned on Sunday last to her home in Oakland, Cal.

Miss Elsie Kendall will leave on Saturday, taking the Triangle tour to Alaska.

W. Swift, who has been teaching at Prevost, is marking the Department of Examination Papers in Edmonton.

Mrs. H. Kendall and daughter visited Camrose on Monday.

Ted Parish left on Saturday for a two months camping trip to Algonquin, Ont.

Mr. and Mrs. Geo Horn returned on Sunday after spending their honeymoon at Banff.

Mrs. Forman and Mrs. Jobb spent the week end in Edmonton.

Mr. and Mrs. A. B. Chatterham, Eva, Blake, and Thelma Jobb motored to Edmonton on Sunday. Eva remained to visit with her friend, Mrs. Fuller for a few days.

W. Bellamy visited Vilna on Wednesday.

Mr. F. Jackson of the A.G.T. was in town on Wednesday night.

The United Church services will be held at Tofield and Ketchamoot as usual on Sunday.

Mr. and Mrs. Bruce and Jimmie, left on Summerside, P.E.I., on Thursday of last week. They will return in about two months.

Mrs. Pincott and two children left this week for New York.

Mr. and Mrs. Russell are occupying the Bruce house during the absence of Mr. and Mrs. Bruce.

Miss Thelma Noland is spending the remainder of her holidays at the home of Mrs. Speedie of Mayton.

Miss Jessie Knesten of Fort Saskatoon is the guest of her cousin, Mrs. Johnstone Ferguson has purchased the residence owned and occupied by D. E. Ball.

Born.—To Mr. and Mrs. E. Gascon, on July 1st, a daughter.

The fire caused by lightning on Tuesday night was more serious than at first thought. In Father Turner's barn, Mrs. Letourneau had a considerable quantity of household goods stored. The financial loss was considerable, but what was greater was the loss of articles which had more than a monetary value to the owner. Mr. Abbott was just able to get his car out in time. It is a positive conviction that some years ago the garge on the same lot was burned and in it was J. W. Carter's car which was also destroyed.

Change of Business

I have sold my entire business and good will to James Carver Jr. and J. D. Hannan of Tofield, both Mr. Carver and Mr. Hannan are well and favorably known locally, the new firm will carry on business under the firm name of CARVER & HANNAN. Mr. Hanby, who has been with me for over two years, will continue in the office for the new firm. You are assured of the very best service, a square deal and courteous treatment. Carver and Hannan will bring in the best auction ever they can obtain in town with them until they have gained sufficient experience. As you know, Mr. Hannan has a very good knowledge of values on livestock and farm equipment, his judgement gained through years of experience in dealing in livestock together with a little training in the auctioneer, who they are bringing in, will without doubt, make him a real auctioneer. On the other hand, Mr. Carver is an experienced salesman with a pleasing personality and in my opinion will develop into a real auctioneer in a very short time. I wish to take this opportunity of thanking you for your patronage during the eight years I have been doing business among you, my relations with you, both in a social and business way have been nothing less than a pleasure and I assure you that it is with regret that I am severing this connection. On behalf of the firm of Carver and Hannan, I is my wish that you continue doing your business at the same old stand. Again thanking you,

I am,

Sincerely Yours,

D. E. BALL.

BIG DAY AT TOFIELD JULY 19

At time of writing everything points to a banner day on July 19th. Vegreville, Viking, Byley, Tofield will compete for the $300.00 cash baseball prize. Any of these four towns capable of playing a good brand of ball and you are practically assured of your money's worth from baseball alone. The horse races are a feature also bawls again this year and you can look forward to seeing another main race between Bob Hall, Jack Nicholls, Hannan, Bennett and Ball steering their long eared friends around the track.

The auto parade in the morning will be a high class affair and basketball and athletic events will be on a par with last year.

The following committees were appointed to take charge of the different events:

Baseball: Bissett and Calvert.
Horse Races: Hammond, Jacobs and Morton.
Foot Races: Russell and Harold.
Auto Parade—Hammond, Hannan and Hay.
Dancers: Rogers and Ford.
President: A. B. Chatterham.
Sec.-Treas.: G. A. Agnew.

UNITED SUNDAY SCHOOL PICNIC

With ideal picnic weather to ensure its success, the 1926 Sunday School picnic was one of the best held in years. While the day was rough for all and their elders were desirous of seeking a cool spot and of exerting the least amount of energy possible, the youngsters had a great time.

There were races aplenty and all those present had a good time, as usual, every one won a prize of some kind.

In the report of the chautauqua meeting that we published last week we omitted to mention that a vote of thanks was tendered the Cornhill and Mayton people for the use of the lumber for seats, etc. We also should have mentioned that the idea of forming a chautauqua association was planned so that the fifty odd guarantors would take ten association membership tickets each, which, when sold would mean five hundred members. There will be ten weeks to sell them in. Tickets will be sent out to the guarantors this week by Mr. Wambler, who will also give any further information required.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

The warm weather and showers the past two weeks have made growing conditions ideal. The grain and gardens are just shooting up and there is every indication of a bumper crop in this district.

Sheets and Ketchamoot ball teams played ball on the Ketchamoot diamond during the week end. A very even game 13—14 in favor of Ketchamoot.

Ralph Barnes took the train for Calgary on Saturday where he will visit for a time at the home of his uncle and aunt, Mr. and Mrs. McBeth and also take in the Calgary exhibition.

Mr. and Mrs. O. Nelson and family of Round Hill were guests of Mrs. Hayes at the Shultz home last Sunday evening.

Mrs. Fennen and little son, Mr. Sedgwick returned to their home in Lacombe on Monday after a few days visit at the C. A. Ingram home.

Miss Rendy of Calgary returned to her home in Calgary after a months visit with her sister, Mrs. Miller.

Ketchamoot Ladies played ball at Caster on the 1st of July.

Miss Nora Comiere of Edmonton is visiting at the new bobbey at the Chas Williams home.

Miss Mabel Lawson returned home on Thursday evening after closing a successful term of school near Holden.

Voting was held at the school house last Monday, Mr. Wm. Lee was deputy returning officer, Mr. W. Mitchell, poll clerk and Mr. J. McDavitt, scrutineer. The result was 41 votes for Matheson and 5 for Hannan.

A regular monthly meeting of the W.A.S. will be held next Wednesday, July 14th at the home of Mrs. W. A. Mitchell. A cordial invitation is extended to all.

The last of the exams were finished on Wednesday, much to the delight of the youngsters. Their teacher, Mr. Clifford Lee proved very satisfactory and they are looking forward to his return in the fall.

Miss Marjorie Lee closed a successful term of school at Woodlawn on Wednesday.

Mr. and Mrs. G. R. Owen has bought property at Shawinigan Lake, B.C., about 40 miles from Victoria, where they expect to reside indefinitely. Mr. Owen expect to return soon to settle up business. Their son Earl, taking over the home place.

Jim Johnson is sporting a new Ford coupe.

Ketchamoot's annual picnic on Dominion day was by far the best ever. After a rainy day the day before the morning dawned clear and bright, soon drying off the grass making an ideal picnic day. Not having opposition close, a very large crowd was present. The ladies were kept busy feeding the multitude and the stands did a rushing business. The first item on the program was a ball game between Tofield Trail Rangers and Ketchamoot junior teams, score 8—16 in favor of Burds. After dinner the Tofield Rangers and Ketchamoot ladies took the diamond, scores 19—8 in favor of the ladies. A soft ball game was then played between Burds and Ketchamoot Ladies. Burds carried off the honor, or rather forty supper, score 8—5. While not a very swift game, it was a change and fun for the spectators. Ketchamoot and Burds senior teams took their turns the afternoon 5—1 in favor of Burds. Races were then run, we were unable to get the names of the winners. Supper was served and a game of ball between Ketchamoot and Tofield finished up the sports, with the home team carrying off the purse. At least $125 was raised to swell the church funds. We wish to thank one and all who kindly helped to make the day a success, especially the non-members who donated towards the dinner and supper.

To grade IV.—Helen Schultz; Eugene Catfish.

BEVERE THUNDER STORM TWO BARNS BURNED IN TOWN

Following an exceptionally hot day, clouds began to bank up around six o'clock on Tuesday evening. Gradually forming, it was not until eight o'clock that it began to rain, then not so very hard. By 8:30 two or three separate storms had converged above Tofield and the thunder and lightning was most intense. In a particularly vicious flash and terrific crash over the barn on the rear of the home occupied by Father Carrier, was struck by lightning and fired. It burst into flames almost immediately so while the flash was observed from the town hall and the fire bell rang immediately, the barn that was hit and the adjoining one belonging to Mr. Abbot, were burned to the ground. While there was considerable wind, there was not the violent wind that generally accompanies or precedes such storms. To this fact can be attributed the fact that the house was not much greater. At one time it looked as if Mr. McCauley's barn would ignite, but it did not, enjoying a few weak bolshes of lightning struck where it did, and not up on the house or in the business section.

BUSINESS CHANGE

Announcement has been made this week of the taking over by J. Carver, Jr., and J. D. Hannan of the business formerly conducted by D. E. Ball. The new proprietors are well enough known to this district as to need ... introduction from us. We can, and do, however, wish them success in their new venture.

D. E. Ball has been in business here for about eight years. At first it was a partnership undertaking with E. Kellal as the partner. A few years ago Mr. Kellal dropped out and after adding several more lines, among which were the grain buying business and the agency for the Overland, he purchased the lot an doubling of the O.K. cartage, where the office is at present.

Mr. Ball's ventures at Tofield were a success from the word go. His strong fort was his auctioneering line, and it was on this foundation that his other activities were laid. He has made many friends since coming here who will be sorry to hear of his selling out.

Mr. Ball will not leave Tofield immediately, and at the present has not decided upon any particular location.

KINGMAN

Mr. and Mrs. Thos Grahn and family were visitors at Hay Lake on the first of July.

A quiet surprise party was held at the home of Mr. and Mrs Gust Bard on Wednesday evening in the honor of Mrs. Edna Olson, who is quitting teaching.

Mrs. Ed. Tollefson and children were Camrose visitors for a couple of days last week.

Mr. Andrew Johnson and daughter Inga, are Kingman visitors for a few days.

Mrs. Ed Olson of Stanmore, is spending a month with her sister Mrs. E. Erickson.

Born.—To Mr. and Mrs. P. Bodensky, twin boys. Congratulations.

Mr. Jacob Boness returned on Wednesday night from a two months stay with her daughter, Mrs. Bruce at Innisfree

Mr. and Mrs Olaf Boness and family were Kingman visitors last week.

To grade V.—Charles Sears; Turval Nesseland; Margaret Mitchell (tardy).

To grade VI Harold Coomber; Harold Schultz; Alvin Schultz (grade V attainment).

To grade VIII Stanley Sears.

—Clifford E. Lee

Capsules That Combat Disease

Important Discovery Made By Pro fessor of Pasteur Institute

A sensational discovery, which it is claimed may possibly revolutionize medical science, is made public by M Bazerolle the associate of Professor Marchoux of the Pasteur Institute in Paris.

It is declared that by enhancing an animal's resistance a cure, the walls of the stomach are immediately was attacked It is believed that this new line of thinking will open a way to yield to much more efficient cure in cases.

Among other illness which it is believed may be combated by means of the new capsules are plenty, neumonia, anemia and pneurisy.

The fundamental idea of the treatment is that there should be a rises for each particular series of the body which would be afflicted by the consumption of a disease

M Bazerolle makes the wall-creep stomach susceptible to the cure by having of the substance

Dedicate Window In Westminster Abbey

In Memory of British War Personnel Who Died In Germany

A beautiful window in the north side of the central chapel of Westminster Abbey which was donated by James W Gerard, former United States ambassador to Berlin in memory of British personnel of war who died in Germany was dedicated in London. The ceremony was performed by H Wyndham Beattie son of Mrs Wilson Beattie of was represented by Alanson B Houghton the American ambassador to London, and many other American war personnel.

Hadn't His Shirt

Because he didn't happen to have a boiled shirt ready, the professor of chemistry who was elected president of Poland's naked to have his laundry, the newspapers protested. That's an appropriate attire for the head of a really democratic government. It reminds one of Thomas Jefferson's riding to a levee and getting to be the host president of the United States before Parliament in Dress Herald

Many districts in Asia are periodically overflowed. In places it is a handful of earth is taken up and a thousand a stream of oil may be forced from it.

It's all right to make some things go so far as possible, but it isn't polite to do with the truth.

Northern Route For Cattle

Mayor of Saskatoon is a Strong Supporters of the N. R. R.

Mayor Russell Wilson, of Saskatoon, is a strong advocate not the early completion of the Hudson Bay Railway to a recent interview with the local newspaper he is reported said

"As mayor of Saskatoon it is my policy to go especially to the other members of the city council, the board of trade the press and all other citizens to assist in the further possible date such railway construction as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage While I cannot of course take definite action that mileage would be, an opposite to Nelson is 175 miles. From there the Pas is 95 miles and from that Nelson is 424 miles by a total of 677 miles from Saskatoon to Hudson Bay Junction by the shortest possible mileage.

Light On The Subject

THE KOHLER ELECTRIC PLANT

FOREWORD

There are few rural dwellers, who have not, at some time or another, inquired, read about or in some way become interested in an electric light plant. Many have in the manner that we presume matters many things in life not commenced for immediate purchase, resolved that in the future, they would purchase a lighting plant and enjoy all the conveniences that [illegible] of this number, [illegible] reached the stage [illegible] ably able to purchase, [illegible] others are of the [illegible] Low is they [illegible] are also, but [illegible] modest as to [illegible] This little [illegible] [illegible] them to some [illegible]

GET WHAT YOU PAY FOR

[illegible] the Tofield store and [illegible] back for $1.50 you can [illegible] get another one twice as good for [illegible] gold rings. This [illegible] [illegible] the most [illegible] [illegible] [illegible] as much as [illegible] shoes, most [illegible] [illegible] [illegible] which is [illegible] [illegible] labor and [illegible] [illegible] by the manufacturer [illegible] production and [illegible] To refer when you [illegible] result of a electric light plant [illegible] a certain figure, you can be [illegible] sure that one cooling twice [illegible] as good and one cost [illegible] half as good. All [illegible] get what you [illegible]

EQUIPMENT OF THE [illegible] ELECTRIC PLANT

[illegible] comply as possible, [illegible] and prior [illegible] are the most light and [illegible] power [illegible] best amount of money, [illegible] factor. In our case, plant [illegible] power, and in many cases plus profit [illegible] money. Thus on the whole, [illegible] heritage plant manufacturers [illegible] endeavored to provide [illegible] [illegible] and one method, some have [illegible] other and others have tried [illegible] all had they have been [illegible] [illegible] and outer other [illegible] [illegible] [illegible] rapid adoption in [illegible] [illegible] the creative instinct of mankind [illegible] [illegible] electric light and [illegible] [illegible] [illegible] Long lines from [illegible] [illegible] are obvious, one impractical because of too few customers to [illegible] line. The internal combustion engine and the storage battery [illegible] [illegible] problem. At [illegible] [illegible] [illegible]

Tiffany Bread Wraps Create a Sensation

There's quite a stir in the baking industry over the new Tiffany Bread Wrap.

The secret of it is the fancy lace pattern in the wax paper that keeps bakers higher quality—and the fact that the lace design hides folds or creases in the wax, keeping the loaf fresh looking.

The beauty of this wrapper makes an instant appeal to the housewife.

Each wrapper is an effective selling force wherever the bread is displayed.

Hindus Worship Midnight Sun

Pilgrimages Will Be Made To Norway Every Year

In the polar lands many of the old myths are still current. In North Cape, Norway, where the midnight sun can be seen, the Hindus have built a temple to the Hindu god Vishnu. Every year in a particular month a small party of high caste orthodox Hindus arrive at Hammerfest. The Hindu priest, who has made the journey, goes through the ceremonies of worship at the temple. Then the party returns to India.

Fly-Flit-Flop!

FLIES breed in filth, feed on filth and bring filth into your home.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It nourishes out the cracks and crevices where they hide and breed, and continues its deadly work long after you leave your garments. Flit kills moths and their larvae which eat clothes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. In the laboratory and practice it has proved the all methods become it kills all the insects—and does it quickly, in a fine mist and sweet vapour vanish.

Big Norse Celebration at Camrose

"Velkommen, Nordmen, let us bid [illegible] which be ing interpreted Welcome Norseman, let us get acquainted

[illegible] ings, which appear every [illegible] ore the street, in the shops and [illegible] of Camrose in re[illegible] ness the keynote of this de[illegible]ous gathering of Norsemen in Can[illegible]ada.

Under the brilliant morning [illegible] the Norseman from the surrounding [illegible] of the American continent gathered [illegible] on Saturday, Sunday and Monday, and everywhere the musical accents which were the first cultured sounds heard by the ancient Britains on [illegible] of teh Viking ships ground-ed on British beaches, tell of the mingl[illegible]ings between men of the Norse race who have carried the old Viking spirit into this new world.

I cannot say one seems to be transported to some bustling Norwegian city, to proud Oslo, perhaps, tall and clean facing the blue waves which a thousand years ago were cut by the keels of Leif Erikssons high prowed Viking ships as he set sail for Canada, first white man. If the ancient story be true, he now theme shores

To say that Camrose was enfete, scarcely expresses it There was more than mere pavketing, here is the soul f an old people, blossoming and exp[illegible]panding again in the free air of Ca[illegible]nada — most heritages for a free people whose daring set bounds to the seven seas and whose blood to-day is responsible for much of the spirit of the wanderlust that has built up the British empire round the circle of the globe.

Flags, lights, bunting and festal arches all bear witness that the Norsemen of Canada were out to make the gathering as gay in appearance as it is earnest in spirit—a combination of terms which requires but the rousing melodies of this race of musicians to stir an enthusiasm that shall sweep beyond all bounds.

The program opened on Saturday at 10.30 with an address of welcome to Bygdelag by F. A. Nerdrip, chairman of the celebration committee. What is a "Bygdelag" put to the terms of, say, the "U.F.A.?" A Bygdelag represents a local of Norseman. There is the Camrose Bygdelag, the Tofield Bygdelag, the Bawlf Bygdelag. Bygdelags from every where in Canada ad the United States where there are sufficient Norsemen to form a local.

WORLD HAPPENINGS BRIEFLY TOLD

The military committee of the peace conference is expected not to proceed until August.

Thirty-one deaths and damage estimated at $1,000,000 are attributed to the recent storms and floods in Germany.

Sir Otto Lindley Wakefield, former German ambassador to the United States and director general of the Krupp Works, died July 5.

The Swedish Government, growing tired of having so many drownings every year, has started a drastic campaign to force everyone to learn to swim.

Joseph Cournoyer, 77, veteran of the Riel Rebellion in 1885, at one time in charge of the Parc Mont, and also remembered with the Indian department at Prince Albert, is dead at Ste Rose Du Lac.

Benson marshals of Italy, in addition to the king and Premier Mussolini, have peculiar to be present at the elaborate ceremony when the formal then of the Victory Monument is held at Bolzano Italy.

Airlines from Lima say enormous damage has been caused in a large section of Upper Amazonia by floods caused by rainfall. The disparities say there has been a loss of life but no figure are given.

The administration of the Hudson Bay Railway has notified the Provincial state of the willingness of his cabinet to enter negotiations concerning the disposition of the property to the province by the Dominion government.

The Toronto Daily News published correspondence stating that Lord Beaverbrook is retaining directorships in Imperial Premier H. L. Mackenzie King will be brought up for discussion by one of the Dominion members at the imperial conference in October.

The Liberal Party nationwide in Denmark and sank off Block Island by the steamer City of Rome last night by striking on submerged rock. The vessel was towed to the Brooklyn navy yard for submarine which had 27 aboard, were in West Greek, and was raised after a week of unsuccessful attempts. It is believed the oil still contains the bodies of 25 sailors.

Equal Political Rights

British Women Under 30 to Fight For Franchise

Britain women are about to open a vigorous fight to do away with present suffrage laws which exclude them from the right to vote until they are 30 years old.

Many prominent men have agreed to join a great mass meeting staged by Lady Astor's suffrage in the interest of equal political rights. Among these are Lord Balfour, Lord Cecil and Frederick Lawrence, M.P.

George Bernard Shaw, the noted playwright, however, has declined to participate.

Under the present suffrage laws in England about 5,000,000 women above the age of 21, but below the age of 30, by the Canadian National Railways are unable to vote while qualified men above the age of 21 have the ballot. All the old time suffrage leaders and thousands of other prominent women protest this discrimination.

Fail To Scale High Peak

Mountain Climbers Experience Hard ships in British Columbia

Repulsed by British Columbia's 11,000-foot "mystery mountain" after a 32-hour struggle for victory across bare glaciers and high cone-fields, the Alberta mountain climbers who left the mount range, an Alpine Club report of their ascent of Mount Robson, highest peak on the homeward trip, arrived here on Wednesday of the party when it turned on Vancouver. They spent 8... weeks in the mountains.

Twelve members of the party reached the summit of Mount Robson, 12,972 feet above sea level, on July 2, the first ascent of that peak since 1913.

Prince Rupert's Mayor Welcomes Party

Mayor Hall of Prince Rupert welcomed the party on its arrival here. Mayor Hall said that Prince Rupert was the gateway to the Canadian Rockies and that the mountains around Prince Rupert were as beautiful as those in the Rockies.

Mount Robson is the highest peak in the Canadian Rockies. It is situated in Mount Robson Provincial Park, which is 1,000 square miles in area. The park was established in 1913 and is visited annually by hundreds of tourists.

Light On The Subject

THE KOHLER ELECTRIC PLANT

FOREWORD

There are few rural dwellers, who have not, at one time or another, inspected, read about or in some way become interested in an electric light plant. Many have in the manner that we previous ourselves many things of life not convenient for immediate purchase, resolved that in the future, they would purchase a lighting plant and enjoy all the conveniences that electricity gives. Of this number, we have already reached the stage where they are financially able to purchase a plant, while others are still looking forward to the time when they will be able to have one also; but practically all are in some doubt as to the best plant to buy. This little [illegible] will perhaps throw some light on the subject.

WHAT GES WHAT YOU PAY FOR

If [illegible] Tofield store and [illegible] for $150 you may be sure [illegible] as good for [illegible] at another Tofield store. This [illegible] which is perhaps, the most common commercial commodity, applies to private electric light plants, as much as [illegible] shoes, no for [illegible] of which commodity which is manufactured by skilled labor and [illegible] a knowledge by the manufacturer of the cost of production and distribution. [illegible] for when you [illegible] private electric light plant [illegible] engine, you can be sure [illegible] big sure that one costing twice [illegible] is twice as good and one costing half as much, half as good. Also [illegible] a dollar bill you get what you pay for.

THE DEVELOPMENT OF THE PRIVATE ELECTRIC PLANT

[illegible] is simply as [illegible] the history of an electric light and power plant, desires the most light and power for the least amount of money; [illegible] freedom from care, plus convenience, and in many cases plus pride of ownership. This on the whole, is what lighting plant manufacturers have endeavored to provide. Some [illegible] method, more have [illegible] others have so following [illegible] have been [illegible] in [illegible] and outstanding [illegible] customers come forward [illegible] than anticipating the [illegible] hands of the buyer, [illegible] system of electric light by [illegible] rapid adoption in city [illegible] municipal institut [illegible] of some [illegible] provide electric light and power for the farms. Long lines from main service stations was impractible because of too few customers to the mile of line. The internal combustion engine and the storage battery partially solved the problem. At first there was nothing but an automobile gasoline engine connected to a dynamo by a belt. To start the engine it was necessary to crank and it was necessary to be on hand to [illegible] when the batteries were sufficiently charged. Then came a period when the engine and dynamo were [illegible] either for appearance, convenience or space. This was followed by [illegible] of automatic devices, such as [illegible] gear cases, automatic [illegible] and the batteries [illegible] made use of. These are a great convenience (saving [illegible] labor) when used with a [illegible] crude gas engine, did not quite fill the bill. They were expensive, heavy and needed considerable care. There was always the danger of overcharge and over discharge, either of which was liable to inflict irreparable damage to it. These [illegible] reduced the life of the plant, was exceptionally short, four or five years. If the battery had proved [illegible] hundred per cent efficient, if you could put electricity in it in any quantity and take it out in any quantity without damage or wear or loss of light and power the private electric light plant problem would have been solved, but several years of battery [illegible] failed to bring out the perfect [illegible]

GAS ENGINES DEVELOPED ALMOST TO PERFECTION

During this time the gas engine had [illegible] improved and just before the war [illegible] the "last word in [illegible] plant. This was a plant of small capacity, automatic in principle. When the current turned on a light the dynamo started the engine and in a few seconds [illegible] current and gave light. This was a one cylinder [illegible] cycle engine of good quality. The writer personally started and stopped one which had been in storage in Edmonton for years. These did not roll well, as [illegible] Western Canada. Lighting plant [illegible], advanced up to the [illegible] battery plant, and known [illegible] combine of the temperamental [illegible] of [illegible] early gas engines, were produced against [illegible] engine running all the time." Many imagined that the fuel costs were too high. However, the battery-less idea remained with many engineers, while others sought the perfect plant through the battery.

APPEARS AT TOFIELD

Around 1919 a "battery-less" plant was brought to Tofield. The plant had a two cycle engine (rapid explosions), single cylinder, and was automatic in type, that is, by turning on a light the engine started and by turning the light out the engine stopped. The dealer sold it for what he gave for it and it went farther afield. Nevertheless, the idea was sound.

As the years passed the gasoline engine, too, like the automotive industry became more perfect and it is now a quiet, more smooth running multiple cylinder engines were made. It only remained for a few visionary and a basic principle of manufacturing quality products to adapt the perfection of the multiple cylinder automobile engine to private lighting plant needs. This was done by the Kohler Co., of Wisconsin and from the first was a success. The automatic devices have been improved and are now practically perfect.

THE KOHLER COMPANY

The Kohler Co. was founded in 1873 and had years of manufacturing experience behind them when they commenced to manufacture Automatic Lighting Plants. Their products have always been known for their excellence, while their factory methods are of a very advanced type. A number of years ago they moved their factory to the country and now have a very beautiful village, in which the workers own their own homes. For single men there is ideal accommodation. Everything is planned so that there may be maximum comfort for the worker, with a corresponding production of high quality products.

THE PLANT

There are several models of the Kohler Automatic Electric plant. There are models for one or two and one, but for general farm use their 2,500 watt size is generally recommended. This model is composed of a four cylinder, three horse power engine; radiator cooled, each cylinder being entirely surrounded by water. Four cylinders in an engine of his rating ensures low fuel consumption, easy and quiet running and long life. The engine specifications are very similar to those in a high priced car. Ignition is by high tension magneto and their is a vacuum tank on the plant which draws fuel from the main supply tank holding 50 or more gallons of gasoline. The generator is made at the Kohler factory and is a [illegible] well made one, four pole, commercial wound. The control box or switch board is patented. There are thousands of this model in use and her give splendid satisfaction.

There is an air cooled model, 700 watt, two cylinder engine Kohler [illegible]. This plant will give good service but for general farm use we strongly recommend the 1500 watt size. By buying a plant of this size, you have taken care of your electrical requirements for several years to come; 700 watts allow little room for additional lighting or accessories which are bound to be needed sooner or later.

OUR CONNECTION

It is not our intention [illegible] agent for this, that and the other thing. At different times we have been approached with a view to accepting agencies for [illegible] cars, furniture, machinery, etc., but we have always been of the opinion our course lay in the direction of a better paper and a better advertising medium for those who do handle home lines. We were, however, the first to advertise automobile, battery-less electric light plants in Tofield.

We have always had an underlying [illegible] of interest in private electric light plants. Actually we were birthed into the business. After equipping he office for the use of electricity, and within a month after placing an expensive machine on our floor, we awoke one morning to find the current gone. Since that time we have studied lighting plants from the buy-[illegible] point of view, and while all plants have their peculiar advantages, we believe the Kohler, all things considered, as being the most suitable to place in a good farm home, where light and power would be used in the house, barn and outbuildings. We wrote and asked permission to sell The Kohler Plant and this was given us. It is the plant we expect to sell, satisfy one, and because of this, offer it to you. The 1500 watt plant sells at $750 at Tofield, cash with order.

The Tofield Mercury

Here and There

Transcendently rapid development of forest and water power resources of the Province of Quebec is indicated in the issuance of sewerage totalling $8,000,000 from these sources for the current year. Last year the same resources produced a revenue of nearly $4,500,000.

Sixty men from the training camps in Brandon and Clarpies, England, have been secured by the Canadian Government and sailed on the "Empress of France" at the end of June. They proceeded to Winnipeg after landing at Quebec and will be placed on specially selected farms.

Saskatchewan exported last year 97.4 per cent. of its total production of creamery butter, according to a statement made by the Provincial Dairy Commissioner. The increase in production in 1925 over that of 1920 had amounted to 1265 per cent., the output last year totalling 34,864,000 pounds.

Close on one hundred pilgrims from St. Paul and Minneapolis passed through Montreal recently en route to Europe in connection with the Overseas Educational Tours that have grown increasingly popular of late years. Many of these colleagues had their in a caravan tank on the plant which drawn fuel from the main supply tank holding 50 or more gallons of gasoline. The generator is made at the Kohler factory and is a fairly well made one, four pole, commercial wound. The control box or switch board is patented. There are thousands of this model in use and her give splendid satisfaction.

There is an air cooled model, 700 watt, two cylinder engine Kohler [illegible]. This plant will give good service but for general farm use we strongly recommend the 1500 watt size. By buying a plant of this size, you have taken care of your electrical requirements for several years to come; 700 watts allow little room for additional lighting or accessories which are bound to be needed sooner or later.

OUR CONNECTION

The 1500 watt plant sells at $750 at Tofield, cash with order.

Time Summertime

A total of 176 homesteads were taken up in Alberta in June, according to the registrations at the Dominion Land Office, Edmonton.

Hunting Party Coming

Alberta is to be visited this fall by a distinguished hunting party arranged by Captain Curtis, one of the editors of The Field and Stream, of New York. The party will spend 45 days hunting big game in the provinces.

West Here Irrigation

Petitions for extension of irrigation in Southern Alberta are being made up by farmers near Bardaisa, Grassey Lake and Purple Springs.

LARGE CROWDS ATTENDING EDMONTON FAIR

Great crowds surging through the gates of the exhibition grounds and an unbroken stream of autos pouring through the motor entrances were reported from the exhibition grounds at noon Wednesday as the holiday crowd for extreme day began its assault on the greatest summer fair in Edmonton's history.

The largest crowd that ever attended an Edmonton exhibition seems a certainty for today. Exhibition authorities are in a jubilant mood following the outstanding success of Tuesday's pageant and look for crowded stands, bleachers, and pit for this afternoon's and evening's programme.

Reserve officials have requested to be called to the gates soon after noon in an attempt to handle the crowd more speedily and satisfactorily.

No Wonder Canadians are Handsome

Canadian men and women are their good looks and energy, as well as assisting in the country's development in many other ways, says Fee Chang Fann, of Shanghai, alias Paul C. Fann, of Montreal, who believes that environment is the chief factor in the evolution of the human species. On the whole, this young Chinese philosopher thinks, Canadians considered individually, are much better than the Chinese because of their association with more beautiful surroundings.

"This is a very old theory," said Mr. Fann to a press interviewer, "and a very well-founded one." He pointed out the fact that the inhabitants of the rural districts around China were as ugly people, while the natives of the Province of Kiangsu, the most fertile and beautiful of Chinese provinces, could be recognized anywhere for their great beauty.

"Take your country itself, and the rest will take care of itself."—that is Mr. Fann's recipe for the good looks. Canadians, he says, have carried out this theory unconsciously with the result that their country is the most beautiful one in the world, many of the men and women of which are of beautiful appearance. The Canadian Pacific Railway with which Mr. Fann has been associated for the past two and a half years, has played a great part in beautifying Canada by its railroad and steamship lines, which have contributed to their country

RED ROSE
"is good COFFEE"

Canada's Year Of Jubilee

The Dominion of Canada has entered upon its diamond jubilee year and on July first next all Canadians will celebrate in a fitting manner the sixtieth anniversary of Confederation.

It will be one time indeed and in every way appropriate if in the months to come every home, either in the wide outer air of Canada or under the shelter of its own roof, should be the scene of discussion and consideration of the past progress and present prosperity and future, and of the general welfare of the Dominion and its people from the rich resources in the possession of each of its members and the people from each province to the Dominion, the administration and enhancement of law, in a word, the development of Canada from the status of a dependent Colony to a self-governing nation within the Empire and with full autonomous among the nations in the League of Nations.

This jubilee year presents a golden opportunity for the presentation of each of the above and many other subjects of interest to every Canadian, and for the discussion of each and all of them in a manner calculated to arouse the attention of the people, in their perspective and proper relation, but also to interest in a most effective way.

The visit of the Governor of Alberta and Mrs Hutchenson are this year celebrated the finely realized" of age as synonymous, opulence, and advantage is being taken at this occasion to depict in various ways the growth and development which has marked the past two decades.

In a special way the events are being given mind by Souris in regards in connection with our summer exhibition there. But this should please not only be made, but should be made throughout the length and breadth of the Dominion, to present at every exhibition as well as through means of films, parades and pageants during the year of 1927 as contrasted with the Canada of 1867.

Canadians, it is true, are not much given to this sort of thing. We are a reserved people and have to display our sentiments and emotions. We have not even to be thus taught. The utterly all can unite in making the diamond jubilee year of Confederation an exposition. We have therefore to suggest that some of exhibits be shown in new lands and under other flags, who have chosen Canada as the land of their adoption. This jubilee year should be an utilitarian as an educational one in which outside a good measure and attractiveness to benefit the exhibits and attends a real pride in Canada, to enhance them with a love for her Canadian citizenship, every true service and meaning of the name.

If for one solid week the people in this Dominion thought, talk and presented Canada, the remarkable effect in its arousing and developing all of social and material ability would be remarkable. It would operate to break down needless barriers of race and creed, would blow out purely sectional ideas, would broaden a national and should love, and every activity in spirit to consolidate the lands

Canada is worthy of the very best that her people can give to it. Let us unite, therefore, in acting in Canada and many of and model and by only, consider and should act accordingly in a sense of pride in Canada, a spirit of service in endeavoring to better it, a richer understanding of her needs and a desire to some of ours uniting effort to solve some problems and meet some needs.

Some impressions of the fossils were limited at varying and have not appeared at depths, the natural oil being about 1,500 feet down.

Invited To Palace

Spanish Workmen Did Not Recognize King Who Gave Him Life

How a murderer came to be called to the palace to receive the congratulations of the King and Queen of Spain.

Probably recently just outside Madrid the king's car came to a standstill with a minor adjustment had to be made by the chauffeur. At that moment a tired looking workman, who was making his way to the same direction, came up and offered his services. The king accepted and in a few minutes Madrid was left with a smile, and has to thank him, and the car continued on its journey. Some days later in the streets of Madrid. There the king was met with the same workman, who had been in thank him for another act "royal." He said: "Have you forgotten that you owe your life to me?"

USUAL ADMISSION

The Mid-Summer "breathing spell" is a good time to look around and size up your lumber requirements for fall. It will soon be buying and you will be going ding dong then until harvest is over. It may be a machine shed, stable, granary—or even a new house. In any event you will find us ready to meet your requirements. Our prices, too, are fair to you, and we invite comparison on a cash and carry basis. The quality is of good too. We are always pleased to give suggestions garnered from years of experience in the lumber business to our customers.

A Stitch In Time

There is an old rhyme, even now occasionally heard, that says: "A stitch in time saves nine." It was written long before the days of automobiles, yet is particularly applicable to them. If your car is not running just as smoothly as it should, bring it in before the trouble gets too bad. An adjustment here or a small new part there, attended to at small cost, will sometimes save many a dollar later on.

STAR CARS
MORE POWER and SUPERIOR QUALITY

Our Trade Mark Means Just What It Says. "Low-cost Transportation" because the Star Car—either Four or Six—offers the lowest average costs per mile of any car of equal price. "More Power" means more power per pound of car than any competing car. "Superior Quality" means best material, best workmanship, and highest grade of coachwork obtainable in cars of the same price range.

A Money Saving Friend. The Automatic Delco

Naturally the next question will be "What does it cost to run and keep the plant in order?" Well, anyone who has a lighting plant will tell you that the mechanical repair item is very small. Once installed, in most cases the plant should be looked over, and at that time you may require some repair part that may cost you a dollar or two, but remember that the Automatic engine is less likely to require repair . . it is much improved from the old type that used to require attention more than once or twice each year. All that is necessary is to fill each cylinder with oil and oil and fuel at these times. It is far less trouble to look after than your yearly coal oil bill. In the place of the old coal oil can will carry your wife, your hired man and your self many times. For the place and Mr. P. M. Bannon of Tofield Garage.

(To be concluded next week)

Picnic Days

Can be made all the more delightful by the inclusion of tasty, yet appetite satisfying lunches. Sandwiches made of any one of our selection of hot weather delicacies are satisfying, yet dainty enough for the holiday mood prevailing at a picnic. Cooked Ham, Veal Loaf, Jellied Tongue, Bologna, and others, make delicious sandwiches. Sliced on our slicer, they are economical too.

Hobson's Meat Market

Last Call For Sports Day

This is the "last call" to the Tofield sports that the Mercury can make. If the weatherman will send some showers several days previous to the sports day and give us warm sunshine and soft breezes for that day, everything will be lovely. The committees in charge have done their best to make the day a top notcher. Baseball will be the leading feature, but it will not occupy the whole stage. Horse races, foot races, mule races, will all have their place in the sun, while a midway with a distinct local touch will be provided. There will be a picture show in the evening and the whole thing will be topped off with a grand dance.

Local and Personal

Mr. and Mrs. Galloway and family returned Tuesday after a week's visit with friends at Ketchemoot, Peace.

Dr. and Mrs. McClaire returned to Edmonton on Friday, returning in the evening bringing their daughter, Jean, back with them. Miss Hood of Edmonton is nursing Jean until she regains her health.

Mrs. Hutton of Fort Saskatchewan, visited her daughter, Mrs. McDonough, last week.

Mrs. S. H. Hall, of Edmonton is a guest at the E. Rogers home

Mr. and Mrs. Eaton visited Elk Island Park last Sunday.

Mr. J. Reed of Saskatoon visited his cousin, Mrs. A. J. H. McCauley on Wednesday.

Mr. Geo. McLaughlin and W. Clark of Edmonton left today (Tuesday) by motor for the coast.

Mr. G. W. S. Henderson, Montreal, is visiting his brother, T. E. Henderson.

Miss Lovett Rees spent the week end with her parents at St. Albert

The Misses Thelma Jobb and Eva Batterham are visiting friends in Edmonton.

Willie Lewis is visiting his brother Dr. Allen and Bertram at Edgerton.

Mr. and Mrs. H. Lovell and baby left on motor for Elkmont and Vidal Lake for a brief holiday.

Mr. and Mrs. W. W. Withers and son Reg. of Lacombe, spent the week end at the A. A. Webber home.

Mr. and Mrs. C. Hobson and son and Mr. and Mr. George Hewett left on Monday, morning for Grand Prairie and Spirit River, Dawson and all points north and west.

Mr. J. A. Young of Calgary was a week end guest of the Bob Bennett's.

Mrs. Weber returned to her home in Edmonton on Thursday after spending a week in Tofield during Miss Wood's absence.

Mr. Star Holgate of Winnipeg is a guest at the home of Mr. and Mrs. C. H. Jones.

Dr. and Mrs. Bass motored to Lacombe on Sunday.

Glenn Wood is in Edmonton undergoing an operation on his nose.

The Misses Audrey and Helen Jobb, who are attending summer school in Edmonton, spent the week end at home.

Mr. and Mrs. Joe Constantine are on a three weeks' vacation.

Mr. and Mrs. McDonough motored to visit friends at Ketchemoot on Sunday.

Mrs. B. Simpson of Vegreville, visited Sisters Emma Smith and Mrs. Carter, Dr. Simpson on Monday night.

Some of the golf, who are of the C. G. I. T. Camp at Elk Island Park this week are Gerte Blake, Bertie Bennett, Pat Bennett, Jean Kellner, Florence Kendall, Helen McCauley, Emily and Katie McAllister, Olive Parish, Annie Swift, Irene Wood, and Winnie Worton. Miss L. Clement of Edmonton and Mrs. Simon [illegible] are in charge of the camp.

There are groups of girls from Lamont, Fort Saskatchewan and Nanno also at Elk Island. Quite a number of Tofield people visited the camp on Sunday

Mr. and Mrs. Arnold and son visited at the Herman Lawson home last Sunday.

Mrs. Henderson and son Jasen, Mr. and Mrs. B. Wildman and daughter were guests of Mr. and Mrs. Frank Shupe last Sunday.

Mr. and Mrs. Fred Hansen and daughter came on Saturday from Camrose for a visit at the Dave Mitchell home. Mrs. Hansen and Mrs. Mitchell are sisters.

Mrs. W. A. Mitchell entertained the M.A.E. at her home on Wednesday afternoon, eight members and six visitors were present. Visitors were, Mrs. John Morton, Mrs. Oliver Letourneau, Mrs. John Bowen, Mrs. Stamp, and Misses Lillian Carlisle and Mildred Ingram.

ANOTHER "REMARKABLE RIDE"
THIS TIME A BUICK
July 20th, 1926

Dear Editor:

My wife being a native of this area, always reads all the Tofield papers she can find. She called my attention to the "remarkable ride" in your issue of June 10th. Relative to how some boys who drove from Milfort, Ont., to here, a distance of 1000 miles in five days and two nights, a test none other but a Ford would stand. I disagree with you about the "test," My wife and two boys and myself left Ellensburg, Washington, Thursday noon on the 15th, and arrived here at my father-in-law's farm, Wm. Rowland, one mile west of Tofield, at 10 p.m. Saturday night, a distance of 1270 miles. We did no night driving. We came via Spokane, Sand Point, Ida., Bonners Ferry to Kingcrate and to Cranbrook through the Crowsnest Pass to McLeod. From Kingcrate to McLeod is a very bad and dangerous road and you must drive slowly. We used 52 gallons of gasoline, an average of a little more than 18 miles to the gallon. I changed oil before we started and used just one quart of oil on the way. I drive a 1926 Buick Standard six. I wonder if the Ford owner that distance on one quart of oil.

I certainly am enjoying myself here. I think you have a wonderful country. You may put me down for a subscription to the Mercury. I'll be here to the hotel "service."

Good luck to Tofield.

HARRY HACHETT,
Ellensburg, Wash.

BEE XPRES

Everyone who possibly can should see the picture "Xpres" which is to be shown at the Variety on Monday and Tuesday nights of next week. It is really the greatest of all war land pictures and vividly portrays "life" over there. You may not have another opportunity of seeing this picture, so do not miss the chance while it is being shown here.

Carver and Hanssan are painting and renovating the interior of their office.

There will be no United Church services at Ketchemoot or Tofield next Sunday, but Sunday school will be held in both places.

Rev. Watt is spending a few days at Alberta Beach.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

Mr. and Mrs. Archie Brown of Bawlf and Mr. and Mrs. Leslie Coumbe were guests of Mr. and Mrs. A. McMullen last Sunday.

Mrs. J. H. Ingram and two daughters and Mr. G. W. Sears visited at the T. D. Ferguson home last Sunday. Gertrude and Kathleen remaining to spend the two with their sister, Mrs. T. D. Ferguson.

Mr. and Mrs. Maurice McGinnitie, Mr. and Mrs. Henry McGinnitie, Mr. and Mrs. John Brown motored to Edmonton Tuesday to attend the exhibition.

Mr. and Mrs. Arnold and son visited at the Herman Lawson home last Sunday.

Mrs. Henderson and son Jasen, Mr. and Mrs. B. Wildman and daughter were guests of Mr. and Mrs. Frank Shupe last Sunday.

Mr. and Mrs. Fred Hansen and daughter came on Saturday from Camrose for a visit at the Dave Mitchell home. Mrs. Hansen and Mrs. Mitchell are sisters.

Mr. and Mrs. Geo. Lawson, Herman Lawson and C. A. Ingram took in the Edmonton exhibition on Wednesday.

Master Jimmy Ingram and Charlie Sears are spending a few days of their vacation with their sister and cousin, Mrs. T. D. Ferguson.

Mrs. W. A. Mitchell entertained the M.A.E. at her home on Wednesday afternoon, eight members and six visitors were present. Visitors were, Mrs. John Morton, Mrs. Oliver Letourneau, Mrs. John Bowen, Mrs. Stamp, and Misses Lillian Carlisle and Mildred Ingram.

KINGMAN

In a very hotly contested game of baseball, Kingman defeated Dissent on Sunday by the score of 9—8. The game was a very good one very few errors being made. Dissent scored six runs in the first inning, but after that Hartzchen pitched a fine game, Dissent being unable to score again until the sixth inning. Ray Bell for Kingman made two deadly catches in the field. The Dissent fielders also made some good catches. Hartzchen won his own game by smashing out a hot single in the ninth inning scoring Sam Cinnamon, who had singled before him. The teams lined up as follows:

Kingman—Carl Larson, 1st base; Geo. Welch, 2nd base; Ray Roth, left field; Sam Cinnamon, short stop; Wal ter Hartzchen, pitcher; John Erickson, 3rd base; Percy Owens, center field; Morgan Swanson, catcher; Stanley Lindberg, right field.

Dissent—O. Rowland, short stop; D. Widman, 2nd base; G. Rowland, catcher; Geo. Rasmussen, 3rd base; Karl Owens, 1st base; A. Mitchell, centerfield; Ned Rei, pitcher; C. Mc Fee, right field; E. Rowland, left field.

Mr. and Mrs. Dan Sermestead are visiting at Mr. and Mrs. Melvins for a few days.

Mr. and Mrs. Erick Erickson, Mrs. Ed Olson and son were Bawlf visitors on Sunday.

Mr. Vernor Olafson of Bawlf is visiting with his friend, John Erickson for a few days.

Palmer Benson and John Erickson were Tofield visitors on Saturday evening.

Mr. and Mrs. Thor Horte were the guests of Mr. and Mrs. Kortzmon at Torlon on Sunday.

Mr. J. L. Ford has returned from his holiday and is now back at his job again.

A number of Kingmanites visit ed the Edmonton exhibition last week.

Mr. and Mrs. Thor Grebo and family were visitors in Edmonton on Thursday.

Mr. and Mrs. C. B. Stryker were visitors in Edmonton on Thursday.

Mr. and Mrs. C. B. Stryker were visitors at Wetaskiwin over the week end visiting native there.

The dance which was held in Kingman on Friday was a fair success, a large number of people attending.

TOWN COUNCIL

The Tofield Town Council held their regular fortnightly meeting at the Mercland in a very hot and dangerous room on Monday evening of this week.

With the exception of the passing of a few accounts the business consisted of preparing the bylaw regarding the weekly Half holiday.

The bylaw was prepared and is published on another page in this issue. It will also be published for two more consecutive issues. If then after a period of thirty days following the last insertion, there are no objections to the bylaw, the council will proceed to pass same. This will make it make full for any goods to be sold from the stores in Tofield after one p.m. on Wednesday during the months of June, July and August.

Owing to the time which must elapse before the early closing can be made the bylaw will be few, if any, half holidays this season. There will be a closer path, however, for the weekly half holiday to function next summer.

NOTICE

Pursuant to the authority vested in me by By Law No. 211 of the Town of Tofield, I hereby proclaim and declare a civic holiday on WEDNESDAY, the 28th day of July 1926.

All places of business will be required to remain closed throughout the day.

A. J. H. McCAULEY,
Mayor.

MERCURY OFFICE BRIGHTENED

The Mercury office has been brightened during the past week by the colorful beauty of flowers. Mrs. Ed. Bennett brought in a splendid bouquet of Sweet Williams and Mrs. J. W. Cook a beautiful bouquet of Sweet Peas which Newel Pass predominated. Both bouquets brightened up the office and were very much appreciated.

NOTICE

Owing to the disposal of our business to the Cross Lumber Co., of Calgary, all accounts owing by W. W. North & Co., Ltd., should be paid at once, and prompt attention to the matter will be appreciated.

W. W. NORTH & CO., Ltd.,
W. B. Ford, Mgr.

WORLD HAPPENINGS BRIEFLY TOLD

The third biennial examination of the World's Federation of Education Societies will meet in Toronto, Aug. 4 to to 1927.

Premier Taschereau, of Quebec, declared there will be no provincial election this year. "The people of Canada have enough to organize and suffer already," he remarked.

Films of British cabinet members are to be used on British weekly newsreels to show the pictures of Premier Baldwin, Premier-designate Chamberlain and others will be selected as type of cabinet leadership.

Provincial and municipal officials below, who shall in themselves on the dominion income and work alike by putting various instruments at work the small units are to be ordered off the streets in the rush of police.

Hon. W. G. Ormsby-Gore, under secretary of state for the dominions, stated that he is not aware of any change being made in the arrangements for the imperial conference owing to the situation in Canada.

Arnaldo Mussolini, brother of Italy's premier, has challenged Gaetano Bresci to a duel. The challenge follows a bitter attack made by the premier, who is a well known leader of the opposition to the Fascist theorem thereof, on an article written by the premier's brother.

Less than one per cent of the estate left in the Independence Square, which he has established in Saskatchewan in the Last Mountain district, have reverted to the test so far, said Hon. C. M. Hamilton, minister of agriculture for the province, highly gratified at the splendid show ing of the cattle in this territory.

The minimum demand for agricultural machinery in Russia for the current year is estimated at 120,000 million pre war rubles, according to a statement in the forthcoming issue of the Commercial Intelligence Journal.

Three large ocean-liners operated by the United Steamships Limited, of Montreal, Belfast and Liverpool have been sold to the Hamburg American line in exchange for a financial interest in the German company.

Russians To Colonize Wrangell

Have Renamed This Barren Waste As Lenin Mitroff

A Russian expedition is on its way to colonize Wrangell Island in the Arctic ocean. North of Alaska and on to be Lenin Mitroff.

The expedition is a first-time for the arctic, the Soviet allied government has scheduled to leave Vladivostok on the steamship of Roy Minute June 25 for the island, or Mitroff pre-historical in memory of Michael Lenin, one of the revolutionary leaders.

To Wrangell Island for whose expedition are being awarded to "pseudo pioneers and colonization here of 19 hives in three expeditions have been invited in 13 years, the Soviet officials are taking 26 families, of thirty-three children between two and 16 and the crew of the ice breaker Sibiryakov.

The British government, although its small vessel, Herald, visited the island in 1913, has not claimed it.

Ice Wrangell Island, for whose expedition are awarded to "pseudo pioneers and colonization here of 19 hives in three expeditions have been invited in 13 years, the Soviet officials are taking 26 families, of thirty-three children between two and 16 and the crew of the ice breaker Sibiryakov.

The British government, although its small vessel, Herald, visited the island in 1913, has not claimed it.

Canada Wins Kelsperre Cup

Canadian Marksmen Defeat Picked Teams to Gain Trophy

Canada has won the international rifle competition for the Kelsperre cup, the Imperial Kelsperre Cup, one of the greatest trophies in the marksmanship at Bisley. The Canada marksmen defeated picked teams of the United States, Australia and New Zealand in the contest for the trophy, which was held on Bisley range, 30 miles from London.

The team selected from Canada's Bisley contingent, and including Lieut. Desmond Burke, of Ottawa, King's prize winner of two years ago led by ten points after the first round of ten shots on 200 yards. They increased this lead to 14 points at the 500 yard distance and though they were down at the final shoot at 600 yards, still won by a comfortable lead of 9 points in standard marks

RED ROSE TEA
"is good tea"
You've been intending to try Red Rose sometime. Why not now

Canada's Gains and Losses

Prosperous to be popular, Canada now has the largest favorable trade balance per capita of any country in the world.

For the fiscal year ended March 31, 1926, Canada's favorable balance amounted to $101,134,405, an increase over the previous year of $116,708,279. The balance per capita of $11.00 in Canada's favorable balance is larger, namely, the war year 1918, when it amounted to $662,637,314. Among the principal exports are agricultural products which for the 12 months ending March 31 totalled in value over $600,000,000. Of this grain and grain products accounted for $394,815,416, most of which went into the stocks of the Empire farm lands of Great Britain, whose almost 100 per cent. agricultural exportation of which 25 per cent. serve are now fully supplied by Canada. Many of these products can be bought at prices ranging from 91c to 97c per acre.

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly

Mr. W. T. Greenaway, formerly residing at Red Hill, Ont., but now living in Saskatchewan writes: "For twenty years or more I suffered terribly from neuralgia. I got the world would do to subdue it. Then I got Nerviline. In less than a fortnight's time the pain and disordered nerves were under control. Nerviline is powerful, and quick to relieve. Nerviline was formerly compounded in the famous laboratories of Polson & Co., Kingston, which the Prince of Wales made his visit to Canada's ancient capital.

Captain Parks' public duties in connection with the visit of the Prince commanded the Brooke in 1917, when with the navy he engaged and destroyed a German submarine. For this work also he was awarded a special medal by the Royal Humane Society for saving life at a disaster in the China seas.

Nothing so Good for Asthma. Mr. Wm. Stevens has been up for over twenty years, and has tried all the best and worst of them, but never got anything to do him any good like Dr. J. D. Kellogg's Asthma Remedy. It has given greater and greater satisfaction wherever it has been introduced, and sales are double month to month. It relieves in all cases of the same severity as others, while the sufferer from asthma begins to feel the benefit from the first dose. Ask any one who has used it. Price $1.25.

Ship Alberta Coal By Water

Claim Saving of $3.50 on Coal by the Lake Route

An appreciable saving in the cost of delivery of Alberta coal to the Province of Ontario is claimed by the employment of water-borne carriage, according to the claims of a deputation from that province which waited on the Hon. H. H. Hunsen, ex C.P., for North Grey, when called on Premier Howard Ferguson to urge the general use of water transportation. Where there is rail, such as Northern Ontario, the saving is $3.50 per ton.

HAD NO APPETITE WEAK AND DIZZY

This New Brunswick Woman Restored by Dr. Williams' Pink Pills

Mrs. Annie Bell, Bonaventure, Co., N.B., says: "I am writing to tell you the great benefit I have derived from the timely use of Dr. Williams' Pink Pills for Pale People. For a long time I was bothered with great weakness. I used to suffer from dizzy spells and headaches and had a poor appetite. Some days I would be so weak I could hardly do my housework. I felt tired all the time and tried a great deal without getting relief. Then I got a box of Pink Pills and discovered when I finally decided to try Dr. Williams' Pink Pills that I began gradually following the use of them that the pain left me, followed by saying that I am again perfectly well, able to do my housework and enjoy life more. I feel it a duty to recommend Dr. Williams' Pink Pills, as all work people."

If you have any, or all, of the symptoms above noted, do not delay but get a box of Dr. Williams' Pink Pills. You will be surprised at the quick relief they give. Sold by your druggist or sent by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Record Trade Balance

Largest Trade Balance Per Capita of Any Country in the World

Canada now has the largest favorable trade balance per capita of any country in the world.

For the fiscal year ended March 31, 1926, Canada's favorable balance amounted to $101,134,405, an increase over the previous year of $116,708,279. The balance per capita of $11.00 in Canada's favorable balance is larger, namely, the war year 1918, when it amounted to $662,637,314. Among the principal exports are agricultural products which for the 12 months ending March totalled in value over $600,000,000. Of this grain and grain products accounted for $394,815,416, most of which went into the stocks of the Empire farm lands of Great Britain, whose almost 100 per cent. agricultural exportation of which 25 per cent. serve are now fully supplied by Canada. Many of these products can be bought at prices ranging from 91c to 97c per acre.

To Stop Rum Running

Britain to Co-operate With American Officials in Doorstep Trans-Atlantic Bootlegging

British officials will confer with the United States Coast Guard officials in England to obtain the complete co-operation of the British Government in suppressing the trans-Atlantic bootlegging as well as rum running between the United States, the Bahamas and Canada.

It is understood that no new "liquor treaty is to be expected as an outcome of General Andrews' visit. The United States officials are officially receiving instructions to decide only to work in general detail such as prevent the acquirement now in force and decreasing liquor consuming. They also desire to effect a mutual exchange of information which will keep the prohibition authorities in these countries informed as to the movements of suspected vessels.

The British Government has indicated willingness to co-operate with the United States authorities in the rid leving these ships.

A United States ruling will be put into effect that British vessels in waters in the Bahamas.

Attendants in the British flag of all ports included for the remaining trade will be prevented from [illegible] with [illegible] be permitted for making false declarations regarding their destination.

Commando Cruiser Repaired

Capt. Evans Has Many Noteworthy Exploits to His Credit

Captain E. R. Evans, C.B., D.S.O., was recently appointed to the command of the cruiser Dorset. She commanded the Brooke in 1917, when with the navy he engaged and destroyed a German submarine. For this work also he was awarded a special medal by the Royal Humane Society for saving life at a disaster in the China seas.

Chosen Executioner

Gunner Sentenced to Die by Garrote Method Hangs Himself

Pierre Jean, the terrible torturer, Normandie Rousseau, executed at Abbeville, Belgium, on the monthly Cubus, hanged himself in his cell at Ypres de Ville. In the previous month he had been sentenced to death for assisting sentence.

Pierre Jean, the terrible torturer, Normandie Rousseau, executed at Abbeville, Belgium, on the monthly Cubus, hanged himself in his cell at Ypres de Ville. In the previous month he had been sentenced to death for assisting sentence.

Veterans On the Land

Soldier Settlement Scheme is Showing Good Results

Of the 30,000,000 advanced by the Federal Government to veterans of the great war placed on farming land, $26,000,000 has already been returned to the Dominion's treasury, according to Major John Bennett, of Ottawa, Director of Soldier Settlement. Major Bennett further stated that the government's scheme was showing remarkable results and that 30,000 soldiers were now on the land, whereas Canada's war farmers.

Pickle Factory Affects Trade

That the instability of industries may often be attributed to feelings as to what is to be expected by the fact that obtaining late, naturally filled the balance trade, and especially during the balance trade, and especially during the balance trade, and especially during

A Stitch In Time

There is an old rhyme, even now occasionally heard, that says: "A stitch in time saves nine." It was written long before the days of automobiles, yet is particularly applicable to them. If your car is not running just as smoothly as it should, bring it in before the trouble gets too bad. An adjustment here or a small new part there, attended to at small cost, will sometimes save many a dollar later on.

STAR CARS
MORE POWER and SUPERIOR QUALITY

Our Trade Mark Means Just What It Says. "Low-cost Transportation" because the Star Car—either Four or Six—offers the lowest average costs per mile of any car of equal price. "More Power" means more power per pound of car than any competing car. "Superior Quality" means best material, best workmanship, and highest grade of coachwork obtainable in cars of the same price range.

Now Is The Time To Buy The Delco Automatic
The DELCO LIGHT CO. sells in every important country in the world. This new Automatic Plant is selling like hot cakes. Twenty two plants arrived in Calgary one day, and were sold out in three days. Fort Saskatchewan district alone took several. Figure that the same thing is going on the world over, and there is a strong likihood that these plants will be long delayed in delivery this fall. This is a year on for ordering now, but there is another. The recent tariff reductions at Ottawa reduced these Automatic Delco's $60.00 when sold FOR FARM USE ONLY. Is it not possible that changes in government there may replace this tariff.
The terms are easy. Price of plant, complete, $385.00. Cash payment $97.00, balance $21.00 per month or $75.00 at 3, 6, 9 months; or cash payment $186.50 and balance at end of 12 months $198. NO INTEREST. Or spot cash price $358.00

RAYMOND W. PINCOTT

We wish to thank those people who have extended good wishes to us on taking over this business. We will endeavor to continue to merit their confidence. For this week we will simply announce that we will carry on the

GENERAL BUSINESS OF A REAL ESTATE OFFICE

This will include The listing and selling of real estate, insurance, loans, survey escape, etc. We will also be on our lots to give you service as you may use. We will also add to the well known Imperial Oil Products, [illegible] of service second to none.

CARVER & HANNAN

Picnic Days

Can be made all the more delightful by the inclusion of tasty, yet appetite satisfying lunches. Sandwiches made of any one of our selection of hot weather delicacies are satisfying, yet dainty enough for the holiday mood prevailing at a picnic. Cooked Ham, Veal Loaf, Jellied Tongue, Bologna, and others, make delicious sandwiches. Sliced on our slicer, they are economical too.

Hobson's Meat Market

Good Crowd At Tofield Sports

Despite a rather poor get-a-way, the 1926 Tofield sports day turned out to be an absolute success. The attendance, while not quite as large as some other years, was greater than that expected both during the day previous, when the sky promised rain and on the morning of the 28th, when all signs of rain had disappeared. By noon, however, the people began to assume the proportions of a crowd and by two o'clock, all those responsible for the day's arrangements, were, all things considered, well pleased.

The Curling Club controlled the concessions and worked these to the limit, providing plenty of fun for themselves and the crowd generally in so doing.

All the "big guns" of the town were selling pop, peanuts, tickets for the wheel, where for a dime you could win a doll—perhaps, and chances to throw the ring over valuable prizes. The climax was re..ched, however, with Messrs. Sinclair and Harrold, arrayed in white, even to the cap, cooking and selling HOT DOGS! We will always regret that a hearty dinner forbid us sampling their wares.

The baseball tournament was somewhat marred by the none appearance of Camrose who had, we understand, promised to come. Consequently there was no morning game. The Tofield and Ryley Trail Rangers had a game in the morning, Tofield winning the game.

Immediately after dinner, the horse races, foot races, and mule races were held. There were some very good horse races and the crowd enjoyed the sport. Results will be published next week.

The baseball tournament opened with a game presumably between Ryley and Viking, but the suits being similar and a happy thought of mixing up the teams so that Ryley men were playing for Viking and Viking for Ryley, made it almost impossible for the spectators to follow the game intelligently. The game seemingly developed into a contest between a first and second team composed of players from both towns, and to the Tofield supporters joy and surprise, the second team won by a score of 3—1. In the mix-up, Happy Odlund, who is as well known here as at Ryley did not pitch in either game. This was unfortunate, as "Happy" is a picturesque figure on the mound and a good pitcher; and while the public are accustomed to the juggling of teams in order to win the money, the same public provides the money and are entitled to seeing the best men in action.

The afternoon game was very fair ball, the teams being evenly matched, the score was 3—1 in favor of Ryley.

The evening game, to which the public were admitted without extra expense, while not exactly a walkover for Tofield, at least was easy pickings for them. With Lee on the mound and Ball behind the plate, supported by a field strengthened here and there, Ryley had little opportunity to win first money. At no point of the game did Ryley look like winners. Owing to an injury to a Ryley, player an attempt was made to use "Happy" Odlund, but the opposition was too strong. The score was 6—0 in favor of Tofield.

In the evening a picture show was held at which a comedy feature was shown, the hall was packed and it was thoroughly enjoyed by three attending.

A dance followed the show with Martin's orchestra supplying the music. This was continued to the wee sma' hours.

In the afternoon there was a basketball game between Tofield and Viking, Tofield winning by the score of 37—16. Dawne Hull and Mr. Glasgo were high scorers for Tofield. Dawne Hull is camping at Hastings Lake and Mr Glasgo works at the Tofield Creamery.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

Miss Rees, missionary evangelist held services at the Henry Sutton home last Sunday night. Also three services at the school house.

Miss Violet Ovalson of Kingman spent several days the first of the week with her friend, Miss Fannie Sutton.

Mrs. Olson of Portland, Oregon, came last week for a visit with her sister, Mrs. Frank Hall and other relatives.

Mr. Charlie Nashman motored to St. Paul de Metis on Sunday and spent the day with his cousins.

Mrs. T. D. Ferguson of Lobethorn is spending a few days at the parental home.

Master Archer and Billy Graves of Calgary, are spending a few weeks holiday at the McMullen home.

Miss Annie McKeown of Calgary, came Saturday for a visit with her mother, Mrs. Richter and other friends and relatives.

Mr. and Mrs. D. H. Mitchell and Mr. and Mrs. Hanson motored to Edmonton Saturday, Mrs. Mitchell and Mr. and Mrs. Hanson going on to Clyde to visit at the Salsbury home.

All west, many berry pickers have been motoring to Beaver Hills for raspberries, which seem very plentiful in places.

WHITE TREE

Among those to attend the Edmonton fair run this vicinity were, Carl Erickson, Conrad Arttiter, A. Patterson, Mrs. J. R. and Ralph Olson, Mr. and Mrs. P. Ass.

Mr. and Mrs. Livi Anderson and daughter, Miss Thorson and a friend arrived at Mrs. L. Anderson's home and Friday. They motored up from Bowman, N.D., U.S.A. They intend to stay a couple of weeks to visit with friends and relatives.

Mrs. H. Sand and her son from Elk Mont are visiting friends and relatives around here this week. Mrs. I. Sand is Mrs. R. O. Berg's and Mrs. S. Flaaten's sister in law.

The Bards boys played the Mossmills boys a friendly baseball game last Friday evening, the score being 11—12 in favor o Bards.

The Asmebo family visited with R. O. Berg's last Sunday evening.

Mr. and Mrs. Livi Anderson and Miss Thorson and their friend motored to Edmonton last Monday.

THE PARADE

In writing of the Sports Day, we must not forget to make mention of the parade.

The feature was fully up to previous years and several new and novel features. The prize winning footsore were Burnett's Grocery and Carver and Hannan's. Burnett's Grocery featured a Shetland pony and decorated cart, while Carver and Hannan's showed surprising originality being a replica of a box car, labelled "Alberta Oats." Where the name of the railroad is generally painted, appeared the words, Carver and Hannan, McLaughlin Hardware, had a float displaying Oil, as also did H. C. Hammond and Swift and Esery. H. C. Hammond's was display ing Pep Gasoline and in addition to piled up barrels had a number of bags who were truly full o pep. The paint er had a float displaying Mars-Wells paint, and in addition there were a large number of gaudy decorated cars.

KINGMAN

In a well played game of baseball on Kingman on Sunday the home team was beaten by Ketchemont, the score being 9—5.

Miss Olive Eigenhorn of Camrose is visiting with Lily Erickson.

Miss Mabel Olson spent the week-end with her friend Evelyn Welch.

Miss LaVerne Welch spent the week end with Selma Nomeland of Ketchemont.

Crowds of people are motoring every Sunday to Mispelon Lake.

Stanley Pashon of Camrose is spending part of his holidays with Stanley Rognoss.

Mrs. Geo. Qually from Hughendon spent a couple of days with her sister, Mrs. Thor Horte, last week.

T. J. Rognoss is having a short vacation at Banff.

Mrs. G. Olson and son Leo from Vancouver, have been visiting Mrs. E. Erickson, and returned on Saturday after a three week's stay.

Mr. and Mrs. Dan Scramstad and family are visiting at the Roy Melvin home after a trip to Banff. Mrs. Melvin is Mr. Scramstad's sister.

H. Ford is visiting his father, J. H. Ford, who runs the U.G.G. elevator a Kingman.

John Erickson is helping Tiber Cronin at the Garage this week.

Mrs. Jenny Nelson from the United States is visiting her cousin, Mrs. C. L. Lindberg.

Mr. and Mrs. Joe Monson and family of Camrose, visited Mrs. Monson's parents, Mr. and Mrs. C. R. Hyckert on Sunday.

LINDBROOK

A new well has been drilled on the school grounds here and water struck at somewhere about 80 feet deep. Mr. E. Phillips was the driller and besides drilling the well he found the basketball posts in the ground accurately so that one bounding boys and girls cannot knock them over this time.

Mrs. D. Dyer and son, Stuart, and daughter Joyce, are here on a visit to the Hooper family this week.

Mrs. J. Lepine is away on a visit to relatives in the Camrose district.

Mrs. M. Swain and Miss Pearce journeyed to Edmonton this week with Mr. J. Leahy, Mrs. Swain staying to take medical advice, having not been in very good health of late.

Mr. Leahy motored up to Edmonton on Sunday, accompanied by Mr. and Mrs. Hobbs who visited relatives there.

This hot dry spell is playing the deuce with the crops here and it rain doesn't come soon, it needn't come at all as far as the crops are concerned although the hailsworld like it at any time if only it will fall and fill water barrels for washing purposes.

Mr. and Mrs. W. Worton and family visited at the Burton home over the week end.

Mr. Lyndon Hooper returned to his work in the city last week, having recovered from his recent illness.

Mr. Wilson and Earl are in Vegreville lumber and building supplies from the station here for their new house.

Hastings Lake is pretty well patronized these Sundays.

WORLD HAPPENINGS BRIEFLY TOLD

Heavy rains in Western Japan have destroyed thirty persons and destroyed about 1,500 houses.

The jewelry left by the late queen Alexandra has been valued at more than $6,000,000 it is understood.

It is officially announced that the Turks of north Afric tonight, second row will elect Ayatulla to open par- liament in the new capital, Angora.

Slavery in the Congo

Belgian Public Opinion Ready to Hear Plain Truths About Conditions

Enlightened Belgian opinion, with the King and Queen whose ruling the land, appears ready to hear many plain truths regarding exploitation of the colored races when the interpellation will be held to be in attendance and they can be counted on to deal fairly with the various colonial administrations in future, the British French and Portuguese missionaries will be invited to bear equally careful evidence regarding their publications and those of their governments. The King of the Belgians says "The Congo and its inhabitants have peculiarly largely and brought much money to the home country. Let us never forget this redemption must find perfection in the moral progress and material welfare of the native people. In me this means and that the progress the necessary condition of the better progress of colonial undertakings." We have a moral responsibility towards the native populations whose government we have instituted.

Road Signs

British Columbia Soon to Have Motor Roads Well Marked

Every important road in British Columbia will soon be marked for the convenience of travellers with official warning signs. These signs are under preparation and will be turned out by thousands shortly by local firms in all over the province.

The official size will vary according to dangerous curves and grades. All points where car name sign to be erected a made history under the new government highway regulations with the exception of those at railway crossings where motor houses must come to a full stop before proceeding, also will be marked

Mining in Russia

Soviets Relax Law for Foreign Seekers Of Gold

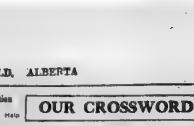
The Soviet control of work and defences, according to the Moscow Isvestia, has ordered that the procedure by which foreign gold prospectors may enter Russia be greatly simplified. Permits to applicants are to cost only 3 gold rubles ($1.55) The applicants must prove their professional origin before receiving them. Persons who have more than a grammar school education are not permitted to prospect for fifteen gold miners rules indicate that the Soviet government does not intend to allow anyone to accumulate wealth in the Russian gold field. Foreigners must agree to work under Soviet laws, which limit the amount of gold which may be carried away

Development Of Wireless

Passengers On Huge Air Liners In Germany May Talk With Telephone Subscribers

While rushing through air, passengers on the huge air liners of the German air service soon will be able to pick up a wireless telephone receiver and, despite the roar of the 1,200 horse-power motors, talk with any telephone subscriber in any large city in Germany Wireless telephone experiments between plane on two of the daily air routes and landing fields have proved successful A pilot discovered on any flight, desiring to a change en-route, talked with Tempelhof Air Field, Berlin, for five minutes.

Descendant of Governor



Duke Hubert of Leuchtenberg, Count de Beauharnois, Head descendant of Governor Beauharnois who founded the present-day Canada in the name of the French King Louis XV between 1726 and 1747, is living for the time being in the country in which his ancestor governed. He is joining his cousin the Marquis di Alibhal in a thirty day tour of the Canadian Rockies and is taking part with him in the grand Pow Wow held at the Pine Island Valley in August. He travelled from Cherbourg on the Canadian Pacific liner Melita and travelled by C P R. as private train to Quebec where the St Lawrence he was deeply impressed by the historic shrines of Quebec with which he is historically connected and passing through Fort William he had another incident of the days nearly two hundred years ago when he was the governor in the far north of the territories of the Sargents de Beauharnois His family still keeps a very interesting letter written by the French and Indian on block birth addressed to the Marquis Beauharnois for "the bloody cure put has taken of your children," the linguists

Remarkable Stamp Collection

Sale of Rare Old Stamps Will Help To Pay French War Debt

The scraps of paper collected and treasured by the rich and many-acreage to be sent that people the world over-throw away in the millions each day-are helping France to weather her financial storm. More than 50,000,000 francs in the open realized to date from the sale of a single collection of postage stamps

Philatelists and others in many countries are watching with amazement the sale of the Von Ferrary collection in Paris. This remarkable aggregation of high birth posted in six hundred catalogues was completed in the war by the French financier of single stamps valued at hundreds of thousands of francs are still to be sold.

One stamp recently parted into a private philatelist's hands for a total exchange of 1,075,000 francs, or, at the current rate of exchange about $52,500. It was a 1-cent stamp of Mauritius, British Colony, first of 1854, the only one known to be in existence today The buyer was Count Hindis, a rel lector of Usles, N Y.

Approximately the Von Ferrary collection was the most famous and romantic in the world Each of the 9,000 pages of the album in gath ering would be scattered to the four winds

Paris, in effort, has been the focus of the collection After Von Ferrary's death in 1917 the Germans confiscated while the world was still ablaze, when it was discovered that he had left his rollection in the Postal Museum of Berlin. the French viewers were promptly confiscated the whole accumulation and ordered it sealed in the vaults, under the control of M Kolbert, one of the oldest of French philatelists, fourteen subs have been held. Others will follow until all the stamps have been disposed of

The Marquis Of Reading

Late Viceroy of India Has Had a Romantic Career

Forty years ago a full fledged lawyer was added to the great Indian diary, the Hoosghly (in many but a wide difference) adding the name of Rufus Isaacs, and doubtless watching the great city rudiating lustre in his ad mining zeal

That boy's ac ri sich to India was to the capacity of viceroy and power of one general, five years ago.

It was in the words that the Earl of Birkenhead recently published the romantic career of the Marquis of Reading who has returned to live in England on the completion of his term of office

A few new marcels is fond of recalling his experiences of three sedating days. He claims to be the only member of even the Egyptians would be responsible for the [illegible] of the Suez Canal 11 [illegible] 3 p. m. Previously

The foremost path to fame was [illegible] Rufus Isaacs was a young barrister in the London [illegible] Bar. His practice was not large, but he was rather [illegible] Independent by modern standards. He was a Liberal in politics, early, [illegible] [illegible] [illegible]

One Dollar and Fifty Cents

IS NOT A LARGE SUM OF MONEY COMPARED TO WESTERN STANDARDS OF LIVING. YET ONE DOLLAR AND FIFTY CENTS WILL DO MANY THINGS. IT WILL BUY EITHER THREE GOOD MEALS, ENOUGH TOBACCO FOR THE AVERAGE SMOKER FOR THREE WEEKS, A BOX OF CHOCOLATES, A GOOD BOOK, ENTRANCE TO THREE OR FOUR PICTURE SHOWS, FOUR GALLONS OF GASOLENE, TWO PAIRS OF GOOD STOCKINGS, THREE HANDKERCHIEFS, A CAP AND A HOST OF OTHER THINGS. BY BREAKING UP THE DOLLAR AND FIFTY CENTS INTO NICKLES AND DIMES, IT IS ASTONISHING WHAT IT WILL BUY. TEN CENTS WORTH OF THIS AND TEN CENTS WORTH OF THAT, MAKES A FORMIDABLE PILE WHEN ONE DOLLAR AND FIFTY CENTS IS CAREFULLY SPENT.

THERE IS, HOWEVER, ONE THING THAT ONE DOLLAR AND FIFTY WILL BUY, THAT MAKES THE OUTLAY OF THIS AMOUNT AN INVESTMENT RATHER THAN AN EXPENSE. AN INVESTMENT THAT CAN, BY THE EXERCISE OF JUDGEMENT BE DOUBLED OR TREBLED. HUNDREDS OF PEOPLE IN THE TOFIELD DISTRICT MAKE THIS INVESTMENT YEARLY AND PROFIT BY THEIR ACTION.

ONE DOLLAR AND FIFTY CENTS SPENT FOR YOUR LOCAL PAPER, WILL, IF YOU READ THE ADVERTISEMENTS, RETURN TO YOU IN MONEY SAVED, MUCH MORE THAN THE SUBSCRIPTION PRICE BEFORE THE YEAR HAS EXPIRED. A DIME SAVED ON THIS ARTICLE AND A QUARTER SAVED ON ANOTHER, IF PERSISTENTLY TAKEN ADVANTAGE OF MEANS DOLLARS SAVED AT THE END OF THE YEAR. THIS IS OF COURSE THE PURELY COMMERCIAL SIDE OF THE MATTER.

THERE IS, IN ADDITION TO THE OPPORTUNITY TO SAVE, A WEEKLY NEWS BUDGET OF THE TOWN AND DISTRICT. IT MAY NOT BE AN ITEM OF SUPREME IMPORTANCE TO THE WORLD IN GENERAL THAT MR. "A" HAS BOUGHT THE ADJOINING QUARTER," BUT IT IS AN ITEM OF INTEREST TO HIS NEIGHBORS AND ONE THAT IS READ WITH UNDERSTANDING, WHEN THE DAYS' WORK IS DONE. MRS. "A's" ENTERTAINMENT OF A NUMBER OF GUESTS COULD BE LEFT UNCHRONICLED WITHOUT DIRE RESULTS FOLLOWING, BUT THE PUBLISHED REPORT OF THE PARTY, IS READ WITH INTEREST BY THE NEIGHBORS DURING LEISURE MOMENTS. IN FACT, EVEN IF THE "FOLLOWING UP" OF THE ADVERTISEMENTS DID NOT GIVE YOU AN OPPORTUNITY OF MAKING A PROFITABLE INVESTMENT, THE NEWS SECTION OF THE PAPER ALONE IS WORTH THE THREE CENTS A WEEK THAT IS ASKED FOR IT, WHILE OFFICIAL NOTICES, ETC., ALL HELP TO KEEP ONE INFORMED AS TO THE HAPPENINGS IN THE DISTRICT.

HAVE YOU ONE DOLLAR AND FIFTY CENTS? OF COURSE YOU HAVE! THEN WHY NOT INVEST—OR IF YOU LIKE, SPEND—IT FOR THE TOFIELD MERCURY. WE NEED AND DESIRE YOUR SUPPORT, BUT ABOVE ALL THINGS, WISH TO PROVE TO YOU THAT WE GIVE YOU VALUE FOR MONEY RECEIVED.

IF YOU ARE A "PAID-UP" SUBSCRIBER, IT WILL HELP US IF, SOME TIME, YOU CASUALLY MENTION THE MERCURY TO SOME ONE WHO IS NOT.

The Tofield Mercury

BARDO

Clarence Rude left last Monday for B.C., where he will join his mother and sister, Nora. They will go to the coast before returning home.

Born, to Mr. and Mrs. Joe Lehman on Monday, July 19th, a son.

There is a little son in the John Jarvinig home at Ryley. Mr. Jarvinig was formally a Bardo boy and his many friends here extend congratulations.

Little Juliette Jarvinig underwent an operation before a clinic in Camrose a few days ago. Her many friends will be glad to know it was successful. The crooked limb was straightened and she will be able to walk.

Mrs. Jacobson entertained the L. A. on Wednesday. The club was finished. Mrs. John Johnson, jr., of Grande Prairie and Mrs. P. O. Lerbekmo of Tofield were guests.

At a meeting of the Cemetery Committee, it was decided to meet at the cemetery on Friday afternoon, July 30th. Everybody interested is asked to come and help. The grass needs cutting and other work should be done.

Mr. Jensen and Hansa, Mrs. Haakedal and Mrs. Ivar Moen attended a meeting in New Norway on Wednesday.

Miss Anna Jarvinig went to the coast with Mr. and Mrs. Pete Hauge and Malcolm Finnell accompanied the grandmother and aunt.

Mr. Moen is working on Mr. Eide's new house.

Mrs. Steen spent a couple of days with Mrs. Lethelmo in town last week.

Messrs. Joe and Earl Stauffer who own the farm so badly damaged by the storm, have been cleaning up the wreckage preparatory to putting up new buildings. On Monday a large number of neighbors turned out and helped them.

Quite a large number from here motored down to Lake Minnewanka on Sunday. Hungry to find a real place, I guess.

Rain is needed badly in this section.

Mr. and Mrs. Hedwig from Redcliff, Sask., are visiting in the home of her parents, Mr. and Mrs. Tom Ravens.

The Iver Moen and W. E. Parker families were at Cooking Lake on Sunday.

On Friday night there was a farewell party at the Moen home, for Harold Rossing, who is leaving for the States.

NOTICE

Owing to the firm of Hingley & Co. amalgamating with eastern interests, all accounts owing Hingley & Co. must be paid by August 1st. All accounts outstanding on that date will be placed in other hands for collection.

July The Month of Heat

July is the month of heat! Sometimes hot and sweltering! Patrons don not need to be reminded that a little extra care of their cream means increased revenue for them. An ice house, a cold well or cave, with frequent deliveries means high grades.

Cold bessie, too, will respond to a little extra care during July. It is then that the flies are troublesome, and ample shade with plenty of water are essentials, if you can add a little chop, so much the better. Cows will more than repay any little extra treatment with an increased yield.

THE DROUGHT

IT IS more than unfortunate that this district or at least the northern portion of it, should be visited with an exceptionally long period of drought this season. Last season saw the financial recovery of many of the farmers from circumstances dating back to the hard winter. A good crop at fair prices this year would have relieved many of financial strain, and enabled many others to spare money for at least some of the things they desire, apart from absolute necessities. As it is, many will be compelled to scrape through with meagre returns for their season's work. Of course, even at this date, a good rain would do a great deal of good, but the time for receiving the full measure of benefit from rain has passed. Fortunately, in most instances, the farmer has both poor and fair crops. The wheat, during the early part of the growing season came along good and now stands at a critical stage. A good rain would cause it to fill out and yield well, but without moisture, the yield at best will be light. The oats are the worst. These in many cases are heading out only a few inches from the ground and in extreme cases have been plowed under.

Wednesday of this week is Tofield Sports day. It is customary to hope for a fine warm day for sports, but this year, even if rain comes on Wednesday, it will be heartily welcomed. The sports could if necessary, be postponed, but now, every day without rain means an irreparable loss. To be dried out is a new experience for this district. While other portions of the province, particularly in the south, have been dried out again and again, we have always been fortunate in harvesting good crops. Consequently, though a dry season is to be greatly deplored, there is the satisfaction of knowing that it is very exceptional and not frequent.

THE HALF HOLIDAY

FOR MANY years now, as each spring and early summer would come around, mention, suggestion, and general discussion regarding a half holiday once a week would crop up. At first it would appear to be a simple matter. Everybody seemed in favor, but by the time it reached the point where discussion ceased and action commenced, it was discovered that for some reason or other, a weekly half holiday was inadvisable.

This year, the usual thing occured. When the grass became green, the half holiday question was broached. This year a petition was circulated and signed by all the business men in town except one. On the strength of this petition, the council prepared and are publishing a bylaw, which when passed, will make a weekly half holiday during June, July and August compulsory. It will, however, not function this year, but will be ready for next.

We have more than once stated that a weekly half holiday is a good thing. It gives the store clerk, merchant and indoor worker an opportunity to get out and have a good time, which with six days continuous labor is denied him. While now our Sundays are not nearly so much a day of rest as they used to be, there are still some events in the sporting line that can only be held on a week day. We believe the time will come when practically all the small towns in Alberta will observe a weekly half holiday throughout the summer, and possibly throughout the year. There are many advantages and few disadvantages, and the trend is in that direction, for more and more towns are adopting the weekly half holiday every year. Among other things, it will allow for inter-town amateur athletics to flourish in a manner that is impossible without it. In a short time (with the exception of busy periods and as far as their industry will permit) farmers would begin to observe it also. "All work and no play makes Jack a dull boy" is an old proverb but a true one.

TOO MANY ELECTIONS

WHATEVER THE outcome of the coming federal election, it is to be hoped that either one or other of the parties will be returned to power with sufficient majority to carry on the business of the country without recourse to another election before the proper time, viz: five years. It is less than a year since a dominion election was held, with a great deal of expense both to the country and the individual candidates. If the result of the coming election create the same situation, namely, a virtual deadlock between the two parties, some other way of getting out or around the difficulty will have to be devised.

NOTICE

NOTICE is herby given that a petition has been presented to the Council of the Town of Tofield under the provisions of the Early Closing Act praying for the passing of the following early closing By-Law:

By-law No. 32

Being a by-law of the Town of Tofield providing for the early closing of shops and places where merchandise is sold by retail on Wednesday of each week at 1:00 o'clock in the afternoon during the months of June, July and August of each year.

1. Shop shall mean any place or premises where any retail trade is carried on and shall include any premises in which a barber carries on his trade, and any office.

2. After the date of the final passing of this bylaw no shop shall remain open after the hour of one o'clock in the afternoon of Wednesday of each week during the months of June, July and August of each year, and no merchandise shall be sold after that hour excepting to such persons as may be in any shop at the hour of closing.

3. The bylaw shall not be deemed to apply to sales of the following merchandise:

Medicines and medical and surgical appliances.
Intoxicating liquors.
Refreshments for consumption on the premises.
Bread.
Newspapers, Tobacco and other smokers requisites.

Provided that in the case of a restaurant, drug store or other place of business where any of the merchandise in the above schedule is sold that no other merchandise whatsoever shall be sold.

4. In case of an emergency, any retailer of machinery or parts of machinery of any description may sell any part required for repair or replacement to any person urgently in need of such part; provided, that after such part has been supplied that the place of business shall again be closed.

5. Any person convicted of a breach of the provisions of this bylaw shall be liable to such penalties as are laid down by the early closing Act of the Province of Alberta.

NOTICE is hereby further given that objections to the petition presented to the council praying for the passing of such Bylaw on the ground that such petition is insufficiently signed or otherwise affecting the validity or sufficiency thereof must be filed with the Secretary-Treasurer of the Town on or before the 21st day of August, 1926, and that if no such objections are filed before the said date the council will proceed forthwith to pass the said closing Bylaw.

THINGS WORTH KNOWING

As the season goes on we are getting more stories of trips taken by local Essex owners. Each one is interesting and in every case the owners are more than satisfied. The reading system seems to be the most surprising thing. One owner drove 982 miles partly through Banff, Lake Louise and home and never got a drop of water in his car after leaving home. Another drove over 800 miles through hot country in very hot weather and he also never used a drop of water after leaving home. His average on gas was 24 miles per gallon. Another drove 88 miles on three gallons, measuring his gas very carefully, an average of over 29 miles to the gallon. In no case was any money spent for repairs. It is difficult to convince anyone who does not own an Essex that he can operate, gas, oil, tires and repairs all considered at a very much lower cost than can the owners of the lower priced cars. This has been conclusively proven and is beyond question. In other words the extra couple of hundred dollars you pay in the first instance is saved back into your pocket within the first two or three seasons, while during that time you have had all the additional enjoyment of comfortable riding, extra power and freedom from worry and expense. Ask an Essex owner. He will show you how you will save money by owning an Essex.

After Twenty Years

The Province of Alberta is this year celebrating its 21st birthday. Years before the formation of the three provinces from the North West Territories, there were settlers from the east, south and west round about Tofield, and here they built homes, stocked with modern appliances that make the work of keeping house light and easy. Many of these homes are now considering the purchase of a Delco-Light plant. The DELCO-LIGHT automatic electric light plant will make life brighter and lighter on the farm. With the Kohler it takes but years a button and you have light, turn a switch and you get power. It is remarkably well made and thousands of users testify as to its efficiency and economical upkeep. Write us and for booklet entitled "The Principle and the Proof" describing the Kohler Automatic Electric Light Plant

New C.P.R. Cold Storage Cars

New type of fruit car showing special ventilators, on the top of the car, which cool the fruit in return air freshens.

Lower picture shows—Interior of the modern fruit car

Under old conditions there was always a certain amount of rot in shipping fruit. The entry of dust or cinders, or the high temperature of the car, was frequently the cause of fruit becoming spoiled during transit. But under present conditions, fruit not only retains its coloring, freshness and firmness when it is rip ped from one point to the other, but it is actually improved. For many months officials of the Canadian Pacific Railway and the Dominion Express Company have been carrying on experimental work with a new type of ventilated refrigerator car to be used in the handling of fall fruits by express to prairie points, and they have recently arrived at an entirely new kind of ventilated express refrigerator car which they call the "Fruit Ventilator."

This car allows the air to be received into the car through two special intakes located at the end of the car at the roof, carried to the floor without decreasing in velocity and effectively distributed through the lower sections of the car. Every fifteen minutes there is a complete change of air, 13,276 cubic feet of air per minute being recorded through the intakes and 9,572 through the exhausts.

The new type of ventilator was tested out under full load conditions of water in his car after leaving home. Another drove over 800 miles through hot country in very hot weather and he also never used a drop of water after leaving home. His average on gas was 24 miles per gallon. Another drove 88 miles on three gallons, measuring his gas very carefully, an average of over 29 miles to the gallon. In no case was any money spent for repairs. It is difficult to convince anyone who does not own an Essex that he can operate, gas, oil, tires and repairs all considered at a very much lower cost than can the owners of the lower priced cars. This has been conclusively proven and is beyond question. In other words the extra couple of hundred dollars you pay in the first instance is saved back into your pocket within the first two or three seasons, while during that time you have had all the additional enjoyment of comfortable riding, extra power and freedom from worry and expense. SELLS-FLOTO CIRCUS AT EDMONTON ON MONDAY NEXT

More than 400 arenic stars are required to round out the program of the Sells-Floto circus, which is billed to appear in Edmonton on Monday, August 2nd. This big show, long considered as the "class" of the circus world, will doubtless attract hundreds from this place.

An added attraction this year is Buffalo Bill's Wild West Show, with a large number of full blooded Sioux Indians.

Noted this year as among the performers is the famous "Poodles" Hanneford and his comedy riders. Hanneford is known far and wide as the greatest circus performer in his especial line in the world. Others whose fame is wide spread are the Flying Wards, the Sells-Floto clown army the three herds of performing elephants, included in which are the only elephants who give an exhibition of the base famous "Charleston", and said to be perfectly trained in this novelty.

There are also the sixty Liberty horses, half a hundred performing lions, tigers, leopards, polar bears and others, the programs given by each and by the mixed groups being thrilling and exciting in the extreme.

Practically two hours is given over to the performance in the main tent, steel arena and stages are filled with action of the 120. The opening spectacle is a pageant of color and beauty and serves to introduce the 1000 people to the audience.

Sells-Floto is the exception among circuses, being absolutely clean, and being at the same time exclusively a circus that has retained the features that make performances o this kind enjoyable to everyone who attends. Two performances will be given, the first at 2 and the second at 8 p.m. Sells-Floto has not raised the price of admission from its always popular figure, another thing that has made it popular with the masses.

Born.—To Mr. and Mrs. Mike Trapeck, on Saturday, July 24th, a daughter.

RED ROSE TEA
"is good tea"
Red Rose Orange Pekoe is extra good. Won't you try it this time?

Have a Hobby

Among the many excellent features of that splendid organization, the Boy Scouts, is the encouragement and development of hobbies. It was recognized by the founder or the Boy Scouts that boys of a certain age invariably grasp hobbies for their activities, whether it be play or work, that the game" more lasting and utilitarian purpose than a hobby which in them is of absorbing interest and arouses their enthusiasm, although on which it may appear quite unimportant, even futile.

It is part of the boy scout programme to encourage boys to adopt some hobby that is really worthwhile, one that appeals to them, and to train help them to develop a hobby to a point where it will prove of real value to them in the days before them. Thus the Boy Scouts offer bodges for efficiency on the part of its members on an almost incredible number of things.

Life is full of instances of men and women who have developed chief hobbies to a point where they became the real passion and business of their lives, resulting in important discoveries and invaluable aid being given to mankind, as well as fame and affluence to the individual.

George Eastman, the kodak king now rated as a multi-millionaire, started out a poor boy, and would probably have remained so but for his hobby of photography. In his leisured moments he developed a theory and, with the photographers were then in number because the photographic process was difficult and complicated, he developed a process by which simplified it, and the name "Kodak" was born. Today, thirty years later, this hobby has made him one of the richest men in the world, as well as fame and affluence to the individual.

Another Rockefeller, who is reputed to be the richest man in the world, has developed a hobby

Born.—To Mr. and Mrs. [illegible] on Wednesday, July 28th, at Edmonton, a son.

Miss M. Carter visited her parents at Holden over the week end.

COMMUNICATION

The Editor,
The Mercury, Tofield, Alta.

Dear Sir:—

May I be permitted to say a few words in criticism of one of your editorials of last week's issue, not in any way with a view to drawing you into political discussion, the doubtless political arguments appearing in local newspapers tend to increase the circulation. In the editorial referred to you say, in part, "It is to be hoped that either one or the other of the parties will be re-elected to power with sufficient majesty to carry on the business of the country," now Mr. Editor, if this is the sentiment which you should hold, then why work for any party at all, if either one or the other is good enough. This is not what the old parties have been trying to teach us on the contrary each has told us that the success of the other with a "sufficient majesty" spells ruin to Canada.

But this is not my point at all. What I feel would be most advantageous position for the west particularly is to see that NEITHER of the old parties get sufficient majority to carry on, and that the Progressive and elected in numbers strong enough to [illegible] balance of power IDEALISTICALLY, even though a few in the number should feel it their duty to vote independently on certain [illegible]. I admit that I fail to see [illegible] the men who can see other wise. It has the best interests of the West at heart. I feel that if any man will clear his mind of all prejudice [illegible] only arrive at one conclusion, namely, that the West has derived more advantages had more delegates at its command from pocket during the past five or six years DUE ENTIRELY TO THE DOMINATING INFLUENCE of the Progressive party, than in the entire fifty preceding years. The present trouble, which has precipitated an election is due to the fault of the people in the West themselves in that they did not return to the last parliament Progressives in sufficient numbers to make impossible a situation which arose and resulted in defeat of government. If they make the same mistake at the coming election, they will without doubt lose the opportunity of their lives, they will most deliberately take from out of their own pockets [illegible] into someone else's, and they will have themselves and no one else to blame. While the necessary expense of the coming election is regrettable, yet are those few millions in comparison to the many millions which have been distributed through the pockets of western dwellers during the reduction of the tariff alone. The tariff which resulted in tariff and other reductions demanded by the Progressive party in the last parliament, and which was very reluctantly received by the government, because [illegible] other grave the danger of [illegible] the immediate defeat, has already put out the pockets of the [illegible] in a few months that would pay for cost of the coming election many times over. Because here or that the [illegible] King is going to tell us during his election campaign that he did it." The old parties should be allowed one seat only from the West—a seat on the North Pole.

RAYMOND W. PINCOTT

CHILDREN'S PICNIC

A very enjoyable afternoon was spent at the home of Mr. and Mrs. Robinson, just south of town, on Thursday of last week. The gathering, which was held for the little tots, brought together some forty children and their parents. There were many good things to eat and drink, which the youngsters appreciated to only youngsters can. There were races and games, and the whole group had their photograph taken.

Lucille's Beauty Parlor will be closed on Monday, Tuesday and Wednesday of next week. Miss Gray will be in Viking the first three days of the week.

Mr. J. Lee and Clifford motored to Calgary to visit relatives for two weeks. Mr. Lee will also holiday at Banff.

Fred Burns, of Innisfree, visited Mrs. Purdue, on his way to Innisfree from the Rivers, this week.

Letters received from Ted Purdue, who is one of the leaders in an eastern boys' camp, indicate that he is having a splendid time.

Born.—To Mr. and Mrs. Leo C. Roth, on August 2nd, a daughter.

NEWS OF OUR NEIGHBORS

KITCHAMOOT

Practically all the people in the neighborhood has their hearbes and spent last Sunday at Miquelon Lake where they enjoyed the cool water.

Next Wednesday, August 11th, Mrs. R. Wildman, will entertain the W. M.A. at her home. All are cordially invited to attend.

A few scattered showers the last few days and cooler weather is saving the crops and gardens.

While enroute from Edmonton to Alliance, Mrs. and Mrs. Gollan stopped over Saturday night and Sunday at the Henry Sutton home. Mrs. Gollan will be remembered as Miss Pantone of our former school teachers.

Miss Stella Welsh of Edmonton is holding at the home of her sister, Mrs. Fred Sutton.

Mr. Frank Washman of Wabasca is visiting at the home of his brother Mr. Charlie Washman.

Mr. Saul of Spilsted district is working for Mr. O. Barnes.

Berry picking still continues though somewhat on the wane. Haying has started. Breaking and rainwork goes steadily on. Oh! there is no place like the farm.

Mr. and Mrs. Hanson and Miss Hanson left Saturday to continue their trip on to the coast. Mr. and Mrs. Dave Mitchell accompanied them as far as Camrose.

Fred Seton had the misfortune to have a cow killed by the train at his crossing one day last week.

Mr. and Mrs. G. W. Sears and family were guests of Mr. and Mrs Wesley Ingram on Sunday, also Ivan Mitchell.

BARDO

Light showers on Sunday afternoon cleared the atmosphere, but a good rain is needly badly here.

Mrs. John Johnson, jr. who has been visiting here for some time, left for her home in Grande Prairie on Monday. Her mother, Mrs. Eggan entertained her sister and Prairie families and other relatives in her honor on Sunday.

Mrs. O. Hilliard, a sister of Mrs. P. S. Anderson from Washington is visiting her. On Sunday the Anderson families and relatives, to the number of fifty were entertained at the Beale Anderson home.

Mrs. Arnold Bloom and her sister Miss Emma Anderson, leave this week for a visit to the coast.

Parsons Bazan of Kingman is visiting with her aunt, Mrs. John Yonder.

Mrs. Eggan entertained the Ladies' Aid last Wednesday.

Mr. and Mrs. Ingmar Olson and Mr. and Mrs. O. Helvig spent a part of last week in Wainwright.

The Tofield Club gave Mrs. Helvig a linen shower on Friday evening at the Rowan home. Mr. and Mrs. Helvig expect to leave for their home in Sona on Wednesday.

Mrs. P. D. Lovelesse and Mrs. Hilliard entertain the Ladies' Aid and the Thimble Club on Wednesday, Aug. 11, at the Hill home.

The John Yonder family and Floyd were Rosenroe visited at Ivan Jensen's on Sunday.

Mrs. Magda Hendrickson and little son were greeting old friends here last week.

Miss Irene Basile of Camrose is visiting Miss Margret Rose.

Mrs. P. D. Lovelesse is visiting her parents.

Mr. and Mrs. Geo. Moon, Miss Hilda Nordsand and Miss Bonfield motored were out to the shower Friday evening.

V. L. Both and family returned from their trip to Nebraska last week. They report extremely hot weather.

Messrs. Jacobson and Vanagard finished breaking for Mrs. I. Olson on Saturday.

AMISK CREEK

The weather is very nice for haying now, but rain is very scarce. We all hope it will come soon if it is going to help the crops any.

Several people from this vicinity attended the Tofield sports and all had an enjoyable time.

The Ladies' Aid held at Mrs. I. H. Olson's was very well attended. Several members and some visitors were present. The date has not yet been decided for the next meeting which is to be held at Mrs. R. O. Berg's.

Mrs. P. Plasten, Mrs. H. Sand, Alice Berg, Gunvald Plasten, Erling Sand, motored to Vegreville last Thursday evening. They visited at the Freeman home. Mrs. Sand and Erling being guests until the next day when the train left or Vermilion.

Mr. R. O. Berg and son Arnold and Mr. A. Patterson made a business trip to Edmonton last Friday.

Mrs. O. Brechan who has been assisting at the Pearson home left Saturday for Bardo.

Mr. and Mrs. N. Sand from Ryley and Ingvald Moe from Barrie were visitors at the P. Plasten home on Sunday last.

Mr. Gustave Lepsky and Mrs. G. Lepsgren motored from Edmonton and were guests at the Amisk home returning home on Monday morning.

Miss Gome entrained for Viking on Monday morning. She is engaged to clerk at the hospital.

Joe Bled, Mr. and Mrs. Edgar Nord motored to Edmonton last Sunday. Mrs. Nord's baby has been at the hospital for some time but is improving nicely. They expect to bring her home at the end of the week.

Mrs. E. Moen and Mrs. E. Anderson were guests at Mrs. L. Anderson's home on Sunday last.

Mr. O. Hershberger is putting a new coat of paint on his house.

The Tofield boys who have been camping at Camp Kewaygan arrived home on Wednesday evening. They report a good time and the time all too short. Those attending the camp from Tofield were, Blake Christison, Wesley Taylor, Hersey and Murray McHeffey, Willie and [illegible] Watson. On Saturday evening, which was Grand Council night, a number from Tofield motored out and were spectators of the ceremonies. A number from Edmonton and Cooking Lake were also present. There were also a number of people from Tofield visiting the camp on Sunday.

NOTICE

Owing to the firm of Hingley & Co., amalgamating with Eastern interests, all account owing Hingley & Co. must be paid by August 10th. All accounts outstanding on that date will be placed in other hands for collection.

HORSE RACE RESULTS AT TOFIELD SPORTS

Free for all 1, B. W. and [illegible] 2. [illegible] Prudoe.

Pony Race—1, Joe Sutton, 2nd S. Howard Logan.

Mule Race. P. W. Jacobs; D. E. Ball.

The elevator at Bardo will be closed for two weeks, beginning to-day, Aug. 2nd.

Born.—To Mr. and Mr. M Kinnes, on July 30th, a son.

Miss Alice Parish is visiting at the Fairfax home in Edmonton.

Rev. R. George Watt, B.D., will conduct the usual services in the United Church Tofield next Sunday August 8th. Service at Ketchamoot in the afternoon, at usual

WORLD HAPPENINGS BRIEFLY TOLD

The man in Reading, England, whose radio head speaker can be heard by his neighbor will be liable on a fine of $75.00.

Captain Postoleiev, a Rumanian of Bessarabian descent, has been tried by a special court martial because he slapped William S. Culbertson, American minister to Rumania.

Samuel Scott, a pioneer of the west who for nearly 50 years was associated with the agricultural interests of the country and was a prominent member of the Winnipeg Grain Exchange, is dead.

Ratepayers of Vancouver will vote some time next October on the $1,000,000 by-law for carrying out the proposed civic centre scheme. Five several parts of the money will be required for the expropriation of private property.

Two noted bandits who had been already convicted of petty commissions, have been sworn in as the petty constable by His Majesty. They were Hon. Francis Anglin, chief justice of Canada and H. Hon. George Perry Graham.

Dick Quilliquisteon, reputed to be 107 years of age, and the oldest Indian in British Columbia, died suddenly at his home on the Esquimalt reserve.

Robert Brenden Bladen, well known advertising man and president of the Bladen Advertising Agency, Toronto, is dead.

Twenty-nine persons are dead and four are blind from poison liquor in Buffalo and nearby New York and Eastern Canada cities, officials of the federal prohibition bureau in Buffalo declared last week.

The bodies of 11 victims of the poison ship steamer Cheops were found in Asia. In that ocean we are the beginning of a pandemonium, and it we felt the whole structure of the civilized world would crash. In the eighth year of the war, 1922, 1,000 bodies were found in the hold of the ship. The ship, No. 2, 1,000 bodies were found in the hold of the ship. The ship, No. 2, 1,000 bodies were found in the hold of the ship. The ship, No. 2

One Dollar and Fifty Cents

IS NOT A LARGE SUM OF MONEY COMPARED TO WESTERN STANDARDS OF LIVING. YET ONE DOLLAR AND FIFTY CENTS WILL DO MANY THINGS. IT WILL BUY EITHER THREE GOOD MEALS, ENOUGH TOBACCO FOR THE AVERAGE SMOKER FOR THREE WEEKS, A BOX OF CHOCOLATES, A GOOD BOOK, ENTRANCE TO THREE OR FOUR PICTURE SHOWS, FOUR GALLONS OF GASOLENE, TWO PAIRS OF GOOD STOCKINGS, TWO PAIRS OF SOCKS, A CAP AND A HOST OF OTHER THINGS. BY BREAKING UP THE DOLLAR AND FIFTY CENTS INTO NICKLES AND DIMES, IT IS ASTONISHING WHAT IT WILL BUY. TEN CENTS WORTH OF THIS AND TEN CENTS WORTH OF THAT, MAKES A FORMIDABLE PILE WHEN ONE DOLLAR AND FIFTY CENTS IS CAREFULLY SPENT.

THERE IS, HOWEVER, ONE THING THAT ONE DOLLAR AND FIFTY WILL BUY, THAT MAKES THE OUTLAY OF THIS AMOUNT AN INVESTMENT RATHER THAN AN EXPENSE. AN INVESTMENT THAT CAN, BY THE EXERCISE OF JUDGEMENT BE DOUBLED OR TREBLED. HUNDREDS OF PEOPLE IN THE TOFIELD DISTRICT MAKE THIS INVESTMENT YEARLY AND PROFIT BY THEIR ACTION.

ONE DOLLAR AND FIFTY CENTS SPENT FOR YOUR LOCAL PAPER, WILL, IF YOU READ THE ADVERTISEMENTS, RETURN TO YOU IN MONEY SAVED, MUCH MORE THAN THE SUBSCRIPTION PRICE BEFORE THE YEAR HAS EXPIRED. A DIME SAVED ON THIS ARTICLE AND A QUARTER SAVED ON ANOTHER, IF PERSISTENTLY TAKEN ADVANTAGE OF MEANS DOLLARS SAVED AT THE END OF THE YEAR. THIS IS OF COURSE THE PURELY COMMERCIAL SIDE OF THE MATTER

THERE IS, IN ADDITION TO THE OPPORTUNITY TO SAVE, A WEEKLY NEWS BUDGET OF THE TOWN AND DISTRICT. IT MAY NOT BE AN ITEM OF SUPREME IMPORTANCE TO THE WORLD IN GENERAL THAT MR. "A" "HAS BOUGHT THE ADJOINING QUARTER," BUT IT IS AN ITEM OF INTEREST TO HIS NEIGHBORS AND ONE THAT IS READ WITH UNDERSTANDING, WHEN THE DAYS' WORK IS DONE. MRS. "A's" ENTERTAINMENT OF A NUMBER OF GUESTS COULD BE LEFT UNCHRONICLED WITHOUT DIRE RESULTS FOLLOWING, BUT THE PUBLISHED REPORT OF THE PARTY, IS READ WITH INTEREST BY THE NEIGHBORS DURING LEISURE MOMENTS. IN FACT, EVEN IF THE "FOLLOWING UP" OF THE ADVERTISEMENTS DID NOT GIVE YOU AN OPPORTUNITY OF MAKING A PROFITABLE INVESTMENT, THE NEWS SECTION OF THE PAPER ALONE IS WORTH THE THREE CENTS A WEEK THAT IS ASKED FOR IT, WHILE OFFICIAL NOTICES, ETC., ALL HELP TO KEEP ONE INFORMED AS TO THE HAPPENINGS IN THE DISTRICT.

HAVE YOU ONE DOLLAR AND FIFTY CENTS? OF COURSE YOU HAVE! THEN WHY NOT INVEST—OR IF YOU LIKE, SPEND—IT FOR THE TOFIELD MERCURY. WE NEED AND DESIRE YOUR SUPPORT, BUT ABOVE ALL THINGS, WISH TO PROVE TO YOU THAT WE GIVE YOU VALUE FOR MONEY RECEIVED.

IF YOU ARE A "PAID-UP" SUBSCRIBER, IT WILL HELP US IF, SOME TIME, YOU CASUALLY MENTION THE MERCURY TO SOME ONE WHO IS NOT.

The Tofield Mercury

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government of Alberta, July 31, 1926

Will Exhibit in United States

Announcement has been made by Hon. Geo. Hoadley, Minister of Agriculture, that the province will place an exhibit for immigration publicity purposes at the Interstate Fair at Sioux City, Iowa, in September. The exhibit will include a display of grains and grasses, collected from all parts of the province, coal and tar sands, illuminative photographs of scenes throughout the province and other material. The Interstate Fair at the Sioux City includes the states of Nebraska, Iowa and South Dakota, and is one of the most outstanding fairs in the middle western states.

In making this announcement, Hon. Mr. Hoadley stated that it was deemed better to expend the money appropriated for this purpose in sending an exhibit to the States, where a greater field for settlers exists, that to the Toronto exhibition. The usual assistance will be given to the exhibit of the Women's Institute at Toronto. The usual exhibits of seed grain and livestock are also to be sent to the International Livestock Show in Chicago in December.

Big Interests Enter Oil Fields

A party of surveys officials and geologists of the Marland Oil Co. of the United States, having arrived in the province, and will make preliminary arrangements for an extensive search for oil fields in Alberta, in connection with the partnership which has been formed with the Hudson Bay Co. to develop possible oil fields on their lands of that company. The operations of the company will extend over a period of years and considerable development is likely to result.

Marlood Well Producing

The new Marland No. 2 well brought in last week in the Turner Valley produced gasoline at the rate of 127 barrels a day under a test made last week. The flow of wet gas from the well is increasing. This has been connected with the distillation plant of the Royalite Co. and gasoline is being drawn off.

Nine Millions in Wheat Pool Payments

During the past week cheques installing $9,000,000 were forwarded to the members of Alberta Wheat Pool as a second interim payment, on 1925 wheat. The further or final payment will be distributed some time in the fall.

OBITUARY

During the morning of July 18th, 1926, the soul of Alexander Forbes was separated from its earthly tenement and departed to its eternal home with God. While it was known for some time by his family and immediate friends that his life would be short, nevertheless the end came as a distinct shock to them.

Mr. Forbes was born in Aberdeen, Shire, Scotland, May 28th 1875. He received his education in Scotland. He was always a student and a great reader. Early in life he joined the Presbyterian church in Scotland.

His was a simple faith, a man absolutely honest in all his dealings. Of a modest and unassuming nature, he was loved best by those who knew him best, ready and willing to extend a helping hand to any in distress.

Mr. Forbes came to America in 1903 and settled in Missouri, where most of his life was spent. He was a prosperous farmer and successful stock raiser. He was married at Maryville, Mo., to Miss Harriet Murray, June 28th, 1911. To this union five children were born, who are left to mourn the loss of a devoted husband and father.

Mr. Forbes was a brother-in-law of T. Murray and Mrs. K. L. McIntosh of Tofield

REPLYING TO MR. PINCOTT

A PROGRESSIVE "sufficient majority" would meet the requirements of the editorial referred to quite as well as a majority by one of the other parties. The object of the editorial was not to strengthen the hands of any party, but rather to draw attention to the fact that it is disastrous for a country to have a permanently weak government. As examples there is France in the throes of financial disorder, while Italy (even while we might not like the method) is on the highway of prosperity. Even a country as well situated with regard to natural resources as Canada, cannot live within itself. It must carry on foreign trade. A weak government spells disaster to foreign trade. A few sessions of parliament like the one just passed and the value of the Canadian dollar would begin to drop, for the same reason that Mr. Pincott would refuse to lend money to a ne'er-do-well, viz: lack of confidence.

As regards using a number of progressive members as a lever to the rest of the house, we doubt whether the Progressive leaders would like to follow this method permanently. Furthermore it is a dangerous procedure, for while it may produce results when it works, it also produces memories when it does not.

There are advantages contained in the party system contained in no other—at least no other we know of, we are always willing to learn—but an individual or group of individuals should only view a political party as a means of service to the whole nation and not something to slavishly work for and defend as without blemish or fault.

BOYS AND CAMP

THROUGHOUT THE Dominion there are, during the months of July and August, literally scores of boys' camps, directed by competent leaders, whose source of authority comes from some body affiliated with any one of the churches.

It is a good thing for the boys, they thoroughly enjoy it, and are very sorry when their camping time is up. There is an atmosphere of friendly discipline which, though mothers will find it hard to understand, appeal to the boys themselves. There is plenty of good wholesome fun, fresh air and food, and if the boy comes home looking like a Red Indian, the violet rays he has absorbed into his system via his bathing suit, will stand him in good stead later on in the year when he is busy with school work.

Camp Kewaydin, to which the boys from Edmonton and vicinity go, is situated at Hasting's Lake. Most of the boys there are from the city and towns. It has occured to us that many boys from the country would enjoy this camp and if their dads were as well acquainted with it as some of the town dads are, they would only be too willing to put up the little money required to have them go. The mingling with other boys would be a good thing for them, and while, if in the ordinary course of events, the farm lad gets plenty of fresh air at home, the organized games would be a real diversion to him.

BERRY PICKING TIME

IN HUNDREDS of homes in the Tofield district right this minute, one will find evidences of nature's free bounty. It may be a kettle containing simmering berries, a boiler with the sterilization process in operation or rows of glass sealers containing fruit or jelly ready sealed for winter use. The thousands of pounds of berries that will be picked this year is truly natures free bounty. For these there is no labor of planting or cultivating. There is, however, the labor of picking, which under a hot sun, is no easy task. Even though the berries grow wild and cost no money, in order to eat, one must put forth effort. Housewives will be glad that the berries are plentiful this year, though owing to the dry summer not as large and lucious as some years. This district is particularly fortunate as regards wild fruit.

NOTICE

NOTICE is hereby given that a petition has been presented to the Council of the Town of Tofield under the provisions of the Early Closing Act praying for the passing of the following early closing By-Law:

Bylaw No. 22

BEING a by-law of the Town of Tofield providing for the early closing of shops and places where merchandise is sold by retail on Wednesday of each week at 1:00 o'clock in the afternoon during the months of June, July and August of each year.

1. Shop shall mean any place or premises where any retail trade is carried on and shall include any premises in which a barber carries on his trade, and any office.

2. After the date of the final passing of this bylaw no shop shall remain open after the hour of one o'clock in the afternoon of Wednesday of each week during the months of June, July and August of each year, and no merchandise shall be sold after that hour excepting to such persons as may be in any shop at the hour of closing.

3. This bylaw shall not be deemed to apply to sales of the following merchandise:

Medicines and medical and surgical appliances.
Intoxicating liquors.
Refreshments for consumption on the premises.
Bread.
Newspapers, Tobacco and other smokers requisites.

Provided that in the case of a restaurant, drug store or other place of business where any of the merchandise in the above schedule is sold that no other merchandise whatsoever shall be sold.

4. In case of an emergency, any retailer of machinery or parts of machinery of any description may sell any part required for repair or replacement to any person urgently in need of such part; provided, that after such part has been supplied that the place of business shall again be closed.

5. Any person convicted of a breach of the provisions of this by law shall be liable to such penalties as are laid down by the early closing Act of the Province of Alberta.

NOTICE is hereby further given that objections to the petition presented to the council praying for the passing of such Bylaw on the grounds that such petition is insufficiently signed or otherwise affecting the validity or sufficiency thereof must be filed with the Secretary-Treasurer of the Town on or before the 21st day of August, 1926, and that if no such objections are filed before the said date the council will proceed forthwith to pass the said closing Bylaw.

New Branch Line

Steel is now being laid on the new branch of the C.P.R. runs Cardston to Glenwood, in the southwestern corner of the province, and the line will likely be completed for its thirty mile length in time to handle this year's crop.

Soil Surveys Progress

The soil surveys being made under the joint auspices of the Provincial Department of Agriculture and the University of Alberta are progressing, the present survey being under way in the territory west of Youngstown. This is the third year in which soil surveys have been conducted.

11.00 a.m Legan
3.00 p.m. Lindbrook
7.30 p.m. Evansburg, Tofield.

After the Sunday, services will be supplied from Edmonton until the return from England of the Vicar, if extra services of the church are at any time required Mr. McArthur or Mr. Swindell should be notified.

After Twenty Years

The Province of Alberta is this year celebrating its 21st birthday. Years before the formation of the three provinces from the North West Territories, there were settlers from the east, south and over the seas, carving out their fortunes here. Many have been very successful and now have splendid lands and homes, fitted with modern appliances that make the westward slope of life easy. Others are now considering the purchase of farm lands.

The KOHLER automatic electric light plant will make life brighter and lighter on the farm. With the Kohler installed, press a button and you get light, turn a switch and you get power. It is remarkably well made and thousands of users testify as to its efficiency and economical upkeep. Write or ask for booklet entitled "The Principle and the Proof" describing the Kohler Automatic Electric Light Plant.

Tolerance

Many years ago the late Bishop Potter, of New York, said: "I shall proclaim as my particular line of business the preaching of tolerance." It was not long before he found himself preaching on that subject. He thought he ought to teach a principle. It was a time when men were suffering for the sake of opinion. Bishop Potter was not willing that any man should be persecuted for his belief.

I suppose that we are more tolerant than we were a generation ago. Perhaps the growing spirit of tolerance is a result of the increasing bigotry and intolerance of the spirit of persecution. Nevertheless, there is plenty of room for a much greater development of this spirit not only in our individual relations, but within the boundaries of our own Dominion.

With another general election pending in Canada it is perhaps timely to urge the necessity of a more tolerant spirit and method in our political life. Individuals we may differ on points of constitutional law, but in so many other matters we are one people or group should determine those issues on the basis of the best interests of Canada as a whole. Why should we not have a Liberal and Conservative point of view on the tariff, for instance, and yet both be good citizens and sincere in their desire for the welfare of the country? Why should not honest opinions on the subject of the tariff and both be good citizens and sincere in their desire for the welfare of the country? Why should not honest opinions on the subject of the tariff and reciprocity greatly differ? The reason why the West should denounce the East as a den of iniquity, or the East denounce the West as a land of fools, is hard to see. It is not to be denied that opinion is in a measure governed by environment, but the point is that opinion is possible, just as it is possible for one man to have the best of reasons for his belief and for another man to have the best of reasons for his belief, and yet both be honest, intelligent and patriotic citizens.

A spirit of intolerance should characterize the attitude of every thinking man or woman who considers the fundamentals of our country. Let the Liberals and Conservatives of Canada, for instance, be tolerant of each other's views. Let them not be afraid to express honest opinions and to listen to honest opinions. Let them not be afraid to change their opinions when they are convinced that they are wrong. Let them not be afraid to admit that the other man's opinion is better than their own. Let them not be afraid to say that they have changed their opinions. Let them not be afraid to say that they have changed their opinions. Let them not be afraid to say that they have changed their opinions. Let them not be afraid to say that they have changed their opinions.

It is well to remember that the Liberal and Conservative parties are not two religious denominations, but two political parties. They are not absolutely opposed to each other on every question. They are not absolutely opposed to each other on every question. They are not absolutely opposed to each other on every question

THE TOFIELD MERCURY

VOL VIII., NO. 32 WEDNESDAY, AUGUST 11, 1926 $1.50 PER YEAR, TO U.S. $2.00

MIDMONTH FORTNIGHTLY CROP REPORT

Issued by the Department of Agriculture, Edmonton

... the wheat crop situation may be said to be satisfactory. Given fairly favorable conditions up to harvest, the ... interference will reap a somewhat larger crop than last year. The area of ... very poor crops are less extensive than last year, and the situation ... better.

There has been, however, a considerable period of great heat, and it is idle to argue that this has not had its deteriorating effect. In many districts this condition has been relieved by ... rain, varying in degree, but in the districts ... where the crop was light, it has had the effect of destroying the prospect for any very large yields.

The chief territory then offered ... may be described roughly in two sections, the first being the south-east ... corner of the province, from Kenyon ... to the United States boundary, and the other being a belt ... extending from Edmonton eastward ... and north-eastward in the border of the province with Clover Bar, Morinville and Vegreville districts as its southern base and the St. Paul line of the Canadian National Railways ... north of the Saskatchewan river as its northern border. North and east of Edmonton through the belt described, he crops are very light having suffered continuously from lack of moisture. This is an area which has in past years invariably produced good crops, so that the condition experienced this year is most unusual.

As you are all aware, I have property holdings in the Tofield district and could not get away from Tofield to start an auction sale, because I am a different locality, hence I did not start auction work years ago. I have had some experience in the ring, have handled all kinds of stock and all kinds of machinery, and should know the value of things a farmer, stockman or others have to sell.

If you will remember, I was instrumental in starting D. E. Ball in auction work here and hope I was of some benefit to him; also we were in business together here, but we did not find it financially large enough for both of us, and I, having other interests, turned all the business over to him.

Furthermore, I wish to state D. E. Ball sold his business and good will to James D. Hannan and Jas. Carver, and it was no small of a surprise to him as it will be to you to see my name in connection with auctioneering as Tofield. I am not starting as a competitor to Mr. Hannan and Mr. Carver, but I solicit a trial and if I fail to satisfy, I want no money for my services. I will leave the decision solely to you, and trust to your honesty and better judgement.

Thanking you in advance for any favors you may grant me,

I am, respectfully yours,

F. G. BALL

Kindly give me your sale
You will find I stand the test
And I will guarantee
The results will be the best

Watch Your Car

You have quite a little money tied up in your car. It is good business for you to watch it carefully. Whenever any unusual noise is heard or when any unusual thing occurs when you are driving it is better to find out what the trouble is before it gets to the break down stage. We are working with and inspecting cars every day and would be pleased to add yours to our list.

ANNOUNCEMENT

Tofield, Alta.,
August 2nd, 1926

I wish to state to the general public of Tofield and neighboring districts, I am in a position at present and have been prepared for several years, to conduct your auction sales, but owing to my brother, D. E. Ball, having an established auction business here and in the surrounding district, I have not considered it good principle or policy to start any business which would be antagonistic or conflict with any of his business interests.

As you are all aware, I have property holdings in the Tofield district and could not get away from Tofield to start an auction or other business in a different locality, hence I did not start auction work years ago. I have had some experience in the ring, have handled all kinds of stock and all kinds of machinery, and should know the value of things a farmer, stockman or others have to sell.

If you will remember, I was instrumental in starting D. E. Ball in auction work here and hope I was of some benefit to him; also we were in business together here, but we did not find it financially large enough for both of us, and I, having other interests, turned all the business over to him.

Furthermore, I wish to state D. E. Ball sold his business and good will to James D. Hannan and Jas. Carver, and it was no small of a surprise to him as it will be to you to see my name in connection with auctioneering as Tofield. I am not starting as a competitor to Mr. Hannan and Mr. Carver, but I solicit a trial and if I fail to satisfy, I want no money for my services. I will leave the decision solely to you, and trust to your honesty and better judgement.

Thanking you in advance for any favors you may grant me,

I am, respectfully yours,

F. G. BALL

THE NEW 1927 ESSEX COACH

Hudson-Essex Motors have not placed on the market their new 1927 Essex Coach. So popular has the Essex Coach become, and so enormous the task that the manufacturers have erected a new factory costing over ten million for the manufacture of the Essex Coach body alone. This new factory covers 16 acres of land and, besides several other improvements, is now ready to rivet, bolt and rivetted throughout, so rigid that squeaks and rattles are as unlikely as in a steel building. The entire body is hand baked enamel, so that the natural gloss should last for years. Do not fail to see one of these new models when in town.

U. F. W. A. NOTES

Pickles, pennies and politics were the leading subjects for discussion at our last meeting, which was very well attended. Everybody answered roll call with a current event. After appointing Mrs. R. C. Phillips as delegate to the U.F.A. convention, with Mrs. F. Hall as substitute, Mrs. C. Barnes read a very concise paper on "Canning Berries," which should prove of much assistance to our wives supplies. Then ish pickle question arose and much discussion followed. Many and varied were the recipes given, for better, for colder, for sweeter, for sourer, for better, for worse, in cashmere and in broken ... as forth. It was decided that this early season is too late for a picnic, so we'll probably have a banquet later on. The question has been further ... but we have not yet ... decided on. Our member ... is in training, we now number 29. Next meeting will be held on the 31st, inst., time and place as usual, when Mrs. R. C. Phillips will read a paper on "Pattening and Preparing Poultry for Market" and there will be an open discussion on "Does it pay to call?". Roll call will be answered by "School Lunches" or "Current Events."

May Welch visited the P. Paulson home in Camrose last week.

Several showers of rain have fallen and over the district lately and the frost seems a good crop is assured.

WORLD HAPPENINGS MOSTLY TRUE

William H. Atkinson, A.R.C.A., the distinguished Canadian landscape painter, died recently in Toronto.

Canada's wheat crop for 1926 is estimated at 349,236,000 bushels. Last year it was 411,874,000 bushels.

One thousand and sixty-nine settlers entered Winnipeg recently on three trains. They came from the Old Country and the continent.

Commandant Pierre announces that he will undertake his previously planned world flight next year, leaving Spain in April, accompanied by his wife and by Mechanic Rada.

Seven hundred persons died in New York city from poison liquor last year, said J. W. Spellissy, chief chemist of the bureau of internal revenue, in issuing a warning against drinking bootleg whiskey.

Testimony at the trial of fifty men accused of treason in Angora has revealed that Turkey was forced into the world war by Enver Pasha, despite the efforts of a majority of the cabinet who fought against this step.

John Henry Mear, who owned the machine in the globe was beaten by Lieton Wells and Edward H. Evans, and other airplane fans, is planned to have their special train flown by a delegation of city and other officials and Mayor Walker will welcome the aviators. A special committee was appointed to handle the arrangements, which include the luncheon, dance and theatre party.

A statement made public by the department of immigration and colonization shows that there was an increase of 65 per cent in immigration to Canada during the first five months of the calendar year 1926, compared with the same period a year ago.

Sheriff Colin Dinnie, re-elected his 43rd birthday recently in Winnipeg, and received congratulations from all parts of Canada. "I didn't I should live to be!" he said. He has been sheriff for more than 9 years and is the only surviving member of the half-letter royal 13 A.D.

Three passengers were killed when the loader dropped from a cupola but been in Rochester, near Bradford, Eng. The accident was caused by the gas bag breaking loose from its moorings, releasing the basket. Of the four passengers, only one escaped with bruises.

Rt. Hon. John T. Merryman, M.P., one of South Africa's leading statesmen, died Aug. 3 in Capetown. He was born in Somerset West, England in 1841, and went to South Africa in 1863. He was premier and treasurer of the South African government in 1908-10.

States are United Against Russian Reds

British Have Completed Ring Fast Egypt to China

Following a conference of the chiefs of the secret services of all the British dominions, just concluded in London, the British colonial and India offices have announced that the extradition of Turkey and Hindustan the whole southern part of Russia is considered by a series of states determining climbing and mobbing, while armored motors can be made to follow and marching the body into the brick outside the park.

These states, it is announced, are united in a continuous cordon of troops from Egypt to India and China. It is further announced that the Chinese Trocott Calcutta, Peking chief, have been appointed to head the propaganda section at Scotland Yard for the next five years.

In Egypt, the governor of Sudan, who is most friendly with the native leaders, which has been worked with a strong opposition and England now is prepared to withstand by force any attempts to spread red propaganda.

Mamie—Why, he's getting along very fine he's recovered from

Nurse—Well, I'll just sit down and wait till he's through

Canadian Show in New York

Canadian Mayors Invited to Visit N.Y. During Exhibition Show

Following a meeting of the executive and general committee of the Canadian Exposition, held at the Hotel McAlpin headquarters in New York, Henry K. Coleman, executive chairman of the exposition, announced that plans had been made to bring the mayors of virtually every Canadian city to New York on a special train, for the exposition opening in January, 1927. Other detailed plans of the exposition, which will be housed in the Manhattan Opera House beginning Jan. 14, were made known also, following the meeting.

Arthur L. Lee, managing director of the Michigan, who attended the meeting, stated that several floors of the hotel would be set aside to entertain the Canadian officials, and that a considerable part of the hotel would be given over to guests here for the big show. He will be a special director here, with the Right Hon. Lord Cunliffe, governor of the Bank of England, and Sir Edward Peacock, of Canada.

Among the mayors expected to come here are, The Honorable Thomas Foster of Toronto, E. Martin of Montreal, and the chief executives of Quebec, Winnipeg, Vancouver, Ottawa, and other principal cities. It is planned to have their special train met by a delegation of city and other officials and Mayor Walker will welcome the visitors. A special committee was appointed to handle the arrangements, which include the luncheon, dance and theatre party.

A statement made public by the department of immigration and colonization shows that there was an increase of 65 per cent in immigration to Canada during the first five months of the calendar year 1926, compared with the same period a year ago.

The Charm of Soft Fabrics

New frocks are soft and dainty and charming and lovely and dainty. The frock person sees before is sure to take the eye. Soft silks and fluffy woolen fleet become of its arrest her simplicity of line, and remain the cause of the liveliness of its material. A wide ribbon sash of the fabric of the waistline, above rippling skirt below should be lovely. The bottom note is finished with a narrow binding of the same plain material as the bodice and sleeves. No. 1244 is in sizes 16, 18 and 20 years. It requires 3 yards 136 inch for 16 years, and 3 yards 36-inch flannel for 18 years and 20 years. Price of pattern 20c.

The secret of distinctive dress lies in good taste rather than a brain in the possession of money. Every woman should study the lines of her figure and use those dressmaker will find the design illustrated is one of the fashion hints to be printed and simple, yet distinctive. Price of the book is 10c.

The Training Of Children

Valuable Work Being Carried On For Walloon Saskatchewan

Over 1,000 Canadian boys and girls of foreign parentage are taking part in the annual summer vacation schools conducted by the Canadian Council of Agriculture. These schools are being attended by the committee in charge in all parts of the province, and the latter is shown in the tournament to date would indicate that it will be a really international competition. It is understood that the results and prizes will be announced at such time that they will be widely printed by the winners.

In reading circles, pupils are requested to give full name, club name, township and address, and in the short story as early as possible in text of 500 destination, just received in London, the British colonial and India offices have announced that the extradition of Turkey and Hindustan the whole southern part of Russia is considered by a series of states determining climbing and mobbing, while armored motors can be made to follow and marching the body into the brick outside the park.

Making Yokohama Beautiful

Reconstruction After Great Earth Quake is Being Rapidly Completed

Yokohama, Japan, will be a new city when the work of reconstruction under the great earthquake is completed and, said the Marshall Field, a resident of that city who was in Canada recently in Montreal thanks to Lindbergh. He will return to Japan this week.

The work of reconstruction is being carried out with the utmost speed and the new city will be one of the most beautiful cities in the world.

While electric cars will be built, and modern buildings and facilities will make Yokohama one of the most delightful cities in the world."

To Salvage Cannon

Equipment Lost to Lake An Result Of Aeroplane Wreck

Frank Stevenstein, a Fort William diver, has been engaged by the Ontario hydro-electric service to salvage the cannon and other equipment which was lost in the bottom of Kashabuka Lake as a result of the wreck of the aeroplane piloted by F. July 29. The lieutenant-aviator was killed in the accident and his body was recovered by a search party.

Well, Algy, I hear you have taken up walking as the shorter ordered. How does it go?"

"Beastly a bit awkward at first! Without a whistle."

Insurance Agent (to) you want your office furnishings insured against fire?

Boss Yes, all except the clock. Everybody sees him that.

Between eight and nine hundred languages and dialects are in use among the natives of Africa.

The Canadian Legion

Charter of Incorporation Has Been Granted By Letters Patent

Letters patent incorporating "The Canadian Legion of the British Empire Service League" have been issued by the secretary of state, according to an announcement sent out by legion headquarters. Through the charter of incorporation the legion is empowered to "establish, organize and regulate provincial, district and local bodies or commands and branches, in Canada, elsewhere and to establish parallel organizations to be known as ladies' auxiliaries."

The charter of incorporation gives legal effect to the work of the making ties that has been pre-ceding amongst Canadian veterans' organizations since the visit of Field Marshal Earl Haig, grand president of the British Empire Service League, to Canada last year.

The official intention of the legion as to seek a royal charter by special act of parliament, but the dissolution of parliament made it necessary to alter this program, explanation then was made for a charter under the Companies Act.

To Exhibit At U. S. Fair

Alberta To Be Represented At Big State Fair At Sioux City, Iowa

A good many farmers and all one of the big state fairs across the line this year, Attorney-General Lanigan of Alberta has completed arrangements to have a special exhibit at Sioux city, Iowa, where the states of Iowa, South Dakota and Nebraska will hold their annual inter-state fair the week of Sept. 20th.

The exhibit will be prepared at once, and will be made up of grains and grasses, roots and vegetables, coal, tar, sand and limonitewise mineral products, and other products of Alberta's soil—a exhibition to be, a good location for which has been secured by the department.

Condensed Milk Absolutely Pure

Value of Condensed Milk As A Product of Health

The value of condensed milk as a product of health is being more and more accentuated by an item in the London Daily Mail recently, one sentence in which is specially noteworthy:

"The complete replacement of fresh milk by condensed milk has notably reduced rickets results."

This is in line to deal with the activities of the London Municipal Society and was reporting on the health of the school children, especially those with eleven, hence, were liable to epidemics of measles and whooping cough. The atmosphere seemed to die of nothing else. Yet they lived under very much worse conditions than those of the present day, and were free from the many dirty draughts of fresh milk. Then the fresh milk was not used, and condensed variety substituted. A mark of improvement followed and tuberculosis has been stamped out of the people. Where this stamp is not there hope pendulous. The Borch a Company Limited, who put up the first condensed milk, have long advocated it as an infant food on the ground of its purity and freedom from germs in the form. This incident would seem to bear out the claim. For this purpose, as mother's milk, there is no milk so safe for the infant as Castle Brand.

East African Country Has Evil Reputation

The fact that only five natives from the Belgian Congo left Africa—Ireland, Africa—Ireland speaks in the white man's country, and that only 1,000 remembers and evil reputation. The name of the country is Change. In white the natives have been known as cannibals. The "Da Change" has been in the country for many years, but all on still borne with the metaphore Large tracts of country have been wiped out by the cultivation of the fatal people from the interior, and the Belgian Congo is the evil reputation. The trade only a compass can save one. For over ten years the plains on the Belgian Congo have been known as the Edward have been viewed and deserted by Belgian Trust Company of New York. In the plain are the ill the people of Africa's ancestors in an white Belgium, the second son of King Albert of Belgium. Mrs. Gibbs, mother of the nationalities that live side by side in the raid on the Mole, placed flowers beneath the tablet.

Linseed Empire By Radio

The new boom radio transmitter connecting London with Canada and South Africa will be put in operation about May 1, according to reports received by the department of commerce. It is expected that the Australian and Indian circuits will be ready by July.

OUR CROSSWORD PUZZLE

SUNDAY SCHOOL LESSON

AUGUST 15

JETHRO'S WISE COUNSEL

Golden Text To each one his work Mark 13:34.

Lesson Exodus 18:1 27.

Devotional Reading: Psalm 103:1-5.

Explanations and Comments

Arthur's Counsel, verses 13-23.—Jethro, Moses' father-in-law, had visited Moses in the wilderness of Sinai after the Israelites had left Egypt. He was now remaining, in answering inquiries, to set Moses' wife and children on their way home. Moses had consulted Jethro concerning the matter of judging the people. When they had a matter in dispute, they came to Moses to settle it. Jethro saw that this was not wise. He told Moses that he would wear out both himself and the people. Moses must appoint judges to help him. Moses was willing to do this, but he must be sure that the judges were men of character and ability. Jethro's counsel was good. Moses followed it.

Suggestions

"Thou shalt provide out of all the people able men" (Exodus 18:21).

"The thing that I do not know, said Mr. father in law Moses, "there may be more doing" (Matthew Henry).

Value Of Water Power

Rapid Development of Use of Water Power Has Effect on Coal Industry

One of the most important factors which contributed to the present activity in the coal trade is the rapid development of the use of water power. Little attention has been paid to the water power in this direction, and, according to address recently by Sanford Trust Company of New York's mine engineer, the possibilities of water power in the United States are enormous. There are 10,000 streams in the United States, with a total flow of 2,000,000 cubic feet per second. Of this total, 1,000,000 cubic feet per second is available for power purposes. The total power available from these streams is 30,000,000 horsepower, or the equivalent of 300,000,000 tons of coal a year, while the total coal consumption of the United States in 1923 was 600,000,000 tons. Water power has been increasing steadily. Between 1923 and 1925 the increase was 1,500,000 horsepower, or more than 25 per cent. In the past three years 2,000,000 horsepower has been developed, and there are now under construction 1,000,000 horsepower more. The total power developed in the United States in 1925 was 8,000,000 horsepower, or 13 per cent of the total power developed. Canada is the country which has developed the largest percentage of its water power, with 3,000,000 horsepower developed, or 30 per cent of the total power developed. Norway is the country which has developed the largest amount of water power per capita, with 1,000 horsepower per capita.

Italian Immigrants Arrive

Among a total of 856 third class passengers who arrived at Montreal on the steamship Duchess of Bedford from Liverpool on Saturday, were a party of 150 Italian immigrants, the largest single group of this nature who has been landed at the port this year. They will be employed on the land in Ontario, the prairie provinces and British Columbia. The remainder of the third class passengers on the liner consisted largely of Poles, Hungarians and a few nearly Britishers, all on the way to the western provinces.

"Mum," said the master during the reading lesson, "can any of you tell me the meaning of 'ere' thereon?"

Arr, sir," said Tommy, "divers' dresses is water on the brain."

Pioneer—I'm in love with your daughter, sir.

Her Dad—What are your prospects?

Suitor—Fine! She's accepted me

Beat the fly with GILLETT'S LYE

A teaspoonful of Gillett's Lye sprinkled in the Garbage Can prevents flies breeding

the Gillett's Lye for all Cleaning and Disinfecting

Costs little but does effective

Clean to handle. Sold by all Druggists, Grocers and General Stores

A Wonderful Camera

More Wonderful in Some Ways Than the Human Body

There is a camera in London that is capable of recording pictures at the rate of 200,000 a minute. Many that man can make machine is more wonderful in some ways than the man built. The human eye, in comparison with the camera, cannot receive more than thirty impressions in a second. The new camera is 6,000 times as fast. Let a train be blown up by a charge of powder and this speedy camera will take a picture of the exploding shell while the fragments are in the air.

Much we not have a camera some day which will do just the small things—and every one of them—that we not have a machine which will show us what the whole picture looks like at a glance?

Why we have learned to do much, more than we ever did all the years as son of this as the wise Solomon Paterson in Toledo Herald.

Joanna

Strange, Romantic Love Adventures of the Flapper you know!

By H. L. GATES

CHAPTER XI.—Continued.

"Shall we begin with Buddy?" Bran den asked, and they did. Jeanne bought him a wooden sailor suit, a fine eyelashed bisc drawing for his a pair of pistols and a waxed boat, a fabulous she classified as a "combination bike" in a colorful domain.

A hard day for Pablo Ruth Elder as he was lost to that company of women whose he hands labor at home and whose feet ache at the stores. Blossom gave ready and rich loyalty forward the Pueblo palace, and made their place at Ruth's, Sweeten's great gambling rooms, a haven of delicious food and glorious golden in the pastels of society, and the latter soon became among the social nights of New York's riven with rage; a woman Blossom Brandon, whose he insisted, occasionally, with the bounds of a country bred, and a born gallant, would be of the best and the hearts that is France

"A woman need never fear or being seen with our friend understood upon her," Brandon added to his own great discomfort. "She adores me so much no one here treats her with disrespect. Interested in a new sensation adds just the proper perspective to her social position's background for the unbidden by Buddy is a rather extremely romantic worthiness."

"Has his business doesn't for really much to do with the matter," remarked Blossom.

"She's not a family, you know! Inherited money. I believe he would explain that it is the duty of inheritance to spend it. Perhaps it does, when one's only pastime is polo and the Riviera, but I'm afraid I'm not quite such an parasite, or resigned yet, am I, Blossom?"

"If you were of the mood to be somewhat, you will find Buddy most amiable."

Jeanne thought Brandon was what she called a "dear" and was pleased when he patted her a minute, the before he left to join Buddy and Ruth at the starter's at the edge of the dance floor. "I shall play too you, too," spoke to Blossom. "I am sure that you have prepared even to such capable mama as you have for example." A to most a relationship merged within her in Ruth the confidence that had so far lacked her, and there was a new poise before her boy mysterious money refused arrive her brain. Jeanne knew which never best to encounter a woman who knew Blossom's affairs were real, who made it a point to know everything that was to be matured by the subtleties of the world. The world that was without the restraints of the

"And Yvonne?" the subtle speak of Blossom.

"I wonder if ever I shall know."

"I think you do, Jeanne," spoke by Blossom's dark. Jeanne reserved her answer, but there was a gentle calm in quickness to ask her, to be with Blossom. Yvonne's with the Duchess Rhodes. It was here behind that the mighty forces of brass boarded the mouth of the Mediterranean in the Jeanne's life. Life became a race or the weight at material that he has been prepared that the Duke of the Nile was so suddenly that the Ambassador Excellency, would not be able to be present at the ball to be held in the Duke's honor.

No minute at present standing in and Jeanne's mind was filled with the chosen who with the Unbeaten Rhodes. It was here behind that the mighty forces of brass boarded the mouth of the Mediterranean in the Jeanne's life. Life became a race or the weight at material that he has been prepared that the Duke of the Nile was so suddenly that the Ambassador Excellency, would not be able to be present at the ball to be held in the Duke's honor.

The bar was taken. Wales and his friend walked three blarks without, to Rest. Jeanne and Blossom danced at Wales, and the friend reduced the

"She didn't recognize me as the would have been too much to ask," Wales responded, "the emotion was the tallest sound the baron on This is the time to dance! Let's back for you."

HAD PIMPLES OVER A YEAR

On Arms and Limbs. Lost Rest. Cuticura Healed.

"I was bothered with pimples for over a year which showed my arms and limbs. The pimples were rather large and red and quite hard. They festered and then dried up, left behind and burned causing me to scratch, and I lost rest on account of the irritation.

A friend recommended Cuticura Soap and Ointment so I sent for a free sample. Then was a difference after using it so I purchased more, and after using two boxes of Cuticura Ointment and three cakes of Cuticura Soap I was completely healed." (Signed) Miss Stella Minaehe, Box 13, Pittsburg Sask. Nov. 10, 1925.

Use Cuticura to clear your skin and keep it clear and healthy.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the world. Cuticura Laboratories, Dept. X, Malden, Mass.

Here Centuries Before Columbus

Norse Explorers Were Here Long Before Columbus Discovered America

Norse explorers were here long before Columbus discovered America, a fact which is established beyond all doubt by the finding of Norse coins in the ruins of Indian mounds in Minnesota, Wisconsin and Iowa, according to Professor O. J. Breda, of the University of Minnesota.

Professor Breda has made a study of the coins found in the mounds and has come to the conclusion that they were left there by Norse explorers who visited the country in the 11th century.

Wool From Northern B.C

How London Zoo Started

Natural History Enthusiasts Responsible For Present Valuable Collection

The London Zoological Society, a body composed of fifteen natural history enthusiasts, who met at regular intervals to discuss animal matters, originally they decided to start a zoo in Regent's Park, where fish could be stored, waterfowl bred, and a small menagerie of animals kept for the pleasure of the Zoo.

Today the collection number some thousands of animals bird and other creatures, and it was started with but a few animals to be found, from the whole number of specimens now housed in the Zoological Gardens a keeper is responsible.

Interesting Facts In Government "Blue Book"

Official Report Issued Every Year By London Police

Every year, about this time, a few hundred persons send with their letters to the "Blue Book" just published, showing exactly three thousand persons have died in London during the previous year.

The Blue Book is the official report of the births, deaths and marriages in London, and it is issued with the object of enabling the police to trace persons who have disappeared. Each year 218 persons of all ages and conditions are reported missing to the police. In the Metropolis there are fields of hundreds of acres in which, under certain conditions, a person could lose himself for months.

Every year about 1,000 persons are found in the streets of London, and these are taken to the police stations. Many of them are suffering from loss of memory, and are unable to give any information about themselves. Others are found dead, and the police have to make inquiries to establish their identity.

Many of the persons who are found dead in the streets of London are suffering from loss of memory, and are unable to give any information about themselves. Others are found dead, and the police have to make inquiries to establish their identity.

Music Of the Elements

Orchestral Effect Produced By Wind Under Certain Conditions

It was not considered to be much, but there is a certain rather that the music of the elements was at one time of the most popular kinds of entertainment. Even in the days of Queen Elizabeth, however, the presence of the wind in the orchestra was considered a great advantage.

**Orchestral effect produced by wind under certain conditions make a visible sound that from other effects of sound that from other effects of sound. The sound is produced by the wind, and the sound is produced by the wind, and the sound is produced by the wind, and the

There Isn't Time

Preparing for a brief holiday at a summer cottage on one of our lovely Muskoka lakes, the author of this outburst learned a few sad moments in his efforts to talk to poor an able lumat while battling under the stress of thinking about the hole he was making in an already appalling number of golf balls which appeared on the top of this column.

Most other people learn at an early age to "practise" things, but I never did. It was not even a case of "no one hear will ever hear me sing" with me. I had to learn golf the hard way, and I'm not sure that I'm not glad of it. I have no bad habits to unlearn, and I have no one to tell me that I'm holding my left elbow too high or too low, or that I'm not keeping my head still enough. I have no one to tell me that I'm a rotten golfer, and that I'll never be anything else. I have no one to tell me that I'm a rotten golfer, and that I'll never be anything else. I have no one to tell me that I'm a rotten golfer, and that I'll never be anything else.

LIBERALS SELECT J. S. McCALLUM AS FEDERAL CANDIDATE

Formerly a member of the Alberta Legislature from 1913 to 1921, during which time he made a reputation as one of the most progressive members in the local house, and one of the hardest workers in the interests of the constituency, Joseph T. McCallum, of Mundare, has been unanimously nominated as the Liberal candidate for the federal riding of Vegreville, in the pre-set campaign.

Mr. McCallum has been a resident of Mundare since 1906, and built the first building and established the first business there. That his foresight and faith were justified is proven by the fact that Mundare is today the established district for supplies in Alberta.

Born in Renfrew, Ont., in 1884, he came west with his parents in 1902, when they homesteaded in Beaver valley district, and the McCallum name is well remembered by old timers who subjected to hardship when going in from the railroad terminal of that time to their locations in the eastern districts of the riding.

Mr. McCallum grew up on the homestead and received his schooling at Edmonton high school and Regina normal school, afterwards commencing survey by teaching school in the constituency for which he is now nominated. After teaching school for some time he farmed at Beaver Lake where he married. Later he moved to Mundare, where he has resided ever since, and where he is known as one of the biggest farmers and most outstanding successes of the Vegreville constituency.

Always of an independent and progressive turn of mind and thoroughly understanding the interests of the electors of Vegreville, Mr. McCallum is regarded by liberal leaders as one of the strongest liberal candidates in the west. He speaks Ruthenian fluently and his legislative, business, and local experience both as farmer and business man, makes him an outstanding candidate in the present election.

THE NEW 1927 ESSEX COACH
In addition to what we have told you previously about the new 1927 Essex Coach, there are several other improved features which we have not here space to describe. Particularly, however, the one rug door is interesting. It is guaranteed that a 200 pound man can hang on each door, wide open while the car is travelling over rough roads without causing the slightest sag. Generally admitted to be by far the greatest value for the money in the car world. As any of your friends who own one.

Local and Personal

Miss Minnie Wood spent the week-end visiting friends in Edmonton.

Miss Mona Brenner of Edmonton is visiting in Tofield.

On Thursday last, T. R. Murray was taken to the Lamont Hospital to undergo an operation.

Miss Elsie Kendall returned from her first trip to Alaska on Saturday. She is now in Edmonton having her tonsils removed.

Mr. T. R. MacEwan, chief instructor, Woodland Dairy, Edmonton, was in town on Friday and Saturday of last week.

Geo. McMahon returned on Sunday from Pinch, Ontario.

The Hobson children and Miss Bessie Owen are camping for two weeks at South Cooking Lake.

Miss Jean Dickson of Edmonton is visiting at the W. A. Mitchell home.

Geo. Blissett was a city visitor on Friday.

Mrs. Maxwell and two children of Edson visited at the Abbott home last week. Mr. Maxwell came on Sunday by car and returned on Monday.

On Friday last Hildreth Lewis met with an accident at the Tofield Creamery. While moving a blast of ice the shovel broke, the handle cutting his eyebrow and lid. He is taking treatment at the general hospital, Edmonton and progressing nicely.

Mr. D. R. McIntosh is visiting in Edmonton this week.

Mr. and Mrs. C. M. Simmons, Miss Hilda Nomeland and Ilse Simpson are on a two weeks holiday at Jasper Park.

Mr. and Mrs. Spence of Southey, Sask., visited Mr. Letourneau, mother of Mrs. Spence on Wednesday and Thursday of last week.

Mrs. A. E. Calvert and Miss Nattie Neal returned from B.C. on Thursday.

Mrs. Geo. Blissett is visiting her parents at Alta.

Mr. and Mrs. Law of Innisfail, are visiting their son, this week, on Tofield.

Mr. G. W. Firth and daughter, Gwendolyn and Patricia are visiting at the home of Mr. and Mrs. A. J. H. McCauley.

Mrs. Howard Cole and young son of San Francisco, Calif., visited at the Griswold home this week.

Mrs. J. Lee and Clifford returned on Monday from Calgary. Mrs. W. C. Richards and daughter Ruby, of Calgary, returned with them.

Mr. F. H. Griswold is visiting his daughter, Mrs. L. Scott, in Edmonton for a few days.

Mr. and Mrs. C. Hobson and Mr. and Mrs. Geo. Bissett returned from their motor trip to the coast on Wednesday last.

J. Holstine of Calgary is in town this week.

On Tuesday, Aug. 16th, a U.F.A. committee was held in Mundare. Those attending from this district were: Mr. and Mrs. J. E. Secord, Mr. and Mrs. G. A. Trent, Mr. and Mrs. C. Baptist, Mr. and Mrs. A. Fergus of Mr. and Mrs. C. Boe, Mr. R. C. Phillips, Messrs. J. B. Warner, M. B. Ness and P. R. Anderson. Mr. Anderson was chairman of the meeting. On the return trip from Mundare the car driven by Mr. Trent overturned. No serious injuries were received but all were shaken and a fright.

A liberal organization meeting in support of the candidature of J. S. McCallum will be held at the Town Hall on Tuesday, August 21th, at 8 p.m. Electors, both ladies and gentlemen from all the polls in the territory tributary to Tofield are invited to attend.

Talking of flowers, there is a fine bed of flowers at the Canadian National Station. Several kind showing at the same time make literally a blaze of color.

J. D. Duncan made his debut as a professional auctioneer on Saturday afternoon last. J. D. has the "Gift" down pat, while the smile and pleasing manner comes natural to him.

A REAL SHOW COMING

Cooper Bros. trained animal shows, and combined wild west will visit Tofield on Monday Aug. 23rd for two performances. This is the only big show that will visit this territory this season, and this and surrounding communities will have the opportunity of seeing the show in its entirety, on the above date. Cooper Bros. shows are not only well received everywhere they go, but have played so many return dates in the last few years that they are rated at the top as far as tented amusements are concerned.

One is surprised at the vast array of talent that has been assembled to make this one of the premier amusement enterprises of all times. Here one will see the world's greatest variety and every clime, gathered together to amuse the public. Here is a fairy wonderland brought to your door, one trip through the menagerie where is assembled practically every known animal, is worth coming many miles to see, together with a small army of the world's greatest and most daring performers, whose death defying and startling stunts keep you in high tension, and the performance will live long in your memory, after the show has faded into forgetfulness. In addition to the super performance Cooper Bros. have added for full measure, a real old west performance, put on by the West's greatest riders, ropers, bull doggers, etc. In fact a tropdy show for the coming season. The public is invited to inspect their working horses, and cowboys will ride them at every performance. A big street parade daily no come early, and see all the children and see it all. Two performances given daily, afternoon, 2 P. M., night 8 P. M.

TOWN COUNCIL

A regular meeting of the town council was held on Monday evening last, Mayor McCauley presiding. Councillors present were W. C. Swift, W. Bellamy, J. W. McMullen, J. Chapman and L. C. Day.

A number of accounts were passed covering routine business disposed of.

The matter of the marking of pedestrian directions to motorists, which has recently been done by the traffic department of the provincial government, was discussed and councillor was requested to take steps to change the marking in town. By a majority vote council decided not to interfere in the matter.

A delegation from the Curling Club interviewed council to see if a suitable site could be secured on which to build the proposed new curling rink. It is probable that a site will be acquired from the council at such time as the curling club resolves to go ahead with the building of the rink.

Mrs. Bessie Owens left Sunday for Edmonton to attend the Normal school.

Mrs. Frank Hall, Mrs. O. Barnes and Mrs. Carlisle were guests of Mrs. A. A. Mitchell on Saturday.

The M.A.S. met at the home of Mrs. B. Wildman on Wednesday afternoon with a goodly attendance of members present. We had the pleasure of having Mrs. Firth, our former minister's wife, now of Lacombe, with us.

LAKE SHORE

Mr. E. Ferguson of Ryley visited at the home of his sister and family Mr. and Mrs. A. N. Booth Sunday morning with them Miss Annie Booth who has been spending a few days at the Ferguson home in Ryley. He was accompanied home by Miss Mildred Booth.

Friends of T. R. Murray will be sorry to learn he was taken to Lamont hospital on Thursday last where he underwent a serious operation. Latest reports are that he is doing as well as can be expected.

The picnic held under the auspices of the Ladies Aid and the Sunday School of this district on August 4th was very well attended considering the threatening weather which prevailed at the time. The ladies of the Ketchamont district played a game of ball against the ladies of this district resulting in a victory for Lake Shore.

While the gentlemen from the two district also played a game with Ketchamont winning the honors. In both ball and hockey the Ketchamonters proved their sportsmanship and we hope to have the pleasure of meeting them soon.

Mr. and Mrs. W. Abernethy and Mr. and Mrs. R. Shubeck motored to Edmonton on Sunday and visited T. R. Murray and E. Thompson who are in the hospital there.

Mr. Edwin Plegin visited friends near Clapman on Sunday.

NEWS OF OUR NEIGHBORS

KETCHAMONT

Mr. and Mrs. A. McMillan, Mr. and Mrs. Chester Coombes and family, motored to Banff last Sunday and spent the day visiting at the Archie Brown home.

Mrs. P. F. Ingram and Mrs. C. R. Owen arrived home from Victoria, B. C. Mrs. Ingram is caring for her mother, Mrs. Mitchell, who has been quite ill. They will also visit other friends and relatives. Mrs. Owen will remain home until over threshing.

Mrs. Geo. Lawson is confined to the bed having a siege of heart trouble, her friends sincerely hope she will soon be able to be around again.

Mr. and Mrs. G. W. Sears and three children, Mrs. C. A Ingram, motored to Edmonton on Tuesday, returning home on Wednesday. They had the misfortune to be caught in one of the worst rain storms of the season, making a very difficult trip home.

Howard Lee and Martin Lawson motored to Vegreville on Friday, to attend the ball game between the Chicago girls team, the score was 8—4 in favor of Vegreville.

Mrs. Peter Lee entertained a number of old friends at her home on Thursday afternoon, in honor of her daughter, Miss Marjorie and granddaughter, Miss Rene Oliver's fourth birthday anniversary.

The Vousie children are staying with their grand parents, Mr. and Mrs. Hugh Mitchell. Mr. and Mrs. Vousie are having an outing at Banff.

A birthday party was held at the Brown home on Tuesday afternoon in honor of little Miss Ethel's sixth birthday. From all reports by the little ones, the afternoon was very healthily spent.

Mr. Bowie Owens left Sunday for Edmonton to attend Cooking Lake.

Mrs. Frank Hall, Mrs. O. Barnes and Mrs. Carlisle were guests of Mrs. A. A. Mitchell on Saturday.

The M.A.S. met at the home of Mrs. B. Wildman on Wednesday afternoon with a goodly attendance of members present. We had the pleasure of having Mrs. Firth, our former minister's wife, now of Lacombe, with us.

BARDO

About fifty were out to the Ladies Aid meeting on Wednesday, Mrs. E. Rogers, Mrs. G. Moen and Mrs. F. Lewis from Tofield and Mrs. Ingram Olson from Amisk Creek were guests.

Between 25 and 30 ladies from Tofield, Ketchamont and Bardo paid Mrs. Easton a farewell visit on Friday. She was presented with sheets, pillow cases, towels, cups and saucers and a purse of $22.00. Mrs. Easton is moving to Camrose this week to start a boarding house for students. Every one wishes her success.

Sigvard Eggen is visiting in Grande Prairie.

Myrtle Rude and Carrie Brecken are spending a few days at Jasper Park.

Myrtle Rude and Carrie Brecken are spending a few days at Jasper Park.

The Rude and children motored Sunday morning from the coast where they have had a very enjoyable outing.

The P. Lewis family spent Sunday in the W. E. Parker home.

The Joe Stauffer, Emil Rude, P. O. Ketchamont, F. E. Hills families and Mrs. Ivey Moen and Children were Sunday guests in the H. E. Brenner main house.

Mrs. Geo. Moen will entertain the Aid Society and Thimble Club on Thursday the 30th.

ANGLICAN SERVICES

Sunday, August 22nd, 1928
11.00 a.m. Holy Communion, Tofield
3.00 p.m. Lodge
7.30 p.m. Evensong and service at Tofield
Rev. Adams of Edmonton will take the services.

LINDBROOK

Whist the weather hasn't been ideal for haying, it certainly has helped the late crops on flax and freshened the pastures, and so far we have experienced no damaging frost either it either.

Mrs. Ernest Hooper and son Reggie are visiting their relatives the Hoopers of Lindbrook. Mr. T. Hooper returned home to Edmonton last week.

Mr. Mercer has sold his place to L. L. Goshnell but is not moving until after harvest.

Mrs. Swain and Miss Pearce are expected back from Soda Beach this week.

Mr. J. Lesky accompanied by Messrs W. Hooper and P. Holland motored down to give the boroughs of Kingman and Barde the once over last Sunday. The trip was quite uneffectful, no civic reception being tendered either by the police or aldermen, neither were they escorted to the outskirts of the towns either.

Mr. R. Chester is spending a vacation with his relatives Mr. and Mrs. H. Burton of Lindbrook.

AMISK CREEK

Harvesting will soon begin in this vicinity if there will be warm weather for a few days.

The ladies Aid meeting holdat Mrs. R. G. Bargo on Wednesday was very well attended. Nearly all the members and a good number of visitors were present.

The carpenters are now busy reconstructing the Solberg schoolhouse, which burned, the contractor.

Mr. Patterson, Pearl and Raymond motored to Edmonton last week. Pearl stayed with her sister Lillian, returning home on the train the next morning.

Mr. Pearson received a telegram from his family at Vancouver Island that his daughter Edith was very ill. He entrained to the place on Thursday morning. Mr. Sorenson is caring for the place during his absence.

Mr. R. O. Berg and son Arnold made a business trip to Edmonton last Friday.

Mrs. I. C. Olson and Mrs. Peterson attended the Ladies Aid Meeting held on Wednesday at the home of Mrs. Hill.

Mrs Clara Annebo is visiting Mrs. Fowler at Ryley for a few days.

Mr. and Mrs. Annebo and family visited at the A. Bowes home last Sunday.

Mr. and Mrs. E. A. Moen and family were dinner guests at J. Jacobson in Barde on Sunday last.

Mrs. Fagan, Peter and Carrie were callers at the Flaaten home Sunday evening.

Astrad and Olaf Mobue, Raymond Patterson and Hilmer Moen were grade eight examinators were all fortunate in passing.

Hazel Hillyard spent Sunday visiting with Edna Moen.

E. Sorenson is working for Mr. R O. Berg

The Nelsons and kindred families were visitors at the P. Olsons home on Sunday last.

Marvin and Myrtle, twins of Mr and Mrs. E. Moen are visiting at the home of their aunt, Mrs. F. Anderson of Ryley.

Mr. R. O. Berg, Mr. Evenson and Carl motored to their friends six miles north of Lamont last week returning the same evening.

WORLD HAPPENINGS BRIEFLY TOLD

A Reuter dispatch from Moscow says it is unofficially announced there that the Russian Baltic fleet has sailed for Vladivostok, its final base.

The United States of United Verguson an annual convention at Kansas City decided unanimously to retire the existing English and British Empire Double Harness.

Believed to be one of the oldest negro women in Canada, Mrs. Matilda Paris Lamont, died recently. Up until a year ago she was active in her kitchen work as a laundress.

Rail boss William Wilson Hoo Johnston, general manager of railways and canals, South Africa, has been appointed to the South African delegation to the League of Nations assembly.

Mrs. Emily Jack is in part of the birthplace that became even kinder to her in all of her years. Mrs. Jack is still a resident there, and has been for 80 years, according to the census taker

Message From J. S. McCallum

TO THE ELECTORS OF VEGREVILLE CONSTITUENCY

Having been nominated as one of the candidates in the forthcoming general election, I wish hereby to state that I certainly appreciate the honor conferred upon me by those who met at that convention. The more so do I appreciate the honor in-asmuch as it was not at any time solicited by me, nor was it expected until immediately previous to the convention my friends insisted that I let my name go before that convention and assured me that I had the support of all liberals in the constituency. As I appreciate the honor, however, I realize also the great responsibility placed upon me by that nomination. You have placed your confidence in me and my one hope and desire is that not only during the coming campaign, but more especially after the election, should I be elected, as hope to be by your active co-operation and support, I shall at all times accept that responsibility and fulfill my duties as your representative in a manner whom shall be an honor and a credit to myself and to those who may elect me.

In this campaign I am appealing to you, not as the representative of any one section of the people, but of all the people; not as the representative of any one occupational group, but of all the people in this constituency; and not as the representative of any one nationality, and there are many, but of all of them.

Probably there is no man in this district who has had so wide an experience—and I do not say it boastfully—in the various occupations of the people whom I seek to represent, as I have had. Since I homesteaded at Beaver Lake, I have been actively engaged in farming every year up to from one hundred acres up to one thousand acres. I have been school teacher, general merchant, implement agent, automobile agent, live-stock shipper, post master, secretary-treasurer, municipal councillor and member of the legislature assembly of Alberta. As to my ability and success in those various lines of endeavor, I refer you to the people who me personally and who have known me during my 34 years residence in the district. On my public record I appeal to you for your support.

I am a sincere advocate of the principles of lower tariff and less taxation, as propounded by the late liberal administration, and I certainly hope to see them go much further in that direction. I am also strongly in favor of lower freight rates in the carrying of the farmers grain to the market, especially over the western route.

Between now and election day I hope to have the opportunity of addressing the electors at some length on these and some other matters which I believe to be of vital importance. I shall address you at such public meetings as it is possible to hold during this short campaign, which is being held during the busiest season of the year, and also through the press.

As one whose every interest is undeniably in common with your own, I appeal to you to organize in support of my candidature in the coming election. Especially do I appeal to the women of the constituency to organize to see that every man and woman who believes in the principles and policies which I advocate shall be out to vote. If any intelligent women or men refuse or neglect to use the franchise, then those women or men are making it very easy to defeat their candidate and the principles and policies advocated by him and supported by them. They must therefore assume the full responsibility for any failure due to that neglect.

Hoping to prove myself at all times worthy of the support you may give me, and of the great confidence you have placed in me as your candidate,

I am yours, very truly,

J. S. McCALLUM.

Handcuffed to Wheel Motorist Will Tour States

"Speed" Bradford to Attempt Nonstop Marathon With Four Cars, August 27th

To drive a Star four touring car locked in high gear, 3,000 miles, without letting the motor stop, is what Harry (Speed) Bradford proposes to do.

He will start from Omaha on his marathon drive Aug. 27th.

Although conditions of the drive require that the driver observe the ordinary speed regulations at all times, he hopes to make an average of 30 miles per hour thus setting a new speed record for a 3,000 mile drive.

Bradford will spend the early part of this week scouting about the state to lay out the route he is to follow.

He plans to avoid main highways as much as possible. He stated today that he will go south to Nebraska City, westward through Lincoln and into the northern part of the state through West Point and on for to Pierce.

Handcuffed To Wheel

"If it rains during the drive, that will mean more fun for those who are watching and a harder job for me," he said. "I will have to make the slippery roads, hills included in high with no chains."

I will be handcuffed to the steering wheel. A man will accompany me to change tires, but one of the conditions is that we cannot use chains."

Another interesting condition is that the road must be followed strictly as laid out beforehand. Mr. Bradford should drive past he could not back up to his car and he must reverse gear he would have to forfeit the drive. If he should go into a ditch the drive would be called off as a failure.

While Bradford will drive day and night, the route will be so laid out that he will return to Omaha every evening at seven and every morning at seven. At those times mechanics will have the opportunity to lift the hood and examine his car to see that no hidden arrangements contained to help him.

Makes $100 Offer

Bradford has offered $100 to any one who can follow him 1,000 miles exceeding the 35 mile an hour limit on the third day of his drive. To compete, the drivers must observe the same rules as he, having their car locked in high gear and at no time

Whenever he makes a stop, half-way up a hill, in a mud puddle or any place he may choose, he will have a [illegible] that he can not be cheeked to see that the cars following him do the same. At the next town he will pack up another [illegible] and [illegible] checker. As soon as a cars [illegible] stops it will be counted out of the race.

Dummy To Picture Race

In a similar race, which Bradford put on at Pittsburg, Kan., 142 miles was the farthest any car could follow him.

During the marathon drive a dummy will be placed above a hood [illegible] it register all the movements of his car, reports being wired [illegible]

WHEN SENDING MONEY ORDERS

WHEN you have occasion to send Money Orders they may be obtained readily at any branch of the Bank of Montreal.

Tofield Branch

J. A. CONSTANTINE, Manager

BANK OF MONTREAL

Total Assets in excess of $750,000,000

Here and There

Mayor Martin, of Montreal, on behalf of 100 pilgrims to the Eucharistic Congress at Chicago recently presented a handsome engraved gold watch to Edward P. Whelan, city ticket agent of the C.P.R., at Windsor Station, Montreal, in appreciation of the care and attention bestowed upon them by Mr. Whelan, who accompanied the party on their journey to Chicago.

The second greatest half-year in the history of the Canadian Pacific Railway has been completed with the month of July, the official financial statement for this period showing an increase in the gross earnings over the preceding six months of $10,071,000. The increase in the net profits for the same period amounted to $4,675,000, or an increase nearly double that of the previous half year in 1925.

Following a slight recession in April the production of automobiles in Canada continued its upward trend in May, and is now back to [illegible] of 23,615, as valued at $15,[illegible]. This [illegible] month's production was 127 units, valued at $85,[illegible] and April 1924 [illegible] 17,[illegible] 1925 [illegible] 23,615 units valued at $15,[illegible] or the corresponding period last year.

Canada leads the nations of the world in the proportion of years of prosperity to years of depression, says a report now in preparation by the National Bureau of Economic Research, Ltd., an American organization. Covering the period from 1920 Canada has had [illegible] years of prosperity [illegible] depression. The United States comes next with [illegible] years of prosperity [illegible] depression, being the [illegible] [illegible] [illegible]

How Do Your Children Grow?

Only a few more days remain of the summer holidays—and still each year a large number of children will be tramping back to school during the next few weeks who, if they proceed there in their present state of health, will be unable to make the most of their opportunities. Their minds will be clouded, their memories poor, their powers of concentration weak, and their progress slow and disappointing. Many of these children will be victims of constipation—a condition which, if neglected in its early stages, may lead to grave and permanent ailments.

Constipation is the most common cause of ill-health in children. It is responsible for more sickness and suffering than any other disease. Yet it is so easily overcome that there is no excuse for any child to be a victim of it.

Fruit-a-tives, or Fruit Liver Tablets, are the most effective remedy for constipation and all forms of indigestion. They are composed entirely of the juices of fruits and the valuable tonic properties of certain vegetable extracts. They are pleasant to take, and are guaranteed to relieve constipation permanently.

Fruit-a-tives are sold by dealers everywhere at 50c a box, or 6 boxes for $2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

RUN DOWN IN HEALTH

Why Many Men and Women Are Badly Handicapped

When you are run down in health that is when the effects of your work as well as your power to enjoy your leisure time are most severely handicapped. You are then tackled by the enemies of health and vitality with the least power to resist. In nearly all cases the condition which prevents vitality do overflow as general debility, is due to the fact that the blood has become poor and devitalized in quality. When the blood is thin and watery you have symptoms such as pimples, boils, sores, poor appetite, indigestion, sleeplessness, nervousness, headaches and general weakness.

The way to build up your health is to build up your blood and you should begin at once to take Dr. Williams' Pink Pills for Pale People. Dr. Williams' Pink Pills will soon make the difference in your health. Your appetite will improve, your digestion will be greatly improved and your blood will be enriched. The reason is that Dr. Williams' Pink Pills are made by a special process that gives them the power to actually make new, rich blood. They are sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Queen "Nat" Reconstructed

Queen "Nat" is not the Queen Mary of ancient Egypt, but—how remarkable—Mr. Nat Gubby, lawyer, and Lewisham's new mayor. Only some idea of the appearance of Mr. Gubby's wonderful robes can be given in black and white. The robe is a cloth dress in cream satin, with a train of the same material, and the cap is a cream satin square with a gold tassel.

Bodily Health Destroyed

Nerve Force Lost Through Kidney Disease Paves Way to Mortality

The ebbing of the life tide of the human body as well as your power to enjoy life depends upon the condition of the kidneys. Nerve force is lost through kidney disease. Nervousness, sleeplessness, backache, headache, dizziness, rheumatism, neuralgia, sciatica, lumbago, dropsy, Bright's disease, diabetes, are all caused by kidney disease. Dodd's Kidney Pills are the only remedy that will cure kidney disease. Dodd's Kidney Pills are the only remedy that will cure kidney disease. Dodd's Kidney Pills are the only remedy that will cure

RED HOT TIRES

MONTE BLUE and PATSY RUTH MILLER

Al Jones a wealthy young society killer, glances idly from his driver's seat at a pretty girl in another car. His fascinated gaze is oblivious of everything else, and he smashes into a steam roller. The shock is so great that when he gets out of the hospital he has a frenzied fear of automobiles and takes to horse back riding.

What follows is a happy sequence of events that while they bring trials they also bring a culminating happiness to Al.

DANGER OF BORROWING

THE LOCAL PAPER

The following is a print shop fable copied from an exchange.

"Once upon a time, a man of saving habits sent his young son to a neighbor's to borrow the paper. 'For' said he 'why should we pay for the paper when we can just as easily read it by borrowing it.' The lad in his great haste to do his father's bidding, fell over and upset a hive of bees. The bees stung him badly. His cries attracted his father, who rushing out, caught his chin under the clothes line, hurting his back and breaking a $25.00 watch. The clothes pole fell and broke the glass and spoiled the hot bed. The mother, rushing out to see what occasioned all the excitement, upset a five gallon churn of cream which went into a basket of kittens, drowning all of them. The last item burned through the ironing board while she was out, setting fire to the house. Putting out the fire, the fireman broke all the windows, and chopped a hole in the roof. The baby ate a jar of pickles and the doctor's bill was $18.00. The daughter and the hired man took advantage of the opportunity to elope."

Moral:—Don't borrow your neighbor's paper. Subscribe for it and be happy ever after.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government of Alberta, Edmonton.

August 10th, 1926

Would Send Norsemen Here

Diversion of the stream of emigrant farm labor from the United States to Saskatchewan and Alberta will be recommended by Arne Kildal, secretary of the international league of Norsemen for that class of immigrant labor from Norway.

Mr. Kildal, who is on his way back to Norway after a tour of investigation of agricultural possibilities for his countrymen in Saskatchewan and Alberta, said the surplus population of Norway, especially surplus farm labor, must find an outlet. He said the North-West provinces of Canada offered good possibilities for those who wish to settle down to a life of farming.

FOR SALE.—One linoleum rug. Price $15.00; one tapestry rug, 5 x 10½, $22.50; also fumed oak dining room suite, 8 piece $90.00. Just as good as new. Only used one season. Apply to Mrs. D. Swartzendruber, 'Phone 705, Ryley. 36

Watch Your Car

You have quite a little money tied up in your car. It is good business for you to watch it carefully. Whenever any unusual noise is heard or when any unusual thing occurs when you are driving it is better to find out what the trouble is before it gets to the break down stage. We are working with and inspecting cars every day and would be pleased to add yours to our list.

Mr. Lisette Gray had some friend from Calgary visit her on Thursday last.

Mrs. Tofield entertained on Thursday afternoon in honor of Mr. Lee's eighty-third birthday. Mr. Smith The guests were invited, decorated with red and gold markers. The afternoon was spent in renewing old acquaintances as Mr. Lee resides as a former resident of Tofield. A dainty lunch was served. Mr. Morrison and Mrs. Chittenham assisted the hostess.

Mrs. Lesveredge and daughter Lily of Edmonton, Mr. Church and daughter Veda and Mrs. Swift and son John and Arnold were visitors at the J. W. Robinson home on Tuesday afternoon of last week.

NINTH FORTNIGHTLY CROP REPORT

Harvesting of wheat is proceeding slowly and in about 25 per cent completed throughout the province. Late rains have held up the ripening process somewhat and in a few localities have hindered harvesting, but in the main the rain has considerably accelerated the filling of the grain, especially the late wheat and the coarse grains. The general effect has been good, save in one or two districts where the drought has been severe and where the grain is too far gone to recover. The districts thus affected, as has been previously stated, are very limited in extent. It may be safely stated that the rains which have gone during the first two weeks of August will have the effect of adding considerably to the yield of wheat, and of causing the recovery of much of the oats and barley which were making a poor showing.

There has been no frost to speak of, and the damage from hail has not been heavy this year. The new fly is reported active in one or two localities but damage is not extensive.

The weather remains cool and showery. The rains have been very general over the province during the past fortnight, being somewhat heavier in the central and southern parts.

The labor situation is well in hand and a sufficient supply of harvest hands is assured.

LOCAL AND PERSONAL

We regret to report the death of Louis Anderson, brother of Mrs. W. Simonson, age 53. The cause of death was an obscure form of paralysis. The funeral will be held on Thursday, interment taking place at Bardo cemetery.

Mrs. C. Church and little son Stanley of Wainwright is visiting her mother, Mrs. T. Herndon for a week or two.

Father Currier, Roman Catholic priest here for some time, left last week for Saskatchewan, where he will act for a short time before continuing his journey down east. While here Father Currier was very popular not only among the Catholic people of the district, but among the society of the town and district generally. He was a keen follower of sport and assisted the local baseball club in many ways.

Mrs. A. N. Booth entertained the Lakeshore Ladies' Aid Society on Wednesday of last week. Those were enrolled as a result including Mrs. S. Noland Mr. W. Bebergal and Mr. Margaret Moe and Winnie Sipe.

Mr. Keitha Oliver and daughter Irene, are spending a few days with Mr. Pipes Sipe

LINDBROOK

Cutting has started here and although the crop is not a bumper it is better than was expected, far more that is very patchy.

The Attorney-General, Hon. J. F. Lymburn and family motored down to pay a visit to their friends, Mr. and Mrs. Andrew Scott and family of Lindbrook W. Whilst here the Hon. gentlemen took off his coat and pitched in to help with the hay making. We would that there were more of his sort.

Mr. J. Hannan shipped a car of cattle from here last week. The farmers are supplying the animals being Messrs. Lancaster, Legates and Scott.

Mrs. E. Hooper and son Reggie returned to Edmonton last week.

Mrs. Swain and Miss Pearce returned to Lindbrook from Soda Beach where they have been on a holiday.

AMISK CREEK

Nearly everybody has begun to harvest. The weather is ideal and we all hope it will keep nice until harvesting is finished.

Mrs. Parish from Tofield visited at the Berg and Plaaten homes on Tuesday and Wednesday of last week.

Lillian Patterson returned home last week after being a month in Edmonton taking treatments for her health.

Mrs. E. Anderson from Ryley was visiting with Mrs. F. A. Moen on Monday.

George and Albert Bowe from Salt Lake visited old friends and acquaintances in this vicinity on Saturday and Sunday of last week, returning home Sunday evening

A nephew of Mr F. Pearson arrived from the States la t week to help he more in the fall work.

Mr and Mr. A. Strand tad two little girl were guests for supper at the Plaaten home la t Sunday.

Arnould Plaaten is spending a few days also looking after the interests of his farm.

The Amisk Creek school will open next Monday, the 30th with Florence Mollow as teacher.

A number of people from this district attended the dedication of the Bardo church last Sunday. We all found it very interesting, especially those who were there in the evening and heard Miss Dennett the age of her work in China.

Mr. and Mrs. Osmo were callers at the Plaaten home last Wednesday evening.

Obituary

The death of Edith Pearson occurred at the Sanitarium at Vancouver Island on Monday August the 16th after more than two week of illness. She was operated upon for appendicitis some time in May and never regained her strength. Edith was only 15 years of age and was born and raised in this district. She leaves to mourn her loss, her mother and father one sister and a brother besides many other relatives and friends. Our deepest sympathy goes toward the family who lost the dear one.

The funeral took place on Tuesday, August 17th at 2 p.m. held at the house and later at the Lutheran church at Ryley. Interment will take place at the Ryley cemetery with Rev. A. Brandle officiating

Mr and Mr. T. L. Veale and Mr. and Mr. L. W Pett went to Edmonton on Thursday returning on Friday They enjoyed the privilege of listening to the lit Hon Arthur Meighan's speech delivered in Edmonton Thursday evening

WORLD HAPPENINGS BRIEFLY TOLD

The first case of 1926 wheat was shipped from the Rosenfeld district, Manitoba.

I managed for 37 years, the Yellowstone National Park bill has been passed.

Result: Managed for deposed exiled will soon be appointed as Soviet ambassador at Tokio, succeeding Victor Kopp.

A hundred million dollar fund, credit to afford relief to farmers soon will be under consideration by President Hoover and several New York bankers.

Intimate news from the League of Nations World is that an amusing guarantee that the promises made at Locarno are to remain in exchange for no promises to rest. No league will be fulfilled.

Hot Weather: Thunders de 100, 101 will well known as a designer of Catholic churches and missions, he died in La Tuque on the 23rd inst. He had designed many churches in all parts of the Dominion.

Development of new processes for the distillation of coal at low temperatures, which is predicted will revolutionize coal mining labor and practice, has been announced by the International Coal Products Limited, Kingsway London.

A hundred publicity, 42, well known financial business man and publisher of La Presse Montreal week in which he was found shot to death in his office. It is at first thought that he had died a natural death, but an examination at the morgue led to the discovery of a bullet in his back.

The total world wheat crop appears still to be slightly short, that no fact year anywhere to estimates received by the department of agriculture at Washington. Demand, however, may be stronger because of low stocks on old wheat, reduced supplies of rye and potatoes and short crop in the north.

Crime in Chicago

Lack of Law Enforcement Blamed For Failure to Check Gunmen

Counting-up on the latest gang kill ings, Morgan A. Collins, Chicago police chief, has revealed that in the last 12 months his policemen have killed 100 robbers, that gang murder has claimed 54 lives since January 1, and that more than 1,500 holdup pic ne robbers have been raided.

"There is really nothing the police can do to stop gang killings," Collins said. "The gangsters have their own organizations. They are all over the city, and when they want something they take it. The police have their hands full protecting the lives of respectable citizens. If gangsters kill each other we don't care very much."

Collins blamed "unsympathetic courts" for his department's failure to check the crime wave.

Trotsky Again in Power

Has Again Become the Red Leader in Russia

Leon Trotsky has again become the Red leader of Russia. He has displaced Gregory Zinoviff as leader of the radical opposition to the Stalin-Rykov control executive committee and of the 22,000 students now at the Communist party, which runs the Soviet state is strife.

Zinoviff first seized the upper hand but it has grown, which is due to a formidable party, and Zinoviff has yielded to the superior leadership of Trotsky.

Between the years R. Reed, by the latter and the Communist International, Bukharin's theory making the first real attempt to build socialism in a small country with the resources within itself.

Prince May Open Building

New Canadian Hostel in Paris is Along Company

A visit of the Prince of Wales to Paris is now under consideration. It would be somewhat premature to say that, if possible, he would open the hostel which is now almost completed for the accommodation of Canadian students in the United States in Paris. This has been designed to accommodate 50 Canadian students at a cost of approximately 2,000,000 francs, given for the purpose by Senator Joseph M. Wilson, of Montreal. Hostels similar for French students, both men and women, and exclusively frequented by French languages, were opened last autumn. The Vice-Chancellors, when consulted, will be sure of the most interesting groups of academic buildings in Paris.

Canadian Development

(By C. W. Peterson.)

It would be well for Canada to take stock of herself, her resources and her institutions and commence to for broader national aim in keeping with her peculiar conditions and limitations. Have we, for instance, any national ideas in respect to our population requirements? Should we aim at the creation of Russia with 1 per cent urban and 85 per cent. rural population? At what point has the normal equilibrium for Canada been reached, and upon what basis? Is there any advanced argumentative before us that attempts to map out intelligent national development policies. Some years ago an Empire Settlement Committee was created by our Federal Government to give effect to the idea, but it made a report and died of no job.

Thinking men, however, all agree on one point, namely, that any present agricultural population is distributed out of proportion to the basic area of our agricultural land, and as well as to that to be settled thereon. There can be no further doubt that this condition must be remedied as rapidly as humanly possible. It is curious to note, in fact, that the most natural basis of settlement at the last has been overlooked. Bands of Indians should be organized for public service and form and on our prairies, and, of course, in the northern state of Alberta, because we can handle the hunting people very much improved agricultural pursuits, and particularly interested Indians. Still, government of transportation plant.

There is, however, a definite obligation on the part of the Canadian people on the total speaking of colonization to important experimental steps are at present given in about feasibility of public expenditure in this direction, their judgment being largely based on empirical premise. The people of Canada has particularly to perform in bringing the normal factor before their readers and exercising a vigorous and militant public opinion on this issue. Because governments in democratic countries are only in obedience to the will of the people. The initiative, the force, must come from the great body of Canadian people rather than from thirty governments.

Notable Revival in Trade

Enormous Activity in Canada as Manufactured At a High Level

Stimulated by the predictable action of the excellent crops of 1925 and by the prosperous conditions in the United States during recent months, business activity in Canada was maintained at a high level during the first half of 1926 but situation was especially acute from April to June, the country participating in May reaching a record of all time. Percentage gain bookings were also greater in the second quarter than at any time in the previous three years, and the primary iron and steel industry operated at a comparatively high level of activity with orders from the railways and construction industry. Industrial employment moved significant improvement during the first half of the year, standing at June 1 and July 1 higher than on the corresponding dates of any year since 1920.

Following the pronounced stagnation recorded at the beginning of June, there was a further important increase in employment on July 1, when the payrolls of 3,604 operating firms surveyed showed 4,218 persons, or 0.29 per cent. than in the preceding month. These additions to staff more than offset reported on the corresponding date of any previous year and the index of employment at 107.1 now stands higher than in any other month since May 1920, the exception of October 1925, in which there was a considerable, but minor employment. Reports received from 3,604 operating firms employed 429,218 persons, or 0.29 per cent. than in the preceding month. These additions to staff more than offset reported on the corresponding date of any previous year and the index of employment at 107.1 now stands higher than in any other month,

Message From J. S. McCallum

TO THE ELECTORS OF VEGREVILLE CONSTITUENCY

Having been nominated as one of the candidates in the forthcoming general election, I wish hereby to state that I certainly appreciate the honor conferred upon me by those who met at that convention. The more so do I appreciate the honor in as much as it was not at any time solicited by me, for, was it expected until immediately previous to the convention my friends insisted that I let my name go before that convention and assured me that I had the support of all liberals in the constituency. As I appreciate the honor, however, I realize also the great responsibility placed upon me by the nomination. You have placed your confidence in me and my one hope and desire is that not only during the coming campaign, but more especially after the election, should I be elected, no hope to be by your active co-operation and support, I shall at all times accept [illegible] and fulfill my duties as, at present, representative in a manner which shall [illegible] an honor and a credit to myself and to those who may elect me.

In this campaign I am appealing to you, not as the representative of any one section of the people, but of all the people; not as the representative of any one occupational group, but of all the people in this constituency; and not as the representative of any one nationality, and there are many, but of all of them.

Probably there is no man in this district who has had so wide an experience—and I do not say it boastfully—in the various occupations of the people in which I seek to represent, as I have had. Since I homesteaded at Beaver Lake, I have been actively engaged in farming every year up from one hundred acres up to one thousand acres. I have been school teacher, general merchant, implement agent, automobile agent, live stock shipper, post master, secretary treasurer, municipal councillor and member of the legislature assembly of Alberta. As to my ability and success in these various lines of endeavor, I refer you to the people who more personally and who have known them during my 34 years residence in the district. On my public record I am content to rest for your support.

I am a sincere advocate of the principles of lower tariff and less taxation, as proposed by the late liberal administration, and I certainly hope to see them go much further in that direction. I am also strongly in favor of lower freight rates in the carrying of the farmers grain to the markets, especially over the western route.

Between now and election day I hope to have the opportunity of addressing the electors at some length on these and some other matters which I believe to be of vital importance. I shall address you at such public meetings as it is possible to hold during this short campaign, which is being held during the busiest season of the year, and also through the press.

As one whose every interest is undeniably as common with your own, I appeal to you to organize in support of my candidature in the coming election. Especially do I appeal to the women of the constituency to organize as I see that every man and woman who is devoted to the principles and policies which I advocate shall be out to vote. If any intelligent women or men refuse or neglect to use the franchise, then those women or men are making very easy to defeat their candidate and the principles and policies advocated by him and supported by them. You must therefore assume the full responsibility for any failure due to [illegible] carelessness.

Hoping to prove myself at all times worthy of the support you may give me, and of the great confidence you have placed in me as your candidate.

I am yours, very truly,

J. S. McCALLUM.

EDMONTON DISTRICT OATS ARE BEST IN THE WORLD SAYS EASTERN TRADE

"We are here to-day, and I am well satisfied," Edmonton becomes one of the principal grain centres in West, as Canada was the enthusiastic comment of Jack Cook, of the Nidel Elevator Co., of Winnipeg, who, with a party of Canadian Albert, and saw the best in the world and the [illegible] grain demands this quality," C. A. Mulloy, president of the company, just returned after a 3,000 mile survey of the Central Alberta field with Mr. Cook. The Company is at present building an elevator at Edmonton to accommodate the increasing crops in this district.

Edmonton is getting a grain appetite and bred pretty early in the game, [illegible] the fact that the government [illegible] trailed [illegible] was not here and you have

Patronage Dividend Payment

ONE CENT PER BUSHEL

Holders of patronage dividend receipts should present them to be cashed at elevator where street grain was delivered.

UNITED GRAIN GROWERS Ltd

Here and There

Following a recent tour of western Canada, W. L. Smith, former editor of the "Farmer's Sun", writes that he will be surprised if the aggregate wheat crop of the Prairie Provinces falls below 400,000,000 bushels. "It will not be surprising if the 500,000,000 mark is nearly reached," states Mr. Smith.

Eleven hundred farms will be needed next year to accommodate the British settlers who will be brought to western Canada, according to Major E. J. Ashton, Commissioner of the Soldiers' Settlers Board. So far this year 1,625 families were placed on farms in the prairie provinces by this organization.

Hogs to the value of $600,000 were shipped from the Stirling, Alberta district in 1925. This sum was for in advance of that received the previous year and the increase was due to a considerable extent to the activities of the agricultural society handling hog production. This year the hog raisers' slogan is one million bolters worth of hogs, and from present indications this mark is more than likely to be attained.

Arrangements for the export of large quantities of British Columbia seed potatoes to California are being made by a potato grower of that state. The British Columbia potatoes are desired as California has seed purposes because they introduce new blood into the seed area strain. Experiments were made with Canadian grown seed potatoes in California and growers were well satisfied with the results.

A flock of 46 sheep, comprising 24 ewes and 11 rams, has been purchased by an official of the Dominion Government under instruction from the Soviet Government for dispatch to Vladivostok, as soon as arrangements can be made for their shipment. Last year quite a number of prize-winning cattle were shipped from British Columbia to Russia and this new order indicates that previous shipments have been satisfactory.

Many valuable shipments of furs from the great trapping areas of the Hudson Bay Company are arriving through the Dominion Express at Montreal. These [illegible] bales, piled high on the trucks often represent a total value of $500,000. After having collected at the various Hudson Bay posts along Hudson Bay and James Bay the furs are brought down by canoe in summer and dog team in winter to the northern terminus of the T. and O. Railway.

Remarkable expansion of passenger traffic into and out of Montreal has been reported during July and August by the passenger department of the Canadian Pacific Railway. The "Fast Flying" and the "Alsacitie" on the Boston run and the "Robert" and "York" to Toronto, four new trains [illegible] placed on these routes early in the year have been running with capacity loads. Eastward to Quebec there is heavy traffic for the Ancient Capital, while trains running north into the Laurentians, it is stated, have been so filled as to [illegible] the case this summer.

Here and There

There is no chance of another general strike in Great Britain for a generation and perhaps longer," is the view of Victor Sahr, news editor of the Evening News, London, who spent a short vacation in Canada recently. He thought the miners' strike in Great Britain could not be settled before the fall and perhaps not until the winter.

The fishing season opens again August 15 on Lesser Slave Lake and Lake La Biche in Alberta. There are approximately 100,000 pounds of white fish to be shipped during the season from Lesser Lake La Biche and over half a million pounds from Lesser Slave Lake as well as a considerable quantity of jackfish and pickerel from both.

Canada's estimated wheat yield on [illegible] by crop conditions on June 30 is 348,626,000 bushels. The [illegible] estimated for the Prairie Provinces according to the Bureau of Statistics report is 327,726,000 bushels and for the rest of the Dominion 21,400,000 bushels. Total estimated yield for oats is 430,840,000 bushels and for barley, 106,621,000 bushels. For rye the total estimated yield is 11,782,000 bushels and for flaxseed 8,419,000 bushels.

The Manitoba Government has commenced an agricultural survey of unoccupied lands in the province which when completed will provide the incoming settler with all available information on such lands. A total of 2,474 homesteads have been taken up by settlers from Canada this year. All post-war immigration records were broken recently when 1,661 immigrants passed through Winnipeg recently in 48 hours.

The Earl of Clarendon, British Under-Secretary for Dominion affairs, and T. Macnaughton, chairman of the overseas committee, are making a tour of Canada to investigate conditions under which the British Empire scheme is being handled in this country. They are leaving glowing reports of what they have seen. The full British delegation of [illegible] will have been brought over here by the end of next year.

A civic vacation party arranged by the Kiwanis Club of Shamrockville, Iowa, recently passed through Toronto and Montreal en route to England. There were 600 who [illegible] themselves of the trip and most of these had never travelled outside the United States before in their lives. They will pass through Stratford-on-Avon and Oxford on their way to London and will make a side-trip to Paris and the Ypres battlefields during their stay.

"Association football, in the Dominion of Canada bids fair within the next few years to become a rival to the brand of rugger played by the major leagues in Great Britain," was the comment of Joe Smith, captain of the All-England Association Football team which has just completed its seven-week tour of Canada. The team travelled close on ten thousand miles on the tour and played twenty games, winning all kinds of [illegible]. They did not lose a single game and scored 103 goals in all with only 18 registered against them.

THE CIRCUS USED A KOHLER

(Advertisement)

We have been for some months past advertising and offering for sale, Kohler Electric Light Plants. We offered the Kohler because we believed it was a good plant for farmers and others to buy. We judged it by its specifications, testimonials concerning it, tone of the advertising and standing of the company which makes it—but we had never actually seen one.

On Monday the circus brought to Tofield a Kohler Electric Plant of a size which we recommend for general farm use. We were very desirous of procuring strictly accurate first hand information concerning the performance of this plant, and with this in view opened up conversation with a prominent circus hand.

"How are the plants working?" "Good."

"Ever have any trouble?" "Not with the Kohler."

Then followed some general conversation in which praise by him of the Kohler plant was the dominant note. We did not tell him why we were interested.

Later we approached one of the light men and opened up conversation in the same manner

"How are the plants running?" "Good."

"Ever have any trouble?" "Not with the Kohler."

It afterwards transpired that they arrived two other plants and on one occasion the Kohler was called upon to light the entire show. Its capacity, of course was entirely inadequate for this purpose, but it filled them in a difficulty.

The Kohler plant, which by the way had been in use for four years and had travelled all over the United States, stood with another, upon a wagon about the size and weight of an express wagon used at the depot, it was not fastened down that we could see, no bolts being in the bolt holes, yet when running was practically vibrationless. Its sister plant, one of much larger capacity was belted down. Our first introduction to a Kohler, while brief, was certainly very satisfactory indeed.

Stomach So Bad Can't Eat Even Fruit

"For years was badly constipated and troubled with gas after eating. Could not eat fruit and many other things. Adlerika has done me good—can now eat anything." (signed) W. H. Fletcher. Adlerika removes GAS and gives instant astonishing relief to the stomach. Brings out a surprising amount of all waste matter you never thought was in the system. Stops that full bloated feeling and makes you enjoy eating. Excellent for chronic constipation.

MERIT ONLY

THE RESULT of the U.F.A. political convention is freely admitted to have been a surprise to all. While it was well understood before the convention took place that Mr. Boutlier would have some opposition, most observers were of the opinion that he would again be called upon to carry the U.F.A. colors. The nomination of Mr. Lukovich was something unlooked for and unexpected.

So unexpected was it that, during the days following the convention, we were asked on more than one occasion, what we thought of a "Russian" being nominated. As this question opens up something deeper than the smuggling scandal and constitutional issue, we will say here what we think of the "Russian" being nominated.

It is better to say at once there is no "Russian" nominated. Mr. Lukovich may be of Russian descent but he is a Canadian or he would not be nominated at all. There are no seats for anyone but Canadians in the House of Commons. Mr. Lukovich being of Russian descent should neither increase or decrease his chance of being elected.

Canadians, as a nation, invite folk of many countries to these shores. Newcomers are promised and given upon application, full citizenship rights which of course their offering automatically receives. These rights, which at once makes a Canadian of the applicant, include serving in parliament when properly elected. No man or woman should cast his or her vote for or deny his or her vote to a candidate simply because the candidate or his parents hailed from some other country. Rather, a candidate should be judged solely on his merits.

NOT SO BAD

During the latter half of July and the beginning of August when following an exceptionally long spell, everything was very dry, there was quite a pessimistic atmosphere hereabouts. Since that time, rain has fallen and things in general have taken on a much better line. It is true there will be no bumper crop in this district. At the same time we are a long, long way from a crop failure. This district has never experienced one yet, and this year, while Jupiter Pluvius, as our Lindbrook correspondent said, refused to work until the mowers commenced, conditions appear fairly good.

SCHOOL RE-OPENS

WEDNESDAY NEXT will see the school doors opened once again. For another ten months, millions of scholars will be wedded, for better or worse to the school desk. The drowsy hum of study hours, interspersed with boisterous recreation periods will be a daily experience. Whatever our fortunes, humanity is inclined to grumble, but whatever this age and generation lacks in other things, compared to ages and generations past, school life has greatly improved. The days when punishment, very often unnecessarily cruel and harsh, was the main driving force used to get knowledge into repellent brains are past, and while no doubt in the scholar, school is still anything but a haven of delight, it is a great deal better than many fathers and mothers experienced.

THE CIRCUS

IT IS not so very long since that a paragraph appeared in this column which would almost indicate that the day of the small town circus was done—that the chautauqua had taken its place. Events of the summer just drawing to a close would seem to prove that we were wrong. It is some years since so many circuses toured Alberta, and seven years since one was at Tofield. They are still popular, and in a certain sense, as one parent stated to us, "of great educational value."

YOU WILL FIND that yourself and family will appreciate the quality and tastiness and all round excellence of our bread. For, while we as the manufacturers, strive to make the perfect loaf, the real test comes at the patrons meal table. Our bread is made to satisfy real hunger and not only to tickle the palate of a dejected appetite. Try some and be convinced.

Stone Bros. · **Tofield, Alta.**
TOFIELD, — ALTA.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government of Alberta, Edmonton, August 21st, 1926.

Learning About Alberta

Requests for full information concerning Alberta, with suitable illustrations, has been appreciated by the Provincial Publicity Bureau from the California Council of Education, which is revising its geographical text book, and wishes to include a generous reference to Alberta. This is one of many indications received recently that greater attention is being paid to securing information about the Canadian West than ever before, by the people across the line.

Exhibit At Two Fairs

Arrangements have been made to show the provincial government exhibit which goes to Sea City, Iowa, next month, at Spencer, Iowa, also a neighboring city, where a large exhibition is held each year.

Prepare for a Road Convention.

The Canadian Good Roads Association will hold its annual convention in Edmonton this year, on Sept. 28th, 29th, and 30th. It is expected that more than 700 delegates will be present and that full advantage will be taken of the occasion by the eastern visitors to see something of the charms of Alberta's mountain scenery.

New Grain Board

A new grain appeal board for Edmonton has been appointed, on the following members: C. R. Mansfield, chairman, (formerly of the staff of he local grain commission of Canada), with J. H. Burns of the U.F.A., W. H. Boyle of the Wheat Pool, Clyde Gillies, an Edmonton district farmer, and F. J. Wolfe, of Edmonton, representing the producers, and E. H. Bettis, A. Fraser, H. B. Judd, and J. W. Allen represent ing the grain trade.

Survey Flow of Gas

Drilling in Erickson Coulee, near Coutts on the International border between Montana and Alberta, the Imperial Oil Co. has struck a flow of gas to the extent of 10,000,000 million feet daily.

International Show

Alberta will be represented at the International Show at Chicago, are receiving more now of the show dates which are set for November 27th to December 4th. Alberta fat stock and seed grain will be out to the how a usual.

Horticulture Exhibits in Alberta

Horticultural shows are the order of the day in Alberta now. During the past week the Edmonton show was held with some attendance and some of the best fruit ever seen. Carmine show, noted for being one of the best in the province was also held this week, and Calgary show, always a big affair, is scheduled for the coming week.

HE MISSED FIRE

The young lawyer had just entered his office for the first time. He was nervous. The point on his sleeve was hardly dry. Silently he prayed for a client. A knock as if in direct response to his petition was heard at the door. Hastily seizing the telephone and assuming the attitude of one engaged in a very earnest conversation he bade the one seeking admittance enter and with a slightly bored expression, motioned him to a seat. The lawyer resumed his conversation over the telephone with the imaginary party. The latter it seemed was importuning him to take a case involving thousands of dollars. But the young lawyer politely but firmly refused. He had more important litigation pending, etc.

After Twenty Years

The Province of Alberta is this year celebrating its 21st birthday. Years before the formation of the three provinces from the North West Territories, there were settlers from the east, south and over the seas, carving out their fortunes here. Many have been very successful and now have splendid lands and houses, fitted with modern appliances that make the westward slope of life easy. Others are now considering the purchase of these things.

The KOHLER automatic electric light plant will make life brighter and lighter on the farm. With the Kohler installed, press a button and you get light, turn a switch and you get power. It is remarkably well made and the wizards of mechanically as to its efficiency and economical upkeep. Write or ask for booklet entitled "The Principle and the Proof" describing the Kohler Automatic Electric Light Plant.

The Mercury

for Economical Transportation

CHEVROLET

Sweep Uphill in the Smooth Chevrolet

FROM a conveyance almost unprecedented—through one short week—to a thrilling ship, steady at speed—all with unbelievable ease and smoothness—Chevrolet has risen serenely over the barrier hills.

To the revolving power and supreme economy of the Chevrolet engine has been added a smoothness a freedom from vibration—unexpected and bewildering in a four cylinder car.

Never before was even Chevrolet capable of combining such performance with such evident ease and smoothness. Compare the smooth Chevrolet — not alone with cars in its price class—but with cars more expensive, more costly of upkeep, more difficult to handle. Then you will understand why not so many persons now turn to Chevrolet.

The Superfine Chevrolet in Chevrolet history—Long at the Lowest Price for which Chevrolet has ever been sold in Canada.

Exercise Your Franchise

It is one of the peculiarities of the human race that they insist on doing whatever they are told not to. In the whole course of history there has never been a single instance recorded of a man who was told not to do a thing who did not do it. And it is probably because of this peculiarity that we, today, are in the midst of a world war.

It has been said the world never was ruled by a democracy until the whole people were educated to read and write. Probably this is not quite correct, but there is no doubt that the more educated the people are the more they are interested in the affairs of government, and the more they are interested in the affairs of government the more they will exercise their franchise.

In Canada this year we have had a striking example of the interest which the people are taking in the affairs of government. In the provincial election in Saskatchewan, which took place on June 10th, 80 per cent. of the electors on the voters' list went to the polls and recorded their votes. In the Dominion election which took place on December 17th, 1917, 75 per cent. of the electors on the voters' list went to the polls and recorded their votes. In the Dominion election which took place on October 7th, 1911, 70 per cent. of the electors on the voters' list went to the polls and recorded their votes. In the Dominion election which took place on November 3rd, 1908, 69 per cent. of the electors on the voters' list went to the polls and recorded their votes. In the Dominion election which took place on November 3rd, 1904, 67 per cent. of the electors on the voters' list went to the polls and recorded their votes.

These figures show that the people of Canada are becoming more and more interested in the affairs of government, and that they are exercising their franchise more and more. This is a good sign, and it is to be hoped that the people will continue to exercise their franchise in the future as they have done in the past.

The people of Canada have a great responsibility resting upon them at the present time. They have to choose between two parties, each of which has a definite policy. They have to choose between the party which has been in power for the last four years, and which has carried on the war, and the party which has been in opposition for the last four years, and which has criticized the government for its conduct of the war. They have to choose between the party which has been in power for the last four years, and which has carried on the war, and the party which has been in opposition for the last four years, and which has criticized the government for its conduct of the war.

The people of Canada have a great responsibility resting upon them at the present time. They have to choose between two parties, each of which has a definite policy

CONFIDENCE

True merit is always recognized. It is a natural law. Star Cars have now been manufactured for four years and four hundred thousand have been built. To-day, the name Star on a motor car has the respect of the trade and the confidence of the public. This confidence has been earned by sheer merit—by serving the public need. See the New Star Car and you will appreciate what has been done—and realize why Star Car Sales are steadily climbing.

THE NEW 1927 ESSEX COACH

In addition to what we have told you previously about the new 1927 Essex Coach, there are several other improved features which we have not been space to describe. Particularly, however, the new rear door is interesting. It is guaranteed that a 200 pound man can hang on each door, wide open while the car is travelling over rough roads without causing the slightest sag. Generally admitted to be by far the greatest value for the money in the car world. As any of your friends who own one.

THE TOFIELD GARAGE

BARGES & BARTNESS, DEALERS

Tofield, Alberta

We have a few AUCTION SALES booked for the near future and we would therefore appreciate any one contemplating a sale letting us know in order that we can arrange a suitable date.

CARVER AND HANNAN

Real Estate AUCTIONEERS Insurance

Grain Buyer and Imperial Oil Agents

Fruit and Vegetables

Our weekly stock of fruits and vegetables is one of the best outside the City of Edmonton. Each week we have a full line of all seasonable vegetables and fruits at reasonable prices. We cannot list in advance exactly what we will have because seasonable fruits and vegetables are bought and sold quickly, but you can rest assured that your interests both as regards quality and price are safeguarded by us. Let your next Saturday's requirements be bought at Hobson's.

Hobson's Meat Market

Local and Personal

Mr. Henderson, on Jason, Mr. W. A. Mitchell and daughter and Mrs Jean Jackson took Monday dinner at the Wildman home.

Mrs. Whallace returned last week from a trip to Ottawa and Toronto and is now touring with relatives in the Tofield district.

M. LUCHOVICH SPEAKS AT TOFIELD

The first political meeting to be held at Tofield in the present campaign was held in the Variety Theatre on Thursday night in the interests of the U.F.A. candidate for the Vermilion constituency, Mr. Luchovich.

The audience was small, the reason no doubt being the inclement weather, rain falling heavily at meeting time.

Geo. Abernethy, president of the local U.F.A. acted a chairman of the meeting and the speakers were M. Luchovich, A. M. Matheson, M. L.A. and John Lee Ferguson, who is secretary of the local U.F.A.

The candidate spoke first and in his opening remarks stated that there was some opposition to him owing to his racial origin, being of Ukranian descent. He stated that the ideal of the people of the country should be to take no different view. Being in Canada and paid their taxes the Canadian should be equal regardless of race, creed or politics. He stated that he had been invited to be a candidate, he did not go himself and was pleased to be chosen as the candidate of the country for democratic federalism.

In asking for the support of the electors as the U.F.A. candidate he stated that the farming classes should have direct representation at Ottawa as Mr. Luchovich claimed that the enactment of proper legislation could do a great deal to alleviate the farmers present condition. He read the resolution that the way to get this legislation was by sending U.F.A. members to the Federal house, the two old parties were too busy scrapping to get it, power to be able to do this on elevators to curb legislation and to amend the Inquiry Act.

Mr. Matheson in his address asked that support be given the U.F.A. candidate at the polls on September 10th. He spoke about the customs scandal and on the connection made owing to disregard to the matter of the statement that as long as there the candidates metal organ.

W.I. NOTES

Our fir t meeting after the holiday will be held on for day, September 9th, we hope to see a good turn out and to enjoy the lunch and meet each other again.

The library will be open on Saturday of this week.

Mr. and Mrs. C. Simmons left for Edgerton on Wednesday where Mr. Simmons will be agent for the Canadian National Railway.

Mr. and Mrs. J. Lee and family motored to Edmonton on Monday.

On Sunday afternoon several guests of friends were played between Holden and Tofield. Mrs. Bain and Mrs. served refreshments to the visitors.

A. Emmons returned from his home to receive his duties in the Tofield school.

Mrs. Clement and Mrs. Batt are again on the teaching staff at the Tofield school.

Mrs. G. Blewett's young brother, Verne Griffin is visiting for two weeks.

J. S. McCALLUM

Liberal Candidate for the Vegreville Constituency, in which Tofield and district is situated.

CHANGE OF HOUR OF EVENING SERVICE

Next Sunday evening the hour of the service in the United Church will be at 7:30 in stead of 8:00 as formerly during the summer months.

U.F.W.A. NOTES

There were matters if much in terest for discussion at our last evening meeting, though the attendance was not all that could be desired. It is hoped that all ones making our new attending meetings more former. Points and pop ints were the main theme. One delegate to the U.F.A. convention at Bluesky gave their reports which owing to the unexpected to all of the convention were listened to with much interest and gave rise to much discussion.

Mr. Phillips paper on "Preparing Poultry for Market" was very interesting too, and showed the result of intelligent co-operation of theory and practice, with concrete facts and figure to prove each point.

The meetings in future will be the second and fourth Saturday's of each month. At the next meeting on September 11th, Mrs. J. L. Gray will read a paper on "How to Make a Perfect Quilt." The roll call will be answered by giving an ex way for preparing for three-hers.

CHANGE OF HOUR OF EVENING SERVICE

Next Sunday evening the hour of the service in the United Church will be at 7:30 in stead of 8:00 as formerly during the summer months.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

Grain cutting is now in full swing. While the oats are very short, the wheat and barley are good. The crop are a long way from a failure and the gardens have never been better.

Mr. Wm. Swift of Tofield took charge of the preaching services last Sunday, taking for his topic busy work.

Mr. and Mrs. Herman Lawson, Mr. and Mrs. Roy Flemings and families were guests of Mr. and Mrs. Geo. Lawson on Sunday.

IRENSHORE

School re-opened on Monday, Aug. 30th, with Miss Myrtle Bethel in charge again. Miss Bethell has a full school this year with all grades from 1 to IX. inclusive.

Mrs. T. E. Soule and Mrs. R. C. Phillips attended to Old Maids' party at the home of Mrs Victor Lee on Monday. They report a very enjoyable afternoon.

A very well attended dance was held at he Community hall on Friday, August 27th.

Mr. and Mrs. S. Bethel entertained visitors from Edmonton on Sunday.

Mr. and Mrs. R. C. Phillips were Sunday guests at the Frank Hall home at Leighmont.

LINDBROOK

Ideal harvesting and stacking weather, eh! We don't think.

Mr. and Mrs. Gillies of Ardrossan visited Mr. and Mrs. A. Scott last Sunday.

Mr. and Mrs. Dillane of Viking spent a day with Mr. and Mrs. J. Leahy. Mrs. Dillane and Mrs. Leahy renewing acquaintance from the time when both lived in London, Eng.

Messrs. J. Bailey and L. Ferguson who recently bought the Schroeder homestead, Lindbrook S., have sold the same to their latest bride of beggog it to Mr. Tinderson. Many a real estate man would be glad to be able to do likewise.

Mr. Leahy and family and Mr. Glass and family motored to Elk Island Park last Sunday and report a very enjoyable trip.

Mr. and Mrs. B. P. Hobbs and Mrs. F. Hobbs and baby daughter from Battleford, Sask., visited Mr. and Mr Hobbs here last week end.

School re-opens September 1st, with Mr Murray as teacher.

NEW MACHINE AT THE VARIETY

Patrons of the Variety Theatre were agreeably surprised at the quality of the picture at Saturday evening performance.

Upon enquiry at the box office, the Mercury man learned that the management had installed a new machine for projection purposes.

The machine, which I quote an improvement over the one previously in use, throws a brighter and clearer picture. While the mechanical operation was done by Ben Saturday, it is a motor driven machine and will be in motor driven here as soon as the motor is changed from alternative current to direct current.

The machine previously in use at Tofield has been taken to Viking, where W. Bellman and T. Robinson has leased a hall and intend showing pictures once a week.

The Mercury man was on the operating room of the Variety on Saturday and in the hands of P. Lovelesse, operator, the new machine certainly gave a cod account of itself.

HON. CHAS STEWART COMING

On Tuesday next, September 7th at the Variety Theatre, Mr. McCallum, liberal candidate for this constituency will hold in Tofield meeting. He will have with him on the platform, Hon. Chas. Stewart, premier of Alberta, who was unfortunately prevented from appearing at Tofield during the last federal campaign, and Tofield voter will no doubt turn out in good numbers to hear him on this occasion.

Mr McCallum will at a address the meeting and will be followed by such interest as he has had a great deal of experience in public life in this province and this section of the province.

was a protective tariff in Canada by long would there be smuggling. just as no longer as United States had prohibition, so would there be no tariff wanting. He dealt briefly on the Customs scandal and pointed out how that it was of any great moment. In a few remarks Johnstone Ferguson, U.F.A. secretary, told the gathering that it was the duty of members of the U.F.A. political organization to the best of their ability to disregard the matter of the statement that as long as there the candidates metal organ.

WORLD HAPPENINGS BRIEFLY TOLD

Tom Bailey, Annandale's airship which flew over the North Pole, has been sold to the Italian Government for a million lire.

Preliminary discussions have been held informally by officers and men of the Royal Canadian navy, travelling on duty, and it is to be increased.

According to a radio message received at Halifax, the Macmillan expedition is still the vicinity of the Labrador, becalmed and bound, and expects "all well."

Appointment of Rev Canon Alfred J Vale, of Hay River North West Territories, to be a justice of the peace in and for the North West Territories, is announced in The Gazette.

The head office of the Edmonton (Alta.) Portland, Limited, is to be changed from Edmonton to Toronto, and the number of directors will be reduced from seven to five.

Fire, which swept with incredible rapidity through the stables and waterfront of the Manitoba Cartage Company, Winnipeg, caused property damage estimated at $120,000.

Queen Marie of Roumania, who expects to visit soon on a visit to Canada and the United States, has taken a little manicure set suitable before she departs—nobody dares of her country.

The letter of Superintendent A J Hall of the Royal Canadian Mounted Police from Regina to Ottawa was confirmed by McMP headquarters staff. Superintendent W P Lindsay-Edmonton, succeeds Supt Alfred E Bentley.

It is estimated that the receipts at the five cricket test matches between Australia and England reached a total of $142,000, half of which goes to the turfmonies, while $18,000 is taken by the government as entertainment tax.

A party has left across Labrador to Harry V Dodgett, chief mechanic with the United States navy, in an aerial test, brought a plane and pilot to earth from an altitude of 2,700 feet after the engine had failed. The plane landed on a frozen lake and broke a propeller blade and its running gear, but otherwise no damage was done.

No Use For Conscientious Objectors

International Democratic Congress For Peace Unanimous on this

Although the International Congress for Peace has emphasized more than ever at this year's sittings that it believes in force to be no use for conscientious objectors. This stand was taken at the meeting of the congress when a resolution was adopted that conscientious objectors, in countries with compulsory military service, be forced to perform work actually hard and disagreeable for the state period at those who serve in the army.

The delegates, numbering exactly 1,000, ended the congress in complete unity, despite the fact that they represented twenty-three nations with different ideals. The point emphasized by the delegates was that poor nations should have the same chance for higher education as the sons of the wealthy classes in countries where public education is widely spread and universally encouraged in schools.

Madame Arenilla, of the congress, told of such encouragement in some of the Inuit and urged it be adopted by international congresses.

Japan Changes Emigration Policy

Will No Longer Encourage Coolitry men to Emigrate to Canada

It is learned here from Japan that in Hokkaido, Formosa, and other possessions, but in Japan proper, it is said in Hokkaido, Formosa, Inuit, and other colonial possessions, that the government has decided to discontinue the policy of encouraging emigration to Canada. The government, it is said, has come to the conclusion that while the emigration of Japanese to Canada through a clerical labor, has not been of much benefit to the country, it has been of benefit to the colonies. Every citizen is in favor of helping on our natural and colonial spheres throughout the world and in spite of the emigration, we do not consider that the time is ripe for a proper balance between rural and urban population which is at present sadly out of proportion.

Go To It!

Magnolia: "You say accusing her, big love, eh? I'll make you eat your words."

Pickle: "Then shouldn't, but thanks all the same."

King Victor Emmanuel, of Italy, is said to be the wealthiest reigning sovereign.

The Country And Its Consuming Population

By C. W. Peterson

With comparatively few exceptions, the country towns of Canada have been going down hill or have merely held their own during recent years. Various causes have been ascribed to this disturbing phenomenon of Improved highways and the general use by farmers of automobiles, which enable them to drive daily to their trading, and, frequently, in doing so increases, to the cities, thus carving off at least part of the volume of farm labour employed and, consequent, by the consuming population tributary to the country town. Rural mail delivery has largely cut out the visit to the post office, also, of late.

But new possibilities are opening up for the smaller centres. It is a fundamental fact that spreading life means through cities and centres of only average size, of these again every spell of depression in human affairs is just the city or people that precedes the dawn of spring? While old kinds of business have disappeared, new kinds of business have appeared in the towns. There are literally hundreds of automobiles and trucks. Every town has them. The man in charge is trained also to train many of others like him in a wonderful system of automobiling in a line which was absolutely unknown the towns twenty years ago. Farm merchandising has also led to larger and better equipment houses, roomier agencies and filling stations.

The towns are also accustomed to her than they used to be, to shift up their population. A place of 1,000 to 2,000 people, where the latter established a big poultry and egg shipping centre, a modern cold building, properly arranged and equipped, a good warehouse, ample office rooms, a good warehouse, ample office stock from the main line of the rail lines. Carloads of poultry shipped direct to the cities. Can you beat it? Who says that the town is not coming back?

The farmers are shipping the cream out from the slums, through local agencies, and getting cream checks for it every week. Many of them are from the outside world—sending their checks at the local banks and spending a lot of the money with the local merchants.

It's time that was a time when high school leaved the young people away from the home. The feeling in the past decade the towns have every one who have gone from the high school building. As one farmer's son put it to me, he impressed with the fact that towns everywhere have gone from the high school building. The local young folks are living at home and going to high school. The result is a new condition in the town, such as was not known previously.

From the cities they are doing some things that are bringing the towns to better. Certain railroad companies are moving their repair shops from big city centres out to small distributing points. It saves overhead cost, relieves the risk of labor trouble, and sometimes secures anxious for repair work.

In the east, there's a notable trend over to weather industrial plants. This has become so marked that an organization in the United States has recently made surveys and published the results of its findings in a book. Its conclusions upon the rural areas of industry which have been read widely. In a pictorial published of the early seventies there prevails a view of a series of articles in which Mr. Moved to the future. It is said the personal experiences of individuals of manufacturers, with their influencing one of the towns in which they have been located. Good Town For Beggars

Manitoulin Collects Millions and Hail Yearly in New York

A million and a half dollars annual income is the problem and claim of the Inuit Eskimo the rugs and caps of the Inuit Eskimo and adult blanket bearing the Inuit gun and pemmis on the streets of New York.

This estimate was given by the police department Frank L. Dunn, and Mr. Inspectors with whom he, commanding the anti-beggar bureau of the department, issued his annual report on beggars, made public yesterday.

According to Professor McDonnell of the department's anti-beggar bureau, the Inuit Eskimo has to a great extent lost its original character. Many of them are now professional beggars.

Police Magistrate Frank L. Dunn, who has charge of the anti-beggar bureau, said: "The Eskimos have come to New York to beg because they have learned that they can make more money here than in their own country. Many of them are now professional beggars."

The player on the Aurora Dominion liner, Letitia, plays at bat before the ship sails.

Present Bronze To Japanese City

A tablet of bronze weighing 100 pounds, has been presented, together with three silk flags of Japan, flag tablet at the United States, to the city Mr Barbara Matsubara, baron of Japan by Secretary of the Interior at Goodland on her latest world tour. It will be erected in one of the principal squares of Beppu, a city and a Japanese town, which has not of Tokyo has suffered by a world shaking fear, and which welcomed the Empress of Goodland and her party on to the exclusive fashion of the new resort.

Lavishly worked out, the appeal one of the tablet is one that is not that an earnest effort, and by the central location of the city where it is placed it will be of lasting interest to the people of the city and to visitors passing through.

The tablet of Goodland appears on acknowledging receipt of the tablet, thanked the Goodland's captain, Commander H. L. Latta, for this honor to have called at Beppu. He also said that it was with that a great honor had been done the city of which he was chief magistrate. The happy relations between the two countries would prove of the child, and a united all ten carried that the city would leave nothing undone to give the ship and her passengers an enthusiastic reception if they should be so—on this occasion nothing was omitted to give the visitors a high idea of what Japanese hospitality and courtesy were, and that they were by no means mere words. The passengers carried away with them very pleasant memories of the incident.

Turning Point In Biology

Recent Experiments Tend to Revive Theory Expounded by Darwin

"A turning point in biology," that was how a British savant described the address delivered on Friday before the British Association for the Advancement of Science by Professor W MacDougall of Harvard University on de-ductive science by the president, Mr. Inuit Eskimo, who represented the Inuit Eskimo, who represented the Inuit Eskimo, who represented the

U.S. HARVEST HELP IS SOUGHT

Because the east has fallen down on the supply of harvesters for the western crop, the "U.S." has been thrown out to the United States and from September 1st to 15th, all points along the U.S. border and prairie provinces will allow U.S. harvesters to come in and ride to and from the line at one cent per mile. Effort is also being made to get more eastern Canadians to come west.

FUNERAL OF MISS EDITH PEARSON

The funeral services of Miss Edith Pearson, beloved daughter of Mr. and Mrs. Emil Pearson was held on Tuesday at four o'clock from the church, Rev. O. K. Blomelle officiated.

Deceased is survived by her parents, one sister and one brother.

Edith Pearson was 18 years of age, she died in the hospital at Victoria, B.C. Interment took place in the Ryley cemetery.

We wish to thank all those who so kindly helped and those who came to pay their last respects to our beloved daughter.

MR. and MRS. EMIL PEARSON.

THE WHEAT POOL AND TRADING IN FUTURES

(Quoted from the Chicago Price Current-Grain Reporter, issued August 6th, 1926)

The feature of the last day of the month's trading was the heavy delivery of wheat in the trade by the wheat pool. It is estimated that at least 3,000,000 bus. of pool wheat delivers for the day, were made in the trade. The pool still has a short hedge protecting the market and the delivery required by them is for sale of 40 cents.

This is perfectly legitimate business. The pool is a member of the exchange and entitled to its facilities, provided for it as a member. Its operations in futures are on a very large scale.

But the pessimists and pooping and late responsible for the August break announced that one of the main objects of the pool was to break down the Winnipeg Grain Exchange. It was also frequently proclaimed by the farmers' friends that the futures market was unnecessary as far as the pool was concerned, that it was in fact inaugurating a new and higher method of marketing. The bumcombe was swallowed by a lot of farmers, but not all. From now on the highly paid pool propagandists will find their ingenuity taxed to explain At that, you can't fool all of the people all of the time.

The Canadian Co-operative Wheat Producers, Ltd. (The Wheat Pool) is in the limelight these days. The pool is and the pool members have been informed that officials of the company prohibit from writers cranes from signing checks, and how millions of dollars have been distributed among the members of the pool by the interim payment of July 20.

So far members have received about a bushel for Sec. 1 Northern which a statement issued by pool officials says is below the price they may get a little more. The pre address of the Manitoba pool offers a word of consolation—the pool paid $1.40 all told last year. He did not depreciate clients by telling them that on a whole lot of grades and mixtures there was nothing more coming. However, they know it now that they have their checks.

On the trading floor of the Exchange the feature of the past week has been the heavy and persistent selling of futures by "A certain big interest." Brokers do not divulge the names of their customers but pretenders know where this selling is coming from. This short selling is on the part of it by parties who have the wheat to deliver and mean to deliver it.

As it is, $1.46 a bushel looks small compared to 1132%, the average price paid by the trade. It would look smaller should the average price by the end of the crop year be $1.65 or over.

The general conclusion is that the big interest is more interested in keeping prices down than in any other policy for the present.

UNITED CHURCH OF TOFIELD

Rev. R. George Watt, B.D. Pastor

Sunday, September 5th, 1926

11:00 a.m. The United Sunday School at Tofield.

2:00 p.m. The United Sunday School at Ketchamont.

3:00 p.m. Church Service at Ketchamont.

7:30 p.m. Evening service at Tofield.

Please note the change of hour of the evening service.

All are cordially invited to these services. The holiday season is over, let us all rally around THE SCHOOL and THE CHURCH in their efforts toward the better things of life.

Simple Mixture Stops Gas Bloating

Simple bicarbonate bark, glycerine etc., as mixed in Adlerika, often helps stomach trouble in TEN minutes by removing GAS. Brings out a surprising amount of old waste matter you never thought was in your system. Stops that full, bloated feeling and makes you enjoy eating. Excellent for chronic constipation. Adlerika works QUICK and delightfully sure.

A. A. Beirnes, Druggist.

CHEVROLET

First to get away!

YOU'LL feel the smooth Chevrolet getaway in the hum of the traffic line. At the sound of the whistle or the sight of the word "Go", the smooth Chevrolet is first to get away.

Chevrolet will run rings around heavy, cumbersome cars — stopping on and out of traffic with an ease that is almost uncanny. Chevrolet may be turned completely around in the width of an ordinary road. It can be parked with ease in a comparatively small space. It will gather speed on hills where laggy, cumbersome cars slow down. And always the Chevrolet driver knows that, if climbing quickly beneath the hood is a dependable power that will not fail him in an emergency, while Chevrolet, above everything else, is economy in driving — either fuel or time — a source of pleasure and satisfaction.

The Sweetheart Chevrolet in Chevrolet history is sitting at the Lowest Price for which Chevrolet has ever been sold in Canada.

Let your Chevrolet dealer arrange a demonstration and terms of purchase under the GMAC Deferred Payment Plan.

PROGRESS AND POLITICS

AN INTELLIGENT and alert citizenry is the ideal of every civilized nation. An indifferent and ignorant citizenry is the bane. To take part in the affairs of the country is highly commendable and without doubt, every country in the world owes a great deal to its advanced thinkers, both past and present. Here in the Dominion of Canada and in the Province of Alberta, where we have, firstly an excellent educational system and secondly, a free press, there is every opportunity for individuals and groups of individuals to give expression to their thoughts and feelings, and three elections in eleven months is an opportunity par excellence for this purpose. In fact, there is a danger of over estimating the value of politics and public interest.

There is another side—we cannot live and the country cannot progress by talking politics and having elections, however important they may be.

During the past few weeks we have visited a well improved farm; a farm in a pioneer settlement; and a small hamlet. On the improved farm was a recently erected house that would do credit to the city of Edmonton for that matter. There is also a new house almost completed, and in the hamlet we have in mind there is a store that would do credit to a much larger place and a new brick building in the course of erection. It has occurred to us that if the political enthusiasts work is spectacular the workers efforts are real. The progress of a nation is the progress of millions of individuals and the only way an individual can progress is by intelligent and well directed energy used for his and his family's good.

It is necessary for a country to have legislators —the best that can be procured—but only in a small degree can they make life easy for you; they are not the works of the national watch, they act as the regulator. Oratory, brilliant and otherwise, may seem all important now but after election the issues are forgotten in the interest in the result. We prefer the two main election issues today will be dead issues two months from now, perhaps less.

Take an interest in the affairs of your country by all means; attend political meetings and read newspapers; cast your vote according to your judgement; but it is wise to remember that after all national progress is individual progress and your individual progress depends chiefly upon yourself.

CONTINUOUS LIGHTS

TO PERSONS unaccustomed to it, there seems something incongruous about having street lights burning all the time, yet under existing circumstances in Tofield, it is cheaper than turning them on at night and out in the morning, and paying for this to be done. By burning the lights continuously there is a constant and steady pressure against the mantle and a steady heat inside the lamp. This to a large extent, prevents broken mantles and globes. The lamp outside the Mercury office has burned for months without attention, but as soon as it is turned on and off, either mantles or globes break —or both. It costs ten dollars per month extra to burn the lamps continuously but it is money well spent.

ROGERS BROS.

THE DISSOLUTION of the partnership existing between H. and E. Rogers which takes place this week is worthy of comment. It is quite a long time since the firm commenced doing business, or at least a long time as time is counted in the west, fifteen years in fact. Still the years pass quickly and it does not seem so very long since they used to make a last minute delivery on Saturday night and it is easy to recall to mind the chug, chug, of their car as it went away in the darkness. Pool lights were not as bright in 1913 as they are to-day.

Conducting a general store is not all "beer and skittles." Sometimes customers are exacting to the point of distraction and drafts for goods unsold or goods sold on credit have a familiar habit of coming in when least desired. However, theirs was an unfailing courtesy and many times in earlier years when it took a firm hand and a cool head to guide their own economic ship into a safe harbor, they also assisted many another to do likewise.

The era of specialization has demanded that for convenience and efficiency the partnership be dissolved, even though both brothers will be connected with the same lines as at present.

In company with many who have made their acquaintance during the years of their doing business here, the Mercury wishes both brothers complete success in their new arrangement.

WEEDS A NATIONAL PROBLEM

(Experimental Farms Note)

Travelling through Canada in mid-summer one is struck by the prevalence and diversity of weeds. Weeds districts, certainly fields, can be described as white, blue, yellow or green, the green too often unfortunately of couch grass rather than of clean, vigorously growing crops. The occurrence, here and there, of exceptions to the rule, simply demonstrate the possibility of better things.

Losses to farmers and to Canada, totalling many millions of dollars annually are represented by this riot of colour. Any woman, however practised, of reducing such waste, most therefore command respect.

Much of western Canada is fit only for a forest crop. Fire and axe have exposed to the incursion of weeds, millions of acres that can only be a menace to adjoining lands until restored, by governmental or municipal action largely, to its own purpose use.

In large additional areas the farming can only be described as very low pressure grain cropping land. The land lies in bar or pasture chiefly, and in a year or two from the plow, produces herbage unmarketable as hay. Until brought under a more intensive agriculture, or correct permanent pasture management, returns from such farms will be meagre.

In more advanced farming districts there is a noticeable absence of such conspicuous, but readily (under cultivation) suppressed weeds as ox-eye daisy, and the hawk weeds. In their place, according to locality, appear various mustards, thistles and others. Certain weeds are more or less indicative of over reliance on grain crops, others prevail in clover seed growing districts, fruit or truck-ing lands, etc. Perennial sow thistle invades the richer soils, especially if poorly drained; Russian thistle the lighter regions; sheep sorrel those of need of liming. Everywhere some weed is ready to step an opportunity. Man's only hope now, of comparative freedom from the weeds is to occupy every inch with adapted crops, well planned and carefully husbanded according to sound principles of tillage and plant growth, duly so can he gainfully forestall Nature's constant effort to replace her vegetation —of forest, cast and west, and prairie in the vast interior of Canada.

SMOOTHEST CHEVROLET

New features and mechanical refinements adding still further to ease of operation and driving, and outstanding Duco color characteristics distinguish Chevrolet for 1927 just announced.

A motor even more remarkable for smoothness of operation and a number of others that reflect the latest and most harmonious blending of smart beauty and artistic lines are revealed in the car. The new features are announced on the middle of the greatest advance year in Chevrolet history.

Among the more important new features included are the following: A new cast aluminum, two-piston, two-ring piston for the four cylinder motor, this piston being of the full-floating type, and of the same design as the piston used in the six cylinder motor. The four cylinder motor has also been equipped with a new counterbalanced crankshaft, and a new and improved vibration damper. The new Chevrolet motor is mounted in rubber at three points, and is entirely enclosed in a new and improved manner. The clutch has been improved by the addition of a new clutch spring. The transmission has been improved by the addition of a new and improved gear shift lever. The rear axle has been improved by the addition of a new and improved spiral bevel gear. The front axle has been improved by the addition of a new and improved spring clip. The steering gear has been improved by the addition of a new and improved steering gear. The brakes have been improved by the addition of a new and improved brake lever. The wheels have been improved by the addition of a new and improved wheel. The tires have been improved by the addition of a new and improved tire. The fenders have been improved by the addition of a new and improved fender. The hood has been improved by the addition of a new and improved hood. The radiator has been improved by the addition of a new and improved radiator. The headlights have been improved by the addition of a new and improved headlight. The taillights have been improved by the addition of a new and improved taillight. The windshield has been improved by the addition of a new and improved windshield. The windshield wiper has been improved by the addition of a new and improved windshield wiper. The windshield wiper motor has been improved by the addition of a new and improved windshield wiper motor. The windshield wiper arm has been improved by the addition of a new and improved windshield wiper arm. The windshield wiper blade has been improved by the addition of a new and improved windshield wiper blade. The windshield wiper linkage has been improved by the addition of a new and improved windshield wiper linkage

McLaughlin Hardware

H. E. ROGERS

ANNOUNCE THE PURCHASE OF THE STOCK OF

Ladies and Children's Wear, Boys Furnishings, Dry Goods and Crockery

Formerly a part of the stock of Rogers' Bros. which will be continued in the same premises. This is the age of specialization in the business world, and we believe we can give better service to the public by concentrating our efforts on these departments, than is possible where they are operated as more or less of a side line to a general business.

We will operate on the system of selling for cash on a low margin of profit. Our experience convinces us that this is the only way we can meet present day demands. Thirty day accounts will be opened for the convenience of customers, if desired. Accounts will not be opened because customers cannot pay, but because we know they can pay. We do not propose to make our good accounts pay for losses on unpaid ones.

New buying arrangements have been completed which will enable us to meet any competition on staple lines of merchandise, but in no case will we lower the standards of quality expected by our customers.

Stocks in many lines have been entirely sold out during the recent Close-Out Sale, which enables us to show practically an entirely new and up-to-date stock for the fall. Shipments are already in our warehouse, or are being rushed from the manufacturer.

This week we are featuring the advance showing of fall coats and dresses. Our space does not permit adequate description, but we want you to come in and see them, try them on and enjoy the luxury of rich fabrics and soft fur.

Store Closes at 6:00 p.m., Saturdays at 10:30 p.m.

The Reliance Store Co.

Men's Wear and Groceries

Has taken over the stock of these lines from Rogers Bros. and friends of the old firm will find the same staff ready to serve them

At The Same Old Stand

By concentrating on these two departments we will be able to offer our customers

BETTER SERVICE AND MORE CONVENIENT ARRANGEMENT OF STOCK

In order to meet the modern demand for

GOOD MERCHANDISE AT COMPETITIVE PRICES

We will operate in the only possible system for to insure economy in retailing

CASH OR STRICTLY 30 DAY ACCOUNTS.

The same dependable brands of Men's Furnishings carried by Rogers Bros. will be continued for the most part. Changes are being made however, in buying policy in certain lines, to enable us to meet mail order prices. The standard of quality will be maintained in both Groceries and Men's Wear, regardless of price.

Fruit and Vegetables

Our weekly stock of fruits and vegetables is one of the best outside the City of Edmonton. Each week we have a full line of all seasonable vegetables and fruits at reasonable prices. We cannot list in advance exactly what we will have because seasonable fruits and vegetables are bought and sold quickly, but you can rest assured that your interests both as regards quality and price are safeguarded by us. Let your next Saturday's requirements be bought at Hobson's.

Hobson's Meat Market

Splendid Addresses at Liberal Meeting

Good Crowd Attend to Hear Hon. Chas Stewart and J. S. McCallum

On Tuesday evening J. S. McCallum one or other of the two great parties. He left it to the audience to decide as to which party was the one with which their man should should vote. He stated that although his opponent was a Ukranian, he did not blame the people in the districts south of Alberta and Minister of the Interior for the interests they represent there. Neither could he be blamed, if as a native Canadian and a lover of his country, he voices the desire to represent this Constituency. This matter should not enter into this campaign. At this point Mr. McCallum was excellent and treated a rather delicate subject in a masterly manner.

He then touched upon the reduction in tariff stating that in 1921 the tariff claimed $42.00 per capita from the Canadian people, in 1926 it had been reduced to $31.00, which is a family of five accounted to $105.00 per year. The liberals in 1917 were responsible for the flat rate of 1½c. per bushel for grain, this during war years was increased to 20½c., but in 1922 the liberals again reduced it to the 1½c. bushel; this was when they had a clear majority over all parties. After expressing himself as in favor of old age pensions and absolutely opposed to smuggling and the bringing in of dope, he appealed to the audience to support him on September 14th.

In reply to a statement from the audience that both parties had accepted campaign funds from the beer barons and rum runners, Mr. McCallum stated that statements were often made that were no true, but for himself was a prohibitionist and ever would be in favor of men or any body accepted from these people.

Applause

The meeting was concluded by the singing of the National Anthem.

LOCAL AND GENERAL

Mr. Law, who has been in the drug store for some time, left on Friday last for Edmonton

Mr. Mary Easton visited her mother at Camrose on Wednesday last.

R. W. Pincott and two children are at from their trip to the coast on Saturday. Mr. Pincott left his car at Calgary on account of the poor condition of the roads.

Mr. and Mrs. Geo. McLaughlin were called down on Monday of this week by the illness of Mrs. Mary Carver of Edmonton who is at the J. Carver home over the week end.

Mr. Audrey Jobb spent the week end at her home.

Mr. Mowna Brenner returned to Edmonton on Monday where she will be training in the Royal Alexandra hospital.

Mr. John Glasgow of Holden was in town on Saturday night.

A Wilson spent the week end at his home in the city.

Mr. Buchanan visited friends at Holden over the week end.

Mr. Dawson Manners and two children dropped over in Tofield on Sunday morning. Mrs. Manners will be remembered as Miss Marshall, who was the primary room in the early days.

L. R. Murray returned from the hospital in Lamont on Wednesday last.

Mr. O. Sproule of Fort Saskatchewan was a guest at the Noland home over the week end.

Mr. C. Church and little son of Wainright returned home on Sunday after a two week's holiday with Mrs. Church's mother, Mrs. Herndon.

W. H. Hayne of Big Valley spent the week end in Tofield.

Hatton Lewis who is working in Edmonton visited at home Sunday evening.

The Misses L. Clement and M. Barr spent the week end at their home in Camrose.

SPECIAL PRIZES FOR SCHOOL FAIR

The School Fair Committee wish to announce that the following special prizes will be offered in connection with the fall competitions, held on September 22nd at the Tofield Fair Ground

The final standing: R. W. Pincott, $4.00; spring, W. C. Swift, $3.00; cement work, donated J. D. Hamilton, $2.00; Tofield Garage, $2.00; Tofield Bakery, $2.00; Tofield Meat Market, $2.00; M. J. W. Robinson $1.00 cash; 30—65 shelves, Mrs. J. W. Robinson; 31—60 and 72, collection of insects, butterflies, etc. Burt H. Bell prepared exhibit of wheat and seed barley, in one. The Tofield Garage, $3.00, $2.00.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

After being delayed for several days on account of heavy rains, harvesting started again on Saturday but fortunately the ... ETAOI SH but was again interrupted by rain so far there has been no frost.

School re-opened on September 2nd, with the same teacher as last year, Clifford Lea. Owing to the inclement weather not all pupils were present, but we hope on Monday all pupils will be on deck. There were two new pupils enrolled, Ethel Brown and Douglas Miller.

Miss Marjorie Lee will teach the Woodlawn school again this year.

Miss Mabel Lawson will go back to her school near Holden, starting on September 7th.

Mr. W. A. Mitchell returned home on Thursday evening after working two months in the harvest field in Oregon.

Mrs. Wm. Golightly of Vancouver has been visiting at the home of her aunt, Mrs. Wm. Thompson of Ingram district this summer.

Miss Ada Turner and brother Dirk were guests of Mr. and Mrs. Carlisle on Sunday evening.

Mrs. Brehn and family of Rhoda, Mr. and Mrs. Henry McGinnis and family were guests of Mrs. Henderson on Sunday.

Miss F. Fawcett came down from Edmonton on Wednesday to assist with the house work at the Schultz home.

Mr. and Mrs. Geo. Lawson and family, Mr. and Mrs. Roy Flemings and family and Mr. and Mrs. C. A. Ingram took Sunday dinner at the Herman Lawson home.

Mr. K. H. Pike, B.R.A., delivered an address in the school house on Monday afternoon which was very much appreciated. We regret that there was not a larger representation out.

Mr. and Mr. Lesley Coomber, Mrs. Coomber and son Herald were Sunday evening visitors at the Owen home

Mr and Mr. J. Lounie and family, Mr. and Mrs. Hugh Mitchell, Mrs. Ingram, were Sunday dinner guest of Mr. W. A. Mitchell.

Mr. Pearl Gray who has been away from with the house work at the Gray home for several weeks returned to the home of her sister Mrs. Noland on Wednesday.

Mr. Lilbury Corbett and Hazel Gray are taking up the sixth grade in Tofield this year.

Bull weather, backwards and fast is were forgotten on Monday afternoon, when Mr. Peter Lee and daughter entertained about 40 old friend and relatives at a picnic supper. Needless to say a delightful afternoon was spent.

SPECIAL PRIZES FOR SCHOOL FAIR

The School Fair Committee wish to announce that the following special prizes will be offered in connection with the fall competitions, held on September 22nd at the Tofield Fair Ground

Robinson $1.00 cash; 30—65 shelves, Mrs. J. W. Robinson; 31—60 and 72, collection of insects, butterflies, etc. Burt H. Bell prepared exhibit of wheat and seed barley, in one. The Tofield Garage, $3.00, $2.00.

AMISK CREEK

The rain has held up the harvest work and in one or two cases has caused some of the wheat to grow in the sheaf.

The Ladies' Aid held their monthly meeting at Mrs. L. Anderson's on Wednesday of last week. On account of the bad roads the attendance was not very good. Six members and four visitors were present besides men and children.

Mr. and Mrs. Elmer Anderson and children, Mr. and Mrs. J. Jevning and baby from Ryley were guests at E. A. Moen's home last Sunday.

Belongs school is now ready and teaching will start on Wednesday with Gustav Brooke as teacher.

Ruby Berg will attend school in Ryley, taking up grade ten.

The Annebo family have now moved into their new home.

Emil Rude has installed the 'phone lately.

Clifford and Homer Hartman and Joe Brenneman left last Monday for Nebraska where they are goin to attend school.

The Misses Mabel Asome, Clara and Magda Annebo and Lena Anderson were guests at Mr. and Mrs. John Rude's, a week ago last Sunday.

Mr. and Mrs. P. Flaaten and Gunvald and Ruby Berg were visitors to the L. Halstad home Sunday before last.

Mrs. R. O. Berg and Alice were visitors at the Flaaten home last Sunday.

KINGMAN

Mr. H. Haugen of Lulu Island, B.C., formerly of Rocky, is back for Harvest and will dog till threshing is completed, when he will return to his home.

Mr. Sam Linnamann and Alvin Halgrave were Edmonton visitor over the week end.

Cutting of the rain has been greatly delayed owing to the heavy rains during the past week. About fifty per cent of the wheat has already been cut.

Mr. Joe Sutton is building a cement block on home for several weeks now. Detwiler. The material is being furnished by the Manning Sutherland Lumber Co.

Mr Ed Johnson and Hans Bonnes are doing breaking for Charles Nash-ton. It is estimated that about 300 acres of new land is being broken in the Kingman district this year.

Mr. Mulford Bonner is nothing at the St. P. Thomas home for a couple of months.

Mr. and Mrs. T. Graham and children were the guests of Mr and Mrs. Jack Lynch on Sunday.

Mr. and Mr. N. Jacobs were visitors at Ed Tofield's on Sunday.

Mrs. Spark of Lloydminster is visiting with her sister, Mrs. Isiet Bard.

Mr Oscar Lyon and Neil Bonner left on Monday evening for Acadia, Alberta, where they will assist in threshing.

Mr. and Mrs. J. J. King recently returned home from a lengthy stay in the United State. While on the trip they visited several states, but upon his return Mr. King states that Alberta is as good a place to farm as any he has seen. Mr. and Mrs. King returned about two weeks ago and will again take up their residence upon their farm here.

The regular social meeting will be held next Tue her, September 14th at the ... All members come and ... Everybody welcome. ... Committee.

McLAUGHLIN ELIMINATES RUBBLE

Rumble in closed cars has been one of the chief objections to The body type. McLaughlin Buick engineers have eliminated it from the closed McLaughlin Buicks for 1927.

Live rubber insulates the body of the McLaughlin Buick from all outside influences which might cause noise. The engine is suspended at all three points of contact with the frame, in heavy rubber inserts. The torque through to the body, but this engine has been made smooth and quiet at all speeds, with a complete ... Mc...chin Buicks.

absence of vibration period. Thin in addition to the rubber engine mountings, prevents any engine noise in the interior of the car.

The frame often transmits road noises through to the body, but this cannot pass the rubber barriers in the

To The Electors of The Vegreville Constituency

The campaign is drawing to a close. Owing to the shortness of the time and the size of the constituency, and the conditions of travel, I have been unable to address a mail per rentare of the electors. I have had ... ing in the principal centres, but in many cases, owing to the condition of the roads, the meetings were not largely attended. I therefore take this opportunity of again reminding you of the necessity of each and every elector giving to me, not only his vote on election day, but his active support and influence up to that date.

I am appealing for your support on my personal record among you for the past 24 years. I do not believe that anyone in the constituency will deny the fact that I am by all means the best fitted to be your representative. I have had the experience, firstly in farming, so that I know the needs of the farmers; secondly in business, so that I know how to carry on the business of the Government, the greatest business in the Dominion of Canada; and thirdly in parliament, so that I know how to carry on the work as your representative, in legislation, and law making as well as the other branches of government.

As to my integrity, I leave it to you to decide. In my record as a member of the Legislature of Alberta as your representative, I submit that there are excellent reasons why you should consider in electing a representative to the House of Commons of the Dominion, the highest position to which you are called upon to elect a man.

As you all know I have been nominated by the Liberal party of the constituency. I admire that the Liberal party is deserving of undeserved ill for the very favorable legislation which it has given to the people, especially of Western Canada. I need only mention in this regard the re-... 1925, I would also remind you of the reduction in freight rates on oats from 26½ ... per bushel to 15 cents per bushel. I ... the reduction in the rates on ... the interior of the country. ... absolutely necessary ... the Canadian National ... ways, the reduction in the various ... taxes such as ... income tax, excess ... duty, stamp tax on cheques and ... money orders, and many other ... for which the Liberal administration has a record of economical business administration, unsurpassed in the annals of Canadian history. I shall not dwell on this record the Liberal candidate deserves your active support in this campaign. However, I submit that party is not the all important question to be studied by those voters. There are many questions of policy, and there are many questions of principle, and there are many questions of the ... people and of the constituency which must be considered. I believe that my ideals in support of such questions as those of Old Age Pensions, the Soldiers' Re-establishment, Low Interest Rates, Low Freight Rates, Low Tariffs, and Lower Freight Rates on our products, conform with the majority of the electors of the riding. I also ... that my views on the ... principle as ... serving as ... the ... of the ... I ... that my ... as a ... of the ... I ... personally ... having ... to the ... of a family.

As an actual farmer, as a man whose every needs is in your district and whose every interest is in common with you, as a man whose British ideals conform with those of the electors, may I ask for your influence and your active support.

Faithfully yours,

J. S. McCALLUM

THE WHEAT POOL AND TRADING IN FUTURES

N the Chicago Price Current Grain Reports, the organ of the Chicago Board of Trade, there appeared early in August an article setting forth the delivery of three million bushels of wheat on the last day of July by the Pool to cover sales made on the July option. The ... Clearing Agency of the Canadian Pools felt at the time that ... was worth much attention. Recently, however, it has ... to the advertisement ... and seems time to ... this matter. The ... Pool is not by a ... but is simply an ... agency for farmers, available ... July is the month in which ... when there is the least ... owned by farmers. ... to the farmers, avail... July ... ...

RED ROSE "is good COFFEE"

Farmers Suffer Enormous Loss

According to a bulletin recently issued by the Saskatchewan Department of Agriculture, weeds kill and destroy more than thirty million dollars' worth of crops annually in that province. It is one of the most interesting and instructive bulletins that has been issued by any department of agriculture in Canada, and should be read by every farmer in the province. It is not of interest to farmers in Saskatchewan alone, but to farmers in every province in the Dominion, for the reason that the weed problem is one that is common to all provinces. The bulletin is published by the Saskatchewan Department of Agriculture, and is entitled "Weeds, and How to Kill Them." It contains 100 pages, with illustrations of the principal weeds found in the province, and is written in a plain, practical manner that makes it easily understood by the average farmer. The introduction to the bulletin says: "Weeds annually cause a loss to the farmers of Saskatchewan of many millions of dollars. In 1910, for instance, the loss from weeds in wheat alone was estimated at thirty million dollars. This loss is made up of the value of the seed, cultivation, harvesting and threshing of the weeds, and the reduction in the yield of grain caused by the weeds. The loss in oats, barley, flax and other crops is also very great. The loss in pasture land is also very heavy. Weeds are the worst enemies of the farmer. They are more destructive than insects or fungous diseases. They are present every year, and in every field, and they must be fought every year. Weeds are the result of bad farming. They grow in greatest abundance on land that is poorly cultivated, and they are the cause of poor cultivation. Weeds are a menace to the whole community, and not to the individual farmer alone. Every farmer who allows weeds to grow on his land is a public enemy, and should be treated as such. Weeds are the greatest obstacle to the progress of agriculture in Saskatchewan. They must be destroyed if the province is to take its proper place as a great agricultural country. Weeds must be destroyed if the farmers are to make the profits from their farms that they should make. Weeds must be destroyed if the province is to be made a clean, attractive country in which to live. Weeds must be destroyed if the province is to be made a healthful country in which to live. Weeds must be destroyed if the province is to be made a prosperous country in which to live. Weeds must be destroyed if the province is to be made a country in which it is a pleasure to live. Weeds must be destroyed if the province is to be made a country in which it is a profit to live. Weeds must be destroyed if the province is to be made a country in which it is a pleasure and a profit to live. Weeds must be destroyed if the province is to be made a country in which it is a pleasure and a profit to live, and in which it is a pleasure and a profit to die. Weeds must be destroyed if the province is to be made a country in which it is a pleasure and a profit to live, and in which it is a pleasure and a profit to die, and in which it is a pleasure and a profit to be buried. Weeds must be destroyed if the province is to be made a country in which it is a pleasure and a profit to live, and in which it is a pleasure and a profit to die, and in which it is a pleasure and a profit to be buried, and in which it is a pleasure and a profit to be buried in

BARDO

The Bardo school, Myrtle Rude and Carrie Brorkan teachers, and Grand Forks school, Betsy Ness, teacher, commenced on September 1st.

Mr. and Mrs. J. Carver have moved into the house vacated by A. E. Calvert.

Lockwich Elected

Dominion election day of 1926 will go down into history as being dumbly famous as far as Alberta is concerned. There was a raging snow storm on this day and it was the first occasion that a separate U.F.A. group were elected to the Dominion house.

In this constituency speculation was rife as to who would win. Many believed Mr. McCallum's qualities as a former public servant would have weight in many U.F.A. minds and would win enough votes from that quarter, to elect him. Mr. McCallum did win many votes, but not enough to elect him. 58 polls out of 86 in Vegreville give; McCallum 4276 Lis-Lovchich5b. The result last October was Bostiller 3103; Gordon 2643 Day and Friday of last week. Mrs. Wrightson was formerly Miss L. Barker, who taught here about twelve years ago.

Robert Swift of Montreal, Que., is visiting his brother Bert, for a few weeks.

R. W. Pincott left on Sunday night for Calgary to bring back his car which he left there last week.

Miss Mary Easton visited her mother at Cameron on Monday.

Mr. A. A. Beames went to the city on Monday.

Warren Griswold, of Pine, was in town on Monday.

Mr. and Mrs. J. L. Abbott motored to Kinsella on Sunday. Mrs. Abbott's sister Clara, who is teaching near that town.

Mr. L. A. Rudd spent a few days in the city last week. Mr. Rudd has a decided interest in twenty five oil lease properties. Considerable [illegible] was done, including the [illegible] ing of a harpoon of fish on Sunday.

Mr. M. Barr visited her parent in the city over the week end.

A very successful as well as enjoyable tea was held at the home of Mrs. L. Forest, Mrs. M. Letourneau and Mrs. E. Rogers assisting Mrs. Lowery. The proceeds which amounted to $7.00 are for the curling rink.

On Sunday afternoon, the Sidland, Emery, Chapman and Bellman families motored to Round Hill to see Mr. Bowman's garden. He has a number of [illegible] of flowers and they are well worth seeing.

RYLEY NOTES

There was a good attendance at the meeting last Saturday night when Gray gave an excellent demonstration on how to make a feather quilt, which was heartily appreciated. The evening was discussed, date and place to be settled at the next meeting. We hope for a large attendance to settle this important event. A committee consisting of Mr. E. Phillips, Mrs. J. Ingram, Mrs. H. Barne. Mr. E. Moran and Mrs. Heath were appointed to draw up next year's programme. Will each member please help this committee by bring up or making a suggestion for the programme to the next meeting. The roll call on topic that 23rd is to be answered by [illegible] Child [illegible] songs."

NEWS OF OUR NEIGHBORS

KETCHAWOOT

A slight frost nipped the tenderest plants on Friday night and for once it was welcome as a frost always seems to settle the weather. Once again the binders are goin from morning till night with ideal harvesting weather.

Little Mary Ingram has been quite ill with the whooping cough. It is the only case we know of in the neighborhood.

Mrs. Paul McMullen underwent an operation at an Edmonton hospital on Thursday. Her many friends wish for her a speedy recovery.

Mr. Wm. Lee is trusting his house to a coat of paint.

Mr. and Mrs. Frank Hull entertained the Mitchell families to dinner on Sunday.

Mr. and Mrs. Hugh Mitchell, Mr. and Mrs. W. A. Mitchell and daughter, Mr. and Mrs. D. H. Mitchell and grandchildren, Mrs. P. F. Ingram, and Mrs R. Wilkinson and daughter.

Mrs. Gladwin of Vancouver, mother of Mrs. Paul McMullen is caring for children at the McMullen home in the absence of Mrs. McMullen.

Mr. Chas. Williams accompanied his mother to Edmonton the first of last week where she spent a few days.

The M.A.S. was to have met at the Vager home on Tuesday. Owing to the inclemency of the weather the meeting was postponed for this month.

Weather Bulletin from Bash. to Edmonton, Mrs. Sheppard stepped off on a month's visit with her daughter Mr. Chas. Williams.

Mr. Ross Stewart was under the doctor care in Edmonton, the latter part of the week.

BARDO

There are anxious times for the farmers. Some of the land is too wet to allow them to cut their grain, and the crops that was standing are [illegible] growing. Everybody hails from the [illegible] and hope they get it through the week.

Weed has been received that Gladdens Ness has matriculated at Medicine college, Northfield, Minn. The U. of Md chose is quite famous in the States.

Mr. Lerkshaw spent a part of last week with her parents.

[illegible] Logan is back from Grand Prairie where he has been for several [illegible]

Little Earl Knaack who was badly hurt by a horse some time ago, is recovering nicely. His face will never be badly disfigured as was at first feared.

Miss Ruth, who passed the 7th grade exams is taking 8th grade work in the Bardo school, and Irene Rude and Esther Ness are taking 9th grade in Grand Forks.

Margie Ness and Edna Yoder are going to school in Tofield this year.

Mr. Mourad Finwith entertained Mr. Hillside family from Ryley Mr. Hillside from Mr. Lloyd Rude and J. Rude families on Sunday, also Lorraine Rude and baton Larsen.

Rev. Ryble from Sask. preached in the Lutheran church Sunday morning.

Mrs. Holman of Sask., secretary of Russian emigration board, preached in Bardo Church, morning and evening.

Mr. and Mr. Both and Mr. and Mr. Cramer from Nebraska, have been visiting friends here for a couple of weeks. Mr. Both is a brother of Mr. J. L. Stauffer. Mr. Both and Mr. Cramer are sisters. They go from here to Oregon and California.

POOR RATHER

The weather the week has been about as bad as it could possibly be. About a foot of snow has fallen and for the middle of September, it is extremely cold. While there is a large

KINGMAN

Mr. C. F. Sealand was a business visitor in Edmonton last week.

Mr. and Mrs. H. Hendricksen of Holden were visitors at Thor Hortes for a few day. last week.

Mr. W. McIrvish has returned from his month's vacation in Victoria, Seattle, and other points.

Mr. and Mr. S. T. Severson of Ryley were visitors at Ed Thompson's over the week end.

Mr. and Mrs. Thor Horte and family were visitors at the home of P. H. Haugen of Tofield on Sunday.

Mr. and Mrs. E. Erickson and son and Mr. and Mrs. Thor Grahn and family were visitors at the home of John Nelson of Hay Lake on Sunday.

Misses. Oscar and Otto Grahn of Hay Lake were Kingman visitors on Sunday.

Misses Irene Horte and Lily Erickson, who are attending High School in Camrose, spent the week in Kingmen over the week end.

Owing to the fine weather of the past few days, harvesting is again in full swing.

LAKESHORE

Mr. and Mrs. H. W. Warner of Chester Bar have been spending a few day. visiting at the home of their son, J. R. Warner and family.

Mrs. Albert Roberge left last week for Longbeach where she will take up teaching duties.

Mr. Gilroy will hold services for the last time this summer at the school house on Sunday, Sept. 19th, at 3.30 p.m.

F. Fregrin visited friends at Chipman on Sunday.

A sad accident occured at the Barbon home on Sunday, when Glenn, the seven months old son of Mr and Mr. Barbor fell into a water tank containing only a few inches of water and was drowned. A doctor was hastily summoned but all effort at resuscitation were unavailing. The funeral was held on Monday, Rev. Watt conducting the services. Interment was made in the private burial ground of the bereaved family. The sympathy of the entire community goes out to Mr. and Mr. Barbon in the [illegible] bereavement.

LINDBROOK

The weather again! know this time, what with a dry summer, a wet fall and even the early, the year 1926 will go on record as a "bum" one as far as this district is concerned, but as the late Mark Twain remarked, "There's been a lot said about the weather, but no one has ever done anything about it yet." So cheer up! The west is yet to come.

Mr. W. Pankin is still seriously ill at his home here. A wee or so back he was taken with a stroke of paralysis and to date his condition is not much changed.

This week seems to have been fatal to the summer holiday. Mrs. Jackson having one killed by a train and Mr. J. Teefy losing one by bleeding to death from a wire cut.

Two carload of timbers were unloaded here last week and the station yard with same is certainly needed badly, and has improved the place considerably, in fact, the station is due to have a[illegible] some day over a little about it.

Messrs. Scott and Painter shipped a carload of fat lambs from here last week.

Secretary of the grain cut and in took there or also quite 2 hot standing or laying as the case may be. Speaking with a farmer today, we learn that some of the finest grain [illegible] which [illegible] expecting. The weather no doubt will change and hasten [illegible] and this long week promised but it would be a great deal more profitable and pleasant, after all, if we were spared such an early [illegible]

WORLD HAPPENINGS BRIEFLY TOLD

Official statistics show that 2,271 persons have already been killed this year in 64 United States cities as the result of motor accidents.

After having been in Brazil for several weeks acting between and in other cities Mme Clarke, co-director of ballets, called for her home in Europe.

What was apparently a meteor was sighted the north-eastern counties of England when a meteorite explosion was followed by a sudden blaze of light.

Professor Wills, a Polish astronomer, reports that he has discovered a new comet in the south sky. Prof. Wilk last year discovered the Wilk-Skjellerup comet.

At the home in Petawa, Ont., Hon. W. S. Fielding and Mrs. Fielding received congratulations on the golden wedding anniversary. A large number of congratulatory messages were received.

Mrs. Annie Hastie, aged 80, is to occupy the pulpits of all Baptist churches in all other parts of the empire for a month on next Sunday, it will be the first time people who have visited empire and also a hundred million overseas. It, she may benefit by the broadcasting address, "over" should be followed.

With two boys, Elizabeth, a nine pound baby, Mrs. Ann Simmons, 45, would be the first baby born after Armistice on Lake Miller Moore's newly radium treatment for cancer. With intermediate aides, in two hour parts at the Hamilton meetings ing for the local committee. Lady Byng will be registered to carry the programme further, on the Pacific coast, a distance of 2,200 miles.

Invents Instrument To Analyze Brain Power

German Scientists Calls New Ap paratus a "Diagnoscope"

By Zachariah Shuttz, of Kristiania (Oslo) living in Berlin has invented a new psycho-electric apparatus known as the "Diagnoscope."

Extraordinary claims are made for the instrument. It is said to be able to register mental capacity and especially to accurately that parents need no longer be in doubt with regard to the career for which their children are best fitted.

Before a boy or girl can enter the St. Paul's preparatory school for boys they have already been selected as likely to prove their value to the school by displaying the right mental attitude. A certificate from their parents is also required.

Whenever a pupil is not considered to be making the most of his opportunities he is given a warning. If he does not show improvement after a month's time he is asked to leave.

Before the boys are admitted to the school they are required to pass a medical examination.

Ambitions Plan For Empire Broadcasting

If Adopted, Audiences of Half-Million Would Benefit

An audience of five hundred million people! Half a billion! Within less or three years this may be a very real fact if the plans of the British Broadcasting Company and the British Government are approved by the various parts of the Empire and there now is scheme of cultural radio new 1 per cent being.

Broadcasting in the British Isles is controlled by the British Broadcasting Company which has the right to collect an annual fee from all owners of receiving sets. In every listener-in fee are provided with a particularly good co-ordinated programme from a great many stations, and most of the big stations, quite special receiving stations and set repeating stations. But branch of the B.B.C. will be possible broadcast from any part of the empire to all other parts of the empire, and by a new set of rules, the built and to its fees high enough time of the day to be a town.

Preparations are being made at Daventry and said that conferences where in response the basis of more than 70,000 per, for the annual and final revenues of which Sunday broadcasting are paid for their rights.

United States visitors settling in Canada in the last 12 years brought with them cash and effects to the value of $162,426, according to the department of immigration and colonization.

The government is now investigating the reindeer industry in Alaska, with the object of introducing this animal into the northern part of the Mackenzie district, which is the scene of a semi-desirable portion of Canada's Eskimo population.

Two beautiful Mammoths are expected to reach the west before the snow flies according to Bishop Pascal Tessier, chairman of the Mackenzie valley-basin board and head authority of forestry. Most of the personnel will be placed on the Liard basin, shortly on arrival.

Before a boy or girl can enter the St. Paul's preparatory school for boys they have already been selected as likely to prove their value to the school by displaying the right mental attitude. A certificate from their parents is also required.

Whenever a pupil is not considered to be making the most of his opportunities he is given a warning. If he does not show improvement after a month's time he is asked to leave.

Before the boys are admitted to the school they are required to pass a medical examination.

Would Not Utter Swear Word

London Actress is Rewarded With a Shower of Bouquets

The use of a word with four letters beginning with an extremely hot phrase, during the Bible, was considered an indelicacy by Mr. Moore Rogers in the opening of a new play in London, that she declined to utter it.

"I am not an actress," was the time she was to have spoken that word, and the time came she resolutely said in a weak voice:

"I am not an actress," and received a shower of bouquets.

Vancouver Grain Port

Vancouver in the last twelve months reported wheat in its elevators amounting to total of 31,611,000 bushels, or that total of 24,000,000 bushels of wheat shipped from Canadian ports. Vancouver had a profitable 26 per cent on the 1,275,000 bushels of wheat which shipped from Canadian ports.

Vancouver is the most important Canadian wheat port.

To avoid imitation, always look for the signature of Chas. H. Fletcher. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

FIGHT FACTS

Tofield has been peaceful so long that the following statistics may be calculated to stir the blood clots of men living in a town where men are men.

The Dempsey-Tunney scientific exhibition of "modified murder" will take place in Philadelphia on September 23rd.

The City of Philadelphia was founded by the Quakers, a sect sometimes closely opposed to fighting of any kind, except, apparently between prior combats.

The City of New York refused permission for the fight to be staged in New York.

New York was founded by the Dutch, one of the hardest and bravest races of fighters on earth.

Philadelphia is called the City of Brotherly Love.

New York refused permission on the grounds that a small fight is legal in New York, but a big fight is not. Now we understand why so few of our local fan mails have migrated to New York.

350,000 eyes will be glued on the gladiators for a maximum of 60 minutes. The principals will doubtless need four of these after that.

Jack Dempsey, the shirt of the roguest ring, had a new nose put on somewhere between Springfield, Ohio, and Los Angeles. Next time he'll probably specify one that won't go around smelling out trouble.

It will cost the Quakers $2,000,000 to see the match. They'll make an easy quake.

A Frenchman calls this meeting a romeature; the Board of Public Health would doubtless use stronger language.

The United States may be relied upon to join the League of Nations on a protest against this fight.

It was three years since they could get anyone to fight Dempsey; had his manager never heard of Rylex?

It has been estimated that if all the punches all the prize fighters have ever given were paled end on end, they would be quite a lot

Why not have Tunney sell for $150 000 or appro.mately $140,000?

Only three men have gone 10 rounds or more with Dempsey since 1920, but we know about nine men who think they could easily become champs.

The heavy weight title has been estimated to be worth about $3 million. This is good news for the lawyers.

Latest: There is no truth in the rumor that the fight is cancelled on account of Dempsey and Tunney quarrelling.

McLAUGHLIN CAR ELIMINATES RUMBLE

This silence in the interior of the cars is aided by quiet operating mechanism throughout the chassis, which starts with the balanced engine and includes silent valve operation, new gears, gears and gear teeth to reduce hum, and a muffler and exhaust system designed especially to keep noises out of the body of the car.

A large and positive pilot [illegible] correct alignment between the engine and the transmission. The transmission for all models has been redesigned and extra strength has been given to the ball housing and the fly wheel housing. The result is positive alignment among all units, which eliminates clutch rattle, clutch release, bearing noise and gear [illegible].

Another noteworthy feature in the new McLaughlin is the [illegible] of crank case dilution which enables it necessary to change oil only four times a year instead of every five hundred miles as in [illegible]. McLaughlin-Buick engineers have designed a vacuum ventilator which automatically removes water and kerosene in a vaporous form before they have had [illegible]

A Ruby Of Great Value

Human Image Is Seen In Jewel Found In India

Real rubies, sparkling like drops of pigeon's blood are beautiful jewels. But when one discovers, besides a perfect, small red, 12-pointed Maltese star by natural processes and of surpassing beauty, a ruby has been found by a native of the Burgat district of Burma, the natives consider it a special kind and the possessor, in appearance that cannot be considered in terms of rank.

The stone is too large for inside wear, but the owner regards it as a talisman, and appears a true Burmese as it is. While with a British being here and deep loving the ruby is considered a perfect specimen of its kind. Rubies are valued by the carat, and the natives of Burma are skilled in the art of cutting and polishing precious stones. The ruby found by a native of the Burgat district of Burma,

CONFIDENCE

True merit is always recognised. It is a natural law. Star Cars have now been manufactured for four years and four hundred thousand have been built. To-day, the name Star'on a motor car has the respect of the trade and the confidence of the public. This confidence has been earned by sheer merit—by serving the public need. See the New Star Car and you will appreciate what has been done—and realize why Star Car Sales are steadily climbing.

Hobson's Meat Market

Local and Personal

The Misses Emily Ferguson, Allen Parade and Esther Wood left on Monday morning for Camrose where they will attend normal.

Miss Alma Bethel of Calgary is spending a two weeks vacation with her parents in Tofield.

Clifford Lee spent the week-end in the city.

Miss D. Buchanan visited friends at Hughenden over the week end.

Mr. and Mrs. W. Mutsey spent the week end in the city.

Mrs. Blacek Carmichael of Bawlf visited Dr. and Mrs. Law last week. Miss Carmichael is Mrs. Law's sister.

Rod Hannan returned on Tuesday from Pickle Lake where he has been working in the harvest fields for the past month.

Mr. and Mrs. Hereher of Portland, Oregon, are guests at the W. C. Billman house. Mrs. Hereher is Mrs. Billman's sister.

Mr. Leach is relieving Mr. Telser of his duties at the C.N.R.

On Friday last the Misses Bertha and Esther Lee entertained several of their friends at their home. A very pleasant evening was passed in games and dancing. At midnight a dainty lunch was served. Those present were: Misses Ella Hannan, Dorothy Hay, Thelma Johnson, Dorothy Hay, A. Pierson, G. Johnson, B. Swift and H. Wallis.

Miss Loretta Hone visited her parents at Prince Albert over the week end.

Mr. and Mrs. Lorrie Scott are making a short visit in Tofield at the home of Mrs. Scott's parents, Mr. and Mrs. F. G. Grimsdell, before going to Toronto. Lorrie will play for the Argonauts in Toronto.

Reginald Watt is visiting his parents, Rev. and Mrs. Watt, before returning to Varsity in the fall.

E. Lees and B. Swift spent the week end in the city.

Mr. and Mrs. Lorrie Scott are making a short visit in Tofield at the home of Mrs. Scott's parents, Mr. and Mrs. F. G. Grimsdell, before going to Toronto. Lorrie will play for the Argonauts in Toronto.

Mrs. H. Barden spent the week end in the city.

Mr. C. L. Simmons spent the week end at Edgerton with Mr. Simmons' brother and sister.

Mrs. F. F. Ingram returned to her home at Victoria, B.C. She has been visiting relatives for the past six weeks in Tofield.

WE SELL

We were notified on Friday to prepare the Consistency Conference which was to be held here on Monday of this week. However, when the date is set again, we trust it will prove an actual occurrence as was anticipated at first, and as many fail out. Notice will be given of the update.

Has anyone any old clothes you'd like to dispose of? Have you enough for a quilt, blanket, rug, or a coat or two? Lots of them around, we say we know of families with from five to eight and nine children who would be glad to have the clothes. Of course that would not ask you personally to go among these families, but we want to get a different matter, and we are glad to help in this way. In fact, it is part of our work. Let's suppose a little somebody here at home.

Did you read the first editorial in last weeks paper? If not read it. We think the matter for the boys is well-timed we assure you, and appreciate the comment. Our library is a source of pride to us, and we want to keep it up, by adding new books right along. Let our only revenue is pay for the new books is in subscriptions. We don't want to solicit for subscriptions. Let your dollar would be appreciated, and it only you to buy books a week for a year. If you don't read you still give your subscription to a friend for a Christmas present. The library is open Saturday from 7 to 8.

DON'T MISS IT!

For next Wednesday night, Sept. 29th, the management of the Variety has booked a screen masterpiece. The screen's classic "Over the Hill" a story of fun and wee drops, cuts and tears. Lumps wherever shown.

To those which evoked from Kathleen Norris' immortal plaint, How children have outgrown some clothes, boots or shoes. Perhaps you have children, and are going on and on at all of the old clothes you have about it? Never. If just have anything you don't need, bundle it up, except and mail children, phone Phone No. 8 Until then, remember Mrs. Ward. We know of families with from five to eight and nine children who would be glad to have the clothes. Of course that would not ask you personally to go among these families, but we want to get a different matter, and we are glad to help in this way. In fact, it is part of our work. Let's suppose a little somebody here at home.

GETTING AEROPLANE READY

F. Lethbridge has been for some weeks getting his aeroplane ready for flight. The plane which was purchased some time ago and brought from High River, has been thoroughly overhauled in Tofield. It is now being assembled somewhere in the vicinity. When the weather clear Pete will be soaring in the clouds, and Tofield will have the distinction of having an aeroplane he ally owned.

Fair A Success

Despite Dry Summer and Unseasonable Fal Weather, Vegetable Exhibit Good

COOKING EXHIBITS FIRST CLASS

Despite the odds of unseasonable weather, Tofield's first school fair which was held on Wednesday was a complete success. The exhibits which were originally to have been displayed and judged in the buildings at the fair grounds, were displayed and judged in the school itself. Long planks were placed upon the desks in all four rooms and these were all well filled. There were also art, sewing, writing, etc., pinned upon the wall. In addition to the Tofield school, exhibits were received from several country schools (a list of which will be given next week.) There was a certain amount of crowding, but this was unavoidable and it can truthfully be said that considering everything the fair was a triumph for both the committee and the children.

The cooking and vegetable were the most outstanding sections. It would appear that the "once man" of those days is coming up are going to be, as the centre of the well cared for. Some of the fine "a man's" specimens brought in, almost baffled description, Dorothy Hay, Thelma Johnson, Hazel Hay, A. Pierson, G. Johnson, B. Swift and H. Wallis.

The sewing section proved the fashion of our old once more and there were no doubt have an effort on the world's climate, the garments looked by youngsters shows to appreciate. Large and well shaped cabbages, turnips, carrots, etc., were very fine to see and potatoes, they were never any better in Tofield.

Grains and grasses most of all showed the effect of the weather, but nevertheless, some good exhibits were shown. The flowers too, were shown of some of their glory, but there was a change in the overall.

The regular school work such as copy drawing, writing, etc., was of a high order in all grad showing that great care had been taken in the preparation of the exhibits.

The exhibit of weeds was a notable feature, showing that the youngsters were growing up have a knowledge of their weeds and knowledge of them is half the battle when developing them.

There were some livestock classes including dairy and beef cattle, sheep, etc.

The sports part of the day was started on account of the weather but school drill, singing, etc., created a favorable comment among the spectators.

A list of prize winners will be given next week.

CARD OF THANKS

We wish to thank the kind friends of Tofield and of the community at large for their help and sympathy and for the floral tributes upon the loss of our little son, Glen Earl.

MR. and MRS. EARL BILLYK

HUNTING AS TREAT

Despite the unfavorable weather, local duck and geese hunting enthusiasts have gone abroad in the land. That they have been successful goes without saying. Ducks particularly are very plentiful this year, and all the wild geese chasers have not been wild ones. John Warner was successful in bagging two of this wary bird on Labor Day.

Local and Personal

Mrs. Ed Thompson, J. E. Hurst, and Thor Grahn were Edmonton visitors last week.

Mr. and Mrs. Banning of Minneapolis and Mr. and Mrs. Julius Hansen of Camrose were visitors at Thorkeld's last week.

Mr. T. Berglund who has been at the general hospital in Edmonton, returned on Wednesday. We are sorry to report his health is not very good.

Edmonton visitors over the week-end were Ella Bergan, G. P. Thomas, Mrs. Jack Erickson and Connie.

Percy Simonson left on Saturday for Edmonton where he will attend high school.

Mrs. Sam Slutsky of Wingard, Sask., is visiting with Mr and Mrs. Jack Hardin.

"OUT OF THE MOUTH"

It is not always possible for a teacher to maintain his gravity even when the most serious business of school is going forward.

What, for example would you do when you were informed that the country lying to the south of Alberta was New Saxonia? Or when you learned that Scotland has a heavy summer rainfall which falls mostly in winter?

Speaking about volcanoes, one child wrote that, "the man went up the mountain to watch the crooter smoke."

People with a mathematical turn will be glad to have this lucid explanation: A circle is a round line that is quite straight but curved it does not start anywhere and finishes at the same place.

Students of political economy will be enlightened to hear that a revolution is a form of foreign government.

Windmills, says one young hopeful, are for making wind.

Our school trustees might make a note of the following: A poll tax has to be paid by everyone who has a head.

Hygiene classes are an unfailing source of unconscious humor. Thus, the spine is made up of a number of bone piled up. The head sits on the top and and we all on the other.

The lungs is for the blood.

Agriculture provide the following: A ruminating, animal is one that brays in cubs. Lambs are films that last five or six weeks.

One young historian asserts that General Haig was a strong man who threw a bridge over the river Somme.

And Richard II. was murdered, but his fate is not known.

A physician is a man who plays in band.

Parallel lines are lines which never meet when they are drawn out as that they meet.

In the same school I was trying to instill into the minds of non English speaking children the idea of tense or time. I then their habit to say I go to town yesterday, or, he ask me last week. I would point out that things done yesterday were in the past tense and that the word to denote the action must be changed. One youngster gave the sentence. The horse kick me yesterday. I patiently pointed out that to-day was in the past tense, and asked the boy to correct his sentence. Soon, perhaps, will be rage no my laugh when I get the following: The horse kick me yesterday in the past time

TRT.

The Misses Annie Watt and Jean Secord are home and will enter university October 14.

Miss E. Trost is home for a two weeks vacation with her parents.

Miss Hennie Anabebe is attending school in Ryley taking part grade nine and part grade ten.

Mr and Mrs N Sand and daughter from Ryley were visitors at Patterson's home on Sunday last.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

After being rained and snowed under for five days, cars are running again, the usual fall activities have started but it will be some time before harvesting will start.

Next Sunday, September 26th will be Rally Day at the school house. Rally Day services will be held instead of the regular Sunday school and preaching services. A large crowd will be much appreciated.

Misses Viola Lee and Edna Lawson started last week to attend high school in Tofield.

Mrs. P. F. Ingram, Mrs. G. R. Owen Percy and little Mary Ingram were Sunday dinner guests of Mr. and Mrs. G. W. Sears.

Mr. and Mrs. Maurice McGinnis are busy building their new house.

Mr. and Mrs. C. A. Ingram spent Sunday evening at the Moline home at Shouts.

Mr. and Mrs. Abernethy and Mr. and Mrs. Wm. Thompson were guests of Mr. and Mrs. John McGinnis last Sunday.

Mr. and Mrs. T. H. Ferguson, Mrs. Lloyd Ferguson were guests of Mr. and Mrs. J. H. Ingram Sunday afternoon.

Mrs. John Brown has been very ill at her home at West ketchamoot.

A freight train was wrecked on Saturday afternoon just before the Henry Sutton crossing. Five cars left the track and were badly damaged.

The school children enjoyed a holiday on Tuesday and the adults paid a visit through the town and shook hands with Dave Mitchell, B.R.O., Wm. Wood and Jack Hardin.

Mr. Mitchell will attend whether once or how, so on Friday night a large crowd of friends of the Barns family gathered at their home to help them celebrate Mrs. Barnes' and Mr. Mitchell's birthday; also Mr. Barnes' birthday which was on Thursday. Several nice articles and a purse of money was presented to them. Music and a dainty lunch has been served making an enjoyable evening.

BARDO

Mr Hannan from Dorgen, who has been here for some time, went to Kingman on Saturday.

Barbers Stalker from Peora, Ill., is visiting relatives here and greeting old friends.

Alberta fall weather does not seem to be very favorable for moderate this year. The Stutzman Bros. and Joe Brenneman were four day packing the hay.

Mr. and Mrs. John Yoder entertained the Joe and Will Stauffer, Leo Beck H. F. Brenneman and Owen Hershberger families on Sunday.

The C. J. Rude family visited Emil Rude on Monday.

Mr. Jacobson attended the circus at Edmonton Wednesday the last of the week and entertained a party of friends on the circus.

Farmers are busy now days with fall plowing and seeding.

Mrs. Rude is busy with her fall work.

CARD OF THANKS

We wish to thank the kind friends of Tofield and of the community at large for their help and sympathy and for the floral tributes upon the loss of our little son, Glen Earl.

MR. and MRS. EARL BILLYK

TO MY FRIENDS AND SUPPORTERS OF THE VEGREVILLE CONSTITUENCY

I am sure we have every reason to rejoice at the results of the recent election, and we should be grateful to know that there is still a majority of the people of the Dominion who believe in the principle and the party of which we are supporters.

I wish to take this opportunity of thanking each and every one who gave me splendid support in the campaign just ended. I hope to meet your personally soon, but in the meantime I wish to assure you that I appreciate what you have done for me and to assure you that I am ready and willing to do anything in my power for the people of the district, even though I was not elected. I certainly feel, however, that I could have helped them much more as their representative, having, as I would have, the confidence of the majority in parliament.

Again thanking you for your kind support, I remain, at your service.

J. S. McCALLUM

HURRICANE DEVASTATES EAST FLORIDA COAST

West Miami Beach, Sept. 20th.—Storm battered and bruised, its once famed everglades and palm groves bent and broken, before the blast that swept at 200 mile an hour gait across the gulf from the West Indies Friday and Saturday, and that today is still spending wrath and devastation in the Northwestern tip of the State, Florida is mobilizing its shaken and shattered resources for relief measures.

For the most part an impenetrable wall of silence around the stricken area remained until reports of the damage through wires and point to tornados of death and damage may be augmented when the full report of the hurricane comes back. Approximately [illegible] dead and [illegible] injured in here combined [illegible] hundreds.

Miami, [illegible] president of the Associated Press, arriving in Miami by aeroplane, estimates the damage in this section alone at $15,000,000 and says probable total property loss suffered by Florida in excess of $25,000,000.

They found 240 children, separated from their parents, on the streets of Coconut Grove, one hundred miles south of Miami. Many of the children were found in the rooms of their homes, vainly searching for lost parents and screaming for food scraps found in the debris. All roads leading from Miami to West Palm Beach are crowded with refugee filled automobiles, and the roads are becoming congested as frantic parents and relatives who are trying to find their way back to the city meet the stream tense stricken refugees whose one thought is to get away from the area of destruction.

Bread has been farmed in Miami, and City Manager F. H. Wharton has ordered all persons from the streets unless they are looking for missing relatives, attempting to identify the dead, or [illegible] assistance. Martial proclamation have profiteering and [illegible] from food prices at the scale existing on September 16th, the day previous to the storm. It [illegible] stocks of food [illegible] to the people.

Relief calls for troops for work in the stricken area as quickly as possible have been answered by John W. Martin ordering out several companies of infantry and [illegible] cavalry.

The national guard from other parts of the state. They are being rushed to the storm area in motor trucks [illegible] they are mobilized.

OWNER OF DAN PATCH MOVES TO EDMONTON

Declares it is the Best Part of the North American Continent . . .

[illegible] Judy, formerly of Judy, Alta., Indiana, owner of the famous "Dan Patch" and "Judy Patch," pacers [illegible] a farm of 25 general stock, bank president and newspaper publisher but now a citizen of Edmonton, Alberta, living at 9130, 106th [illegible] believes no other place in America, not excepting the state of Alberta, can compare to the Edmonton district. In fact he recalled a Dan Patch Colt for a half section of farm land near Edmonton.

[illegible] Judy arrived in Edmonton last week and [illegible] Alberta [illegible] Dan Patch [illegible] second half [illegible] [illegible] Dan Patch [illegible] [illegible] [illegible]

RED ROSE TEA

Over 30 years a standard wherever good tea is liked.

What Trade Treaties Mean To Canada

The opening of the session of the Dominion Parliament at Ottawa on November 8th, will be of more than usual interest to the people of Canada, as it will be the first session of the Parliament elected on September 14th, 1926. The Liberal party, under the leadership of the Right Hon. W. L. Mackenzie King, was returned to power with a majority of 116 members in the House of Commons, and the Liberal Party will be the Government party during the session. The Conservative party, under the leadership of Hon. Arthur Meighen, will be the opposition party, and the Progressive party, under the leadership of Hon. Robert Forke, will be the second opposition party. The Liberal party will be supported by the Labor and United Farmer members, and will be the party in power. The Liberal party will be supported by the Labor and United Farmer members, and will be the party in power. The Liberal party will be supported by the Labor and United Farmer members, and will be the party in power.

Important Scientific Discovery

Claim Nickel and Cobalt Benefits Cases of Diabetes

Paris.—Dr. Rabelt (in regard to the recent discovery at the biological institute at the laboratory of the Pasteur in France, Paris, before the academy for the annual report of the American Chemical Society that experiments on animals fed and rabbits have produced no ill effects in the human body.

Dr. Rabelt has introduced to Prof. Richard and associates he stated, does not wish to be considered alone in this discovery, but with a number of the workers in the laboratory of the Pasteur institute, which has produced results of great importance in the treatment of diabetes.

The discovery is stated that the use of nickel and cobalt salts in the treatment of diabetes has been established beyond question by experiments on animals and by clinical tests. The effects are produced by the use of nickel and cobalt salts in the treatment of diabetes. The effects are produced by the use of nickel and cobalt salts in the treatment of diabetes.

HARD PIMPLES ALL OVER FACE
Lasted Three Years. Healed by Cuticura.

My trouble began with pimples breaking out all over my face. They were hard, large and red, and festered and scaled. The pimples used to burn, causing me to scratch. They were so bad and so badly that I was ashamed to go anywhere. The trouble lasted three years.

I tried different remedies for Cuticura Soap and Ointment and sent me a free sample. I purchased more and I was healed after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment." (Signed) Miss Rena F. Warren, Lidgard River, Nova Scotia.

Relieve Catarrh by Cuticura Soap, Ointment and Talcum to keep your skin clear.

ONE NIGHT ONLY

"Over The Hill"

THE WONDER PICTURE OF TIME

Tells a story as old as life itself and as new as the present moment.

ONE ENTIRE YEAR IN NEW YORK

The black sheep of many a family has been in reality its most lovable member. This is certainly true of the black sheep in the William Fox special production Don't miss it.

Show Starts at 8:30

Miss Myrtle Anderson who is training as nurse at Edmonton came home on Monday for a two weeks vacation.

The Misses Jenny and Alden Nase, Betsy and Margot Nase, Carrie Brecken, Ruby and Lily Berg, Messrs. Alvin and Ingvald Nase, Arnold and Lloyd Berg and Emerald Plaster were all visitors at Gustav Brecken by Solberg school on Sunday last.

CANADIANS BADLY HIT IN FLORIDA

Toronto.—Sept. 21st.. Canadian investors are interested to the extent of many millions of dollars in Florida real estate, much of it in the neighborhood devastated by the week-end storm and it is feared that a heavy portion of the property loss will fall on residents of the dominion, time prominent Toronto realtor estimated yesterday that Canadians have more than $50,000,000 invested in and around the city of Miami alone.

It is known that John McEntee Bowman, formerly of this city, is head of a corporation which only recently erected a $5,000,000 hotel at Miami—a start on what it was hoped would be developed into the finest hotel in the world. Whether this structure withstood the ravages of the death-dealing hurricane has not been definitely learned.

SETTING THE TABLE

Setting the table is like visiting strange lands!
I lay the cloth: damask from Donegal—
I can see the pale imprint of Shamrock and fern
In its frosted surface;
Silver and steel from Birmingham
And the fiery fields of Sheffield;
Salt from the sea coast, tasting of sea winds and sea foam;
Pepper from Zanzibar, black with the tropic sun;
Sugar from Cuba and the clattering canes of the Caribby;
Bread from Saskatchewan and the still gold prairie grass;
Olives from Italy and the ancient groves of the Orient;
Maybe figs from Smyrna, dates from Algiers,
Nuts from Brazil, oranges from California,
And a round red cheese from Edam.
As we wipe off the travel stains
In little brass bowls from Hagdad,
It seems that all the ends of the earth
Have met at my table.
—Lloyd Roberts, in the Christian Science Monitor.

CONFIDENCE

True merit is always recognised. It is a natural law. Star Cars have now been manufactured for four years and four hundred thousand have been built. To-day, the name Star on a motor car has the respect of the trade and the confidence of the public. This confidence has been earned by sheer merit—by serving the public need. See the New Star Car and you will appreciate what has been done—and realize why Star Car Sales are steadily climbing.

THE WEATHER

THERE IS no other thing that so universally concerns all of us as the weather. Cold or warm, wet or dry, seasonable or unseasonable, every individual is in some way effected by it. The salutation, "Fine morning," or "Isn't it cold" is more than a mere salutation—it is a joyful utterance or an expressed complaint.

This season, here in this section of Alberta, the weather has been unpleasantly noticeable. The early part of the season promised well. As time passed, lack of moisture became apparent and by the middle of August, the cry went up that the crop was a failure. Then as if to make up for lost opportunities, the weather changed from hot and dry to wet and cold, seasonably speaking. Mowers and binders were used in a "catch as catch can" style and the cry went up it was too wet. Then came the snow, a day or two of fine weather and more snow, a day or two more of fine weather and then light rains.

On the face of it, what with the weather too hot for things to grow in July and too wet to harvest in September, it would appear that the district would be suffering from a crop failure. But sometimes nature like religion, is past man's understanding. THERE IS NO CROP FAILURE HERE.

In spite of the unseasonable weather extremes, crops did grow and as opportunity occured they were harvested. Not in the abundance usually connected with this district, it is true, but in sufficient abundance, in most cases, to make the effort of plant ing and garnering worth while.

This district was richly endowed by nature. There are districts, where after laboriously planting seed in the spring, wind blows with sufficient strength to blow the seed out of the ground—sometimes several time. There are other districts, where, after planting, the seed germinates and for a time gives promise of wonderful results, and then day by day, gradually turns brown, until with sickening daily regularity, the heat of the sun gradually burns it up. Others have been plagued by locust, smutty and grass hopper.

It is not the purpose of this article to utter false hope. It is man's nature to be impatient and with such a short time between planting and harvest it is only to be expected that weather delays would cause vexation. But after all the sun is only just behind the clouds and in due time will shine again. There is no country in the world that has continuously perfect growing seasons and of all countries there are none in which the farmer is more sure of those things to which the country is suited, than the farmer in Alberta is.

With the papers reporting terrible weather disasters in various parts of the world it would appear that Alberta is a very desirable place to live.

NEWS OF OUR NEIGHBORS

KETCHAMOOT

News items are few and far between this week owing to the extreme bad weather, but again it has cleared off and the farmers feel encouraged.

Mrs. Frank Hall has been very ill during the past week with pleurisy, but is now on the road to recovery.

Mr. J. H. Ingram bought and shipped stock at Kingman through the pool on Monday; also at Tofield on Tuesday.

We regret the parents in our neighborhood do not take more interest in the school fair. Only two boys were present to represent our school at the school fair on Wednesday, Stanley and Charley Sears

Mrs. L. Carlisle and daughter, Lillian, were passengers to Edmonton on Friday evening returning home Saturday.

Percy Owen left on Thursday evening for Shangian Lake, B.C., where his father is located.

Mr. L. Carlisle made a business trip to the city the first of the week.

The Sutton Bros. threshing ring held their meeting at the Shultz home on Tuesday evening. At that time it was very indefinite when threshing operations would start, but it is more encouraging at pre ent writing.

There was quite a scramble for coal on Tuesday when it became known that the railroad company would sell the two cars of coal that had fallen off the truck at the time of the wreck at $7.00 a ton. I was soon bought up and hauled away.

KINGMAN

Mr. and Mrs. Thor Horte were Tofield visitors on Wednesday

Mrs. E. Erickson and son Johnny, were visitors on Wednesday.

Mr P Rodutsky of Edmonton has been visiting with Mr. and Mr. Andrew for a few days.

Councillor Anderson, Stanley Cook and A. Bowman and M. Erickson

Mr. and Mrs. Joe Moore and Lucy and Helen Hulbert were visitors at the home of Mr. and Mrs. E. Erickers on Sunday.

It the present nice weather those who have not begun will be pressed in a few days.

Mr. and Mrs. Thos. Cook and family were visitors at the home of Jeb Cook of Hay Lakes on Sunday.

Mr and Mr. Carl Lee and Mr. and Mr. Ted Johnson were Edmonton visitors on Sunday.

TOFIELD

The Lakeshore Ladies' Aid Society met at the home of Mrs. C. W. Pipe on Wednesday. In spite of the stormy weather in early all of the members were present and a very pleasant afternoon was spent.

Mr. Hobbs Harrison and daughter Miss Ethel Harrison left on the Limited for Toronto on Wednesday morning.

Mr. Ed. Nash of Arthur Robinson's have been visiting the former's uncle and aunt Mr. and Mrs. F. B. Price a few days on their return from the Coast.

Mr. and Mrs. Lundy Evans and Esther Wood went to Edmonton on Tuesday on a visit.

Mr. and Mrs. A. J. Phillips of Tofield were Sunday visitors at the home of Phillips' home.

Miss Winnie Sive started to work in town on Monday, taking the M work.

Donald Phillips was successful winning several prizes at the Tofield fair.

NEW CABINET OF FIFTEEN GOVERNMENT NOW SWORN IN

On completion of the English Hon. Arthur Meighen took effect on Friday. He had immediately following shortly Hon. W. A. McKenzie King, [illegible] to form the new administration.

Shortly before noon a number of the incoming ministers left for the Governor General's residence where they proceeded to Rideau Hall to be sworn in Composition of the King cabinet is officially announced as follows:

Prime Minister and Minister of External Affairs: Rt. Hon. W. L. Mackenzie King.

Minister of Finance: Hon. J. A. Robb.

Minister of Justice: Hon. [illegible]

Minister of Railways: Hon. C. A. Dunning.

Minister of Interior: Hon. [illegible] Stewart.

Minister of Public Work: Hon. J. C. Elliott.

Minister of Agriculture: Hon. W. R. Motherwell.

Minister of Trade and Commerce: Hon. James Malcolm.

Minister of Customs and Excise: Hon. W. D. Euler.

Minister of Health and Pensions: Hon. Dr. J. H. King.

Minister of Immigration: Hon. Robert Forke.

Postmaster General: Hon. P. J. Veniot.

Minister of Marine and Fisheries: Hon. J. A. Cardin.

Minister without Portfolio: Hon. Lucien Cannon.

Secretary of State: Fernand Rinfret.

Minister of Labor: Hon. Peter Heenan.

Without Portfolio: Senator Lynd Wilson.

The portfolio of national defence is left vacant for the present.

NEW ORDER ISSUED ON SPROUTED GRAIN

According to a new order just issued by the grain inspection department in connection with sprouted wheat No. 1 Northern must be free from sprouts. No. 2 must be practically free Up to 5 per cent may be graded No. 3 Northern. More than 5 per cent and good will be "Rejected No. 3 sprouted." No. 4 may run up to per cent sprouts. More than 5 per cent will be graded "Rejected sprouted" No. 5 wheat consisting of wheat which is tinged in similar manner. All other grades containing too many sprouts to be classed as any of the regular grades will be graded as "Rejected sprouted."

BARDO

Mr. and Mrs. J. L. Stauffer went to Edmonton on Monday morning, where they will do light housekeeping for a couple of months. Mr. Stauffer who has not been well for some time will take treatments.

There was an all day service at the W. Simonson home on Sunday. They have just finished a fine new house. Two ministers from Camrose and Rev. Pernske were there. Mrs. Simonson served lunch to all present at noon. A large crowd was there.

On Monday evening about forty neighbors gathered the inclement weather and visited the Rude home to help Mr. and Mrs. Rude celebrate their thirty-fifth wedding anniversary. The guests served coffee and sandwiches, ice cream and cake. A Friday evening returning some failed to day. very enjoyable evening was spent with music and games.

Little Wayne Yoder, son of J. L. Yoder fell and cut his head quite seriously, but is believed to be getting along nicely.

Mr. and Mrs. H. E. Brenneman entertained the J. L. Stauffer, E. Yoder, J. King, and I. Brenneman families on Sunday.

The thirty seventh quarterly Sunday school program was given at Salem Church on Sunday, September 26th. The program was as follows:

10:00—Devotional, Ray Yoder.
10:15—Israel in bondage
Speaker, D. E. Maurer.
Essay, Mattie Feerstan-gruber
10:25—Qualities in Moses that made him a leader.
Speaker Noah Detweiler.
10:45 The Passover
(a) As a memorial.
Speaker, Jacob Yoder.
(b) As a type.
Speaker Jacob King.
Essay, Elvera Byl
11:05 Children's meeting.
Conducted by Fannie Voegtlin.
11:25 The place of the Ten Commandments in the Gospel dispensation.
Speaker: Jacob Brenneman.
Essay Nora Stauffer.
11:35 The purpose of the tabernacle.
Speaker, Jos. Burkholder.

The motion picture of the Ladies' Aid realized at Mrs. Horen's on Thursday. The next section will be at Mrs. Jacob on Wednesday the 29th.

LINDBROOK

Congratulations to Mr. and Mrs. Geo. Weatherill of this district on the birth of a daughter, at the Royal Alexandra Hospital, Edmonton.

Mr. Williams of the C.P.R. Lands Department, who has been surveying the C.P.R. unoccupied lands around here with a view to a resubmission of same is leaving the work for Calgary.

We've heard of our pun-king with [illegible] Our neighbors other uses than have been put to. Last week we [illegible] getting his garden prepared [illegible] with one.

Mr. Eaton has just built a fine large poultry house on his farm here, and invested in a few sheep.

Mr. Paul McMullen returned home on a Saturday last from Edmonton where Mr. McMullen had been Edmonton [illegible] Mr. and Mrs. [illegible] Mr. Weatherill, jr.

WORLD HAPPENINGS BRIEFLY TOLD

Permission is to be granted American army aviators to fly over Brazil but territory during trade fairs only, ruling in South America.

A decree issued by the minister of agriculture, Chile, prohibits the importation of potatoes from any country, because of warts' disease.

The British navy is developing an "aerial dreadnought," which will be used in connection with the fleet. Work on the new warships is to be completed in January.

The Canton government recently placing duties on cotton goods which has demanded trade between Hongkong and British concern for two years past.

A petition to legislature will be presented by the Prince Edward Island Fruit Growers' Association, asking that the province be asked to grant a bonus for the quantity of fruit exported.

After thirteen years' absence, Mr. Frank Jones has paid a visit to his former home in Ireland. Mr. Jones left Ireland as a boy to seek his fortune in the north-west. The Limerick Leader says that Mr. Jones has been very successful in the British possessions.

The Duke of Connaught, Governor-General of Canada, has been invited by the Prince of Wales to be present at the wedding of Princess Mary and Viscount Lascelles, which will take place in February next. The Duke will be accompanied by the Duchess of Connaught.

The engagement of Crown Prince Leopold, eldest son and heir to the throne of Belgium, to Princess Astrid, second daughter of the Duke and Duchess of Vendome, and niece of King Albert, was officially announced.

The new Canadian Pacific steamship Empress of Scotland, has been launched at the Fairfield shipbuilding yards, Glasgow, by Lady Shaughnessy, wife of Lord Shaughnessy, president of the Canadian Pacific Railway Company.

Mr. Lloyd George has been entertained by the Canadian Club of Montreal, and has received the freedom of the city of Quebec. Mr. Lloyd George has been entertained by the Canadian Club of Montreal, and has received the freedom of the city of Quebec.

UMPIRE KILLED

New York, Sept. 27th.—"Kill the umpire" has often been shouted in a baseball game, and now it has been done!

Displeased by a decision in a semi-professional game in Los Island City, a fan felled Patrick McTavey with a blow to the jaw. The umpire's head struck on hard ground and he died of a fractured skull.

The fan vanished.

A Small Ad Will Turn Used Articles Into Money.

CAFE PATRONS TAKES TO HEELS AS LION BECOMES CUSTOMER

Valenciennes, France, Sept. 27.—Eight lions, two tigers and two bears escaped from a circus here early Saturday evening and caused a great panic throughout the city. All the animals were captured before daybreak. In the round up, three circus attendants were injured, one severely.

One full grown lion calmly entered a cafe and most of the customers vanished with all paying. Four stone remained in the chairs, one laughing loudly and declaring that he had seen them before." The lion stood a few of motion that was on the cafe never and went out the back door. A sugar walked into a lunches shop and gave an entire lunch. He was captured but asked.

A [illegible] was met a lion on a street corner. The hire of the jungle [illegible] fled his hand and went on, but the lion returned to a good feast. Another lion smashed in the door of a hat shop, tried on [illegible] and put a pair of hats, others following suit in [illegible].

FOOD WORKERS WILL HAVE SATURDAY AS WELL AS SUNDAY FREE

Detroit, Sept. 27th.—Henry Ford has announced another change in the conduct of his industries, to establish a five day week. The announcement of a [illegible] day [illegible] means that [illegible] years ago. [illegible] announcement came Sunday that the five day week is to be the standard for Ford workers.

As rapidly as possible the fully free Saturday as well as Sunday is to be granted to all men engaged in the half a hundred fields of labor controlled by Ford.

Increased efficiency in machinery is one of the reasons given for the possibility of shortening the working week.

Here and There

Vancouver.—According to statistics prepared by the Vancouver Merchants' Exchange, the foreign trade export of the port has increased 100 per cent. in the five years, while the import trade has increased 34 per cent.

In a recent report from the Canadian Pacific Agent at Shanghai received at Montreal it is learned that the summer in vicinity of Shanghai has been trying on account of drought. This may have a disastrous effect on the crops. [illegible] and intense heat have [illegible] recently broken by a typhoon which struck the Coast near Shanghai.

A plan is pending by the Ontario Provincial Government authorities in Japan for the promotion of a large exposition in commemoration of the tenth anniversary of the restoration of world peace. It is expected that the exposition will be opened in Osaka in 1920. The plans for the exposition, which will be carried out at tremendous cost, have been approved by the Prime Minister.

Be successful on Canadian farms have been young bachelors, who, prior to residence in this country were students in agriculture at the Rodrigh Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men destined for farm lands in the Dominion. The course will be given during 4 months, and will mean a thorough training in branches of agriculture, particularly adapted to conditions in Canada.

Progress for the establishment of an air route to Japan for mail and passenger service have brightened with the announcement that the Canadian Government authorities have [illegible] representations on the budget. [illegible] Department of [illegible] is [illegible] and [illegible] there will be enough [illegible] willing to pay [illegible] for the sake of saving [illegible] between Canada and Tokyo, the [illegible] cities of Japan.

T. H. Hobbs, [illegible] engineer who [illegible] for [illegible] months [illegible] for a new life in Canada [illegible] returned to [illegible] Hobbs [illegible] Hobbs [illegible] Barrett Gibbon, who is the well known [illegible] Affairs' editor and Dean of Publicity of the Canadian Pacific Railway.

MAN OF 60 HELPED

BY SIMPLE MIXTURE

"After taking Adlerika I feel better than for years. At my age (60) it is ideal—no different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorne bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief in the stomach. Stops that full, bloated feeling. Brings out old waste matter you never thought was in your system. Excellent for chronic constipation.

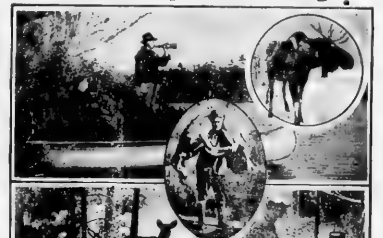
Nipigon Moose Hunting



Canadian moose and deer hunting offerings until I saw things from another perspective. I was at Lakeseasons are at hand; in Quebec from the first of September to the end of December and in Northern Ontario, north of the French and the Mattawa Rivers from October 15th to the 30th of November. The time of this great sport is invaluable to hundreds of men in professional and business walks of life in Canada and the United States, and it has been estimated at the tourist department of the Canadian Pacific Railway in Montreal that the movement of hunters will be greater this year than ever before. Ozark Rips-ey, well-known writer and experienced hunter has put down briefly, in graphically, a few impressions of one of his hunting trips in the Nipigon country, which is given below. It was prepared for the newspaper which included itself graduate very long ago. For years I had [illegible] to Nipigon country and never knew [illegible] that I had neglected any of [illegible] to be counted in on Canadian farms have been young bachelors, who, prior to residence in this country were students in agriculture at the Rodrigh Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men destined for farm lands in the Dominion. The next time you "fill up" drive up to the gasolene station displaying the "PEP" sign. You will get good gasolene at the usual price and you will have the satisfaction of knowing that you are using an Alberta refined product. PEP gasolene is sold in Tofield at Tofield Farmers' Supply Co., Tofield Garage and Job & Brace's.

M. C. HAMMOND

LOCAL REPRESENTATIVE OF THE REFINERIES DISTRIBUTORS, LTD.

"I go in bush and get round her," Paul whispered. "If I get round on other side of bull she scared she come straight for you."

With this he disappeared into the thicket as silently as a wraith of smoke in the wind-stripped air.

How long I waited I do not know. My torch began to clutter. It was a fall morning and cold. The bull moved, scenting danger. Perhaps I acted wrongly but held on the shoulder and stay shot at him. Again I sighed and pulled the trigger sending another .303 into him. The bull fell dead with a splash.

"I got him," I called to Paul in a staccato breath when he appeared. "I got him."

"Then I behold rubube in the red man's eyes because I hadn't waited longer.

"Yes," Paul declared in guttorals. "It's easy enough to kill moose here, but it take a real hunter to tell you where it's easy to get boom out."

Chevrolet Smoothness is Built into this Power Plant,

IT is by strictest attention to quality—of material and workmanship—that Chevrolet has achieved, not only the most powerful but also the smoothest, engine in its price class.

CONFIDENCE

True merit is always recognised. It is a natural law. Star Cars have now been manufactured for four years and four hundred thousand have been built. Today, the name Star on a motor car has the respect of the trade and the confidence of the public. This confidence has been earned by sheer merit—by serving the public need. See the New Star Car and you will appreciate what has been done—and realize why Star Car Sales are steadily climbing.

Hurricane Gives Warning

Barometer Falls and Death-Like Stillness Precedes Storm

Fewer years ago, a storm similar to the recent one that devastated the Florida and Gulf coasts swept down on Pensacola and Mobile with considerable violence and with no other warning but by the terrific and lifeless barometer, writes William J. Lutter in the New York Evening World in which a reporter was then living. A single warning of the storm's approach was received by the Pensacola Weather Bureau, but that was not sent out to the press until the storm was actually upon the city. Then it was too late for many persons to take precautions.

Watch Your Daughter!

Brantford, Ont.—"Dr. Pierce's Favorite Prescription is the best woman's tonic that can be given to a young girl just budding into womanhood. When I was a little girl I was always sickly and weak. I was subject to fainting spells and was very much afraid I should die before I grew up. I had a doctor, but he did me no good. I then got a bottle of 'Favorite Prescription' and it helped me from the very first dose. I continued its use and was soon strong and well. I am now the mother of two children and have used 'Favorite Prescription' during my confinements with the most satisfactory results. I cannot say too much in praise of your medicine."—Mrs. Ethel Hall, Tutor, 111 Rawdon Ave.

Any dealer, in tablet or liquid, or send 10c to Dr. Pierce's Laboratory in Buffalo, N.Y., for trial pkg.

Friendship Better Than Hair

League of Nations Breaking the Chains of Despair in Europe

Spotting Precious Stones

At pearl, smoky or carbonate stone, sluggish and softer acids will eat away the polished surface in a short time. Hardness of stones is equal, decreasing in the said succession, starting at a ruby finish to the sapphire. If a topaz file is kept on the hand while such a file is about time the blue stone will turn to a clear stone.

Sporting Notes

To have the children sound and healthy is the first desire of parents. They cannot be healthy if troubled with worms. Mother Graves' Worm Exterminator is safe and sure.

BABE RUTH KNOCKS THREE HOME RUNS IN WORLD SERIES GAME

Yankees took a big lead in the 5th inning of the fourth world series game here today, when they chased two Cardinal pitchers to the showers and scored four runs, making their total return against the four which the Cardinals had succeeded in getting home up to that time.

It was a great day for Babe Ruth who knocked out two home runs before the slaughter in the fifth, and then came back in the sixth with another homer. The Babe's four-pay has accounted for four Yankee runs.

The score at the end of the sixth was: Yankees 9, Cardinals 4.

Ruth's three homer's brunks all world series records.

MAN DROWNED IN RAIN BARREL

Falling from the roof of his home in a heavy rain storm, Andrew Nagel, Polish settler, named Dunn, just east of the Old Country, was drowned in a rain barrel on his farm at St. Albert on Tuesday afternoon, according to word reaching here on all points here.

The deceased man, who was about seventy years old, was found by his daughter, shortly after 2 p.m. Doctors were called but he was pronounced dead when they arrived. An inquest was held. A post mortem will be held.

Following preliminary examination it was believed that the man had fainted while working on the roof and fell into the barrel.

WOMAN KILLED IN CAR CRASH AT STETTLER

Stettler, Alberta, Oct. 6th.—An unfortunate accident occurred about 10:30 last night in which Mrs. E. Peterson lost her life. Geo. Osborne, a new owner of the Bank of Montreal, took Mrs. Ferguson and her daughter are not out for an automobile ride. He was not accustomed to the car and in attempting to turn the corner at the packing plant at a high rate of speed, the car overturned, pinning Mrs. Ferguson under the car. Mr. Osborne ran into town for assistance, but it was discovered Mrs. Ferguson's neck had been broken and death was instantaneous. The other two occupants of the car were uninjured. The car was badly wrecked.

ALBERTA MUSKRAT RANCHES PROVED TO BE PROFITABLE

Although there is no way of finding out how many muskrat farms are now operating in Alberta because of no permit from the game department being needed, three ranches are known to be going concerns.

One is at Ukalta, near Cooking Lake, one near New Sarepta and one in the Rocky district. Rats are caught and put in the enclosures during March and April, when game and trapping laws permit, and where conditions are natural and enough forage is afforded the little fur bearers muskrats supply.

Ukalta, Europe and pureppie are planted in the pens and feeding takes place during the last part of April and May. Most of the ranchers cut holes in the ice and put boxes over them in cold weather and at feeding time the roots and vegetables are dumped in the opening.

The muskrats in captivity become so tame they pay little attention to people in charge.

IF KING AT WAR, EMPIRE ALSO

Impossible to Stay Neutral in Conflict

London, October 6th.—When the sovereign is at war all his dominions are at war and it is impossible for the dominions legally to contract out of such a war, although they may not contribute one soldier or one sailor to the defence of the empire. This is the attitude taken by the British government here towards Premier Hertzog's intention to raise the question at the forthcoming imperial conference.

Every dominion can, of course, decide for itself whether it wishes or not to participate in any war in which the mother country is involved, it has perfect freedom in this respect and enjoys the fullest sovereign rights but no law, as its people are subject to the king if they are liable to be regarded as being in a state of war by the king's enemies.

It is not a question of policy but one of constitutional legal fact from which there can be no escape unless the dominions withdraw from the empire.

MAN OF 60 HELPED

BY SIMPLE MIXTURE

"After taking Adlerika I feel better than for years. At my age (60) it is ideal—no different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorn bark, glycerine, etc., which relieves GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste matter you never thought was in you. Excellent for chronic constipation.

Human Flies Scale C.P.R. Chimney

Walking around a two-foot-wide platform that ran around the top of the 150-foot-high chimney at the end of the Windsor street station train platform, Henry Held, of New York, and Richard Baker of Three Rivers, drew many eyes from neighboring streets and from the windows of the C.P.R. offices. The men had been engaged by the company to repoint the bricks, scrape the surface and repair the lightning rods on the huge chimney.

The work of getting the platform to the top of the chimney was one of the men for eight days. Every step ward movement of the platform was to a height of six feet and at last intervals of completing the work one of the men would be stationed on a single plank, the rest having been raised to the upper portion. This precaution was taken to safeguard against the event of the rope, but the men thought nothing of it. Added to her years' suffered from attacks of vertigo, Held inspired and said he never had. "I feel just as safe up there as I do on the ground." He is a man over 40 years of age and has been doing this kind of work for the past forty years. I feel right at home on the C.P.R. chimney," he added. "For I built it in 1912." However, he is thinking of quitting the work after 20 years, although his nerve is as good as ever it was. He owns a half-section of land in Alberta and it is there that he says he will settle down.

Both men moved with the same ease as the persons height as though they were walking on the street. At times, when hauling a plank upward, one of them stood on the edge of the platform to lower down the end of 200 feet. At other times they are seen to walk the walls of the chimney perched on a tiny cradle. At all times they appeared to have complete mastery of the situation.

Although it took them eight days to haul the platform to its present position, they glided from it to the ground on a cradle in slightly less than a minute.

IN almost every line of business the Chevrolet Utility Express truck has established a new standard of economy in operation and maintenance.

Truck owners are amazed at the ton-mile operating costs of this Chevrolet one-ton truck and the day-in, day-out service under which it stands up so dependably.

The smooth Chevrolet engine provides abundant power — even for considerable overloads — on hills and level roads.

And the construction of the utility express chassis and the strength of Chevrolet truck owners will explain to you the performance and economy that have made Chevrolet the world's third largest producer of trucks and commercial cars.

Ask your Chevrolet dealer for descriptions and prices of the type of body most suitable for your business. Any regular body style may be built on the Chevrolet utility express chassis.

The Samuelson Chevrolet in Chevrolet history is selling at the Lowest Price for which Chevrolet has ever been sold in Canada.

AVIATION

IT IS to be greatly regretted that the trial flights of the aeroplane owned by P. Lerbekmo was not more successful. Especially so, since, with the exception of the untoward incident which brought the plane down, it proved itself capable of flight. Two successful flights and landings had been made before the flight that ended so disastrously.

There are many who believe that Mr. Lerbekmo was foolhardy to attempt flying with a privately owned plane. With this we cannot agree. Mr. Lerbekmo is a fully qualified pilot, having taken courses and flown planes in the United States. That there is an element of danger we must admit but there is scarcely a modern form of transportation that has not commenced and passed through the dangerous stage. When the early devotees of aviation, of whom the Wright Bros. were the first practical demonstrators, commenced to conquer the air, they commenced a train of action that will doubtless go on until travel by air is made as safe as travel by rail or boat. The cause of Friday's breakdown was a sluggish engine and insufficient altitude to effectively plane down.

Perhaps in all of Alberta and even in the whole province, Tofield has the distinction of having the only privately owned aeroplane. We are not sure about this but there are very, very few, if any. The plane was not "home made" in any sense of the term, it having seen service before Mr. Lerbekmo bought it and re-assembled it here. Having given the Tofield district its first locally owned flying machine, Mr. Lerbekmo has done something of an outstanding nature and while no doubt he is greatly disappointed at the early collapse of his local flying plane, it is a matter for thanksgiving that circumstances were no worse.

MONSTER POTATOES

THE HEN that laid the mammoth egg has now given way to the garden yielding the monster potato. This district has always been noted for its tubers and doubtless, even though the season was dry, gardeners will swell with pardonable pride when they dig up an extra large one. Mr. Hannan son showed us two potatoes a few days ago that would show up well on top of any basket. Together they weighed seven pounds and one ounce.

THE RADIO SEASON

THE RADIO season is here again and no doubt as soon as the fall rush is over many farmers with their families will be listening to programs broadcasted from many stations. A number who do not now possess a set will purchase one as the winter progresses. The newspapers and magazines at this time contain advertisements extolling the advantages of this particular set and that particular set. No doubt they all contain some truth and are, comparitively speaking, worth the money asked for them. Of this, the buyer of course, has to be the judge. The only suggestion we make is that radios be purchased at home. Unless a buyer is an experienced radio fan, or is absolutely sure that the set he desires will give him good service, it is wiser to buy your favorite set at home where a little service is available, rather than from a point hundreds of miles away for in case of a needed adjustment delay is bound to occur.

YOU WILL FIND that yourself and family will appreciate the quality and tastiness and all round excellence of our bread. For, while we as the manufacturers, strive to make the perfect loaf, the real test comes at the patrons meal table. Our bread is made to satisfy real hunger and not only to tickle the palate of a dejected appetite. Try some and be convinced.

Please Renew Promptly

Here and There

The financial statement of the Canadian Pacific Railway issued at Montreal for the seven months of 1926 ending July 31st, shows the large increase in the net profits of $6,501,301.55 over the net profits for the first seven months of 1925. The gross earnings were $101,226,207.11, as compared with $90,343,647.73 for the first seven months of 1925.

Unofficial estimates prepared by the authorities of the Department of Commerce, Washington, estimated that American tourists visiting Canada this year would spend approximately $150,000,000. This estimate was intended to be very conservative and that it was more than likely that the amount would exceed the $200,000,000 mark.

Announcement was made recently over the signature of E. N. Todd, flight traffic manager, Canadian Pacific Railway, of the appointment of D. A. Washlyn as Industrial Commissioner of the Railway, with offices in Montreal. Mr. Washlyn replaces Graham W. Curtis, who has resigned, to fill the position of general manager for Montreal Rail and Water Terminals, Limited.

Otto H. Kahn, chairman of the board of directors of the Metropolitan Opera Company, accompanied by a party of interntationally known financiers of New York, sailed the National Exhibition at Toronto recently. Mr. Kahn, who is perhaps the leading art and music patron of the United States, addressed a luncheon of the directors of the Exhibition on September 2nd, the day of the Exhibition, which was set aside as "Music Day."

It is understood that purchases in Canada of 8,000 railway cars may result from the visit of the engineering expert, Mr. Vanderpoelst, and the Transport Commissariat's representative, Mr. Butovsky, who have been delegated by the Soviet Republic to investigate the possibility of securing this number in Canada. They have also been instructed to make a study of the organization of the Canadian railway shops and the repair methods in general.

Three wolf cubs were caught recently near Lake Deseville in Northern Ontario by Arthur Beaudin, well-known driver of the Chiswick Frontenac dog team at Quebec, and will be trained by Beaudin for the harness. He is confident that by mingling the wolves with husky puppies for several months they will lose some of the wolfish nature and make an excellent addition to the Chateau team. Beaudin claims that, while wolves have endurance, they lack the "heart" of a husky dog.

Two world's swimming records were established at the Crystal Garden swimming pool at Victoria recently, when Ethel McGarry, of New York, swam 880 yards in 12 minutes and 41 seconds, or nine seconds better than the previous woman's record for this event; and when Agnes Geraldy, also of New York, clipped five and two-fifths seconds off the previous record for 200 yards, by completing the distance in three minutes and 12 and three-fifths seconds.

Celebrating the change in name of the historic Dominion Express Company to that of the Canadian Pacific Express Company, a street parade in Montreal was held September first, the day of the change in name, consisting of every description of Express vehicle, new and old. Sam Hodgkinson, a driver of 30 years' service, headed the parade mounted in a wagon of 1890 vintage, and hailed by "Billy" a horse that has been in constant service with the Company for 19 years. Similar parades were held at Toronto, Winnipeg and Vancouver.

New Telephone Rates Are Necessary

BECAUSE The old rates failed to provide any reserve provision for depreciation or storm damage on an investment by the people of the province of $88,866,146.57.

¶ The old rates barely paid for operating expenses and interest charges on the capital debt.

¶ The interest charges of over a million and a quarter annually are fixed and must be paid.

¶ Operating expenses have been cut by $10.00 cents per station in the last few years and can be cut no further without seriously impairing the service.

¶ The added revenue will secure adequate protection of the investment and put the telephone utility on a sound financial basis.

¶ The individual subscriber's share of the increase is small and he receives dollar for dollar of his rental in good telephone service.

¶ With adequate and fair rates, Alberta's telephone system is second to none in TAmerica. As a subscriber, you appreciate this.

After Twenty Years

The Province of Alberta is [illegible] year celebrating its 20th birthday. Your future, like that of the Province itself, lies in the North West Territories, where new settlers from the east, south and over the seas are carving out their fortunes here. Many have been very successful and now have splendid herds and homes, fitted with modern appliances that make the westward steps of life easy. Others are now considering the purchase of these things.

The KOHLER automatic electric light plant will make life brighter and lighter on the farm. With the Kohler installed, press a button and you get light, turn a switch and you get power. It is reasonably well made and thousands of users testify as to its efficient and economical upkeep. Write or ask for booklet entitled "The Principle and the Proof" describing the Kohler Automatic Electric Light Plant.

The Mercury

RED ROSE TEA
"is good tea"

You've been intending to try Red Rose sometime. Why not now?

Growth Of Wheat Pool Movement

The farmers of Western Canada in less than three years have established in the third in the world. The Canadian Wheat Pool, with its three units in the provinces of Manitoba, Saskatchewan and Alberta, now has a total membership of 125,000 farmers, or a combined acreage of the 21 million acres, nearly to what it had four years ago. These people have a membership of the greatest part of the wheat people than of Canada and Canada already enjoys a place where it can control in the world.

The first of the three wheat pools commenced business in the province of Alberta in October, 1923, and at the close of the first pool year on July 1924 had handled 21,540,000 bushels of wheat shipped to it by members. In each of Manitoba and Saskatchewan pools in the same year the total handled was over 40 million bushels and the three pools together handled over 100 million bushels.

Thus in the founding Canadian Wheat Producers Limited. The first period under a five-year charter, will very likely prevent. In this period it has to take delivery of the wheat from each of the respective pools and hold it in place it on the markets of the world in such a manner as to create a price commensurate with the natural law of supply and demand. The pools have proved to be responsible for this, and the Canadian Wheat Producers Limited will be responsible for getting the best possible prices for the wheat delivered to it by the pools. The pools have proved to be a good business proposition, and the formation of the Canadian Wheat Producers Limited will be a wonderful step forward.

In different countries of the world there is a very large difference between the price which the producer receives and the price which the consumer pays for his wheat. In the United States the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Canada the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Great Britain the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Australia the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In New Zealand the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In South Africa the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In India the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In China the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Japan the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Korea the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Manchuria the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Mongolia the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Tibet the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Nepal the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Bhutan the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Sikkim the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Assam the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Burma the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Siam the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Cambodia the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Laos the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Vietnam the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Malaya the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Singapore the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Indonesia the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In the Philippines the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Australia the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In New Zealand the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Fiji the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Tonga the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Samoa the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Hawaii the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Alaska the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Greenland the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Iceland the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Norway the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Sweden the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Finland the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Russia the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Poland the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Germany the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In France the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Belgium the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel. In Italy the producer receives 53 cents per bushel for his wheat, while the consumer pays 53 cents per bushel.

Children Cry for

Fletcher's CASTORIA

MOTHER! Fletcher's Castoria is a pure vegetable preparation for infants and Children, all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep. To avoid imitations, always look for the signature of Chas. H. Fletcher. Physicians everywhere recommend it.

Germany Now Thinks War Is Calamitous

International Stride to Insanity on a Wholesale Scale

It was the fashion, only a few years ago, to glorify war and to create in the minds of young men an impression of its necessity. Germany was particularly eager to give the youth a strong martial spirit and to hold before their military ideals. If Bismarck speaks for his countrymen—and there is no reason to doubt that he does—the statesman has undergone a complete change of heart. The appalling carnage of the past few years has taught them, as they have taught others as well, that war is not a game, but a serious relationship. International war is a menacing on the wholesale scale. It is of course natural and right that young men should go to the defense of their country when it is threatened, it is noble to lay down one's life in a just patriotic cause. But if wars can be prevented or they can, in the main, be of the character that has been waged in the past, they are a crime against humanity.

Bismarck's statesmanship was a complete change of heart. The appalling carnage of the past few years has taught them, as they have taught others as well, that war is not a game, but a serious relationship. International war is a menacing on the wholesale scale. It is of course natural and right that young men should go to the defense of their country when it is threatened, it is noble to lay down one's life in a just patriotic cause. But if wars can be prevented or they can, in the main, be of the character that has been waged in the past, they are a crime against humanity.

RHEUMATIC SUFFERERS

May Obtain Relief by Enriching the Blood Through the Use of Dr. Williams' Pink Pills.

In the days of our grandfathers rheumatism was thought to be the inevitable penalty of a idle life and indulgence in rich food. The theory has been exploded, as well as many others that were in vogue a generation or two ago. Now-a-days rheumatism is attributed to the poverty of the blood, and the only way to cure it is to enrich the blood and thereby drive out the poisonous acids which cause the pain. Dr. Williams' Pink Pills do this in a simple, natural way, and that is why they are so successful in curing rheumatism and other troubles due to poor blood. Mrs. Thomas Cleaver, Lakeside, Ont., is one of many people who have proved the value of these pills. She says: "I was a great sufferer from rheumatism and could get no relief from doctors or medicines. I was induced to try Dr. Williams' Pink Pills and after using a few boxes I felt that they were helping me. I kept on using them and was soon able to go about my work. I am glad to say that I have not had a return of the trouble since, and I feel that I owe my present good health entirely to Dr. Williams' Pink Pills." These pills are sold by all medicine dealers or may be had by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Aged Farmer Is Killed

Was Gunner of 12 Quarter Sections in Saskatchewan

Death came in instantaneous form to Aaron Hoover, aged 70, a farmer of Grand Coulee, when his automobile was struck by an engine. The latter was running at high speed and was not sounding the whistle. Mr. Hoover was the owner of 12 quarter sections in the district and was a well known figure. The newspaper report records the fact that the deceased had been a resident there since 1911 and "during all that time he had lived alone. It should also be written into the record that the late Mr. Chas Hoover was a kind, good-hearted neighbor and a Master Mason, having been initiated into the 20th of August, 1922, his membership 65 928.

Kingdon Trans-Atlantic Cables

The submarine cables to Atlantic cable have been operating and the transfer will double the speed of transmission of messages to and from Canada. The Canadian Pacific Railway, which has extensive trans-ocean steamship interests, has also a trans-ocean wireless system.

Keep Minard's Liniment in the house

Man: Who is your color as sharp?
Mr. Brown: I have been trying to get a word to rig after for a whole week.

Mark Canadian business have announced 1,000 tons locomotive. Well, where can you go in a hurry?

W. N. U. 1449

For all pains—Minard's Liniment.

Wins Scholarship

Jean Estelle Leonard who has been first controller at the Chateau Lake Louise for the past summer has been awarded a scholarship at Harvard University by the Province of Quebec Conservatory. Mr. Leonard has left a position as assistant cashier at Metcalf Bros. to accept the position and has resigned as Harvard.

Miss Leonard assumes the position of first controller at the Canadian Pacific Hotel Chateau Lake Louise, N.B. for three months. He is 20 years of age.

Strange New Pygmies Found

Scientists say New Guinea Bush Men Were Friendly

In some parts of the jungles near by the Dutch New Guinea expedition have discovered a new race of pygmies. They understand that the natives in a district covered by the party have been found to be friendly. Two women and a child were captured and brought to the camp. They were found to be friendly, people who have never had any dealings with the white man. They were kept there for a time and then released. The pygmies are described by a local writer.

The pygmies are the first to be found in which the expedition had been directed through fever and hardships, the natives have been met in numbers of from 100 to 200 at one time. Many photographs were taken of the pygmies.

Gave Away A Fortune

Man Who Inherited a Million Dollars Disburses Amount in Four Years

It has taken fifty-three hundred, a million dollar fortune, four years of worry and effort to give it away. But he has succeeded at last. His large corps of distributors, known as employees of the Lowell Fund for Public Service, has, after carefully appraised their labours and the spending of the money, that only a paltry $1,000 was left unexpended. It left

Mr. Lowell died and when his estate was examined and inventoried it was found to be worth $1,000,000. Then began the task of distributing it. Mr. Lowell had left no instructions as to how it was to be spent, but there was little doubt in the minds of those who knew him that he would have wished it to be used for the benefit of his fellow men. Accordingly, the trustees of the fund decided to spend it in the United States and Canada.

Farmers Have Received Patronage Refund

Saskatchewan Farmers Benefit by Pool Elevator Shipments

The distribution of $126,611 as a patronage refund to the farmers of the Saskatchewan Pool Elevator facilities in Saskatchewan last year, will be well received by farmers. Payments are to be had on all grain sold without shipping through the 70 elevators of Pool Elevators Ltd., last season, and 1 cent per bushel on coarse grains. The refund per bushel will be refunded on flax farms without adjustments to pool tonnage, and by cents per bushel on coarse grains on shipped. Last year's handling charge on wheat being 4 cents, the refund will reduce costs to a low cost rate.

The man who tells you that he has nothing to say is usually capable of saying a good deal if he were so inclined.

The smallest infant weighed by the Child Welfare Bureau, Stockholm, was 2 lbs. 12 ounces.

Claimed By Ireland

British National Anthem and "Python Song" Are Irish Tunes

"Rule Britannia" is not Britannia's song at all, it is Irish, according to Dr. Joyce and Flood, the well-known Irish musical historian. He asserts that "Rule Britannia" originally an Irish air known as "All the Way to Galway" and "God Save the King," the British national anthem, Dr. Flood says, also is an old Irish tune which originated about 1686 and has been pretty strongly claimed by a Irish manner.

Another song in which prevailing views superstitions had been eliminated through fever and hardships, the natives have been met in numbers of from 100 to 200 at one time. Many photographs were taken of the pygmies.

A Household Medicine.—They that are acquainted with the Scriptures call the psalms of Dr. Thomas' Electric Oil to the treatment of many ailments would not be without it in the house. It is truly a household medicine and is so effective in dealing with many ordinary complaints in the household medicine list, sweep it at hand, as the old saw is, may come most unexpected.

Accordingly, the trustees of the fund decided to spend it in the United States and Canada.

Storms On The Sun

Many Rapid Changes Taking Place says Chicago Professor

Violent storms are raging on the sun as well as on earth at present, Prof. Ellerman, of the Yerkes observatory at Chicago (Great Northern and Southern solar has observed an entirely new group of sun spots. The discovery has been announced from the Yerkes observatory. Prof. Ellerman says that the sun spots are accompanying rapid changes. The disturbance is marked by a black manner.

Another song in which prevailing views superstitions had been eliminated through fever and hardships, the natives have been met in numbers of from 100 to 200 at one time. Many photographs were taken of the pygmies.

Tourists Visit Yoho Valley

More than 200,000 persons saw the Yoho Valley, near Field, B.C., by motor this year, this being over the Dominion government road which was opened early in the summer. This is regarded as one of the wonder spots of the Rockies.

Doctors Use It.

They recommend it also for sprains, bruises and other ills.

MINARD'S "KING OF PAIN" LINIMENT

Many Join Wheat Pool

A total of 15,615,000 bushels of last year's crop has been delivered to the Alberta Wheat Pool, and the receipts and disbursements of each Pool in September 10,000 acres every month.

Building Auto Highways

For the purchase of local traffic lines, as well as for military purposes, the Hon. Minister plans the construction of more than 2,000 miles of highways, at a total cost of $1,000,000.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. We have given notice that the name Aspirin, wherever used in this publication, means Bayer Aspirin. The Trade of Bayer Company will be enjoyed only those goods which bear the Bayer Cross.

RUM RUNNING PACT BETWEEN BRITAIN AND U.S.

Washington.—The new rum smuggling agreement with Great Britain, negotiated at the time of Ambassador Secretary Andrews, would be in force last summer has been declared effective and on August September 23.

The Agreement was made specially through an exchange of notes between the Washington and London Foreign Office. While the text of the agreement is held in confidence, it is known that it provides administrative cooperation between British and United States authorities in the search of vessels suspected of violating the liquor trade between British and United States territories.

Canada's Ambassador to U.S.

Matter Will be Subject of Discussion at Imperial Conference

Ottawa.—The selection by Canada's prominent minister plenipotentiary at Washington is the latest announcement that will appear in the Canada Gazette. Mr. Vincent Massey, Liberal, will be the first Canadian minister to the United States and the first to be appointed by the Canadian government. It is understood that the appointment will be made until after the Imperial Conference in October. Mr. Massey does not go to Washington as a member of the Canadian delegation to the conference, but it is to be assumed that he will be in attendance on the discussions taking place.

Date Of By-Elections

Reported Contest Will Be Held on November 22nd

Ottawa.—It is reported that the ministry of the new government will likely have November 15 fixed for nominations and the 22nd for polling, where the results of the elections will cannot be issued until those of the recent elections have been held. The difficulties are removed, but they are still expected to be by December 1. After that, a period of about 25 days will intervene before polling.

So far as the opposition parties can see the only seat left not to be opposed by the Liberals is that of the Speaker, all the elections are the same day.

Colonel Sommerville Drowned

Bonaparte—The first tragedy of the season on the English River was reported here when the death of a young Scotland was washed ashore.

The body was identified as that of Lieut. Rodrigues Ireland, who is said to have been a member of a prominent Madrid family.

Polars started towards and without any report in an attempt to rescue the channel from France to England. Lieut. Rodrigues was drowned.

Will Attend Conference

St. John's, Nfld. Prime Minister Monroe, Newfoundland, accompanied by A. E. Mosley, was a passenger on the Furness - Liner Sona-South, which sailed for England to attend the Imperial conference. Hon. W. J. Higgins, Minister of Justice, has also left for England to attend the conference, it is understood.

Damage To Rural Phones

Berlin, Ont.—The heavy snow and windstorm in the northeast of Ontario has caused considerable damage to the telephone lines and poles. Reports from the northeast section of the province say that telephone poles have been blown down and the wires snapped and broken. The extent of the damage cannot be estimated at present.

35 States Sign

Geneva.—The secretariat of the League of Nations announced that 35 states have signed the reply which will be sent to Washington on account of the Pulitzer prize competition to the World Court.

Has Removed Civil Service From Politics

Successful Move in Manitoba Spreading to Federal Field

Winnipeg.—Efforts to remove civil service from politics and to put the standard of work have been so successful in Manitoba, and such an interest has been aroused in the subject in the Province, that the Civil Service Research Institute's convention has

The reforms instituted, it is claimed, are crowding more and more people with politicians still controlling the personal points of view.

The old idea of the old saying was on the same principle—"to the victor belongs the spoils." declared a paper by Roderick Finlay, secretary of the Civil Service Commission.

J. W. Fleming, Civil Service Commissioner for Manitoba, explained the organization had cut down the number from over 1,500 and efficiency had increased. Promotions, he said, are made from within the service as an encouragement to the staff.

Speaking from how Parliamentary experience, Mr. W. F. Cockshutt, Brantford, Ont., said the province should have nothing but a "open door" and not a "back door."

Major Hume Cronyn declared that the old Irish view that "to the victor belongs the spoils" was the ruin of the United States. "Canada will be present with a the matter that the politics no distinction," he said. Mr. Massey does not go to Canada as a member of the Canadian delegation to the conference, but it is to be assumed that he will be in attendance on the discussions taking place.

Military Occupation Of Germany Is Hindrance

Described as Humiliating How The Ruhr Is Governed

Dublin.—The German papers of Berlin have published in which an officer of the German army has described the humiliating and degrading conditions which the occupation system has thrown upon the people of the French-Belgian occupation. An army of the French Front said.

Occupancy are not generally visible to the casual eye, he explained, unless grouped over vast areas.

Tourists Visit Yoho Valley

More than 200,000 persons saw the Yoho Valley, near Field, B.C., by motor this year, this being over the Dominion government road which was opened early in the summer. This is regarded as one of the wonder spots of the Rockies.

Will Apply The Remedy

New Minister of Customs Buys 900 Acres in Kitchener

Kitchener, Ont.—"First God sent us completely as possible what's wrong with the country, the remedy." So said W. H. Euler, newly appointed minister of customs in the Mackenzie King cabinet, in going to do what he called "the work" of the country. "That all the world has a bank for thirty-five years in the Bank of Montreal," Mr. Euler said, "I have been connected with the bank for thirty-five years, and I have been a director for the last ten years."

Will Retire From Public Life

Whitaker — The Ottawa correspondent of the Montreal Star Hon. Rodolphe Lemieux, who is also a director of the Montreal Star, has announced that he will retire from public life.

Will Consider Steamship Contract

Ottawa.—With no official information is available at present. It is understood that the government will consider the situation in regard to the Canadian Pacific Railway steamship boats. The contract for the service has expired some time ago, and it was extended from year to year by the

Bandits Attack Mounted

Regina.—Two bandits attack Royal Mounted Police Monday night. The bandits are said to have escaped. The bandits were wounded by the bandits, who escaped. People are said to be watching the outlaws. They are under orders to exterminate the band.

Accidents at Rodeo

Edmonton.—Ray Miller, Cheadle, Alta., sustained a broken leg when kicked by a horse. Pascale Frank of Great Falls, Mont., suffered concussion of the brain when thrown and Jack Cooper of Jasper Park, Alta., had his forehead split open by a kick from one of the ponies in the rodeo here.

Has Faith In Canada

Lord Shirley Sees Unbounded Optimism Regarding Our Future

Toronto.—They are more optimistic in Canada to-day than at any time in the past two years," declared Lord Shirley, noted British writer, here in addition to his visits to Canada, which he expects to undertake in the near future. "Everywhere I go I find that Canada is looking forward with confidence to the future. Of course, I realize that we have been through a period of depression, but I am convinced that we have seen the worst of it and that we are now on the road to prosperity."

Would Help Politicians

Combining The Human Voice With Moving Pictures

London.—Combining the human voice with moving pictures is the latest invention to be brought before the people through the agency of the cinematograph. The invention has been made known to the trade and to the public by Mr. Percy Nash, who has applied for patents in connection with it. Mr. Nash has been engaged in the cinematograph business for many years, and has made many improvements in the apparatus.

Military Occupation Of Germany Is Hindrance

Described as Humiliating How The Ruhr Is Governed

Dublin.—The German papers of Berlin have published in which an officer of the German army has described the humiliating and degrading conditions which the occupation system has thrown upon the people of the French-Belgian occupation. An army of the French Front said.

Occupancy are not generally visible to the casual eye, he explained, unless grouped over vast areas.

TAKE STEPS TO STOP SMUGGLING ALONG BORDER

Lethbridge.—Measures for the stopping of smuggling between Canada and the United States will be taken at the conference between the Canadian customs officials and the United States customs officials which is to be held in Lethbridge on September 15th.

The order to council which changes the duties on certain articles coming into Canada from the United States will be passed by the council and the order-in-council will be issued by the minister of customs. The order-in-

NEW LOCAL INDUSTRY harvested nothing this fall. The place There is a farmer a few miles from to harvest of horses or tractors, nor the hamlet of Hay Lake who has what would they be much use, for it is well is probably the smallest farm in the nigh impossible to drive over this district. The owner of it puts in no farm. Not only has no crop been crops, has no farm machinery and has harvested, but it seems certain that the land is totally unsuitable for raising grains. Cattle, sheep and pigs would walk themselves to death searching for food.

Yet the owner smiles. The longer he stays, the broader will his smile become. Most farmers raise something besides dust. This farmer raises something. He cleans up well over $100 a bushel. But whereas the dirt farmer raises something to fill the larder bin, the one we are writing about raises something to line the exterior man.

He is raising Hudson seal. That is he is a fur farmer. The farm is situate about 6 miles east and in circuitous to shape, having a circumference of about 400 yards. It is at present in the experimental stage, but its progress will be watched with much interest by the local residents.

FALL MANAGEMENT AND WINTER HOGS

(Experimental Farms Note)

The early fall is the best time to thoroughly clean and disinfect the hog house. Earth floors should be levelled and fresh earth added if necessary. All necessary repairs to the house are best made before the pull is harassed for the winter. If the house is not equipped with a dry mash hopper and bin for hand grain, the fall is a good time to install them. A dry mash hopper is an essential in feeding pellets for ear production and the small bin for hard grain in the former saves labor in winter. Since it is not economy to feed older birds the same ration as pullets during winter it is a good plan to partition the house in order to provide separate pens.

During September and October pullets should be fed with a view to maturing them for winter production. At this time more stimulating foods such as wet mashes and animal protein in the form of table refuse, beef scrap and milk are to be fed once every evening. Hard grain fed in the morning and evening, a dry mash made up of a mixture of two or three meals kept before them continuously in a self feeding hopper, together with a wet mash fed daily will promote rapid growth and round the pullets into laying condition Ten to twelve per cent of beef scrap may be added to the dry mash. Meat scraps and table refuse can be dampened and fed with meal as a wet mash. A ration such as above can be continued after the pullets are housed for the winter.

Deforest Crosley Radios

DESIGNED AND BUILT IN CANADA FOR CANADIAN CONDITIONS

Canada has distinct characteristics that effect radio reception. DeForest and Crosley radios have been designed to meet these conditions. Great distances, climatic variations and topographical peculiarities have all been considered in the construction of new models.

As a result, adequate range, clarity of tone, simplicity of operation and low upkeep. This year we are specializing on the C 5 Console Model, a beautiful machine in a Mc Lagan cabinet. The new type tone chamber embodied in the Musicone Tone Re-Crentor or Loud Speaker, is also designed that the front of the cabinet forms a sounding board greatly enchanting tone and volume.

Don't take our word for the superiority of this machine but see and hear it for yourself at our store. No one could could wish for a more efficient and nicer appearing radio than the Deforest Crosley Console Model.

Rev.—To Mr. and Mrs. Norman Kl[illegible] Mr. on Sunday, October 16th, a daughter.

Nurse Wood is visiting Mr. and Mrs. [illegible] the latter for a few days.

Frank Wood had his tonsils removed [illegible] Vikings hospital on Wednesday last. He is doing nicely.

Tofield contingent from Winnipeg on Wednesday evening last, after visiting her sister and old friends.

Mrs. Bain motored to Edmonton one day last week.

Mr. and Mrs. Chatterson and family motored to the city on Sunday.

Mrs. John L. Gray received word on Friday that her father had passed away at Lacombe, Alta.

Mrs. J. Noland motored through to Edmonton, where she is visiting her brother.

Mrs. W. Nelson, of Holden [illegible] at the Noland home over the week end, enroute to Vancouver by car.

Mrs. and Mrs. McLaughlin motored to the city on Monday.

Mrs. Barbara Carlisle came up from Edmonton on Friday evening returning on Sunday morning.

Mrs. H. Simmons entertained for a number on Sunday morning.

Chicken pie supper, Thursday, Oct. 13th, 6:30 at the United Church. Adults, 50c. Children 25c.

Mrs. J. Noland motored through to Edmonton on Monday afternoon. The ladies are quite enthusiastic over the plans and a splendid get-together social is anticipated.

U.F.W.A. NOTES

A meeting of the committee convened by Mrs. McClurg, to make final arrangements for the chicken pie supper to be held soon was held at the home of Mrs. Lindsay afternoon. The ladies are quite enthusiastic over the plans and a splendid get-together social is anticipated

Mrs. Alex Abbott was home over the week end.

Mrs. Gray spent Tuesday in Viking and Wednesday in Ryley.

A. R. Dawson, teacher of grades seven and eight in the Tofield public school, suffered from an attack of [illegible] on Monday morning. He stated that [illegible] was not of such a nature as to keep him in the habit of sleeping late on the morning, but when he had not experienced it before, he thought it was irregular. He looked none the worse, save the bed was in disorder and then forced the door.

The police were notified and will make a thorough enquiry. It was suspected that Hiddleford had a job on Queen Wednesday.

HON. HUGH GUTHRIE LEADER OF CONSERVATIVES

OTTAWA, October 12th.—In all unofficially accepted the resignation of Rt. Hon. Arthur Meighen and proposing a resolution favorable to a national convention, the conference of conservative ex ministers, senators, members and defeated candidates yesterday, ran true to the form of [illegible] although at one time it looked as though Mr. Meighen's retirement would be held in abeyance until the convention.

The selection of Hon. Hugh Guthrie as House Leader was an exemplification of the dark horse winning out. Eight names went a the ballot Messrs. Guthrie, Stevens, Bennett, Gardiner, Manion, C. W. Bell, Tolmie, and Cahan. The latter declined down in three ballots, leaving the contest between Guthrie, Stevens and Manion, Guthrie won out with a clear majority. His closest rival, Stevens, came to Manion's support, but some change appears to be in the air, as it is reported that it was more in keeping with the desire of the house generally.

HOBART CARL MUCH WHETHER HE HANGS

Orange October 12 Ravel T. Hunt, was totally astonished on the deliberations of the Supreme Court of Ohio whether he should be [illegible] to the [illegible] care work," he said, was by considering the attempt to obtain a third reprieve from execution on behalf of a Chicago drug clerk [illegible] three years ago. "I've got to do some [illegible] myself, but I would do something to show I appreciate the loyalty of my wife and the [illegible] of my attorney."

W.I. NOTES

A whist drive will be held on Tuesday the 18th. This is for the same benefit and we need the money before the weather gets too cold.

The postponed constituency conference will be held on Friday the 22nd. Keep this date in mind and be one of us.

The regular social meeting was held on Tuesday with a goodly number in attendance. Considerable business was done after which a fine lunch was served by Mrs. Bissett and Miss Kellat.

LADIES AID MEETING

A meeting of the committee convened by Mrs. McClurg, to make final arrangements for the chicken pie supper to be held soon was held at the home of Mrs. Lindsay afternoon. The ladies are quite enthusiastic over the plans and a splendid get-together social is anticipated

GRIM DISCOVERY IN ROOMING HOUSE

Peter Hiddleford, a young Norwegian, who has been resident of Canada for about two years, committed suicide by hanging in his room in the rooming house rooms, 10361—96th Street Edmonton, on Tuesday. Investigations showed that the man had tied one end of the belt of a rain coat around his neck, and the other around the bed, rolling around the floor until he had throttled himself.

The grim discovery was made by Mrs. Berry-rooms, manager of the rooming house. He stated that deceased, who was out of work had been in the habit of sleeping late on the morning, but when he had not appeared at 1:30, Berry-son decided to investigate. He looked over the transom, saw the bed was in disorder and then forced the door.

The police were notified and will make a thorough enquiry. It was suspected that Hiddleford had a job on Queen Wednesday.

HON. HUGH GUTHRIE LEADER OF CONSERVATIVES

OTTAWA, October 12th.—In all unofficially accepted the resignation of Rt. Hon. Arthur Meighen and proposing a resolution favorable to a national convention, the conference of conservative ex ministers, senators, members and defeated candidates yesterday, ran true to the form of [illegible] although at one time it looked as though Mr. Meighen's retirement would be held in abeyance until the convention.

The selection of Hon. Hugh Guthrie as House Leader was an exemplification of the dark horse winning out. Eight names went a the ballot Messrs. Guthrie, Stevens, Bennett, Gardiner, Manion, C. W. Bell, Tolmie, and Cahan. The latter declined down in three ballots, leaving the contest between Guthrie, Stevens and Manion, Guthrie won out with a clear majority. His closest rival, Stevens, came to Manion's support, but some change appears to be in the air, as it is reported that it was more in keeping with the desire of the house generally.

HOBART CARL MUCH WHETHER HE HANGS

Orange October 12 Ravel T. Hunt, was totally astonished on the deliberations of the Supreme Court of Ohio whether he should be [illegible] to the [illegible] care work," he said, was by considering the attempt to obtain a third reprieve from execution on behalf of a Chicago drug clerk [illegible] three years ago. "I've got to do some [illegible] myself, but I would do something to show I appreciate the loyalty of my wife and the [illegible] of my attorney."

RESIGNATION OF BRIDGETT IS DISCUSSED

The possibility that Premier [illegible] political position in order to accept the [illegible] membership of the [illegible] was discussed by [illegible] of the [illegible] yesterday [illegible] Premier [illegible] to [illegible] [illegible] [illegible]

Blemishes and Irritations Quickly Disappear

When Cuticura is used, first to wash the body and hair, then to gently anoint with the Ointment. This treatment not only soothes and heals pimples, rashes and other irritations but tends to prevent such troubles.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Cuticura Laboratories, Dept. 22B, Montreal.

Immigration And Reinvestment Problem

By C. W. Peterson

Every now and then objections are raised to policies having as their object an increase in Canada's population, on the grounds that we have not as yet completely solved our industrial unemployment problem and, therefore, should not add to our present difficulties. Such objections are based on a complete misapprehension. Immigrants are not added to a new country, but to one already settled and with certain industries in full swing. Each additional family is an added demand for the products of the community's manufactures and the labor thereon producing the raw material for such manufactures.

The recent European war and its economic results have given a tremendous impetus to the world-wide movement of racial and commercial forces. Many of them are on the ebb, but not to that time which is absolutely the end of a period, all signals enough are sufficient to indicate that there is absolutely no doubt to our amount of work to be done in this direction. Canada's problem is not how to develop its resources, but how to develop its resources in the most profitable manner. The first practical policy of every country is its own power of production and the more easily and economically it can do this the greater may be its trade with other countries and the more prosperous and progressive will be its people. Immigration and reinvestment are the two most effective means of increasing production.

Immigration and reinvestment are the two most effective means of increasing production. Immigration and reinvestment are the two most effective means of increasing production. Immigration and reinvestment are the two most effective means of increasing production. Immigration and reinvestment are the two most effective means of increasing production.

SUNDAY SCHOOL LESSON

LESSON II

MOSES HONORED IN HIS DEATH

Golden Text: Precious in the sight of Jehovah is the death of his saints. Psalm 116:15.

Lesson Deuteronomy 32:48-52; 34. Devotional Reading: Psalm 116:12-19.

Explanations and Comments

I. Moses Expects the People To Enter Into Canaan (32:48-52). The death of Moses was over the extremely changed circumstances. The merchant of the Stone Age of the law which he had given him in the Land of Canaan. Without the law, he would have been a mere wanderer in the wilderness, but with the law he was a leader of a nation. The law was the basis of the nation's life. It was the law that made the nation great. It was the law that made the nation great. It was the law that made the nation great. It was the law that made the nation great.

CHAPTER XVI.—Continued

In Toronto some excellent rooms, with a good home and a good table, but not complete a single feature. When she failed to find a room to the lady who showed us the place. I'm information she wanted.

Mr. Dunbar has just outfitted Ma dame.

She went at once to explain only for a moment, for she saw that day had deducted from her hard-earned pay the charge of a modern motor. In a short time, he'd from the reception hall into a sha no window, gave the impression of fashion, she called a meeting room presented for his new navigator. Brandon stood in the middle of the lighting and glass in La Louis Jr. stirred in great style.

She next directly up to meet it, gave her an inclusive glance, he and then, with a slight bow, asked every attribute to her. For an instant she was immediately self-possessed clearly the flattered boy knows exactly but when they had composed themselves, Mr. Brandon introduced Mr. Dunbar to Miss Joanna Thompson.

"I fancy that point might be settled," he observed, "but we will compromise. You are very tired after your journey, and your arrival, while agreeable, was rather short either of it or dinner?"

Some quick reply, perhaps a re- minder of our unconventional intro- ductions, lay ready on Joanna's lips, but about to speak, she closed them again. "I'm quite ready to dine," she said, and thank you, Mr. Dunbar, I'm sure you must be tired, too, after your long journey, perhaps you will agree that I'd better dress even more than I have done, and you, Mr. Brandon, wouldn't like your appearance."

"You look quite right, of course," Dunbar.

She had no time to make any reply, for the lift-boy, who had taken Mr. Dunbar's luggage to his room, now returned to take them to the dining-room.

Joanna's first impression of the dining-room was that it was very large and very full of people. Her second was that Mr. Dunbar was very well known to the waiters, for they all seemed to be hurrying to attend to his wants. Her third was that he was very well known to the waiters, for they all seemed to be hurrying to attend to his wants. Her fourth was that he was very well known to the waiters, for they all seemed to be hurrying to attend to his wants.

The Speed of Hurricanes

Bulletin Explains Why Accounts of Velocity Vary

Many people have been puzzled how to reconcile the apparently widely divergent accounts of the velocity in the wind during the West Indian hurricane that struck the southeastern coast of Florida last week-end. The wind in one place or winds one ing at the rate of 120 miles an hour is recorded that the center of the hurricane passed over the district at the rate of 40 miles an hour. A bulletin on this subject issued by the National Geographic Society of the United States explains the peculiar phenomena of hurricanes. The bulletin says:

"Hurricane" is the name given to the violent storms that occur in the West Indian Islands, and which sweep over the Gulf coast and possibly as far as the Atlantic coast. The storms are caused by the meeting of two currents of air, one of which is moving in a northerly direction and the other in a southerly direction. The storms are caused by the meeting of two currents of air, one of which is moving in a northerly direction and the other in a southerly direction.

GIRLS AND WOMEN NEED RICH BLOOD

This Lady Found Dr. Williams' Pink Pills a Friend Indeed

Just because she is a woman there are times when she needs extra help and strength in the form of a good blood tonic.

To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing because they enrich the blood, give strength and vigour to the whole system. The splendid part is that they do this by helping to make new, healthy blood. That is why they are so often successful in relieving such troubles as anaemia, headaches, backaches, indigestion, nervousness, and that tired, languid feeling.

Mrs. Beverley Hall, Bedford, Ont., is one of the many women who have found Dr. Williams' Pink Pills a friend indeed. She says: "I was very much run down, and could not sleep at night. I had no appetite, and was very nervous. I got Dr. Williams' Pink Pills and took them for a while, and they built me up and made me well and strong. I am glad to recommend them to others."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

AVOIDING FARM FIRES

Owing to the increased losses to farm property caused by fire and to the higher rates of insurances which are being levied, it may be of some interest to examine the chief causes of farm fires and the method by which they may be avoided. The rate of insurance of farm property has been materially increased during the last few years. This increase varies with different territories, but averages from 50 to 75 per cent above the rate prevailing ten years ago. However, not withstanding this increase in the rates, fire insurance companies paid a losses in farm property in Canada from 1921 to 1924 inclusive, 30 per cent more than they received in premiums.

Farm property is more liable to suffer loss by fire than city property. Barns are always constructed of wood, while straw and hay are always present.

Threshing engines operate close to barns filled with grain and straw. Moreover as there is rarely an adequate means of fighting fires on the farm, when a fire does start, it frequently destroys completely all the buildings and their contents. As the insurance payment does not cover the entire value of the property destroyed, considerable loss is always suffered by every fire. The greatly increased cost of building makes the replacement of any building very expensive, moreover, the inconvenience after the fire and the danger to life caused by the fire renders necessary the exercise of all possible care to prevent it. In fact, 90 per cent of all fires are caused by carelessness.

While the prevention of fire is by all means the best method of control, nevertheless, when a fire does start, some effective means should be ready to extinguish it. The main point is to quench the fire when it is small, as soon as it is detected. One of the best types of fire equipment is the placing of a number of fire buckets full of water in convenient places in the house and barns. These buckets should be used only in case of fire and not for any other purposes. They should always be kept covered to prevent evaporation so that the water would be available whenever needed. The smothering of small fires with a blanket is very effective.

CANADIAN APPLES FOR OVERSEAS FIRESIDES

Canadian orchards are busy heavy with lucious red apples, symbols of Canada's abundance and very bright warm summer days. So crop this autumn is the best in years and boxes and barrels of choice hand packed fruit are procurable at reasonable prices from any grower.

And could anything be more appropriate to carry your kind thoughts to Agood wishes to the fireside of your friends overseas, this Christmas, than a few of these ruddy, cheerful looking apples. The matter of shipment is as simple as the mailing of a card.

The Canadian National Express will call for your apples, transport and deliver them, by quick services, to any station in Great Britain, Ireland and most European Countries.

The transportation charge from Montreal and October up to November 15th or from St. John and Halifax, chartered by direct steamer to points in Great Britain, Ireland and the Channel Islands is $2.00 per standard, barrel, including refrigeration.

For rates to Canadian Ports, through rate to Continental stations and other particulars, consult any Canadian National Express Agent.

POPPY DAY CAMPAIGN

The principals of the Alberta schools have received the following communication. Students desiring to enter this competition should notify their school teacher.

The Provincial Executive Council of the Canadian Legion is, with the approval of the Hon. Perrin Baker, Minister of Education, holding throughout the whole province an essay competition for all schools, colleges, etc.

The following are the regulations governing the competition, and it is hoped that at least one essay will be forwarded by you. School address and principal's name should be on each essay.

Subject THE THE THRTTT TT
Subject—Canada's part in the Great War.

LENGTH OF ESSAY—Minimum 300 words; maximum 500 words.

DIVISIONS—

1st Division—High Schools, 3rd and 4th years.

2nd Division—High schools, 1st and second years.

3rd Division—Grade VIII. and under.

PRIZES—

1st division—1st, $25.00; 2nd $15.00; 3rd, $10.00.

2nd Division—1st $25.00; 2nd $15.00; 3rd, $10.00.

3rd Division—1st $25.00; 2nd $15.00; 3rd, $10.00.

The principal of each school will forward to the provincial council at Edmonton the three best essays in any or each of the above divisions, on or before October 31st. These will be finally judged by the committee for Alberta comprising: Lindley H. Bennett, Esq., Provincial School of Technology; Father A. B. MacDonald, St. Mary's school, Calgary, Mrs. Nellie L. McClung, noted author, Alberta, who will decide which are the best three essays in each division.

The list of prize winners will be published in the press and also each winner will be notified through his or her principal by letter as soon as possible after the conclusion of the competition.

MAN OF 60 HELPED BY SIMPLE MIXTURE

"After taking Adlerika I feel better than for years. At my age (60) it is ideal—so different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorne bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste matter you never thought was in your system. Excellent for chronic constipation.

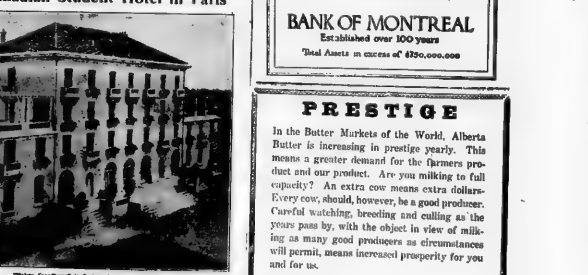
Prince Opens Canadian Student Hotel in Paris



"Maison Canadienne" in Paris. Courtesy C. N. Rowe, R.A., Provincial Canadian Pacific Railway

The Prince of Wales formally opened the "Maison Canadienne" on October 1st, a part of the well known "Cite Universitaire" located at the outskirts of Paris. Canada is the first country, outside of the European continents, to erect a modern hostelry for the sole use of Canadian students attending the Cite Universitaire. When completed, this institution of learning will follow closely the lines of Oxford and Cambridge Universities. Aside from the central buildings wherein instruction will be given there are to be various single or semi-detail halls or hotels, e Each will be known as "Halls de Session," and is house those of her students who are studying at the university. The "Maison Canadienne" is most modern and up to date, and has been built by public subscription, of which the sum of $250,000 was contributed by E. W. Beatty, President of the Canadian Pacific Railway.

The "Maison Canadienne" of which the façade is photographed above, is a stone-fronted building of pleasing exterior appearance and of very commodious interior. In addition to 45 well-furnished residential rooms, each with bathroom attached, there is a large public room or "Salle de Reunion," handsomely furnished after the latest approved French manner. The main corridor, which is done in similar design, is also impressive in its interior with the general appearance and comfort which is to be found throughout.

PRESTIGE

In the Butter Markets of the World, Alberta Butter is increasing in prestige yearly. This means a greater demand for the farmers product and our product. Are you milking to full capacity? An extra cow means extra dollars. Every cow, should, however, be a good producer. Careful watching, breeding and culling as the years pass by, with the object in view of milking as many good producers as circumstances will permit, means increased prosperity for you and for us.

ALBERTA EXHIBIT WAS CENTRE OF INTEREST AT AMERICAN FAIRS

Hundreds or people interested in Alberta, and some of them pretty sure to be coming up here to live before long, is the report that Colin Groff, publicity commissioner, for the provincial government, brings back with him on his return from two big fairs across the line at which Alberta exhibits were shown. Both at Sioux City, where the interstate fair for South Dakota, Iowa and Eastern Nebraska was held, and at Spencer in Northern Iowa, the largest county fair in the United States, the tent that housed the Alberta display was a centre of greater interest and an several of the big days was crowded all day long. Mr. Groff, who was in charge of the exhibit, said that it made a very fine appearance, attracted much attention, and drew out a great many inquiries. He was assisted in answering the inquiries and carrying out the sends of good Alberta publicity by Frank Peterson, and W. D Morrison, and the three of them were kept busy. Especially at Spencer, which had an attendance nearly as large as the Edmonton summer fair, there were a great many visitors to the tent, and was expressed.

As a result of the publicity these secured there are a large number of good prospects for future settlers says Mr. Grog. It was noticeable that the enquiries came in large numbers from young men, who were attracted by the opportunities of making a start in life under more favorable conditions than they have in their own country.

Alberta's comparatively low taxes appealed to these prospective settlers from Iowa and Dakota. The 23 cents per acre that Alberta farmers have to pay seems like nothing at all in comparison with the taxation of from $1.50 to $4.00 per acre that is paid over there, while the difference in the price of the land also appealed to the exhibition visitors. Land that sells for from $20.00 to $50.00 in Alberta is going at from $100 to $300 in Iowa and Nebraska and some of the folk who took note of the difference said they will be moving across as soon as they can sell out.

The exhibit worked like a charm, says Mr. Groff, and there was nothing broken or lost at either show or on the way. The transparencies and other illustrated material looked as well in action as it was thought they would when they were prepared.

CANADIAN NATIONAL RAILWAYS

Here and There

More than 500,000 people will have visited Ste. Anne de Beaupre this year when the season ends. It is already an increase over last year when 500,322 persons visited this famous shrine. During the week ending August 22nd, 43,000 pilgrims visited Ste. Anne.

Halifax.—Considerable quantities of sweetbread are being shipped from Nova Scotia to the Boston market at the present time. This commodity has found a good market in Boston and shipments to that city average around ten to fifteen thousand pounds a day during the shipping season.

September is becoming a popular month for marriages judging by the number of honeymoon couples leaving from Windsor Street Station, Montreal, recently. On Labor Day no less than 50 couples boarded the Canadian Pacific trains at this depot. The record established for one day, however, was some years ago in June when 70 couples left Windsor Station on one morning.

The new North Channel hotel Quebec will be opened to navigation on June 1 next and continue during the high water season, according to a recent announcement of the Mississauga Navigation Co. The new vessel extends in a straight line from St. John, Isle of Manitoulin, to near the north shore. The work has been underway for the past two years. The minimum depth of water at high tide will be 16 feet. When all the work is done there will be the same minimum at low tide.

"The Little Red Schoolhouse" will be brought on rails to the children living in the remote areas along the Canadian Pacific in Northern Ontario between Sudbury and Chapleau. Fully equipped with desks and teachers' accommodations the railway cars will visit about six points a month. There are about 400 pupils in these areas of the North who suffer disadvantages from the lack of school accommodation. It is expected that eventually the entire zone will be served by travelling schools.

Immigration to Canada in the first six months of 1926 amounted to 98,-253, compared with 44,961 in the same period a year ago, an increase of 53 per cent., according to a statement issued by the Department of Immigration and Colonization. In the period under review British immigration increased from 20,492 to 37,849; immigration from the United States increased from 8,808 to 10,397 and from other countries increased from 14,704 to 23,247. Immigration for the month of June amounted to 18,191, an increase of 10% over June a year ago.

Saint John. — Representatives of Boards of Trade from all over the Dominion will gather here about the end of September or the middle of October for the first annual meeting of the Canadian Board of Trade. All three days are to be devoted to committee work on the larger questions of importance to the country at this time, including cost of government, immigration, taxation problems, preservation of the identity of Canadian grain, industrial research, trade and commerce, domestic and export, and particular attention is to be given to some system of facilitating inter-provincial trade.

Eight Pacific type locomotives, known as the U-2-d class and similar to present designs to the well known Pacific type, have been ordered by the Canadian Pacific Railway. It is understood that the Company are part of an order of 75 of these engines. By a special action of superheater, greater [illegible] delivery has been effected by [illegible] of engine [illegible] With these the same [illegible] class of engine [illegible] report

2:30 p.m. Sunday school at Ketchamont

3:30 p.m. Church service at Ketchamont.

7:30 p.m. Evening service at Tofield.

Mr. H. B. Hall, general secretary of the Alberta Prohibition Association, will be present at all of these services and will deliver an address at each. A very cordial invitation is extended to all to attend.

Come and worship at these services. A very cordial invitation is extended.

KING'S COURSE WILL BE ONE OF GOOD WILL

"Canada's course at the coming imperial conference will be course of good will."

This was the message Premier MacKenzie King sent back to the Dominion as the Magnolia carrying the Canadian delegation to the imperial conference in London passed Bell Isle last night to the open sea. "Good will" said Premier King, "is what I think we should stress above all things when our various problems will not be difficult of solution."

The Premier generally indicated his policy on questions of constitutional development. He feels that a progress of responsible self government should be carried steadily forward, but also considers that danger lies in trying to adopt too rigid rules and formulas.

Premier King holds that as the coming conference is in no sense an imperial cabinet, the work there should not go beyond consideration of general guiding principles. He proposes to take a course which combines full maintenance of British connections on the one hand and adequate recognition of dominion autonomy on the other.

The Premiers attitude with regard to Britain's foreign policy will be that there should be full consultation by the imperial government with the governments of the Dominion on matters fundamentally effective all parts of the empire. At the same time he holds that one foreign policy is a theory that is impracticable as applied to questions affecting either one Dominion alone or Great Britain alone.

The weather so far has been excellent and the Canadian representatives are fully enjoying life aboard the Megantic.

YOU WILL FIND that yourself and family will appreciate the quality and tastiness and all round excellence of our bread. For, while we as the manufacturers, strive to make the perfect loaf, the real test comes at the patrons meal table. Our bread is made to satisfy real hunger and not only to tickle the palate of a dejected appetite. Try some and be convinced.

After Twenty Years

The Province of Alberta is this year celebrating its 21st birthday. Years before the formation of the three provinces in the North West Territories, there were settlers from the east, south and over the seas, carving out their fortunes here. Many have been very successful and now have splendid lands and houses, fitted with modern appliances that makes the westward slope of life easy. Others are now considering the purchase of these things

The KOHLER automatic electric light plant will evoke life brighter and lighter on the farm. With the Kohler installed, press a button and you get light, turn a switch and you get power. It is remarkably well made and thousands of users testify as to its efficiency and economical upkeep. Write or ask for booklet entitled "The Principle and the Proof" describing the Kohler Automatic Electric Light Plant.

The Evolution Of An Empire

The Earth-wanna Empire of Pandemonium by Lee-um is to be governed by the Duke of Connaught and the Duke of Connaught only. The Dominions of the Sunset Empire may have self-government, but they must not have self-determination. The Duke of Connaught is to be the Supreme Ruler of the Empire. The office has rather been created for him. The Duke of Connaught is the most democratic member of the Royal Family. He is a Canadian by birth, a Mason by choice, and a Liberal by instinct. He is the only member of the Royal Family who has ever been a Cabinet Minister. He was Governor-General of Canada from 1911 to 1916, and will soon be a Duke of Sunset Empire. He will be the first Governor-General of the Empire. He will be the first Governor-General of the Empire. He will be the first Governor-General of the Empire. He will be the first Governor-General of the Empire.

KING RADIO

The KING RADIO SET is designed and built to give the buyer the "most radio per dollar". It is not the cheapest set, nor is it the highest priced, but through and through it contains all the essential things that go to make a first class radio set, both in a mechanical and artistic sense.

We are specializing on this model, both excellent buying. One a five tube set that will give excellent results. Uses a set "A" battery and dry "B" battery. Splendid cabinet work. Complete with loud speaker and ready for use

$132.50

The other, a six tube set, uses set "A" battery and dry "B" battery. This is a remarkable good set, with attractive walnut cabinet. Excellent tonal qualities. Price complete with loud speaker and ready to use.

$151.50

Demonstrations gladly given.

SPECIAL—This Westinghouse Radio Set, two tubes, with batteries, aerial and set of ear phones, complete and ready for use, $30.00.

M. C. Hammond

I Am The Most Ignorant Man

When it comes to understanding the principals of radio. I do not even know the very first thing about the mechanism or reproduction, but when it comes to the practical end of operation, the way to use vernier sets, the different conditions of the atmosphere and the causes of the various kinds of interference, etc., I feel that I am experienced, and can tell you a lot of things that may be puzzling you. Every man who has ever listened to one highest priced set has said that without a doubt it is a mile ahead of anything he has ever heard. This is the GRAND CHALLENGE WINNER OF ALL CANADA, and surely that proves it. Spend an extra fifty and get the very best—one that is almost as good in summer as in winter, and which will be the talk of the neighbors for miles, one that will whisper in the sick room and like a big orchestra for a dance and very soon entail no upkeep.

R. W. Pincott

Local and Personal

Mr. H. T. Ward spent part of last week in Edmonton, returning Saturday with friends for the week end.

Mrs. R. W. Pincott and children spent several days last week in Edmonton, visiting her sisters, and returning Monday morning.

Mrs. Norquay of Edmonton visited at the McCauley home last week.

Mrs. Bateson and sister in law, Mrs. Lee and Mrs. Bissett motored to the city one day last week.

Mrs. Carter of Holden visited at the Hay home last week.

A missionary tea was held on Thursday at the home of Mrs. W. G. Swift.

Mrs. Constantine visited at Camrose last week.

Mrs. Mary Easton spent Thursday visiting her mother in Camrose.

Bert Wallis and Bert Swift spent the week end in Edmonton.

Miss Lillian Lee has accepted a position in the Royal Bank at Ryley.

Mr. and Mrs. Smith left Tuesday for town after spending a couple of months on the Bilmon home.

Mr. and Mrs. McLaughlin and family, Miss Lucille Gray and Dr. Morrison motored to the city on Sunday.

Miss Esther Somers is just recovering from scarlet fever.

Mrs. Bert Lovell entertained for Jarrow on Monday morning to spend a couple of weeks with her sister.

Mr. and Mrs. Laurie Scott left for Toronto Monday morning.

Mrs. J. M. Hall, now of Edmonton, returned from California after spending a month around Los Angeles.

Mrs. Simmons is spending a few days in Edmonton.

Mr. and Mrs. Munsey left for Calder, to which place he has been transferred. Mr. Vanlyle of Edmonton is taking Mr. Murray's place here.

Mrs. K. McIntosh returned on Thursday evening after spending a month with her parents in Oregon.

Mr. Bert McIntosh of Biggar is visiting at the McIntosh home.

Mr. and Mrs. Tebow spent Monday at Wetaskiwin.

Miss Buchanan spent the week end in the city.

The Women's Institute held a sale of home cooking at the rooms on Saturday last.

Dr. Bain spent Monday in the city.

The beauty parlor will be closed on Thursday, Wednesday and Thursday of next week.

Born.—To Mr. and Mrs. A. B. Webster, on Monday, October 18th, a son.

Those gentlemen who desire to have their suits cleaned and pressed occasionally, will be pleased to learn that they may now have this done without sending the suit to the city. Mr. Chas. Robinson has equipped himself to take care of this work and will be a trial order is solicited. Town work called for and delivered.

A. R. Evenson, teacher of grades seven and eight at the Tofield public school was taken to Mrs. Grey's, east of town this week. Mr. Evenson is suffering from an attack of the flu, but now he is receiving good care and attention, it is expected he will rapidly recover.

Mrs. Anderson of Edmonton is visiting Mr. Evenson's people here. Mr. Evenson is able to return to his duties.

ANGLICAN HARVEST THANKSGIVING

On Sunday, October 17th, the collection for the harvest festival of the Holy Trinity Anglican Church was suitably decorated with grains, fruit, vegetables and flowers. The communion service held at 11 o'clock was well attended. The Rt. Rev. Isham of Edmonton, officiating. The fruit, flowers and vegetables presented in the church by the various parishioners were distributed later to the sick and other members of the parish.

W.A. NOTES

We are holding a whist drive on Wednesday, the 27th, the proceeds to go towards fixing up our kitchen for winter. The sale of home cooking and tea which are held last Saturday, was well patronized—everything, sold like hot cakes—and we thank all who helped to make this possible. We hope to say the same regarding this coming whist drive. We do not like to solicit funds, but prefer giving value for what we get, so are taking these various ways of raising this necessary money. The Institute building has proven quite a factor in Tofield, as it is a convenient place to hold various functions, and can be rented at a very low figure, with all the necessary equipment in the kitchen, but we must keep it in repair, and leave it to you to say whether we deserve a full house on Wednesday night. Playing will start promptly at 8.30, to give those coming from a distance a chance to get home by midnight. Plenty of lunch, tea or coffee will be served, so come and start with the crowd. Four prizes will also be given. The admission is 25c.

The executive which was elected at the Constituency Convention to indefinitely postpone the conference, which was called for on the 22nd, until the spring at which time the way will be clear to have a good turn out.

CORRECTION

The advertisement of the Bellanca Shave Co., last week was incorrectly headed. Due to an error in the Mercury office, the heading was changed from "Carhartt and Overall Uniforms" to "Quality Goods" making the advertisement vague. However the correct heading appears this week and a perusal of this advt. by men who wear overalls is well worth while.

ANGLICAN SERVICES

Harvest festival services will be held at Ryley at 2.00 p.m. on Oct. 22nd. The Tofield services on that date will be as usual. Morning prayer at 11.00 a.m. and Evensong at 7.30. Rev. A. Adams will conduct the services.

THE POULTRY POOL

After having lived among them for twenty years, it is only reasonable to assume that the editor is fully in sympathy with the effort of farmers and farmers' wives to better their condition.

At the time of writing this note we are confronted with a communication extolling the virtues of a look published in the interests of the poultry pool and the poultry pool itself. The communication is a very plain and also very good advertisement for an organization formed to increase the financial condition of its members, and because of this, it possesses the same relationship to a newspaper as any of the other poultry dealers.

The Mercury has no political or association ties whatsoever and its only advice of profitable revenue is the advertising columns. It would be just as logical for farmers to give away a couple of sure Christmas turkeys as it would be for the editor to publish the communication free.

This is not written in a spirit of condemnation, because we fully realize that the best farmers are all advertising every day. Neither is the article written in the interest of other poultry firms as the firm making the big boast about poultry at present has no other interest in Edmonton except being Tofield poultry, displayed all over town, even on the post office billboard, where they have no right to place them, at the same time passing up the Mercury's columns.

Rather, this little note is written in the spirit of fairness.

MR. HILL AT TOFIELD

Mr. Hall, well known prohibition worker of Edmonton paid a visit to Tofield over the week end. He spoke at the Sunday school at the United church and at the services at Kelsbasmont and Tofield. He also spoke at the public school on Monday. The prohibition drive is now engaged upon an educational campaign, in an endeavour to educate the young people of the province against the use of alcohol.

Two gallons PEP gasoline Free. Enquire early in the week at your filling station.

NEWS OF OUR NEIGHBORS

LINDBROOK

Congratulations to Mr. and Mrs. Normen Ellis on the birth of a daughter at their residence at Hastings Lake. Both mother and babe are doing well.

Miss Grace Lepine underwent an operation for appendicitis at the Camrose hospital last week. Mrs. Lepine was taken to Camrose by Mr. Glass in his car, but returned later and reports the operation a success and Miss Lepine progressing favorably.

A Los Angeles auto tripped over near J. Bailey's place last week. No one was hurt. Probably the driver forgot he was an Alberta roads and not Californian ones, and oh, the irony of it! That it should occur near the "road boss's" house.

A mixed car of cattle was shipped from here last week.

Mr. Ernest Hooper and Mr. D. Hooper and Mr. and Mrs. R. Richards all of Edmonton, spent the week end with relatives here.

Messrs. A. J. Brown and E. Hemsley of Edmonton were down here on a shooting trip and secured a pretty fair bag around this region.

Threshing is proceeding at full blast here now; some yields are good and others the reverse, seems to be no medium.

Mr. J. Leahy took Mr. W. Paskins up to Edmonton last week to enter a hospital for treatment.

A party of Mr. Paskin's neighbors organized a "shucking bee" and put up what was left of his hay and crop.

KINGMAN

A number of Kingmanites attended the Elks carnival in Camrose last week.

Mr. and Mrs. Carl Larsen and Mr. and Mrs. Thor Grahn invited a number of friends for a game of whist on Friday night. A good time was had.

Born.—To Mr. and Mrs. Roy Melvill, on October 13th, a son. Congratulations.

Mr. and Mrs. Ed Nelson and Miss Hazel Nelson who have been the guests of Mr. and Mrs. Thos. Welch for a couple of months left for their home in Michigan on Monday. Miss LaVerne Welch also accompanied them.

You bet Wm. Alberta go the weather!

About another ten days will finish the threshing in the district. The yield per acre is very satisfactory although most of the grain grades tough.

Messrs. Otto and Oscar Grahn of Hay Lakes were Kingmen visitors on Friday evening.

KETCHAMOOT

Threshing operations were held up again on Saturday, after a week of pretty steady going. The weather is very favorable again, and all machines expect to be on the hum again by Monday afternoon.

Mr. Carter of Holden assisted Mr. Fawcett seeking for threshers the first of the week.

Mr. Thos. Noland of Lakeshore spent a few days last week with her daughter, Mr. Rasbaugh.

Mr. and Mrs. Hay and daughter, Dorothy, were guests of the Owen home on Sunday.

Mr. and Mrs. J. H. Ingram paid a visit to Lamont on Sunday to make the acquaintance of their new grandson, son of Mr. and Mrs. T. B. Ferguson.

Mr. and Mrs. Hay and Mrs. G. R. Owen called on Mr. Joe Sutton on Tuesday afternoon.

LAKESHORE

Born.—To Mr and Mrs. T. B. Ferguson, at Lamont hospital, on Thursday, October 14th, a son, (both mother and child are doing well.

BARNE

There was quite an excitement on Wednesday afternoon when the barn on the Johnson farm suddenly burst into flames and in a few moments was burned to the ground. There was little wind so the other buildings were saved. Mr. Jacobson saved the two horses that were in the barn but two calves, his saddle and harness were burned.

Madsen Bender has the last crop of oats we have heard of. They went 90 bus. to the acre, machine measure.

Mr. McLennon, official baseball umpire of Edmonton is working for Clarence Rodd.

Mrs. Nora Staedler entertained the Kara Yoder, John Yoder, J. King and Joe Brenner families on Sunday.

The F. Lewis, P. Larbalme, H. Brenneman, C. Whitlane and W. E. Parker families visited with Karl Hulis and wife in the F. K. Hulis home on Sunday.

Threshing machines in the Grande Cache district were able to continue threshing on Saturday when those farther north were obliged to stop if there was any rainfall there on Friday's gale.

Mrs. Arnold Bisen returned last week from Wainwright where she has been visiting some days.

Ira Yoder fainted visited Mrs. Jimmy Yoder on Saturday evening, the occasion being her birthday.

On Sunday morning Irene Rodd came home from Edmonton where she spent last week. Miss Nora will remain in Edmonton for some time.

AMISK CREEK

The weather has been fairly good the last couple of weeks and threshing has been going on very steadily, the most of it was of the kind that went around here.

Mrs. G. Lagergreen from Edmonton came down to help her mother during threshing. Nine men supplied with Fawcett and visited with her mother, Mr. Brose, at the Amisko home across the road to the city.

Mrs. H. G. Berg paid a visit on the sick list the last few days. We hope for a speedy recovery.

Gerrald Flaaten is tuning in on a new set table radio.

The Amisko Fawcett were visitors at the Flaaten home last Sunday.

Mr. and Mrs. Griffin sr., and Mr. Griffin jr., from Holden and Mr. Johnson from Viking were callers at the A. Petterson home last Sunday.

Mr. and Mrs. S. Nose entertained several young people last Sunday in honor of their eldest son, Alvin, celebrating his seventeenth birthday. Those present were, Bong and Anne Berg, Margret and Ingrid Nose from Bardo, G. Brusse, Gerrald Flaaten and Arnold Berg. They all report having a good time.

Clara Amsbo visited with Mabel Anderson last Sunday.

Mr and Mrs N Sand and daughter from Ryley visited at the Flaaten home last Sunday evening.

Robert C. Berg pulled some wah ha threshing machine last Monday.

Mr. J. R. Murray and her mother Mr. Hawley were callers at the A. M. Warner home one afternoon last week.

Donald Booth of Quebec is visiting his uncle and aunt, Mr. and Mrs. A. Booth at the district.

The Lakeshore Ladies' Aid will meet at the home of Mrs. Moon on Wednesday, October 20th, when a pitch pot social is to be held.

Mr. Elmo Ferguson has been on the sick list for past few days but is improving.

A box social and dance will be staged in the Community Hall on Friday evening. Hy. Hall says plenty sacks are being requisitioned it is going to be a real hard time affair

To the BRITISH ISLES at MODERATE COST

The Calan Class Canadian Service steamer is a post-war product designed to give maximum comfort at minimum cost.

Should you travel Calan Class you are assured of accommodation and service equal in every way to the Pre-War First Class at a much reduced rate — if Third Class, you will travel in absolute contrast with congenial companions and you will find the accommodation ample and the service thorough.

A trip to the British Isles, sailing from Montreal in the Autumn when the Summer tourist rush is over has a charm and allure you will find irresistible.

The Opportune Moment For Immigration Effort

By C. W. Peterson

It is clear as daylight that the psychological moment for a shilling to launch a comprehensive colonization campaign is when her agriculture is definitely entered the upward swing Western History and the circumstance of those who have been ill-fitted to cope with colonization work seem great as remarkably to the fact that failure of the land is the greatest obstacle to the efforts of the various agencies devoting time and money to facilitating immigration into Canada. It is also a very serious fact that in our settlement we emphasize unduly certain things and overlook others equally important. Immigrants come from both rural and urban districts, and we must have settlement schemes for both.

FOR SALE.—A No. 10 Remington Typewriter in perfect condition. Used, lightly for only 6 months. $75.00.—Apply to W. B. Ford, at Cyrus Lumber Co., Tofield. 43

FOUND.—On or about September 28, a set of single driving harness, lines and bridle. Found between Beerbiz's corner and Ingerman School. Owner can have same by proving property and paying for this advt.—Alex Kellner, Tofield. 4tp

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government of Alberta, Edmonton.

October 16, 1926

Wheat Pool Final Payment

Alberta members of the wheat pool have been paid their final payment during the past week. This brings the total payment to them on the 1925 wheat crop to $1.42½ cents, basis Vancouver, allowing for all deductions for pool purposes. The Alberta pool handled more than 45,000,000 bushels of the 1925 crop, compared with 28,000,000 bushels of the 1924 crop.

Homestead Areas Filed On

Nearly 300,000 acres of homestead land have been taken up by new settlers on the dominion lands area covered by the Edmonton agency in the nine months since the beginning of the year. The total filings were 1,280, including soldiers' grants, as compared with 741 filings for the same period in the preceding year.

Completing Grassfied Highways

A completed grassfied highway from Edmonton to the International boundary by the end of 1927 is a possibility, according to the progress of the provincial highway department. The completion of the grassfied highway from Edmonton to Calgary will be carried out next summer, and the completion of the road south from Calgary to the boundary, some of which has already been travelled will be made next year too, if possible.

Summer Fish Catch Good

The summer fish catch on Lesser Slave Lake, was good according to R. T. Redd, dominion fisheries inspector at Edmonton, who states that more than 650,000 lbs. of white fish were taken out of the lake, with 400,511 lbs of pickerel, 192,062 lbs. of pike and smaller quantities of other fish.

School Fairs in Alberta

More school fairs will be held in Alberta next year, it was announced at a conference of government officials, fair directors and agricultural school principals, which was held in the parliament buildings on Thursday. The plans is to be developed and enlarged considerably, and it is expected that 140 events will be on the list for 1927, an increase of 10 over the present number. Great success has marked the school fairs this year, it was reported, notwithstanding the fact that bad weather kept down the attendance somewhat.

Big Oil Interests Here

Officials and stockholders in International Oils of Delaware, and its Canadian subsidiary, International Oils of Alberta Limited, which owns 24,000 acres of oil leases on the eastern shores of Lesser Slave Lake, where their well No. 1 is now down over 1,100 feet, are making a personal visit to the property.

The party is headed by Frank S. Ross, New York Financial man, who is president of International Oils of Alberta, Limited, and includes Frank S. Craig of New York, recently appointed president of International Oils Limited of Delaware.

Good Price for Land

Erwin Harris sold a fifty acre strip of land in section 24 south of Macrath, Alberta, to Bert Pace for fifty dollars per acre this week. The land is unimproved and in good shape for crop next spring. This land was purchased by Harris three years ago for $25 per acre and has paid for itself twice over almost in that time

Big Mortgage Bill Now Is Confusion

More than 100 financial men from across Canada, representing financial assets of more than two billions of dollars, met recently in Edmonton at a convention, this being the tenth annual meeting of the Dominion Mortgage and Investments Association.

Alberta's Sale of Bonds

Sale of $6,000,000 worth of Alberta bonds to a New York firm was consummated recently by Premier Brownlee and Provincial Treasurer, R. G. Reid, at a price of 98.25 yielding interest rate of 4.965% percent, which according to the present condition of the bond market, seemed to be an exceptionally good price.

More British Boys Coming

So successful has been the plan of sending British boys in the agricultural schools of the province, initiated by Hon. Geo. Hoadley, that most of them are coming this year, it is expected that between 60 and 75 of 17 years will be distributed among the three agricultural schools at Olds, Claresholm and Raymond this year. Twelve of these boys are now on the way, and the balance will follow shortly. The responsibility for the placing of these boys on farms following their first four months' training will be taken over by the Dominion Government next spring, this having been hitherto by the Provincial Government. The boys come to Canada under the assisted passage scheme of the British Government, and the province of Alberta co-operates with the schools of agriculture. In addition to their training the coming term, the Provincial Government is arranging to have the boys spend each week on farms in the vicinity of the schools during their course of training.

Many Pupils for Agricultural Schools

More than 500 students for the agricultural schools of the province are now in sight, including the British boys who will go into training here this coming winter. The schools open at the end of October, and Raymond school, which has been closed for some years, will re-open this fall also.

"ALL BLACKS" PLEASED WITH NATIONAL SERVICE

When the New Zealand Rugby Football team, which is known as the "All Blacks", crossed Canada on their way to play a series of games and test matches against the best clubs of England and Wales, they chose the Canadian National Railways as their route across the Dominion. Their manager, with the splendid service furnished for all travellers on the Canadian National trains, expressed in the following letter written on behalf of the members of the "All-Blacks" to C. H. Pender, General manager of the system:

"May we take this opportunity of placing on record our sincere appreciation of the wonderful service experienced by the members of the New Zealand 'All Black' Rugby League football team that recently passed through the province of crossing Canada on the railways of your railways.

"We wholeheartedly compliment you on your transportation facilities and shall always remember you to recommend it to all our friends in New Zealand as one of the best that the Canadian National Railways stands for service, efficiency and personal attention on the part of all the officials.

"Again thanking you for all the favors you have done for us and extending greetings on behalf of New Zealand."

KILLING THE UNPROFITABLE LAYERS

(Experimental Farms Note)

As the title of this article suggests, culling will be concerned only in so far as unprofitable layers are considered. The value of this system as a means towards flock improvement is generally being appreciated by the poultry farmers, the severity with which he applies the production or prospective test to the brains of livestock is, however, greatly modified when considering poultry. Proper culling will reduce the cost of production; more eggs per bird will also be obtained and as each return received for the birds sold for meat. By culling the flock there is more space available for the birds that are laying and there is a greater opportunity for them to get higher with the feed. The best layers are also retained and the likelihood of undesirable birds being placed in the breeding pens the following spring is reduced.

Culling may be commenced as early as July and be continued, with profit, until September. When a decrease in production occurs in July, each member of the flock should be carefully handled and those responsible for the reduction eliminated. From September onward, moulting will compel a halt in culling operations, but by this time the least profitable layers will have been removed.

A production record obtained by the use of the trap nest is the best evidence of a bird's laying capacity. The hen that has stopped laying, however, exhibits some specific, recognized, and easily distinguishable peculiarities. Her vent shrivels up, assumes a dull color and becomes dry. It is no longer moist as when she is laying, and the skin in the region of the vent becomes dry and hard. The degree of pigmentation in legs, beak and skin is also an index of a nest frequenting bird. Breeds highly pigmented in these parts—as Leghorns, Barred Plymouth Rocks, Wyandottes and Rhode Island Reds—show a loss of this pigment towards the end of summer after heavy laying. The return of the pigment to all of these parts requires as long as three months to be complete, so that the importance of attending methodically to the practice of culling is, therefore, very important, particularly from the standpoint of feed economy, ed.

Culling should embrace the relieval of the birds showing lack of vigor, low vitality or other serious defects. By eliminating such individuals, the general health of the flock is not endangered, for, with many poultry diseases, an ounce of prevention is better than a ton of cure.

WATER FOR TOFIELD

FROM THE very first days of settlement here, and the building and incorporation of the Town of Tofield, the need for good water has been apparent. It seems that nature was in an ironical mood when she bestowed favors upon this immediate district, as with a lake 17 miles around within piping distance from the town, the water in the lake is not sufficiently good to warrant the effort and outlay of piping. There are several "best waters" in town, but there is none of the water that is really first-class. Not that it is particularly harmful, residents drink Tofield water for years and new comers soon become accustomed to it, but the fact remains that a supply of better water would be heartily welcomed.

There has, from time to time, been various suggestions made as to the best way of providing Tofield with good water, and some few years ago, R. W. Pincott offered a cash prize for the best suggestion made. The suggestion winning the prize was to the effect that the water be procured from one of the mines south of town, a reservoir constructed there and gravity could bring it to town.

At different times the suggestion has been made that water be piped from Hasting's Lake a distance of about nine miles. This, while no doubt, quite feasible is out of the question so far as the Town of Tofield is concerned. The cost to the town would be absolutely prohibitive.

The Canadian National Railway is also effected by the water question, and due to this fact, Tofield may at some future date have a good supply of water. It appears that for greatest efficiency there are certain geographical points on a railroad where water should be obtained, and Tofield is one of these points. There were recently some efficiency experts here looking over the system and it was either brought to their attention or observed by them, that water could be piped from Hastings Lake. The water at Tofield does not suit the railroad's purpose and the supply is doubtful. A supply of good water for the railroad at this point would be of great benefit to them and to some extent reduce operating costs. It is extraordinary reasonable to assume that the railroad would pipe water nine miles, when the lake from which it is procured lies near the track, because nine miles of piping with the necessary controls would cost a large sum of money.

There is, however, this aspect of the question. This is the Canadian National main line from coast to coast. The finest trains of Canada run over it. Efficiency is the watchword and minutes are precious. If through water troubles this section proves to be a weak link in the chain of an otherwise perfect transportation line, the idea of the railroad piping water to Tofield does not seem so unreasonable after all. For while the amount of money required would be large, it would assume small proportions when placed alongside the money invested in the system from which full efficiency was required. Extra stops and starts cause a loss of time and money, a loss that occurs every time a train passes through.

It is, of course, a matter entirely in the hands of the railroad management and any desires of the town will have little weight in their consideration of the matter. It would, however, be a very good thing for the town council or some other responsible body to find out all there is to know and to keep in close touch with developments as they proceed.

Here and There

The recently organized egg and poultry pool in Saskatchewan has 17,000 members. Egg production in that province is 28,827,263 dozen yearly. Saskatchewan is now the second largest poultry producing province in Canada, Ontario being first.

St. Catharines—The North American cereal championship has been awarded to James Little of this city by the American Vegetable Growers' Association, convening in Cleveland. The high quality of Canadian grains has long been recognized and this new triumph is expected to further stimulate production.

The Australian Cricket Team, heroes of last summer's ashes series in England this summer, arrived in Canada on the Canadian Pacific liner Montrose, October 8th. After trailing some of the principal cities in Canada and the United States, the team proceeded to Vancouver where it is united on the 21st inst. for the homeward journey to Australia, October 23rd.

For the third year in succession the McAdam Junior Flat Old Track from New Brunswick carried off the "Grand Challenge Trophy," emblematic of the eastern home final championship of the Canadian Pacific Railway. The competition was held recently at the Place Viger Hotel in Montreal, four other teams from points east of Fort William competing.

The oldest employee of the Canadian Pacific Railway in point of service, Peter Learmont Ogden, vice-president in charge of finance, celebrated his 92nd birthday October 10th. He has served the Company for 44 years and his business experience goes back to the Civil War days. Mr Ogden was the recipient of felicitations from all parts of the Dominion.

General Booth, head of the Salvation Army, sailed recently from Vancouver on the Canadian Pacific liner Empress of Canada for Japan. The General will tour Japan, China and Korea. True to his maxim of not touching food for ten days previous to a sea voyage, the General contented himself with sipping a little hot water while attending to his correspondence and waiting for the liner to sail.

Toronto—The New York Times is about to invest $3,500,000 in northern Ontario for the production of all of its newsprint—about 350 tons a day. The announcement of this project was made by the secretary of the president, Adolf Ochs, during the sojourn of both in this city. The area selected for the paper plant is at Kapuskasing where there is already a small sulphite mill in operation. The water power, 75,000 h.p., will be generated from Smoky Falls.

Thirty students from Oxford and Wye Agricultural Colleges, Kent, England, returned home on the Canadian Pacific liner Montclare recently after having assisted in the harvesting of the Saskatchewan crops. These young men were brought out to the Dominion by the Department of Colonization and Development of the Canadian Pacific Railway, and placed on selected Saskatchewan farms by the Women's British Immigration League. The students are resuming their studies in England this fall.

G. Walter Booth, Prosecuting Attorney for the State of Ohio, is an honorary member in the Immigration Department of the Canadian Pacific Railway at Montreal recently, stated that American tourists were observing Canadian hunting grounds in place of those in the United States practically without exception Americans, he said, were taking one hundred per cent interest in Canadian game recently. Mr. Booth is at present in Canada on his annual duck hunt near Winnipeg, and also a big game trip in north-western Quebec.

A Small Ad Will Turn Used Articles Into Money.

Reliable Batteries

The cool mornings makes it necessary that the battery in your car be in perfect order. A cold engine requires considerable motive power to start it and unless your battery is "strong and healthy" vexatious delays are likely to result. We stock and sell the WILLARD car battery and radio wet batteries (all sizes). There is no better battery made. We also rebuild and repair wet batteries. We stock and sell the Everready dry battery.

After Twenty Years

The Province of Alberta is this year celebrating its 21st birthday. Years before the formation of the three provinces from the North West Territories, there were settlers from the east, south and over the pass, carving out their fortunes here. Many have been very successful and now have splendid lands and houses, fitted with modern appliances that make the westward slope of life easy. Others are now considering the purchase of these things.
The DOHLER electric electric light plant will make life brighter and lighter on the farm. With the Kohler installed, per a 5 station and you get light, turn a switch and you get power. It is remarkably well made and thousands of users testify as to its efficiency and economical upkeep. Write or ask for booklet entitled "The Farmyde and the Pl of" describing the Kohler Automatic Electric Light Plant.
The Mercury

CANADA'S NEW GOVERNOR-GENERAL ARRIVES

1—Cyrano sketch of Viscount Willingdon, as drawn on board Empress of Scotland, in which he is returning, on his return to Canada. 2—Cyrano sketch of Governor-General's wife, Viscountess Willingdon, as drawn on board Empress of Scotland, in which she is returning, on her return to Canada. 3—Windy Street, Lewis Inside, belong on to Their Excellencies which got out biggest producer of Canada, Empress of Scotland, in which they are returning, on their return to Canada. 4—Mona, one of Canada's most famous cows, which is now on a road tour of Canada, showing the best of Canadian dairy cattle. 5—Canadian Pacific Empress of Scotland nearly carried Vice-Admiral Lord Jellicoe to Canada

Their Excellencies Viscount and Viscountess Willingdon made many friends on their voyage from Quebec on board the Canadian Pacific flagship Empress of Scotland, when Her Excellency went down to meet her husband, the Governor-General of the Dominion. They paid visits to all parts of the vessel chatting with new arrivals for Canada and presenting at the various functions that take place aboard ship during an ocean voyage. Sharing their popularity was Mrs. Caven Ferrier Mack. She was friends with everyone during the voyage, and refused to hide an illness though her daughter Joyce is dangerously ill.

Lord Willingdon, Governor-General had a fine reception when the ship docked at Quebec. He spoke a few words which he told his French audience he too could claim descent from the Normans and that French blood flowed in his veins equally as in theirs. "In this country," he said, "the descendants of our two races have worked for many years under the British Crown for a common purpose and object, namely, to build up a united and prosperous country."

Lord Willingdon, who is a keen sportsman and lover of the outdoors, has already made plans for a visit to the Canadian Rockies next summer. He has been asked to visit Canada by the Canadian Government, and has accepted the invitation. He will be accompanied by Lady Willingdon and their daughter, Miss Dorothy Willingdon.

"I wonder if I may venture to tell our new friends in Canada how much we enjoyed our voyage in the Empress of Scotland," said Lady Willingdon. "We shall not forget the kindness and courtesy of the officers and crew, and the delightful weather we had all the way. I am sure that all who go in the Empress of Scotland will have happiness they can possibly expect in this world, and I hope that one and all to give an extra cheer for the Empress of Scotland when they see her, and to wish her success in the very great responsibilities for the British Empire in the great Dominion of Canada."

That is the true democratic note, sounded with readiness and feeling and sense of an unreserved response throughout the length and breadth of Canada.

FINAL CROP PAYMENT TO BE MADE BY POOL

Winnipeg - A total of $3,826,000, representing a final payment of five cents per bushel on the 1925-26 crop, will be paid to farmers in Alberta, Saskatchewan and Manitoba, Thomas Sales, K.C., secretary of the Canadian Wheat Pool, announced following a meeting of the provincial selling agency at the Winnipeg offices.

The dollar per bushel was the initial payment made for the 1925-26 crop year, and this was followed by an additional fifty cents per bushel and another twenty-five cents, making with the five cents now given, a total payment of $1.80.

J. S. McPhail, president of the pool, said he felt very much pleased at the feeling of optimism.

"The final wheat pool payment for the 1925-26 crop year is being made from the main provincial offices. The average initial selling price for the year on our Northern wheat, basis No. 1 Fort William, after making charges and adding trading profits, was $1.15 per bushel.

"A total of 84,000 cars of wheat was delivered from the various offices for disposal by the pool during the crop year.

"Individual additional payments to the amount mentioned have been made to the pool's contributors, and the final payment will be made in the near future."

The offices of the board were formally closed at Midnight on Saturday, but a skeleton staff will remain in charge of the Winnipeg and Edmonton offices for a few days to complete the work of the pool.

Stay Of Execution

Russell Scott Is Again Saved From The Gallows

Chelsea, Pa.—Forty-eight hours before the time set for his return hah up for the third time on 12 months, the hangman of Blackwell for the murder of Joseph Mastrey in a drug store holdup was stayed.

The stay, which in effect will delay the execution of Scott for a year, was granted by Judge Ellis Ross Gest in Orphans' court here.

Scott, who is a cripple, escaped the gallows in 1924 by commuting his sentence to life imprisonment. He was convicted a second time in 1925 and sentenced to die in the week of March 28, but was granted a new trial.

May Take Dispute To Higher Court

Alberta Act Fight May Go to Privy Council

Winnipeg—The question as to whether the province can proceed with the appeal to the privy council in regard to the constitutionality of the Alberta Bank Taxation Act in spite of the fact that the bank has withdrawn its appeal to the privy council, will be decided by the full court of appeal of Manitoba, it was announced here today.

The case, known as the Toronto General Trusts Corporation et al vs. the City of Calgary et al, was argued before the court of appeal here on January 4 last, and judgment was reserved. The case, however, will not come up before the full court of appeal until the first week in February.

Farmers See Our Ad On This Page This Week.--Carver and Hannan.

INNISFREE FARMER TO SEEK IMMIGRANTS FROM SWEDEN

In an effort to induce farmers of drouse on agricultural Alberta and the better class to migrate to Canada, explain conditions to intending settJohn Gordon, one of the most prominent farmers of the Innisfree district, "I have no special mission of settwill know about the middle of Novem- there in mind," said Mr. Gordon, "if ber as a special representative of the I see anything worth while I will let rail ways that prevails 10,000 to come out as Canadian National Railways. I don't- much the better, but even if only a few hundreds come the first year, I am sure they will be so pleased they will write home and be the means of bringing others out."

Mr. Gordon who came to this country from Sweden 26 years ago, owns 320 acres near Innisfree, $10 of which are broken. With other land under cultivation he had 800 acres under crop this year with an average yield of 35 bushels an acre. His threshing is estimates will be completed Thursday. Most of the wheat is grading No. 3.

Cattle and hog raising have been very profitable for farmers this year.

GOLD RUSH TO NEW MANITOBA GOLD FIELD

Winnipeg, Oct. 20.—The Free Press says: The following is its news culled from today's . . .

"Another gold field appears on the verge of being opened up.

"A rush of prospectors is reported in progress to Lake Savant following the discovery of several gold finds in the . . . and within the last few days at least 1,000 prospectors have arrived at Bucke station, whence entry is made to the gold field by water route. Bucke is located on the Canadian National Transcontinental line, some 300 miles east of Winnipeg. While this places the new gold field some 70 miles farther east than the Hudson, the close proximity of the prospecting area to the railway would appear to give the Lake Savant area a slight edge, so far as attracting prospectors and capital is concerned. Some time ago reports of a rich find on the Crawford Plains caused something of a stir, and shortly thereafter a party of New Liskeard prospectors made a strike which is said to border on the sensational. The finds are located at Lake Savant, which lies about 30 miles north of Bucke."

Local and Personal

The Anglican W.A. will meet at the home of Mrs. McCarthy on Wednesday, November 3rd, at the usual time.

Mrs. Lorbiecke left for Iowa for an extended visit among relatives and friends, this week.

Mr. Al Simmons, swing operator, is on a two week's vacation. Mr. Massey is taking his place.

Mrs. Jobb, Gordon, Mrs. McClurg and Mrs. McCauley motored to Edmonton one day last week.

Mr. and Mrs. McLaughlin motored to the city one day last week.

Mr. and Mrs. John Lee and Clifford motored to the city on Saturday.

Miss Audrey Jobb was home over the week end.

Miss Alma Schroeder visited at the Jobb home last week.

Mr. Constantine and Mr. Burt Calvert are serving on the jury in Edmonton.

Mr. and Mrs. Clutterham and family motored to Wasetenaw on Sunday.

Mrs. Bissett and brother are spending a few days at Alix.

Mr. and Mrs. Ramsay of Edmonton visited at the McLaughlin home on Sunday.

Mr. and Mrs. Hannan, Mrs. Carver and Miss Napier motored to the city last week.

Mr. and Mrs. Booth and family, Mr. and Mrs. E. Ferguson, and Mr. Bert Swift motored to Elk Island Park last Sunday.

Friends of the Rev. Nugent Wilson will be pleased to hear that he is well and in charge of a parish in England. Writing to the Mercury and renewing his subscription, Mr. Wilson states he is looking forward to his return to Alberta some time in the future and wishes his friends here the best of success.

A very enjoyable Hallowe'e dance was held at the Variety on Monday night. The hall was gaily bedecked with decorations suitable to the occasion and the orchestra from the city rendered delightful harmony.

A meeting of the building committee of the Curling Club was held last Friday and the construction of the proposed new rink discussed. It was decided to postpone actual building until next summer, but the work of levelling up the site and preparing for building operations would be proceeded with. In the mean time various schemes for raising money would be entertained.

An unfortunate and painful accident befell little Margaret Whyte while playing at school last week. With a number of her playmates Margaret was playing pose pom pull away and falling, broke the small bone of her arm near the elbow. Dr. Lawlor set the injury where an X-ray photograph was taken, and she is now recuperating well, we trust.

Something out of the ordinary in moving pictures is coming to the Variety on Tuesday night of next week, "Abraham Lincoln" a picture that has drawn highest praise wherever shown, will be presented here. Those desiring personal insight into the life of this great man, should not fail to see this picture.

Attention is directed to M. C. Hammond's Pep guarantee ad on the inside cover. This week, whereby every person is going to have some role of free riding.

For a limited period the circulation of Pep gasoline are giving away, one quart in gals of Pep gasoline to . . .

When car owner . . . gives a fill . . . and purchases a quart of Pep gasoline, the pump will [illegible] ten on a ticket and the ticket drawn [illegible] a hat.

Each Tuesday night the boxes will be collected from all dealers and tickets brought to the Mercury Office and thoroughly shuffled, where the editor of the Mercury will withdraw one ticket. The party's name appearing on this ticket will then be entitled to 10 gals of Pep gasoline free. Announcement of the lucky person's name will be made in the current week's issue of the Mercury.

---

10 GALS. PEP GASOLINE FREE

OBITUARY

The Mary Ann Ferguson, aged 83 years, died at the home of my daughter, Mrs. R. D. Scott, North of Tofield, on Thursday, October 21st, 1928.

The late Mrs. Ferguson was a resident of Tofield district for 21 years, and was highly respected by all.

Her remains relative in the district are her daughter, Mrs. Scott, her son William and her grandsons, T. B. Scott, William Scott and Harlon Scott.

The funeral service was conducted by Rev. R. Gow, Watt, B.D., pastor of the United Church on Saturday, October 23rd, from teh home to the Tofield cemetery where the burial service was read in the presence of a long company of friends and relatives.

LAKESHORE

Born.—To Mr. and Mrs. Lester Noland on Friday, October 22, a daughter.

Mr. Earl Ferguson motored from Ryley on Sunday and visited his sister, Mrs. A. H. Booth and family.

Mrs. T. B. Ferguson and infant son, Gerald Thomas, came home from Lamont hospital on Saturday.

Mrs. T. E. Murray, Mrs. A. M. Booth and Mrs. R. C. Phillips spent Tuesday afternoon with Mrs. Frank Hall of Ketchamstead.

Mrs. Mildred Harriman and little daughter Laura are spending a few days visiting friends in Edmonton.

Mrs. M. Garret, from Fort Saskatchewan was a visitor at the R. C. Phillips home last week.

Mr. and Mrs. C. W. Piper spent Sunday afternoon with Mr. and Mrs. T. W. Ferguson.

Mrs. W. Mitchell of Ketchamstead was a caller on Tuesday at the J. B. Warne. T. W. Ferguson and L. Noland's were of this district.

U.F.W.A. NOTES

There was a good attendance at the meeting on October 22nd. This being the first meeting we celebrated the occasion by inviting the U.F.A. local to a social, which the, did good justice to.

Mr. P. Lee gave an excellent paper on "The National Resources of Alberta," an extensive subject which was well handled.

Members will be notified of the final arrangements of the banquet shortly.

The new officers for the following year are as follows:

President: Mrs. Johnston Ferguson.
Vice-President, Mrs. C. Baptiste; Secretary, Mrs. R. C. Phillips.
Directors: Mesdames Parker, Booth, Gray, Soule and Barnes.

The next meeting will be held on November 13th at 2 p.m. The roll call to be answered by "Something to be thankful for." And a paper will be given by Mrs. Parker on "The origin and the manner of celebrating the first Thanksgiving day."

MAGIC AND VALDEVILLE SHOW COMING TO VARIETY THEATRE TOFIELD

Bert Johnston's magic and vaudeville company under the management of Joe Morlan, booked through Mark's Bros., who have toured Canada and the United States for years, have made arrangements with Mr. Bellamy of the Variety Theatre, Tofield, for three appearances here for three nights, Thursday, Friday and Saturday, October 25th, 26th, 27th. This company played eight consecutive weeks in Winnipeg and two weeks in Regina, and have played all the important towns between Toronto and North Battleford. There will be a change of magic and vaudeville each night. Mr. Johnston's part of the program consists of magic, mentalmystery and art. The company numbers seven people and the vaudeville bills is put on nightly, including packing box, trunk, handcuffs, and straight jacket escapes. As a magician, Bert Johnston stands in a class by himself, and is the most outstanding of modern magicians. The illusions, etc., by the company will need you home to order to how it can be done for such a low price. Company's own orchestra in attendance.

The Mary Ann Ferguson, aged 83 years, died at the home of my daughter, Mrs. R. D. Scott, North of Tofield, on Thursday, October 21st, 1928.

The late Mrs. Ferguson was a resident of Tofield district for 21 years, and was highly respected by all.

Her remains relative in the district are her daughter, Mrs. Scott, her son William and her grandsons, T. B. Scott, William Scott and Harlon Scott.

The funeral service was conducted by Rev. R. Gow, Watt, B.D., pastor of the United Church on Saturday, October 23rd, from teh home to the Tofield cemetery where the burial service was read in the presence of a long company of friends and relatives.

LAKESHORE

Born.—To Mr. and Mrs. Lester Noland on Friday, October 22, a daughter.

Mr. Earl Ferguson motored from Ryley on Sunday and visited his sister, Mrs. A. H. Booth and family.

Mrs. T. B. Ferguson and infant son, Gerald Thomas, came home from Lamont hospital on Saturday.

Mrs. T. E. Murray, Mrs. A. M. Booth and Mrs. R. C. Phillips spent Tuesday afternoon with Mrs. Frank Hall of Ketchamstead.

Mrs. Mildred Harriman and little daughter Laura are spending a few days visiting friends in Edmonton.

Mrs. M. Garret, from Fort Saskatchewan was a visitor at the R. C. Phillips home last week.

Mr. and Mrs. C. W. Piper spent Sunday afternoon with Mr. and Mrs. T. W. Ferguson.

Mrs. W. Mitchell of Ketchamstead was a caller on Tuesday at the J. B. Warne. T. W. Ferguson and L. Noland's were of this district.

U.F.W.A. NOTES

There was a good attendance at the meeting on October 22nd. This being the first meeting we celebrated the occasion by inviting the U.F.A. local to a social, which the, did good justice to.

Mr. P. Lee gave an excellent paper on "The National Resources of Alberta," an extensive subject which was well handled.

Members will be notified of the final arrangements of the banquet shortly.

The new officers for the following year are as follows:

President: Mrs. Johnston Ferguson.
Vice-President, Mrs. C. Baptiste; Secretary, Mrs. R. C. Phillips.
Directors: Mesdames Parker, Booth, Gray, Soule and Barnes.

The next meeting will be held on November 13th at 2 p.m. The roll call to be answered by "Something to be thankful for." And a paper will be given by Mrs. Parker on "The origin and the manner of celebrating the first Thanksgiving day."

MAGIC AND VALDEVILLE SHOW COMING TO VARIETY THEATRE TOFIELD

Bert Johnston's magic and vaudeville company under the management of Joe Morlan, booked through Mark's Bros., who have toured Canada and the United States for years, have made arrangements with Mr. Bellamy of the Variety Theatre, Tofield, for three appearances here for three nights, Thursday, Friday and Saturday, October 25th, 26th, 27th. This company played eight consecutive weeks in Winnipeg and two weeks in Regina, and have played all the important towns between Toronto and North Battleford. There will be a change of magic and vaudeville each night. Mr. Johnston's part of the program consists of magic, mentalmystery and art. The company numbers seven people and the vaudeville bills is put on nightly, including packing box, trunk, handcuffs, and straight jacket escapes. As a magician, Bert Johnston stands in a class by himself, and is the most outstanding of modern magicians. The illusions, etc., by the company will need you home to order to how it can be done for such a low price. Company's own orchestra in attendance.

BARDO

John Johnson and daughter Florida, from Grande Prairie are here visiting old friends.

Mrs. Nash Rude came on a Saturday from Edmonton and spent the week end with her folk, returning to the city on Monday evening.

The Earl Hills family left for their home in Iowa on Wednesday. Mrs. P. O. Lorbiecke and Birdie saw accompanied them for an extended visit with her sisters and brothers families.

Mr. Haugen who has been here for some time returned to his home in B.C. this week.

NEWS OF OUR NEIGHBORS

HETTHEMONT

We had the pleasure to have Mr. Hull, prohibitionist worker with us last Sunday, though not many responded to the invitation to hear him.

Mr. Joe Sutton, sr., is doing as well as can be expected from his recent accident. His brother, Mr. Tom Sutton of Barrie, Ont., is caring for him.

Mr. John Brown had the misfortune to lose a valuable horse last week.

Mrs. Sherlock of Lakeshore district visited her friend, Mrs. Wm. Lee, Thursday afternoon.

Miss Bessie Owen assisted at her home, Mrs. C. A. Ingram, over threshing.

Mrs. Leslie Coombes assisted Mrs. McMillan and Mrs. C. Coombes cooking for threshers the first of the week.

Mrs. Abbott of Tofield and mother, Mrs. McKernan, of Edmonton, were guests of Mrs. Hugh Mitchell on Friday afternoon

Mrs. Noland and daughters, Mrs. J. Shultz and Mrs. Radebaugh, were visitors at the Barnes home on Wednesday afternoon.

Mr. McKernan of Edmonton is visiting her friend, Mrs. Hugh Mitchell.

We think Mr. Bender of Bardo must head the **nugget** for last crop of oats. He had a field that went 90 bushels to the acre.

Mr. and Mrs. Milton Ray and children spent Saturday at the home of Mrs. Ray's parents, Mr. and Mrs. W. K. Mitchell

Mr. and Mrs J Younie and family of Edmonton visited at the Hugh Mitchell home over the week end

Mrs. G. R. Owen and little niece, Mary Ingram, left on the Saturday night train for Shuswaps Lake, near Victoria, B.C.

KINGMAN

Don't forget to attend the dance held in the Kingman hall on Friday, October 26th. The music will be furnished by Arnquist, Amrose and Lundbye. Also received several hundred presents and many congratulations. They all had a very good time.

Hazel and Helen Anderson, Lenada and Agnes Amundsen and Elsie Pearson, were all guests for dinner at the Brulea home last Sunday.

Alice and Ruby Berg, Hazel Hilliard, Gunvald Flaaten and Gustav Berube motored to Bardo last Sunday evening and attended the Young People's meeting in the Bardo church.

Mrs. S. Berg and Mrs. P. O. Flaaten received the news from their brother, who lives near Elk Point that his house had burned down to the ground.

Mr. and Mrs. E. A. Moen were guests at the Alex Finley home last Sunday.

Mrs. I. H. Olsen entertained for the early last Sunday evening. She will visit there for several day.

Mr. and Mrs. R. O. Berg were guests at the M. Nash home in Ryley last Sunday evening.

Several from this vicinity attended the play the Ryley talent presented last Saturday evening.

Mr. and Mrs. Roland and family and Mrs. H. Hrehirs were guests at the P. Flaaten home last Sunday. They intersted to the afternoon service from Calgary over the air.

Rev. O. K Brownlie and family left for the States last Sunday evening. Rev. Brownlie is going to Williston, North Dakota, where he will preach.

E. A. Moen shipped some cattle and hogs from Chauvin last Tuesday.

The Dempsey-Tunney fight pictures will be shown at the local picture theatre on Thursday, December 1st and Saturday, December 8th. The shows on Saturday afternoon and evening.

Born.—To Mr. an dMrs. Nestor Noland on Saturday, October 23rd, a daughter.

F. E. and Earl Hills visited Joe Sutton on Tuesday. Mr. Sutton is getting along as well as could be expected but finds the confinement very irksome after 64 years of active life.

Mr. Tom Rosem who has been suffering from a broken collar bone is improving slowly.

Threshing is nearly done most of the machines have finished.

Mrs. Geo. Moen and Sigrid Ramm assisted Mrs. Parker during threshing.

LINDBROOK

Mrs. L. Painter left on the flyer on Monday morning for Bedford, England.

Mr. and Mrs. Mowatt's little boy had a narrow escape from being smothered when a straw pile topped over on him, while threshing operations were in progress at Mr. Mowatt's. Luckily the incident was soon to happen and the little fellow was immediately dug out none the worse for the incident.

Westlake school has been closed for a few days owing to an attack of scarletina. We hear that several of the Westlake children had the illness and hope soon to hear that they are O.K again and school re-opened.

Mr. W. Glenn has been awarded the contract by the C.N.R. to build the new road from the station to the new one of section 7. He is employing all local help and wages and started this week

There is quite a fencing epidemic here now, the C.N. having fenced in the new road and now Mr. Lesley has his garden all spruced up with new posts all peeled and tarred.

Visitors to Edmonton last week were Mr. and Mrs. J. Leeky, Mr. and Mrs. W. Hooper and Mrs. Hobbs.

AMISK CREEK

Threshing is now finished in this neighborhood. The Patterson rig pulled home last Monday.

Mr. and Mrs. P. O. Malloe entertained the school girls of Amisk Creek and several other friends last Sunday in honor of their daughter Astrid, who celebrated her fifteenth birthday. She received several beautiful presents and many congratulations. They all had a very good time.

Hazel and Helen Anderson, Lenada and Agnes Amundsen and Elsie Pearson, were all guests for dinner at the Brulea home last Sunday.

Alice and Ruby Berg, Hazel Hilliard, Gunvald Flaaten and Gustav Berube motored to Bardo last Sunday evening and attended the Young People's meeting in the Bardo church.

Mrs. S. Berg and Mrs. P. O. Flaaten received the news from their brother, who lives near Elk Point that his house had burned down to the ground.

Mr. and Mrs. E. A. Moen were guests at the Alex Finley home last Sunday.

Mrs. I. H. Olsen entrained for the city last Sunday evening. She will visit there for several day.

Mr. and Mrs. R. O. Berg were guests at the M. Nash home in Ryley last Sunday evening.

Several from this vicinity attended the play the Ryley talent presented last Saturday evening.

Mr. and Mrs. Roland and family and Mrs. H. Hrehirs were guests at the P. Flaaten home last Sunday. They intersted to the afternoon service from Calgary over the air.

Rev. O. K Brownlie and family left for the States last Sunday evening. Rev. Brownlie is going to Williston, North Dakota, where he will preach.

E. A. Moen shipped some cattle and hogs from Chauvin last Tuesday.

The Dempsey-Tunney fight pictures will be shown at the local picture theatre on Thursday, December 1st and Saturday, December 8th. The shows on Saturday afternoon and evening.

Born.—To Mr. an dMrs. Nestor Noland on Saturday, October 23rd, a daughter.

Sell Bread Of Oven Freshness

Your customers want fresh bread because it tastes better. Appleford wrappers will seal your bread from the air—keep it fresh a day longer. Mice can't get to it—no more worries.

Appleford wraps are as sturdy as the mom's tear or tack under the corners. We will make a distinctive label.

AT THE

Variety

—ON—

WE WILL PRESENT

Abraham Lincoln

WITH GEORGE BILLINGS IN THE TITLE ROLE

Everything that everyone has said in praise of this splendid picture is merited. It is the simple inspiring story of one of the greatest lives the world has ever known. Lincoln lives again in the splendid sportrayal by Mr Billings. It does not seem that he is acting, but that he is being Lincoln. Smoothly, gently, the drama of Lincoln's life unfolds, the cegnrist and director having done their work so well that there is not a hitch or false motion all the way through. So varied is the theme that there is something to appeal to all.

Please Note.—Owing to Bert Johnson's Magic Specialty Performance on Thursday, Friday and Saturday of this week at the Variety, there will be no picture shown this week end.

HICK TOWNS

The so called hick town has lately become a source of great inspiration to our professional humorists.

A hick town, say the various users of this convenient formula, is a place where a hack-fire is never mistaken for a pistol shot; where bedtime is 8 o'clock; where woodpeckers eat up the depot; where general rain is all you whether it was a girl or boy; where there is no parking problem; where a curfew disturbs the no dent's rest; where free cut tobacco is no handicap to social and success and so

With reference to becoming city folks here in the native we are glad to add that a hick town is a place where 26 of the 29 residents were born and where seven out of ten of the immortals in New York's national hall of fame originated. A hick town but didn't have a name produced Lincoln. Hick towns gave to most of our great literary figures of the past and practically all of those now living. Hick towns produce our Edisons. If we may, then we would like to suggest that a hick town is a place where a boy has an excellent opportunity to lay the foundation of a

H. E. ROGERS

You Should Do These Things

Take down your aerial, clean off with sand paper. See that your "land lie" (if a bare wire) is not coming in contact with any object that will short it. Make sure your ground is good, and that your ground wire is soldered to ground rod. Test your "B" batteries. Weak ones will only get you local stations, and cause your set to be noisy and squeal.

Test your "A" battery, and if a "wet" one fill with distilled water. Loosen all your wire terminals and scrape, then refasten them. These are some of the things that should be done before you settle down to winter listening.

Several bridge parties were given in honor of Miss Behrns at the home of Mrs. McClurg, Mrs. Behrns. Mrs. Hutchison and Mrs. Constantine.

Miss Lorett Ross spent the week end in Edmonton.

Mrs. C. M. Simmons is spending a few days in town on her way to the city.

Dr. and Mrs. Terwilleger and family spent Sunday at the Gray home.

Mr. and Mrs. W. Stutzman left for Edmonton Monday morning to see their son Herbie in very ill.

Mrs. Chatterson spent Monday in the city.

Mr. and Mrs. Abbot motored to the city to attend the last basketball game.

A number of people were up from Ryley for the Saturday night show.

Mr. and Mrs. J. M. Hall and Mr. W. Clark of Edmonton spent Sunday with friends in town.

The November meeting of the United Ladies' Aid will be held on Tuesday, November 23rd instead of Friday, November 23rd.

The Union Ladies' Aid held their meeting on Friday afternoon in the Church Hall and arranged to have their bazaar on November 27th.

YODER SALE WENT WELL

The John Yoder auction sale cried by F. O. Ball on Tuesday of this week was highly satisfactory to both seller and auctioneer. This was Mr. Ball's initial sale in this district and he created a good impression among buyers. There was a good crowd present and bidding was brisk and prices good. A team of horses sold at $405.00, cows sold from $27.50 to $51.00 according to quality, and the Gray Dort Car sold for $405.00.

TOFIELD MASONS VISIT VIKING

A number of Tofield Freemasons journeyed to Viking last Tuesday, where the annual district meeting of the Masonic district in which Tofield is located was held. A number of prominent members of the fraternity were present and gave addresses in keeping with the occasion. Among them were Grand Secretary, R. V. Taylor of Calgary, and His Honor Judge Taylor of Edmonton.

Those from Tofield who attended were, Geo. B. Bruce, Master of Tofield Lodge, and Dr. W. C. McClure, Dr. D. M. Morrison, N. S. Smith, W. B. Ford, W. A. Webb, Chas Hudson and J. W. Chapman.

The visitors were banqueted at a duck supper and generally enjoyed a pleasant and profitable time.

W.I. NOTES

The regular social meeting will be held next Tuesday, November 13th at 2 o'clock as usual. The roll call will be answered by each member with a helpful hint concerning anything about the house. This meeting will include only two more to finish out the year, and we hope to see a good attendance.

ANGLICAN CHURCH SERVICES

Sunday November 11th, 1928

Tofield, 11:00 a.m.

Ryley, 3:00 p.m.

Tofield, 7:30 p.m.

WINNERS OF PEP GASOLENE

D. L. Yoder and Paul Thomas will have to able to have an easy ride for many a mile and not worry about gasolene consumption either.

An announcement in the Mercury last week, ten gallons of Pep gasolene would be given away weekly. On the draw being made at the Mercury Office on Tuesday the ticket drawn out of the box bore the name of D. L. Yoder and Paul Thomas, Kingman.

Each gentleman will call at M. C. Hammond's office he will be given a ticket entitling them to five gallons of Pep gasolene each.

The original plan has been changed a little and instead of our customers receiving ten gallons of gasolene, two customers will be given five gallons each. This gives each buyer of five gallons of Pep gasolene the chance, instead of one to be a prize winner, and five gallons is about all the average motorist can carry around at one time.

MONDAY, NOVEMBER 5th THANKSGIVING DAY

Monday, November 5th is Thanksgiving day in Canada and will be observed in the usual manner at Tofield. The schools, stores and business places will be closed. This will also be the official observance of Armistice day, which is November 11th.

It is reported that Poppies made by Alberta disabled soldiers will be on sale in Tofield just prior to Armistice day. By purchasing a poppy you are keeping green the memory of those heroic men lying in "Flanders Fields" and at the same time helping those who are disabled from wounds.

VARIETY

For Saturday of this week, the Variety will show a fine picture of action entitled "The Arizona Sweepstakes." This feature stars Mout Gibson, the cowboy idol of the screen. It is a picture of thrilling action that lends to keen attention well worth seeing.

For Wednesday night, "The Sport-ing Lover" will be presented. This a good picture of the romantic, dashing type. Events move swiftly in this picture, and the first man of the picture proves that he is all that the title claims him to be.

HALLOWE'EN PRANKS SATURDAY NIGHT

Hallowe'en passed off fairly quietly at Tofield this year. Beyond the upsetting of several what has been described as typical wooden outhouses, and the pumping of windows, there was few extraordinary pranks perpetrated. As an occasion of harmless among the younger children, Hallowe'en is a delightful break from the ordinary round of existence. As an excuse for mischief and wilful damage it is to be greatly condemned.

Attention is called to the auction sale of Mr. Limbery which will be held at the Dr. Bell farm on Thursday November 8th. The sale includes horses, cattle, farm implements and household goods and J. D. Hannan is the auctioneer.

The Bert Johnson Magic show at the Variety on Thursday, Friday and Saturday of last week was well attended (on Saturday night, but on Thursday and Friday night there was only a small audience. The principal of the main performer, Mr. Johnson, who on Friday pulled some very old and nauseous jokes about the town. The show itself was fairly good, the music being very good.

This is now time to buy Christmas cards. Call for our samples and shall be pleased to serve. As in past years we are handling the well known Tofield Calendar line and the sample book is replete with many beautiful designs. The Mercury will be pleased to send the sample book along here in town.

LOWER ROSS CREEK

Mr. and Mrs. Murray, Mr. and Mrs. F. Geoghen, Mr. Trent and Mr. Wood and family were visitors at the Lamont hospital last Sunday week and Joe.

Mr. and Mrs. McNeil visited Edmonton last week taking in the first basketball game with Detroit. Mr. and Mrs. Wilson were also Edmonton visitors.

Mrs. Hall is on a visit to Edmonton, and is attending basketball games and [illegible] while there.

Threshing returns this fall give yields of from ten to thirty-five bushels per acre. Indeed, the ten being of all kind there are a minus quantity, barley a fair crop, potatoes only fair.

The fall fair has been a success, considering of game hunters. Deer, chickens and ruffed grouse for the latter would be lots of all. Hungarian partridge slightly on the increase.

NEWS OF OUR NEIGHBORS

KETCHAMONT

Threshing is all finished and all the machines have pulled home for another year. We regret threshing was rushed the way it was, most of the grain going tough, some wet but so we have been assured in once in October it wasn thought best to hurry through.

Mr. and Mrs. Archie Brown and family of Bawlf and Mr. and Mrs. Leslie Coombes and Chester Coombes family were guests of Mr. and Mrs. A. McMullen on Sunday.

Mrs. Geo. Yagye and Miss Yager entertained the M.A.S. at their home on Wednesday afternoon. There was a splendid turnout of members and visitors and a pleasant afternoon was spent, thanks to the hostess.

Mrs. C. A. Ingram has been very ill with quinsey. Miss Fosbrag of Hardisty has kindly helped out with the housework.

Mr. and Mrs. Percy Sutton, Mrs. E. Nowoland and Miss Selma were Edmonton visitors the latter part of the week.

The annual Thanksgiving dinner under the auspices of the M.A.S. will be held next Monday evening November 5th at the Henry McGinnis home. Everybody welcome.

There will be a pressing contest for a dressed goose at the Thanksgiving dinner on Monday.

Mrs. Kentha Ulmer left Monday for Padstow, Alberta, where she is engaged in teaching.

Mr. Harry Harbison came over from Arma to spend a few days with his aunt, Mrs. C. A. Ingram before departing for Redberry.

Mr. and Mrs. W. A. Mitchell visited at the Warner and Ferguson home at Lakeshore on Tuesday.

Mr. I. Mowray, Mrs. Booth and Mr. E. Phillips of Lakeshore also Mr. and Mrs. J. H. Ingram and Mrs. Omer Barnes, program committee for the U.F.W.A. met at the home of Mrs. Frank Hall on Tuesday afternoon to outline their program for the year.

Mrs. Ann Lawson and daughters, Mildred and Edna and son Martin motored over to Holden last Sunday and spent the day with Miss Mabel.

Mr. and Mrs. J. H. Ingram were guests of Mrs. J. H. Wheeler on Sun-

Mr. J. Brown is having a new [illegible] over his barn.

Joe Murray, who had his foot badly crushed in the wheel of a wagon is getting along nicely.

Mrs. D. L. Phillips had the misfortune to break her leg while visiting her brother, Mr. Simmons. She has been removed to Edmonton.

Mr. H. Hoadley and family moved to Mrs. [illegible] this week.

Break dances have been getting quite popular in our rural[illegible] lately, the latest venue being Mr. Jas. Lawman's, who recently lost a household [illegible] from his shack.

Mr. and Mrs. McNeil visited Edmonton last week taking in the first basketball game with Detroit. Mr. and Mrs. Wilson were also Edmonton visitors.

Mrs. Hall is on a visit to Edmonton, and is attending basketball games and [illegible] while there.

Threshing returns this fall give yields of from ten to thirty-five bushels per acre. Indeed, the ten being of all kind there are a minus quantity, barley a fair crop, potatoes only fair.

The fall fair has been a success, considering [illegible] of game hunters. Deer, chickens and ruffed grouse for the latter would be lots of all. Hungarian partridge slightly on the increase.

RARDO

Mr. John Johnson hauled lumber last week to rebuild the barn which was destroyed by fire a short time ago.

Rev. Brunske, who has been pastor of the Lutheran Church here for several years, has moved to North Dakota where he will locate.

The Misses Myrtle Rude and Carrie Bracken went to Edmonton on Friday evening to attend the C.G.I.T. convention.

Mr. and Mrs. Haukedal from New Norway spent the week end with the Almer Haukedal family.

The E. A. Moss family and Mrs. L. Anderson, from Amisk Creek visited in the Jacobson home on Sunday.

The John Yoder family expect to leave the last of the week for the coast. On Saturday evening quite a large company of neighbors and other friends paid them a visit. Lunch was served. They were presented with a handsome leather travelling bag and a purse. The good wishes of their many friends here will go with them.

The J. Bracken family and Mrs. Horte of Kingman. Mr. and Mrs. Haukedal of New Norway, Mrs. Ann and Mildred Lawson of Ketchemont, Peter Hingley, Mr. Swift families and P. O. Lorbekmo of Tofield were present.

Mrs. I. Haugseth sr., will entertain the Ladies' Aid and Thimble Club on Wednesday, November 3rd.

Mr. and Mrs. Will Stutzman returned word on Sunday that their son Homer, who is attending school in Houston, Kas., was sick. They left on Monday morning to go there. Miss Barbara Stalzer of Penn, Ill., went with them as far as St. Paul.

Mr. and Mrs. J. L. Stauffer came back from Edmonton, where they have been for some time the last of the week. Mr. Stauffer feels much improved in health.

Mr. Strom is branking land on his farm.

Harold Carrie dressed thirty-one turkeys for Mrs. John Yoder on Monday. They will be shipped to B.C. for the Thanksgiving market.

AMISK CREEK

A very good Hallow'een program was rendered in Ledcrg school last Friday evening. They first had songs and recitations by the children. After that the spooks rams around and the girls had their shadows sold, and the sell item was the lunch. The proceeds will go towards buying some sports goods for the school.

Mrs. P. Plantes and Gunvald moved over to Elk Point to visit friends and relatives. They left Saturday morning and returned Monday evening. Miss Anna Lund, who is attending school in Vegreville also went with them to spend Sunday with her parents.

R. O. Berg and Arnold and I. Anspeb motored to Killam "at Sunday to visit R. Nelson and family. He reported that they were all well.

Mr. and Mrs. N Sand and daughter from Ryley were guests at A. Hoogen's home last Sunday.

Herman Sand from Elk Point is visiting friend and relatives around here this week.

KINGMAN

Mr. and Mrs. T Grahn were Edmonton visitors on Saturday.

Mr. and Mrs. E. Erickson and family were the guests of Mr. and Mrs. V. H Larsen of Quarrel, on SSunday.

Mr. Rep Molvik is doing some carpenter work for W. Christenson.

Mrs. Thor Hoeg was a Camrose visitor on Saturday

GIRL DRIVER OF DEATH CAR SORRY IN COURT

Samuel Cornelius Coleman, colored, pet Monk, convicted by a jury of slaying Alfonso Richard Shaler and sentenced to one year's imprisonment by Mr. Justice Tripodis, took the stand as a crown witness against Vernon Mr. Fortier, who was driving the death car on the High Level Bridge on the night of September 16th last and who was looking arraigned in the criminal court on a charge of slaying Richard [illegible] as a Shaler's death.

"I [illegible] myself to take them for a ride," he said, when asked why he had driven the girl Fortier and [illegible] on Macrae? To directly [illegible] had promised to do before [illegible] on the car. Driving with his trip across the High Level bridge which Fortier stated in the car, Coleman said that when Margaret Tosh and Ella [illegible] on the gas," Mr. Fortier did so and he made no attempt to restrain her. Later he urged [illegible] to [illegible] her speed, she did not and still later, when the car became [illegible] and slammed down the [illegible]. He judged the car was travelling at miles an hour.

Scott, [illegible] the prisoners' bus was [illegible] on May Fortier, brought out all the proceedings in the case so far she had preserved an appearance of [illegible] outward [illegible] confidence, but as she sat by herself [illegible] at the [illegible] she quivered at the [illegible] her face turned and [illegible] eyes were frequently [illegible] with tears.

[illegible] a pathetic little figure [illegible] Albert J. McCaffrey, [illegible] able to save her from [illegible].

Mary [illegible] companion to Vernon Mr. [illegible] the stand to testify against her friend, was also visibly affected [illegible] the first time in the court room.

MOTHER OF EIGHT FALLS INTO SMALL TANK AT HOME AND DIES

Three Hills, Nov. 3rd.—An unusual accident occurred 12 miles west of Three Hills, about 10 o'clock, Mrs. Gottlieb Meers being drowned in a small water tank.

Dr. Thompson Sowden, of Three Hills, coroner, and constable Camp of Trochu, were called but after making a through investigation did not deem an inquest necessary.

Two peddlers were at the house and after supper were also using their goods. Mrs. Meers stepped out unnoticed and upon being called could not be located. Search was made through the outbuildings and at the neighbors. At a late hour, someone came to the watertank, which was a high, narrow tank, found her head foremost in the water. She had stepped on a high box and reaching down to get a pail of water, had lost her balance and fallen in. The tank was so narrow that she had no room to turn and was drowned.

She leaves eight children, the oldest being thirteen and the youngest four months.—Edmonton Journal.

YUKON MINER SWINDLED OF LIFE SAVINGS

Regina, November 3rd.—A story of being fleeced of $16,000, the savings of 20 years in the mining fields of the Yukon, was told here last night by Frank Kalifoss, aged 62, to police.

According to him he was the victim of an ancient "race track" swindle. He arrived in Vancouver, October 22. From Dawson city, intending to buy a home in Victoria. He talked of his work in the gold fields and confided to acquaintances that he had enough money to retire.

Among those he talked to was a man who gave the name of Albert Hall. Hall told Kalifoss he, too, was wealthy. The two later decided to stay at the same hotel in Victoria.

The next day, according to the aged miner, while near the Douglas hotel, a purse containing one hundred dollars and racing tips was found. A prosperous looking stranger who said his name was Walker, claimed it. Later he asked Kalifoss to take the hundred dollars as a reward. The latter refused and the stranger said he would put the money on a horse race for him. Walker later announced that Kalifoss had won $3000, but as the money was placed in a distant place, I would be several days before it arrived. Walker suggested another bet. Kalifoss drew out his bar: sent from he bank $10,000 and gave \ to Walker for the second bet. The next day here was consternation. Walker said he had bet on the wrong horse and all was lost.

Telling his story here, Kalifoss said Walker later promised to return the money after he had gone to Los Angeles and that the next meeting would be in Montreal. He then sought Kalifoss a ticket from Vancouver to Montreal but not has now been seen since.

The miner from the Yukon is now on his way back to the north.

Auction Sale

Mr. Mourer is leaving for the States and has instructed me to sell by Public Auction, on the North-West Quarter, Section 30, Township 51, Range 19, W 4, Two and a Half Miles North of Lindbrook Crossing, Four Miles West and One Mile North of Abernethy's Corner, on

Monday' Thanksgiving Night

The Halfway Girl

Here is a human-interest picture in which a very realistic hymn it occurs. A fine holiday feature.

Also A Good Comedy

FIVE HOUR BEARD HAS BOY

Edmonton, Alta., Nov 3rd.—Six hour old Clarence Thompson, son of Mr. and Mrs. Thompson, of Manville, was the subject of an unusual case here yesterday. Manville, which has a half-a-beard at birth, when he was but a few hours old. The child was examined by a physician, and it was thought that he should have a full beard by the time he reached manhood.

THEIR MAJESTIES TO DINE PREMIERS

London, November 3rd.—Their Majesties the King and Queen, will welcome the Dominion premiers at at banquet in buckingham palace, tomorrow night. There will be nothing lacking in stateliness and splendor at the banquet. The famous gold plate used by their majesties on state occasions will be in use, as well as the Sevres china, that was bought by Wm. IV. On the tables will be golden embroidered.

KING RADIO

The KING RADIO SET is designed and built to give the buyer the "most radio per dollar". It is not the cheapest set, nor is it the highest priced, but through and through it contains all the essential things that go to make a first class radio set, both in a mechanical and artistic sense.

We are specializing on two models, both excellent buying. One a five tube set that will give excellent results. Uses a wet "A" battery and dry "B" battery. Splendid cabinet work. Complete with head speaker and ready for use.

$132.50

The other, a six tube set, uses wet "A" battery and dry "B" battery. This is a remarkably good set, with attractive walnut cabinet. Excellent tonal qualities. Price complete with head speaker and ready to use.

$154.50

Demonstrations gladly given.

SPECIAL.—Two Westinghouse Radio Sets, two tubes, with batteries, aerial and set of ear phones, complete and ready for use, $30.00.

M. C. Hammond

You Should Do These Things

Take down your aerial, clean off with sand paper. See that your "lead in" (if a bare wire) is not coming in contact with any object that will short it. Make sure your ground is good, and that your ground wire is soldered in ground rod. Test your "B" batteries. Weak ones will only get you local stations, and cause your set to be noisy and squeal.

Test your "A" battery, and if a "wet" one fill with distilled water. Loosen all your wire terminals and scrape, then refasten them. These are some of the things that should be done before you settle down to winter listening.

Miss Mary Easton visited her brother at Camrose on Wednesday.

Mr. Lindsay Hay spent a couple of days in the city this week.

Mr. Jack Glasgow of Edmonton spent Thanksgiving day at the J. Lee sr. home.

Mr. and Mrs. A. Bennett and children and R. Griffith of Alta, were guests at the G. Bennett home over Thanksgiving.

R. W. Pincott spent the week end in the city.

Miss Bertha Lee visited her sister Lillian at Ryley on Friday and Saturday.

Mrs. W. E. Parker and daughter, Mrs. Geo. Moon entertained for Edmonton on Wednesday evening.

Miss Elsie Kendall, who is teaching near Killam was home for the Thanksgiving holidays.

"THE STREAM OF LIFE"

The boys of the C.E.L.T. group are to be congratulated on the splendid entertainment provided for all who were present at the United Church last Tuesday night.

The Department of the Extension of the University of Alberta presented the famous moving picture "The Stream of Life" to a very small audience.

It is a great pity when a really good picture is put on by the boys for the benefit of the boys' work of the province that a much larger patronage was not given.

The picture is one of the best and has received the highest commendation wherever shown.

UNITED CHURCH OF TOFIELD

Rev. R. G. Watt, B.D., Pastor

Sunday, November 14th, 1926

11:00 a.m. The United Sunday school at Tofield

2:00 p.m. The United Sunday school at Ketchamont.

7:30 p.m. Evening service at Tofield.

All are cordially invited to come and worship.

SOME WHOOPING COUGH SOUTH OF TOWN

A certain amount of whooping cough has appeared in the districts south of town, and the Farmington school has been closed for two weeks. Parents of children contracting this complaint should notify either their municipal health officer or their municipal councillor as soon as they observe it in the home. This will give the health authorities an opportunity to take measures to prevent the spread of the disease. Not to report it is an offence against the health by-law.

MORE FREE RIDING

There is a little snow on the ground but automobiles are running as free as ever. For two individuals at least, automobiles will run with greater freedom than ever. Pay greatness is great stuff, so will say C. J. Rude and V. L. Rath when they learn that they are entitled to free rides from now on. The names were drawn at the Mercury office on Tuesday and if they will call at M. C. Hammond's office, they will be given a ticket for five gallons of Imperial Oil gasolene each.

TO THE FARMERS OF TOFIELD DISTRICT

Re our advt. in Tofield Mercury of October 27th as to handling Pool Wheat.

We would say that we were advised by a grain company in Winnipeg that we could handle the wheat and offer a premium of remagnad to them at Winnipeg as Pool Grain. We were of the opinion that this premium was general, coming from a supposedly reliable firm but upon taking the matter up with the Malden Elevator Co., whom we represent, we found that it was not the case. Some of them are doing this, but as the Malden Company do not allow their representatives here, we therefore retract our statements in above mentioned letter.

We are only a small farm and it would be foolish on our part to do any thing that would in any way effect the working of the pool, as it is from the farming community that we expect a large portion of our business. We are here to stay, and it is only by your help we can do it, and we expect a fair share of your business by absolutely square with all.

Our office is always open to you for any information or assistance we can give you.

The authority for inserting the ad of 25th inst. is on file at our office and can be seen by anyone so desiring.

Trusting this will clear matters up satisfactorily to all.

We are
Yours very truly,
CARVER & HANNAN

A beautiful range of hand made Christmas Gifts will be for sale at the United Ladies' Aid bazaar on Saturday, November 27th, in the church hall (Methodist Church). Also afternoon tea and a tempting home cook ing table

---

NEWS OF OUR NEIGHBORS

BARDO

Announcement was made at the Mennonite Church on Sunday of the Marriage on November 4th, of Dan Brownsman and Mary Ex-Foan. The ceremony will take place at the church at eleven, after which dinner will be served at the home of the bride to a large company of invited guests.

The teachers of Bardo and Grand Forks schools attended the teachers' convention at Camrose last week.

On Monday a community Thanksgiving meeting was held in the Lutheran church. Dinner was served in the basement. November 8th, being the 1st wedding anniversary of Mr. and Mrs. Nass, the Nass family were the guests of honor. There were many beautiful gifts. P. B. Anderson after reading a telegram of congratulations from the absent daughter, Cadiran, made the presentation. A set of silverware from the neighbors also silver cake plate, silver bread tray, pie knife and meat fork from the Nass children. Mr. Nass' brothers and families gave a tea-tiled hand painted china and silver set consisting of salad bowl, bonbon bowl and cream dish. A beautifully decorated wedding cake was made by Hanna Jonson. In the afternoon Professor Sullivan of Camrose L.T. gave an interesting Thanksgiving talk.

Father Nass received from the Governor General of Canada a bronze medal for having the highest marks in the eighth grade examinations in the Camrose inspectorate. Brother to a pupil in the Grand Forks school, Miss Betty Nass being the teacher.

Dan Swartzendruber, John Bird, Bobber and Joe Lauber are away moose hunting.

A. L. Yoder has a new sedan and J. C. Stauffer a new coach.

The many friends of Juliet Jewing will be glad to know she is able to walk again although it will be necessary for her to use crutches for some time. The operation was entirely successful.

Horace Stutzman passed away on Monday, November 1st. He was buried at the old home at Milford, Nebraska. We will publish the obituary next week.

C. B. Anderson spent last week in Edmonton where he underwent an X-Ray examination.

The Lutheran Ladies' Aid will hold their annual fall sale in the basement of the church on Friday, November 26th. A tasteful dinner will be served. Everybody invited.

Standing of the Pupils of the Anderson Junior Room for October is as follows:

Grade I. Jr.—Katherine Johannsen 78; Joseph Kaufman 70; Geo. Roth 66.

Grade I. Sr.—Paul Voegtlin 86; Morley Haugereth 83; Leonard Bauer 82; Milton Jewing 75; George Buchanan 65. Nail Whillans 61; Lesley Yoder 52

Grade II.—John Haugereth 85; Marguerite Whillans 75; Olin Johannsen 66.

Grade III.—Lorraine Moon 72; Grace Roth 68.

Grade IV.—Ingmar Haugereth 87; Bernice Anderson 69; Agnes Johannsen 62; Vernon Parker 58; Lloyd Whillans 50.

Grade V. Bennie Moon 76; Merlin Peckang 65; Mary Voegtlin 58 Hazel Yoder

Leroy G. Beerkan, Teacher

Grade VI. Lavinda Yoder 73; Marie Roth 72; Hugh Curry 72; Lenwood Parker 66.

Grade VII. Juliett Jewing 78; Liel Peckang 67; Joseph Roth 61 Velma Yoder 56; Ralph Whillans 50 Ivan Peckang 38

Grade VIII.—Mabel ..ta, Vernon Moch 71; Ray Whillans 61

Myrtle Rude, Teacher

FOR SALE.—Large Columbia range, (nearly new), in center in good condition; bedroom lamp and hall lamps, both complete. Apply to Mrs. Johnston Telephone, phone 1101, Tofield. 40p

---

KETCHAMONT

Mr. Clifford Lee attended the teachers' convention in Camrose on Thursday and Friday, so consequently the school children enjoyed the two days holiday.

Miss Jean Dickson of Edmonton spent Thanksgiving holidays with friends in our district.

Mr. Wm. Lee has built, quite an up-to-date chopping mill on his farm.

Mr. W. K. Mitchell had an up-to-date radio installed at his home recently.

Mrs. Gussie Brown entertained the girls of the neighborhood at her home on Sat. night afternoon. "Camp Fire Girls" Society was organized with Mrs. Brown leader. The girls enjoyed the afternoon very much, topped off with a delicious lunch by the hostess.

The Misses Mabel and Mildred Lawson spent a few days in Camrose the latter part of the week.

A few friends and relatives of James Henderson spent Friday evening at the Henderson home, the occasion being Jason's birthday.

Mr and Mrs. Paul Thomas and Miss Pearl Welch motored to Edmonton on Wednesday to spend several days at the home of Mr. Thomas' parents.

Mrs. Williams, Mrs. Haubndel, Mrs. W. A. Mitchell and Mrs. W. Sauer spent Thursday afternoon at the C. A. Ingram home as refreshment committee of the Thanksgiving supper.

Mr. and Mrs. J. Yeomie and family of Edmonton spent the week end at the home of Mrs. Yeomie's parents, Mr. and Mrs. Hugh Mitchell

Miss Bessie Owen is spending a week in the city, sightseeing and visiting friends and relatives.

Mr. A. F. Shultz and family and Miss P. Fawcett motored to Holden last Sunday and spent the day visiting friends and relatives. They were guests at the home of Mr. and Mrs. A. W. Carter for dinner.

The Henry Ratten family are turning in on a new six tube radio.

Messrs. Geo. Murphy and Donald Creech motored down from Edmonton last Saturday evening and were guests of Bessie and Earl Owens over Sunday.

Miss Mabel Lawson is spending Thanksgiving holidays at the parental home.

LENDRUM

The Lindbrook friends of Mr. and Mrs. R. Chenneer Bailey wish them the best of health, luck, long life and happiness on their marriage which took place last week in South Edmonton.

Miss Clara Rogers is home on a visit from the city.

Work is progressing on the new road here, despite the wet weather and it is hoped soon to have the road ready for opening. It is understood by the "aldermen" as to whether Lund Willingdon or Sir H. Thornton be asked to perform the opening ceremony, and beside we don't believe that the usual bottle of champagne is to be found in the district.

Miss Grace Lepine is home from the hospital recuperating from recent operation

A large fruit truck from the city came down the road here last week and dispensed a ton of berries (or) by J. Tebb's store, with the result a number of people are said to be of Swedish descendants.

Mr. H. Cornaling was a visitor to the city this week. What is the word Hi? Are we to lose you too? Conspiring cups?

Mrs. W. Harper spent the week end in Edmonton.

Say, what's the matter with Lindbrook's social life, any one or what, no dances, receptions, parties, yet, and some dreamed of so far as can be ascertained. Wake up before you're Tofield.

New Anglo-Turkish Pact

Will Help in Fighting Soviet Propaganda in Near East

Negotiations are proceeding for an Anglo-Turkish pact which, while stabilizing the position of the Angora government, will solve many of Great Britain's difficulties in the near east. Turkish finances are in a bad way and stabilization is one of the features of the proposed treaty, to be signed by the minister of foreign affairs and by Sir Austen Chamberlain on behalf of the British cabinet.

Turkey also is in favor of Premier Mussolini's recent meeting with the leaders of the Balkan states, and is said to be willing to enter into a pact with them.

Great Britain was galled the help of Turkey in fighting the soviet propaganda in the near east.

World Benefactors

In one of the leading states, Iowa, with a tithe the size of Rhodesbump or Whitewater in the opinion that when we could make three ears of corn or three blades of grass to grow upon a spot of ground where only one grew before, would do more benefit to mankind and do more essential service to his country than the whole army of politicians put together.

Many of these politicians have done us harm, but we cannot accuse them of deliberately endeavoring to make two blades of grass grow where only one grew before. Neither can we accuse the men who have invented and manufactured the devices for doing away with hand labor in the cultivation of the soil and in the harvesting of crops, as the inventors of labor-saving machinery. On the contrary, we have to consider them benefactors, and we propose to mention some of them in this article.

Perhaps the first man who ever made two blades of grass grow where only one grew before was the man who invented the hoe. Before the hoe was invented, the ground was broken up with a crooked stick, which merely scratched the surface of the soil. The hoe was a great improvement on the crooked stick, and the man who invented it was a benefactor to his race.

Then came the plow, which was a great improvement on the hoe, and the man who invented the plow was a greater benefactor than the man who invented the hoe. Then came the harrow, which was a great improvement on the plow, and the man who invented the harrow was a greater benefactor than the man who invented the plow. Then came the seed drill, which was a great improvement on the harrow, and the man who invented the seed drill was a greater benefactor than the man who invented the harrow. Then came the reaper, which was a great improvement on the seed drill, and the man who invented the reaper was a greater benefactor than the man who invented the seed drill. Then came the binder, which was a great improvement on the reaper, and the man who invented the binder was a greater benefactor than the man who invented the reaper. Then came the steam thresher, which was a great improvement on the binder, and the man who invented the steam thresher was a greater benefactor than the man who invented the binder. Then came the gasoline engine, which was a great improvement on the steam thresher, and the man who invented the gasoline engine was a greater benefactor than the man who invented the steam thresher. Then came the automobile, which was a great improvement on the gasoline engine, and the man who invented the automobile was a greater benefactor than the man who invented the gasoline engine. Then came the aeroplane, which was a great improvement on the automobile, and the man who invented the aeroplane was a greater benefactor than the man who invented the automobile. Then came the submarine, which was a great improvement on the aeroplane, and the man who invented the submarine was a greater benefactor than the man who invented the aeroplane. Then came the wireless telegraph, which was a great improvement on the submarine, and the man who invented the wireless telegraph was a greater benefactor than the man who invented the submarine. Then came the wireless telephone, which was a great improvement on the wireless telegraph, and the man who invented the wireless telephone was a greater benefactor than the man who invented the wireless telegraph. Then came the flying machine, which was a great improvement on the wireless telephone, and the man who invented the flying machine was a greater benefactor than the man who invented the wireless telephone. Then came the dirigible balloon, which was a great improvement on the flying machine, and the man who invented the dirigible balloon was a greater benefactor than the man who invented the flying machine. Then came the parachute, which was a great improvement on the dirigible balloon, and the man who invented the parachute was a greater benefactor than the man who invented the dirigible balloon. Then came the [illegible], which was a great improvement on the parachute, and the man who invented the [illegible] was a greater benefactor than the man who invented the parachute.

Wonder Of Modern Surgery

Blood Transfusion Possible Without Attendance of Giver

London doctor have discovered that [illegible] of blood can be made without the attendance of the giver of the blood alongside the patient receiving it. A pint and a half of blood taken out of a person in Piccadilly was carried through London in a motor car to Bloomsbury in quarter and circumstances by transfusion.

This wonder of modern surgery was done with the aid of a motor car and a new medical invention exhibited the blood in the kept in perfect condition and at the same very temperature during the journey.

Sentiment vs. Economics

By C. W. Peterson

To those who see in the phenomenal prosperity of the United States and the financial attraction it has for the people of Canada, a satisfactory and almost sufficient reason why easily lead to a much ending of the idea that bind Canada to the British Empire, our present economic position is not entirely reasonable. Perhaps history shows that in the commercial ties are considerably stronger than political ties, and that the latter will invariably prevail over particular sentiment. While we cannot hope to entirely one powerful neighbor to we can more nearly resemble upon terms. We can, and should, be more than we are, friendly with the United States, but we should not allow the prosperity and attraction of that country to overwhelm us. The "hardness of the heart," but equally unsound policy is the exhibition or any adequate conception of the fundamental facts of situation. It is possible a more favorable to Canada than the United States has been upon this for decades, and there is not any reason why we should not participate in the last named country was a successful, thirty years ago. Canada is still a young country, and has still resources, enterprise and energy. Canada's population is to-day not more than a millions of agriculturists, and there is room for most of the people's total available resources, including capital, accounts for 26 per cent., 24 per cent.; miner, 2½ per cent.; and manufacturing equipment, 2½ per cent.

This gives a line on the permanency of the country's prosperity. Industry and agriculture that a paltry having its foundation in the exploitation of the natural land-holding resources alone, would especially not to last, and consequently prosperity based upon it would not last. Canada has all these essentials, and more than all other countries put together. It is not surprising that the people of Canada are confident that they will attain to keep in the front rank of the nations of the world, and that the people of the United States should be so earnest in their desire to be associated with Canada in the development of the country.

Listen!

Have you heard about Pepsi Peps in a wrigglette preparation put up in pacific form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles, and all bronchial, nasal and throat irritations? Pepsi Peps are placed upon the tongue, immediately turn into vapor, and are thoroughly drawn into the air-passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally cover and carry relief and healing to the lungs.

While no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and healing remembrance.

TRIAL—Send at once to us, write us, and we will send you a free sample. Address Pepsi Peps Co., Dept. 312, Toronto, Ont. Sold by druggists at 25 cents a box, or 5 boxes for $1.00. Druggists should write us for prices.

Peps

Saint Dake Bath Carnation

Scrofa head to such astute men-bers as Mr. A. E. Ames, Mr. Frank Cochrane, Mr. Rodolphe Forget and Mr. Wm. Stewart, that prior to the Washington Conference, they had secured the World's Record for the Most Valuable Cargo ever carried in a Single Bottom.

A steam yesterday 56 tons was lifted by the cranes and dumped contentedly into the hold of the Steamship Saint Dake Bath Carnation.

Ted Hannan was in the city Monday and Tuesday of last week.

Mr. and Mrs. Galloway and family spent the week end in Calgary, the guests of Mr. Galloway's sister, who is leaving for the coast.

Mr. Van Dyke spent Sunday and Monday in the city.

Miss Jessie Chrypko entertained a number of friends in the Intitute Rooms on Saturday evening.

Mr D. Eaton visited his parents in Ryley last week end.

Dr. and Mrs. Law motored to Bawlf on Sunday. Mrs. Law remained to visit with her parents for a few days.

Mr. and Mrs. Geo. McLaughlin and family, Miss Lucille Gray and Dr. Morrison motored to Edmonton on Sunday and spent the afternoon at the home of Mrs. J. M. Hall.

K. L. McIntosh, D. M. Morrison, Geo. Agnew and R. H. Phillips, left on Sunday night to spend two weeks in the city.

Mr. and Mrs. Abbott, Clare, Miss Scott, and Mr. and Mrs. Revell motored to Viking on Sunday.

Mr. Lowell Gray has accepted a position for the winter, as electrician in the Palliser Hotel, Calgary.

Mr. G. P. Thomas and F. Carter were in the city on Saturday and motored through to Holden on Sunday.

Mr. Spencer who is taking Mr. Graham's place with the Northwest Grain Cleaning Co. arrived in town last week. Mrs. Spencer will follow later.

Miss Marion Forman attended the teachers' convention which was held in Camrose and also spent Thursday and Friday with friends.

Don't forget the C.W.L. banner social in the Institute Rooms on Saturday (to-morrow) afternoon, Nov. 20th.

Mr. H. Rollins of Viking, who is the District Deputy Grand Master of the Masonic District, No. 3, paid an official visit to Palestine Lodge, No. 16 on Wednesday.

Will the party who borrowed the chain saw from D. E. Ball, please return it to Carver and Hannan.

Mr. and Mrs. J. C. Ward of Edmonton, and Mrs. J. Ward of Edmonton were guests at the Emery home for a few days last week.

Miss Audra Wood of Viking visited friends and relatives in Tofield on Wednesday.

Mr. H. Shaw and R. Taylor of Holden attended the Masonic lodge at Tofield on Wednesday.

Bert Smith, who has been in Tofield the past three years, left on Saturday for his home in Montreal where he will enlist. Bert was liked by the Texis boys and Trail Rangers, as by the young people of the town generally.

Born.—To Mr. and Mrs. Hans Hansen, Thursday, Nov. 11th, a daughter.

Mrs. A. Sundal of Ryley, visited with Mrs. Ellis on Sunday.

Mr. and Mrs. A. Engelund of Camrose, at the week end.

Mr. Chesick, daughter of Mrs. Herbich, is visiting with her for a few days and has returned from Calgary and is now with her home where she will stay for a while.

Attention is directed to the advertisement on the back page relative to F. F. A. and F. U. A. chicken dinner. This event will be held in the Variety Theatre, Tofield on Friday, November 26th. Farm ladies, for a time commercial have been invited to their excellence in the culinary art and when it is a case of cooking and serving chicken well, they are just indefatable when they will be all in readiness too.

TOFIELD GRAIN EXCHANGE OPENED

The Tofield Grain Exchange got off to a fine start in Carver and Hannan's office on Thursday morning at 8:30, with a few profitable speculations.

The opening quotes in at 8:30 and the closing were at 12:15. The service is direct from Winnipeg and any market fluctuations are immediately posted on a large blackboard in Carver and Hannan's Office. The service comes into the station and is immediately relayed by private "phone from there to the office. Any trades put through during the session can be relayed to Winnipeg within eight minutes.

We are very fortunate in this district in securing such a service as it entails considerable expense and far more than a town of Tofield's size is marketing their grain. Farmers can watch the wire and when a suitable market appears they can sell their grain immediately for future delivery and thus save the cost of storage at the other end. They can also sell their grain on the present market and buy it back again for a small cash margin. They can then take the proceeds of their sale to pay bills, etc., thus saving interest charges and then when the prices appear right they can sell and take their grain.

Carver and Hannan are to be congratulated in this move as it is just the kind of thing the good people of Tofield and district have been asking for in the farmers' meetings.

U.F.A. NOTES

Owing to so many snowfall, there were only nine members present at the regular meeting of the U.F.A. Local held on Nov. 10. It was decided to abandon another if have to be held during the winter months. The origin of and manner of celebrating of the first Thanksgiving day. The next meeting will be held on Monday, at 2:30 p.m. (members kindly note that meetings will be held on second and fourth Mondays of each month) The Hall will be open to everybody for Christmas gifts Each being ... gift as sample.

BAND DEALS

Mr. T. W. Jarvis has purchased the south half of section 16, township 47, range 19, west of the fourth.

Mr. E. F. Tomlinson has purchased the west half of section 21, township 47, range 19, west of the fourth.

Mr. William Tomlinson has purchased the northwest quarter of section 9, township 47, range 19, west of the fourth.

You Should Do These Things

Take down your aerial, clean off with sand paper. See that your "land in" (if a here wire) is not coming in contact with any object that will short it. Make sure your ground is good, and that your ground wire is soldered to ground rod. Test your "B" batteries. Wash ones will only get you local stations, and cause your set to be noisy and squeal.

Test your "A" battery, and if a "wet" one fill with distilled water. Loosen all your wire terminals and scrape, then refasten them.

These are some of the things that should be done before you settle down to winter listening.

The Amisk Creek Ladies' Aid will hold their annual sale of sewing and fancy work in Amisk Creek church on Thursday, November 25th. Supper will be served at six o'clock and the sale of work immediately following. Everybody welcome.

Conrad and Arthur Patterson motored to the city on Thursday of last week, returning the same day.

Miss Lucy Fahlby has been holding down the school here in Amisk Creek during the past month.

Robert Berg returned for Edmonton Monday evening where he has been visiting with friends for a few days.

Mr. and Mrs. Jensen and daughter Dora, have been visiting at Edmonton for a few days.

Mr. and Mrs. Wm. Fleming, Miss Fleming and Mr. Peterson motored to Edmonton on Sunday.

Mr. Hansen is going to leave here the end of the month for Edmonton (East Bonnie, Sask. to-day). Mr. Chadwick Miss Tolstoy will be married Lent first at St. Mary's and later at Mrs. Bert McIntosh. The many friends of both Mr. and Mrs. McIntosh will be deeply grieved to hear of their untimely parting.

NEWS OF OUR NEIGHBORS

BARDO

After a week of gloom, we welcome the sunshine again.

A wedding of interest tok place at Salem Church on Wednesday morning, November 10th, when Miss Kauffman became the bride of Dan Brenneman, a host of friends attend congratulations and good wishes. The bride wore a gown of white silk with dainty pearl trimming. The bridesmaids, the Misses Ena Stutzman and Edna Tober were dresses and rolled silk. The groom was attended by his cousin Ruben Bach and by George Kauffman, brother of the bride. A beautiful dinner was served to 150 guests at the Kauffman home. The presents were numerous and beautiful.

Mr. and Mrs. John Yoder did not leave for the coast until the day after the wedding. The Yorkshire farm, which was homesteaded by John Yorkshire in 1894 has always been occupied by one of the family until the departure of Mrs. Yoder. The house was one of the first three houses built in the Bardo district. The farm is still owned by the Yorkshire family and will be rented for a number of years by Robert Barrowclough for some time a member of the Yorkshire family.

Clarence Rode spent the week end on the Hillside home south of Ryley.

Mr. and Mrs. J. L. Yoder entertained Mr. and Mrs. A. E. Roth and H. E. Brenneman, Miss Stutzman and Will Stauffer Sunday on Sunday.

Dr. Hazzard, of La Junta, Colorado is holding a series of Bible studies and services in the Mennonite church, beginning Friday evening, Nov. 12th, and ending Sunday evening Nov. 21st. Each morning and evening there will be a service except next Saturday morning. Everyone welcome.

Mrs. Lenard was entertained the ladies' Aid and Thimble Club on Saturday November 6th.

The following program was taken from Tin Harden Co., Hawaii Correspondence items.

Mrs. Lulu Lerbekmo and son and nieces, Mrs. Bert Owens and son, accompanied Mesdames J. Dodd and G. Hogue to the meeting of our L.A.S. on Thursday afternoon. Mrs. Lerbekmo, best known here as Lulu Hills, formerly of Iowa Falls, who, with her parents, moved to Canada, twelve years ago, is enjoying her first visit back to the States. Mr. and Mrs. Carl Hills of near Clarion, spent three weeks in Canada this fall, visiting with many folk and Mrs. Lerbekmo and son accompanied them on their return, for a visit. They were both near sister, Mrs. Owens, of near Alden at present, but plan to spend a time with Mr. and Mrs. P. E. Dodd and other relatives and friends here.

KINGMAN

Born.—To Mr. and Mrs. Chas. Lingo on November 11th, a daughter, very healthy.

Mr. and Mrs. Rose Paulson were Edmonton visitors for a few days last week.

Mrs. Jack Hardin was a visitor in the city on Thursday of last week.

Mr. and Mrs. Bychert, has been staying with their daughter, Mrs Joe Munson and family for a few days.

Mr. and Mrs. Carl Swedahl and family were visitors in Edmonton on Thursday last week.

Mr. and Mrs. Wm. Hardin motored to Edmonton on Tuesday.

Mr. and Mrs. Carlson motored to Camrose on Wednesday.

Mr. and Mrs. Wm. Hardin were visitors in Edmonton on Tuesday.

WEDDING

On Thursday, November 11 1926 at the United Church Manse, Camrose, was united in marriage Miss [illegible] daughter of Mr. and Mrs. [illegible] of Morning Creek, Alberta, and Irvin W. Plaetz of Tofield.

The usual services will be held at the United Church and at Ketchamoot next Sunday.

RADIO

Mr. John McGinitie accompanied the Messrs. Warnoe on a hunting trip. They expect to be away for two or three weeks.

Mr. and Mrs. T. D. Ferguson and baby spent Thanksgiving day at the home of Mrs. Ferguson's parents, Mr. and Mrs. J. H. Ingram.

Mrs. Eagar Ray has been very ill at the home of her parents, Mr. and Mrs. Peter Lee.

Mr. and Mrs. Maurice McGinitie are now nicely settled in their new home.

Mrs. Emma Bruhn, who has been assisting Mrs. Appleby, the past few months, left on Monday and is now visiting friends and relatives previous to taking a trip to Los Angeles, California.

Mrs. Henderson entertained the M.A.S.S. at her home on Wednesday afternoon. Lunch was served and four visitors turned out to the meeting. After the business routine, a pleasant hour was spent the hostess serving a delicious lunch.

Mr. and Mrs. Wm. Sears and sons, Mrs. Emma Bruhn, and C. A. Ingram, enjoyed the Doc Dads radio concert at the Wm. Lee home on Wednesday night.

The ladies of the M.A.S. will hold their sale of articles on Tuesday evening at the schoolhouse, tea quilts, woolen socks and mittens and many other fancy and useful things will be auctioned off. A nice lunch will be served free. All are cordially invited to attend.

Miss Bergild Fosbang returned home on Thursday after spending three weeks at the C.A. Ingram home.

The Thanksgiving dinner on Monday night at the Henry McGinitie home was a decided success both financially and otherwise. Over one hundred people sat down to beautifully filled tables. Mrs. Swift won the goose, guessing the nearest correct weight. We wish to thank all who kindly helped in making the dinner a success, especially Mr. and Mrs. Henry McGinitie for the use of their home and all non members who donated toward the dinner. $66.05 was cleared to go towards the church funds.

A blue silk scarf trimmed in yellow was left at the Henry McGinitie home on the night of the Thanksgiving dinner. Owner may have same by calling or telephoning.

LAKESHORE

Mrs. Mildred Shaw spent several days in the city last week.

Mr. B. C. Phillips left on Sunday night for Shaw Lake, on a hunting trip.

The Lakeshore Ladies' Aid Society met at the home of Mrs. T. E. Bole on Wednesday.

Mr. E. Hazelwood, who was taken to the hospital some two weeks ago, suffering with rheumatic fever has improved so much as to be able to get about once more. He is spending two or three weeks at the Murray home before returning to Edmonton where he has taken an agency for automobile accessories.

Since the Jack rabbit has made his appearance in this vicinity a great many arguments have taken place as to just how fast he can run. E. Prevost feels that he can settle some of the arguement once he can over a big Jack rabbit a few days ago with his Ford.

Mr. and Mr. Owen Eaton motored from Lamont on Saturday and are visiting their parents, Mr and Mr. H. F. Eaton.

Melvin Myers and Roe Phillips went to Edmonton on business one day last week.

We wish to make a correction in the report of the wedding held at the home of Mr. and Mrs. Roberge. Mildred Beath was the correlation prize instead of Mrs. Beath as stated.

Mr. Plumm arrived in town on Tuesday and will operate a telegraph key at the Canadian National Railways station. Mrs. Plumm will arrive in a few days, and they will occupy the Worten house.

Plan For Celebration

King and Queen to be Invited to Attend Sixtieth Anniversary of Confederation

Plans for the 60th anniversary of Confederation are maturing. The Association of Canadian Clubs, through its executive committee, has put forward a series of proposals:

1. That Their Majesties, the King and Queen, be invited to visit Canada during public week or 2 in 1

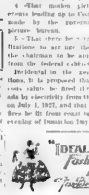
2—That the ceremony of Great Britain, the United States, the Republic of France, the Indian Empire, the Irish Free State, and the British Dominions be invited to send personal letters

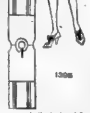
3. That there should be a issue of twenty-minute postage stamps

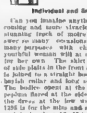
4—That modern pictures of the events leading up to Confederation be made by the government motion picture bureau.

5—That there be a national organizations to set up the celebration, the chairman to be appointed by or from the federal cabinet.

Incidental to the general suggestions, it is proposed that a circulars copies should be issued throughout Canada by executively from Ottawa at noon on July 1, 1927, and that 1000 beacon fires be lit from coast to coast in the evening of Dominion Day.







Individual and Smart

Can you imagine anything more becoming and more attractive than this stunning model of modern? It will answer so many occasions and serve many purposes with chic that the youthful woman will no more claim it for her own. The tucks allowance of side plaits in the front and back and is joined to a straight hanging flounce in bolero collar and long set in sleeves. The bodice opens in front back, and a peplum flared at the sides is sewn to the dress at its lower waistline. No. 1286 is for the miss and small woman, and is in sizes 14, 16 and 18 years. The 16 years (36 bust) requires 3¾ yards 39-inch material, with 1¼ yard 39-inch trimming. Price 20 cents.

Every woman desiring to be modern that smart different appearance which the use of these patterns gives, from the previous public. Every design illustrated in any new Fashion Book now on sale at the leading pattern counters and will help you to secure that much desired air of individuality. Price 20 cents the copy.

SUNDAY SCHOOL LESSON

NOVEMBER 21

JOSHUA RENEWING THE COVENANT

Golden Text: Choose you this day whom ye will serve.—Joshua 24:15.

Lesson: Joshua 24:1-25.

Devotional Reading: Psalm 107:1-9

Explanations and Comments

I. Joshua Reminds the People of God's Help Throughout Their History.—Verses 1-13. Joshua assembled the people at Shechem, avoiding a special occasions to everyone in authority, the elders, the heads of the tribes, the judges and the officers. He began his farewell address by reminding them of God's care and help from the time of Abraham to that present moment when they were in possession of land on which they had not labored, of cities which they had not built, and vineyards and olivegrards, which they had not planted. He had all this in the form of a speech from Jehovah himself, thus emphasizing the fact that he and they were simply instruments of the divine will. Thus he says:

I plagued . . . I brought . . . I gave . . . I sent . . . I destroyed . . . I gave . . . I sent . . . these recurring personal pronouns of God's action should be a challenge to us. Let us remember that the people, Israel, it was the history given by the epic of faith. "All these things would praise Jehovah for his loving kindness, and for his wonderful works to the children of men."—Psalm 107:8.

I. Joshua's Challenge to Choose.—Verses 14-24. Joshua's challenge to choose was a challenge to the people to make a decision. Their hearts with a decision of God's goodness to them in the past. Joshua's challenge was a challenge to the people to make a decision. Their hearts with a decision of God's goodness to them in the past. Joshua's challenge was a challenge to the people to make a decision. Their hearts with a decision of God's goodness to them in the past.

Become So Weak, Could Hardly Stand

Mrs. Wm. Hallett, Bay View, Alta., writes: "Last spring I had a bad spell of dizziness, was so weak that I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse.

I wrote my mother about my condition, and she sent me three bottles of

MILBURN'S HEART AND NERVE PILLS

After the first bot I was feeling better, and by the time I had used the three boxes, and now I feel as well as ever I did before. I have recommended Milburn's Heart and Nerve Pills to many friends, and will always do so." Price 50c. a box, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Utilize the method in most communities the prince the rail-dumping in Sept., 1926, and the first ticket in the successful age.

Can you rely on SHILOH COUGH?

Rheumatic Sufferers
"Dodd's Kidney Pills have done me more good than anything I have ever taken. I suffered from rheumatism for years and was unable to get relief. Dodd's Kidney Pills have done me a world of good and I am glad to recommend them to others."
Mrs. Wm. Sparkes, Bridgewater, N.S.
DODD'S KIDNEY PILLS

Economic Importance Of The Farm

By C. W. Peterson

It is a fact, that Canada's agriculture has become up as the largest single factor in her economic life, with the farmers as the largest group in domestic numbers, consequently everything a commanding influence upon the general business conditions of the country. One-third of all revenue freight carried by our railways originated on the farm and another third was doubtless represented in carrying commodities of all kinds back to the farm, and the transportation to and fro of agricultural raw material. The Canadian farm not alone feeds the nation, but exports an excess which renders it also available to balance our international obligations and create a favorable trade balance.

Besides the millions of farm work ers directly engaged in production there are other millions earning their living by performing work connected with supplying the implements, tools, shoes, clothing etc. for the farmer, with the manufacture of raw material originating on the farm and the distribution and transportation of such commodities.

Who is bold enough to attempt correctly to estimate the economic importance of agriculture in a country like Canada? It is perhaps well within the mark to assert that at least 50 per cent of Canada's rural population, in every walk of life, depends absolutely on the farm, directly or indirectly. Another important feature and should lead thinking men to ponder on the possible permanence of Canadian agriculture. In terms of national development were to be happy indeed if we could say that a more fringe of our actual rural area was in a prevailing basis in her business, professional and manual, or even one-third of our available land of the best, are cultivated, requiring a fair occupational balance, the present economic problems would vanish over night. The farmer is eager for bringing such a situation about We have the unquestioned natural resources, the markets are there, and we only need the man power and the capital to complete the effort. What that is purely a matter of intelligent business organization.

Manitoba Tourist Trade

Winnipeg Tourist and Convention Has an Increase in Membership

The Winnipeg Tourist and Convention Bureau registered a number of visitors during the year, and also increases that crossed the whole of the Manitoba Boundary from the Lake of the Woods to the Saskatchewan border. Numerous visitors, and remained for more than twenty four hours, up to October 1st, 1926. This includes motorists, tourists, Killarney, Cartwright, Crystal City, Gladstone, Rapid City, Russell, Binscarth, Wadena, Hamlet and all points of interest. 10,579 persons crossed the border of Manitoba from the United States and 18,912 of them stayed from twenty four hours to a week. The total number of visitors for the whole period ranging from two up to thirty days.

A days' stay would mean over $2,500,000 left in our country based on an expenditure of $25 per day per capita per day. A two day's stay would mean $5,000,000, a three days' stay $7,500,000, while the usual average of 5½ days, which is accepted by all members of the tourist industry, would mean a gross expenditure of over $12,000,000 in Manitoba during the past season.

For the year 1926 seventy-four conventions were held in Winnipeg with an attendance of 23,000. The features of the 1927 season, in the way of conventions have already been booked, will be the assembly of the Manufacturers Association, who will visit Winnipeg for two days in the third week in June, and the Canadian Legion in 1928 is for a "Banner" year for conventions. The Canadian Federation of Canada, seven thousand strong and the Norwegian Singers of America, one thousand strong, almost a whole regiment, Winnipeg as well as numerous others.

Winnipeg has also secured the 1930 K.K. Convention for 1929, 401 delegates.

A Triple Bond

Among the leading speaking people the strongest bond existing throughout the land is the love of literature, law, language. Some students put language first and literature second, but other nationals that the literature is what has made the language harmonize in the triple bond

What's the use of neither to cackle before I go to school, mother?" said the small boy. "I'm not one of those who are always raising them."

The moral publisher has a lot of bright prospects.

Manitoba Egg Laying Contest

Pen of Barred Rocks From Beresford Takes Honors

The Manitoba egg laying contest at the Brandon Experimental Farm has won by the pen of barred rocks belonging to W. H. Morrison, of Beresford. The birds' record for the 52 weeks is 2,045 eggs, which netted them 3,251 points.

The nearest competitor was Mrs. H. J. McBride, of Minnedosa, whose barred Rocks held third place, and secured only 2,916 points. A pen of birds of the same breed owned by the Experimental Farm but not competing, took 2,767 eggs, which 2,261 points. Fifty-five birds qualified for each pen.

Nation-Wide Fame.

There is scarcely a country in the world from where the merits of Dr. Thomas' Eclectric Oil have not been tried and proved. It is one of the world's most efficient remedies, and is known and used by many other allied articles from fashionable Bridge to the skilful Indian healing power is readily obtained, and it can also be taken internally.

WOMAN COULD HARDLY WALK

Mrs. Hora Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

Hamilton, Ont.—"I have known Lydia E. Pinkham's Vegetable Compound and would not be without it in the house. I was troubled with female weakness and I was all run down and could hardly get around to do my housework. I would lie down and rest but I had no energy. I had a friend who had taken your medicine and I thought I would try it. I am glad I did for I am now feeling fine. I have given it to my daughter when she was run down and it has helped her. I have been telling my friends about it and they are taking it with good results."—Mrs. Nellie Hora, 36 Matthews Avenue, Hamilton, Ontario.

If you feel broken down, nervous and weak and can't have it, Dr. Pinkham's Compound is excellent. It helps to relieve such conditions. If you want special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Aiding the Dairyman

Applefood cans give 100 per cent protection to your milk when it is delivered to the factory. Because they bug the lip of the bottle tightly, yet are so pliable they are quickly removed. Reinforced with wax, they guard against all manner of contamination.

The printing on Applefood cans is clear cut and distinctive—implying cleanliness and quality in your milk

CHAPTER XIX.—Continued

"I know that Mr. John will have nothing to say about the likes of you or me and my business, so you can have what you wants."

"But that is what you not to help me about," Joanna answered. "I don't want him to know that I have been here. You must make a little plan with me not to tell him. It put my that you is what, I want you to help."

So the the landlady was not to all sure. Her watery, shrewd eyes narrowed a little and appraised the face of the girl who, plainly, "wasn't Johnny's girl" any more

"Well, now," she conjectured, "to be sure, Mrs. Ill have to think a bit. A man's house is his castle like I must say in the old days when I was nurserie for Reverend Hitchcock who I must say had his pick of ingenue and knew how to do the picking to course that was only in castle open and it was a secret even Hitty could n't put over if I wasn't there to feed him right, but still that's what is it, you know"

Joanna had floated pathetic "But it will be all right, she protested "John and I haven't any secrets you see. I'm still John's girl and always will be, no matter what happens, although he has another name just now Tell mine be a secret from him, now? I'll secret and mine, and it's just nonsense that I have to hide from him, only about for a little while" She gave the landlady the tall bon-bon of a smile and pleading tone deeply moved that were her middle thirdgirl. She was born into the theatre and was used to its allure and accustomed to value it for what it was worth. Besides, she had known some of the most lovely ladies and gentlemen in the world in her career, of the room, fell upon the face of the girl in the gold frame over the mantel. Dreaming, she was back with Sheraz her palace, the Persian sunset and three rich Somehow, she wished that she had left it in the cabinets, after all.

Landlords cause alarm

Portsmouth earthquakes, supposed to have had its subtle history, have caused considerable alarm in the public official have decided to call in the services of a geologist to make a study of ascertaining the cause. Mrs. Ash is where they have originated.

LIBEL CASES CONCLUDED IN THE SUPREME COURT

Defendants Fined $10.00 Each

Three cases, which aroused a lot of local interest were brought up in the Supreme Court last week at Edmonton. The cases arose out of declarations made by Lomicka, Zak and Berezuk, residents of Mundare, that A. M. Matheson had obtained or tried to obtain money from each of them by using them the job of Bonar [illegible] of the Mundare store. The declarations were made before Harry A. Ashton, barrister, of Mundare, and [illegible] copies thereof were printed in [illegible] on the ever office, Vegreville, on [illegible] 20th inst. just before the provincial election. Mr. Matheson at once [illegible] to counteract the declarations and had the three men arrested [illegible]. The preliminary hearing was held at Mundare and the men committed for trial on charges of criminal libel.

Mr. Justice Tweedie presided at the sitting which opened on Tuesday morning of last week, the first case [illegible] to trial being that of the town vs. Lomicka. Harry White who was occupying the somewhat novel position of a witness for the crown, [illegible] that of counsel for the defendants was the first witness called. [illegible] an abrupt conclusion came to the Tuesday sittings when the case in [illegible] of the statutes, declarations made by Lomicka was asked for. No [illegible] had it, but it was thought to be in [illegible] Mundare somewhere and court adjourned until Wednesday so that the document could be located.

Early in morning Wednesday morning it was stated that the original draft [illegible] could be located, so the case was [illegible] on as it stood. Mr. White again took the stand and was subjected to a stiff line of questioning by E. A. Cogswell, K.C., crown counsel. The bulk of the questions was evidently [illegible] to establish that Mr. White [illegible] the declarations, ordered [illegible] cigars and was, in effect, [illegible] for the whole affair. But Mr. White hung right on to his knowledge of the matter. His method of plant back on him at critical times in the questioning. His Lordship, Justice Tweedie, was plainly interested in Mr. White's rebuttal [illegible] important information; His Lordship said so in terms that left no room for misunderstanding. "What [illegible] and his Lordship, "[illegible] some asking questions of a man who cannot remember any [illegible]

[illegible] members of The Observer staff [illegible] called on and their evidence [illegible] during 1000 copies of [illegible] were speedily taken; to [illegible] there.

[illegible] principle witness was [illegible] of Mundare, who was [illegible] for Peter R. Babry in the [illegible] election. Mr. Bilyk [illegible] that he had been [illegible] letter to Vegreville to [illegible] bail called for the on June [illegible] week then, taken them to [illegible] had been instructed by Mr. [illegible] their distribution, had [illegible] three of various posters [illegible] for his work here. [illegible] cross examination, Mr. White, Bilyk stuck to his story [illegible] of the emphatic denials by White.

A number of other witnesses were summoned but they added nothing to the general information. Then the defendant, Joe Lomicka, took the box and swore that the statements made in the declaration were true. He had been instructed to go to Mr. White and have the declaration made out, and had done so, but he said he had no knowledge that copies were to be printed. He warped his own case somewhat by stating that he didn't [illegible] whether such matters were in the public interest or not."

A. M. Matheson, M.L.A. was then called and Mr. White elicited a lot of information about Mr. Matheson's [illegible] affairs, but Matheson entered a strong denial that he had at any time had business with Lomicka [illegible] in the declaration. He acknowledged that he had borrowed money from teh present Bonar vendor of Mundare, Mr. Woytkiw, and that he owned income taxes all told was [illegible] but [illegible] He had also borrowed money from Shanchuk, bailiff at Mundare but had repaid it with interest and a bonus. Other financial transactions were thrashed out and Mr. Justice Tweedie took occasion to hand Mr. Matheson a rousing [illegible] on the importance of the [illegible] of [illegible] and [illegible] in his position as a public servant.

The evidence, pro and con, was then summed up to the jury by Mr. White, Mr. Cogswell and Mr. Justice Tweedie. The jury retired and came back in about a half an hour with a verdict of "guilty" and a rider added that consideration should be shown the accused as he had recently been used as a tool by others. Lomicka apparently agreed with the verdict, stating that the jury had acted exactly as his own opinion of the case. He then imposed a fine of $10.00 on the accused and the case was paid over and the case closed.

Immediately following the conviction of Lomicka, the other two accused men promptly pleaded guilty and were also fined $10.00 and costs each.

As a whole, the case was something of a dud or washout. In no respect was it worth the time, the trouble or the expense to which people were put.

WEEKLY NEWS BULLETIN

Issued by the Publicity Commissioner, Government of Alberta, Edmonton.

November 13th, 1926

Population of Alberta Cities

(no figure of the recent federal census for the cities of Edmonton and Calgary have been announced as follows: Edmonton, 64,740, last census, 58,821. Calgary, 64,360, last census, [illegible].

Napoleon's Cane Sold

Was Carved By a Soldier at the Battle of Arcola

Napoleon's cane has been purchased by a Tribune antiquary for $2,000 Bra.

The cane had been cut from a red sardle-berry tree by one of Bonaparte's soldiers after the battle of Arcola. Into the handle the article guardsman had skillfully cut the text in one of the several with several epidodes of the Corsican's life. The finished product he then presented to Napoleon, who carried the cane continually while he remained at Arcola. When he departed he inadvertently left it in the house at which he had been a guest, where it had since been carefully guarded

Joint Sufferers Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing on Pain Parts With

NERVILINE

"My rheumatism should convince any one that Nerviline is a rub-and-relief remedy. I was so swelled in the knees and ankles I could not walk. Nerviline took away the pain and swelling. I am now entirely free from rheumatism, and I will get a bottle of Nerviline for my wife's rheumatism."—Wm. Hall, Bridgetown, N.S.

Nerviline is a penetrating, powerful liniment, that gives instant relief. Rub it on the joints, muscles, nerves, and feel the pain disappear. Nerviline is a family remedy. Use it for Rheumatism, Neuralgia, Lumbago, Sciatica, Sprains, Bruises, Sore Throat, Coughs, Colds, Sore Chest, Backache, Stiff Joints, Sore Muscles, Toothache, Earache, Headache, Neuralgia, Sciatica, Lumbago, Sprains, Bruises, Sore Throat, Coughs, Colds, Sore Chest, Backache, Stiff Joints, Sore Muscles, Toothache, Earache, Headache.

Huge Crowd at Fascist Funeral

Forty thousand persons followed the body of the Duke of Forza Nova, killed by an assassin's bullet, while attending a contest on the subject of the attempted assassination of Premier Mussolini. The funeral was made the occasion of a demonstration against the Communists in the history of Scandinavia.

THE TIRED OUT WOMAN

Needs the Help of Dr. Williams' Pink Pills to Regain Strength

Tired out, worn out, run down, weakness to get the upper hand of her, and her usefulness will end for work in the home, and normal her to the ranks of the unfortunate invalids whose housework is daily hell. Is your case anything like this? If so, you will find new health and strength in Dr. Williams' Pink Pills. They have cured thousands of cases of this kind, and will cure yours if given a fair trial. They enrich the blood, and in this way build up the entire system. Mrs. W. Jackson, R.R. 1, Milford Centre, Ont., says: "Before beginning the use of Dr. Williams' Pink Pills, I was completely run down, and was troubled with nervous headaches. As the medicine built me up, I gained in strength and health, and now feel like a new woman. I also believe that Dr. Williams' Pink Pills have cured my daughter of anaemia, from which she suffered a long time. She is now in the best of health." You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Germans Install New System

Trains Now Equipped With Wireless Telegraphy For Passengers

As a result of six years of experiments the German railways system of wireless telegraphy is now installed in the trains on the Hamburg-Berlin line.

Passengers while travelling can make use of this apparatus in any of the carriages, and can themselves be called up.

The innovation is to be introduced on all the main sections of the government railways. Eventually there will also be cabin to communication from one train to another.

Students Discard Robe.

No longer will the students of the province of Quebec wear the black robe as a uniform while at the Montreal University. The Senate of that institution has decided that a black gown is to be worn by the students on all occasions, but that the robe is to be discarded.

The annual Christmas Tree for the community, which is to be held on December 23rd, is beginning to be discussed by the people in the suburbs.

SURPRISE FAREWELL PARTY

On Wednesday of last week a very enjoyable farewell party was given at the John Lee at home in honor of Bert Smith, who left Thursday evening for his home in Montreal, Que. The surprise was very well arranged Bert's mother at the last moment being made to appear an ordinary part of the entertainment.

During Bert's three year stay in Tofield he has made many friends both in the town and in the surrounding district. At the party given in his honor on Wednesday evening a couple of hours enjoyed the evening with their parting friend. The evening was spent in playing cards, tooking after lunch and dancing. Mr. A. B. Knox, on took occasion to say a few parting words on behalf of those attending, as well as presenting a ring on behalf of the Oddfellows members, and engraved on the inside with "Bert, from the gang, Tofield. During his stay here he joined the Oddfellows Order of Oddfellowism, and also took an active part in the Trail Rangers and Tofield Youth.

TOWN COUNCIL

A regular meeting of the Tofield Town council was held on Monday evening, Mayor McCauley presiding.

There were also present councillors McMullen, Swift, Hay and Bellamy.

A quantity of routine business, such as the approving of accounts, etc., was transacted.

The payment of the 1926 business tax, or rather the non payment of this tax by some firms was discussed.

The secretary was given leave of absence to attend the convention of the Alberta Union of Municipalities which will be held at Edmonton during the first week in December.

The attention of Wheat Pool members is drawn to the advertisement at the top of this page announcing a meeting of the Tofield local of this organization. Every members attendance is desired. The election of officers will be held and wheat pool matters in general dealt with. See advt. next week.

Mr. Chas. Whitlam took a load of plant to the mill at Rylay on Tuesday, returning home Wednesday with their years supply of flour.

Several friends and relatives of Miss Emma Bruhn attended a party at the Bruhn home on Friday night, given in honor of Miss Emma.

Mr. Albert Haskeid shipped in a car-load of coal from Diamt and delivered it to the resident's close to the station.

The newly weds, Mr. and Mrs. Irvin Plaetz are visiting at the Plaetz home. Ketchamoot friends join in wishing them much joy and happiness.

Mr. and Mrs. Hugh Mitchell entertained a few friends and relatives to a turkey dinner on Wednesday evening. Those present were, Mr. and Mrs W. A. Mitchell and daughter, Miss Isobel Sirrett, Mr. and Mrs. D. H. Mitchell, Mrs. Henderson and Jason, and Charlie Robinson.

Mr. and Mrs. Wm. Thompson entertained a crowd of young folks at their home on Friday night to a whist drive. All report a very pleasant evening.

CANADA CO-EQUAL WITH GREAT BRITAIN

London, Nov. 20th.—In formal speech language, the Imperial Conference has unanimously recognized that Great Britain and the Dominions are of equal status in the empire.

The Imperial Conference, in adopting the report, of the premiers' committee on inter-imperial relations, has set the stamp of its approval on these significant words:

"The position and mutual relation of the group of self governing communities composed of Great Britain and the dominions may be readily described. They are autonomous communities within the British empire, equal in status and in no way subordinate one to the other in any aspect of their domestic or external affairs, though united by a common allegiance to the crown and freely associated as members of the British commonwealth of nations."

The report, briefly reviewing recent history, says the tendency of the dominions towards equality of status in both right and function "Geographical and other conditions make complete independence of statesmanship by way of a federation. The only alternative is one of autonomy, and, along this road it has been steadily copied. Every self-governing member of the empire has now master of its destiny. In fact, if not always in form, it is master to no commission whatsoever."

The report concludes:

"But no account, however accurate, of negative relations in which Great Britain and the Dominions stand to each other can be more than to express a portion of the truth. The British empire is not founded upon negations. It depends essentially, if not formally, on positive bonds. Free communities are its life blood, free co-operation its method, and security and progress among its objectives.

"The aspects of all these great themes have been discussed at the present conference and resolutions or results have thereby been attained, although every decision as now as may always remain a the sole judgment and interest of its full acceptation no common cause will, in my opinion, will thereby be imperilled."

The report describes equality as also as the root of the principle given proceeds to apply this politics theory to the common weal, observing that nothing is to be gained by attempting to lay down a constitution for the British Empire.

The report opens with a discussion of the relations between the various parts of the empire:

NEWS OF OUR NEIGHBORS

AMISK CREEK

The young people from this neighborhood and several from Ketchamoot gave Miss Emma Bruhn a miscellaneous shower last Friday evening. The evening was spent playing games and dancing till the wee sma' hours. After midnight Miss Bruhn received a host of money and many good wishes. She is leaving this week for California where she will join her sister.

Mr. Morley Anderson returned last Saturday from the Peace River country where he has been employed working with an elevator gang all summer.

Mrs. T. Anderson, Ida and Mrs. E. A. Moen and family, motored to Edmonton last Friday, returning Saturday evening.

Mrs. I. H. Olsen and her son Ralph are starting on their journey to California this week. Miss Emma Bruhn will accompany them.

Don't forget the Ladies' Aid Sale at Amisk Creek Church next Tuesday evening at 8 o'clock.

The Asame family visited at the Amelia home last Sunday.

Mr. Brooks, G. Fiasten, Alvin Ness, Herbert Parker and Ingvald Moen have started a Musical Club. They meet every night for practice. This week they will meet at the B. Moen home.

The home known as the Leggerini home, situated north of Bytop, caught fire last Sunday. The fire started upstairs and before it was under control the roof and the upper portion of the house was destroyed. Many valuable things from China, which were stored upstairs were lost. Mr. and Mrs. Leggerini are missionaries in China.

Mr. Morley Anderson is doing some work for the miller in Ryley.

LOWER ROSS CREEK

Work is being rushed on the reconstruction of the Summer School, the basement for the furnace and bricks being dug and ready for the cement work. When finished the district is certain of being furnished with an up-to-date rural school.

A very successful wheat drive was put on at Mr. Trent's on Wednesday evening, November 17th, by the W. A.I.S. A large number were present and a very enjoyable evening was spent.

Mr. Ed Bruhn of Amisk Creek has moved into the new house on the Warner quarter and as a mark of esteem the ladies have installed a radio.

Mr. Don Van Buskirk has also joined the ranks of the radio bugs.

We must apologize for our poor handwriting in reporting the injury to Joe Murray's foot. The report should have read "crushed" in the spokes of the wheel of a steam tractor. By the way, from last reports, Joe is doing very nicely indeed, and is now sitting up.

We are pleased to welcome Mrs. Glen Bailey, nee Miss Margaret Smith, as a new resident in our midst.

KINGMAN

Mr. and Mrs. T. R. Brown and sons, who for many years have resided in the district, left on the 17th for Bentley where they will reside for a time and later proceed to Ontario. They will be missed by their many friends and neighbors in the district.

Mrs. Dan Sevastenad and son of Edmonton have been visiting their friends in Kingman for a few days.

A dance will be held in the Kingman hall on Thursday, December 2nd. The music will be furnished by the Ryley orchestra.

BARDO

Mr. and Mrs. Will Stutzman arrived home on Saturday.

The meetings at the Solem church were well attended all the week. They closed Sunday evening, Rev. Hauverda leaving for Southern Alberta.

The Lutheran Young People postponed their Bunny dance Saturday and attended services at the Mennonite church.

A fire on the Martin Hagen farm Thursday evening destroyed the granary and machine shed. Eight hundred bushels of wheat was burned or badly damaged and $600 worth of machinery destroyed. The family was away from home when the fire started.

Mr. and Mrs. Jos E. Staeffer, Mrs Alice Flesath and Miss Myrtle Rude, motored to Edmonton on Saturday.

After their sale, Mr. and Mrs. Jensen expect to leave for Norway. Mrs Brucker and Anton Larson also expect to pay a visit to the mother country.

Miss Hilda Johnson who is here visiting from Grande Prairie spent several days visiting at Meeting Creek, returning to Bardo on Thursday. On Friday evening a party of old neighbors mostly young people, gave her a surprise visit at the Jacobson home.

Mrs. Rude entertained the J. Jacobson, and M. Fiesath families, Mr. Johnson and Hildah and several young people at dinner on Sunday.

Mr. Fred Mook have moved from the F. Lewis farm to the Moen farm.

Mrs. Fiasten and son of Amisk Creek called at the J. Jacobson and F. E. Hills homes on Wednesday.

On Thursday Mrs. B. Anderson entertained the Ladies' Remember the sale on Friday, November 26th.

OBITUARY

Homer Clyde Stutzman was born at Milford, Neb., Sept. 22nd, 1906; died at Houston, Kan., Nov. 1, 1926; aged 21 years, one month and nine days. He moved with the family to Tofield, Alberta, Canada, in 1912, which was his home at the time of his death. He was attending school at Hesston College and Bible School, where he was a junior in the academy department when he took down with erysipelas and acute infection on October 25th. All that medical skill, good nursing and loving hands could do for him was done, but he gradually sank into unconsciousness and passed away one week after he took sick, at the home of Bro Paul Zook where he was rooming with his brother. He professed his savior and united with the Mennonite Church several years ago and died in the faith. He leaves to mourn his departure, parents, a brother and sister, grandparents and many other relatives and friends. The school family mourns the loss of one of its members. Funeral services were conducted in the assembly hall on Tuesday evening, Nov. 16th, Rev. Paul Baetz. The sermon was preached by Bro. Paul Erb, assisted by M. Erb, Mike Kauffman and D. H. Bender assisted in the service. The body was sent to Milford for burial.

Mr. and Mrs. A. French and family, Mr. and Mrs. [illegible] and Mr. and Mrs. C. Jacobson motored to the home of [illegible] Chas. Johnson on Sunday.

Mr. J. D. Hannan shipped two carloads of stock on Monday.

Mr. and Mr. [illegible] were [illegible] of Mr. [illegible] on Friday.

It proposes to change the title from His Majesty the King to H. It declares that a governor-general should be the representative of the crown only, not of the British government.

It recommends the appointment of a special committee to consider the competence of dominion parliaments to give their legislation extra territorial effect on other points arising from dominion legislation, with a subcommittee to deal with merchant shipping legislation.

Mrs. Leif of Fort Saskatchewan is visiting friends and relatives at Tofield for a few days.

The Pep gasolene winners this week were E. Staeffer and R. W. Pincott. This is the last of this method of boosting Pep gasolene for this time.

RED ROSE TEA
"is good tea"
Over 30 years a standard wherever good tea is liked.

Taxation In Canada

During the war Canada, like all countries, was forced to devise and impose new forms of taxation in order to raise the large sums of money required to carry on the fighting. Necessarily, such new methods of taxation are objectionable. That Ottawa already has learned a lesson in this regard is evidenced by the fact that a large part of the budget speech delivered by Sir Henry Drayton, Minister of Finance, on Thursday last, was devoted to the abolition of the taxes which have been imposed during the war. In the case of the business profits tax, for example, it is proposed to reduce the rate from 15 per cent. to 10 per cent. on profits in excess of seven per cent. on the capital employed in the business. The tax on incomes is to be reduced from 4 per cent. to 3 per cent. on incomes between $3,000 and $5,000, and from 4 per cent. to 2 per cent. on incomes over $5,000. The tax on the transfer of shares is to be abolished altogether. Other changes in the taxation system are also proposed, and the net result of the changes will be a reduction of taxation to the extent of $15,000,000 per annum.

The effect of this taxation is greater in Canada than in the United States because the population of the former country is so much smaller than that of the latter. Nevertheless, the people of Canada have to bear the same and other war debts as the people of the United States, and the reduction of taxation which is proposed by Sir Henry Drayton is welcomed by the people generally. It is to be hoped that the Government will be able to carry out its proposals in the near future.

Modern Sea Mysteries

Sailors Encounter Many Tragedies Which Cannot be Explained

In spite of the advance of science among the lines of steam, electricity, wireless communication, ship construction and a hundred other things, mysteries of the ocean still continue.

Tragedies, grim and inexplicable still keep obtruding themselves, and the science of man seems impotent when pitted against the vast weight, might, and uncertainty of the seas.

One of the latest mysteries is that surrounding a schooner, the "Mary Turnbull." Pale of her crew are known.

She was picked up by an American steamer in mid-Pacific, sailing before the trade wind with her sails loosely stayed. The schooner was in trim and apparently had met severe weather only in the deck house, which was all awash. Her log was gone, and the trade route and figure chart had been removed from the deck house. There was a sewing table, was still beaming, but a copy of the Sydney Mail many months old evidently figured with blood stains on it, and there was a partial, dead in her cage. None of her boats were missing. But not a living thing was to be found in her. The doors at the companion hatch were closed, and another mystery added to the sea.

11 OUT OF 83
cases ended in death! In a recent Canadian investigation showed, those were not cases of tuberculosis or even consumption — of pneumonia! They were cases where a person had neglected some slight bronchial cough, a wheeze, a whisper — and where the wasted, tissue-destroying cough or fever was left treatment, had been neglected. Proud-preening and fatal wanted.
When you or your children sustain any injury, severe contusion, bruise, sprain, cut, burn, scald, sore throat, boil, abscess, blood-poisoning, or illness of any kind, get relief from every accident by those who know — doctors, 60c. bot.

Buy Costinos Burbank's Work

California Trying to Raise Funds to Purchase Scientist's Farm

Plant experiment work of the late Luther Burbank will be carried on if a movement on foot in California to raise $150,000 is successful. The fund would purchase the famous seven acres of Petaluma farm, north of Santa Rosa, and make it a monument to his memory. Officers of Stanford University admit that the farm be turned over to Stanford University, so that his experiments could be carried on.

Not Such a Bad Thing

Many of Hastily Great Puzzle Have Been Misunderstood

The whole of the world is: "I am misunderstood." Poets mostly say it of their body is. It's a good thing that many of the great puzzles of the world. We pass for knowing more than we do. Emerson had something to say about that. He said, "Blunder once and it is God's word to it be mad, then, to be misquoted." Dr. Johnson was misunderstood, and Shakespeare, and Burns, and Lamb, and Swinburne, and Dickens, and Newman, and every genius and who spoke that ever took flesh. To be proud is to be misunderstood."

Spiritualism In Britain

Growth of Movement Sponsored by Sir Arthur Conan Doyle

Of impressive belief in spiritualism was given by Sir Arthur Conan Doyle at a recent meeting in Albert Hall, London, when eight thousand were present.

Sir Arthur Conan Doyle, leading the meeting, declared that there are 2,000,000 believers, adding: "I ask all who are present to stand up who have not in their mind to rise and testify."

More than 2,000 men and women of all ages, ranks and walks of life rose in a body.

"I thank God there are so many. I expected a little five years that to see an upward movement of this kind," he said.

"We are not testifying to facts but to God."

The growth of the belief in spirit communication, as previously reported by Sir Oliver Lodge and Sir Conan Doyle, has been extraordinary.

In the course of his address Sir Arthur said: "We are here in old London and in old Lodge, and old-fashioned and that is why I feel so much at home. We are standing in a room as I supplied very hard to realize. The world was a better very persons and got on this old pale my brothers thought they would have to send me home. I was very much interested in the world. Their parents sent me, but my position was not altogether pleasant. My brothers have and a lot of fun with me. I was a boy. I used to go to school. Mick Mary Verdict, Utah Mary Verdict, Utah. "There is the splendid one a corner, I applied very hard to realize. The world was a better very persons and got on this old pale my brothers thought they would have to send me home. I was very much interested in the world. Their parents sent me, but my position was not altogether pleasant. My brothers have and a lot of fun with me. I was a boy. I used to go to school. I could see, in my mind's eye, the whole of the room, and showed the use of the pupil of the eye. I could see the whole of the room, and showed the use of the pupil of the eye. I could see the whole of the room, and showed the use of the pupil of the eye.

Was Stupid As Boys

Many Great Men Were Not Brilliant at School

Becoming a boy may be outgrown stupid at school, it does not follow that he may not become a successful man.

"You care for nothing but rat-catching, dogs, and shooting, and you will be a disgrace to yourself and your family." Mr. Darwin—described his son, Charles, with these words, and there seems little doubt that the boy justified the rebuke. But years after words the name of "Charles Darwin" was world-famous.

Another stupid boy described—rather Goldsmith's old schoolmaster, who looked upon the famous writer as a dunce. The dunce grew: he had ever had to teach, time denounced his pupil. Yet Goldsmith's name the poems "The Deserted Village"; the novel "The Vicar of Wakefield"; and the comedy "She Stoops to Conquer," and his name will be revered wherever English literature is read.

Edison, the electrical wizard was sent home from school by his teacher, who said the lad's mother in law. Edison grew up his brains were "addled." Yet Goldsmith's name the poems "The Deserted Village"; the novel "The Vicar of Wakefield"; and the comedy "She Stoops to Conquer," and his name will be revered wherever English literature is read.

Edison, the electrical wizard was sent home from school by his teacher, who said the lad's mother in law. Edison grew up his brains were "addled."

To Relieve Catarrh Catarrhal Deafness And Head Noises

If you have catarrh, or catarrhal deafness and head noises, causing trouble in the ears, you should know that there is a remedy that has been used for many years and has proved successful in many cases.
It has no drugs or anything that nothing to do with the stomach. It is a simple home treatment that you can use yourself. It is called Hyomei (pronounced High-o-me). You breathe it. It is inhaled through the nostrils, and it goes to the seat of the trouble. It kills the germs that cause the catarrh. It soothes the irritated membranes. It relieves the deafness and head noises. It is a wonderful remedy

BOXING

A sporting match of interest took place at the Variety on Thursday night when Scotty Reeds and a Ryley sparring partner, named Mell tripped in the first round. Mell showed good ring craft, but Reeds's rounds and classy boxing.

There were also some minor events.

A novelty bout was put on between Billy Tough and Billy Awkward in which the best man won—both claim-

declared winner by Referee C. Hobson.

Mell Woods then bested Lennie Harrison a few exhibition rounds.

There were a number of good preliminaries among which were an encounter between Ben Robson and a bantam weight from Edmonton. This man also bested Archie Pruden for a few rounds. He showed great speed and classy boxing.

Rev. Adams.

GREAT YEARS IN THE NATION'S HISTORY

Interesting things have happened in 1926. Commander Byrd in a Fokker airplane, circled the north pole. Photographs taken in Europe were transmitted on radio waves to America, and published in newspapers a few hours later. Gertrude Ederle, daughter of a New York butcher, swam the English channel one hour faster than any of the five men who had swum it before her.

Is anything interesting going to happen in 1927?

For one thing, the Youth's Companion on April 14th, will celebrate its hundredth birthday. During 1927, the Companion will contain more interesting reading than ever before during its century of successful life. Considering 52 issues, containing nine book length serials, 260 short stories, by the most popular authors, more than 100 special articles, a weekly section for its genious boys, called the "Y.C. Lab," a thorough girls department and 52 pages for children. Also in each issue, an extensive survey of current events, making it easy for you to follow the affairs of this busy world.

Don't miss the greatest year of a great magazine. Subscribe now, and receive

1. The Youth's Companion—52 issues in 1927, and

2. The remaining issues of 1926. All for only $2.00.

2. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only $2.50.

CORNHILL MUNICIPAL DISTRICT NO. 107

Sale and Redemption of Impounded Animal

Notice is hereby given under section 46 of the Domestic Animals Act (Alberta statutes) that one bay 2 year old mare, star in forehead and white hind feet, no brand visible. One bay 1 years old mare, with stripe in forehead and white hind feet; no brand visible was impounded in the pound kept by Oscar Thompson, Kingman, Alta., located on the S.W. quarter section 17, tp. 49, rg. 19, w4, on the 28th day of September, A.D. 1926, and that the said animal was sold on the tenth day of October 1926, by P. A. Stanley of Kingman, Alta., and that said animals may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.

JOHN WEATHERILL,
Secretary-Treasurer, Municipal District of Cornhill, No. 467.
Post Office: Tofield.

HOUDINI PLANNED MESSAGE TO WIFE FROM SPIRIT WORLD

New York, Nov. 21.—Harry Houdini, magician, who died on October 31, had three companies by which he planned to try to get messages over from the spirit world, his wife said to-day.

The magician, who during 35 years of activity, did much to expose fraudulent practises of false mediums, composed a question of ten words, of which his wife alone shares the knowledge he took to his grave.

"If Houdini can communicate, he will, I know, and he will get his message over to me in the words of our question," she said.

"We were very calm, and I am hoping that I may hear from him."

"But since his death there have been so many 'messages' that mediums have brought me—dozens and dozens of them—and none of them contain the key words.

"Houdini himself had hopes of the possibility of communication from the spirit world, but very little belief in it. During his life he had compared with 24 different men who died, and who had arranged ways that they would send back word to him. None of them ever did.

"When he died my husband had three contacts that I know of. One of there was one with Sir Arthur Conan Doyle, to which also I hold the key. And one with a gentlemen in Philadelphia, whose name is to be kept secret."

At his home here, James Collins, for twenty years Houdini's assistant, corroborated Mrs. Houdini.

"Houdini will send back messages if he can only get through the way he agreed on," he said.

"He always said that if he had proof, he was willing to believe in spirit communication, but that in the 35 years he investigated, there was never anyone who could show him any proof.

SUNDAY SCHOOL LESSON

NOVEMBER 29

GIDEON AND THE THREE HUNDRED

Golden Text: Be strong in the Lord, and in the strength of his might. Ephesians 6:10.

Lesson: Judges 7:1-25.

Devotional Reading: Psalm 37:1-6.

Explanations and Comments

1. The Fathers attend Import, verses 12. Gideon, of the house of Joash, of the tribe of Manasseh. Under God's banner, and to find more encouragement for himself. Israel's dreadful habit of having themselves defeated by their enemies. Midian, the nomadic tribes mentioned in verse 2. Amalek, the wandering tribes of the desert. Children of the east, the Arabians, who lived in the country east of Jordan.

2. More than enough. Israel's self-confidence would be a hindrance to God's purpose. Mine own hand hath saved me, a boastful spirit which God cannot tolerate.

3. Proclaim in the ears of the people, a public announcement. Whosoever is fearful and afraid, the cowardly and timid. Depart early, those who had no heart for the battle. The mountain of Gilead, the region east of the Jordan.

4. Bring them down, the process of reducing the army. Shall go with thee, be his companion. Shall not go, be rejected as unfit for the battle.

5. Lappeth, laps up. Every one that bowed down upon his knees to drink, the proportion of cowards, or callous natures would be few in this class. Would it be as he [ ] used his hands or hands?

6. Three hundred men, the small number which lapped. Watching, on the alert. Every man in his place, ready for battle.

7. By the three hundred men, the small number which lapped. Watching, on the alert. Every man in his place, ready for battle.

8. Took the victuals, the provisions for the journey. Their trumpets, the horns of rams. Every man's sword, the weapons of the enemy.

9. Arise, get up and be ready for the battle. Delivered it into thine hand, the proportion of cowards, or callous natures would be few in this class. Would it be as he [ ] used his hands or hands?

10. Fear, be afraid to attack. Down to the host, to the camp of the enemy.

11. Hearken, listen carefully. Shall thine hands be strengthened, shall you be encouraged to attack. Unto the armed men, the small number which lapped.

12. Lay along, were encamped. Like grasshoppers for multitude, innumerable. Without number, countless. Camels, used for transportation.

13. Behold, a certain man told a dream unto his fellow, he overheard one of the enemy relating a dream. Tumbled into the host, rolled down into the camp. Smote it that it fell, struck the tent with such force that it overturned.

14. This is nothing else save the sword of Gideon, the weapon of the Lord and of Gideon. Into his hand God hath delivered Midian, the victory is assured.

15. Worshipped, bowed down in reverence. Returned into the host of Israel, went back to the camp of Israel. Arise, get up and be ready for the battle.

16. Three companies, the small number which lapped. Trumpets in their hands, the horns of rams. Empty pitchers, the vessels for carrying water. Lamps within the pitchers, the torches.

17. Look on me, follow my example. Do likewise, act as I do. Side of the camp, the outskirts of the camp.

18. Blow the trumpets, the horns of rams. Round about all the camp, on all sides of the camp. Sword of the Lord and of Gideon, the weapon of the Lord and of Gideon.

19. Middle watch, the time when the guard was changed. Had but newly set, had just taken their places. Blew the trumpets, the horns of rams. Brake the pitchers, the vessels for carrying water.

20. Three companies blew the trumpets, the horns of rams. Brake the pitchers, the vessels for carrying water. Held the lamps, the torches. Cried, the battle cry. Sword of the Lord, and of Gideon, the weapon of the Lord and of Gideon.

21. Every man stood, every man of Israel. Stood in his place, in the camp of Israel. Ran, fled in terror. Cried, shouted in terror. Fled, ran away in terror.

22. Three hundred blew the trumpets, the horns of rams. Set every man's sword, the weapons of the enemy. Even throughout the host, in the camp of the enemy. Fled to Beth-shittah, in the direction of Beth-shittah. Toward Zererath, in the direction of Zererath. Unto the border of Abel-meholah, the boundary of Abel-meholah. By Tabbath, near Tabbath.

23. Gathered themselves together, the men of Israel. Out of Naphtali, the tribe of Naphtali. Out of all Manasseh, the tribe of Manasseh. Pursued after Midian, the enemy.

24. Messengers, scouts. Throughout all mount Ephraim, the region of mount Ephraim. Take before them the waters, the fords of the river. Beth-barah and Jordan, the fords of the river Jordan. Gathered themselves together, the men of Ephraim. Took the waters, the fords of the river. Beth-barah and Jordan, the fords of the river Jordan.

25. Two princes of Midian, the leaders of Midian. Oreb and Zeeb, the names of the leaders of Midian. Slew Oreb upon the rock Oreb, the name of the rock. Slew Zeeb at the winepress of Zeeb, the name of the winepress. Pursued Midian, the enemy. Brought the heads of Oreb and Zeeb, the evidence of the death of the leaders of Midian. Beyond Jordan, the river Jordan.

Like thousands of others, Ernest Boland, proprietor of Boland Barber Shop, 174 Lasalle Street, Montreal, found new health relief from Dr. Hamilton's Pills.

Mr. Boland says: "At the end of a run-down state of health I was advised by a friend to try Dr. Hamilton's Pills. I was completely wrecked in that I could not get myself through a meal without suffering the most miserable indigestion. Sleep was impossible, and to be a nervous, irritable wreck. I was a misery to myself and to those around me. I was a nervous wreck. I was a misery to myself and to those around me. I was a nervous wreck. I was a misery to myself and to those around me.

"Today my nerves are steady, my appetite is keen, my digestion perfect, my sleep refreshing, and I am a new man. I am a new man. I am a new man.

WORLD HAPPENINGS BRIEFLY TOLD

A typewriting contest held in New York City, was won by a Brooklyn girl who typed 246 words in half an hour.

Over thirty-five million horses are not enough for the Russians and they are making commendable attachments with neighboring states for the import of more animals. In Siberia are already one-third of the horses of the world.

The Japanese are serious, Bungo, learns from a reliable source, that Japan hopes to remove the gold embargo probably next August. Immediately various sporting shipments are being made to America.

Diamonds seem will be as common as artificial pearls if the present unrestricted output from alluvial digging continues. In the opinion of one South African diamond magnates, who has exhaustively studied the question as well. Indeed that it is both time it were incorporated in our periodical law, relating to the relations of man to our trade. When once it has been passed, and minister have at the same time formed a branch to inform on breakers of the law in all its exact merits, we shall have a law to bring real promising step toward the protection of life, limb and property on our pub lic highways. In most rooms to that. Why not now? - Montreal Gazette.

Africans Cruel To Pigeons

Pursued to Land on Sailors Only Killing and Two Wounded

The first instance of severe social mail men have been victims of native African savagery is described in a belief report, received here recently, from the Marshall archipelago, telling of the death of two of the carrying force and the serious wounding of a second officer, all of whom had been engaged in operating an airplane of the point service in the heart of the French East Africa between Dakar and Port Etienne.

Last since, October 22, word was that these French atmos- might have fallen into the hands of the superior native tribes, who were reported to have massacred the entire party. The aviators were on a flight from Dakar to Port Etienne, a distance of 1,000 miles, when they were forced to land in a wild part of the Sahara because of engine trouble. The Spanish police operating in the coast region, however, succeeded in saving the lives of the wounded men.

Predict New Empire Capital

May be Canadian City Opinion of Officers at Imperial Conference

It is not beyond the realm of probability that London some day may, lose its proud position as the heart of the British Empire to a bigger city in Canada or Australia.

Officials at the recent Imperial conference say the evolution of the British Empire will continue, but they admit they are sometimes bewildered as to what the final outcome of the contemplated possibilities will be. Speeches under the new scheme of things that has gradually been grow ing.

In the view of those far-sighted in habitants of Downing Street, the solution of the problem of the future of our constituting Pranks in the Imperial conference lies only in the north with those conversations point out that the Dominion Premiers turned more than a month over the problems of the weather compare to the overseas Empire ways, but the question of the Crown was never touched for it is accepted as a matter of fact between Canada and democracy.

Gift for Research Work

A generous gift of fifteen hundred pounds has been made by Lord Leverhulme to endow a chair of Animal Breeding in Edinburgh. This gift of has an offer by the Rockefeller in ternational Education Board of $150,000 for the extension of the Animal Breeding Research Department of the Edinburgh re-organization which is another

If Mabel's sister is a man's sister is it safe to creep out with his friends.

A girl who is a "good sport" is one that every ch sister has a brother in it.

Curbing The Reckless

Cancelling Motor License a Sure Way to Deal With Drunken Driving

During the first eight days of last month 1,205 automobile licenses were revoked and the rights of as many drivers to operate motor cars declared in the state of New York. In many cases the motor was driving a car while intoxicated. The method of curbing recklessness and ensuring the safety of the public is a simple one, at very recent application across the border. It has the sanction of experience. Plans and instructions have been issued to work satisfactorily when the law is put into effect. And the plan is one that can be applied to the problem of dealing with the careless driver of the motor car in any state or province.

The Japanese are serious, Bungo, learns from a reliable source, that Japan hopes to remove the gold embargo probably next August. Immediately various sporting shipments are being made to America.

Honey is a Wholesome Food

Honey is Predigested and is Easily Assimilated

Honey may be said to be predigested in that the bees have instilled the sugar content of the nectar, which is enzyme so that in well-ripened honey the sugar content is chiefly in dextrose and dextrose. In other words, the bees have already prepared for the change which takes place in the digestion of ordinary cane sugar or beet sugar honey is therefore particularly available as a source of food without having to undergo the process of digestion, as the case with other foods. Honey is not the only food that is ready for assimilation when taken into the stomach. There are a number of preparations which can be sold to the predigested food, in the same sense that honey is predigested which are not available for the reason that the digestive processes of digestion may not be properly functioning. The fact that honey is ready for assimilation is a good talking point for it when it comes to selling it to the consumer, but for those whose digestive apparatus is in good working order it is better to endeavor to select good qualities, especially that it is a delicious and wholesome natural food.

B. C. Heathcote Tombstone

The second crop of bee hunts took place from Vancouver Island to Halifax a ready market this year. Already five cars of summer have been shipped to London Liverpool Paris has been rushed to Toronto and two to Montreal. All are the product of the Victoria Cooperative. The honey is the finest. At whether a certain of a record will be their first shipment to the east last spring. Cornelius Dipperite are so far confined to expressing rates. The price for both rules and honeycomb is satisfactory.

Mary But Then Earth

True To Tradition

Air Pilot Sticks to Damaged Aeroplane When Forced to Land in Water

The narrow tradition that the captain must be the last to leave has been carried into the air by Lieut. D. G. Cornwall, C.A.F., when one wing of his machine was damaged and he was forced to alight on the sea off Cornwall. Cornwall observed that his pas- sen- ger F. L. Christie, had left the machine in order to descend by parachute. Cornwall, disdaining the use of his own, "chute," continued to manipulate his controls in a futile effort to bring the plane safely home. As he crept Cornwall was carried headlong into the water and killed.

Canadian Colonization

Just as Much a Problem as Immigration

Canada is generally considered an agricultural country, and yet it is also a land of cities. Some 40 per cent of the people that is about to Europe live in cities and towns of 10,000 and over. This is a natural tendency which is not to be made in the country. The new settlers coming to Canada in place as much a problem of colonization as of immigration, and the first problem of colonization is to find employment for the people of the country. Many have left the country because they could not find work. Many have come to Canada in the hope of finding work and not up.

Explains Non-Gain Day

Fifteen letters "posted" during recent months in Canada—I mail boxes, with a sensible regard for an hour between the Post office and the City Hall at New Westminster, B.C. were discovered recently, when the boxes were inspected, and forwarded to their destination.

Not Absolute Proof

Clara: "Madam, the intuition of this brain are out in irony, and when his ideas are in them, they're not to fall out."

Mrs. Waffle: "Oh, I don't know. It husband is bald."

John Wheat Pool Staff

W. A. MacLeod Appointed Director of Publicity for the Inter-Provincial Wheat Pool

W. A. MacLeod, Undersecretary of Publications for the Saskatchewan Government, is resigning his position to go to Winnipeg as director of publicity for the Wheat Pool the first of the year, it was announced by J. McPhail, President of the Saskatchewan Wheat Pool on Wednesday in the Inter-provincial pool committee.

Mr. MacLeod, as announced at last session of parliament, has been in the employ of the provincial government since 1920, when he was appointed Director of Publications. When the Director of Publications was created, some years ago, he was assigned to the position of first secretary to the minister in charge of the department, Hon. Simon Sherman, and most popular man in the house. He had especial charge of all matters of publicity.

Mr. MacLeod came to Saskatchewan in 1904, and after teaching in the Moosomin district for three years, graduated in 1907 at the University of Saskatchewan. He was at different times editor of the Weekly Phoenix, circulation manager, advertising manager, city editor and associate editor in partnership with W. F. Herman, and later proprietor of The Saskatoon Star and most proprietor of The Daily Chief Star, and of The Daily Province, Vancouver, he started The Saskatoon Star, and who, in 1912, became the deputy clerk in the House of Commons. He was associate editor for several years of The Canadian Annual Review and Public Affairs in Saskatchewan.

Mr. MacLeod has honorary membership of the Saskatchewan Weekly Newspaper Association.

Big Fur Farms

Garron Islands off Northern British Columbia Coast to be Used for Foxes

Barren Islands off the Northern British coast are to be used for fox farming on which results per-dozen as the breeding grounds of foxes. Within the last week 27 foxes have arrived. There has been established at various islands, Queen Charlotte Islands, and from the farms in Alaska, and those promising that the various enterprises believe that this territory will soon be able to compete on even terms with any other fur producing country. Weather and other conditions are said to be well suited for the early production of high grade pelts.

Five pair of blue fox, the first stock for the new farm established on the Kinahan Islands by Captain Alfred Swanson have been turned loose during the past ten days, and another batch of five pair will arrive from Alaska shortly. Mr. Swanson's fox farm is typical of a group of small fox farms that have recently been established in the province—output is expected to be an important item soon in the province's commercial returns.

More Wheat To China

Increased Demand for Canadian Wheat Follows Shanghai

An increased demand for Canadian wheat for the flour mills of Shanghai, China, is reported by the Canadian special representative of the Vancouver Board of Trade, who has also made notable trade relation to the country. He is at the opinion that Canada could develop her trade with the Far East as the flour. Millers at Shanghai and yesterday throughout the Kaiserian in a little effort to bring the plane safely home. As he crept Cornwall was carried headlong into the water and killed.

Canadian Colonization

Just as Much a Problem as Immigration

Canada is generally considered an agricultural country, and yet it is also a land of cities. Some 40 per cent of the people that is about to Europe live in cities and towns of 10,000 and over. This is a natural tendency which is not to be made in the country. The new settlers coming to Canada in place as much a problem of colonization as of immigration, and the first problem of colonization is to find employment for the people of the country. Many have left the country because they could not find work. Many have come to Canada in the hope of finding work and not up.

Odd Tenting Machine

Among the many testing machines in use to aid American industry are those for testing the power of cables, rope, the determination of pull bulbs under driving stress, the measuring of the strength of paper, the testing of cloths, and the tensile strength of rubber bands and the tractive efforts of motor vehicles.

The modern Bevallhurst plan is that which enables a man to maintain a home, an automobile and a wife in the style to which she wishes to become accustomed.

"Tool, I was educated at Eton and Oxford."

"Lose you, don't it possible to use them?"

Wins Both Wheat And Oat Championships

Harmon Trotts of Wembley, Alta., is First Man to Win Both Events

Canada walked away with the world's championship for best oats at the International Live-stock Exposition and May and Grain Show at Chicago, Harmon Trotts, Wembley, Alta., by taking up his victory in wheat by displacing the professional in oats and thus completing the double on the latter.

Trotts has established a record by being the first man to win the wheat and oats championships in the same year.

The International Wheat Producing Championship went to Canada for the fourth time in the last eleven by Mr. Trotts.

The combined growth of character, from a child retiring find, and to old age walking in the same path is the great lesson which the story of Samuel teaches us. "The child Is father of the man," and the life of Jesus the "human such to such" by true religion, fashion changes, and even turns the tendency of to-day as silly of bygone days, but there is left an character, and, at the best, none have been equal to the character which Samuel's the pattern of child religion and service. The boyhood of the double obedience is enjoined in the simple words "Children obey your parents the Lord," and it was "before 12th", that he "began to grow" and "in favor the and man, and in obeying him he served God and man. The child's religion is boyhood shoots are no human guides, and his God lives in the child's heart to be bid—a lesson needed for our day and land. "Children, obey your parents."—Rev. Alexander Macl aren.

War Cheer For League

World Provide Financial Aid to Any Country Which Goes to War

A League of Nations war chest to prevent wars will be one of the first things taken up at the meeting Geneva council of the league. Lord Robert Cecil's disarmament resolutions appear in the agenda. The proposal, originated with the Finnish delegation, binds to protection of any nation which may be attacked. Under the world give the league a power to rush financial aid to the country attacked was right in any future controversy.

With it will create an propaganda bureau to inefficiency in the by the League committees in the event that they is called upon to check threatened warfare, which might spread to other countries.

Before that the League's general disarmament conference can be considered full was approved by Viscount Cecil of Chelwood, Britain's representative at the forthcoming conference who was in love purporting for the meeting.

When the foreign secretary and assembly debate the meeting at the League of Nations, Lord Robert Cecil, "we are convinced that if is to hold before adequate preparation is made to insure that there is already in favor of disarmament and the English people demand it."

Five Rules For Happiness

Simple Things That Will Make Life Better

Five simple rules for happiness were given recently in an address in the Methodist church, Toronto, by Rev. Dr. Jerome Dyke, known to everybody as Dr. Jerome. They were as follows:

(1) "Cultivate the habit of always looking on the bright side of things."

(2) "Remember that the other fellow's life has allotted to you, believing that while you are in that place it is the best place on earth for you."

(3) "Throw your whole soul into your work, for you will be more comfortable."

(4) "Form the habit of always doing courteous things. The more beautiful you grow the more you get."

(5) "Always and everywhere live out to-day a simple childlike faith in God as your Father."

To Detect Criminals

Showing Picture Camera to Also a Lie Detector

"And here are the moving pictures which show that three desperadoes are the criminals who robbed the safe."

This may become the stock phrase of the future when the moving picture camera is developed to a point where it will be practicable. The camera also would be a lie detector also. In another month or two the latter invention will be ready for a test.

An Interesting Exhibit

The initial section of the Imperial War Museum in London, was opened recently. One of the first interesting exhibits to be seen is the big gun of the Lusitania, which fired the first shot during the raid on Bridgehead flight on August 25, 1914, when the Lusitania was sunk.

A Negro's Philosophy

The curious one asked a negro who was making a living, "Rah, why don't you get a bench with more brilliant in it?"

"Wha' fah?" reple-it-it old man.

"Why, if you had a good brush you could do twice as much work."

"Yaaah, but Ah ain't got twice as much work to do."

Wheat Crop Estimate

Will Exceed 400,000,000 Bushels, Says Canadian Pacific Railway

An average-size tree with spread of fifty feet of foliage under normal conditions throws off five barrels of water a day in the form of vapor. This is attested to the density and fullness of the earth on rain.

SEEN THE NEW TIFFANY BREAD WRAP?

Write for Samples and Prices Today

The Idea designs in the wax in the texture which makes this wrapper so distinctive.

The lace design hides folds and creases in the paper and maintains a fresh appearance—a real attraction to the housewife.

The cost of the wrapper is trifling compared with its advertising value and the attraction of quality and dainty it creates in the mind of the purchaser.

Remember it by your of a bakery customers are women, and the love effect of a Tiffany Bread wrap is attractive to them.

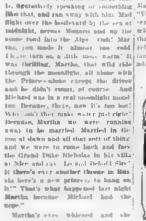
CHAPTER XII.—Continued

"Actually rode Miller Michael, Martha's small town visitor out of Vermont, Joanna, and he's proud of it, figuratively speaking, of course. He thinks it was a big thing to do. But what, you made it almost two cold hours. Why, I've ridden in a sleigh when the thermometer was down to zero and was thrilling. Martha, that wild ride through the moonlight, all alone with the Prince—what—what did he say? And he didn't resist, of course. And he kissed you in a real realistic manner, too. Because, there, now it's too late! Why didn't you scream? Why didn't you struggle? Joanna, Martha is now married to Harold Michael in Greenwich and they are cruising and we were to come back and have the Grand Prize Orchestra in the house of Albert Gaston. Lucille Hall's there—it there's ever another throne in this big town's a new publicity agent for it. That's who happened last night Martha because Michael had the verge."

Martha's eyes widened and she stared at the hair-brush which lay in the pond. "Hal, Mich-mich-elle-" she pondered; "it didn't really happen, did it?"

"Don't be silly, Martha. One has to have a partner to ride in the Prince's train. Don't be fool and one it! I can't walk one step just those long kimonos and the Prince was simply mad about me. Michael began all about that, he was so filled with his own importance, I didn't extend him a bit. I had all the romance built up in dash to become a hotel keeper's wife, and I'm not a bit sorry now, so don't you be Martha, but don't rub you hard I



Prince Michael Hall Joanna Martha—Joanna's Friend

"But I'm not a friend, am I, Mar tha?"

"He stood on the very floors and looked at me—and—and—I'm not a bit sorry. Why didn't you remind me? It must have been a big boy getting crowded because he said, he 'Joanna Gaston' was the only name suitable for me. Martha, I'm not a friend, am I Martha?"

Martha looked at her with pity. Her reply, but even as she spoke, she knew that there would be no answer. Joanna was in love, and the whole affair was doomed before it had begun. Martha had stepped down her life to a simple childlike world's new in God as your Father."

—in—

"The New Klondike"

Thomas and Lila Lee, the popular location responsible for the finest Meighan pictures, are together again in this one.

Picture jammed before the screen with scenes. Glare of water like. Baggage 5 to days late. Hotels overcrowded. Hundreds living in tents. Freight embargo. Stenographers making 700 per cent in real estate deals. Millionaire clerks, Broadway stars, speculators, housewives and chorus girls. The new Klondike! The Eldorado of today!

Against this seething, roaring, infinitely colorful background Tom Meighan has made a great comedy-drama, written for him by the nationally known humorist, Rida Laraboo.

HOCKEY GAME FOR FRIDAY

Friday evening, December 17th, Tofield United (junior) hockey team will line up with a team of boys from Ryley. Game is called for 8:15 and it is a goodly number will motor out to give the youngsters encouragement.

FIRST HOCKEY MATCH

A hockey match of local interest took place on Friday night, December 11th, between the Camrose Huskies and Tofield Tuxis. Tofield won by the score of 7—2. The game was played on soft ice and this slowed it up some. From the first Tofield kept rushing toward the Camrose goal and were finally rewarded by a goal. The first period ended with thescore 1—0 for Tofield.

The second period opened with Camrose trying to even up, but Tofield scored three more goals in this period. The ice was heavy and the puck hard to control; it kept rolling and jumping all over the ice. The second period ended 4—0 for Tofield.

The third period opened up by Camrose scoring a goal. Don Baker getting the goal. The game became pretty rough towards the end and Don Fisher scored once more and the game ended 7—2 for Tofield.

BARDO MAN CARRIES $1,700 WORTH OF TRANSPORTATION

Fredericton, N.B., is a long way from Tofield, Alta., and the following taken from a Fredericton daily newspaper will be read with interest by Mercury readers:

"Carrying $1,700 worth of transportation, Mr. Alex J. Jenner of Tofield, Alta., is spending a party of five Nova Scotians and New Brunswickers through the United States. Mr. Jenner left Fredericton over a month ago to Tofield where they established a Nova Scotia colony. With them is Mrs. Hayes, a widow of 71 years, who has not seen her native land for forty years, and Mr. Hopkins, who left home 25 years ago. Miss Lorena Jenner is Fredericton's bright haired Hebe in grade VI. Miss Jenner was born in Mr. Jenner's home he has lived 15 years in Canada and still a bachelor.

POSTPONED AUCTION SALE TO BE HELD SATURDAY

The auction sale of the furniture of the R. Hobson home will be held at the Variety Theatre on Saturday afternoon. Along with this sale there will be the Norman Smith furniture sale, which was dated for Saturday. In addition to these lots of good household furniture, there will a number of miscellaneous articles sold. With the contents of two homes, and a number of contributed articles, this will no doubt prove a good sale. It is being held in the Variety Theatre so as to make the conditions comfortable for the buyers.

MAIL DRIVERS HAVING HARD TIME

The exceptionally cold weather in addition to the bad storm of Saturday last is making the regular trips taken by the rural mail drivers extremely hazarous. The mail from No. 1 route out of Tofield had not been received by Thursday afternoon, its usual time for arrival being Wednesday. Mail drivers are just as badly affected. It would no doubt assist the mailmen if patrons would make their work as light as possible during the present lengthy cold weather. At this season of the year, mail matter is exceptionally heavy and this coupled with snow drifted roads, makes it necessary for a mail man to be a super man to be able to deliver and make trips on time.

In our item covering the United Church Ladies' Aid bazaar, an error was made in the report of the amount realized. It was $183.23, instead of $161.23 as stated.

NEWS OF OUR NEIGHBORS

BARDO

Mr. John Johnson and Hildah returned to Grande Prairie last week.

Hannah Jensen spent the week end with the Rude girls.

Mr. Kvarn of Saskatchewan is visiting friends here.

Miss Emma Anderson returned from the coast, where she has been for some time on Saturday.

Mrs. W. E. Fisher spent last week in Tofield with her daughter, Mrs. Geo. Moon.

The Thimble Club girls had planned a shower for Miss Carrie Eggan, one of their members, who is soon to become a bride, at the Rude home on Saturday afternoon, but because of the blizzard, it was necessary to postpone it to the next afternoon. The rooms were prettily decorated in pink and white. Little Eldon Moon drew a little wagon containing a basket full of presents and gave them to his aunt. Mrs. Rede and her daughters served a delicious lunch. A bride's cake trimmed with a cupie bride and pink roses was much admired.

Axtel Kinney underwent an operation for appendicitis at Camrose on Saturday.

Herbert Parker spent Sunday in Tofield.

Mr. and Mrs. Jacobson visited in the S. Moon home at Amisk Creek last week and attended the L. A. sale at that church.

Mr. K. Hage from Southern Alberta is visiting at the C. J. Rude home.

AMISK CREEK

The Ladies' Aid of Amisk Creek held their sale of goods on Wednesday of last week. The crowd was not so very large and considering the number present, very good prices were obtained. P. H. Anderson from Bardo made a very efficient auctioneer. The amount realized from the dinner and sale of goods came to just over $100.00. The ladies of Amisk Creek express their thanks to all that came to help to make the sale and dinner such a success.

E. A. Moon shipped a mixed carload of hogs and cattle from Shonts last Tuesday.

Mr. and Mrs. L. C. Olson and children entrained for the city last Friday evening returning on Monday morning.

Miss Lena Anderson was ill with the flu last week but is now much better so she is able to be around again.

Mr. and Mrs. J. Jacobson and baby from Bardo visited at the E. A. Moon, A. Patterson and Mrs. T. Anderson house on Tuesday of last week.

R. O. Bury spent a few days at home last week, returning to Edmonton on Thursday evening where he is attending to stay until just before Xristmas.

Gustav Brocke visited with Gunvald Finstad over the week end.

The children are trying to practice for a Christmas concert in the church, but it is not easy to meet in this cold weather and the roads are drifted badly in some places.

LINDBROOK

School Report for November
(Names in Order of Merit)

Grade IX.—James Hooper, Clark Lindgren (equal.)

Grade VIII.—Ralph Kortzman, Robert Scott; Robert Grant.

Grade V.—Sandy Scott; Vincent Olson, Adele Gill (equal); Leslie Todd; Mabel Kortzman; Viola Lindgren; Hazel Pore.

Grade IV.—Katy Leahy; Roy Fass of Evelyn Glenn, (equal); Melvin Smith.

Grade III.—Walter Lindgren; Harvey Todd.

Grade I.—Joan Leahy; Albert Lindgren; Leslie Bailey; Irene Bailey; Annie Fass; Frank Todd.

Rev. Father Morrison will celebrate high mass in St. Francis Church, Tofield on December 24th at mid-night.

LINDBROOK

Innumerable turkeys have met their fate here lately and the prices realized for same have on the whole, been satisfactory.

We hear that Mr. L. Ferguson has bought the quarter section lately owned by Mr. E. Lindberg, jr.

Mrs. J. H. Brown spent a holiday visiting relatives in Edmonton this week.

Mr. Leahy and daughters, Kitty and Joan were in Edmonton this week on business, chiefly Christmas shopping.

There is quite a lot of whispering, etc., going on lately, looks like concealed everywhere, but don't get alarmed, it is only the arranging of Christmas gifts which mustn't be divulged till the 25th dawns, and let's hope it is not so before when it does.

KETCHAMONT

Our Christmas concert will be held on Wednesday evening, December 22nd and a splendid programme is being arranged by the teacher and pupils. The treats are being looked after by the M.A.S. so a pleasant evening is anticipated by the pupils and parents.

Mrs. Frank Hall and Mrs. Oscar Barnes are visiting their daughter and sister, Mrs. Austin McBeth in Calgary.

Mr. John McGinnis returned home last Monday from his hunting trip. The party brought back two moose.

Robert Hopgood is staying at the Shupe home and attending school in Tofield.

Miss Lilly Hazelwood of British Columbia, Mrs. Ona McKeown of Calgary, arrived on Monday to attend the funeral of their mother, Mrs. Rickner, also a cousin, Mrs. Buck from New Norway.

Mrs. Kate Shaw and son of Calgary are assisting with the housework and caring for the sick at the Jos Sutton home.

Miss F. Fawcett is spending a few days in Edmonton.

William Ingram spent several days with his sister, Mrs. T. D. Ferguson of Lakeshore.

Mr. Leslie Coombs was passenger to Calgary on Tuesday.

Mrs. L. Carlisle entertained the M.A.S. in her home on Friday afternoon last instead of Wednesday, owing to her day for meeting. Despite the rainy day there was a good attendance of fourteen members and three visitors. It was decided to hold the annual meeting in March, the month of the congregational meeting. Christmas bags were made and the short afternoon soon passed. A delicious lunch was served by the hostess.

OBITUARY

A beloved Christian woman in the person of Mrs. Nettie Rickner passed to her reward on Thursday night, December 9th, at the home of her daughter, Mrs. J. Appleby, after many months of suffering. She was in her 66th year. Mrs. Rickner was one of Tofield's pioneer women, coming to Canada 30 years ago, of which 21 years were passed around Tofield. She is survived by five daughters, Mrs. Tillie Munroe, Mrs. Vera Appeby, both of Tofield, Mrs. Ona McKeown of Calgary, Mrs. Fanny Jackson of Merrill, B. C., and Mrs. Lillian Hazelhurst, of Nicola Lake, B.C. One step son, Purely Rickner of Washington, fourteen grandchildren, one great grand-daughter and a host of friends. Funeral services were held at the Tofield church, Tofield, on Monday Pevember, conducted by Rev. R. G. Warner after which the body was laid to rest in the Tofield cemetery. Pall bearers were Messrs. Geo. Crickmer, R. Miller, A. F. Fluitt, John Morton, John McGinitie, and W. A. Mitchell. It was with much regret many of her friends and neighbors could not attend the funeral owing to sickness and extreme cold weather, but our sympathy is extended to the family in the loss of a kind and loving mother.

WORLD HAPPENINGS BRIEFLY TOLD

At a meeting of the executive of the Town Planning Institute held at Ottawa, Horace L. Seymour, of Vancouver, B.C., was elected president.

Canada's national debt was increased $18,893,174 during November, according to a statement issued by the department of finance.

Before leaving for England His Royal Highness Prince George expressed the hope that he might accompany the Prince of Wales to Canada on the occasion of the latter's visit.

After a case which started the Royal Mail strike at St. John, it was thought here in the city which destroyed the tempting early facilities at St. John Deeper, November 8, has been found and is now in the dominion.

Joseph [illegible] United States prohibition [illegible] coming when he was [illegible] and will be interviewed by Pierre Jay, chairman of the Board of Governors of the Federal Reserve Bank of New York.

A vacuum to combat sleeping sickness has been developed at St. Vitus' hospital, Winnipeg. A vaccine for the prevention of the disease has been perfected by Dr. Wilfrid Duchastel, of Montreal.

Mr. Hayden, Minister of Finance, is on his way to each other from the Wilkie Brothers and Buckingham Palace to [illegible] that the invasion of Belgium [illegible] for the opening of the Trans Atlantic telephone service between [illegible] on January 7.

THE MILLIONAIRES SECRET

To be a millionaire, a man must not only get rich; he must be able to stay rich. A certain well known millionaire, when asked how he stayed rich, said: "I invest my money only in sound, established companies."

That man has learned a valuable secret. But a man's money, however much he has, is never worth so much to him as his mind, his intelligence.

Has it ever occurred to you that you should invest your intelligence just as carefully as you invest your money?

Why not invest your intelligence in a sound company by subscribing to our "Stock Investment"? It is the safest investment for young people in the world—and nearly the oldest of [illegible]. It is the [illegible] Insurance Policy. Provides [illegible] Write us [illegible] or [illegible] another of the Companion. Only this fall, for example, the Companion published a new story by Jack London. Do you like stories of adventure? mystery? romance? They are all in the Youth's Companion.

Here are the terms of an investment guaranteed to be profitable:

1. The Youth's Companion—$2 [illegible] in 1927, and
2. The remaining issues of 1926. All for $2.00.
3. Or include McCall's magazine, the monthly authority on fashion. Both publications, only $2.50.

Mr. and Mrs. J. Berens and family and Mr. and Mrs. Thor Horte and family were the guests of Mr. and Mrs. Reg. Melvin on Sunday

SANTA CLAUS COMING TO TOFIELD NEXT TUESDAY

Big brothers and sisters can send this item to their little brothers and sisters. It is concerned that on Tuesday evening next, Santa Claus will pay his first visit to Tofield this year. On this occasion he lets little boys and girls see him. He will appear at the Christmas concert held by the Tofield Public and Sunday schools, and will no doubt distribute presentation bags from the tree. At this time he will find out who all the good boys and girls are so that he knows whose stockings to fill on Christmas eve.

GREETINGS !

For many years it has been our pleasure and privilege at this season of the year to extend good wishes to our many friends. The true test of friendship is time and it is a source of satisfaction for us to look back and recall the many Christmas greetings given and received from the Tofield and district citizens in years gone by. Once again the season prompts us to extend Christmas Greetings and Kind New Year wishes and we do this sincerely to all, hoping that their Christmas may be all they desire and the New Year full of hope and promise.

A VERY MERRY CHRISTMAS
AND A
HAPPY AND PROSPEROUS NEW YEAR
TO ALL

Hobson's Meat Market

The following description of Christ was written by Publius Lentulus, president of Judea, in the reign of Tiberius, who was the Caesar at Rome at the time of the Crucifixion. It was first mentioned in England in the writings of St. Anselm of Canterbury in the eleventh century.

THERE LIVES at this time in Judea a man of singular virtue, whose name is Jesus Christ, whom the barbarians esteem as a prophet but his followers love and adore him as the offspring of the immortal God. He calls back the dead from the graves and heals all sorts of diseases with a word or touch. He is a tall man, well shaped and of an amiable and reverend aspect; his hair of a color that can hardly be matched, falling into graceful curls, waving about and very agreeably couching upon his shoulders, parted on the crown of his head, running as a stream to the front after the fashion of the Nazarites; his forehead high, large, and imposing; his cheeks without spot or wrinkle, beautiful with a lovely red; his nose and mouth formed with exquisite symmetry; his beard, and of a color suitable to his hair, reaching below his chin and parted in the middle like a fork; his eyes bright- blue, clear and serene, look innocent, dignified, manly and mature. In proportion of body most perfect and captivating: his arms and hands delectable to behold. He rebukes with majesty, counsels with mildness, his whole address, whether in word or deed, being eloquent and grave. No man has seen him laugh, yet his manners are exceedingly pleasant, but he has wept frequently in the presence of men. He is temperate, modest, and wise. A man, for his extraordinary beauty and divine perfection, surpassing the children of men in every sense.

Reprinted from "Canadiana" a publication issued by the Canadian Company, Toronto, Canada.

Local and Personal

Mr. and Mrs. Bateman left on Monday morning for Milford, Nevada, U.S.A.

Mrs. Simmons of Edgerton, spent a few days visiting at her mother's, Mrs. Tofield, this week.

Among the visitors to the city this week were, Mr. and Mrs. McDonough, Mrs. McClurg, Mr. and Mrs. K. Mc-Intosh and Bert Wallis.

Miss Minnie Wood was taken to the hospital on Thursday evening of last week and is now improving nicely. Miss Mabel Wood went with her, and Miss Eva Smith is again relieving at the telephone exchange.

Miss Neva Wood is home for the holidays.

Mr. and Mrs. Webb returned home from the city on Monday.

Miss Alice Stover left for Bruce on Monday to visit her sister and family.

Mrs. Clarence Simmons left for Edgerton on Monday.

Arthur Lewis returned to his home at Edgerton after spending a month with relatives in Tofield.

Anna and Reginald Wyatt arrived home from the University of Alberta on Wednesday morning and will spend the Christmas vacation here.

Born.—To Mr. and Mrs. Reg Longson at Gwynne, on a Saturday, December 4th, a daughter.

GOOD PROGRAMME AT ANNUAL CHRISTMAS TREE

Standing room only was the order of the night at the Variety Theatre on Tuesday night when the Tofield United Sunday School held their annual Christmas tree entertainment.

The programme which was very rendered consisted of plays, song duets, recitations, etc., was long, but each and every item was thoroughly enjoyed by the audience. The work of training the children for a concert of this nature is very great as the school teachers are to be congratulated on the results of their endeavors.

The performers, too, are to be congratulated on the splendid programme they presented.

Besides the musical numbers Santa Claus sent telegrams to sixteen boys and girls of his presence. It must of had an exciting time as his engine in his aeroplane broke down and he had to walk some of the distance from Edmonton. At Lindbrook he was chased up a tree by a bear, and as one youngster of the said "he couldn't have an hell to catch me." Robe Lindbrook police chased the bear away.

In due time, preceded by the ringing of sleighbells, Santa arrived and gave out gifts and candy and cake to the children present.

Everybody [illegible] is now getting [illegible] and hoping it will [illegible] Christmas.

Mr. and Mrs. Hartshorn, Mrs. Jacobs and Mr. Ole [illegible] on Monday.

TOFIELD UNITED (Juniors) WIN FIRST GAME

Tofield United (Junior) Hockey team played a game with a team from Ryley on Tuesday night. It was a good game throughout the three periods of play and the score was [illegible] and [illegible] the score stood at [illegible] Ryley was a rough one [illegible] the local team to [illegible] add to their [illegible] another victory [illegible] Tofield.

Owing to the [illegible] of players the boys from Ryley were with one exception, mostly all [illegible] than the local players [illegible] the score stood at [illegible] Ryley was a rough one [illegible] the local team to [illegible] add to their [illegible] another victory [illegible] Tofield.

Playing for Tofield were [illegible] Bowack who [illegible] game. Referee [illegible] to Anderson [illegible]

Bob White [illegible] to the net for Tofield and [illegible] Ryley.

NO PAPER NEXT WEEK

In order to [illegible] next week's [illegible] the new year [illegible] there will [illegible] issue [illegible] Tuesday [illegible] Wednesday.

WORLD HAPPENINGS BRIEFLY TOLD

The Swiss army now has gas masks equipped with reservoirs of oxygen that will last 14 hours.

Reforms of the four great railways of England has fallen by 25 millions, swelling during the six months of the coal stoppage.

The Post Office in Sweden is a savings banking institution, the net profit on the business being 12,237,311 Kr. or £675,000 sterling.

A new airplane engine developed here by Sir Hiram Maxim has been tested at Glasgow. The power is obtained with great economy of petrol and oil. The propeller has a direct drive.

The War Department has instructed military commandants throughout Mexico to punish severely any persons discovered carrying out seditious or anti-government propaganda.

The United States Senate has voted to open the Immigration gates to 32,000 Poles and Slavs—children of aliens admitted prior to July 1, 1914, who have applied for naturalization.

Two torpedo boat destroyers, propelled by turbines are to be built in Italy for the Russian Government. The contract was let after an international competition.

President Adolfo Diaz, head of the Conservative forces in Nicaragua, has been recognized by the British diplomatic representative in an announcement made by the Nicaraguan consular office.

Alberta will not be represented in Canada's contribution of Rhodes scholars to Oxford. At a meeting of the Edmonton Rhodes scholarship committee, it was decided not to take any nominations this year.

The United States is a happy land when politics is not the subject under discussion. Even the strongest partisans will admit that. Nowhere else in the world is there such a spirit of tolerance and friendliness between men of different political faiths.

"Here's hoping," said Prof Lazare, "more about on earth is a bath of brotherhood, a spirit of mutual understanding and consideration, and real noble and effective of those parts of the millennium."

"Man, compared to women, my pa says all their pockets clothes are low an extremely unreasonable. It is to his pensure, who owns power dog, no man's clothing has improved in the real state of health to such a degree that the same as women have come to have entirely disappeared."

Has Unusual Form

Naturalist Keeps Frogs and Has Learned Interesting Things About Them

Frog's legs are a delicacy that touch light person on the American market? This has hollowed a naturalist, Enid Hendrich, to start a frog farm.

Incidentally he has made a lasting real study of frogs, and has discovered many facts about them. Among us known as biologists. He states that frogs are he cleanest creatures in the world. They thrive on water life, but will eat almost any living food. They do not have their food but swallow it whole.

From one never sick, and are four less A ball frog has been known to kill a rat. They are capable and is necessary to have the males away from the adults.

Mr Hendrick has experimented lately with electric lights. He found that the frogs were attracted to the light from many miles, and he discovered that they were also attracted by the noise of the engine.

Will Practice in China

Chinese Girl Passes Solicitor's Final Examination in London

One of the happiest women in London is Miss Kathleen Hosking, aged 23, the first Chinese woman to pass the solicitors' final examination. At the end of No smiler she completed a year of her articles to a London firm of solicitors, and will be fully qualified to "start to go out for and start a practice of my own," she said, "perhaps in Singapore, whose I have an uncle who is a barrister." Born in Hankin, China, Miss Hosking was placed at an early school there, and when she came to England seven years ago finished her education at Hall Secondary. Afterwards she visited for a time at an agricultural college in Kent, and took a horse article.

Her mother was the first Chinese woman to become a Fellow of the Royal College of Surgeons, Ireland.

B.C. Horticulturist for East

The appointment of Professor W. A. Middleton, of British Columbia, as provincial horticulturist for New Brunswick, is announced by J. A. Walling, minister of lands, forests and mines and provincial development in New Brunswick. Professor Middleton will enter on his duties in January.

Woman and Smoking

According to a Johns Hopkins professor, smoking is not injurious to women, provided, but the addition usually that he has seen no evil effects. Even if we can only judge it makes us no more dependent, rather than depend upon ourselves.

Lutheran Immigrants Coming

The Lutheran Immigration Society of Canada, with headquarters at Winnipeg, Manitoba, has been formed to assist Lutheran immigrants to Canada. The Superintendent of Immigration at Ottawa, Canadian Public Home

Marine Slays Comrade

Aroused Up as a Ghost, Joke Turns Into Tragedy

John H. Muir beardless recruit of 19 in the British Royal Marines, as held trial that of the "soldiers of the sea," when he challenged and killed a ghost while on sentry duty.

The ghost had just died. Most told the sentry at the bottom on James W Smith, 20, also a marine, who was "ghost."

Smith dressed up in a sheet and tried to frighten Muir. He did, but Muir shot and killed it at the time.

"I was on sentry duty," said Muir, "when a white figure advanced and I ordered it. I thought it was a ghost, but as an orders were to let no one pass I challenged it. At the third challenge the ghost rushed at me and knocked off my bayonet. I pulled out the bayonet and the ghost ran away. I shouted, but could no catch it."

Broadcast Must Cross

Calls of English Hucksters Were Heard Over Rome

Amateur and modern Marconis everywhere will be interested in the following announcement of the BBC of Great Writing Company:

"Experiments in England are already bid interesting. The gallery listening-in apparatus has been installed in the Marconi Hall open to the public, and a number of boys and girls and persons of rank, sound and musical, have enjoyed a fine [illegible] of the Savoy Orpheans. Mr. Marconi has been present on several occasions, and has been much interested in the success of the experiments."

Some of those who have been heard in London from considerable distances are: F. Dalrymple, of Bath, who is said to have received traffic messages from the Canadian National Rail [illegible]

The new receiving set has been built known for a number of years as part of its own manufacture. Its [illegible] and programmes of rural sound and musical [illegible] [illegible] [illegible]

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government of Alberta, Edmonton.

December 19th, 1926

Alberta Turkey Popular

Nearly fifty carloads f Alberta turkeys are being shipped out of the province this year for the Christmas markets, the season is a promising one, encouraging one for the producers, the demand being keen and the price good. Several community turkey parties are being made under the auspices of the provincial pol.

Camp To Old Land

Hon. H. Greenfield, Minister of Colonization for Alberta, will leave for England shortly after the 1st year for the purpose of opening an office for the Alberta government for the direction of immigration to the province.

Legislature Date Set

The date for the opening of the legislature has been set for February It is expected that the session will not last more than ten weeks.

New Records in Grain Shipments

New records in grain shipments from the country north west of Edmonton to Peace River has been set this season. Already nearly two million bushels of grain have been shipped out, including 1,420,000 bushels of wheat. This compares with less than a million and a half bushels of grain for the same period of last year.

New Extension in Operation

The new extension of the government railway, known as the La Nonand Northwestern is now being put into operation. The extension is for 22 miles from Hinckley to Boyer, the entire length of the line is now 72 miles.

Wheat Pool Membership

The membership in the Alberta Wheat Pool has increased fifty per cent since the fall of 1925, the total number of members now being 53,803 with the total acreage signed up at 3,622,724 acres. The original membership was 25,000.

Plans for Seed Fair

Special plans are being made for the provincial seed fair, which is to be held in Edmonton, January 18th to 22nd. Entries for the fair must reach the Field Crops Commissioner, Provincial Department of Agriculture, not later than January 10th. Special lots of seed grain will be made by the department and others and an exhibit on seed plots and will be made by the provincial department.

Livestock Weanings

Details of the livestock winnings Alberta Exhibitors at the International Show at Chicago have been received by the Hon. McMillan, minister of agriculture, who won second in the 4 H boys class, and fifth in fifty lb. calf class. In the cattle, the University of Alberta won first and second in Hereford steers, and first and third in the Aberdeen Angus steer, and will be fat Shorthorn steers.

WATERING CATTLE

(Provincial Farms Note)

For the first few years that winter feeding of cattle was carried on at the Provincial Station at Vermilion, there was an inadequate water supply, and that at some distance from the feeding corrals. Later on a supply was put underground to the corrals but was available for the cattle for a short time in the forenoon, for the salt half dissolved. Water has been stored in a large cistern, filled with a heater which prevented freezing and the cattle drink when they wish. This year the water was at a distance from the corrals they would have to drive in water; they would want to drink, and, of course their feed would be dry. Filling up with water, lump they and shiver, especially in cold weather, and it drove their feed for a hour or more after drinking. When they drove daily on the corral, the water was similar, but not so bad, as water was constantly available.

THE AUTOMOBILE BOTH CRASHED AND CONDEMNED

Figuratively speaking, the automobile was stunned inside out when Mr. Stanley afternoon [illegible] a debate [illegible] while a cross from [illegible] was [illegible] and Conservative [illegible] Mr. Worton, handled in their respective sides adding the total points scored by both sides, the chairman stated that Tofield had won by a [illegible]

Problems In The Maritimes

Pains In Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With

NERVILINE

"I recall," Nerviline the best pain remedy I ever used. It relieved me of a sore chest, with pains in my back. In fact pains that only a woman can have. I had a cold on my chest, which developed into pleurisy. I couldn't breath up. I rubbed on Nerviline and in a few days I was relieved. Has as a curgle and was completely cured. I recommend Nerviline to all as an powerful, yet safe trailer, as sure to relieve pleurisy, backache, pains in the side, neuralgia, bronchial troubles."

Mrs. Bessie Bell, Lockeport, N.S.

Nerviline is sold by all dealers in large family size bottles, 25c. Get a bottle today.

STOMACH TROUBLE DUE TO THIN BLOOD

It Usually Disappears When the Blood is Made Rich and Red

This blood is one of the most common troubles of stomach trouble and often the digestion are quickly. The blood that furnish the digestive glands are diminished in the activity, the stomach muscles are weakened, and there is a loss of nerve force in the digestive organs. Indigestion and dyspepsia soon follow. Then the appetite, dizziness, headaches, nervousness, sleeplessness, and other ills result.

Dr. Williams' Pink Pills act directly on the blood by making it rich and red, stimulating blood corpuscles to their normal activity. They tone the nerves and stomach to proper action, and thus cure indigestion and dyspepsia. Mrs. Louis Lacroix, St. Jacques sur Richelieu, Que., says: "I was troubled with indigestion and dyspepsia for a long time. I had a bad taste in my mouth, and my stomach was out of order. I had no appetite, and what I ate did me no good. I was very nervous, and could not sleep at night. I was also troubled with dizziness and headaches. I was induced to try Dr. Williams' Pink Pills and found that they did me more good than any medicine I had ever taken. I continued using them for some time, and they made me well and strong. I can highly recommend them to all who are troubled with indigestion or dyspepsia."

You can get these pills from any medicine dealer or by mail at 50c a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Like the Treasure Ship of Olden Times, full fraught with Precious Things, so may Christmas and the New Year Come to You Laden With all That Will Make for Your Happiness and Contentment

Season's Greetings To You

THE HOURS of the Old Year are numbered, the candle burns low and in its lingering light, we like to think of things that money cannot buy—Friendship and Goodwill. In all the world there is no finer thing than friendship in business. Nothing better than a friend who is for you when you are right and refuses to desert you when you are wrong. During the closing year we are not counting our gain in money. Our many friends who stand by us are worth more.

AS THE Christmas season comes again we wish to thank our many friends, both new and old for their support during 1926 and our best wishes for you are A MERRY CHRISTMAS and HEALTH, JOY, and PROSPERITY, during 1927.

Tofield Farmers Supply Co., Tofield

Hearty Christmas and New Year Greetings

In harmony with the spirit of good will abroad, we desire at this time to express our thanks to that body of loyal customers who have done business with us during 1926.

May the Christmas season be to them and all others, one of joy tempered with reverance, and may all expectations for that happy Christmas day come to pass.

Each new year is an unopened book to all of us- but our sincere wish is that its pages may be replete with joyous surprises to all.

A MERRY CHRISTMAS AND A HAPPY AND PROSPEROUS NEW YEAR TO ALL
—Walter Bellamy

LINDBROOK

Lindbrook folk wish the editor and his family; and all the folk of Tofield and vicinity all the compliments of the season.

A children's Christmas concert was held at the Wambaba School last Friday. It was organized by the teacher, Miss Margaret MacDonald and reflected great credit on both teacher and pupils as the two have only been working together just over two months. Miss MacDonald left the following day for her home in Kotenay, B.C.

Miss. Green Lepien and D. Wenbles gave a dance in the evening at the same school. The music was supplied by Messrs. Todd and Co. M. Prosper Lepien acted as M.C. and every one present voted it swell.

Mr. Williams, fur buyer, of Edmonton was in the district last week on business.

Messrs. L. and J. Hooper paid a visit to the city this week.

Mrs. H. R. Hobbs also was a visitor to the bright lights of Jasper Ave. this week.

Legislature Date Set

The date for the opening of the legislature has been set for February. It is expected that the session will not last more than six weeks.

New Records in Grain Shipments

New records in grain shipments from the country north west of Edmonton on Lac a Lamme River has been set this season. Already nearly two million bushels of grain have been shipped out, including 1,479,000 bushels of wheat. This compares with less than a million and a half bushels of grain for the same period of last year.

THE GIFT SHOP

Christmas and New Year Greetings

A WORLD WITHOUT CHRISTMAS WOULD BE A DREARY PLACE. INTO THE AFFAIRS OF EVERY DAY LIFE CHRISTMAS COMES LIKE A RAY OF SUNSHINE ON A COLD AND BLUSTERY DAY. ITS WARMTH, CHARM AND LIGHTENING EFFECTS BRINGS SMILES TO MANY FACES THAT DURING THE PRECEDING YEAR HAD BEEN BUFFETTED BY THE WINDS OF FATE. THE WARMTH OF CHRISTMAS RADIATES CHEER EVERYWHERE, CASTLE OR COTTAGE, PRISON OR POOR HOUSE- LIKE THE RAYS OF THE SUN, IT FINDS ITS WAY INTO EVERY NOOK AND CRANNY OF CHRISTIAN CIVILIZATION.

WITH ALL THE CHRISTIAN WORLD EXPRESSING GOOD WISHES TO EACH OTHER, WE GLADLY EXTEND GOOD WISHES TO OUR TOFIELD FRIENDS. OUR WISH IS THAT ALL GOOD THINGS MAY COME TO YOU AT CHRISTMASTIDE AND THAT THE NEW YEAR WILL REVEAL ITSELF TO BE ONE OF TRUE HAPPINESS.

H. E. ROGERS

Christmas-time

CHRISTMAS-TIME is the best time because it is the kindest time. Nobody ever felt happy without feeling very kind, and nobody ever felt very kind without feeling at least a little happy. So, of course, either way about, the happiest time is the kindest time—that's this time. The most beautiful things our eyes can see are the stars; and for that reason, and in remembrance of one star, we set candles on the tree to be stars in the house. So we make Christmas-time a time of stars; and they shine warmly against the cold outdoors that is like the cold of other seasons, not so kind. We set our hundred candles on the tree and keep them bright throughout the Christmas-time, for while they shine upon us we have light to see this life, not as a battle, but as the march of a mighty Fellowship!—Booth Tarkington.

AT THIS, THE CHRISTMAS SEASON, WE TAKE THIS OPPORTUNITY OF WISHING EACH AND EVERY ONE, A MERRY CHRISTMAS AND A HAPPY AND PROSPEROUS NEW YEAR

Local and Personal

C. J. Craig is now in charge at the local yard of the Crown Lumber Co. Mr. Craig comes from North Battleford, where he was employed by the same company. The family have taken up residence in the house formerly used as the Methodist parsonage.

Mrs. Geo. Dunlop and family spent the Christmas at the Hammond home.

Mrs. Easton visited in Tofield during the holidays.

Miss Audrey and Helen Jobb spent Christmas and New Years at home.

Visitors to the city over New Years were B. Wallis, C. Jobb, J. Lee, Mr. and Mrs. McLaughlin and family, D. M. Morrison, Mr. and Mrs. Russel, W. Chapman, Mr and Mrs. H. Rogers, L. Gray, Mr. Lane and Mr. Lynn.

Mr. and Mrs. H. Rollins of Viking spent Christmas at the Henry Woods home.

Miss A. Bethel now of Alberta Telephone Calgary spent Christmas at home.

Mr. Joe Clisted spent Sunday visiting friends in town.

Mr. C. O. Robinson returned Monday evening, December 20th to Calgary.

Miss Pat Woods spent Christmas at home.

Mr. Gwen Sproule spent New Years visiting friends.

Dr. and Mrs. Law spent Christmas at Mrs. Law's home in Bawlf.

Miss Clara Abbott was home over the holidays.

Mr. Mrs. C. Bissett of Camrose visited at the Bissett home last week.

Mrs. McClurg and daughters left for DeMoine, Iowa, on Tuesday where Mrs. McClurg will visit her parents.

Miss Mary Easton spent Monday in Camrose.

Mr. and Mrs. McDonnough spent New Year's at Fort Saskatchewan.

Miss Bertha Lee visited Lillian in Ryley over New Year's.

Miss Mabel and Nora Wood returned to the city on Monday evening.

Mrs. Mare and daughter, of Edmonton visited at the Constantine home.

Miss Mabel and Nora Wood returned to the city Monday evening.

Mr. Lindsay Carver visited the Carver visited the Carver home during the holidays.

Mrs. Hunter and daughter and daughter visited at the Abbott home last week.

Mrs. McIntosh and Mrs. McCauley entertained at a shower given in honor of Miss Mildred Sherlock last week.

Reg. and Anne Watt who have spent the Christmas holidays at home have returned to Varsity.

Miss Gene Savard who spent the Christmas vacation at her home here has returned to Varsity.

Mr. Jack Lucas, son of Mr. W. T. Lucas, M.P. who was a guest at the Manse during the Christmas vacation has returned to Varsity.

Mr. Elmo Colleen who visited friends here during the holiday season, returned to Varsity on Monday evening.

BOYS PARLIAMENT

During the week between Christmas and New Year there was held in Edmonton, what is called the "Boys' Parliament". Boys are elected from Trail Ranger and Tutis boy groups all over the province, and belong to one of two parties. The proceedings which deal with boys' work throughout the province are conducted along parliamentary lines. Tofield was represented by Reginald Burt representing the Tutis group and Wilson, representing the Trail Rangers. W. Swift, formerly of Tofield and now of Viking made a very efficient speaker of the house.

CARD OF THANKS

We desire to thank the United Church Ladies' Aid, Women's Institute and all other kind friends who sent gifts to Charlie during the Christmas season.

M. and MRS. CLOUTE.

YOUNG MAX ROGERS HAS BAD SPILL AND BREAKS LEG

For a youngster to break his leg on Christmas Eve is the "toughest kind of luck", yet this is what befell Max Rogers while out sled-ing.

He had gone out with some other boys to the ravine just north and west of town and was going down when it is supposed one of his sleds caught in some obstruction, hurling him down. He was unable to rise and assistance being sought was brought into town for medical attention. At first it was thought his hip was broken but later it was discovered the break was in the leg just below the hip. He was taken to Edmonton and we are pleased to say is progressing as well as can be expected.

MR. WONG BREAKS KNEE-CAP IN IN EDMONTON

A pre-Christmas accident, which was particularly unfortunate for Mr. Wong, the local jeweler, befell him while on a business trip to Edmonton about three weeks prior to Christmas. He had gone up to Edmonton for the week end and due to the slippery condition of the street or sidewalk, fell and broke his knee-cap. A doctor was called and he was taken to the Misericordia hospital where he has been under treatment for the past month. He is now progressing nicely but it will be a month or more yet before he will be able to return home. It is a particularly unfortunate affair as his coming on it did just prior to the Christmas holiday, so he was expected to keep his store closed during the pre-Christmas buying season, thus losing considerable trade he had gained a whole year for.

NOTICE

Owing to crop failure, that payment on radio, machinery, new car, and orders to T. Eaton, there was no money for me to pay the Dodsworth bill. So the blacksmith could not pay his bill and the supply houses put him on a cash basis. Therefore I must put my customers on a strictly cash basis. So on and after January 1st, 1927, all work must be strictly cash. No work went out by machines unless money sent right back. I cannot run my business on thanks.

"HARRY."

For the want of a nail, the shoe was lost,
For the want of a shoe, the horse was lost,
For the want of a horse, the battle was lost,
All for the want of a horse-shoe nail.

WEDDING

Denny—Sherlock

A New Year wedding took place at the home of Mr. and Mrs. Robert Sherlock on New Years day, when their only daughter, Mildred K. became the bride of Charles Douglas Denny, vice-principal of the Edson schools.

The bride, who was given away by her father, looked charming in a gown of grey silk faille and carried a bouquet of orphelia roses.

The maid of honor was Miss Ethel Watson in which the bride is held by all who knew her.

The marriage service was read by Rev. R. Geo Watt, B.D., pastor of the United Church, Tofield.

The happy young couple left by the evening train for their new home in Edson, Alberta, followed by the best wishes of the whole community for their future happiness.

THE UNITED CHURCH

Rev. R. George Watt, B.D., Pastor

Sunday, January 9th, 1927

11:00 a.m. Sunday school at Tofield.
3:30 p.m. Preaching Service at Kelsey.
7:30 p.m. Evening service at Tofield.

Come and worship at these services. Begin the year right by making and carrying out that good resolution to attend public worship at least once a week.

BONSPIEL NEXT WEEK

Tofield will be a curlers paradise next week when the local curling association hold their annual bonspiel.

As in other years there will be several competitions and good prizes awarded for each. A number of outside rinks will be present and there is no question but that the "rivalry" will provide thrills a plenty for local players and visitors alike. The event commences Tuesday evening

NEWS OF OUR NEIGHBORS

BARDO

Dec. 27th, 1926

There were Christmas services in both the Mennonite and Lutheran churches on Saturday. The former had a short Christmas program followed by a sermon. At the Lutheran church, Rev. Bjelde preached his first sermon and two christenings followed. The infant of Mr. and Mrs. Pete Wold was named Katherine Inez. Mr. and Mrs. Sigurd Sunde's baby was christened Fulma Christina.

Then followed the wedding ceremony of Hans Evers and Carrie Eggen. The bride wore a rosewood colored georgette gown and carried a bouquet of white narcissi and ferns. They were attended by the Misses Nora Rude, Carrie Anneke and Alfred Eggan, who were dressed alike in golden brown. The groom was attended by Peter Eggan, Thelma Johnson and Ingolf Breiken. About forty relatives and intimate friends had dinner at the home of the bride's brother. There were many beautiful presents. In the evening there was a shivaree party. Mr. and Mrs. Evers will spend a few days here before going to their home in Pierceville, Sask.

Ralph and George Kaufman are working in Albany, Ore. Making their home with the Moses Brennan family.

P. O. Lorlesberg and the M. E. Brennan family spent Sunday with Mr. and Mrs. F. E. Hills.

Mrs. P. O Lorlesberg, John, and Mrs. Olverson, spent Christmas in Omaha, Nebraska, in the home of their brother, F. E. Hills jr.

Ivor Moon has moved from the F. Lewis farm, to the farm of his father.

Large crowds were out to the Christmas programs at the Bardo and Grand Forks schools. Great credit is due to both teachers and pupils for the fine entertainment.

The W. C. Parker family were dinner guests in the F. E. Hills home on Monday.

Mr. Le Sauvage of Young-Clowe, Alta., and Miss Ellingson of North Dakota are visiting in the J. Jacobson home.

January 3rd, 1927

Born.—To Mr. and Mrs. Emil Rude, on December 25th, a boy.

On Tuesday evening there was a party at the Rude home in honor of Mr. Ole Bergsland from Grand Prairie who spent Christmas with home.

On Thursday evening there was a shaking party followed by a lunch at the Bernt Anderson home.

There has been much feasting and merry making the past week.

Ragvald Nees has gone to Calgary to attend a technical school.

The Dave Yoder family left for California on Monday where they will spend the winter

Mr. M Bichaber of Durhow, Alta., [illegible] with the Burkholder family.

RADDO SCHOOL REPORT

(Senior Room)

Christmas Exam.

Grade IX.—Arthur Haugen; Matrin Roth.

Grade VIII.—Mabel Poohang, (Arthur Moen and Roy Whitlam, equal); Inga Johnsson.

Grade VII.—Juliette Jorning, Joseph Roth, Leif Poohang, Chester Parker, Ivan Poohang, (Velma Yoder and Ralph Whitlam, equal.)

Grade VI.—Hertha Roth, Lavanda Yoder, (Leonard Parker, Hugh, equal.)

Names in order of merit.

M. Rude, Teacher.

CARD OF THANKS

I wish to thank the many kind friends for their kind donations which I appreciated and am very thankful for. Also the C.G.I.T. girls, Women's Institute, C.W.L. and all and everyone for their help in every way but made Christmas morn such a bright and happy one for my little children and myself. My best wishes to every one to the blessings of a very happy new year.

Yours very gratefully.

MRS. FNELL.

ANNE CREEK

The day school held their Christmas programme on Wednesday 22 23rd of December and the Sunday school held their programme in the church on the 23rd. The children did their parts very nicely and much credit was given the teachers in the day school and Sunday school.

The P. Flaaten and R. O. Berg families attended the wedding at the Eggan home in Bardo on Christmas day when Miss Carrie Eggan became the bride of Hans Evers.

Rev. A. Bjelde the new pastor held his first service in this church on Sunday the 26th of December.

The I. C. Glose family spent last week at Lavoy visiting at the J. Blackburn home.

The Anderson, Patterson, Erickson, Flaaten and Berg families were all guests at E. A. Moen's house on Christmas day for supper.

Morley Anderson who is attending school in Calgary spent Christmas with home folk.

Roby Berg spent her Christmas holidays with her aunt, Mrs. P. Flaaten.

Mr. and Mrs. J. Jacobson and baby from Bardo visited at the A. Moen and Flaaten home on New Year's day.

Mr. and Mrs. Ness, Mr. and Mrs. Anneke, Mr and Mrs. Asa. Mr. and Mrs. Evers, Miss Eggan, P. Eggan, Selma Johnson and Ingolf Breiman from Bardo, were all guests at the R. O. Berg home New Year's day.

Mr. and Mrs. P. Flaaten entertained the young people of this vicinity New Year's evening. Mr. and Mrs. Evers, Margot and Ingvald Ness from Bardo also were present. The time was spent in playing games. Midnight lunch was served and all started wishing each other a Happy New Year.

Gunvald Flaaten spent last Sunday in Bardo visiting friends and relatives.

The R. O. Berg family, Mrs. P. Flaaten and Gunvald were guests in the N. Strad home in Ryley on Sunday, the 26th and attended the Christmas tree programme in the Lutheran Church.

Arthur Patterson and Morley Anderson left for Calgary last Monday, where they will attend the school for a few weeks.

E. A. Moen, A. Patterson, A. Brickson will leave for the coast on Wednesday of this week.

Mr. and Mrs. E. A. Moen and Edna, Mr. and Mrs. A. Patterson and Pearl, Mr and Mrs. R. O. Berg, Lloyd and Lilly, Mr. and Mrs. I. Anneke and their two boys, Mr. and Mrs. Evers from Bardo and Mrs. T. Anderson were all guests at the P. Flaaten home for supper on Thursday of last week.

Miss Ida Aanne, who is training at Viking hospital spent the New Year holiday at home.

Alvin Ness and Gunvald Flaaten spent Wednesday and Thursday of last week in the city, being Gustav Brucker's guest in his parents home. They returned Friday morning.

Myrtle Anderson who is training for a nurse at the oyal Alexandra hospital at Edmonton underwent an operation for appendicitis just before Christmas. Latest reports are that she was getting along nicely.

Mr. and Mrs. Evers visited friends and relatives in this vicinity last week.

Mrs. P. Flaaten and Gunvald were guests at the B Ness home on Monday the 27th.

The Misses Hazel, Lena and Helen Anderson are visiting with the Bills family in Edmonton. They will return when their sister Myrtle get well enough to come with them.

The E. A. Moen family were guests at the J. Jorning home in Ryley on Tuesday of last week.

Mr and Mrs. A. Patterson, the E. A. Moen family, Mr. A Erickson, the Flaaten family Mr. and Mrs. Klingsor and Mr. and Mrs J. Jacobson and baby were all guests at the R. O. Berg home last Sunday evening.

The R. O. Berg family, Mr. P. Anneke and Mabel and Mrs. P. Flaaten were dinner guests at the Anneke home on Tuesday of last week.

Wishing you all a Happy and Prosperous New Year.

FEED POTASSIUM IODINE TO PREVENT HAIRLESS PIGS, GOITERED LAMBS AND CALVES, AND JOINT ILL IN FOALS

After a long, cold winter with deep snow, such as seems to prevail, hairless pigs, goitered calves and lambs and weak foals have frequently caused very heavy losses. These troubles are caused very largely through lack of sufficient iodine in the system of the pregnant mother. The deep snow prevents the pregnant animals taking exercise and getting access to the soil. Exercise is always beneficial, and the soil seems to be a general regulator for the system. It is probably for these two reasons that hairless fall litters are almost unknown, fall calves and foals are almost always strong and there is almost no trouble with late lambs.

Another draw-back to the deep snow is that many animals are either eating snow or drinking snow water and while the water from many deep wells contains sufficient iodine for the requirements of livestock, snow water on the surface or in shallow wells does not contain any iodine.

Feeding potassium iodine largely increases the supply of iodine in the thyroid glands of both the mother and offspring and almost entirely prevents losses from hairlessness, goiter and joint ill. The iodine seems to have a stimulating effect on the whole system and particularly the generative organs. Pregnant animals produce stronger young, and uncertain breeders often become pregnant after potassium iodide has been fed for some months. In three years feeding experiments with pigs at have been found thatapp ro ximating one gram of iodine daily such as averages greater daily gain of 1.96 pounds and required 45 pounds less feed to produce 100 pounds of gain; one pound contains 1,000 grains. Feeding potassium iodide requires very little extra work and is not expensive. The saving of one litter of pigs, or one lamb, calf or foal will many times repay the cost of the material and the labor of feeding. Potassium iodide should be carefully and regularly fed during the whole period of pregnancy, but satisfactory results have often been secured where it was fed for only a part of the period. In the cold winter of deep snow farmers are urged to commence feeding at the earliest possible date.

For such, dissolve one ounce of potassium iodide in one gallon of water, and mix in the feed one tablespoonful of this solution once a day for each brood sow.

For ewes, thoroughly dissolve four ounces of potassium iodide in about a cupful of luke warm water. Spread 100 pounds of well dried salt evenly on a clean floor and sprinkle the solution of potassium iodide evenly over it and mix well. When dry, place the salt where the sheep may have access to it at all times. Ewes will use about half a pound each per month of salt. For small flocks, mix in proportion.

For pregnant cows, feed the potassium iodide on the salt in the same way as for ewes, but it may be found that some cows take very little salt. In this case, give the cow a quarter teaspoonful of finely powdered potassium iodide once each week in the feed.

For pregnant mares give each mare in the first and fifteenth of each month, in the feed grain or in the water, a level teaspoonful of finely powdered potassium iodide.

FOR SALE—FOUR SHORTHORN bulls, one 18 years; three 1 year old. Pedigrees furnished on request. Phone 302, R 11. Joe Voegtlen, Tofield, Alta 50tfc

Here and There

The Fourth Eastern International Dog Derby to be held from Quebec city February 21, 22 and 23, promises to be the most keenly contested ever held. It is expected that over 20 teams will be entered for the race.

Christmas tree shipments from Quebec to the United States ran to 450,000 over Canadian Pacific lines last year, and present indications are that this number will be equalled at least this year. Revenue to the province from this source ran to $100,000 last year.

Four carloads of silver foxes, valued at $75,000, have left Prince Edward Island in one shipment for the Western States. Wyoming, Utah, Colorado, Oregon and Washington. Viewed as a livestock shipment, it is said to be a record one. A number of prize winners were among the pack.

Dog teams will be used this winter by the Hudson's Bay Company organization to prosecute oil development work in the Bistcau field in North-eastern Alberta. This is the area where the quest for oil started following a favorable report by Dr. G. S. Hume, head of the Dominion Geological Survey.

Christmas travel over the Canadian Pacific routes to the Old Country has been heavier this year than ever before experienced. Special trains have been run from Winnipeg direct to the ship's side at Saint John, N.B. The westbound result the heavy movement to England for Christmas to the excellent conditions that prevail throughout the west.

YOU WILL FIND that yourself and family will appreciate the quality and tastiness and all round excellence of our bread. For, while we as the manufacturers, strive to make the perfect loaf, the real test comes at the patrons meal table. Our bread is made to satisfy real hunger and not only to tickle the palate of a dajded appetite. Try some and be convinced

Monsters of a Million Years Ago

View of "Red Lake" at Alberta, showing three types of early monsters of 100 ages.

The majority of fossil remains found in the Red Deer River valley in Alberta, and in practices on the Canadian Pacific railway, are those of animals that there is to be found south of the Canadian border, except the bones and grinders of the Red Deer River rain through the prairie, a valley known as the "Bad Lands." This is a valley beside which the Rocky Mountains are "puny," a valley whose bottom-lands record that once there were among whose shores, millions of years ago, lived those walking, creeping crawling monsters known as dinosaurs.

Only with the discovery of the dinosaur skeletons, and as a result of the numerous expeditions sent into the Bad Lands of the Red Deer by the Government of Canada, museums both in Canada and in the United States, has the world been taken on a wider interest. Each season adds not only to the number of visiting parties but also to the number of tourists who are attracted by the picturesque character of the canyon and whose imagination is thrilled with the thought of the age-long secrets which the valley is beginning to make known.

When and how did these dinosaurs live? What was the world like during the time when they flourished? How would this very valley have appeared at that time and what other creatures were to be found there with them? Such questions naturally arise as the dinosaurs take on a larger measure of reality.

At first one is likely to think of all these extinct animals as merely prehistoric. Living hundreds of years, however, before even Tutankhamen, but perhaps at the same time as our cave-dwelling ancestors, with whom we are more familiar, they were the masters of the earth. The written records on which history is based extend back, comparatively speaking, only a few centuries; even the oldest, those of Egypt and Chaldea, cover but sixty centuries. The still earlier straits are ... periods when man lived in savage and barbaric tribes ... lake as back only six hundred thousand years, and as far as fossil remains are found in strata of that date it is evident that these huge reptiles had long been ... for collecting prehistoric interests.

ATWATER KENT RADIO

Take the short cut

THE quickest and surest way to reach the broadcasting station you want is to turn the ONE Dial (on Atwater Kent Receiving Set. You don't have to hunt—you merely select. There's a new thrill waiting on your set. Or we'll give you a home demonstration. Drop in and let Radio programs are better than ever this year. Think what you're missing!

JOB PRINTING

The Mercury Office is equipped to execute promptly most kinds of Job Printing used in country town business. Among these are included, Letterheads, Envelopes, Statements, Loose Leaf Forms, Business Cards, Window Cards, Concert Tickets, Posters, Dodgers Etc. If the job you require is either too large or too intricate for our plant, we have connections with one of the most fully equipped plants in Western Canada and we will be pleased to handle your work, at no extra cost to you.

The Tofield Mercury

CREAM PRICES HIGHER

With the butter market looking better than it has for a long time, and with the present price of cream, it will pay to look after your milch cows a little better. A little more care and a little more and better feed will show in your returns.

Even your dry cows will repay you later on for any extra care and feed they receive now. Try it out and see how a few cows will take care of that grocery bill of yours.

Our present price for cream is 37 cents, F.O.B. Shipping point, basis specials.

HAPPY NEW YEAR

IT IS both a pleasure and privilege for the Mercury to wish its readers, correspondents and advertisers, a Happy and Prosperous New Year.

RADIO PROGRESS

ON DECEMBER 29th the editor, accompanied by three Tofield lads were, by the courtesy of the Edmonton Journal, permitted to view their broadcasting department which includes the "set" which is on the top of the building and the studio which is on the third floor. We arrived about 12:30 and were able to see a broadcasting set "in action." This is not intended as a description, it requires a more technical pen than ours to write that but rather a note on the remarkable progress of radio during the past few years. The first thing one notices upon seeing a broadcasting set is the size of the "tubes." Most people have seen radio receiving set tubes, but it is somthing of a revelation to see "tubes" of a size that reminds one of an apothecary's window sign, large glass globes that would hold from one to two quarts. The tubes have passing through them about 10,000 volts of electricity, and strict instructions were given to keep at a safe distance. The studio is a room draped with curtains to prevent echoes, and for once the four of us were able to hear "We will play you anotner number," without the necessity of coming in.

The visit to the Journal reminded us of the Journal's visit to Tofield in the early days of general broadcasting, when the receiving set they brought here stood about four feet high, three feet wide and eighteen inches deep, compared to present day receiving sets it was a cumbersome affair, but it received to the satisfaction of all, that is, after the writer had run around town and persuaded people to turn out their lights so the town power plant could be shut down. This was considered a notable event—it was a notable event—but an event that has now become commonplace in scores of homes in the district. In fact it has become so commonplace that one is apt to forget sometimes that radio receiving is only made possible by the enterprise and often pure generosity of broadcasting stations.

SLIPPERY SIDEWALKS

IT IS a long time since the sidewalks of Tofield were as slippery as they have been for some time past. The snow melting and then freezing again has made walking an uncertain pleasure for pedestrians. It is difficult to imagine any way of completely eliminating the inconvenience of slippery sidewalks. We did, however, after navigating a particularly bad stretch, step on to another stretch that had had ashes sprinkled upon it and it felt wonderfully safe. It would be a good idea if this was more freely done that is if there are any ashes in Tofield. If not, the council could sprinkle a few C.N.R. cinders on the sidewalks.

PUBLIC SALE OF LANDS
Under the Tax Recovery Act 1922

Here and There

Canada's birth rate leads all the other races of the world, according to a close study made here of comparative figures. Canada's birth rate is 23.4 to the thousand, and Australia comes next with 23.2. England and Wales fall slightly below France with 19.9

"The manufacturing industry is moving west," says J. E. Walsh, General Manager of the Canadian Manufacturers' Association. "The increase in private industries shows this. We are having the same experience here as they had in the United States. The Prairie Provinces are fast becoming industrialized."

A gold medal awarded to the Canadian Pacific Railway in recognition of the excellence of its exhibits at the Canadian Exhibition recently held in Toronto, was received on boardmasters of the system here today. Similar medals have also been awarded to the Dominion and Provincial Governments and to a large number of exhibitors.

This, from the Lethbridge Herald, is hard to swallow: "A farmer on a half section in the Iron Springs district has made it pay and satisfied himself with 640 acres. He has a herd of 75 cows, and 8,000 in wheat and oats. He has 1,000 bushels of potatoes and 1,000 bushels of turnips. He has a comfortable balance of $1,200 to go on with."

The Prairie Provinces Board of Trade is being offered by the Canadian Pacific Railway to the value of $1,000 in prizes for the best exhibits of agricultural products. The prizes are to be awarded at the Spring Fairs of the Provinces. Competitors are to be farmers' sons under the age of 21 years. The competition is open to all boys who have been members of Boys' Clubs during the current year.

An outstanding feature of the past few weeks has been the export of live fowl by the Canadian Pacific Express in Montreal. Trade statistics show that in the past fiscal year 5,501 live fowl valued at $1,421,866 left Canada for other countries. Canada has also begun to be forced into the United States, United Kingdom, Belgium, France, Germany, Newfoundland, Norway, Switzerland, Finland, Japan and Russia.

Announcement was made from Canadian Pacific Railway headquarters here recently that two free scholarships, covering one year's tuition in the Faculty of Arts and four years' tuition in architecture, chemical, civil, mechanical or electrical engineering at McGill University were offered by the company, subject to competitive examination, to employees and other employees and children of employees of the company and under 21 years of age, and to the sons of employees.

The recent snowfalls have direct attention, earlier than usual, to the coming Inter-Derby—the 1927 Canadian International Dog Sled Derby which is to be run off at Quebec City on February 21st, 22nd and 23rd. Six entries have been received so far—H. Chevrette, who will be the riders of The Pauper Co., Limited's Paper Co. entry; Alphonse Gagnon of Chicoutimi, Price Brothers entrant, and P. J. Molloy, of Fort Kent, New Hampshire, North Dakota, about twenty expected.

Dr. Robert Williams Taylor, professor of the Bank of England, has been appointed to succeed Dr. Montagu Norman, that Canadian who has been in the financial chair for the past seven years. Dr. Norman has been in poor health for some time and has been granted a year's leave of absence. Dr. Taylor is a native of Canada, having been born in Toronto, and is a graduate of the University of Toronto. He is a brother of Mr. Justice Taylor of the Supreme Court of Canada.

WE STAND BACK OF OUR REPAIRS

We Depend On You

Throughout the length and breadth of this district the Mercury finds its way each week. On roads running north and south, east and west are homes that for any number of years up to eight, the Mercury has been a weekly visitor. We trust it is read and enjoyed. By far the larger number of our subscribers pay in advance as their subscription falls due, but there are a number who for various good reasons allow their subscription to run on.

In November we sent out circulars notifying each subscriber as to his or her standing on our books. The response was encouraging though not 100 per cent. It helps us a great deal to receive subscriptions promptly and we trust that those in arrears will renew as soon as convenient.

It is not possible for us to call upon our subscribers and collect these amounts, we have to depend upon their good nature and generosity to bring them in.

The Tofield Mercury

CALENDARS

Our samples for 1926 calendars have now arrived and it is no exaggeration to state that they are the best selection of samples we have ever shown. There are one hundred or more designs to choose from, included among which are pictures to suit every taste. Only an inspection can adequately portray the variety of design, coloring, size and shape.

The prices too, are very reasonable and will be a revelation to those who have been accustomed to buying calendars in years gone by.

We would like an opportunity of showing our lines so we are certain that we can suit your requirements both as regards price and design in calendars for general distribution.

The Tofield Mercury
(Phone 35 If Interested)

For The New Year!

A KOHLER LIGHT AND POWER PLANT

The plant with the four cylinder engine that is practically vibrationless. The plant that has the "Press the Button Service," light and power when and where you want it; powerful 2 ½ horsepower 110 volt current; no large storage batteries to care for (only a small starting battery); entirely automatic and full rated capacity always on tap.

The Kohler is a peer among private electric plants and has been aptly described as "America's Finest Private Electric Plant."

In offering the Kohler, we are offering a product of real merit and one that represents true value in the electric light plant.

Not only this year, but every year, life will be lighter and brighter on the farm where the sturdy little Kohler does duty.

International Ignorance

Ignorance and prejudice smiling among the authors make trouble between the nations more political leaders. Blame is blamed for outrages of the battle life. In peaceful environment, when a Japanese farmer neighbor of ours and I have long lived side by side in a fellowship of mutual friendship, we talk on matters of common interest. Recently the subject was immigration, and the strong feeling here against the Japanese. I remember that my friend and I have had some of the same experiences in America and that we are both citizens of the British Empire, and the strong ties of kinship that bind us to the United States and Great Britain.

The depth of ignorance which looks upon the practice of evil as the development of a better mind, and which believes those practices to have reached the highest point in human civilization, is to me one of the most complete of human conceptions.

I suppose that in the whole range of human experience there is no more striking example of this ignorance than the belief which, centuries since, has been held by the white man that he is the highest type of human being, and that all others should be like him. Individuals, decades and centuries ago, have held this belief, and have made it a religion. Nations have made it a law. Individuals and nations have made it a practice. Individuals have made it a custom. Individuals have made it a habit. Individuals have made it a fashion. Individuals have made it a mode. Individuals have made it a style. Individuals have made it a vogue. Individuals have made it a craze. Individuals have made it a fad. Individuals have made it a whim. Individuals have made it a caprice. Individuals have made it a fancy. Individuals have made it a notion. Individuals have made it a conceit. Individuals have made it a vanity. Individuals have made it a folly. Individuals have made it a madness. Individuals have made it a delusion. Individuals have made it a hallucination. Individuals have made it a mania. Individuals have made it a monomania. Individuals have made it a fixed idea. Individuals have made it a hobby. Individuals have made it a pet theory. Individuals have made it a favorite doctrine. Individuals have made it a cherished opinion. Individuals have made it a prejudice. Individuals have made it a bias. Individuals have made it a leaning. Individuals have made it a tendency. Individuals have made it a proclivity. Individuals have made it a propensity. Individuals have made it a penchant. Individuals have made it a predilection. Individuals have made it a partiality. Individuals have made it a weakness. Individuals have made it a foible. Individuals have made it a failing. Individuals have made it a shortcoming. Individuals have made it a defect. Individuals have made it a blemish. Individuals have made it a flaw. Individuals have made it a fault. Individuals have made it a vice. Individuals have made it a sin. Individuals have made it a crime. Individuals have made it a felony. Individuals have made it a misdemeanor. Individuals have made it a trespass. Individuals have made it a tort. Individuals have made it a breach of contract. Individuals have made it a breach of promise. Individuals have made it a breach of trust. Individuals have made it a breach of faith. Individuals have made it a breach of duty. Individuals have made it a breach of obligation. Individuals have made it a breach of honor. Individuals have made it a breach of conscience. Individuals have made it a breach of morality. Individuals have made it a breach of virtue. Individuals have made it a breach of decency. Individuals have made it a breach of propriety. Individuals have made it a breach of etiquette. Individuals have made it a breach of manners. Individuals have made it a breach of good breeding. Individuals have made it a breach of gentility. Individuals have made it a breach of refinement. Individuals have made it a breach of culture. Individuals have made it a breach of education. Individuals have made it a breach of learning. Individuals have made it a breach of wisdom. Individuals have made it a breach of knowledge. Individuals have made it a breach of understanding. Individuals have made it a breach of intelligence. Individuals have made it a breach of reason. Individuals have made it a breach of sense. Individuals have made it a breach of judgment. Individuals have made it a breach of discretion. Individuals have made it a breach of prudence. Individuals have made it a breach of caution. Individuals have made it a breach of circumspection. Individuals have made it a breach of deliberation. Individuals have made it a breach of consideration. Individuals have made it a breach of thought. Individuals have made it a breach of meditation. Individuals have made it a breach of reflection. Individuals have made it a breach of contemplation. Individuals have made it a breach of study. Individuals have made it a breach of research. Individuals have made it a breach of investigation. Individuals have made it a breach of examination. Individuals have made it a breach of inquiry. Individuals have made it a breach of search. Individuals have made it a breach of exploration. Individuals have made it a breach of discovery. Individuals have made it a breach of invention. Individuals have made it a breach of creation. Individuals have made it a breach of production. Individuals have made it a breach of manufacture. Individuals have made it a breach of construction. Individuals have made it a breach of building. Individuals have made it a breach of architecture. KETCHAMOOT

Family reunions were held in all the homes during Christmas. There were not so many celebrations at New Years as their is quite a lot of sickness in the neighborhood.

Mr. James Ratigan came down from Edmonton on New Year's day and is visiting at the home of his sister, Mrs. J. H. Ingram.

Mr. Leslie Coombes was a passenger to Camrose on Friday.

Mr. and Mrs. Frank Hall, Mr. and Mrs. Barnes, were guests of Mr. and Mrs. Hugh Mitchell on Wednesday.

Mr. and Mrs. Geo. Coulson and daughter Helen were guests of Mr. and Mrs. C. A. Ingram on Sunday.

Mr. and Mrs. Leslie Salsbury and little daughter of Clyde spent Christmas holidays at the home of Mr. and Mrs. D. H. Mitchell.

Mrs W. A. Mitchell attended the shower at the Melnichuk home on Wednesday given in honor of Miss Mildred Sherlock.

Mrs. Milton Ray and children are spending the Christmas holidays at the home of Mrs. Ray's parents, Mr. and Mrs. W. E. Mitchell.

Four generations sat down to dinner at the J. H. Ingram home, Mrs. H. Ingram, J. H. Ingram, Mrs. T. D. Ferguson and baby Ferguson.

Miss Mabel Lawson and Mrs. Keithe Oliver are home for the holidays.

Congratulations to Mr. and Mrs. James Johnson whose marriage took place in Edmonton last week. We leave it to our Lindbrook correspondent to give the details.

Our faithful mail carrier, Mr. Drake was the recipient of a nice warm sweater, presented by the residents of our community.

Mr. Oscar Barnes was a passenger to Camrose on Thursday.

The monthly meeting of the M.A.S. will be held next Wednesday, December 15th at the home of Mrs. G. W. Sears. A cordial invitation is extended to all.

Mr. and Mrs. C. A. Ingram and Mr. B. Widdess were guests of Mr and Mrs. McCraven on Wednesday.

Mr. and Mrs. T. D. Ferguson and son Gerald spent Christmas holidays with Mrs. Ferguson's parents, Mr. and Mrs. J. H. Ingram.

On Thursday evening December 23 the school presented one of the best Christmas concerts held there for years. Mr. Lee and pupils had been faithfully working on the program for some time and their efforts were well worth while, as well as being much appreciated. There was one item on the program not called for, viz: a hooked over loop, which caused some excitement for a few minutes, but it was soon extinguished and no damage was done. The appearance of Santa Claus with bags of candy and nuts as well as apples just topped and opposite at the conclusion, also much pupil received a small gift. Rev. Watt on behalf o f the pupils present ed Mr. Lee with a nice fountain pen, which was responded to with a few words of thanks.

HOCKEY GAMES

Two hockey games are billed to take place this week.

The junior team will play Chipman on Friday night. Tofield has a good line up this year and Chipman Chipman boasts a strong team, and when the referee blows the whistle on Friday night, the fans should see a good encounter.

Tofield United (Juniors) will line up with an Edmonton Junior team on Saturday afternoon at 2:30. This will be the first game played by the Juniors with an Edmonton team, and will be a fast bout of their struggle. The team that is coming in the Norwood school team and are aged 16 and under. They have the reputation of being a fast boys' team and a good game will result.

The Domestic Animals Act (Municipalities

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 43)

TENDERS WANTED

Tenders will be received up to Saturday, January 15th, for the putting up, packing and covering approximately 150 tons of ice. Lowest or any tender not necessarily accepted.

TOFIELD CREAMERY LTD

Bonspiel Going Good

GOOD WEATHER, GOOD ICE AND A MERRY PARTY

As we go to press Tofield's annual bonspiel is in full swing. There are seventeen rinks participating, nine local rinks and eight visiting rinks. This makes the total number of curlers 68. There are four main competitions, viz: Terwilleger shield, Pioneer trophy, Hammond Trophy and consolation. Good prizes go with these events. The following are the rinks competing: Visiting, Bons, Edmonton; Somers, Wetaskiwin; Emond, Holden; McIntosh, Ryley; Kelly, Viking; Carter, Holden; Kerr, Camrose. Local, McLaughlin; Lee, John; Lee, Cap; Chapman; McClung; Swift; McCauley; Hammond; Hannan.

TOFIELD WINS FROM CHIPMAN

In a stubbornly fought hockey game at the Tofield rink on Thursday last, between Chipman and Tofield, Tofield won out by a score of 4 : 2

Bud Hannan opened the scoring in the first period after about seven minutes of play, putting a bet one past the visiting goalie who up to that time had been making many sensational saves. One minute after, Chip McDonough duplicated and Tofield were two up. Chipman then made a determined effort which before the period ended, brought them two goals, the period ending two all.

The second period did not add anything to the scoring column of either team, due chiefly to the excellent work of the Chipman goalie, who played a splendid game. The Chipman net was threatened time and time again but the goalie was right there every time The hockey did not look speed, especially on the part of Tofield, but their was little finish to it.

In the third period, Tofield scored twice and Chipman once. Both teams were going full tilt and referee Cleghorn was a very busy man. However, no real friction occured and the game ended 4—2 in Tofield's favor. McClenaugh starred for Tofield and the visiting goalie starred for his team.

It was our intention the week to make some statement relative to the merry battle (carried on through propaganda) between the grain trade and the wheat pool. The heavy demand upon our advertising space this week has, however, compelled us to hold this over until next week. Accompanying each Mercury this week is a copy of the December issue of the "U.F.A." a publication issued by the United Farmers of Alberta. The delivery of this copy to you is purely regular in every way and is made possible by the generosity of Mr. Johnson Ferguson of Tofield. We recommend that it be read.

Report for December from Anderson Junior Room

Teacher—Carey G Brenan.

RABBITS! RABBITS! RABBITS!

"Hush my baby Bunting
Daddy's gone a hunting,
to get a bunny rabbits skin
to put my baby Bunting in"

The fine in the price of rabbit skins has been disagreeable to the carpet of "money". Hundreds—we are tempted to say thousands—of the white pelts have been sold here in the past couple weeks.

Two things in connection with this are noticeable. It is the first time that rabbit skins have had any appreciable value here, and the prices of the past weeks have ranged from eight to fifteen cents. Moreover, the Cottontails and Snowshoes seem to have appeared from nowhere, there having been very few here last year, or even a few months ago.

On account of the unwonted hunting, however, they are rapidly disappearing.

Mr Henderson and Mr. Wells, Bank of Montreal inspectors are inspecting the local branch of that institution this week.

NEWS OF OUR NEIGHBORS

KINGMAN

Jan. 10th, 1927

Mrs. Ed. Thompson has been visiting with Mr. and Mrs. Ted Severson of Ryley for a few days last week.

Mr. and Mrs. Finseth and Mr. and Mrs. Hanteid visited in the Emil Grabo home on Sunday.

Little Wynne Rude is staying with her grandmother Mrs. C. J. Rude.

Mrs. Nees entertained the Ladies' Aid on Thursday January 6th. All the old officers were re-elected. The working committee for this year consists of Mrs. T. Rosen, Mrs. W. Parker and Mrs. J. Jacobson. They met Friday evening with Mrs. Parker to arrange for work for the year.

Mr. and Mrs. Kvern left for their home in Saskatchewan on January 6th. Everybodys good wishes go with them.

Mr. Iver Vaagaard who has been here for some time visiting with his brother and the Jacobson family, left Monday morning for his home in Youngstown.

There was a meeting of the School Board at the Grande Forks Schoolhouse on Saturday afternoon. Mr. Nees was re-elected Trustee. Board officers are the same as last year, Mr. Nees, Chairman and Mrs. A. Steen, Secretary. Other members of the board are Mr Maurer and Mr. Steen.

The next meeting of the Ladies' Aid will be at the C. J. Rude home on January 19th.

On Sunday evening the following officers were elected by the Young Peoples Society of the Lutheran Church, at their semi-annual election. President, Carrie Brecken; Vice-President, Dagbild Fauskaug; Sec.-Treas., Ednard Steen. Programme Committee, Olaf Anderson, Myrtle Rude and Betty Rude.

LAKE SHORE

January 5th

Mrs. Mildred Shaw and little daughters have been spending a few days with Mr. and Mrs. John Wood.

Little Marvin Rude has been quite ill, but is improving at present.

Miss Lagerquist cared for him several days last week

The New Year's dance held in the Community Hall on Friday evening was very well attended and a splendid time is reported.

Mr. Arthur Wood from Washington visited with homefolks for a few days at Christmas Time, returning on Wed. the 29th. His sister Miss Ardis Wood of the hospital staff at Viking was also home for a few days.

Miss Esther Wood and Emily Person returned to their Normal studies at Camrose on Wednesday.

We are sorry to report that Mr. S. Bethel has been on the sick list for some time and is not improving very rapidly.

Mr. Bro Phillips made a business trip to Edmonton on Monday.

The Christmas Concert at the Schoolhouse was a great success, and reflects much credit on Miss Bethel and George Abernethy who trained the youngsters.

D. W. Warner was down from Edmonton a few days last week.

Mrs. Irvin Flants is visiting Mrs. Phillips for a few days

KETTLE KNOT

The annual school meeting will be held next Saturday afternoon at the school-house. Two trustees will need to be elected, as two years' ratepayers, reversibly powers to be present and take an interest in the school affairs.

School was closed on account of illness in the teacher, Mr. [illegible] with influenza

Mr. Donald Creasy returned to the home of his parents at Bad Deer on Monday evening after several weeks spent at the Owen home.

Miss Hazel Sears was unable to return to her school duties last week owing to illness.

On Monday morning Mr. and Mrs. C. A. Ingram entertained Mr. and Mrs. Geo. Lawson, Mildred and Marvin, Mr. and Mrs. Herman Lawson and family, and Miss Berthold Fehong

Mr. Chas Whillans was a visitor to the city the first of the week

Rev. B. G. Watt was calling on his flock in our community on Wednesday. He was accompanied by Mr. Wm. Lee.

The Stirrett, Sears, and J. H. Ingram families were victims of the flu last week, but all are on the mend

Mr. Frank Wyman was a visitor from Edmonton for a few days last week, buying furs and visiting his many friends.

Mrs. L. Carlisle visited her friends Mrs. Henderson on Friday afternoon.

Mrs. Chas Wyman and mother, Mrs. Sandboe, spent Sunday afternoon visiting the latter's friend, Mrs. Henry Bastin.

The Church Bible class study [illegible] at Mr. Wm. Lee on Monday evening. Those present were, Mr. H. McVeigh Secretary. Other members of the class are Mr. and Mrs. W. S. McNeill, and Mr. and Mrs. C. A. Ingram.

Mr. and Mrs. Hugh Mitchell left Tuesday for Los Angeles, California. They were accompanied as far as Edmonton by Mrs. Mitchell's mother, who will now stay with them for some time. While we are all glad to see Grandma and Grandpa Mitchell take their declining years more comfortably, we will miss their kindly faces from church and other social gatherings as well as having good friends and neighbors. May many years of peace and happiness follow them in their new home.

Rabbit hunting has been more than sport this winter. They have added many dollars to the boys pocket, they thinking nothing of having three or four hundred rabbit skins.

Canada and Japan

Dr. H. M. Tory, president of the University of Saskatchewan, has returned from a visit to Japan, where he went as a member of the Canadian delegation to the Pan-Pacific Conference. Dr. Tory has written a series of articles for the Saskatoon Star-Phoenix, in which he says in part:

"Japan is a land of contrasts. Here is a country which has been transformed in the last fifty years from a feudal state to a modern industrial nation. Here is a country which has been shut off from the world for centuries, and which has suddenly become one of the most progressive countries in the world. Here is a country which has been ruled by a military caste, and which has suddenly become one of the most democratic countries in the world. Here is a country which has been dominated by a religion which has made it the most conservative country in the world, and which has suddenly become one of the most radical

U. F. W. A. NOTES

Mrs. Johnston Ferguson very kindly invited the members to her home for the regular meeting on January 6th, which no doubt accounted for the unusually large attendance. There were 16 members and 6 visitors present. three of the latter becoming members.

The roll call was answered by the Author I like best and why. As there were no meetings held during the month of December there was quite a lot of business to be disposed of. Plans were discussed for securing new members and a committee composed of Mrs. Baptiste, Mrs. Warner and Mrs. J. H. Ingram was appointed to take care of the matter. Delegates were appointed to attend the Annual Convention of the U. F. A. and U. F. W. A. to be held in Edmonton on January 18th, 19th and 20th. Mrs. Parker and Mrs. Phillips with Mrs. Ferguson as substitute

Mrs. Bonnie gave a very interesting demonstration on making hooked rugs, which was much appreciated by the members. A hearty vote of thanks was accorded her. The new programs for the year were distributed to the members also.

After the meeting Mrs. Ferguson served a dainty lunch to which those present did full justice.

The next meeting will be held on January 22nd, a joint meeting with the U. F. A. in order to hear the reports of the delegates.

LAKE SHORE

The whist drive held in the Community Hall on Wednesday, Jan. 5th under the auspices of the U. F. A. was a great success. There were sixteen tables playing. Mrs. Jack Johnson won ladies' first prize. Ivan Phillips, gentlemen's, and Jack Blake and Lingre Ward won the consolations.

Mr & Bethel was taken to Edmonton to the hospital on Saturday evening. He was accompanied by Miss Myrtle Bethel, who returned on Monday.

Mrs. Bonnie gave a very interesting demonstration on making hooked rugs, which was much appreciated by the members. A hearty vote of

A new fire six being laid in community hall and will be initiated on Friday evening with a dance. Everybody welcome.

NEW MINISTER OF PUBLIC WORKS

The announcement was made last week of the retirement of Hon. Asen Bono, Minister of Public Works, for the past five years, and the appointment of Hon. G. L. McPherson, the speaker of the house, to the portfolio of labour will be taken from the present by Premier Brownlee. Hon. Mr. McPherson has been speaker of the legislature since 1922 and is a prominent farmer near Vulcan in southern Alberta.

NEW DEPUTY MINISTER OF HEALTH

Announcement is made by Hon. Geo. Hoadley, minister of public health, of the appointment of Dr. Malcolm Bow, of Regina, Sask., to the position of Deputy Minister of Health for Alberta, filling the vacancy created by the death of Dr. Lafleur. Dr. Bow will take over his duties at once. He is a graduate of Queen's University and held the position of assistant pathologist and bacteriologist for the provincial laboratory at Regina, and since 1912 has been medical health officer for the city of Regina, and since 1920 has been superintendent of the general hospital there. Dr. Bow also holds the degree of Dr. of Public Health, from Toronto University. He is about forty years of age.

ANGLICAN SERVICES

Sunday, January 16th

Evensong, Tofield at 7.00 p.m.

The annual meeting of the Holy Trinity Anglican Church will be held on Sunday, January 30th immediately after evensong. All members are urgently requested to attend. Regular notices on church board.

W. I. NOTES

The first meeting of the new year will be held on Tuesday, Jan. 18th, at 8:00 o'clock sharp. This is a postponed meeting on account of the bonspiel. Sufficient officers for the year were not elected at the annual meeting in December, so this meeting will be a continuation of that, and it is necessary for each member to come and do her part.

Here and There

More Oldsmobiles are on the way to Canada from Scotland. It is expected that the year's imports will run to 1200, a record since the war.

Over a million Christmas trees have been shipped from New Brunswick to United States markets, according to unofficial estimates based on exports of some 500 carloads averaging 2,000 trees to the car.

About 150 French-Canadians from the Prairie Provinces travelling under the auspices of the "Survivance Française" arrived in Montreal by special Canadian Pacific Railway train at the Windsor Station recently to spend Christmas and New Year in the province of their origin.

According to a recent statement of E. W. Beatty, Chairman and President of the Canadian Pacific Railway, the record of the railway's common stock as at June 30th, 1926, indicates that 85% per cent. is held in Great Britain, 13¼ per cent. in Canada and 1¾ per cent. in the United States.

All previous records have been broken by the salmon pack in British Columbia for 1926. It is estimated that the total pack for this year, when all returns are in, will be, in round figures, 1,900,000 cases. The nearest approach to this was in 1924, when slightly more than 1,700,000 cases were put up.

Early in June next year, it is announced, a regular airplane service between Chicoutimi, Montreal and Toronto will be inaugurated by the Canadian Transcontinental Airways Company—a corporation which has just received its letters patent. The airplanes or hydroplanes will make stops at Rivere du Loup, Quebec, Three Rivers, Montreal and Ottawa.

Nearly a ton of mistletoe wanted its sweetness on the Eveleus air of the Canadian Pacific Express Company's yards in Montreal at Christmas time. It arrived from France and England via the Canadian Pacific steamship "Montrarin," and was boxed in twenty-two crates, of which twelve were destined for New York and the balance for distribution in this city.

Two hundred and ninety-four vessels of 55,295 gross tons and 42,921 net tons, were built in Canada and registered during the year 1925, according to the Department of Marine and Fisheries. Wood vessels built consisted of 140 sailing, 9 steam and 122 motor, and metal vessels of 5 sailing and 9 steam. Of the total tonnage 21,648 was attributable to British Columbia, 11,250 tons to Ontario, 7,670 tons to Quebec and 2,102 to Nova Scotia.

United States settlers continue to cross the border in large numbers despite the lateness of the season. Navigher figures issued by the Department of Immigration and Colonization show that the Government Agency at Pargo, N.D., forwarded 122 settlers and seven cars of effects, compared with 105 settlers and four cars in the same month last year. The Kansas City Agency sent 16 settlers, as compared with four last year and the Detroit Agency sent sixty, an increase of over 200 per cent. over November, 1925.

February will see the winter sports at the carnival at the height at the Chateau Frontenac, Quebec. On the 4th and 5th the fastest speed racers in America will compete in the Canadian Indoor Skating Championships for all tarcus and ages. Hockey, bobsled racing, ice golfing on ice rinks, and last but the outstanding Eastern International Derby, February 21 over the 120 mile course at the rate of 40 miles per hour from the Un will be there will also be the race.

Make 1927 the Best Yet

Progress of the human race is one of progress. Everyone delights in it. To do a little better than we did last year is the desire of almost everyone. We can't do it too, but in this modern era we are dependent upon you. We can't do it next year but a year before it can be. Make a start. Together, milk as many cows as possible, ship as much cream as possible, increase efficiency as possible. And we will endeavour to pay you as much money as possible. Let 1927 be the best year all round.

THE WHEAT POOL

WHEN, FOLLOWING a "hard winter" an Alberta farmer sows his wheat seed in the spring, runs the gauntlet of all the things that can happen to prevent a bumper crop, and then in the fall harvests what there is to harvest, what he gets is his. His to sell how, when and where he wishes—always as far as he can judge in the best market, with a view to getting the highest price. This is simple justice.

When, after a number of years of selling wheat to the "Grain Trade," the farmers of Alberta became convinced that they were not receiving an adequate share of the ultimate price paid for the product which their labor and risk (excepting natural causes) brought into being, they organized a wheat pool. This created their own selling agencies to control their wheat as long as possible in order to get as high a price as possible—they were well within their rights. There is absolutely no restriction upon the growing of wheat, there are millions of acres of arable land still waiting for the plow, therefore no person or group of persons have any "divine right" to the business of trading in wheat.

The wheat pool being organized and launched, it became for a time at least, the topic of the day, and in the main, everyone sang its praises. In the grain trade left ours, it nursed its grievances well, for little was said by any person against it. Now, however, after having been in operation for two years, there is a well organized campaign under way, of late, two well organized campaigns, one by the Nortawest Grain Dealers Association to discredit the pool and the other by the pool itself to defend and maintain its already strong position among Alberta farmers. Both concerns have well paid publicity men conducting their campaign for farmer favor who are diligent in forwarding material representing their side of the question to newspaper offices and to other mediums of general distribution.

To follow their arguments point by point would take a great deal more space than we can possibly devote to it, but the essence of the argument is, that the grain trade now claim that the wheat pool was an experiment which has not worked out to the benefit of farmers, while the pool officers claim the exact opposite. The main argument of course is the pool, the grain trade claiming the open market price for year was $1.51 for No. 1 Northern, while on the basis was only $1.45. The pool in turn claim that $1.51 was not the correct open market price.

Unless one is either an ardent supporter of the grain trade or an ardent supporter of the pool, one is willing to sacrifice something for his convictions it is wholly a question of individual judgment as to part or the men who has grain to sell. As Carmi Thompson, Jr. says, "Thompson" [illegible] product, he may reason something like this:

For years I have been selling my grain to the grain trade, there was always a sudden drop when grain came on the market in the fall—a devil take the hindmost proposition. The trade grabbed it, weighed it, traded with it and for all I know, mixed it; their interests were the exact opposite of mine, to buy for the least, whereas I wanted to sell for the most. From the moment they bought I lost all interest in the wheat, market fluctuations from then on meant nothing to me. But they paid cash.

The pool promises to take my wheat, market it according to demand, pay me an initial payment on the basis one or more payments during the year. The pool is really my own business, and men who [illegible] foreign buyer [illegible] it is to my interest to sell at [illegible] It is true they need a five year contract, but this is in my own interest as it prevents "wobblers" from being stampeded.

There is this, however to say for the grain trade, it is efficient, for its own interest certainly, but some of this efficiency, or rather the effects of it, overflows to me. In the pool, on the pool basis, economic. By efficient in handling grain [illegible] companies, spurred on as they are by competition. The cost of handling grain by the pool of grain is a vital factor.

It is only to be expected that when the pool is instituted any magnitude the grain trade would oppose it, for all that, some of their criticism may be true.

[illegible] of the two systems I find that while the grain trade has always been run for pure commercial profit, the pool was started by a motive power consisting of a mixture of public service and personal ambition. I can find out what the pool men from the [illegible] of my product, but the grain trade [illegible] sealed book to me.

[illegible] the pool, advances are [illegible] which I can make use of [illegible] time during the selling season [illegible] by sharp declines.

Part of the profit made in selling my grain after [illegible] comes back to me [illegible] for pool buyers to grade [illegible] for which light.

I am lining up with my fellow farmers for better farm conditions all round.

Some of the advantages the grain trade offer me are:

Full payment when I deliver my grain.

For The New Year!
A KOHLER LIGHT AND POWER PLANT
The plant with the four cylinder engine that is practically vibrationless. The plant that has the "Press the Button Service," light and power when and where you want it; powerful for carrying 110 volt current; no large storage batteries to care for (only a small starting battery); entirely automatic and full rated capacity always on tap.
The Kohler is a peer among private electric plants and has been aptly described as "America's Finest Private Electric Plant."
In offering the Kohler, we are offering a product of real merit and one that represents true value in the electric light plant field.
Not only this year, but every year, life will be lighter and brighter on the farm where the sturdy little Kohler does duty.
W. WORTON
Kohler Representative TOFIELD

Atwater-Kent Radio
On a quality and performance basis there are no radio sets that can surpass the Atwater Kent set. Simplicity and unobtrusiveness of design, fine tone and full volume, one dial control, are a few of the good qualities of the Atwater-Kent radio set. We will be glad to demonstrate this set in your home at any time, or at the garage where there is a set permanently installed.
P. M. Haugen, Agent, Tofield

JOB PRINTING
The Mercury Office is equipped to execute promptly most kinds of Job Printing used in a modern town business. Among these are included Letterheads, Envelopes, Statements, Loose Leaf Forms, Business Cards, Window Cards, Concert Tickets, Posters, Dodgers, Etc. If the job you require is either too large or too small for our plant, we have connections with one of the most fully equipped plants in Western Canada and we will be pleased to handle your work, at no extra cost to you.
The Tofield Mercury

We Depend On You
[illegible] the length and breadth of this district the Mercury finds its way each week. On the [illegible] running north and south, east and west [illegible] that for any number of years up to [illegible] Mercury has been a weekly visitor. And it is read and enjoyed. By far the [illegible] number of our subscribers pay in advance [illegible] subscription falls due, but there are a [illegible] ways for various good reasons allow [illegible] subscription to run on.
[illegible] we sent out circulars notifying [illegible] subscribers of her standing on our [illegible] books. The response was encouraging though [illegible] came. It helped us a great deal to receive subscriptions promptly and we trust that those in arrears will renew as soon as convenient.
It is not possible for us to call upon our subscribers and collect these amounts, we have to depend upon their good nature and generosity to bring them in.

Buck-eye Incubators

IF YOU want to make the biggest possible profits from your poultry; if you want to hatch your chicks with the very smallest amount of time, effort and expense, you must have an incubator that does certain things. You must have an incubator that you can depend upon to hatch every hatchable egg. You must have an incubator that you can depend upon to hatch the biggest, strongest healthiest chicks. You must have an incubator that you can know operates as nearly automatically and with as little time, work, and fuel as possible.

BUCK-EYE INCUBATORS HAVE BEEN TESTED AND PROVEN, and we are pleased to inform our many Tofield and district friends that we are now agents for this well known incubator.

WE HAVE A NUMBER OF MODELS ON DISPLAY—CALL IN AND SEE THEM

Local and Personal

Walter Kendall, accompanied by Mrs. Kendall is visiting at the parental home for a week or so before taking up residence at Vermilion, Alta. Walter, who is well known to Tofieldites was married to Miss Edna Thomas of Vermilion on January 12th.

• • •

Miss Easton visited with home folk at Camrose on Wednesday.

• • •

Mrs. A. Lewis and family of Edgerton are spending a few days in town.

• • •

Miss Olive Smith of Edgerton, spent the week end with Miss Ruth McLaughlin.

• • •

Visitors to the city this week end included Mr. and Mrs. J. Carver, Bed Deer; J. Robinson, Bent Watts; Burr and Miss Corbett.

• • •

Miss Lorna Rose and Mrs. Calvert spent the week end at the Rose home at Prince Albert.

• • •

Mr. Hingley was in town last week.

• • •

Mrs. Donald Bal and daughter, June of Red Deer are visiting in town and district for two or three weeks.

• • •

Rev. J. R. Harmgart, a returned missionary from India will deliver an address in the United Church on Thursday evening, February 1st at 8 o'clock. All are cordially invited to come and hear Mr. Harcourt who is an authority on missions in India.

• • •

Walter Bellamy visited Viking today, Wednesday.

• • •

The dynamo at the Variety Theatre broke down last week and "The Bat" was unable to be shown on Wednesday evening as advertised. The Tofield garage loaned the trouble with the dynamo, fixed it, and it is now as good as ever.

• • •

Mr. Peterson and Mr. Buck of Camrose were visitors to town last week. They were looking for possible business locations. They also left with the editor a copy of the "Oak Haven," which is a church paper, published at Camrose by the Baptist Minister there for circulation among his people. There is quite a lot of interesting material in the "Oak Haven," and no doubt, in conjunction with the paper, the press will be able to do good work.

• • •

The show at the Variety for Saturday is "Lorraine of the Lions," a story of the South Sea Islands. There is plenty of action in this picture which is built up around a story of a girl being reared among wild animals, yet still being a [illegible]

LADY CURLERS VISIT EDMONTON DONSPIEL

The following local lady curlers were visitors to the Edmonton Ladies' Bonspiel, where they will take part in the big event. Mrs. Hammond, Mrs. McCauley, Mrs. J. Lee, jr., and Mrs. E. W. Rogers. Mrs. Hammond is a member of Mrs. G. Emery, and Mrs. G. Bissett.

FANCY DRESS SKATING CARNIVAL

Tofield's annual fancy dress skating carnival was held at the rink last Friday evening. Perhaps due to the exceedingly cold weather immediately preceding the carnival, there was not a large attendance. The rink manager and the hockey club made a late move to get out the carnival, however, and things considered are well satisfied with the evening's event.

The skating carnival is becoming more and more a children's event, the adults taking much less interest in it than they used to. The children on Friday last were nicely costumed and the following awards were made.

Ladies' fancy costume, Lois Bagley; best small girl's costume, Geraldine Carver; best boys' costume, A. [illegible]; special boys' costume, W. McCauley; boys' comic, J. Boisvan.

Must Prepare Weeks Ahead

London, Jan. 25th.—"A test of Cantonese good faith is provided in the situation at Hankow. If Chiang Kai-shek the Chinese nobo there and is willing to negotiate a settlement in which we are prepared to make substantial concessions, then the delegate to Shanghai will be instructed but so far Chang has given no sign of entertaining either of these tests."

These words, from a high official of the government, published to British United Press today, great Britain's attitude towards the Chinese situation.

"We have not," this official added, "the slightest guarantee that when the Cantonese reach Shanghai that mob will be prevented from invading international settlement areas and menacing British lives and destroying British property. We cannot, therefore, act quickly in our armaments at Whitehall and leave British subjects in Shanghai at the mercy of Chinese mobs."

Must Prepare Weeks Ahead

We must make preparations for [illegible] before measures such as defense measures, as compulsion [illegible] of troops, are taking place.

There is, too, a suggestion in certain circles here, that the Cantonese may be unwilling to control Shanghai's rich as it Hankow, because such can do the work of their organized forces without fear of precipitating war. And it is obvious that something favorable must have happened to the negotiations at Hankow between O'Malley, British Charge d' Affairs, and Eugene Chen, Cantonese Foreign Minister, owing to the recent stiffening of the British attitude.

The nature of this break, if break it was, is being kept a close secret, but it is quite clear that the British government has no intention of losing face before by the Cantonese and that it is determined to uphold British prestige in the Far east.

Certain members of the cabinet, it is understood, have expressed themselves forcibly on this phase of the situation, pointing out that if the British gave way in China, then the opposition will be immediately felt throughout India and Egypt, with consequent restlessness and loss to British trade.

Shanghai Nerve Center of Trade

Shanghai is also the financial nerve of the whole far east, a nerve controlled principally by the British and it is emphasized that to jeopardize this nerve would ruin the entire British commercial structure in eastern countries.

At the same time the cabinet is not disposed to spend a penny more than is necessary to adequately defend British interests. It recognizes that it is impossible to frustrate the nationalist movement in China as it is prepared to lend but not lend to. The government, however will not submit to any movement, nationalist or otherwise that aims at the confiscation of property—Edmonton [illegible]

GARNET HELD FROM INSPECTED FIELDS

During the past summer a considerable number of farmers who grew Garnet wheat in the prairie provinces, had an official inspection made of their growing crop by officers of the Federal seed branch, in order that they might be in the position to furnish assurance as to the genuineness of any seed of the sort a variety which they might have for sale. A list of those growers who have been approved have been compiled and are now available on application by any of the federable experimental farms located on the above territory.

The experimental farms themselves also are offering seed of the above variety again this winter but they have been obliged to put a limit upon the number of bushels any one farmer may purchase. The order in which the applications for seed it will be put before the public, however, and prospective purchasers of Garnet seed would be well advised to finalize on the seed they order securing from fields of approved crops, if at all possible, in order to avoid disappointment. While the above variety, even at its best, is not pure enough as yet to qualify either as Registered Seed or as Extra No. 1 seed, yet it is considered good enough in these cases where the fields have been approved, to permit a comparison to be made between it and other varieties grown in the district.

Must Prepare Weeks Ahead

London, Jan. 25th.—"A test of Cantonese good faith is provided in the situation at Hankow. NEWS OF OUR NEIGHBORS

KITCHENGOOT

When the thermometer is hovering around 30 and 40 degrees below zero, our many people have there own favorite, home brew to remove this weak.

• • •

Messrs. A. F. Hicks, A. Williams, Wesley and James Ingram attended the U.F.A. convention held at Edmonton last week.

• • •

Mrs. Fred Seton and children returned home on Friday after two weeks visit with Mrs. Seton's parents Mr. and Mrs. Welch of near Edmonton.

• • •

Masters. Tommy Welch and Joe Seton drove overland to Bonnyville, near Cold Lake, starting last Monday. They will visit a cousin of Mr. Welch who is sick in a hospital at that place and to hold religious services.

• • •

Mrs. W. Carter of Holden visited at the Welch home last week. On Friday she went to the home of her daughter Mrs. Timmon of Farmington.

• • •

Mrs. Tommy Welch is staying at the Henry Seton home in the absence of her husband.

KINGMAN

Mr. and Mrs. Thor Grahn and family, Mr. and Mrs. Roy Melvin and family and Mr. and Mrs. Thor Horte and family were the guests of Mr. and Mrs. Carl Larsen on Tuesday.

• • •

Mr. Carl Larsen left on Wednesday morning for Chauvin Province where he is likely to make his future home.

• • •

Three carloads of lumber have arrived for the local yard within the last week, the unloading is being done by Messrs. Detwiler.

• • •

The Misses Lilly Erickson and Ingrose Horte, who are attending high school in Camrose visited their homes in Kingman over the week end.

• • •

Mrs. E. Erickson was a Camrose visitor on Monday.

• • •

J. H. Hines recently arrived to town and imparted the finishing touch to the new implement warehouse for Carver and Hannan, who we understand have taken the agency for International implements.

LAB RIDGE

Among the Lake Shoreites who attended the U.F.A. convention held at Edmonton last week were Messrs. Wm. Bairnes, Mrs. Wm. Bairnes, who was under the weather, Mr. and Mrs. T. E. Smith, Geo. Abernathy, Mr. and Mrs. C. Moss, Mrs. A. N. Booth, and Mrs. R. C. Phillips.

• • •

Mrs. S. Bethel spent several days in the city last week, visiting Mr. Bethel, who is in the hospital there.

• • •

Mrs. A. Gavin made a business trip to Edmonton last week.

• • •

The annual meeting of the ratepayers of the Lakeshore school district was held on Saturday, January 15th. There was an larger attendance than usual, there being two ratepayers present besides the board of trustees and the secretary.

TENDERS WANTED

For 25 cords of wood to be cut in 16 inch lengths and hauled and quartered according to size. All tenders are to be in by the 5th of February. The lowest tender not necessarily accepted. Address tenders to:

MRS. R. C. PHILLIPS,
Secretary of the Lakeshore School

• • •

Mrs. Stack read, which is the basis of all registered seed, is being developed as rapidly as possible, but it will be at least a couple of years before that class of seed will be available in sufficient quantity to provide those who wish to produce registered seed with enough to make a reasonable start in the production of the better class of seed.

ARISE CREEK

Mr. and Mrs. I. C. Olson attended the U.F.A. convention in Edmonton last week. They went to the city on Monday evening. Mrs. Olson attended the U.F.W.A. on Tuesday and returned Wednesday morning. Mr. Olson returned on Saturday morning.

• • •

Some of the members of the Ladies' Aid held a quilting bee at Mrs. E. A. Moore's last Wednesday, making a quilt for the Moon family in Ryley. They also filled a basket for Mrs. Moon and family at Round Three. The Moon family of Ryley came from the Old Country only last summer. So Mrs. Moon has been ill in bed most of the time since. There are five young children in the home and the baby only a few months old.

• • •

The Bards boys played a basketball game with the Ryley boys on the Solberg ice last Saturday. The score was three to two in favor of Solberg.

• • •

Mrs. White from Tofield visited with Mrs. I. C. Olson last Sunday and attended the Lutheran service in the church in the afternoon.

• • •

Mrs. Nils Sand from Ryley was operated upon at the Royal Alexandra hospital in Edmonton last week. The last reports were that she was getting along nicely.

• • •

Mrs. C. Kingrose was operated upon at the Royal Alexandra hospital at Edmonton about a week ago. Last reports were she was progressing satisfactorily.

BARZO

At the regular meeting of the ratepayers of Anderson school district, Mr. Fosbergh was re-elected trustee and chairman of the Board. The personnel of the Board remains the same as last year.

There was a meeting of the local U.F.A. at John Anderson's on January 15th. Quite a large crowd was out. Mr. A. Dixon was elected delegate to the convention at Edmonton. Others from here who were in attendance were: Mr. and Mrs. W. E. Parlow, and Master Ness, Edis, Fosbergs, Mr. Hagen, C. Rude, V. Pinseth, Bennie and Olive Anderson. They are quite enthusiastic over the convention.

Miss Bergfield Fosberg entertained the Thimble Club on January 18th. The following officers were elected: President, Sigred Eggen, Vice-President, Bergfield Fosberg, Secretary-Treasurer, Mabel Jevning. Work committee, Alice Pinseth, Alfred Moen and Emma Anderson.

Mrs. C. J. Rude entertained the Ladies' Aid on the 19th, the next meeting will be at Mrs. Finnegan's on February 1st.

It being necessary to make some repairs on the hauling apparatus, there was no school at Grand Forks on Friday.

Rabbits still seem to be numerous in spite of hundreds having been killed.

Colds, sore throats, etc., for the past two weeks but we know of no serious cases at present.

W. I. NOTES

There will be no regular meeting of the Women's Institute until Tuesday, February 8th.

U.F.W.A. NOTES

Teh regular meeting of the U.F.W.A. was held on Saturday, January 22, in the town hall. It was a joint meeting with the U.F.A. in order to hear the report of the delegates to the annual convention held in Edmonton last week. There were only nine present.

The next meeting will be held on February 5th in the Municipal Building at 2.30 p.m. instead of February 12, in order that members of the U.F.W.A. may take in the debate on the 12th which is being put on by the U.F.A. locals of Tofield and Mundare.

The roll call will be answered by current events and there will be three papers, No. 1, "Loneliness for Children," Mrs. Murray; "Entertaining Children on Stormy Days," Mrs. Barnes," No. 3, "Parties for Young People," Mrs. F. Lee.

WORLD HAPPENINGS BRIEFLY TOLD

Breeders' Meeting

Annual Meeting Saskatchewan Stock Breeders' Association.

Canada Attracting Attention

Has Greatest Export Trade of Any Self Governing Country

Canada is becoming more widely known all the time. In an address before the Chamber of Commerce of the United States, on the subject, "Our Neighbor," Sir Herbert Holt, president of the Royal Bank of Canada, said:

"Canada's export trade has shown a greater increase than that of any other self governing country in the world since 1913. He went on to point out that today, due to the rapid expansion of her foreign commerce, her export trade has increased 300 per cent since 1917 and to the fact that she is selling practically all of her products to the United States. Canada, as to income per head of population, stands to be among the first in the world. In addition to the natural resources of Canada, which are known to all, there are many other assets in which Canada is rich, and which are not generally known. Among these I would mention the extensive water powers which are capable of development at low cost, and which will be a great factor in the future industrial development of the country. Canada is also rich in coal, and has enormous deposits of iron ore, which are now being developed. Canada has also a large area of agricultural land which is capable of development, and which will be developed as the population increases. Canada has a population of only about 9,000,000 people, and a territory as large as the United States, and is capable of supporting a population of 50,000,000 people. Canada has a great future before her, and I am glad to see that the people of the United States are beginning to realize the fact."

Rural Adversity And Its Compensations

By C. W. Peterson

The last decade has been a difficult one for agriculture, not alone in Canada but the world over. But we would not take all the readers of the past unsatisfactory agricultural situation that we can. The most demoralizing influences any business or calling could possibly be subjected to is without a doubt continued prosperity. On the other hand, it must probably be admitted that it is a reasonable measure of adversity. Prosperity leads to extravagance in management, overproduction in some lines and perhaps production. We worry! But when adversity comes we focus our attention on the opportunities at hand. We study economy and efficiency. We learn our strength and weakness. We realize that we can not always depend on the other fellow. We learn to depend on ourselves. We learn to be resourceful. We learn to be independent. We learn to be self reliant. We learn to be optimistic. We learn to be courageous. We learn to be patient. We learn to be persistent. We learn to be industrious. We learn to be economical. We learn to be thrifty. We learn to be temperate. We learn to be moderate. We learn to be conservative. We learn to be progressive. We learn to be liberal. We learn to be tolerant. We learn to be charitable. We learn to be kind. We learn to be generous. We learn to be hospitable. We learn to be friendly. We learn to be neighborly. We learn to be sociable. We learn to be companionable. We learn to be agreeable. We learn to be pleasant. We learn to be courteous. We learn to be polite. We learn to be refined. We learn to be cultured. We learn to be educated. We learn to be intelligent. We learn to be wise. We learn to be good. We learn to be great. We learn to be noble. We learn to be godly. We learn to be heavenly. We learn to be divine. We learn to be perfect. We learn to be complete. We learn to be finished. We learn to be ready. We learn to be waiting. We learn to be watching. We learn to be praying. We learn to be hoping. We learn to be trusting. We learn to be believing. We learn to be loving. We learn to be serving. We learn to be working. We learn to be living. We learn to be dying. We learn to be rising. We learn to be reigning. We learn to be glorified. We learn to be eternal. We learn to be infinite. We learn to be God.

SUNDAY SCHOOL LESSON

JANUARY 6

THE CHRISTIAN OVERCOMING TEMPTATION

Golden Text: In that He Himself hath suffered being tempted, He is able to succor them that are tempted —Hebrews 2:18.

Lesson Luke 4:1-12; I Corinthians 10:13.

Devotional Reading: Romans 4 21-25.

Explanations and Comments

I. The Scene and the Nature of the Temptation, Luke 4:1, 2.—According to the record of the Holy Spirit, the temptation of Jesus in the wilderness was an actual event. Jesus was led by the Spirit into the wilderness, where He remained and meditated undisturbed upon the great work of His life. In the barren spirit did not desire a period of retreat to prepare Himself for His ministry, "preaching many days, to be then forgotten of the world." The desert is held in Mark, Jesus seems to have kept His fellowship unbroken with God; it is with the devil, a personal being, that He has to do battle. The temptations seem to have come at intervals during the forty days.

Jesus himself must have related this experience to His disciples, and probably not a few times. We have the record of it from Matthew and Luke, and it certainly must have been regarded in the early church as a most valuable lesson, for the Holy Spirit led the writers of the Gospels to devote considerable space to it. We learn all that it is necessary for us to know about the temptation of Jesus, and only a few of the details that would be interesting to us. The stones will not be turned into bread, the kingdoms of the world and their glory will not be given to Him. First, last and always, Jesus was the Son of God, and He was tempted in all points like as we are, yet without sin. Because He was without sin, He was the more tempted, for sin is the yielding to temptation.

II. The Victory Over Temptation, Luke 4:3-12.—Satan's first temptation was to appeal to the appetite of Jesus, which was natural enough after His long fast. Jesus was hungry, and the tempter suggested that He satisfy His hunger by turning stones into bread. Jesus refused to do this, because it was not God's will that He should do so. Jesus was willing to endure hunger, but He would not satisfy it by doing anything that was not in accordance with the will of God. Jesus was willing to suffer, but He would not sin. Jesus was willing to die, but He would not disobey God. Jesus was willing to be poor, but He would not be dishonest. Jesus was willing to be persecuted, but He would not be unfaithful. Jesus was willing to be misunderstood, but He would not be unrighteous. Jesus was willing to be forsaken, but He would not be unholy. Jesus was willing to be crucified, but He would not be ungodly. Jesus was willing to be buried, but He would not be unclean. Jesus was willing to be raised from the dead, but He would not be unjust. Jesus was willing to be glorified, but He would not be unworthy. Jesus was willing to be eternal, but He would not be unrighteous. Jesus was willing to be God, but He would not be unholy.

Jesus was willing to be God, but He would not be unholy. Jesus was willing to be God, but He would not be unholy. Jesus was willing to be God, but He would not be unholy.

Here and There

The Beethoven manuscript sonata in F major has been sold in London, England, for $100, and the Koch organ prelude for $5,000.

Bachelors in Rome between 30 and 60 are to be taxed to provide funds for the National Maternity Fund and Child Welfare scheme.

Canadian apples are now on sale in Paris, France, in the central market and in the shops. Shop window displays of the fruit are reported to have aroused quite a wave of admiration.

Alberta's visible coal supply is about 37 billion tons, Premier Brownlee declares. With the possible exception of China, Alberta has the greatest coal deposits in the world. The annual production from the province averages around 6,000,000 to 8,000,000 tons.

Valued at nearly $5,000, twelve silver black foxes in six crates arrived at Canadian Pacific Express Company's yards in Montreal recently for shipment by S.S. Berwyn from Saint John January 1st. They are from the Agnew Silver Fox Farm, Surrey, Ont., and represent the first shipment to leave Canada in 1927.

According to the financial statement of the Canadian Pacific Railway Company for the eleven months ended November 30, the net profits of the Company were $43,252,04.56, an increase over the net profits for the corresponding period of 1925 of $8,000,962.23. For the month of November the net profits of the Company were $6,746,722.72, an increase of $301,687.80 over November of 1925.

An air mail service for Canada is likely. The Hon. P. J. Veniot, Postmaster-General, remarked in an interview that the Postal Department at Ottawa are following with keen interest the successful activities of the United States air service and that something similar may be started in this country shortly. Definite announcement one way or the other would be made early in the New Year, said Mr. Veniot.

Northern Ontario has 2,000,000 square miles of mineral lands, of which only 7 per cent. has been explored; and yet this seven per cent. has already produced metals to the value of a billion dollars. Such was the summing up of George C. Bateman, Secretary of the Ontario Mining Association, speaking before the Engineers' Club. "Twenty years ago," he reminded his hearers, "Northern Ontario was practically an unknown wilderness. Today it is the centre of a large and growing industry."

A combined service to the Canadian Pacific Railway Company of 160 years was terminated January 1st with the retirement from the activities of travelling passenger agents of Henry B. Ibbotson, Andrew E. Lalande and James Mckenna. The official records of the Company indicate that these three well-known officials have served respectively, 44, 53 and 43 years in the employ of the Company. The railway careers of these men began in each case during the construction of the Canadian Pacific lines from the north shore of Lake Superior west to the Pacific Coast.

To further assist agricultural development the Canadian Pacific Railway will operate forage, cream, poultry distribution and demonstration cars in the Alberta district, starting the January Following the practice of previous years the company will co-operate with the Provincial Governments, says Thomas S Acheson, General Agricultural Agent, Western Lines of the C.P.R. The special cars will receive upon Lethbridge, ranging between the international boundary and Calgary, eastward to Lacombe and the Saskatchewan boundary and west to Red Deer and Rocky Mountain House.

Operating New Branch Line

The new branch of the Edmonton, Dunvegan and B.C. Railway, built from Bushy, northwest of Edmonton, to the Peace River, is in operation for the handling of freight. The branch is at present 75 miles long, [illegible] Burnhead.

Make 1927 the Best Yet
The story of the human race is one of progress. Humanity delights in it. To do a little better this year than last is the desire of almost everyone. We desire this too, but in this modern era of interdependence we are dependent upon you. 1927 must be your best year before it can be ours. Now then, all together, milk as many cows as possible, ship as much cream as possible, earn as much money as possible. And we will buy your cream and pay you as much money as possible. Let 1927 be the best year all round.

TAKE CARE

THE TERRIBLE disaster in which three persons were burned to death and two others left in a dangerous condition at Munsey, recently, very forcibly emphasizes that wherever gasoline is used, watchful care must always be exercised. The perfection of the automobile and gasoline engine has made the use of gasolene almost universal. It is also used for cleaning purposes and there are few homes that in one way or another do not use this commodity. This almost universal use has to some extent dulled the public's sense of danger regarding it. It is not so much that the public fails to realize the potential danger when the right circumstances occur, but the common use of the liquid has brought about carefree habits of handling it. Every so often there appear reports in the paper regarding some one putting gasolene on the fire instead of coal oil. Admitting that the practice of livening up the fire with coal oil is bad, using gasolene by mistake is disastrous. Wherever coal oil and gasolene are used in the same home the gasolene should always be in containers that are painted red. In fact there are laws less sensible than one which would make this compulsory.

Gasolene should never be used for cleaning in a home except where extreme care is taken, it not only being necessary to keep the gasolene away from fire or light, but to prevent evaporation. When gasolene evaporates in a room a gas is formed. This gas mixes with the air and when the right mixture is formed it only remains for some open flame or spark to create an explosion and consequent fire. When we realise that gasolene evaporates rapidly at ordinary temperatures, it is evident that extreme caution must be used.

The disaster at Munsey was caused by mistaking gasolene for coal oil. A lantern was filled during one of the very cold nights with the intention of lowering it into the cellar so that its warmth would prevent the vegetables freezing. No sooner was the lantern lighted than an explosion occured which made a raging inferno of which was a few seconds before, a peaceful home scene.

There are few disasters more pitiful than a farm home being burned on a bitterly cold night, and every care should be experienced to prevent such an occurence.

In spite of its usefulness to society it should never be forgotten that gasolene is a commodity which calls for MORE THAN ORDINARY CARE in the handling of it.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government of Alberta, Edmonton, January 22nd 1927.

Will Not Bid 'Please System

A unique compliment was paid to he Alberta Government Telephone system recently, when large eastern interests made an offer to the provincial government to purchase the system. The offer was refused, the government deciding to continue to own and operate the system, which is recognized as one of the most efficiently managed on the continent.

Here and There

In the year ending June 30th last, 9,407 mining claims were staked in the Province of Quebec, covering an area of 425,000 acres, according to a preliminary report. This is an increase of 83 per cent. over the year before.

* * *

Tobacco growing is becoming a serious industry proposition in the vicinity of Kingsville, Ont. Two hundred acres will be planted out in Essex, Kent, Carleton, Grey and Osogood next year, while the acreage at Leamington will also be increased.

* * *

Northern Alberta's wolf population is of large dimensions, no less than 15,000 skins having been shipped out of this province for the bounty in the last year. They form a substantial source of revenue to trappers in the wilds.

* * *

Nova Scotia bonefish fame are beginning to attract the attention of Great Britain. John R. McKellar, of this city, has just shipped to Chivers and Son, Cambridge, England, four barrel Plymouth Rock cockerels. This is the second shipment of breeding stock made to this firm.

* * *

Curling history of a unique nature was made in Quebec city recently when the Jacques Cartier Curling Club, the first French-Canadian curling organization in the world, was inaugurated and their new curling rink formally opened. A delegation of seventeen prominent Montreal curlers, headed by T. Howard Stewart, Thane and Granite Curlers, arrived back at the Windsor Street Station from the Ancient Capital recently, where they officiated in the opening ceremonies of the new club in the neighboring city.

* * *

The World's Poultry Congress to be held at Ottawa July 27th to August 6th next is to be a big affair in every sense. Floor space will be more than 200,000 square feet; the national educational exhibits utilizing 54,000 of that footage. There will be approximately 10,000 birds on exhibit, of every breed and variety. Commercial exhibits will be a main attraction and one firm making incubators has already contracted for 7,000 feet. Among the European countries that have decided to take part in the Congress are: Germany, Roumania, Russia, Denmark, Poland, Belgium, Holland, Spain and Lapland.

* * *

Skiing in the Laurentians is becoming ever-popular in Quebec. Tobogs with the greatly increased traffic of winter sports between the Canadian Pacific Railway Company are operating special trains into the mountains during the week ends. From January 8 to March 13, Canadian winter sports are attracting a great number of Americans of late. This was evidenced by the in-rush of visitors at the Chateau Frontenac at Quebec city, who came across the border during the Christmas and the New Year's season.

* * *

Beaver trapping will be permitted, under an order-in-council just issued, throughout the newer part of the province of Alberta, north of the fifth parallel. Within these bounds the close season, which holds for the whole province and for the whole year, will be opened for four months, January 1 to April 30.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Bayer-manufacture of Aspirin means the product of the Bayer Company, we wish to caution the public against infringement of the trade mark.

An Inspiration To Canadian Youth

Hardiness of Weed Seed

Goods Lying Dormant for Forty Years Will Germinate

The seed of some of the most noxious varieties of weeds show a great tenacity of life. They will evidently lying under it are supposed to have been killed if not thoroughly cooked and fully subjected to The Michigan Agricultural College has obtained a record crop in Bullrush No. 2, and the Dominion department of Agriculture, in Ottawa, has similar experiments carried on, although here the conditions are not so favorable for the germination of the seed and these grasses grow with very much smaller crops. Under favorable conditions some almost unbelievable results have been obtained and reported in recorded plot books that are barred locally here. In one instance 21 cases taken up every fifteen years. The experiment which has been carried on for over two decades has already been mentioned many times. After being in the ground for that length of time, the seed will be found to have germinated perfectly well, and the ripened seeds will still propagate the species. Examples of this kind are numerous. In the earlier years Federal experimental farms failed to germinate buckwheat after it had been in the ground for a period of two years. Recently failure to germinate has been noted after periods of four years. Experiments in Canada have shown that the seeds of many weeds, especially of the kind that enter into competition with grain crops, will germinate after lying dormant in the ground for a number of years. Experiments carried on by the Michigan Agricultural College and by the Department of Agriculture, Ottawa, have shown that the seeds of many weeds will germinate after lying dormant in the ground for a number of years. Experiments carried on by the Michigan Agricultural College and by the Department of Agriculture, Ottawa, have shown that the seeds of many weeds will germinate after lying dormant in the ground for a number of years.

Alberta Livestock Board

Officers Are Elected at Annual Meeting Held at Edmonton

At the annual meeting of the Alberta Livestock board at Edmonton, the following officers were elected: President, J. F. Ratcliffe, Edmonton; vice-president, J. Clark, Calgary; secretary-treasurer, J. Bowcott, Edmonton. The president of each of the livestock associations, both northern and southern Alberta, the following men were elected to the board: R. J. Black, Edmonton; J. H. Richardson, Calgary; J. P. Marshall, Edmonton; J. L. Walters, Calgary; A. Cross and G. H. Hutton, Edmonton; J. H. Clark, of Strathmore. There will be taking an active interest from the provincial government toward the exhibit going to the Royal show next year. It is proposed to send an exhibit of cattle, sheep and swine from Alberta to Toronto in 1927. To facilitate the exhibit, it is also proposed that a carload of cattle should be picked to pass through the province and be exhibited at the principal fairs.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so effective in overcoming swelling, stiffness and lameness. Nerviline rubs into the pores of the skin, penetrates quickly through the flesh, and brings a warm, comforting relief at once. No liniment compares with Nerviline for power with Nerviline. For the aching joints and the tired aches in every home Nerviline should always be kept handy on the shelf. For Lumbago, Sciatica, Lumbago, Neuralgia and Colds, it rents all it absorbs.

Democracy in Action

Bella Bianca drove up to the auction block in front of the court house. Her impressionable Latin woman called out to a friend in the crowd, "Hey, Mary! you just-a come roll by son, Master Alfred?" "No just a Mormon there — a Mormon," replied Mary, who, living in the western Canada, knew the meaning of democracy in action.

Alfredo started to make the journey on a pogo-stick to Atlanta. A host of less ambitious children followed him as far as Edmonton. Then they turned back, leaving Alfredo to carry on the journey alone. He reached Los Angeles in safety, but on all succeeding attempts to get to California and provide him with the pogo-stick was rolled by son, Master Alfred. "No just a Mormon there — a Mormon," replied Mary, who, living in the western Canada, knew the meaning of democracy in action.

Heart Palpitation Dizzy, Sinking Spells

Mrs. S. A. Donnelly, Ida., writes: "Some time ago I was very bad with dizzy and sinking spells. At night often I could not sleep for palpitation of the heart. I felt as though I would die. Nothing I took or did helped me any. I got a bottle of Milburn's Heart and Nerve Pills and after a few days I noticed a change for the better. I kept on taking them and after a few weeks I was entirely cured. I know what they did for me and will always recommend them."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Vegetarians Are Not Immune From Cancer

Gross Occur Among People Who Abstain From Flesh Foods

Inquiries have been continued among scientific communities in England by doctors connected with the health ministry and from the information thus obtained it has been exactly proved that the cancer is no respecter of persons, either medical officer to the ministry that cases of cancer occur among people abstaining from flesh foods.

There is therefore no foundation for the contention that vegetarians are immune to cancer, it is said.

The investigations were conducted among the Cattistaians, a French order, Benedictine, Italian Carmelites, Irish Franciscans, Spanish, all of whom adhere to strict diet enjoined, none of them excepting none!

British Subjects Should Use Canadian Ports

Delay When Landing at New York Would be Avoided

Canadians are reporting themselves on an increasing scale at the various ports of entry throughout the Dominion, in connection with the Canadian Immigration Service, and the Canadian Pacific Railway Company, in order to avoid the delay which is now experienced at the Port of New York by all British subjects on landing at the Port of New York.

Plans for Diamond Jubilee

Outstanding events in the history of Canada will be faithfully depicted in pageantry of the most colorful and picturesque sort, according to plans which are being quietly worked out for the Diamond Jubilee celebration of the Dominion which will be observed July 1, and participated in by H.R.H. the Prince of Wales and Rt. Hon. Stanley Baldwin, Prime Minister of Great Britain, says The Toronto Journal.

Fresh Supplies in Canada

Minister for Thomas Tobacco for the manufacture of cigarettes has been ordered, showing that wherever it goes, excellent Old Dominion which will be observed July 1, and participated in by H.R.H. the Prince of Wales and Rt. Hon. Stanley Baldwin, Prime Minister of Great Britain, says The Toronto Journal.

Fresh Supplies in Canada

Minister for Thomas Tobacco for the manufacture of cigarettes has been ordered, showing that wherever it goes, excellent Old

Awful Asthma Attacks. In these days of modern science, what is the power of this distressing trouble? No matter what it is, it has equal to the bringing to its attention of Dr. J. D. Kellogg's Asthma Remedy. His remarkable success gives no regret than when it is first used. It is a tonic, regulative tonic, and a most every part of the continent, and in every part of the world.

Portrait of Lenine

Appears on Stamps

Proceeds of Restricted Issue to be Used for Charity

For the first time in the history of the visage of Nikolai Lenine has appeared on an issue of postage stamps, it appears from a dispatch from Moscow to The Commercial. The stamps are in the denomination of 7 kopeks each, and the issue consists of twenty kopeks stamps, the latter bearing the portrait of Lenine. The stamps are to be used for the collection of charity funds, and the proceeds will be devoted to the relief of the sufferers from the famine which has recently swept Russia. The stamps are to be sold at their face value, plus a small surcharge, which will be devoted to the relief of the sufferers from the famine which has recently swept Russia. The stamps are to be sold at their face value, plus a small surcharge, which will be devoted to the relief of the sufferers from the famine which has recently swept Russia.

Through Service For Overseas Travellers

In order to provide every convenience for overseas travellers, the Canadian Pacific Railway are operating through tourist sleeping cars from Winnipeg each week to connect with steamers sailing from West coast ports. These cars, which will be in direct to the single ride, double service, meeting and facilitating transfer from train to steamer. Overseas bookings and reservations on these cars may be made with any Ticket Agent of the Canadian Pacific.

"My name doesn't end at all!" "Come, come," replied the nurse. "Your beard is no number than a dozen I can't swallow."

The Friend of All Sufferers. In Thomas' Eclectric Oil is a valuable friend to all those who suffer pain. It holds out hope to everyone afflicted with rheumatism, sciatica or neuralgia. It is a liniment of the highest order and all those who have used it everywhere and say so. Don't hesitate, but get a bottle and be convinced.

To be popular never let on that you know more than the fools or seem to be wise.

Sneezing?—Use Minard's Liniment

Receiver Dismantled Car

Berlin Police Deliver It to Owner in Running Condition

A seven passenger limousine stolen two years ago, dismantled, and sold piece meal by thieves to three different junk dealers, has been restored to its owner in running condition by the Berlin police. All it needed was a coat of paint.

More than a dozen policemen and detectives worked on the case off and on. Armed with the numbers of all parts of the stolen car, which is owned by a wealthy lumberman, the police were always able to prove that the car as it was when stolen.

FATEFUL YEARS FOR ALL WOMEN

Much Suffering Can be Avoided Through the Use of Dr. Williams' Pink Pills

The fateful years in a woman's life are those between forty-five and fifty. Many women suffer from this time untold suffering, through ignorance of how to build up their blood, and they suffer accordingly.

Those who experience depression, nervousness, irritability, headaches, backaches, dizziness, sleeplessness, depression and other well recognized symptoms of anaemia, which show that the blood requires building up, should know that a few rich red blood cells daily will do more to overcome these troubles than any other medicine can do as much for you. Dr. Williams' Pink Pills are those pills make rich, red blood, which reaches every part of the body, thus building up robust health. Thousands of Canadian women have proved this to their satisfaction. Mrs. Dick Pitts living near the Lind Ammunition Plant, Mrs. J. H. Johnson, Lloyd, Ont., testifies: "I was writing to tell you how much good your pills have done me. I was a complete wreck and could not sleep. I was in constant pain. I was going through the change of life, and was told by my doctor I could not be cured. I went to Toronto and was told that I must have an operation, would help me. But I took Dr. Williams' Pink Pills, and before I had finished one box I felt better. I kept on taking them and after using six boxes I was entirely cured. I am willing to let you use my name as a reference, as I am sure there are many who would be glad to hear from me."

Dr. Williams' Pink Pills for Pale People, 50 cents a box or six boxes for $2.50, at all druggists or direct by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

"Don't take it so hard, Bishop! ... even if she does marry some one ... her what the song says: 'The hours ... with her she'll forget.' ... It isn't the ladies I'm talking of — ... the lark."

The income of a woman is her ... and she never allows it to ...

Nearly half of all the ... in the world are ... of ...

What This TRADE MARK Means To You

Next time you buy a loaf of wrapped bread from your Baker, look at the paper and see if the Appleford trade mark appears there.

If so, it means that your Baker is practicing his good will and protecting your health by using the cleanest and purest paper that he can buy. Most good Bakers now use Appleford wraps because they know that their goods will keep fresh longer and will be delivered to you in a sanitary manner.

When buying Waxed Paper for household use be sure and ask for PARA-SANI put up in rolls or sheets.

In double Stomach removal you need not feel the slightest distress. Pape's Diapepsin is a scientific combination of pure, harmless vegetable essences and aromatic carminatives that work with the normal juices of the stomach to digest all food. Pape's Diapepsin is a scientific combination of pure, harmless vegetable essences and aromatic carminatives that work with the normal juices of the stomach to digest all food.

Since the demand from the United States for ammonia in the boll weevil is no longer in existence, the Canadian Explosives Limited have been cancelled in effect.

FASCISM FOR ITALY APPROVED BY CHURCHILL

Rome, Nov. 22.—Warm approval of Fascism as applied to the people of Italy was expressed by Winston Churchill, ex-Minister of War for the Exchequer, in a statement given out to the newspaper correspondents. The Chancellor, Rt. Hon. Arthur Chamberlain, British secretary, came to Rome to rest for himself the archaeological Forum and mingle with Premier Mussolini. Premier Mussolini's daughter and golfer Pascali were in the party.

In one part of his statement Mr. Churchill said:

"If I were an Italian I am certain I would be with you from the start until the end in your victorious battle against the bestial appetites and passions of Leninism.

But I, being British, have not yet been face to face with that danger under the same conditions. We have our own methods of dealing with anti-social movements. On one subject I have no doubt whatever—that is the high regard in which Italy is held throughout the world."

In reply to Mr. Churchill's statement Premier Mussolini declared:

"Fascism has not only saved Italy, but has rendered a service to the whole world by its victorious battle against Bolshevism and Leninism."

Mr. Churchill's statement was made before the Fascist Grand Council, which was presided over by Premier Mussolini.

U. F. A. WOULD WIDEN SPHERE OF ITS INFLUENCE

Edmonton.—Recent developments in the political situation in Alberta, as indicated by the recent election of the Progressive party and the Labor party, have aroused considerable interest in political circles in Edmonton, and the U.F.A. executive has been giving much thought to the question of what attitude it should take in the matter. It is understood that the executive has decided to recommend to the annual convention of the organization which opens in the Parliament buildings on December 8, that the U.F.A. should enter the political field in Alberta, in connection with the provincial elections to be held in June, 1926.

The proposition of national self-government, which has been advocated by several speakers at the recent U.F.A. conventions, is also to be discussed at the coming convention, and it is understood that the executive has decided to recommend that the U.F.A. should enter the political field in Alberta, in connection with the provincial elections to be held in June, 1926.

OLD AGE PENSION BILL INTRODUCED IN B. C. HOUSE

Victoria, B.C.—An act to provide for old age pensions for the people of British Columbia was introduced into the Legislature by Premier John Oliver. The bill authorizes the province to pay three dollars per month to persons over 70 years of age, provided that they have resided in the province for a period of not less than 20 years. Any applicant entitled to receive a pension under the act must be a British subject and must have resided in British Columbia for a period of not less than 20 years. Any applicant entitled to receive a pension under the act must be a British subject and must have resided in British Columbia for a period of not less than 20 years.

WOULD ABOLISH DOMINION GRAIN STANDARDS BODY

Edmonton.—Abolition of the Board of Grain Standards Act was moved and carried, and the question of abolishing the Board of Grain Standards Act was moved and carried, and the question of abolishing the Board of Grain Standards Act was moved and carried.

Canada Should Share British Navy Burden

Resolution is to be Laid Before BC Legislature

Victoria, B.C.—A resolution to the effect that Canada should share the burden of the cost of the maintenance of the British navy was laid before the Legislature this week by Major Alan Lyons, Conservative.

Making the announcement in the House, Major Lyons said he had obtained full consent of Premier Oliver and Premier Pitfield. Major Lyons thanks the premiers for their consent.

"The time is ripe for this move to take a stand on this matter," Major Lyons said. "If we are going to do it we should take the initiative and prove to the people of Canada that we are in favor of the imperial defence idea."

Want H. B. Line Completed

Resolution to be Introduced in Saskatchewan Legislature

Regina.—The completion of the Hudson's Bay Railway in 1927 with specific reference to Port Nelson as the terminal will be debated in the Saskatchewan Legislature during the session just opened, according to an announcement by Dr. O. H. Hill, Conservative member for Melfort.

Mr. Hill announced this he would move the resolution in the following form:

"That in the opinion of this assembly the completion of the Hudson's Bay Railway should be carried on with vigor during the present year and that the line be completed to Nelson, not Fort Churchill."

Notice of the resolution was given by Mr. Hill, Conservative member for Melfort.

Mr. Hill announced this he would move the resolution in the following form:

"That in the opinion of this assembly the completion of the Hudson's Bay Railway should be carried on with vigor during the present year and that the line be completed to Nelson, not Fort Churchill."

Notice of the resolution was given by Mr. Hill, Conservative member for Melfort.

Conferring of Titles

Discussion is Opened by Suggestion Made by Premier Ferguson

Toronto.—Considerable discussion has followed the suggestion made by Hon. Howard Ferguson, prime minister of Ontario, at the banquet in honor of Col. Hon. Peter Smith retiring Lieutenant-Governor of Ontario, that the House of Commons should remove the ban placed on the conferring of titles which was ordered and carried by His Majesty's order in council.

Mr. Hill announced this he would move the resolution in the following form:

"That in the opinion of this assembly the completion of the Hudson's Bay Railway should be carried on with vigor during the present year and that the line be completed to Nelson, not Fort Churchill."

Notice of the resolution was given by Mr. Hill, Conservative member for Melfort.

Employment Situation Improved Last Year

Statistics Show Greatest Expansion of Any Year Since 1920

Ottawa.—Employment as reported by employers in Canada in the Dominion Bureau of Statistics during 1924 was to greater volume than in any other year since 1920.

There was almost uninterrupted expansion on a large scale from early in January until the first of October. This upward swing extended the years of 1923 and 1924 but in a lesser manner. Payrolls were higher than in any of the four previous years. During these eight months of 1924 the number of persons employed was increased by 4.5 per cent. and the amount paid in salaries and wages by 6.5 per cent. Comparing the year 1924 with 1923, when the upswing was at its height, the number of persons employed was increased by 2.5 per cent. and the amount paid in salaries and wages by 3.5 per cent. Comparing the year 1924 with 1923, when the upswing was at its height, the number of persons employed was increased by 2.5 per cent. and the amount paid in salaries and wages by 3.5 per cent.

Noted War Correspondent

Marion Dunbar, Who "Covered" Several Wars, Dies in London

London.—Marion Dunbar, a well-known war correspondent, died suddenly after several weeks' illness.

She was born in Quebec, in 1861, and began her career as a writer at the age of 18. She was a contributor to the London Daily Telegraph, the London Daily Mail, and other publications. She was a correspondent in the Boer War, in the Russo-Japanese War, in the Balkan wars, and in the World War. She was a correspondent in the Boer War, in the Russo-Japanese War, in the Balkan wars, and in the World War. She was a correspondent in the Boer War, in the Russo-Japanese War, in the Balkan wars, and in the World War.

Grading Cattle and Sheep

Advocates the Grouping at all Stockyards by Federal Graders

Montreal.—At the annual meeting of the stockmen of Canada held at the stockyards in this city, resolutions were passed by the meeting advocating the grouping at all stockyards by Federal graders. The resolutions were passed by the meeting advocating the grouping at all stockyards by Federal graders. The resolutions were passed by the meeting advocating the grouping at all stockyards by Federal graders.

Editors Appoint Delegates

Saskatchewan to Send Delegates to Meeting of Directors of Canadian Associations in Toronto

Regina.—At the meeting of the directors of the Saskatchewan division of the Canadian Weekly Newspapers' Association held here, A. A. Wagner, Yorkton, and R. J. Deman, Standard, were elected to the Executive to the meeting of directors of the Canadian Association in Toronto, February 28.

Several matters of importance to the Association were discussed at the meeting. The report of the committee on which Messrs. Deman and Saskatch was convener, was received and adopted. The nature of the report was not for publication, but it is understood that it relates to the fact that the Government should not allow any paper to enter the mails at less than the publication price.

British Marines Are Sent to China

Will Be Used for Defensive Purposes Only Says Official

London.—Two companies of British marines have been ordered to proceed to Shanghai, China, to reinforce the British garrison there, it was officially announced today.

The announcement was made by the Admiralty, which said the marines would be used for defensive purposes only.

The marines will leave Hong Kong for Shanghai on the steamer Empress of Russia, which is now at Hong Kong.

The British garrison at Shanghai consists of about 1,000 men.

Liberal Party Accepts Lloyd George's Offer

Large Sum Has Been Placed at Their Disposal

London.—A special meeting of the Liberal party was held here today to consider the offer of Lloyd George to place a large sum of money at the disposal of the Liberal party. The offer was accepted by the party's executive committee.

The meeting was held at the House of Commons, and was attended by a large number of members of the party.

Plan to Develop Cuban Trade

Minister of Finance Returns to Canada With Proposal

Ottawa.—A trade mission to Cuba, headed by Hon. J. A. Robb, Minister of Finance, will leave Canada early in January, it was announced here today.

The mission will visit Cuba for the purpose of developing trade between Canada and Cuba, and will be accompanied by a number of business men.

Hon. J. A. Robb, Minister of Finance, will head the mission to Cuba.

ST. GODDARD TAKES EARLY LEAD AT PAS

The Pas, Jan. 30.—Emil St. Godard was leading at the end of the second lap. He made the first lap of eight miles in thirty-six minutes and thirty seconds, a new record. He was also leading at the end of the second lap, which he made in forty-one minutes five seconds. Leo St. Godard holds

second place.

The Pas, Jan. 30th.—Picturesque and colorful scenes were witnessed on the ancient Saskatchewan river when six famous "mushers" and their teams of northern huskies and cross breeds started on the first lap of the annual 180 mile. The Pas Derby at 11:04 this morning.

Emil St. Godard, a tyro to **one fire.** five seconds. Leo St. Godard holds erine and winner of former runs, took the lead at the start, covering the first lap of eight miles over a prepared course in 25 minutes. Harry Glensky, driving a team of nine cross-breeds, was second at the eight mile mark, two minutes behind St. Goddard while Leo St. Goddard, was a close third, six minutes behind the leader.

Monty Rausch, veteran member of the north and widely known by his championship teams in the days of the 400-stop derby, was in fourth position, with the useful Earl Brigham and Theo. Kivary, of Prince Albert, Sask., close behind.

The teams will cover forty miles today and an equal distance to-morrow and Thursday.

Surrounded by picturesque men of the north country, hunters, trappers, prospectors and Indians, many of whom had "mushed" many miles for their annual holiday, the race got away to a flying start. The teams were well handled and the course smooth and hard.

City folk mingled with the men of the north, viewing for the first time the classic race with the Mercury recording forty below zero.

While the teams rested after their hard run of the day, the carnival spirit will prevail for the visitors from the cities and the northern residents. Sports and dancing programmes have been arranged for each derby night, with Miss A. Boole, the Pas Derby Queen, and her court in attendance.

January Specials

January is the month of bargains. It is then that the retailer of goods desire to turn his stock into cash so that he may use this money to buy new season's goods. As a special inducement for customers to buy, he lowers his prices, sometimes to cost, sometimes lower. It is a matter of necessity with him. To the customer needing things at this time it represents an opportunity to procure needed articles with the least possible outlay.

The January Specials that we now have ticketed are being offered at a genuine reduction. In the ladies' wear section there are dresses and coats that are worth more, but the wheel of business must complete its cycle and consequently they are priced to sell. They are not old shop-worn stock, but goods which only a few months ago left the factory.

In the Men's Wear section there are Suits, Overcoats, Caps, etc., all priced for quick selling. It is to the buyers advantage to inspect these goods now, as these bargain prices cannot be maintained indefinitely.

Bodies of South Africa are tables in the rain for 1,000 years.

Students Will Have Access To Archives

Wealth of Information on Costian Village for Research Workers

The Historic archives at Simancas, Spain, will soon be made accessible to foreign students who have been barred hitherto from carrying on research work.

Valladolid, a city of 80,000 inhabitants, is the nearest railway station to these historic archives, which are housed in the ancient fortress of Simancas, situated on a hill overlooking the city.

The archives are located in the ancient twelfth century castle there, where the kings of Spain formerly resided.

The municipality has now started to build a residence for its historical treasures, and also a comfortable home between Valladolid and Simancas.

Tiers Are Short This Season

For children, as well as their mothers, this season's tiers are short. This accounts for the fact that the long dust-frilled skirts are surrounded with the style that is attached to a fitted underskirt. Many children's dresses are also short, and the pinafore or overdress shade, in fact is a boon in many homes. This is for girls from about 10 to sixteen 16, 18 years, 36, 38 and 42 inches bust. Size 36 requires 3¾ yards 36 inch material, or 2 yards 54 inch, and a yard of 36 inch material for facing. 20 cent Pattern.

The 48-page Illustrated in our new Fashion Book are advance styles for the home—for a lady, miss or matron, or girl who desires to be correctly dressed—for boys, daughter and economy will find the styles fulfilled in our patterns. Price of the book 10 cents the copy.

Trade With Japan

Canada stands to increase her trade of trade with Japan on a large scale this year, in the opinion of Chairman Sir Joseph Flavelle, of the Imperial Munitions Board, who has just returned from a visit to the Orient. Despite the poor conditions and the 1175 cents per day on the dollar exchange, trade has been a steady growth in recent years, which shows every sign of continuing expansion.

Range of Human Vision

The greatest distance at which any person on the surface of the sea, or of a level plain, can be seen by a person whose eyes are a height of 2 feet from the same level, is nearly 3 miles. At a height of 20 feet the range is 5½, at 100 feet 12 miles, and at 500 feet it is nearly 27 miles.

Searchlight Guides Airplanes

The world's highest searchlight is ready on a new airplane on the Pilgrim route from Prague to Nuremberg, Mount Vebrstan, the old fort which was to be replaced by the new tower, stands 2,000 feet above the level of Prague. In 1878, the search lights' rays will reach northward, guiding planes from Dortmund over Berlin for they reach the French coast and southward to Munich and Prague. The largest aerial lighthouse picks them up with a stream of light pointing the way to Munich.

The world's largest aeroplane, the Darling Dumber, has six cabins on two decks, the latter 12 tiers, and nine, which decks by 210 hours per hour.

An Air Armada

Spain Comes to Life Again With a New Spirit

There have changed since the days when Spain rode the top of the wave with her Armada. There are still battles, of course, but in the shorts which interest, their relative strength seems easily appear, as a small navy, alongside the symbolic dread battles of three Britain and America. Recent news, however, from the nation which was once mighty, indicates that it has come to life with a new spirit which may give it place in the economical world at least. It is build a new fleet of seven liners. That is more a sentiment, it is turning its eyes toward the air. The Grand Duke has works are building an airship for her use, on which Princess Dickson hopes to sail for the Spanish Armada, if it is still in existence.

Also, the first of several which are soon published for this purpose. There is a cabin cruiser, of a shallow draft, as an ship country. The flight of Commander Franco from Spain to South America in the seaplane Plus Ultra last spring, stimulated aeronautical interest in Spain considerably. The completion of the remaining Pan-American flight, which will be in the year 1926 for the benefit of a new Spanish Armada, if one of the air. Fortunately, how- ever, it is still in existence in the powerful parents of trade.—New York Sun.

She Has The Greatest Faith In Them

Says Mrs. Elliott of Dodd's Kidney Pills

Alberta Lady Strongly Recommends Dodd's Kidney Pills to Her Friends as all Sufferers.

South Edmonton, Alta., (Special)— "I have used Dodd's Kidney Pills, and they have been the best for kidney and backache troubles they have worked wonders. I have given them to others, I have great pleasure about them from a number of people in our district."

This statement comes from Mrs. Elliott, who lives at 9221 19th Ave. The fact that Mrs. Elliott found has come to confidence in Dodd's Kidney Pills through the use of Dodd's Kidney Pills.

There are only a few people who have not had kidney trouble, and many people who have used Dodd's Kidney Pills all those. The Dodd's Kidney Pills are a good friend. If the kidneys become clogged with impurities they cause pains, poor blood and poor health. Dodd's Kidney Pills clean the whole system, with the result that health and strength return to the whole body.

SUNDAY SCHOOL LESSON

FEBRUARY 6

THE PRACTICE OF CHRISTIAN STEWARDSHIP

Golden Text: Thou hast been faithful over a few things, I will set thee over many things: enter thou into the joy of thy lord.—Matthew 25:21.

Lesson: Matthew 25:14-30.

Devotional Reading: 2 Corinthians 8:8-11.

Explanations and Comments

1. The Commandment, verses 14 15. Jesus is speaking to His disciples about the Kingdom of Heaven, and he begins a parable by saying that the situation is comparable to that of a man who, about to go into another country, calls his servants and delivers to them his goods. "The story is true to the oriental life of the period; for, when a wealthy man was leaving his home for awhile, two courses were open to him for the arrangement of his affairs, either he might make his confidential slaves his agents, committing to them the selling of his land, and giving to them the money to be used by them in trade; or he might take advantage of the money-changing system which had been introduced by the Phoenicians, and which was at the time in full operation throughout the Roman Empire."—Geikie, Vol. II, p. 240.

In his interpretation of the parable the "goods" represents Christ; the "goods" stand for all possessions, life, physical and mental powers, etc., which are represented as God's property, entrusted to men, his servants, as a loan.

The servants were all trustworthy, but they differed in capability, and the master proportioned his gifts according to them in accordance to his judgment of the ability of each. To one he gave five talents, to another two, and to another one. Even the one talent represents a considerable sum, almost one thousand dollars in our money value. It is assumed when we recall that a denarius was a day's wage, and fifteen was the equivalent of six-hundred dollars. By the "talents" are the "goods," which are given to men for the purpose of improvement for us of the word "talent" has a similar meaning, or skills in accomplishing anything is derived from its use in this parable.

Saint Kilda Islanders Receive Christmas Mail

First Tender in Three Months Visited Island January 21

Saint Kilda, a barren island in the outer Hebrides, where spasmodic mail services have been made in the past by Canadian Immigration organizations to screen settlers, received its first mail on January 21.

It was delivered by the first steamer to reach the island in the last three months.

Men, women and children swarmed from their cottages to the beach and launched the yours on, lifesaving gear and rowed across to receive the precious mail.

Reaching the tender, they scrambled aboard like monkeys, boarded cabaret and emerged from the crew with their arms literally loaded down. The mail was only to be provided for the vessel was able to provide them with a large quantity of parcels and some potatoes.

The captain of the steamer boarded the island and found the people there lost for the Islanders, especially for the children, who had never seen a train, nor when the Islanders found out that their deeply-rooted dislike of a bottle of whiskey.

Love of Life Exist

Life-jackets are worn by those who work for them. If you plant cabbages you don't expect to pick roses, for the laws of life are exact, and never a delight to mankind. Nothing circulates in capital as a mere button, the light of which will be visible in three years.

By the "talents" are the "goods," which are given to men for the purpose of improvement for us of the word "talent" has a similar meaning, or skills in accomplishing anything is derived from its use in this parable.

Entertained Prince of Wales

Deaf and Dumb Children Go Through Smart Drill

Under the command of a contingent of their instructor, cadets of the Royal School for Deaf and Dumb Children, Ramsgate, drilled smartly before the Prince of Wales on the occasion of his recent visit to the school. They read their instructions from the leader's face. Later that the Prince was entertained by little deaf and dumb dancers in fairy costumes. As the Prince left the building gave an imitation of a hearty cheer.

IF BILIOUS, SICK OR CONSTIPATED TAKE "CASCARETS"

No headache, bad cold, sour stomach or coative bowels by morning

Get a 10 cent box now.

You're bilious! You have a throb ache somewhere in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are pasty. No wonder you feel cranky, mean and ill-tempered. Your system is full of bile and poisons passed off, and what you need is a cleaning up inside. Don't swallow half a bilious calomel and make yourself and those who live you, and don't resort to harsh physics that irritate and injure. Remember that every box of Cascarets you buy will thoroughly straighten you out by morning. They work while you sleep. A box from your druggist will keep you feeling fine and bully for months. Children love Cascarets, too. They are candy-like tablets and never gripe or sicken.

Genuine BAYER ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds	Headache	Neuritis	Lumbago
Pain	Neuralgia	Toothache	Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets and bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. Bayer Aspirin means Bayer manufacture to assure the public against imitations. As Bayer Company will be assigned with their previous trade mark, the "Bayer Cross."

Survivors Of a Bygone Age

Newspapers throughout Canada recently printed accounts of a decision reached by 16 ratepayers and residents of a school district in Ontario, about unbelievable in this day and generation. The little school house in this particular district, it is stated by all hands, was not heated in the winter, but it is only twenty-five days in the year the little is so poor the children would be in the school. Under the circumstances a reason by this school district officials would be only too glad to accept. On the contrary the offer was refused and the reason for refusal was that not enough were asked concerning any new and economic way to heat schools now, that is, as they have been for years. Is not the present method enough for their children? Is not the present method enough for their children? Is not the present method enough for their children and grandchildren?

It is the ratepayers as to decide school districts are considered, one is formed by a few families that own land varying considerably in value, some have and rakes, hand sickles, and scythes, according to the number of residents; thus they pass to town with a yoke of oxen and utterly despise the use of horses. In many districts the automobiles, telephones, telegraphs and radio mean to anathema to them.

Fortunately for Canada there are few people of the same mind as these Westminster town-ship district ratepayers. It was not in a district type which built up this Dominion. Rather, the pioneers who came first from Eastern Canada and later past out into the Western provinces were men and women determined that, whatever hardships it was to be under the conditions, they would achieve a civilization which they considered to be better than that which they had left behind. They were not afraid of the future, but of the past. They were not afraid of the opinion that what was good enough for them, and the best was not a bit too good for their children. Hence they conquered the virgin forests, and the virgin prairie made home conquered roads and railways, built cities, towns and villages, and made Canada what it is today.

This constant urge and striving for something better, this insatiable demand for development and improvement, is the query as mankind, the distinguishing mark between man and the beasts. In it is to be found the secret of all progress. Without it the world would stagnate, deteriorate and become intolerably hot.

It may be that some of the younger generation of today are demanding too much; that they do not seem to be using his where the fathers left it, and expect ease and comfort and the necessities which labor alone can bring without exercising the effort which all must make if they would really enjoy life and prosper in this world. The pitching a prosperity upon such ill-and-fast doctrine, and catching such combined folly, is an entirely different thing to depriving the child of today of the advantages, with which science, invention and years of selfishness at has blessed the world.

Apparently this little group of ratepayers and school trustees are not satisfied to endanger the very life of their children in order to keep down the taxes. In fact they would have the same be related immune and unprocurable like as they apparently are about to do. We would suggest to the people the children will rebel and at the earliest possible moment break away from the same environment and launch out into the world of light, progress and advancement.

Life is progress, and if there be no progress life is not worth the living. In old age we become more conservative in thought and habit and desire to change. Youth, on the other hand, is self-reliant and self-confident, and is all ready and anxious to try new things. Let us hope, therefore, that the young people of Canada will keep their vigor and energy and refuse to be hampered by those who, through fear or ignorance, would hold them back.

Cold Winter In Russia

Two Thousand Fishermen Reported to Have Been Frozen to Death

Two thousand Caspian Sea fishermen have been frozen to death on Astrakhan, while hundreds of barges have been wrecked, according to reports received in London from Moscow. Many of the fishermen were rescued by aeroplanes, which dropped food to them.

BRITAIN WILL OFFER GENEROUS TERMS TO CHINA

London.—Great Britain is about to offer China what are described as "generous" terms, to end if possible the serious situation, with its grave possibilities, that has arisen in the Far East.

The British government's policy, announced yesterday, will be made public, it is stated, in the form of a White Paper. The terms, it is said, will be communicated to the Chinese Government at the earliest possible moment.

The British government's decision to make a new effort to settle the Chinese question peacefully, and at the same time asserting that the forces, which would be employed if necessary, are adequate to protect the lives and property of British subjects in China, has created a favorable impression in political circles here.

The impression grows that the government has come to the conclusion that the only way to deal with the Chinese situation is to make a new effort to negotiate a settlement, and at the same time to be prepared to use force if necessary.

Though it is understood that the terms will provide for the withdrawal of the British naval and military forces, it is not believed that the withdrawal will be carried out immediately. The impression drawn from the statements that have been made is that the withdrawal may not go far enough to satisfy the government's critics and Labor critics, but they will have time, if history is to be taken as a guide, to convert the ultra-Conservative supporters of the government and the Labor leaders themselves to the new policy

TENDERS WANTED

For 25 cords of wood to be cut in 16 inch lengths and halved and quartered according to size. All tenders are to be in by the 5th of February. The lowest tender not necessarily accepted. Address orders to

MR. MOEN LIKES ALBERTA

Mr. E. A. Moen had heard much about the country to the south-west of us, where sun breezes blow and it "is summer all the time." Having lived and farmed in Alberta all his life, and having an opportunity to take a month off, he decided to visit the Pacific coast states. Upon his return he called at the Mercury Office and expressed his unbounded faith in Alberta. "Do you think I would sell my farm, ... and buy some of that high ... and down there?" he asked the ... writer, "I have proceeded to repay to his own question by saying "I should say not."

LAKESHORE

Mrs. T. D. Ferguson returned home on Friday after spending a few days ... relatives in the Ketchamoot district.

A very enjoyable whist drive was held in community hall on Friday evening. An excellent lunch was served ... which the crowd tripped the "light fantastic" until the wee ... hours.

Albert Roberge and son are helping ... construct a new ware house of the ... Grain Co. at the rear of their office ... town.

Mrs. W. C. Piper spent last Friday with home folk, her sister, Miss Helen Person returning with her for the ...

Mr. Jesse Gray has taken the contract of supplying the years supply ... for the school.

Mrs. Bethel went to Edmonton on Saturday for a few days visit with friends.

Maggie Wood went to Viking on Sunday to visit her sister, Mrs. Robinson and family.

Mr. Chris Moss had the misfortune to lose a valuable horse last week. The animal dropped dead while in the harness and apparently in the best of health.

A number of young people from this district attended the dance at Mr. Lemke's last Friday and report a rousing good time.

Mr. and Mrs. McLean visited at the Schroeder home in the Woodlawn district on Sunday.

U.F.W.A. NOTES

There was an attendance of 12 members and 14 visitors at the meeting on February 8th. We hope the presence of the visitors means that more farm women are beginning to take an interest in the organization and will become members in the near future. The roll call was answered by current events, one item of interest ... concerning a certain law which has been passed in one of the states ... [illegible] ... Readings and recitations ... [illegible] ... The Unfed Farm Woman ... [illegible] ... a reminder of the time ... [illegible] ... and the beginning of the ... [illegible] ... for a membership ... [illegible] ... Plans for a membership ... [illegible] ... Plans for the annual whist drive ... [illegible] ... Mr. Mcintosh was a visitor in ... [illegible] ... Saturday.

Mr. Mcintosh was a visitor in Edmonton over the week end.

... [illegible] ... ter of young people of Hay Lakes attended the show and dance in ... [illegible] ... on Friday.

BARDO

The sympathy of the community goes out to the Riel family. During the past week they have been called upon to part with two of their loved ones. On Thursday night the infant daughter of Mr. and Mrs. Solberg (nee Barbara Riel) passed away after a short illness. She was buried in the Mennonite cemetery on Saturday afternoon. On Saturday morning Mrs. Joe Riel passed away at their home west of Ryley. Besides a host of friends who will miss her are the young husband and baby boy to whom our hearts go out in sympathy. Interment took place Sunday afternoon from Holborn church.

Mrs. Matilda Booth came from Southern Alberta, Saturday, to visit her friend Mrs. Jacobson.

Clarence Rode spent the week-end in the Rogers home near Ellerslie.

Emil Vaagund returned home on Sunday after spending some time at Amisk Creek.

Mrs. P. O. Lerbekmo who returned from the United States on Wednesday spent the week end with her parents.

Mrs. Rude is staying with her daughter, Mrs. Pinseth.

NEWS OF OUR NEIGHBORS

AMISK CREEK

Born.—To Mr. and Mrs. Joe Riel, on Saturday, February 6th, a son.

Mrs., Riel took seriously ill soon after the birth and despite all efforts of the doctor and those in attendance, passed away a few hours after. The funeral was held last Monday. She was laid to rest in the Selcet cemetery.

Mrs. E. A. Moen entertained for Edmonton last Saturday evening.

Miss Ellen Sand from Ryley spent Saturday and Sunday visiting at R. O. Berg's home.

Gustav Brucks left for Edmonton last Monday.

The Misses Clara and Magda Anderson visited with Mrs. E. Rode last Friday.

Mrs. P. Flaaten and Gunvald were guests at the L. Moen's home in Bardo last Sunday.

Mrs. C. Kjersring returned from the hospital last Saturday.

The Amisk Creek Ladies' Aid will meet at Mrs. A. Haugen's on Wednesday of this week.

Mr. and Mrs. R. O. Berg, visited at the Hillerods home last Thursday.

Mrs. P. Flaaten, Gunvald and E. Gade families visited with Mrs. J. Eggen last Monday.

Lena Anderson is keeping house at the Moen home while Mrs. Moen is in Edmonton.

KINGMAN

Mr. T. J.Rogness was a business visitor in Edmonton last Tuesday.

Mr. P. Sodomsky of Edmonton was in Kingman a few days last week looking over his business interests.

Mr. Orel Orvieus left for Grande Prairie last Monday where he will stay for some time.

Mrs. C. R. Blychert was visiting with Mr. and Mrs. Joe Munson for a few days last week.

Mr. Oscar Grahn of Hay Lakes was business visitor in Kingman for three days last week.

Mr. Thor Grahn and Mr. W. M. Christenson left for Edmonton on Monday night on business.

Miss Thelma Duncan of Camrose is visiting with Mr. and Mrs. Thor Hertz of Kingman over the week end.

Mrs. Carl Larsen made a business trip to Edmonton on Saturday and returned on Tuesday.

Mr. and Mrs. W. Jardis were visitors at Mr. and Mrs. Jack Erickson's on Sunday.

KETCHAMOOT

Mr. R. H. Mitchell was in Edmonton the first of the week for the extraction of his teeth.

Mrs. Ken Widman of Farmington is assisting Mrs. Sam Stirret with her house work.

Born.—To Mr. and Mrs. Robert Stirret of Farmington, on Wednesday, February 3rd, a son.

Mrs. Welch of Edmonton, is staying at the home of her daughter, Mrs. Fred Sutton.

Mrs. Allen Loveland children spent a few days with Mrs. Lewis' aunt and uncle, Mr. and Mrs. Frank Shipps.

Mrs. J. H Ingram and Mrs T. D. Ferguson were guests of Mrs. Oscar Barnes on Monday afternoon.

Mr. C. Baptiste spent Sunday evening at the Carlisle home.

Miss Mary Easton was the guest of Mrs. Frank Shipps on Wednesday.

Mr. and Mrs. I. Redshaugh returned home on Friday after a two months visit with home folk at Portland, Ore.

Mrs. Fred Sutton was taken seriously ill on Saturday and was taken to an Edmonton hospital in the evening.

Mr. and Mrs. Henry McGinitie entertained at whist on Friday evening. Six tables playing. Prize winners were, Mrs. W. A. Mitchell and Mr. R. Widman. Consolation, Mrs. John Lee and Mr. Gill.

Mr. Lorne Lee went to Edmonton on Sunday evening to attend the tractor course held in Edmonton for a few days.

Miss Jackson of Farmington returned home from Sweden on Sunday.

Mrs. T. D. Ferguson and Hilda ere returned to her home at Lakeshore on Saturday after a weeks' visit with home folk.

Miss Hilda Nesmeland visited with her friend, Miss Sarah Owen, over Sunday.

The annual meeting of the Ketchamoot school district took place on Saturday, January 15th at the school house. Only three were in attendance. Mrs. G. W. Sears was re-elected trustee. On Monday, January 31st a special meeting was called to fill the vacancy of Mrs. C. A. Ingram. 14 ratepayers were in attendance. Mr. A. F. Shultz was elected trustee, Mr. J. J. Williams is the third trustee and secretary-treasurer.

U.F.A. MEETING SATURDAY

An interesting meetiug of the U. F.A. will be held at two o'clock on Saturday. Sharp at 2:30 a debate will commence between Tofield and Amisk Creek, the topic dealing with Immigration. Following the debate, Mr. Swabey, local delegate to the Dairymen's Convention will present his report to the association.

U.F.A. WHIST DRIVE

On Thursday, the local U.F.A. will hold their annual whist drive. In many minds there are pleasant memories of former annual whist drives held by this organization. The committee in charge is doing all in its power to make this event equally pleasing. Remember the date and place, Thursday, February 17th, at 8:00 p.m.

M. C. Hammond is distributing a farmers' account book that will come in very handy to any farmer. The book, which is put out by the John Deere Co. has ruled pages for the various activities of farmers and in addition, contains several printed pages of valuable information. It is free to those asking for it.

Mrs. H. E. Brenerman who had a severe attack of grippe is convalescing slowly.

Messrs. Jacobson entertained the thimble club on Saturday.

Mrs. A. Dixon is suffering with a severe cold.

Mrs. Stern was a Camrose visitor on Thursday.

Mrs. Gray has returned to her home after spending several days in the V. L. Rath home caring for the baby who had pneumonia. The little one is better.

Prevent Cripple-build resistance with SCOTT'S EMULSION

WORLD HAPPENINGS BRIEFLY TOLD

There are 141 live moose in Banff National Park, according to preliminary official estimates. This is an increase of 4 over the figures of a year ago.

The Saskatchewan wheat pool has been paid a [illegible] building permit for the Regina district, at the intersection of Broad street and Victoria avenue.

Premier Gardiner of Alberta has been invited to be present at the opening of the eighth international at Jasper Park next September. Premier Gardiner has not yet replied to the invitation.

The support of a stallion [illegible] to the amount of the eighth instalment of an annuity of $1,000 each, which was promised to the Dominion government by Sir Rupert Kettle, was found to be unenforceable, according to a decision rendered by Justice Lennox in the Supreme court at Toronto.

Sir Henry Thornton, president of the Canadian National railways, has been appointed chairman of the executive committee of the Canadian Pacific railway, it was announced at Montreal. Sir Henry will continue to be president of the Canadian National railways.

Mr. Justice Middleton, of the Ontario supreme court, has been appointed a commissioner to investigate the affairs of the Ontario Motor League, it was announced by Premier Ferguson. The league has been under fire for some time.

Mr. Justice Duff, of the supreme court of Canada

SMALL ADS PAY

Personal Supervision Counts

Many people who were hesitant about buying the product of a small town bakery, as against the product of the large city bakeries, now know that personal supervision is an important factor in the making of bread.

Stone Bros. — **Tofield, Alta.**

TOFIELD, — ALTA

Make 1927 the Best Yet

The story of the human race is one of progress. Humanity delights in it. To do a little better this year than last is the desire of almost everyone. We desire this too, but in this modern era of intense competence we are dependent upon you. 1927 must be your best year before it can be ours. Now then, all together, milk as many cows as possible, ship as much cream as possible, earn as much money as possible. And we will buy your cream and pay you as much money as possible. Let 1927 be the best year all round.

THE TOFIELD CREAMERY

K. L. McINTOSH, MANAGER

ANOTHER BOOKLET *for* FARMERS

In pursuance of its policy of friendly co-operation with the farming interests of this country, the Bank of Montreal is now issuing a new text book for farmers, entitled "Sheep for Profit, Wool and Money." The booklet is a practical guide to the breeding and feeding of sheep, and is fully illustrated by photographs illustrating every point that is made. A copy may be obtained, without charge, on application at our nearest Branch

Previous booklets distributed by the Bank are—

"Diversified Farming"
"The Cow, the Mother of Prosperity"
"Poultry for the Farm and Home"
"Hogs for Pork and Profit"

The Bank has distributed tens of thousands of these booklets throughout Canada, and numerous farmers have expressed their appreciation to our local Managers

FOR OVER 30 YEARS

the record of Red Rose Tea is a record of steady progress.

To keep up with the extra demand during 1926 and to further improve the method of packing, so the quality of this fine tea will be more surely protected, the Red Rose Tea packing plant has been completely transformed.

The story of this change will be told in later advertisements.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

Solving Western Problems

Delivery Horses in Demand

Reserve Animals Always Needed to Fill Up Gaps

Clean, upstanding horses, serious hands high, especially strong in the legs, weighing from 1200 to 1400 pounds, and single broken, are the type of animal business firms want for the next few years, members of the Saskatchewan Horse Breeders' Association were told at their annual meeting by Arthur Newman. Wind two Mr. Newman was speaking for the horse industry in this province as a class of horses for service in the city, delivery vehicles.

There are over 100 delivery horses on daily service in Winnipeg," Mr. Newman stated, "and twenty-seven hundred are needed at all times to fill up the gaps in the ranks. While one in ten of the animals we get now are single broken, and you can imagine the difficulty of getting matching teams of Winnipeg's requirements, who has a motor car? Canada's motor industry is the foundation on which our consider the "Typical Delivery Horse" will all we be able to sell them, and at good prices.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

Take a good application of the wonderful pain reliever. Bring it in and feel an easing of pain. Rub it in briskly and deeply and watch how the healing virtues of Nerviline penetrate to the very source of trouble and relieve it. For clogging rheumatic or nerve pain, for lumbago, sciatica, neuralgia, stiffness and backache, Nerviline is the power of 1926. Nearly fifty years of success proves the merit of Nerviline—which is used everywhere in Canada.

Nerviline is sold everywhere in 25c trial size bottles, also in the large economy size family bottle containing three times as much. Moreover, a steam inhalant, due to its penetrating vapor, must be more frequently overworked than a liquid, which can do a certain, and then rest, and therefore can do it over again.

There is doing more than any other engine, I think, toward it. Electric locomotives are almost completely established, and work is proceeding on the electrification of the Canadian Pacific Railway. Moreover, a steam locomotive, due to its principle, must be more frequently overworked than a liquid, which can do a certain, and then rest, and therefore can do it over again.

France Electrifying Railways

Doing More Than Any Other Country In This Line

Here is one reason why railroads will be of increasing importance in the development of Canada, and why the population some time ago appointed a special committee on grain research to study various problems connected with the production and marketing of grain, including factors affecting milling and baking, quality, commercial grading, and diseases affecting grain plants particularly rust. This committee now proposes an immediate survey of the methods employed in grain drying, to be followed by a study of the different methods with a view to determining which is most advantageous from the standpoint of economy and the resulting quality of the dried product.

In order to make investigation as thoroughly as possible the Liberal Inn of Manitoba, Saskatchewan and Alberta will engage in the work. Medicine Hat and Saskatoon laboratories have already been established at the Alberta and Saskatchewan Universities and the necessary equipment is being installed in Manitoba. Dr. Tory has expressed the opinion that it is doubtful if a research of such magnitude has ever been undertaken in Canada.

If the Public Universities are making an important part in the development of the province and in finding solutions for many problems [illegible] that can be of any value it must be more intensive, more [illegible] both and many ways. Anything approaching a [illegible] on the part of this, there people are impatient of research work [illegible] to produce results as soon as possible. But the fact remains that it has been found [illegible] and experts rather than tariff, which has made less United States the great industrial nation it is, today. The industries of Great Britain built up their world trade, not because of tariffs, but through the application of [illegible] discoveries. Industrial economy was the product of research [illegible] possible to a greater extent than any other country.

Canada is said to be admitted, has been hampered in this respect, and a survey of the [illegible] to blame. Scientific [illegible] for years they have been obsessed with the idea that the Canadian tariff [illegible] was prosperity to be found. If the Canadian manufacturer would [illegible] more weight of their influence and resources back of the National Research Council, a new [illegible] in Canadian industry would result.

That Overseas Trip

The Canadian Pacific Railway announces that [illegible] will be [illegible] Canadian [illegible] to Europe [illegible] each week, in connection with the [illegible] Liverpool, St. John's, N.B. This arrangement has been made in order that the travelling [illegible] may have the convenience of [illegible] Canadian Pacific [illegible] and [illegible] high and reservations on those [illegible].

Ice Fast 14 Feet Thick

Ice on the Saskatchewan River at Prince Albert is [illegible] 14 feet thick, according to [illegible] Mounted Police [illegible] Prince Albert. This is [illegible] 4 feet more than [illegible] ago, from a height of 18,500 feet [illegible] Mount Robson, [illegible] Rockies, [illegible] a new [illegible] in Canadian [illegible] mountaineering.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's distress from colds may be relieved in a new way. Simply rub Vicks VapoRub on throat, chest and back at bedtime. Its direct, double action—through the skin and by inhalation—relieves most colds by morning.

At the first sign of sneezing, coughing, stuffy head, or any other cold trouble, apply Vicks VapoRub according to the directions you put "Rub it on."

VICKS VAPORUB
Over 17 Million Jars Used Yearly

Public Health Scholarships

Social Hygiene Council to Create an Endowment Fund

Children of ex-soldiers [illegible] fund to provide for one or more public health scholarships in a Canadian university, it is [illegible] will be one of the most important duties on the programme of the Canadian Social Hygiene Council [illegible] Ottawa on [illegible] and the coming year.

[illegible] Council [illegible] Dr. Helen [illegible] Toronto, [illegible] Dr. Charles [illegible] Ottawa, [illegible] Dr. Helen [illegible] Toronto, [illegible] Dr. Helen [illegible] Toronto, [illegible] Dr. Helen [illegible] Toronto

SKATING CARNIVAL

A grand skating carnival will be staged in the rink next Tuesday evening, February 16th at 8 o'clock. It is being arranged by the curling club for the new rink fund and a good turn out of costumes is practically certain. There will be first and second prizes in the following classes: ladies' fancy, ladies' comic, girls under 14, fancy and comic; gents' comic and comic fancy; boys under 14 fancy and comic. There must be three entries in each class or no second prize. No one without costume will be allowed on the ice until after 9.15. Admission adults, 50c., children 25c. Children under seven years free. Curlers and help wanted are especially requested to come in costume and help make this carnival the last Tofield has witnessed in years. The prizes are high class in their event and will probably be on display in some of the local stores this week.

NOMINATION DAY PASS QUIETLY IN TOWN

Nomination day passed quietly in town. Mayor A. J. H. McCauley being re-nominated for a further two years, was declared elected by acclamation. This is Mr. McCauley's fifth term as mayor, and at the end of the term for which he has just been nominated, he will have served ten years as the town's chief magistrate.

Three councillors were also elected by acclamation, Councillors Swift and Bellamy being renominated, with E. W. Rogers as a new councillor taking the place of J. W. McMullen.

The three retiring trustees of the school board, Mrs. Mary M. Davison, John Lee and John W. Chapman were all renominated and were declared elected by acclamation.

Born.—To Mr. and Mrs. J. Carver, on Thursday, February 3rd, a daughter.

Hingley Says:

Good-bye To You & To Price

A. Hingley and Co.

The Birds

—ARE NOW BEGINNING TO COME BACK, AND

The Crocuses

—WILL SOON BE PEEPING THROUGH

SPRING! the wonder season! the season of release from the bonds of winter! The season of green grass, budding trees, flowering crocusses, the early birds, **and the full milk pail!**

Partly gone are the cares of winter. Soon the apparel put on chiefly for warmth, will be changed for that donned for appearance and style.

The birds will have new plumage, the trees will have new foliage, and you will have new clothes. We will, as usual, have complete stocks of MEN'S FURNISHINGS for Dress, Work or Sport.

The BELTER will be very popular and we will have them in the newest fancy colors.

NEW CAPS, HATS, BELTS, and SHIRTS

In Footwear we will Have a Very Complete Range of New Oxfords and Shoes

Work Gloves, Shirts, Pants, and Boots in a wide range of Values and Prices.

The Larger the Stock the Better Choice You Have. WE HAVE THE STOCK

The Reliance Store Co.

Men's Wear and Groceries

Time to Take a Good Tonic

February and March are good months in which to take a tonic. Syrup of Hypophosphites is one of the best tonics known to chemists and medical men. It will brace you up and make you less susceptible to the weather changes of winter and spring.

Local and Personal

Mr. Van Dyke, third trick operator at the station was transferred to Landis, Sask. Mr. Dyan has thus his place here in Tofield.

Miss Myrtle Bethel spent Saturday in Camrose visiting Miss Esther Wood.

Mrs. Teho is visiting relatives and friends in Wainwright this week.

The United Ladies' Aid will meet at the home of Mrs. Geo. McLaughlin on Friday, February 25th.

Mrs. McClurg and children returned on Saturday night from a visit to friends and relatives in the States.

Visitors to Edmonton over the week end included, Mrs. Napier, Miss Napier, Mrs. Elder, Bert Wallis, Gordon Cobb, Miss Barr and Mr. and Mrs. F. C. Lewis.

Mrs. Ward returned from the city on Tuesday after spending a few days with friends.

G. McLaughlan, J. D. Inman, W. Chapman and Dr. Morrison re-turned on Tuesday after spending a few days in the city.

Mr. and Mrs. Carr are leaving this week for Edmonton to reside.

Mrs. Nabel Wall spent the week end at Edmonton, returning on Monday evening.

[illegible] on Tuesday in Camrose on business.

A number of lady curlers from Edmonton visited Tofield on Monday and played friendly games with the local lady curlers.

Mr. and Mrs. Mitchell, who recently left the Kirkpatrick district are at present at Victoria, staying with Mr. and Mrs. P. F. Ingram. They are quite pleased with Victoria as as a residential city.

P. F. Ingram desires it known that he is able to handle poultry at any time during the winter shipped by rail.

Mr. [illegible], Provincial Inspector of Weights and Measures was a visitor in Tofield on Monday last.

Born To Mr. and Mrs. Andrew Emerson, on Wednesday, February 16, a daughter.

Born.—To Mr. and Mrs. T. Robinson, on Feb. 3rd, a son.

SKATING CARNIVAL A SUCCESS

Despite the exceptionally cold weather there was a large number of people turned out to the skating carnival on Tuesday night. The costumes were good and well got up.

The carnival was got up by the curling club and they gave a number of prizes for the best costumes.

INTERESTING DEBATE AT THE TOWN HALL

On Saturday evening the Tofield U.F.A. and the Mirrichill U.F.A. met in a debate at the Tofield town hall on the subject "Resolved that government should now institute a campaign for its agricultural welfare." Mr. Swaity and Mr. Atkinson held up the honors of Mirrichill and T. R. Murray and E. Seale took care of the arguments for the Tofield side.

Mr. Murray opened the debate with a paper that was really active, being a the material [illegible] ing on behalf of immigration like arguments was simply packed with information that must have meant hours and hours of study.

He was followed by Mr. Atkinson, who dealt to the fact that he was substitute for [illegible] and was sick, and had had short notice, was somewhat brief. Still he was quite witty during his points home with plenty of force.

He was followed by Mr. Seale, who attacked his opponents aggressively on all their points and rolled out a large number of [illegible] arguments. Mr. Seale was [illegible] most effective debater of the night.

He was followed by Mr. Swaity, who put some heavy [illegible] cracks and made many good [illegible] assuming in short was remarkable when making a particularly good as he quoted a date a week before as "yesterday." It was a good point.

The judges, R. G. Watt, I. Russell and W. Worton, awarded the decision to the Tofield team.

Mr. Swaity then gave a report on the Provincial Convention which he had attended as a delegate.

W.A. NOTES

About forty attended the social meeting last Wednesday and enjoyed the very excellent talk given by Mrs. Gates, Provincial Inspector of Alberta Women's Institutes. Mrs. Gates is a wonderful speaker and held her audience from start to finish. She not only outlined the work of the Institute in general, but gave us much other valuable information to the advancement of household problems. She is [illegible] of our local branch and the many things we have accomplished in the past, the January meeting was called off on account of the [illegible]. The officers elected are as follows: President, Mrs. R. W. Cassell; 1st Vice President, Mrs. A. Beaman; 2nd Vice, Mrs. Burt; Secretary, Mrs. Frank Lane; Treasurer, Mrs. Geo. Bissett; Directors, Mesdames Taylor, Abbott, Hutchison, Cobb, Medbourgh, Addison, Mrs. Chamberlain and Mrs. Lawson; standing committee of Education, with Mrs. [illegible] convener; Agriculture, Mrs. [illegible] chairman. We were very [illegible] to have Mrs. Gates with us and hope to have her visit us again in the near future.

Mr. and Mrs. Carr are leaving this week for Edmonton to reside.

Mrs. Nabel Wall spent the week end at Edmonton, returning on Monday evening.

[illegible] on Tuesday in Camrose on business.

A number of lady curlers from Edmonton visited Tofield on Monday and played friendly games with the local lady curlers.

NEWS OF OUR NEIGHBORS

LINDBROOK

On Friday evening, February 11th, a whist drive was given by Mr. and Mrs. A. Scott at their home here. There were eight tables. The evening's play started early and went through like clock work the result being an early finish when suits the majority far better than those five o'clock in the morning returns to home. Mrs. Buckley won the ladies' first prize while Mrs. Lancaster gained the booby. Mr. L. Hooper won gents' first and Mr. Geo. Westlake got the booby for the booby and secured it. Everyone enjoyed themselves and are all looking forward to "Next Places."

A dance was given at the school house here on Friday evening the 11th by Mr. Leslie Rogers. Todd Bros. orchestra supplied the music while Mr. Chas. Morden took charge as M.C. Supper and M.P. Charlie were complementary. We don't [illegible] to troupes. The usual [illegible] were served at half time and dancing was the order of the night. Up to a charge [illegible] all took part. Who's [illegible]

Mr. R. H. Bell was called to [illegible] on account of a telegram [illegible] Mr. Bell has been received from the effect that the boy is improving [illegible] she may prolong [illegible] for a few days.

Miss Lute for last issue]

A whist drive was given last Friday evening at the home of Mr. and Mrs. W. Hooper here. Quite a large crowd was present and luckily the night was mild for the drive to and from. A great deal of fun was caused by the description of partners [illegible] to guess by means of tickets. The ladies first prize was won by Mrs. Wm. Westlake while Miss M. Mc-Donald won the booby. Mr. A. Scott secured the gents first and Mr. R. P. Hobbs of Edmonton consoled himself with the booby prize. Mr. H. R. Hobbs of Lindbrook secured the extra prize for cutting on the lucky card at the final hand. It started [illegible] and was over in good time. Refreshments were served at the interval and finish. All everyone present had a real good time.

Mr and Mr. R. P. Hobbs of Edmonton spent the week end with Mr. and Mrs. H. R. Hobbs of Lindbrook.

Mr. Asa Rogers is staying with his son Leslie of this district. Mr. Rogers has been holding down at Wainwright this fall.

Mr. [illegible] was a resident here had to have to [illegible] on account of [illegible] Mr. [illegible] on a drive [illegible] only the best were [illegible] they [illegible] carriers do not [illegible] the seats of the former crimes and stricken [illegible] one foot of [illegible] bonnet; but no, the dogs fixed [illegible] lightening do thread upon. Anyway [illegible] a lucky find and now the same [illegible] chicken house [illegible] eggs [illegible] visited more often than before.

Mr. and Mr. Sigurd Sandbo and [illegible] on Saturday evening for [illegible] Prairie where they intend to [illegible]

IMMIGRATION

IT IS a very good sign that there was such a good attendance at the U.F.A. meeting on Saturday afternoon. The interest is drawn that it was the speech that attracted the people, and more especially said, the subject. While the exact wording of the subject was a matter of importance to the speakers and judges only, the general aspect of the question, which was as to whether the government should at once make a special effort to procure agricultural immigrants, created keen interest among those present. The affirmative, the side in favor of immigration made out a splendid case for Alberta; those opposed also put forth telling argument, but both sides said little about the individual immigrant, and it is the individual immigrant, multiplied many times of course, that is going to populate or leave sparsely populated this country. It is quite true that the railway system, the educational system and all public improvements are far ahead of the population. It is also true that if there were ten times as many people living in Alberta as there now are, the per-capita tax would be reduced, and it is quite true that this province can comfortably "support" a population many times larger than it at present contains. But looking at it from another view point it is quite true that our winters are long and cold, necessitating [illegible] labor of putting up feed and labor of feeding it during the winter months; it is true that we are in an isolated position necessitating the paying of heavy rail and ocean freight on our stock when shipped to the old country markets; and it is also true that very many people have come to this country and after a period of time moved to other parts.

In the above paragraph we have the basis of argument both for and against immigration, and both arguments cannot be disproved. Consequently it depends upon what kind of immigrants we procure as to whether it is worth while procuring them.

Our idea of the immigration question is that the urge to emigrate should spring from the emigrant. If he or she does not desire to emigrate but is persuaded to do so by the promise of this, that and the other thing, there are one hundred chances to one that the move will be an unsatisfactory one. Every difficulty that requires overcoming will become mountainous and it will not be long before the immigrant will wish himself or herself back home again. If, after true information regarding the country is widely spread, an individual desires to come to this country and expresses himself or herself accordingly, and comes determined to [illegible] out a home in a new country, a successful citizen is most likely to result. It is really a question of mental outlook, coupled with ability to adapt oneself to changed conditions and to overcome difficulties that are inevitable to obtaining success in life anywhere.

A steady stream of authentic information regarding Alberta spread throughout countries from which immigration is desired, would continually attract young men and women to whom the urge to make a name and place for themselves in a new country had come. This would provide a steady flow year after year, of the kind of immigrants most likely to stick.

THE DAIRY INDUSTRY

THE RECENT Dairymen's Convention held in the city of Edmonton again forcibly demonstrated the importance and the magnitude of the dairy industry in Alberta. Unlike some of the western lands, Alberta is not by any means all prairie. In the woodland pasture areas there is ample scope for the dairy industry to thrive. It is an industry that while not entirely immune from the effects of unsatisfactory weather at certain seasons, it is not effected nearly so bad as grain. A frost at a critical time will cause something approaching disaster to a field of wheat, but all the cattle seeks the shelter of the bush and waits for the morning's sun. That there is a large potential market for Alberta butter was mentioned several times at the convention and while dairying means work, and plenty of it, it also means a steady flow of ready cash into the family coffers.

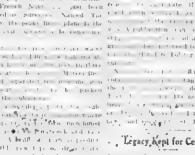
"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac



Tanlac has proved a wonderful blessing to me, and I feel that I owe it to the suffering people to tell them about it. I had been in a completely run-down condition for a long time, and was so nervous that I could not sleep at night. I had no appetite, and what I did eat caused me indigestion. I was so weak that I could hardly do my housework, and was in such a miserable condition that I was unfit for anything. I had read a great deal about Tanlac, and finally decided to try it myself. I am glad I did, for it has done me more good than anything I have ever taken. I have gained in weight, my appetite is splendid, and I am entirely free from indigestion. I am now perfectly well and strong, and feel that I owe my health entirely to Tanlac."

Tanlac is sold in Topield by Bell Bros. Drug Store. Over 35 million bottles sold.

PROTECT YOURSELF AGAINST THIS VIRULENT DISEASE

Editors Note—The following letter, addressed to the Vegreville Observer and printed by them, will no doubt be interesting reading to stockmen of this district.

Dear Editor:

Kindly print the following in your next issue.

Haemorrhage Septicaemia

Haemorrhagic Septicaemia is an acute or sub-acute infectious disease of all species of domestic animals, caused by the haemorrhagic septicaemia group of organisms which are designated according to source—as bovicrum, barnicpticum, ovisepticum, suipticum, etc.

The above disease is one of the most virulent and dangerous known to veterinary science; it is also considerable to the human being, particularly in the case when you have a scratch or wound about the hands while attending to an animal affected with the above disease.

Some infected with haemorrhagic septicaemia in its most virulent form and died shortly afterwards. This is why particularly, I am giving this write-up on the disease, to advise stock owners to be on their guard and handle with care any suspicious cases of this disease.

I will describe to you the symptoms I will describe to you the different forms and symptoms of the disease.

Intestinal form—The animal becomes dull, loss of appetite, fever; soon you will notice diarrhea tinged with blood; animal gets down and is unable to rise, due to loss of flesh and extreme weakness. This form exominates into infective Enteritis, he animal suffers excruciating pain and dies.

Pulmonary form.—This form is confined to the respiratory system and shows the usual symptoms of pneumonia, discharge from nostrils, heavy breathing, cough, etc.

The Meningeal form or (the sudden death form)—This form is confined to the brain and great nerve centres; for instance, you will see your cow or sheep apparently in good health and possibly in four to six hours afterwards you will see her lying dead.

Cutaneous form (so called mange)—This form is confined to the skin presenting itself first by pimple-like swelling together in small abscesses, finally virulent infective dermatites and gangrene is the result.

All the above forms can be cured if taken in time by a special bacterine if properly used. Also a prophylactic vaccine is carried out to prevent its further spread with the herd.

The disease has been quite prevalent in the province of Manitoba and Saskatchewan and is surely but surely working its way into this district. I have attended to three different outbreaks recently.

C. W. Hutton, V.S.

LOCAL AND PERSONAL

If you have friends in the Old Country whom you wish to assist in coming to this country come in and see us. We make all the necessary arrangements.—Canadian National Railway.

The boys of Tofield United Hockey team are beginning to wonder if there are any hockey teams in Edmonton. On two occasions they have made definite arrangements with an Edmonton boys team for a game at Tofield and on both occasions the team failed to arrive.

If you have friends in the Old Country whom you wish to assist in coming to this country come in and see us. We make all the necessary arrangements.—Canadian National Railway.

Notable successes were won by Tofield poultry fanciers at the recent Edmonton show. It is getting to be an old story now, to record the success of Mr. Hardy and Mrs. Cookson. At the same time we are delighted to see that they are still holding up the honor of Tofield in the realms of poultry.

Hannan and Carver are putting up quite an extensive warehouse to house farm machinery, etc. Roberge Brothers are the contract for the building and as matter how cold it is, they keep right on hoeing and the hammers pounding.

R.M. ELECTIONS

At a meeting to be held at the Municipal hall on Saturday, nominations will take place for the office of councillor for the coming term. The term of councillors Holmberg, Ferguson and Verge expires, while councillors Williams, Christianson and Thompson have another year to serve.

NOTICE

Take notice that a meeting of the electors of the Municipal District of Tofield, No. 187, will be held at one o'clock in the afternoon on Saturday, the 10th day of February, 1927 for the election of Municipal officers; and that at the same place, and on the same day, the returning officer will receive nominations of candidates for the office of councillor from three o'clock p.m. to four o'clock p.m.

JOHN WEATHERILL.

Having purchased the business and good will of A. A. Beirnes, Druggist, I take this opportunity of saying "hello" to all Mercury readers. I also assure all residents of Tofield and district courteous and efficient service, and solicit their custom.

R. D. Hester Druggist

HOCKEY

On Saturday last the Tofield ... journeyed to Ryley to play against the Tofield team of that place. At the time of the team's departure, or rather, the time it should depart, there only five players ready to go. By a lucky coincidence, the train was 5 minutes late, but even then there were only five players ready, but there being a one off the track at Ryley caused the team to wait at Tofield 15 minutes or more. About 8:30 the sixth player turned up—smiling—fully about half. But this lucky streak failed them at Ryley, for the Ryley team won by a good margin.

On Tuesday night two games of hockey were played at the local rink. Continuous hockey was arranged. Tofield United and Bardo opened the evening with a twenty minute period. This was followed by a 15 minute period between the Trail Rangers and the town finals, the order being kept up and three periods had been played by each team.

Tofield United won their game against Bardo 1-0, on a goal scored by ... but up to a good game and ... was the game was ended. The first ... and well liked, the second and third periods were well worth ... watching.

FINNBROOK

On the evening of the 18th, Mr. and Mrs. Hedley Burton gave a whist drive at their home here. During the afternoon a blizzard sprang up and with it a cold, icy wind, but this did not deter the visitors, all of whom had to break trail through the snow drifts, but arrived there as jolly as ever. There were eight tables of whist which was played up to supper time. The winners being, ladies 1st, Mrs. Hooper, ladies 2nd, Mrs. W. McHalley. Miss McDonald again made up the booby prize, seems to be making a collection of them. Gents 1st prize was won by Mr. R. Herbert and the 2nd by Mr. C. Morden, whilst Mr. Lannaster took the booby prize. There were more prizes given for a lottery ticket drawn from a pack of cards, highest getting the prize. Miss Pinkins was the lucky lady and Mr. W. Herbert the lucky gent. After supper dance music by radio from Calgary and Seattle was broadcasted, Mr. H. Freeze being the operator, and dancing as the order from then on until the close of the at-home evening. Luckily the storm had taken a rest by then and it was quite mild and bright moonlight, so the drive home was a fitting finish to a pleasant evening.

Mr. L. Hooper organized a young folks party which was held at Mr. and Mrs. Wertham's home here. Songs, music, dancing and games were organized as was also a lovely spread. One part tried to demonstrate the well known strength of silk by lifting a pail of frozen water, the silk being wet to the tin. This time, however, the silk wasn't up to its usual, superb card!

Mr. H. H. Hobbs returned home last Saturday from Ryley which was held and who have been visiting her son, Leslie, who (misspelled there with pleasure)... Mrs. Hobbs reports him on the road to recovery.

Hon. Vincent Massey, Canadian Minister to the United States, will receive a salary of $12,000 a year and will have a staff of nine persons, including secretaries, according to an item filed in the House of Commons.

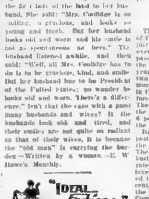
Canada's national debt decreased by $2,338,857 in January. The total net debt at the conclusion of January 31 last was $2,310,043,661, almost as much forty million dollars less than a year ago. The statement was issued by the Department of Finance.

For the eldest inhabitant of Dover a dinner and ten one given in the town hall this hundred, all more than 70 years old; the combined ages totalling 16,223 years—attended. More than 200 other old townspeople who were unable to attend received gifts.

England's Women Clergy

The Rev. Agnes Dalpin, secretary of the Union of Women Voters and organizer of British women preachers, is the moving spirit among women workers in the Baptist, Congregational and Unitarian churches, but only 40 combinations which so far all only women in their ministry. In addition, there are six women who have not formally qualified as ministers, but are in charge of churches.

A new double shade with exceptionally large pearls has been named after Princess Mary of England.



Ex-Kaiser Still Autocratic

Refused to Receive German General in Civilian Clothes

Gen. Von Morkstein, the German cavalry leader who rounded up the Czar's family, the Romanoffs, Amazon of which the world has been told that it was the most perfectly equipped military force was in England a few weeks ago. The Kaiser heard of the affair and expressed the wish that the General should pass by the way on Doorn on his way back. One of his aides, Von Mackensen, stood at the gate the Kaiser had dressed for the tour, but came out to the meeting Upon seeing his former General in his travelling clothes Wilhelm refused to the Chamberlain: "How dare you bring any one in my presence not dressed on parade terms?" Gen. Von and Marienthal, "I have nothing for civil clothes." But Wilhelm did not even turn his face to the General's kept shouting to the Chamberlain, "I am the owner of Wilhelm Hof of Germany. I will not allow it to be by lackeys, such." And on Marienthal without being invited to remain. To which Napoleon saw No, to his understudies!

The city council of a city in Italy has prohibited the kissing of women on the ground that they are the same as human females and should be put into asylums.

Farmers of Texas have found tobacco a valuable aid in controlling plague, of grasshoppers.

[illegible]

Do you people remember away back a few years when almost every country town store had a battery of creamers standing opened and within full view and reach of every customer. Those days are gone. Now, creamery cone is wrapped in pretty packages or family size boxes and many may be sold but few are the leaky bottles. The dairyman, too, must move with the times. The cow of a decade ago was efficient a decade ago, but not now. To-day a cow will be outclassed by those a decade later. This will be brought about not by any miraculous means but by the careful watching of their herds by thousands of dairymen—and the dairyman who does not watch his herd is liable to fall behind.

Your interests are ours, therefore, and we strongly recommend that every dairyman co-operate by watching his cows with the view in mind of eliminating the poor cows and increasing the good ones.

THE TOFIELD CREAMERY
K. L. McINTOSH, MANAGER

Personal Supervision Counts

Many people who come to Edmonton about buying the product of a small town bakery, as against the product of the large city bakeries, now know that personal supervision is an important factor in the making of bread.

CURLING

PROBABLY THERE is no town in Alberta that is more devoted to curling than Tofield. More- [illegible] as no fi.sh on the p.n flurry in new sport, for as long as we can remember there has been a large number of ardent followers of the game in Tofield. As far back as 1913 the McCauley cup was being played for by local curlers. At first curling at Tofield was distinctly a man's game, but of late years the ladies have taken it up with much vigor and while during the season the men and women play separately, it has been the practice of recent years to have a mixed bonspiel in which two women and two men compose a rink. The mixed bonspiel is taking place this week.

Curling is an ancient game the origin of which is in doubt, the balance of opinion of those who have investigated this question is that it is of Flemish or Dutch origin. There are many references to it in the early 14th century records. In 1838 the Grand Caledonian Curling Club was formed and in 1842 this club took the name Royal Caledonian Curling Club. The early curlers laid much stress on their equality and conviviality. Another almost essential of the early curlers was a curved timber resembling or bent and greens. To the Royal Caledonian Curling Club is given the credit of introducing the game into Canada, the United States and other parts of the world.

It would be difficult to imagine a better game than curling for mature men and women. Unlike many of the modern sports it is a game to participate in and not one to watch. There is little thrill in watching a curling game, in this matter it differing greatly from hockey or football. History tells us that in the down going days of the Roman empire, thousands would congregate to view feats of strength and daring by gladiators and athletes and many modern writers claim the counter part to this can be found in the huge crowds now to be seen at football, baseball and hockey games. Mentally and physically one is much better off playing a game than merely watching it played.

Perhaps there is no country in the world where curling is more popular than in Canada. Our climate, including as it does, a long cold winter, is not only conducive to good ice, etc., but it produces a type of individual to whom the comparitively slow game of curling appeals to. Whether we recognise it or not, there are few who desire to put forth their maximum energy in the winter. It is as if the nervous system was attuned with nature and was awaiting the warmth of spring to release a flood of energy. During the months of winter there is much enforced idleness and this would become very irksome if there were no outlets. Curling provides a splendid outlet for winter energy. Confining none of the respon- [illegible] sents an opportunity for social intercourse and friendly rivalry that may yet be the saving of this western country. Who can tell but what the history of Russia (with a climate similar to ours) might have been different if, in the small villages, towns and cities there had been universal opportunity for play, as well as talk and discussion, during the months the growing part of nature was asleep.

The Tofield Curling Club are now endeavoring to raise funds to build a larger and better equipped rink. We hope they get the funds and that their new rink will materialize and be all they desire it to be.

To a very large extent the popularity of curling in Tofield has inversely effected skating, especially hockey. Admitting the task of procuring teams is a hard one, the few that have come here have played to meagre crowds. Moreover the skating carnival, which has been an institution in Tofield for years, when put on by private enterprise, only children were present; when put on by the curling club a few weeks later, there was a good attendance of adults.

As before mentioned, curling is a slow game, [illegible] strenuous exercise, for there is no extreme exertion and practically no personal risk. In spite of its many good qualities, it does not and cannot take the place of the more exhilliarating sports such as the young folk desire. Therefore it would be good policy on the part of individual members of the curling club, to support, as far as they are able [illegible] for the other, namely skating or hockey.

Here and There

Word was received by friends in Tofield of the safe arrival in Montreal, and [illegible] Mother, left over the C.P.R. last [illegible] recently to attend the annual conventions of the Canadian and U.S. Snowshoe Clubs at Manchester, N.H.

Japan ranks third in world tonnage Great Britain heads the list with an aggregate tonnage of 21,[illegible] 000 tons, United States next with 12,745,000 tons and Japan third with 4,000,000 tons; Germany follows with 3,000,000 tons.

Nearly 100 messengers of the Canadian Pacific Telegraphs were the guests of the Company at a banquet in the Windsor Street Station banquet hall recently. The complimentary dinner was tendered to the boys as a token of appreciation of the service rendered to the company and the public in their daily delivery of telegraph messages throughout Montreal.

Immigration to Canada for the calendar year 1926 was 135,982, compared with 84,907 for 1925, a gain of 50 per cent. Of the total new arrivals 48,819 came from the British Isles; 20,944 from the United States and 66,221 from other countries. Returned Canadians in the period totalled 22,286, as against 13,707 in 1925.

Figures submitted at the annual convention of the Nova Scotia Dairymen's Association showed 27 creameries operating in the province in 1926, producing 4,764,000 pounds of butter, or an increase of 8½ per cent. over the production of 1925. The increase in value was $423,916.

J. E. Martin, superintendent of the fish culture service of Alberta, announces that nearly 800,000 brown trout eggs have safely arrived from Wisconsin at the Banff hatchery, and that the trout will be ready for stocking the Lesser Slave Lake, will be distributed throughout the waters of the Red Deer River, Alberta.

VICKS VAPORUB

Is Considered a Miracle

Body of Rumanian Priest Dried Two Years Before Is Found Perfect

FELT VERY WEAK

Had No Ambition and Had to Rest Frequently

Mrs. Wm. J Griffin, Tobkannah, Shubenahs Island, that "I am one of the many thousands of women who suffer from nerves and bloodlessness and who have found new health through the Wilson's Fly Trap Pills. Before I took them I was a mere number of years I felt very weak and had no ambition. I found it very difficult to do my housework and had to rest frequently. As time passed my old condition grew decidedly worse, and my feet and legs were badly swollen. My husband told the doctor of my condition, and he gave me medicine. Then my baby came, and the doctor said I was very weak. But I just scarcely ever stood on my body that it had to be held up. I was in bed nearly all the time. My husband got me Wilson's Fly Trap Pills. It is about a month since I took the first pills, but after I had a couple of months I felt like a new person. Where he would have to help me to bed a drug upon my strength I enjoy doing it now, and I will always recommend Dr. Williams' Pink Pills to weak people."

If you will send your name and address to The Dr. Williams' Medicine Co., they will mail you a little book, called "Builders' Up Blood," which contains many helpful hints. You can get the pills for 50 cents a box or six boxes for $2.50 from any druggist or direct by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

Mabee Stoney Farm Radio Set

An enterprising resident of Waterloo, Mass., has equipped his radio set with static lead eye-glasses which he has fashioned for himself. He also has a radio set for his neighbors. He charges them each $2 a month for the service.

Persistent Asthma

A great discovery—a great discovery for all those who suffer from asthma, even though they have suffered for years, is the statement of Mr. Chas. Hendry, Lansdale, Ont., that Dr. J. D. Kellogg's Asthma Remedy gave him relief from the dreadful attacks of asthma from which he suffered for years. Mr. Hendry's statement is the most potent evidence that can be given to suffering people.

In a battle fought in 1812 this one army killed three men with cutlasses, cut them on fire, and blew the remains with bellows into the faces of their comrades!

Children Cry for Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proprietor.

Physicians everywhere recommend it.

Millions use Minard's Liniment.

INCOME AND SALES TAXES ARE REDUCED

Ottawa—Investing the increased prosperity with which Canada is blessed this year and announcing sweeping taxation reductions totalling $37,000,000, Hon. J. A. Robb, Minister of Finance, presented to the House of Commons his fourth budget speech this afternoon. It was a Liberal budget in the truest sense of the term. Both in severity and in its absolute lack of tariff changes, the budget is unique in the history of Canada.

Several important taxation proposals were laid before the House by Hon. M. Robb, the one of greatest general interest probably being the announcement of a cut of ten per cent. on all income tax rates effective for the spring payments. This is supplementary to the raising of the exemptions which came into effect last year.

Of the total eclipse begins, over England at 5.23 a.m. Greenwich mean time, and is visible in its totality for about 2½ minutes, lasting from the moment of its beginning to its end about 7½ minutes.

The total eclipse begins, over England at 5.23 a.m. Greenwich mean time, and is visible in its totality for about 2½ minutes, lasting from the moment of its beginning to its end about 7½ minutes.

Many interesting facts can be recorded in connection with the eclipse, which will be total for only 30 miles, running from the north of Wales in the west to Hartlepool on the North Sea in the east. So popular is the interest in the imminent event that several railroads will run special trains to enable parties to join the eclipse.

Special parties of astronomers are planning expeditions to Norway, where the visibility will be better than in England. Special arrangements will take two telescopes and two spectroscopes to a station in Yorkshire, and other parties will go to both the west and east coast.

Many scientific men point out that with a total eclipse, such as will be seen this year, the corona is visible, and it is from the corona that partial eclipse.

HINGLEY AND COMPANY CLOSE OUT

On Saturday of last week, Mr. Hingley closed his dry goods and clothing establishment at Tofield, taking the balance of stock to his Camrose store. While Mr. Hingley has not resided at Tofield for the past two or three years, he did at one time reside here. He came to Tofield as ed for by the rural residents south of local 1914 or 1915 and was in charge of the dry goods section of Rogers' Bros. for some years, later going into business for himself. After a time who desire this service. We undershe opened up a Camrose connection stand that a petition has been or very and later moved there and opened a shortly will be forwarded to the post store. Unable to give as much at- office inspector for this district, ask- tention to the Tofield end as he de- ing that such a route be formed. sired, he decided to close it down. While here he was a well known figure in social affairs and many will regret to see him sever his connection with the town entirely.

NEW RURAL MAIL ROUTE SUGGESTED

We understand that a new rural mail route out of Tofield is being ask-

Hobson's Meat Market

Local and Personal

Mrs. Bethel visited Edmonton this week to see Mr. Bethel who is in the hospital there.

Mrs. John Wood was a visitor to Edmonton this week.

Miss Barbara Carlisle spent Saturday at her home at Tofield, returning to Wainwright on Sunday morning.

Mr. Wm. Martz of Robinson, Alta., is visiting his sister, Mrs. John L. Gray.

Miss Nina Erickson of Ryley visited friends in Tofield on Friday evening.

Mrs. McLaughlin spent Tuesday in the city.

CURLING

Six ladies' rinks went to the city on Monday night for a social game with the ladies of the Edmonton Granite rink.

The Tofield Curling Club are arranging for the presentation of "For Heaven's Sake" at the Variety on Monday and Tuesday next. This picture stars Harold Lloyd and is one of his best productions. If you desire to laugh, see Harold Lloyd in "For Heaven's Sake."

The proceeds are in aid of the new curling rink.

HOCKEY

A good night of hockey was had at the local rink on Friday night last, when a double header was arranged. Tofield seconds played Ryley seconds and lost out by the odd goal.

The first two period of the game was anything but a peasant exercise for the locals, the first period ending 4-1, and the second 3-1.

Troy came on the ice in the last period with a do or die spirit and managed to put one marker of using the game.

Throwing all their player power on the forward line, they literally bombarded the Ryley goal for the best part of the last period. They succeeded in getting four goals but the game ended too soon for Tofield, but not before too soon for the Ryley rooters who were having a lazy time and putting up a splendid game.

A. Pruden was referee.

Following this game, Tofield and Camrose Trail Rangers had a snappy encounter. Camrose won the tilt by a score of 6—2.

They were the little the heavier of the two teams, but it was the finish to their play that won them the game. There was a fair turnout to see them play.

Ted Parsiln refereed the game.

On Saturday Tofield Trailers journeyed to Ryley to play the boys team of that place.

The game was both fast and even and at the end of sixty minutes of hockey, the score stood at 5—5.

Playing five minutes each way as overtime play, Tofield won the game by scoring twice.

All the Tofield boys were entertained at Ryley house for dinner and supper.

Y.I. NOTES

Our regular social and business will be held in our rooms next Tuesday March 8th at 8 o'clock sharp. At an executive meeting held recently, it was decided to have as our slogan, "On time during 1927" and that means at 8 sharp. The roll call will be answered by each member giving her place of birth and the date; her full marriage name and her maiden name. We had this roll call several years ago and it proved very interesting. Mrs. Lerkelson will give a paper entitled, "Some Interesting People," which certainly sounds interesting. Full and final arrangements will be made at this meeting for our annual banquet. All those who have not paid their due for 1927, please bring your quarter as we need to know the number that will attend the banquet. New members, especially invited to attend the meeting, as that is the place to enjoy yourself and get acquainted. If you have never joined, we give you a cordial invitation to do so, who ever is or has resident in town at present. The fee is but 25c a year. Come and be one of us. Mrs. T. Herndon and Mrs. Hicks will serve tea.

Mrs. Geo. Bissett the new treasurer, has full charge of renting the rooms hereafter, and anyone phoning her, can get her full particulars for dates, etc.

M. LUCKOVICH, M.P., WRITES IMPRESSIONS OF THE HOUSE OF COMMONS BY A NEW MEMBER.

(Copied from the U.F.A.)

OTTAWA, Feb. 21. Two days after the 16th Parliament of Canada opened, a Liberal member asked me why the U.F.A. group did not sit on the government side of the House. A very natural also was to know whether our group would join the Tories or support the Liberals. I inferred from the remarks of these gentlemen that our position was regarded by both parties as anachronistic and paradoxical. In other words they could not account for the presence in the House of independent groups wholly responsible from the two old parties. Thus early in the session I have found that partyism, not only in the nakedness and stupidity of its protagonists, but in the procedure of the House, is still a very dominant factor in Parliament. How can this be counteracted?

By discipline? Well hardly. It is said that when the first agricultural majority was sent to remote Russian districts by the Soviet Government, the reason is that country was dispatched to the fields to reassure superstitious peasants. But when the machinery began to snort and start the priests were first out of the fence to get out of the field. In the Dominion House we had an analogous incident when the Progressives bolted, jumped the fence and sought a hyphenated refuge in the Liberal fold.

Education the Party Hospital Method

By Education? Most likely. We must begin at home. If we are to be [illegible] progressively. I have [illegible] when the rank and file of [illegible] conscientiously [illegible] channels [illegible] [illegible] [illegible]

Do you people remember away back when almost every country town had a barrel of crackers at standing open and within full view and reach of every customer. Those days are gone. Now, crackers come wrapped in pretty packages or family size boxes and more are sold and there are not so many leaks. The dairyman, too, must move with the times. The cow of to-day must be efficient or decide ago, but not now. To-days cow will be outclassed by those a decade hence. This will be brought about by pure miraculous means but by the careful watching of cows, hands in hand, of dairymen—and the dairyman who does not watch his herd will lose, to [illegible]. Your interests as an interested one is to carefully recommend each dairyman to carefully watch his cows with the idea in mind of eliminating the poor ones and increasing the good ones.

Plan Dominion Aerial League

Winnipeg Citizen's Form Committee to Further Aviation in Province

The minister of the Air Alan Cobham, famous British aviator, in Winnipeg, has already borne definite results. Following a meeting at which Mr. Alan related his experiences in flying from Great Britain to Australia and back, a committee of leading Winnipeg citizens was formed for the furtherance of commercial and civil aviation in Manitoba.

The committee will investigate the possibilities of aviation in the province and cooperate with other provincial bodies that are working for the organization of a Dominion wide aerial league.

In urging the formation of flight plans Cobb, Air Alan offered to any city ten hours' practical flying instruction.

Did Not Prove Handicap

British Postmaster General in Gladstone's Time Was Totally Blind

In spite of total blindness a remarkable man held Henry Fawcett from the high positions in British public life. He was born at Salisbury in 1832. At the age of 22 he entered the House of Commons where his ability and devotion to worthy causes soon made him a prominent and influential member. In 1880 he became Postmaster General in the Government of Mr. Gladstone, and during his term of office brought about many improvements in the postal service. He died in 1884.

STATES LIBERAL FISCAL POLICY IS UNCHANGED

Ottawa, Hon. C. A. Dunning, Minister of Railways, told the tariff policy of the Government before the House. The Minister of Finance, he declared, authorized him to say the Liberal fiscal policy was unchanged.

"We shall," Mr. Dunning said, "move forward cautiously with the aid of knowledge of the facts secured by the tariff advisory board toward the goal of making our tariff structure as stable as possible on a production industry and the people generally, having always in view the greater prosperity of all the legitimate industries of Canada.

"The tariff must be made to serve the best interests of the Canadian people as a whole. It must be adjusted from time to time to meet the needs, and of new claims or groups of industry alone, but of our whole economic structure. This does not mean tariff chaos, or ruthless, hit-and-miss mean a continued expert examination and adjustment of the tariff year by year."

A resolution by E. J. Garland, U.F.A., Bow River, that there was an understanding between the two chief political parties, was defeated on a vote of "No, no" from the Liberal benches.

And Mr. Dunning was emphatic in saying there was no such understanding. Mr. Dunning also had a sharp exchange with J. A. Glen (Liberal Provencher, Manitoba), who, earlier in the debate, was criticized by the Government's tariff policy. Mr. Glen asked a question bearing on the declaration by Sir Herbert Holt, president of the Government's Canadian National Railways, that the next three years were paid up in varying amounts totaling over $12.50 for the 1911 12 shares to $7.50 for the last for six, thus losing considerable during the difference in the paid up value.

"Speculators" who planned to make a "clean up" on these shares will be out of luck if the bill can prevent it. Premier Gardiner declared. He made it clear that the government declined to protect not only the delegates attending the Imperial conference but the delegates of the Empire Parliamentary Association, who are coming through Canada from all parts of the country.

Time Limit for Tourists

Automobiles Entering Canada From South May Now Stay for Sixty Days

Ottawa—Permits for automobiles entering Canada from the United States have been extended from thirty to sixty days, according to an announcement made by Hon. Jacques Bureau, minister of customs and excise.

Under the law, American tourists entering Canada have been permitted to drive their cars in this country for thirty days without the return of duty. This period has now been extended to sixty days with the option of an extension to ninety days under certain restrictions.

It is understood that tourists wishing to remain the full limit of time will be required to obtain a special permission and credentials from customs officials or similar representatives. For some years past the customs departments, Canadian automobile clubs and the tourist bureaus interested in the tourist traffic generally have been urging the change in the thirty day restriction tendered.

Would Aid Boy Scouts

Ottawa—Suggestion that more portions of the 10 per cent reduction in income tax, presided for by the present leader of Hon. J. A. Robb with the Finance Department, be used for the Boy Scouts movement, was made in the House of Commons by Hon. Peter Heenan. Lieutenant-Governor Willoughby made an earnest plea for financial support to the movement in the province of Alberta, and Hon. Eric Richardson said he spoke on behalf of the Ontario Government on behalf of the Ontario Association.

Premier on Vacation

Suggest Conference on Old Age Pensions

Matter Was Recently Brought Before Alberta Legislature

Edmonton.—Old age pensions came before the Alberta Legislature following the introduction of a motion by J. T. Shaw, Liberal leader, that the Government should introduce at the present session an old age pension bill and an amendment moved by A. A. McGillivray, Conservative leader, that the question be discontinued at the present session and if introduced at it, that it be introduced as soon as federal legislation upon this subject has been enacted by the Dominion Parliament.

Premier Brownlee adjourned the debate with a view to the bringing in of a compromise amendment on which all those opposed to the motion might agree.

Premier Brownlee thought that even if the federal House decided to adopt a principle of $60 per year, the ability for payment of old age pensions, nobody would very seriously challenge the legislature.

If a conference were held, he suggested, it might be possible to reach a decision. Government retained to accept 100 per cent. liability, that it would undertake seventy-five per cent. of it and he pointed out that the Ottawa House might lower the per capita basis, which would relieve Alberta's share of the burden to possibly $60,000 a year.

To Protect Shareholders

Shareholders of Saskatchewan Co-Operative Elevator Co. to Be Compensated

Regina.—Shareholders of the Saskatchewan Co-operative Elevator Company will receive $125.56 for every 1911 12 share for which they originally paid $120. The bill providing for the winding up of the company passed the Legislature in its committee form. In other words, a shareholder holding the limit of 50 of these shares will receive $6115.56 when the property has been sold and the affairs of the company finally wound up.

Shares issued in the next few years will be worth proportionately less, the last shares issued being worth $27 87 under the provisions of the bill. Provision is also accounted for in the fact that the shares issued in different years are paid up in varying amounts, ranging from $12.50 for the 1911 12 shares to $7.50 for the last for six, thus losing considerable during the difference in the paid up value.

"Speculators" who planned to make a "clean up" on these shares will be out of luck if the bill can prevent it. Premier Gardiner declared. He made it clear that the government declined to protect not only the delegates attending the Imperial conference but the delegates of the Empire Parliamentary Association, who are coming through Canada from all parts of the country.

Time Limit for Tourists

Automobiles Entering Canada From South May Now Stay for Sixty Days

Ottawa—Permits for automobiles entering Canada from the United States have been extended from thirty to sixty days, according to an announcement made by Hon. Jacques Bureau, minister of customs and excise.

Under the law, American tourists entering Canada have been permitted to drive their cars in this country for thirty days without the return of duty. This period has now been extended to sixty days with the option of an extension to ninety days under certain restrictions.

It is understood that tourists wishing to remain the full limit of time will be required to obtain a special permission and credentials from customs officials or similar representatives. For some years past the customs departments, Canadian automobile clubs and the tourist bureaus interested in the tourist traffic generally have been urging the change in the thirty day restriction tendered.

Would Aid Boy Scouts

Ottawa—Suggestion that more portions of the 10 per cent reduction in income tax, presided for by the present leader of Hon. J. A. Robb with the Finance Department, be used for the Boy Scouts movement, was made in the House of Commons by Hon. Peter Heenan. Lieutenant-Governor Willoughby made an earnest plea for financial support to the movement in the province of Alberta, and Hon. Eric Richardson said he spoke on behalf of the Ontario Association on behalf of the Ontario Association.

Premier on Vacation

Atlantic City, N.J.—Premier W. L. M. King, of the Dominion of Canada, has arrived here for a brief vacation. Mr. King refused to see newspaper men on his arrival, declaring he wished to rest.

Russian Refugees Fighting in China

Vanguard of Chang's Army Suffer Many Casualties

Shanghai—Six thousand "white" Russian, vanguard of Chang Tso-lin Chang's army, defeated forces of Wu Pei Fu in Honan province in a battle in which the Chang forces alone suffered 2,000 casualties.

The Russians, believed to be refugees who fled to China to escape the Bolsheviki in their own country, are fighting with Chang's army in his attempt to force Ru way through the territory of the hostile Wu as it can attack he Cantonese forces in the south.

Will Settle Legality of General Strikes

Job for Governments Not Judge, Says Earl Birkenhead

Liverpool.—The broad fundamentals of the Government's legislation to be introduced restricting the privileges of trade unions were outlined by Earl Birkenhead, secretary for India, in the course of his address here. "We do not think it proper to leave the legality or illegality of a general strike to depend upon the exposition of opinion of a judge, however distinguished he may be," said the Earl. Instead that it should be laid down by the authority of that parliament which has declared that one and hereafter that weapon is forbidden, and look because criminal."

Morrow gold—a milling sterling of it—contributed to add the British Empire Games to the world's list. The London Government considered a shilling fighting fees in the Tower Inlon Club of Kiev, and the best quarters of a navigation company. It is stated by the police that they deliberately set the buildings ablaze for excitement.

Ambassadors Deny Rumors

England Has Not Given Italy Free Hand Against Turkey

Constantinople—Rumors that England had granted Italy a free hand against Turkey as compensation for Italian occupation in China as affirmed public opinion here that the British and British ambassadors to day denied public details.

Deputy Mahmoud Bey, chief spokesman for President Mustapha Kemal Pasha, pointed the idea of Italian aggression, whereas the fact that the reinforced Turkish army, I re pared for any eventuality.

Grain Shipped Cheapest Route

Western Growers Have no Preference as to Ports

Halifax—M Howe, member of the Dominion Grain Commission, and another Commissioner for the Eastern grain men who inspected the elevator facilities in Halifax port, states that no grain movement of grain through Halifax can be anticipated pending additional facilities for handling.

Mr. Howe contended western grain growers had no preference as to the route so to ports. They were put mainly interested in economy and facilities. Both John and Portland looked all the same to them.

Mr. Howe said before the cheapest route and by way of Hudsonian be points out that United States grain shipments through Canada is a trend when that port offered the best and most profitable.

Addressed Large Audience

New York—The toilet of President Coolidge in eulogy on George Washington were received by radio to congress millions throughout the world—the largest audience ever addressed by man. Mr. Coolidge's voice was broadcast throughout the country by the Bell System of Canada and re-broadcast in Europe London, Paris and Berlin Belgium by and reports say that reception was unusually clear.

Petition for Recursion

Ottawa—A petition bearing 2,500 names asking for the return to Alberta of its natural resources "without restriction" was tabled in the House of Commons by H. H. Hatfield, Conservative, Toronto West Centre.

BRITAIN SENDS STRONG NOTE TO RUSSIAN SOVIETS

London—The rioting rile of British feeling against Communistic propaganda and the unsatisfactory relations between the British Govern ment and the Russian Soviets have culminated in a stern warning ser warded by Sir Austen Chamberlain to the Soviet Government against the "continuous breach of solemn engage ments" between the two Govern ments and also the wide-spread Bol shevist propaganda.

The warning was in the form of diplomatic note, declaring in the strongest terms that the Anglo-Russian trade agreement would be abrogated, if the present diplomatic relations completely severed, unless "the flagrant viola tions of the solemn agreement be ceased by the two countries resp."

The note, addressed to M. Rosen gol, Soviet representative in London, is the strongest of the numerous pro tests sent to Russia since the trade agreement was signed in May, 1921, and is one of the most out spoken dip lomatic documents ever issued from Downing Street.

The note briefly dwells on the Anglo-Russian torious from 1924 with the famous Zinoviev letter which led to the main causes of the subsequent denial of the Martlonald Labor Government.

The members of the five brigade were arrested early this after they had been commanded for breaking and shilling fighting fees in the Tower Inlon Club of Kiev, and the best quarters of a navigation company. It is stated by the police that they deliberately set the buildings ablaze for excitement.

Found Guilty of Arson

Six Kiev Firemen, Including Chief Are to Be Executed

Kiev, Ukraine—Severe sentences have been passed on ten firemen found guilty of arson. Six of them, including the chief, will be shot, two have been sentenced to ten years' confinement and the other two sentenced to six years in prison. The chief was found guilty of setting fire to the building they would have their pay of three months of a new period of ill activity.

The members of the fire brigade were arrested several days after they had been commanded for breaking and shilling fighting fees in the Tower Inlon Club of Kiev, and the best quarters of a navigation company. It is stated by the police that they deliberately set the buildings ablaze for excitement.

BRITISH CRUISER FOR PROTECTION IN NICARAGUA

London—The order issued by the British Government for the big cruiser Colombo to proceed to Nicaragua has attracted but slight attention here. The cruiser Colombo is one of the pre-war and sub-cal ships. It is not believed that its presence will affect the situation there in the slightest degree. The British Government has also ordered the Colombo to proceed to Nicaragua, after that the Colombo is going to Nicaragua merely as a refuge for British nationals. The Colombo was said to be instructed to stand off Bluefields, with out sending a landing party unless and to keep in readiness to take British subjects from the shore if they endangered by the civil warfare is in progress.

The official complained that the Colombo was not ordered to bloom Corinto, the port of Managua. Simply indicated it was unable to give for these assurances of American protection of foreign lives, the statement.

The Bluefields is battleship in Nicaragua waters at present. It is a sister ship of the Colombo.

Twelve Battalions Under Orders

But Number of British Troops for China is Unknown

London, both militia reservists the strength of the British forces which should be arriving in China waters in the course of the next few weeks in sum quarters. It is put as high as 10,000, but no exact details are available under those, but "Twelve Thousand Troops for China" figured on the posters. The twelve battalions which are under orders, under the command of Major-General John Duncan, will embark his men each at about two in all.
